DEMOCRATS WIN GREAT VICTORY

WILSON AND MARSHALL ELECTED—BOTH HOUSES OF CONGRESS CAPTURED MANY STATE TICKETS ELECTED

The Democrats won a great victory in the election last Tuesday. The Wilson-Marshall ticket was swept into office, carrying with it State offices, congressional seats and control of a number of legislatures that will have the chance to dust Republicans from the United States Senate and add to the Democratic strength in that body.

Second only in interest to the overwhelming victory of Wilson and Marshall was the strength shown by Roosevelt in Illinois, Pennsylvania and other states. Indications are that Wilson will have 410 of the 531 votes in the electoral college and that Roosevelt would have more than 100. President Taft has received 12 votes—those of Idaho, Vermont and Utah.

Mr. Jeffrey Hurt

S. R. Jeffrey was painfully hurt last Monday by jumping from his buggy while the team was running away. He and A. M. Bowen were on a business trip in the southern part of the county and were returning home when one of the horses which they were driving stumbled and fell upon the buggy tongue, breaking it. This frightened the team and they ran away, and in jumping from the buggy it is supposed that one of the rear wheels struck Mr. Jeffrey in the head. He was rendered unconscious for some time and his son, Eddie, went down in an automobile and brought him home. His injuries are not serious. Mr. Bowen says the trip to Red Bluff and Possum Kingdom was equal to a trip to the Dallas Fair.

Next Big Monday

Will draw many people to Graham and the great bargains we offer will draw many of them to this store. S. B. Street & Co.

Townsend-Billingsly.

At the residence of A. D. Billingsly one mile west of town, Mr. Leonard Townsend and Miss Beulah Billingsly were united in marriage last Thursday evening, October 31, Elder J. H. Fisher officiating.

The affair was very quiet, no invitations being sent out. Mr. Townsend is a young man who was raised in the Komo community and comes from a good family of people. Miss Beulah is the daughter of A. D. Billingsly, who has lived about forty years in Young county. Mr. Townsend has won a prize in this lovely and gentle girl. May the sweetest blessings of divine providence crown their lives with joy, peace and a long life of happiness.

County Election Quiet.

The county election last Tuesday was very quiet, only about one-half of the voters going to the polls. There were 327 votes cast at this box. Of this number 18 were Socialists and 11 were Republicans.

You can be assured of quality when you buy "Batavia"—W. I. Tidwell & Sons.

John A. Brown was here yesterday from Mount Pleasant. He said that Uncle Pink Brooks told him to inform us that he had decided to accept the Graham post-office just as soon as matters could be arranged, and that he would be here in a few days to look after things.

Our representative says that J. C. Farley drove into the cotton yard at Jean on the first day of November with the largest load of cotton that so far has come there. Mr. Farley had on his wagons ten bales drawn by a single team. The ten bales averaged over 500 pounds each.

The drillers out at the oil well are down to a depth of 1600 feet and are preparing to put in 8-inch casing. The hole will then be reduced to six inches and put down to the depth contracted for, which is 2,200 feet. The probabilities are that they will go beyond the contracted depth in case a producing well is not struck by then.

CULTIVATED PECANS PRODUCE BEST

AFTER TEST TAX COLLECTOR PARSONS BELIEVES BARREN TREES WILL PRODUCE IF CULTIVATED

Our popular county tax collector, J. E. Parsons, brought to our office a sample of pecans and a twig from one of the trees on his farm. The nuts were above the average and the twig was clustered with them. Mr. Parsons says his pecan grove has been cultivated this year and as a result many of the trees which he considered barren have born well and the harvest is greater by far than when left alone. He believes grafting of barren trees is unnecessary. Cultivation and care will make all trees produce nuts. The pecan demands more fresh air than any other tree and for that reason they should not be allowed to grow too close together. To produce well they must be in the open and well cultivated. Mr. Parsons believes that Young County can be made famous as a pecan country if the people will only study the culture of the trees and plant groves.

We agree with Mr. Parsons. Young county is this year in the lead in Texas in the production of a pecan crop. This brought considerable money into the country that we could not have gotten otherwise and has helped all lines of business. Young County should raise more pecans but it takes so long to grow the trees that the thought of planting and raising them is not being given the proper consideration by our people who live on the streams and in the sections best adapted to their growth.

To Our Readers.

The Leader is short on news this week, owing to the fact that we lost about three days installing and tuning a new gasoline engine to take the place of the old one, which had to be laid up for repairs. We expect to be at ourselves again next week and will endeavor to get out a good issue.

MONDAY GREAT TRADES DAY

MERCHANTS OF GRAHAM ARRANGE TO GIVE HANDSOME PRIZES AND ENTERTAIN BIG MONDAY VISITORS

Nearly twelve years ago The Leader succeeded after considerable effort, to inaugurate a Big Monday or Trades Day for Graham to be held on the Second Monday of each month. These days have become more popular as time passed and the last was attended by the largest number of people that has likely ever attended a gathering of the kind in West Texas. This with splendid trade our merchants have been enjoying, has caused our people to endeavor to make the day a gala one. A program has been arranged to entertain the visitors who come and some handsome prizes in cash and merchandise are to be given away. A strong effort is being made to bring a larger crowd here next Monday than ever before. These days have been of great benefit to the country people. The people are brought together once each month and ideas on farming and stock raising are discussed, trades, good for all concerned, are consummated, new friends are made and old ones are met, so that the days are both profitable and pleasant. We want to see these Trades Days made greater and are glad our merchants have seen fit to try to make them so.

Change in Date of Publication.

Owing to the change of schedule on the G. T. & W., which leaves Jacksboro just fifteen minutes before the Rock Island gets there, and throws the Leader a day late in reaching Loving, Jean, Olney, Orth, Newcastle, and several places, we will after next week go to press on Wednesday. Our advertisers will confer a great favor on us by sending in copy for changes in advertising by Monday noon.

Judge Lynch Dead.

Judge J. C. Lynch died at his home at Albany last Saturday morning at 3 o'clock, after an illness of about three days.

John Cornelius Lynch was born in Cork County, Ireland, on April 10th, 1828. He came to America when twelve years of age and lived for a time in Baltimore, Maryland. On November 15, 1859, he was married to Miss Fannie Jane Gunsolus. To them were born eight children—Mrs. M. L. Manning, Tibbie Lynch, (dead), W. C. Lynch, P. J. Lynch, R. E. Lynch, J. D. Lynch and Mrs. Winnie L. Miles, (dead).

Judge Lynch had been a member of the Methodist church for years and the first quarterly conference ever held in Shackelford County was at his home. He was one of the prominent Masons in the State and for many years was one of the leading stockmen of West Texas. He stood high as a man and wielded a great influence for good during the early pioneer days of this section and has a prominent place in Texas history.

Woodmen Halloween Supper.

The entertainment and supper given by the W. O. W. and Woodmen Circle at their hall last Friday night was not so well attended as had been hoped for, owing to the disagreeable weather, but the program was carried out in full and all who were present enjoyed the evening. We had hoped to get a list of the prizes given and the names of those to whom they were awarded, but were unable to get them in time for this issue. The oyster supper was up to the standard of those superintended by John C. Bower heretofore, and those who attended—The Leader force being among that number—can testify to the fact that the oysters were exactly right.

LYCEUM NUMBER TO-MORROW NIGHT

MR. HARRY BOWSER, GREAT HUMORIST, TO BE AT GRAHAM OPERA HOUSE FRIDAY NIGHT

The second number of the lyceum course that has been arranged for Graham will be given at the opera house tomorrow night. It is expected to be one of the best numbers that will be given.

Mr. Bowser, a lecturer, is the person that has been sent here by the company that has arranged to give this series of lyceum numbers. He is a man who stands high in his profession and from the many things we have read and heard we feel no hesitancy in recommending him to our people. There is always some good to be gained from a fine lecture and we hope Graham will give him a crowded house.

The company that sends him here has the following to say of him:

Mr. Bowser comes to the lyceum platform and chataquas this season with a new popular lecture on "The Philosophy of Fun," or "Heart Smiles." It is a live one. It is a novel presentation of a happy message. It is at the time a riot of wholesome fun and a heart message to every man, woman and child. Mr. Bowser is richly endowed with the rare gift of true oratory, a pleasing polished, powerful speaker. He has an easy, natural, magnetic platform presence, always with his audience and his audience always with him. A close student of human nature, he is a happy dispenser of the sunny side. All of his lectures create cheerful, invigorating atmosphere. Whoever you are, wherever you are, you will like this man Bowser, because he likes you and wants to give you a lift into the sunshine.

Young County Singing Convention.

The Young County Singing Convention met with the Hunt class on the fourth Sunday in October, and to say it was a success is mildly expressing it. The crowd was immense, the largest we have ever seen at a convention. At the noon hour that prince of good fellows, Gilbert, told us that dinner would be spread on the prairie just in front of the school house after which the crowd repaired to the tables which fairly groaned under chicken-pie, salads, fruits, cakes, pickles and in fact everything that heart and inner man could wish, presided over by a lot of most hospitable Southern women who ever carved a turkey and graced a happy home. The program was excellent, by far the best we have had in a long while. The next session will be held at Orth on the fourth Sunday in April, 1913. We would be glad if the youth half of the County would join us in this work.

The paper is not filled with mischievous or idle thoughts to fill an idle hour. It provides healthy pastime, recreation that builds up. It is to the minds of people what sound athletics are to their bodies.

At a cost of less than four cents a week The Youth's Companion opens the door to a company of the most distinguished men and women in America and Europe. Whether they are revealing the latest discoveries in science or describing great industrial achievements, or telling of their wanderings in strange corners of the world, or feeding the imagination with rare stories, they are giving Companion readers the best of themselves.

Seven serials at least will be published by The Companion in 1913 and nearly 200 other complete stories, in addition to some 50 special contributions, and a treasure box of sketches, anecdotes, experts advice as to athletic sports ideas for handy devices round the house, and so forth—long hours of companionship with the wise, the adventurous and the entertaining. Announcement for 1913 will be sent with sample copies of the paper to any address on request.

Every new subscriber who sends \$2.00 for the fifty-two weekly issue of 1913 will receive as a gift The Companion Window Transparency and Calendar for 1913, the most exquisite novelty ever offered to Companion readers; also, all the issues of The Companion for the remaining weeks of 1912, free.

A box supper was given at the tabernacle Saturday night and was attended by a large crowd. He is an experienced teacher and carries as good papers as any one in the State. There is no reason why Loving should not have as good a school as there is in this part of the country.

The election passed off quietly and a good interest was shown in the voting.

The school building has been repaired and is in readiness for school.

Union Carbide Sales Company

CHICAGO, ILL., Oct. 29, 1912.

Mr. J. H. Washburn,
Graham, Texas.

Dear Sir:

Some time ago we brought to your attention a form of contract under which we are supplying our high-grade UNION CARBIDE to owners of bona fide acetylene town-lighting plants at a price somewhat lower than our regular warehouse selling prices, the material to be used only for town-lighting purposes and not to be resold. Several hundred acetylene town-lighting plant owners have taken advantage of the lower price provided for in this form of contract, and we would like very much to see your plant operating on as favorable a basis as any of the other acetylene town-lighting plants throughout the country.

We anticipate that it may be possible for us to have one of our representatives call upon you before long in order to go more thoroughly into the matter of our Carbide requirements, our prices, etc., and pending such time as this may be possible, we believe it would be fair to allow you the benefit of the contract prices above mentioned on your carbide requirements, and we are to-day notifying our Dallas warehouse man to accept your orders for UNION CARBIDE when accompanied by remittance at these reduced prices. There is, therefore, absolutely no reason why you should continue to purchase inferior carbide.

Hoping that we will have the pleasure of supplying your entire carbide requirements in the future, we remain,

Very truly yours,
UNION CARBIDE SALES COMPANY.
By F. B. O'Connor.

I have been trying for some time to get reduced prices on carbide with the expectation of reducing the price of gas to consumers. If I can get favorable prices on this carbide I will in the near future reduce the price of gas to conform to the price I pay for carbide.

Respectfully,
J. H. WASHBURN.

Porto Rico's New Wonder.

From far away Porto Rico come reports of a wonderful new discovery that is believed will vastly benefit the people. Ramon T. Marchan, of Barceloneta, writes "Dr. King's New Discovery is doing splendid work here. It cured me about five times of terrible coughs and colds, also my brother of a severe cold in his chest and more than 20 others, who used it on my advice. We hope this great medicine will yet be sold in every drug store in Porto Rico." For throat and lung troubles it has no equal. A trial will convince you of its merit. 50c and \$1.00. Trial bottle free. Guaranteed by all druggists.

Flu and Typhoid.

There is a good reason why you should have an Olan's Flu and Typhoid Remedy. It saved 40,000,000 people, but H. T. Alston, of ... N. C. once prevented a week with Electric Bitters. "I was in a terrible plight when I ... I wrote ... my kidneys were badly affected and my liver was in bad condition, but four bottles of Electric Bitters made me feel like a new man." A trial will convince you of their matchless merit for any stomach, liver or kidney trouble. Price 10 cents at all druggists. (Advertisement.)

Hallowe'en Party.

One of the most enjoyable social events of the season, occurred on last Thursday evening, when the Misses Weaver and sister, Mrs. Lowe assisted by spooks, witches and goops, entertained at their home in East Graham, where fun and frolic held sway until a late hour.

As the guests arrived they were met at the gate by ghosts and were silently conducted to the door and ushered into the reception hall where other ghostly forms presided.

A big Jack-o-lantern grinning from among a mass of golden leaves welcomed each spirit into the invisible world where supernatural beings were gathered to hold high revel. A profusion of roses, chrysanthemums and autumn leaves added beauty to the rooms, dimly lighted by Jack-o-lanterns and candles incased in rosy cheeked apples.

The "bobbing for apples," shooting at hearts," whereby each man or maid found his or her fate, doing stunts, for which directions were found in a nut shell, previously passed by ghosts, were some of the games that attributed to the merriment of the evening.

While the fun-making was at its highest, a weird knock was heard at the door which was immediately interpreted and answered by the ghosts who ushered in a Witch escorted by a Goop, who had come to further gladden the hearts of the guests by giving them a glimpse into the mysterious future. They then retired to the Witch's Den, where she reigned supreme throughout the remainder of the evening.

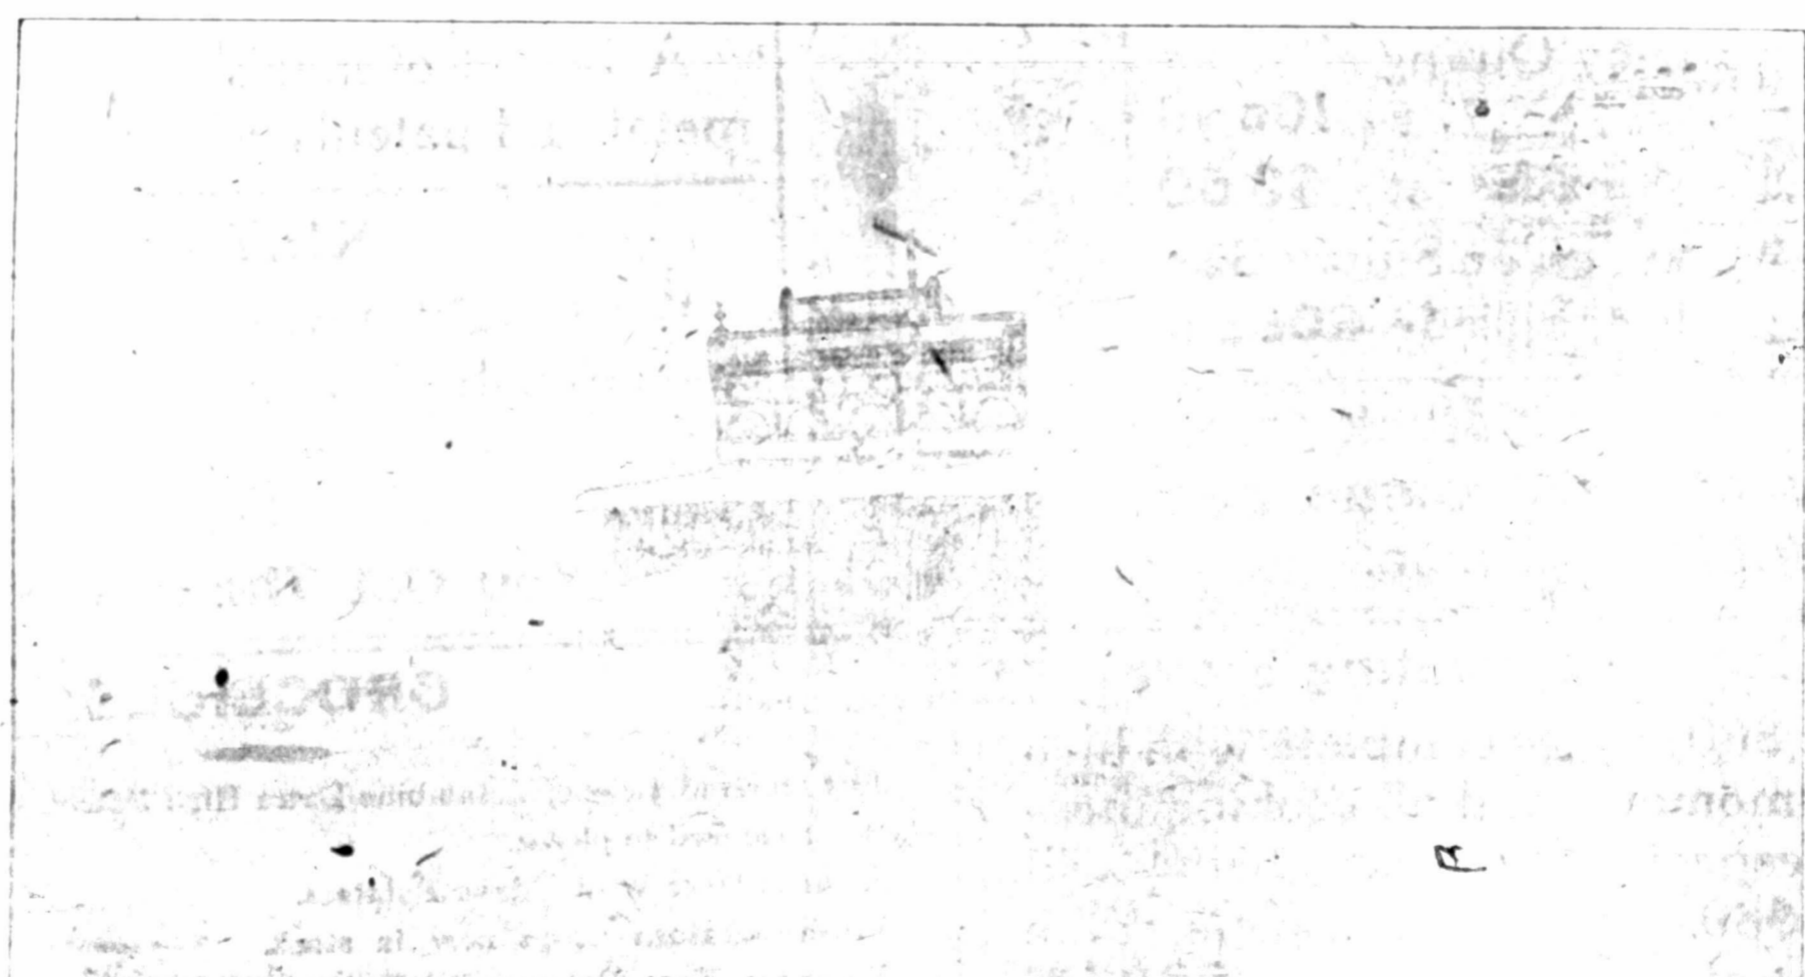

The ghosts from the spirit land proved themselves human enough to enjoy a silent flirtation with the young men present and succeeded in arousing the envy of the young ladies who wished themselves ghosts too. All efforts to make them speak failed and they were not heard to utter a word and remained mysteriously unknown throughout the evening.

As the hour was drawing near for the ghosts to depart to the other world they ministered to the assembled company, refreshments typical of Hallowe'en,—pumpkin pie, pop-corn balls and grape mist.

The hour of midnight came and as they went to their rooms, each was given a tiny Jack-o-lantern to "light their way home," and a number of gifts among the happy throng. The gifts were Misses Bessie, Kay, Howard, Gordon, Coleman, Misses Lyon, Ethel and Betty Bys Rogers, Bessie Fletcher, Emma Graham, Olla Kidwell, Corina G. Baker, Lavinia Martin, Ella ... John ... and ... and Anna Dell Nelson, of Albany. Messrs. W. T. Finch, A. W. Kay, S. B. Street, Milton Snoddy, Leslie Scott, Chas. Hinson, P. K. Deats, W. McClatchey, Lewis Rubenkoening, Ben Neal, Prof. Gilliland, Mabry Short, Horroca Tidwell, O. E. Fisher, G. Howard and Rev. J. Hall Bowman.

The boy's appetite is often the source of amazement. If you would have such an appetite take Chamberlain's Tablets. They not only create a healthy appetite but strengthen the stomach and enable it to do its work naturally. For sale by Sloan Drug Co. (Adv.)

RAISING TICK-PROOF CATTLE

A Texas dealer is developing cross-bred cattle that are absolutely immune to the Texas fever tick—the insect responsible for an annual loss in the South alone of from \$40,000,000 to \$100,000,000. This new breed is the result of six years of experimenting and is being watched by experts with the keenest interest.

What these tick-proof cattle are, how they are made immune and who the discoverer is, are all explained by H. D. Smith, of the Kansas Agricultural College, in the article,

Tick-Proof Cattle for The South

in this week's issue of

The COUNTRY GENTLEMAN

NOW READY

Five Other Big Features in This Issue Are:

Have You Made Your House Spark-Proof? by Harry Snowden Stabler, the insurance and financial expert. This is one of a very valuable series of articles on "Our \$100,000,000 Fire Waste." It explains many practical precautions that will prevent fires in country houses.

Shall We Grow Or Buy Peaches? by Professor Frank A. Waugh, head of the Horticultural Department of the Massachusetts Agricultural College, an expert at the Massachusetts Experiment Station and one of the country's leading authorities on peach culture.

Ready-Made Farms, by A. C. Laut. An

account of how the new settlers in the West are helped by the better government and the land companies to get a good start on new land.

Our Living From Ten Acres. A personal account of the experiences of a man who started an irrigation farm in Idaho and succeeded from the beginning, written by J. E. Butler—the man who did it.

The Burnt Hills Claim, by Francis Lynde. A story of pioneer adventure and love, by the author of a number of popular Western novels. It will be published in two parts.

The foremost authorities in the country are conducting the valuable, regular weekly departments. The Country Gentleman deals with the many interests of the farmhouse, particularly with cooking and home management; The Farm Business Forecast is a look ahead at business conditions; The Sign Boards of Science gives significant facts about new and practical methods that are being used in progressive farming communities; The Political Observer writes of the political subjects and new laws that are of interest to cattlemen and farmers; The Home Acre explains the newest and best ways of conducting the home garden, and the Poultry and Dairy Departments give the newest and most important information concerning these two subjects.

Literary Club.

The Chautauqua Literary and Scientific Circle held one of the most interesting sessions in its history, with Mrs. J. C. Fisher last Wednesday afternoon at 4 o'clock.

Mrs. Gallaher presided. The study for the hour was taken from "Social Progress in Contemporary Europe," a resume of continental history Mrs. Garrett read another of her excellent papers, this being an able and comprehensive treatment of the "French Revolution." Mrs. Parrish read a very article, "What is the matter with the Census?" culled from "The Chautauquan." Mrs. Parrish also read a most enthusiastic "Road Table" description.

The first session of the club was held at the home of Mrs. J. W. Gaffney, to represent them at the Women's Club Session to be held in Fort Worth November 19-22. Mrs. H. B. Gaffney was elected secretary. The club was entertained by interesting and interesting.

Sorghum Flat.

Once again I've steered for the open sea and on my homeward stake but will stop at the staunch old Halloway Tavern to avoid a collision with some of our gifted writers. I am monarch of all I survey; my rights, there are none to dispute, so, with no one to object, will take the chair here by the stove this cold evening.

Talk about the shade of the sheltering palms, praise the bamboo tree and its wide-spreading leaves, yet there is a tree which grows here that has won great renown—the waving peean. And to the groves of oak, trees all footprints seem to lead. Just visit one of these groves some day. You'll forget your cares and your eyes will grow bright as you walk the tall trees sway with the breeze and the nuts come down like hail. But if you were gathering peean on the banks of Cedar Creek this cold day you would wish you were in a Pullman car instead.

As the weather is bad for cotton picking, we pass away the time sitting around the old-fashioned log fires and pop corn, crack peean and sing "When The Clouds Have Rolled Away." Miss Lila Ritchey is on the sick list this week. She says it hurts her feelings awful bad to pick cotton. S. M. Gann and brother, J. W., are preparing to sow their farm in small grain this season.

E. L. Cretzinger cut feed for the Wyatt Brothers Tuesday. Jack Frost was too slow this time for most of the feed is already housed. Tom Hodge and family, of the Cotton Plant community, are visiting the family of J. H. Wesley at this place.

I'm going to hand my chair, and also my pencil, to Cedarite, and as I hand them over and retire to the background, I but echo the sentiment that so generally lights up every face about me when I say, long life and success to the Leader. Ignorance.

Don't waste your money buying strengthening plasters. Chamberlain's Liniment is cheaper and better. Dampen a piece of flannel with it and bind it over the affected parts and it will relieve the pain and soreness. For sale by Sloan Drug Co.

Huffstutle.

Last Thursday morning, October 31, Mr. J. S. Thompson, at about 3 o'clock, was called to his final resting place. Mr. Thompson had been in a serious condition for some time. His remains were laid to rest in the Woodson cemetery.

Cotton picking is the order of the day here. The north winds have blown a considerable lot of the cotton out on the ground, which makes cotton picking a slow job.

Willie Otts and wife came in Sunday from their trip to Wilbarger county. They had the misfortune of losing one of their horses, which became choked and died. Fortunately, they were within about 15 miles of home when the horse died. They borrowed a buggy and came in home, and Will then got another horse and went back after his wagon.

NOTICE.

Examine your shoe before putting on your shoes. Most fires are caused from defective shoes. E. J. Freeman, Fire Marshall.

Malcolm Kramer returned Tuesday from the Clark ranch in the northern part of the country. He says a great deal of small grain has been planted in that country and it is all looking extremely well since the recent rains.

Mount Pleasant.

While we all slept last Friday night and dreamed of cotton fields arrayed in green and white we wist not that Jack Frost was running his icy fingers up and down the rows. But, alas, when the warm hearted sun arose next morning, sending forth his life giving rays and the beautiful green leaves failed to wave their usual welcome and began to turn that sickly dark green we knew the work was done.

Rev. O. E. Dickson filled his regular appointment here last Sunday. Bro. Dickson preached an interesting sermon on giving to the Lord. Collection was taken for the State Missionary fund and more than double the amount due by this church was immediately forth coming.

T. L. Oliver, of Loving, seems to have suffered more than most any one from the late fall storm in the Loving country. Two of his daughters were on their way to the residence and the hail beat them on the hands and head severely, though they were not seriously hurt. The cotton crop of Mr. Oliver was almost entirely destroyed.

W. M. Jiant brought in last Monday a pear from his orchard. The pear was as large as those raised in California, or any other place, and the flavor was the equal of any we have ever tasted, which is further proof of the fact that Young County can be made to produce our fruit the very best, if we will but plant and care for it.

Last Thursday night was hallowe'en. There was but little attention paid to it by the young boys and we have heard no complaints of mean tricks played. Our office was visited about 10 o'clock by two lady spooks who wished to talk with other spooks over the phone, but they were nice to us and we are glad they called.

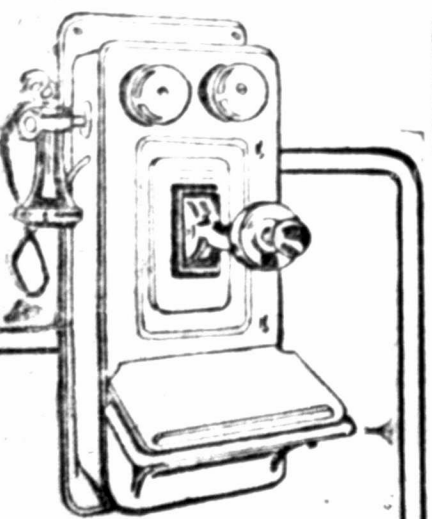

Dr. M. H. Chism reports a nice outing over in the Komo community last Saturday with his old friend George White. It was a family reunion and the doctor took a photograph of the group. Mr. White told him he had not then ginned any of his cotton, but had some twenty bales already picked, which he will be hauling to the gin this week. He has a way of stacking it and covering it with screen wire and thus it is cared for until it can be hauled.
