DEATH AND SUFFERING FOLLOW COLLAPSE OF BRIDGE

Omaha, Neb., June 16.—Five persons are known to have been killed and thirty-five injured when three coaches of Chicago & Northwestern train No. 606 plunged through a bridge over Cottonwood Creek near Crawford, Nebraska early today. The death list may run higher, as many of those injured may die. Many passengers have not yet been accounted for. The train was bound from Lander, Wyoming, to Omaha on a branch line. The engine and several coaches passed safely over the bridge before the structure collapsed. The coaches were hurled into the flood waters which have caused thousands of dollars of property damage in the last three weeks. Rescue work is impossible for hours because of the swollen waters. Those imprisoned in the coaches cried vainly for help. Relief trains have been rushed to the scene.

OFFICERS RAID SOUTH BEND BAR; ARREST TWO MEN

It has been reported that whiskey has been selling over the bar at South Bend. The officers were apprized of the fact and have been working on the information given them with the result that last night Officers Hoffman and Murphy caught L. M. Looper and Homer Pettigrew in the act of selling intoxicating liquor, known to old timers as corn whiskey, over the Rex bar in South Bend. The liquor was confiscated and the men arrested and brought to Graham this afternoon. The liquor was locked in the vault and the men put in jail, according to Deputy George Black.

BILL STEWART SEES STRANGE THINGS TODAY

W. A. Stewart was at his place of work early Saturday morning and was able to see strange and wondrous sights. "Bill" (that is W. A.'s name) could stand in the front of the Morrison Company's store and see Fort Worth on the mountain west of Graham. He claimed he could see switch engines and smokestacks of the packing houses in Fort Worth.

The reporter in his usual rounds called by the store and "Bill" was still very vociferous about what he was able to see earlier in the day and called in W. J. A. Cooper to substantiate his statements. These two gentlemen claimed that still others would testify that they saw the same things.

The reporter slept soundly all night and was not able to see the strange scenes that the two gentlemen mentioned above saw earlier in the day. It is not our purpose to say anything about what caused "Bill" and others to see Fort Worth with two smokestacks and switch engines on the mountain west of town. "Bill" is able to take care of that and will take pleasure in telling any caller all about it and if necessary he will call in witnesses. The reader is referred to "Bill" for further particulars.

DR. W. A. MORRIS ONE OF HIGH FIVE IN GUN SHOOT

Ranger, June 10.—A record for the zone and what is thought to be a record for the entire United States, was made by the five high men in the last 100 birds of individual shoot completed yesterday, when five men broke 497 targets out of a possible 500. They were: E. F. Woodward, Houston, 100; J. S. Day, San Antonio 100; John D. Clay, Houston, 99; Dr. W. A. Morris, Graham, 99, and M. E. Woodward, Comanche, 99. E. F. Woodward of Houston won in the five-man State team race and will represent Texas in the zone shoot at Huron, S. D., in August.

Walton Hindman and wife returned Friday to their home at Electra after visiting several days in Graham.

Mr. and Mrs. I. E. Carson and little son returned recently from a month's stay in Tulsa, Oklahoma.

GRAHAM IS NOW DRESSING UP FOR THE CHAUTAUQUA

The C. L. S. C. is dressing up for the big five day chautauqua that begins here Saturday. The Daily Leader has from day to day carried messages to the people about the fine programs that are to be rendered, and it is hoped that our people will take advantage of the opportunity for five days real entertainment. The sure way to see all the program is to buy a season ticket from the committee who are now calling on the people.

EMERY SUCCEEDS F. W. GALBRAITH AS LEGION HEAD

Indianapolis, Indiana, June 14.—John G. Emery, of Grand Rapids, Michigan, was elected national commander of the American Legion by the executive committee, to succeed Fred W. Galbraith, who was killed in an automobile accident. Emery served as major overseas and was wounded. He served in the San Michel and Argonne. He is a real estate broker.

Mrs. F. M. Burkett returned Saturday from El Paso.

W. C. LYNCH OF ALBANY DIES AT MINERAL WELLS

R. E. Lynch, president of the First National Bank, received a message Friday morning giving the sad news of the death of his brother, W. C. Lynch of Albany. He had been in bad health for some time and for three months has been confined to his room. He went to Dallas several weeks ago for an operation but the surgeon found after making the incision that there was no chance for any relief. He also spent some time in Mineral Wells but no relief came.

His body was shipped from Mineral Wells to Albany where interment took place Saturday. He leaves a wife and three children and a large number of relatives to mourn his death.

R. E. Lynch and D. G. Vick left Friday morning for Albany to attend the funeral.

GARAGE BURNS 7 TRUCKS LOST

The Davis garage in Bishop addition, one mile west of the court house, burned this morning about nine o'clock. The Leader reporter is unable to learn the origin of the fire. There was no water for fire protection and the garage and seven trucks with trailers were burned.

ONE MAN IS KILLED, TWO WOUNDED NEAR SOUTH BEND

YOUTH MEETS DEATH ON PUBLIC HIGHWAY

Arthur Stone, fifteen years old, was found dead on the Dallas pike south of Denton last night. Several bones were broken. It is believed he was killed by an automobile. Indications are that he was dragged for about fifty yards.

YEGGMEN GET \$2000 CASH FROM SAFE

Amarillo, Tex., June 13.—Yeggmen blew the safe of the Fort Worth and Denver passenger station last night and escaped with \$2,000 in cash and several hundred dollars in company checks. The office fixtures were demolished by the explosion. Employees saw two men fleeing.

OIL LAND SUIT IS WON BY COLQUITT

Austin, June 11.—In the Fifty-third District Court of Travis county, judgment for plaintiff was returned by a jury in the case of the State of Texas and O. B. Colquitt et al as co-plaintiffs against the Graham Oil Syndicate of Young County, involving title to 250 acres of oil land in the Clear Fork of the Brazos River in Young county.

Colquitt and associates held a permit under the State to prospect for oil, while the defendants claimed to hold a lease on forty acres of the land involved. On this tract of forty acres is an oil well and it was the ownership of this well which brought about the litigation. The well is said to have already produced over \$40,000 of oil.

MISS GRACE STEWART RECEIVES DEGREE FROM UNIVERSITY

Mrs. A. D. Stewart and daughters, Misses Kathleen and Mary, went to Dallas Monday to be present at the commencement exercises of Southern Methodist University. Miss Grace, the talented daughter of Mr. and Mrs. A. D. Stewart, receives her degree from this excellent institution this week. She was reared in Graham and is a favorite with all who know her. She led her class through the four years high school course, graduating with the highest honors. She has made an enviable record in college and is very popular with professors and student body.

Donnell and Lois Johnson are visiting relatives in Wichita Falls.

One man is dead and two others are wounded as the result of a mysterious shooting affair which occurred at 11 o'clock last night in an alleged "choc" and gambling joint, about one mile west of South Bend.

A. B. Marks, former construction superintendent of the Wichita Falls & Southern Railroad was shot through the head and died at South Bend at 2:30 o'clock this morning.

Will Gibson and C. R. Whitlow were each wounded, but not seriously, Whitlow being shot through the jaw and a bullet piercing Gibson's neck. The shooting is shrouded in mystery so far as county officials were able to learn today.

According to the testimony of those present a number of men were participating in a poker game in the tent. Suddenly, and without warning, at least three revolvers it is claimed, were thrust through the opening in the tent and a fusillade of shots followed.

Marks sank to the floor of the tent mortally wounded at the very first shot.

No arrests have been made in connection with the murder, although the two proprietors of the place were landed in jail here on a charge of manufacturing choc beer. County Attorney Himson stated this afternoon. Nine other men were arrested on charges of gambling.

"An all-day investigation by the County Attorneys and the Sheriff's department has failed to throw any light on the matter, although it is said that the shooting was probably the work of hi-jackers, who, losing their nerve in an attempted hold-up, became excited and fired the volley of shots at the occupants of the tent.

On the other hand there is some talk of some hidden motive—a fight or something—which led to the killing.

Marks lived in Venita, Oklahoma, and his body is today being prepared for shipment there. He has a wife somewhere in Kansas, it is said.

This is the fourth killing in the vicinity of South Bend during the last few months. P. Brustmeyer, proprietor of the Lone Star Lunch, near the Brazos River bridge, was killed by some unknown persons some weeks ago. Fred Hughes, former deputy sheriff, shot and killed Abe Enloe and his son a short time ago.

DR. W. O. PADGETT WILL SOON HAVE LARGER QUARTERS

Dr. W. O. Padgett has leased a suite of four rooms in the new Smiley building on the east side of the square which is now nearing completion. He will move into his new quarters as soon as the rooms are completed.

Dr. Padgett was reared near Graham and has many friends who rejoice to know of his success as a physician and surgeon. His friends will never forget his struggle to secure an education. At the age of twenty-four he moved into town with his aged mother, Mrs. Emily Padgett, loved by everyone who knows her, and entered the sixth grade in the Graham public schools. After nine years hard work he had graduated from high school and from the medical college with the M. D. degree.

He immediately hung out his shingle in Graham and was soon recognized as one of the leading physicians of Graham and has enjoyed an enviable practice.

ROY HOLLAND NOW KNIGHT OF THE GRIP

Roy Holland, who was until recently a popular employe of the Sanitary Grocery, began yesterday as field representative for Swift and Company of Fort Worth.

He has been with the company three weeks, two weeks of which time was in the house in Fort Worth and last week he spent on the field around Waxahachie.

Mr. and Mrs. M. Garten left Friday for Brownwood.

RECOGNITION OF MEXICO

A number of times within the past two years it has appeared that the recognition of the Mexican government by this government was near at hand, but up to this time it has not come to pass. Within the last few weeks we have been assured that offers have been made by this government that will settle the question definitely if President Obregon accepts the offer. Yesterday the dispatches from Washington revealed the nature of the proposals made.

It is proposed simply that the two nations enter into a treaty of commerce and amity such as will stabilize their relations, and insure that each will safeguard the proper rights and persons of the citizens of the other in their respective boundaries.

The principal trouble lies in the constitution adopted by Mexico in 1917 under which the property of aliens in Mexico may be confiscated without remuneration being made. Mexican officials claim that it is not intended that this provision of the constitution shall be enforced, but the government at Washington rightly insists that it must have assurance that it will be binding. It argues that if no confiscatory policy is intended, Mexico can have no reason for refusing to sign such a treaty as is suggested. The treaty seeks only to safeguard property rights that were lawfully acquired prior to the adoption of the present constitution, and which it confiscates without compensation. If the present government of Mexico will not sign such a treaty as offered, then, it is informed, the United States will withhold recognition until such a time as a government comes into power in Mexico which will make such a treaty.

The obstacle in the way to such a treaty just now does not appear to be any opposition from President Obregon, but lies in his fears that the people of Mexico will resent such action on his part by causing the overthrow of his government. The State Department at Washington understands this fully, but nevertheless stands firmly on its just rights. It also probably believes that President Obregon is strongly enough entrenched to comply with this just demand to take whatever hazard there may be in executing the treaty. If Mexico is not ready now to go so far, then we can afford to wait until such time as public opinion there changes, as it surely will when it becomes clearer what the effects of continuing its present state will do. Mexico can never go forward to stability and prosperity without recognition by this government. It is to our mutual interests that the treaty be signed, and the prevailing hope here is that it will be.—Favorite.

A NATION OF HOME OWNERS

Preliminary census returns show that 6,100,000 American families own homes. There are more home-owners in the United States than in any other country.

Here we find the reason for the inability of bolshevik agitators to make any headway in this country and for the general detestation in which communist doctrines are held. The man who owns his home, or hopes or expects to own one, does not take kindly to dangerous experiments in government and economies. He is not willing to take the risk of losing his property.

It would be ideal if every family could own its dwelling. The crowding of people into tenements or apartments, at the expense of health and sanitation, would then cease to be the civic problem, and there would be no profitting by landlords.

The owning of homes makes for good citizenship. He who holds title to the property on which he resides takes more interest in the betterment of the community than the one who lives in a rented dwelling. The former is anchored, while the tenant is periodically confronted with the possibility of having to move. In every way possible encouragement should be given those who suffer from the housing shortage to build their own homes. It would be a happy state of affairs if the great majority of the new houses should be erected by persons who proposed to live in them rather than by those who intended to offer them for rent.

CORN BREAD AND SUGAR

The Hugo News notes that recently a theoretical cook who makes a living by writing rather than cooking, published a formula for a new kind of cornbread. Commenting upon the recipe, Col. George Bailey, leading man on the editorial page of the Houston Post said with some heat: "About that cornbread recipe which includes three-fourths of a cup of sugar. Tell them not to do it. Sugar in cornbread is an abomination. It ought to be made a crime. It violates every tradition of the south. It insults the palate. It mocks the culinary art. When the Lord made corn, He put all the sugar in it He intended it to have."

Col. Henry Watterson, in retirement near Louisville, saw this attack by Bailey upon the newest vice, and though more than 80 years of age, the intrepid colonel rushed to the side of the Texas colonel to strengthen his arm in the attack.

In a letter to the Courier-Journal, the Kentucky colonel, after quoting the Texas colonel, says:

"Cornbread with sugar in it was an idea born of the devil, planted in New England and sent South by our enemies. It is threatening the life of real cornbread right in the land of its birth. It has done and is doing worse. It makes men trifling and women frivolous. It is responsible for most of the murders, suicides and divorces. It is the mother of bolshevism and the daddy of anarchy. It weakens the brain, infuriates the liver and grows people potgutted. It brings corns and baldness and saffronizes the complexion. It makes the nose shiny and the skin purple.

"It drives husbands downtown of nights. It causes the servants to be insolent and obstreperous. It creates an appetite for moonshine.

"It is the underlying cause of phylloxera. It emboldens a man to refuse his wife's request for money. But for sugar in cornbread there would be no war, no flies or mosquitoes, no ants or roaches, no I. W. W., no republican party.

"Let the twentieth amendment to the constitution forever prohibit sugar in cornbread, and let's have the vote right away.

"This would seem all embracing and is sufficiently conclusive. New England may know how to make beans. They say the cider in Maine is a good substitute for whiskey. It must be admitted that in Boston 'punkin pie' is no slouch. But cornbread? Let that requires all that George Bailey says and a pair of old black hands to boot—and a red bandana handkerchief—and old black mammy's voice, rich, mellow and devotional. "How firm a foundation ye saints of the Lord."—Ardmorite.

THE CAVERNS OF LURAY

In the midst of the broad winding valley of the Shenandoah River—the "Daughter of the Stars" as the Indians called it—in northwestern Virginia, flanked on the east by a line of mountains known as the Massanuttons and on the west by the main chain of the Blue Ridge range, is the quaint, oldish town of Luray.

Ten miles west is the Cave Hill, under which is one of our great natural curiosities—the Luray Caverns, to which have come to wonder, study and admire, scientists, explorers and tourists from every quarter.

Here the mysterious workings of nature have produced a veritable underground fairy place, with miles of passageways lined with the infinite variety of curious, gigantic and wonderful formations. Almost every object of nature seems to be reproduced with surpassing reality. The indescribable fantastic groupings of the weird and grotesque formations, the beauty and the coloring of the Titanic tapestry effects and the translucent and symmetrical arrangement appear to be the handiwork of nature in a playful mood.

One chamber measures about 400 feet in length by 125 feet in width. Others possess lofty, arched and elaborately ornamented domes. A most marvelous formation bears strong resemblance to a gigantic pipe-organ. When struck, these "chimes" give out low, sweet, full notes which re-echo rather spookily through the surrounding caverns.

This cavern is brilliantly electric lighted, surprisingly free from dampness—in fact the atmosphere is pleasantly delightful, the normal, year-round temperature is about 54 degrees and the journey through it an entirely new and novel and unusual sensation.

The Texas State Fish Hatchery at Dallas will have more young fish for distribution this year than ever before. More than 100,000 fish will be available for distribution. Included will be bream, perch, largemouth black bass, small-mouth black bass, Opolunas cat-fish and white perch or crappie. The last will be distributed in the fall when the weather is cool, while the shipping month for the others is June.

WHEN TO STOP ADVERTISING

A certain trade journal once requested a number of its largest advertisers to give their opinion concerning the best time to stop advertising and the following replies were received:

When population ceases to multiply and the generations that crowd on after you and never heard of you, stop coming on.

When you have convinced everybody whose life will touch yours that you have better goods and lower prices than they can get anywhere else.

When you perceive it to be the rule that men who never advertise are out-stripping their neighbors in the same line of business.

When men stop making fortunes right in your sight solely through the use of legitimate advertising.

When you can forget the words of the shrewdest and most successful business men concerning the main cause of their prosperity.

When every man has become so thoroughly a creature of habit that he will certainly buy this year where he bought last year.

When the younger, fresher houses in your line cease starting up and using newspapers in telling the people how then you can.

When you would rather have your own way and fail than take advice and win.

When nobody else thinks it pays to advertise.

HAYWOOD'S SEED-SOWING

Having been taken in the act in his own country, against which he proved himself an enemy, "Big Bill" Haywood is sowing seed in Russia, in the hope that there will sometime come to fruition a crop of mischief and evil in the United States. Having been convicted, then allowed bond, finally sentenced to a term for lawlessness and law-breaking here, he showed the yellow streak, ran away from the law, forsook his fellow-criminals who had followed his bad leadership to the penitentiary, and fled to Russia. There, defiant and adding insult to his other crimes, he seeks to foment trouble that he hopes will be in time felt in this country.

Haywood in interviews and speeches in the Russian cities is mendaciously misrepresenting the country against which he sinned and is picturing the United States as a land of a great capitalistic conspiracy. He is telling the hungry Russians that in America there are millions upon millions of food products stored away and rotting because merciless, grafting profiteers desire to corner the market and cause enormous rises in the prices of these necessities.

He is skilled in the kind of lying he does; he knows that the Russian is more interested in his ration than in the wage paid him in next to worthless rubles. He hopes that there will be many who will come to America, and that when they reach these shores they will have been inflamed to a pitch of hatred against the "capitalistic conspiracy" that they will be ripe material for the ranks of the anarchists which the world-wreckers hope to send in invasion of all the peaceful lands.

WHY RICH MEN WANT MORE

The reason a rich man is never satisfied with the size of his fortune is not necessarily because he has acquired a kind of hog instinct, writes Fred Kelly in the Nation's Business, but rather because his knowledge of affairs and his breadth of vision have grown until he sees bigger and bigger things that he wishes to do; and his ambition to accomplish is always a few leads ahead of his capital. The richest men in the world are usually the heaviest borrowers, because they are in a position to see the most to be done. Hence any man setting out to get rich might as well recognize at the beginning that from the very nature of things he can never hope to feel that he has enough.

CLEAN-UP LAWS

So far as is now known—and none of us know too much—the first Clean-Up Day on record was that by Moses, who laid down sundry laws regarding sanitation; but these laws were inaugurated that eyes might not be offended.

Today we go much further and moderns are anxious that health be conserved and that all the organs of and made strong in order that the human being may be kept healthy race may be benefited. The modern lawyer says that no man liveth to himself, every man is livable to the state that nothing he does shall injuriously affect another. Hence the clean-up laws and customs of modern times.

WONDERS OF SCIENCE

D. 1921, the same being the 5th day of September A. D. 1921, then and there to answer a petition filed in said Court on the 15th day of April A. D. 1921, in a suit numbered on the docket of said Court No. 6372, wherein, Jim Scheffers, is Plaintiff and Iose Boyce Speffers, is Defendant, and said petition alleging that he is and has been for a period of twelve months prior to the filing of this petition and actual bonafide inhabitant of the State of Texas, and has resided in the said County of Young for at least six months preceding the filing of this suit; that on or about the 24th day of March A. D. 1919, in Brown county, Texas, Plaintiff was lawfully married to Defendant, then a single woman by the name of Iose Boyce; that she continued to live together as husband and wife until on or about the 15th day of July A. D. 1919, when by reason of the cruel and harsh treatment and improper conduct of Defendant towards Plaintiff, he was forced and compelled to abandon her since which time they have not lived together as husband and wife.

Plaintiff alleged that during the time he and Defendant lived together as aforesaid, he was kind and affectionate to her and always provided for her support and maintenance, but Defendant unmindful of the duties and obligations of her marital vows, left this Defendant in July 1919, and commenced a course of harsh, cruel and disgraceful conduct towards Plaintiff and disgraceful conduct in that she commenced keeping company with other men and commenced a course of prostitution and was guilty of infidelity towards Plaintiff; that this conduct continued and Plaintiff has been on account of said conduct forced to abandon Defendant as his wife; that said marital relations between Plaintiff and Defendant still exist.

That Defendant be cited to appear and answer herein and for judgment dissolving said marriage relations,

for costs of suit, and for such other and further relief, special and general, in law and in equity, that he may be justly entitled to, etc.

NOTICE

Whereas, on the 4th day of October, 1920, the Giant Machine & Tool Company, a corporation, made, executed and delivered to V. M. Odell, as trustee a certain deed of trust upon the following described property then situated upon a certain lot of tract of land at said time owned, used and occupied by the said Giant Machine & Tool Company as a machine shop at or near the town of Desdemona, in Eastland County, Texas, to-wit:

All buildings and houses then located and situated upon said lot above described and referred to.

Whereas, said deed of trust and mortgage was executed for the purpose of securing the payment of nine certain promissory notes for the sum of \$583.24 each, bearing interest at the rate of 8 per cent per annum from date, payable annually, and all payable to J. R. Nail, and all providing for the payment of ten per centum additional upon the principal and accrued interest in case the notes or any of them should be placed in the hands of an attorney for collection or suit; all of said notes being dated October 31, 1919, and the first of same being due on or before 12 months, and the remaining notes maturing in quarterly installments of 15, 18, 21, 24, 27, 30, 33 and 36 months, respectively; and

Whereas, it was provided by the terms of said deed of trust and mortgage above referred to that the failure to pay any one of said notes at the maturity thereof should, if such non-payment should continue for a period of thirty days, mature said entire series of notes at the option of the said J. R. Nail, or the lawful owner or holder of said notes, or either of them; and

Whereas, of said series of notes the first of same matured on October 31, 1920, the second of same matured on January 31, 1921, and the third of same matured on April 30, 1921, and default has been made in the payment of all of same, together with the annual installment of interest on each and all of said series of notes, and said default has continued for more than thirty days and by reason thereof the said J. R. Nail has elected to exercise the option vested in him by the terms of said mortgage and deed of trust by declaring each and all of said notes due and payable and fully matured, and has placed same in the hands of an attorney for collection; and

Whereas, it was provided by the terms of said deed of trust that the said Giant Machine & Tool Company was thereby authorized and empowered to remove any of said property therein described from its then location subject to the terms of said instrument; and thereafter said buildings then located upon said lots above described were in accordance with the provisions of said instrument removed to Eliasville, Young County, Texas, and are now located and situated at said place; and

Whereas, it is provided by the terms of said instrument that if default should be made in the payment of said notes or any of them, and such default should continue for a period of thirty days, then that said trustee should take possession of said property and sell same, after due notice as therein provided;

Now, therefore, notice is hereby given that on Tuesday, July 5, 1921, between the hours of 10 o'clock a. m., and 4 o'clock p. m., I, as such trustee, and under the provisions of said deed of trust will offer for sale to the highest bidder for cash at the Court House door of the County Court House of Young County, Texas, at Graham, Texas, said property above described for the purposes specified in said deed of trust.

Witness my hand, this 8th day of June A. D., 1921.

NOTICE

Whereas, on the 4th day of October, 1920, the Giant Machine & Tool Company, a corporation, made, executed and delivered to W. M. Odell a certain deed of trust and chattel mortgage upon the following described property then situated in Eastland County, Texas, and now located and situated at Eliasville, in Young County, Texas, to-wit:

All machinery, tools, implements, appliances, furniture and fixtures owned by the Giant Machine & Tool Company on the 4th day of October 1920, including all machinery, equipment, tools and appliances on said date located on a certain lot, parcel or tract of land situated in Eastland county, Texas, out of the Davis Addition to the town of Desdemona, in said county and located about

3-4 of a mile from said town and being the property on said date used and occupied as a machine and tool shop by the said Giant Machine & Tool Company, and including the following described property, to-wit:

One Morgan Engineering Co. Steam Hammer No. 818;
One 24 inch Lathe, R. K. LeBlond Machine Tool Co.;
One 50 inch Noiseless Blower (Buffalo Forge Co.) with counter-shaft for same;
Four 25 feet Steel Bridge Spans, and
One 24 inch Drill Press (Machine Amos Mfg. Co. of Rockford, Ill.

All of said property being now located in the plant and machine shop occupied and conducted by the said Giant Machine & Tool Company at and near the town of Eliasville, in Young County, Texas.

Whereas, said deed of trust and mortgage was executed for the purpose of securing the payment of nine certain promissory notes for the sum of \$583.24 each, bearing interest at the rate of 8 per cent per annum from date, payable annually, and all payable to J. HEAVY RAINS IN YOUNG COUNTY DELAY PROGRESS

The continued rains for the past ten days have delayed grain harvesting, construction work and oil operations in this section. About one-half of the grain had been cut when the rains began and very little as been cut since. It will take several days sunshine to get many fields dry enough for the binders. The grain crop is light this year and it is to be hoped that the rains will ease in time for the grain to be saved.

The building program in Graham has been greatly hindered. The rains have been so heavy that very little outdoor building has been done. The contractors have everything in readiness to push several buildings to completion as soon as the rains ease.

The drilling activities in the oil fields have been practically suspended along the Clear Fork of the Brazos. All the lowlands were flooded for a few days. Water covered the engine of some of the wells, hence the flood waters have receded he light rains every day keeps rounds so muddy that it is difficult to carry on the work satisfactorily. The ground is now full of moisture and people in all lines of work would be glad to see some sunshine.

Mrs. C. W. Johnson and daughter, Mrs. Ramsey, returned last week from a short visit to Dallas.

Miss Bettie Clyce of Sherman is visiting her friend Marjorie Hudson.

Graham Shoe Hospital

TO ALL SICK FOLKS WHOM THIS WILL BENEFIT
Graham, Texas June 13, 1921
Nine months ago I had a stroke of paralysis affecting my right side. Local physicians treated me two months without results. I then spent six weeks in Mineral Wells (also \$700) and returned home almost convinced that the good Lord had frowned on me as I was home only three weeks when my voice-box (larynx) became semi-paralyzed, causing my speech to sound like the cackle of an old hen.

On March 10th, 1921, good Brother Radcliff persuaded me to visit Dr. O'Connell, a Chiropractor, who had recently opened office in Graham, and the I told him I had no faith in the new science of Chiropractic he replied it was not necessary providing I followed his instructions.

After the third visit to his office I imagine my surprise on arising from his table TO DISCOVER MY VOICE WAS RETURNED TO NORMAL. Yes, and it has been normal ever since.

I continued taking adjustments, twenty-five in all, and before the month was out had substituted a cane for the old crutch.

My bill for the whole month's adjustments was \$35 and I want everyone in the county to know that I never got so much real good out of \$35 in all my life.

W. B. HINSON.

CASS AND BOWIE MAY CALL RANGERS TO QUELL VANDALS

Fort Worth, June 10.—Rangers are expected to be sent into Cass and Bowie Counties in the next few days to assist county authorities there in suppressing the blowing up of cattle dipping vats and other depredations reported, according to information Thursday obtained from the local Ranger headquarters.

In the event that Rangers are sent into the two counties it will be at the request of citizens who probably will be called upon to provide for their maintenance, as is being done at the present time in Red River County.

Interference with the work of Jack eradication is also reported from Milam County, where it is expected that Rangers will be sent from the Austin station.

Rangers Beavers and Eabs of the Fort Worth station were sent Wednesday to Red River County to relieve Ranger William Thompson, who was operated on there Sunday for appendicitis. Only one man was requested to be sent, but Captain Hickman in command of Company B decided that two could be used advantageously.

Conditions in Red River county are reported to have been greatly improved since arrival of the Ranger detail there, and a letter has been received from the county judge by Hickman complimenting the work of the detail. It is stated that material is being hauled to repair the dipping vats blown up and that the work is going forward without delay.

FIRE DESTROYS 100,000-BUSHEL GRAIN ELEVATOR

Oklahoma City, June 10.—Fire this morning destroyed a one hundred thousand bushel grain elevator, leased by Langenburt Brothers from Cathcart & Cottrell, Oklahoma grain dealers. The loss is estimated at fifty-six thousand dollars. The origin of the fire is unknown. The elevator was partly filled with grain when it was destroyed.

to all and the whole of the above described lands, real estate and premises, and that the Plaintiffs are the owners of an undivided (33-56) and undivided (23-56), and that the Plaintiffs and Defendants are the sole owners of said land and premises so far as known to this Plaintiff, and the estimate value thereof is \$15,000.00, and that said above described lands, real estate and premises are subject to partition.

That Plaintiffs have judgment for the partition and division of said land and premises; that commissioners be appointed and writ of partition issue, and for possession of that portion that by judgment of the court may be ascertained and declared to be the property of Plaintiffs and for such other and further relief, special and general, in law or in equity, that they may be justly entitled to, etc.

Herein Fail Not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness, Willie Riggs, Clerk of the District Court of Young County.

Given under my hand and the seal of said Court, at office in L.S.) GFaham, Texas, this 27th day of May, A. D. 1921.

"FRIENDLY ENEMIES" TO BE PRESENTED CHAUTAUQUA WEEK

Millions of people have already seen "Friendly Enemies," the international dramatic success which the White and Myers Chautauqua System will present at our Chautauqua. Millions more will see it before the phenomenal run of the piece is brought to a close. It has heretofore played only the largest cities, and at city theatre prices. It is safe to assume that when the history of "Friendly Enemies" is written, it will be found that more than three fourths of the present generation of English speaking playgoers will have seen the piece.

Not only does "Friendly Enemies" embody one of the timeliest human problems of today, but it presents that problem in so moving and dramatic a story, with so deft a mixture of humor and pathos, of jest and gravity, of fun and seriousness, that it carries the audience to the very heights of dramatic sympathy and enthusiasm. It has appealed to men, women and children of all classes and conditions, not only in the

United States, but in England and Australia. In these three countries its success has been equally sensational and equally unprecedented.

Its story is familiar to all who are versed in the play successes of today. Briefly, it concerns the clash of two lovable, human and eccentric German Americans, who are the greatest friends in the world in all matters except one. That one concerns loyalty to their adopted country. One is a hundred per cent American; the other is still in sympathy with the German traditions of his youth. He is converted to Americanism, but the manner of his conversion and the incidents and play of character that preceded it can not be adequately described here. President Wilson in a speech from his box in the National Theatre, Washington, D. C., on the occasion of the premiere of "Friendly Enemies," said: "All that I can say has already been said most admirably in this beautiful play. All the sentiments I could express have been admirably represented—sentiments that I hope will soon grip the world." The play will be presented at our Chautauqua by a notable company.

SAVE IMPLEMENTS—Build Implement Sheds

A piece of farm machinery is dependable only as long as it is properly cared for and in good condition when it begins the season's service. And it can be in good condition only if it is protected from the weather when not in use. If your implements are kept under storm proof cover they are not only protected from the weather but they are where you can give them a "going over" when the weather will not permit outside work.

THREE DEATHS FROM MAD DOGS REPORTED FOR MAY

During the past month the Bureau of Vital Statistics of the State Board of Health received three reports of deaths from rabies or mad dog bites. "The disease is not fundamentally effected by the time of the year as most people think," said Dr. M. M. Carrick, State Health Officer. "If more cases are reported during the summer months the larger number is only apparent or accidental. It may be due to the fact that strays are more frequently seen and more easily caught at this time, because more people are abroad. For the same reason more people may be bitten in summer."

"The thing to do is to muzzle stray dogs and to carefully watch your own pet for symptoms," continued Dr. Carrick. "The first thing noted may be a change of character, a non-affectionate dog may become affectionate, and affectionate one may appear to have hallucinations, such as seeing imaginary flies and fearing inoffensive objects. Later he loses fear and begins to bite at things and animals, especially at dogs. Lestly at man. The animal may not necessarily froth at the mouth, but will drop saliva, and it is this saliva which contains the virus. The State Board of Health wishes to warn parents against letting their children play with dogs or cats which are not subjected to a careful examination for rabies symptoms frequently."
