GRAHAM, TEXAS, THURSDAY, MARCH 26, 1914.

Number 27

Dr. Logan City Health Officer.

At a recent meeting of the City Council the resignation of Dr. J. L. Williamson as City Health Officer was tendered and accepted.

Dr. W. H. Logan was elected by the Council to succeed him. The new City Health Officer was asked if he had a statement to give to the public. "No," he replied, "just say that I am City Health Officer." But he must have changed his mind about the statement, for he added: "I am especially interested in keeping the town clean, for by that means we will all have good health. You know health comes from cleanliness. And about that Holland's prize. We can win that next time. The fault last year was in our business section. We were given an excellent grade on the cleanliness of the residence section, but the back alleys and other places about the stores were not as clean as they should have been, and it will be my aim in the next contest to see that this part of the town is properly looked after. I want the cooperation of everybody, and any information they may want I will gladly give it. We should clean up oftener than once a year, however; in fact we ought to keep things clean all the time."

I wish to state to the citizens of Graham that I have assumed the responsibilities of the City Health Officer. I wish to state also that I am going to put my best efforts forth to make Graham the cleanest town in the State of Texas and I feel assured that this can be done if the business interests and citizens as a whole will co-operate with me and work to that aim. I am willing to receive and give advice pertaining to sanitary conditions and betterment of health of the town.

Respectfully,
W. H. Logan.

Connor Creek Sunday School.

On last Sunday the citizens of the Connor Creek community met at the school house and organized a Sunday school.

J. T. Shahan was elected superintendent and W. M. Atwood, assistant. Miss Mabel Hayden was elected secretary.

The following teachers were elected: W. M. Atwood, Mrs. Carter, Mrs. Edgar Choat and Mrs. Kimbrel.

The hour of meeting was set for 3 o'clock in the afternoon and an especial invitation extended to every citizen in the community to attend.

V. M. Burkett Loses Residence.

Last Saturday morning fire destroyed the home of V. M. Burkett in the Rocky Mound community. The fire originated in a defective flue and had gained such headway when discovered that it was impossible to get it under control.

None of the household articles except a trunk and a few small articles were saved.

Death of Mrs. Alex McLaren.

Mrs. Alex McLaren, one of Salem's beloved citizens, who has been sick for some time, passed away Tuesday.

The remains were laid to rest in the Gooseneck Cemetery yesterday in the presence of a large number of relatives and friends.

The Reporter extends sympathy to the bereaved family.

For District Attorney.

LESLIE HUMPHREY

Leslie Humphrey, of Henrietta, recent appointee of Gov. Colquitt to the office of District Attorney of the 30th Judicial District, announces this week for election to that office. Mr. Humphrey is a good lawyer, one in whom the people may have confidence in carrying out the enforcement of every law. He received practically the unanimous indorsement of the bar in this district for appointment and it is our opinion that he will make an efficient, forceful officer.

Mr. Humphrey will be busy in the Courts right up to election time and will not be able to make a personal canvass of the district and asks that you give his candidacy serious consideration. He will greatly appreciate your support and influence.

W. M. S. of M. E. Church.

The social meeting of the W. M. S. met in regular session with Mrs. McCain on Wednesday afternoon, March 18th.

The guests were greeted on arrival by Mrs. McCain and daughters, Mrs. Jones and Miss McCain. After a cordial welcome each guest was given a card with an initial of their name and a potato or a peanut. This aroused much curiosity and talk among the guests, but the hostess kept quiet, and many were the surmises as to the disposition of these. Some of the ladies, noted for their industry, brought fancy work, and their busy fingers kept time with their merry chatter.

The first on the program was the one hour devoted to bible study led by Bro. Bowman. This is always an interesting feature and all the ladies come with carefully prepared lessons.

At the conclusion of this, pencils were passed and a contest began of who could make the most words of the letters given out to each guest. Mrs. Bowman was the winner of this, and no one being able to decipher her hieroglyphics, she was awarded a beautiful hand made rosette with the society colors, purple and yellow. The hostess then announced that all the "potatoes" and "peanuts" were to line up, and again a contest given, but to be spelled and pronounced backward. This was a tie and in a draw with Mrs. Bowman Mrs. Morris won the society colors. Here a most delectable two course luncheon was served by the hostess and daughters. Then again the ladies were lined up and flowers, seeds, blubs and growing plants were passed. In each were directions in poetry for growing and their use, which was read before the guests, after which the package was presented to the party who drew it.

This concluded one of the most enjoyable affairs of the W. M. S. and every one left with best wishes for their hostess and charming daughters, and that soon we would again be entertained in this hospitable home.

Other ladies besides the society members present were: Mesdames Richey of Denison, Padgett, Marshall and Jones.

Community Co-Operation

COPYRIGHTED FARM AND RANCH-HOLLAND'S MAGAZINE

Do you fully realize what the community in which you live really means to you?

You have probably seen or heard of the wonderful educational and religious advantages, the fine stores, beautiful parks, good roads, etc., in far-distant localities, all of which mean nothing to you compared to the advantages and conveniences offered you at home.

The reason for this is that you are affected only by conditions in your own community, where you are benefited by advantages, and must suffer for lack of them.

There are only two possible

reasons why a person should remain in any certain community; their duties require it, or they simply like to live there. Isn't this true in your own case?

In either case it is distinctly to your advantage to do everything within your power to help improve local conditions, because the community belongs to you and your neighbors, and you are governed by these existing conditions.

A prosperous community is, in every instance, a desirable place in which to live because it offers its people advantages and conveniences according to the extent of its prosperity.

GRAHAM

O Graham is a city
Within the hills of Young,
Her people live contented
The vales and streams among.
Her charm is never ending,
As the varied season flits,
I love each foot of Graham
To where the standpipe sits.

Shakespeare sang of Avon,
Kipling of Mandalay,
A Texas poet wrote a line
"Down at Old Bar A,"
Burns loved bonny Scotland,
The heather and the rest,
But, as for me, I sing of Graham,
Bright city of the west.

Her homes are pleasant places,
With light and music filled,
She loves the honored places,
With peace and love instilled;
That hamlet is secluded
Whose song is yet unsung,
So here's to bonny Graham
Within the hills of Young.

Brashears' Platform.

In my announcement for commissioner of Precinct No. 1 I promised to set forth some of the principles which I shall carry out if the people trust that office to my care.

I believe in a tax rate sufficient to meet the needs of the county under strict judicious and economical management. I shall stand for good roads and shall do all in my power to promote good highways.

I will see that the road funds are applied where they will serve the people to whom they belong. I shall, if elected commissioner, keep close watch over the county's interests, and stand ready to advance the interests of the people at large.

I will give you statements from time to time, giving information through the county papers as to the financial condition of the county, under plain, itemized statements. All other business coming under the management of the Commissioners Court shall have my best services.

Thanking you in advance for your influence and support on July 25th.

Yours to serve,
H. Brashears.

Daughters of Confederacy.

Mrs. Mary L. Manning was hostess to the U. D. C.'s last Friday afternoon.

With Mrs. W. A. Morris in the president's chair a short business session was held, for the purpose of receiving the resignation of the president, Mrs. J. E. Norris. The vote was taken and her resignation was accepted with much regret by the chapter. Mrs. Irene McLaren was elected to fill the unexpired term, and we feel sure that nothing will be left undone on her part, as her heart is always with the U. D. C.'s. As there was no further business the rest of the afternoon was spent in several very interesting games of rook, after which the hostess, assisted by her daughters, Mrs. Vick, Miss Manning and niece, Miss Richardson, served delicious refreshments consisting of pear salad, cheese sandwiches, olives, crackers and hot chocolate with whipped cream.

Besides the members present were: Mesdames Bob Black, Buck Stewart, Davis and Gullledge of Fort Worth and Miss Richardson of New Mexico.

The next meeting will be with Mrs. J. L. Steen, April 16. The president requests that each member be present as there is important business to come before the chapter.

The following program will be used:

The funeral of Mrs. R. G. Walker was conducted at the residence at 9:30 o'clock last Thursday morning by Rev. G. B. Hall.

Mrs. Walker had been a patient sufferer for a number of years. Early in life she united with the church and lived a consistent Christian life. She was born in Missouri February 2, 1844.

She leaves a husband, two daughters and three sons, besides a host of friends and relatives who shall miss her.

Christian Ladies' Aid.

PRISCILLA CLUB

The home of Mrs. W. D. Norman proved a refuge for the "Priscillas" who braved the "March winds" Tuesday, for an afternoon of needle work.

Mrs. Duncan favored the guests with several selected songs. Mrs. Crabb and the hostess gave musical numbers on the piano. After roll call refreshments of ice cream and cake were served to fifteen members and the following guests: Mesdames Eichelberger, J. Norman, A. M. Prophetic Words of Frances E. Willard.

When we began the delicate difficult and dangerous operation of dissecting the alcohol nerve from the body politic, we did not realize the intricacy of the undertaking, nor the distances that must be traversed by the scalpel of investigation and research. One thought, sentiment and purpose animated those saintly "Praying Bands," whose name will never die out from human history: "Brothers, we beg of you not to drink, and not to sell!" This was the single wailing note of those moral Paganinis playing on one string. It caught the universal ear and set the key of that mighty orchestra, organized with so much toil and hardship, in which the tender and exalted strain of the Crusade violin still soars aloft, but upborne now by the clanging cornets of science, the deep trombones of legislation, and the thunderous drums of politics and parties.

We are told that "public sentiment requires saloons, and the votes prove it." We are willing to abide by that test when the votes are counted. But we claim that no public sentiment is actual that does not express the voice of the home as well as of the street. What would be thought of the assessor who should ignore women in making up his estimates; of the policeman who should count them out when he made arrests; of the judge who should declare their sphere so different, the dear, delightful creatures, that penalties and prisons were not for them? Upon that score, however we have nothing to complain of! There our rights have been most clearly recognized. But when we, the people of the United States, come to speak with that ballot which is the tongue of time, where are we then?

There is no doubt but that the right to prohibit the sale of intoxicating liquors for drinking purposes will, in the future, be largely based on the harm they bring to the people who never drink them. For the liquor traffic is an assault upon the non drinker. This claim, always virtually put forth by temperance people, needs the emphasis of constant reiteration. We hold that it is the harm that drinking does to the man who does not drink which gives the non-drinker the right to prevent the drinker from doing him that harm. Prohibition is self-protection, and is based on the elementary rights of civilized man.

The temperance cause started out well-nigh alone, but mighty forces have joined us in the long march. We are now in the midst of the Waterloo battle, and in the providence of God the temperance army will not have to fight that out all by itself. For science has come up with its glittering contingent, political economy deploys its legions, the woman question brings an Amazonian army upon the field, and the stout ranks of labor stretch away as far as the eye can reach. As in the old Waterloo against Napoleon, so now against the Napoleon of the liquor traffic, no force is adequate except the "allied forces."—Union Signal.

Your Cotton Will Come Up Standing Like This When Planted With the LEDBETTER "One Seed" Corn and Cotton Planter

COME in and see the only real cotton planter. The planter with a positive, precise force feed, that will take linty cotton seed, just as it comes from the gin, and plant the seed in a straight, narrow line—one at a time, equal distances apart—as regular as buttons on a card.

Other planters can be set to plant "thick or thin", but this planter will plant thick—a bushel or more of seed to the acre—without bunching, or thin-down to a bushel to six acres—without skips.

Each plant stands alone with its own few inches of growing room—cuts the work of chopping down to one-half and you can take your own time about chopping—plants keep on growing and make stocky, vigorous bushes.

When you plant your cotton with a Ledbetter "One Seed" Corn and Cotton Planter—one seed at a time, evenly spaced—you can plant the best seed that money can buy at no more cost than ordinary seed, because none are wasted in useless bunching. And you get 5 bales of cotton on the same land that grew only 4 before, because there are no skips in the row.

When the Ledbetter "One Seed" Corn and Cotton Planter is set for planting corn, it is strictly a corn planter, without an equal for that purpose—dropping without fail a single grain at any distance desired from 8 to 48 inches. And it plants peas, kaffir corn, milo maize and other similar seeds with the same regularity and precision, and with peanut planting attachment, peanuts large or small, shelled or in the shell.

A double guarantee is behind every Ledbetter "One Seed" Lister Planter. That of the manufacturers, The Southern Plow Co., Dallas, Texas, and ourselves. Not only guaranteeing it as a planter, but as a powerful, strong, effective lister.

COME IN TODAY—We want you to see this planter whether you intend buying a planter now or not.

MT. PLEASANT

We have the best season in the ground now that we have had for several years at this time of year and farmers generally speaking are well up with their work. Corn planting is a little late as a rule on account of the ground being cold, and yet the grass is rising early. Stock can almost live on the range.

When I first read Gringo's "Poetry and Plagues" I was undecided as to whether he was an out of date school teacher, an unsuccessful poet, an agricultural demonstration agent or just some ordinary clod hopper whose wife had reprimanded him for not cutting "any kind of stove wood" at all. Then it dawned upon my mind that I am acquainted with Gringo, hence I am inclined to believe the latter is true. Really I think Gringo knows more about a "line of traps" than any other line of work any way.

I had a long talk with Goose the other day. He is the most intelligent goose I ever talked to, and I think we ought to promote him to a better name. Goose said his letter for last week wasn't much, but I say that scrape he got John Clark into was a dandy, and worth a year's subscription to The Reporter. I "heap know" John. He once lived here in the "hub" and if you will promise to keep mum I will say John is a good neighbor.

Quite a good deal is being said from time to time about degrees in heaven and about more "stars" in some "crowns" than others. I want to ask the Correspondents "what do you think about it? As I understand it we are only promised "eternal life." Jesus said.—St. John 3:16; "For God so loved the world that he gave His only begotten son that whosoever believeth in him should not perish; but have everlasting life." I don't see any degrees in that or any promise of more "stars" for some crowns than others.

Brunette, I thought about your "real nice weather" the other day while the snow storm was on.

Say Brunette, we have "big heaps" of lying machines scattered promiscuously around through the country. Of course there's none in town.

What has become of Jack o Diamonds? If he only knew how much he is missed he surely would show up.

Just be patient Salemite I will attend to your case about next week. I haven't gotten the feathers out of my eyes yet.

Sorrel Top evidently has a poor opinion of candidates. Seems to think they should not mix up with the bible. Perfectly natural. Sunday fishermen don't mix with the bible much any way do they Sorrel Top? No. No one told me who you were. I just guessed it.

Catch a big one some week day Sorrel Top and I will happen around and help you eat it. Sorry I haven't an automobile, but may be I will own one in about four years.

Dreamy Eyes if you will pardon me for slighting you in my other effort on rhyme I will promise to not forget you if I should ever happen Hgq.iz. rr should ever undertake to write another "forty-horse power" poem. But for the respect I have for the patient (?) editor I would try one now. But I must not defer the task too long as my critics will run out of a job. Critics are "born, not made" and they must have something to feed upon. They are utterly incapable of originating anything themselves that is worth while, but are ever ready, like beasts of prey, to rush out of the brush and pounce upon anything that hap-

pens to possess even a degree of originality or merit.

"Honest confession is good for the soul," so I plead guilty to having a good deal of self-confidence, and so has every man and woman who are of any account. But it had never dawned upon my mind that I was an "egotist" until Gringo gave me a hint of it, and even yet, strange as it may seem, I am not sure that I am imbued with the spirit of "egotism." And even though I were, is not the spirit of anarchism the more destructive to society? Now I am by Gringo like a little boy I once knew was by his father, after his father had thrashed him, when he said, "I don't see why papa didn't go to town and jump on a 'man.'" The only consolation I get out of Gringo's harsh criticism is in the fact that anarchists always attack those whom they regard as leaders or rulers, hence I get his opinion of "big me."

Joel Blackwood, Lewis Brooks and Albert Brown went across the river Sunday. They say Mr. Turner can sure play the organ.

Grandma Nichols is quite sick at this writing. She was 80 years old in February. We always deeply sympathize with aged people when they are sick.

A cloud of sorrow hovers over our community now on account of the death of Uncle Johnny Dixon, which occurred on the night of March 17. Thus passes one of the old land marks of this community, and thus we are reminded that some one of us will be next.

Plow Boy.

BAYLOR SPRINGS

Hello Mr. Editor and Correspondents. As it has been several weeks since I last wrote will try again.

We have been having some pretty cold weather. Doesn't seem much like spring, and if Homeite doesn't take pretty good care of her poultry they may freeze.

MARKLEY

We are still on the map, but with the many climatic changes it has been hard struggling to stay any place.

We have some sickness in our vicinity. Mrs. M. M. Wallace at this time is in Wichita Falls Sanitarium. At last reports she was improving.

Mr. John Owens is up, but not well.

Mrs. M. A. Stewart is improving but not fast.

Mr. Wm. Logan, an old-time Young county boy, is here visiting his brother, J. P. Logan.

The farmers are done planting corn. They are not planting very much. They will plant

a large acreage to sorghum, kaffir, oats and millet. A normal crop of cotton will be planted.

Stock of all kinds have gone through the winter in fine condition, that is if the winter is over. Some cattle are changing hands at fancy prices. Sam and Bob Nixon sold their twos at \$42.50 per head.

Wm. McMurtry sold his twos to N. J. Jones at \$40.00 per head.

There is no stock cattle changing hands. We small farmers have learned a few things and one of them is that ten to twenty cows will beat the rent of a farm. My advice is for every farmer to hold his good cows if he can and plant more feed and less cotton, and by so doing we will have more money, better schools and more schools—the children will not have to stay at home to pick the cows.

We have three more weeks of school and will all be sorry when it is out for we have the best school we have had for a number of years.

But do we give the teachers the encouragement that we should? Do we visit the schools and try to stimulate teacher and pupils to greater activities by kind acts and words? If you have not done these things try it and watch the children's faces brighten and a smile over spread their faces also that of the teachers, that is if he is doing his duty.

I have been reading all that has been said in The Reporter on this Papacy question and I become amused at the ignorance of we protestants. In our literary schools we preach consolidation of the schools for a greater proficiency of work, but in our religious schools we have a great variety of them. We protestants have many

heads of creeds. Papacy has one. We protestants fight each other. Papacy conciliates the warring factions. Then why not lay down the armor of prejudice and put on the whole armor of unity; which is faith, hope and charity, and the greatest of these charity? Then I say let us consolidate. Will you do it? Dare you do it? By consolidating we will eliminate the weak teachers from the strong and by so doing we will build up Christianity, not creeds. In unity there is strength. The gospel ship is large enough for all of us. Will you all get on or do you want to go in a little old boat of your own? Bono.

HOOKEY HOLLOW

ORTH

Well, Plow Boy you miss the mark when you think I am a Catholic.

I was at Big Monday and saw Kid and Plow Boy and the Goose or the Gander one. I can't tell them apart. I have forgotten which is which. If there were any more of the Correspondents there I will have to admit that I did not recognize them.

Mr. Editor I bet the next time I come to see you, you will be at home or I will stay there till you come.

Charley Killion was in Orth riding a wild horse.

W. S. Hustage went to Fort Worth this week.

Geo. E. Leberman went to Ft. Worth last week.

Dan Keith and Geo. Leberman went to Olney the 20th.

There has been some visiting done at night, at least some of the people around Orth have lost some meat.

If you had been in Orth the 21st you would have thought you were in Fort Worth or some other seaport. There were five or six autos on the square and buggies till there wasn't no use, and several wagons, but no candidates on the ground for which we feel thankful. I understand that one of the Graham candidates is up in this community very often, but he don't seem to be electioneering much. He seems to be hunting for gold he has dug in several places I understand. Now don't ask me to tell his name. He is all right but I can't vote for him because he wants money too bad.

Now, Plow Boy I can't think for a minute that you think any of us Correspondents are Catholics. I would rather be called a socialist and you know I don't want to be called that so you get that out of your head.

Miss Jimmie Bird has been sick for some time and her sister, Miss Annie Bird, has been teaching her room.

Some one broke into T. J. Routon's warehouse and took what he wanted.

John Clark is at work for his Uncle T. E. Clark east of Graham five miles.

The people of this community are going to form an Independent Telephone Company.

Correspondent I don't like your idea of consolidating the schools. Don't the people that live a good ways from school have a hard enough time getting there? I say that is another step against the poor and God knows they are hard enough pressed as it is. Now take a man, a renter, one that works on the halves; put him off five or six miles from school, he has no horse of his own and a bunch of little children. How are they to get an education?

And the idea of having two or three teachers with these country schools. For instance, a school that hasn't but twelve or thirteen scholars in the principal room. I used to go to school myself and there would be as high as fifty or sixty pupils, and we had a school that the teachers of those days would make some of the teachers of this day and time ashamed of themselves, that is if they would do such a thing. They are like some of the candidates, out for the money there is in it. Plow Boy I am not throwing dirt in your eyes, but you know I am right. But such is life in the far west as the Irishman said when the snake bit him.

Some of this was written last week but I failed to get it off so will send it this week.

Kid you must not make the Plow Boy mad or he never can get elected.

The forty-two game is something awful. The players don't take time to go to dinner; they send to the store and have it brought to them. Uno.

COUNTY LINE

I do not know what kind of weather prevailed in Texas on the 18th of March, 1913, but I do know that today we are made to realize we have one of those regular red sand storms. From the looks of things in the north we imagine that real estate is rather high up there, today.

Corn planting is the order of the day here at present. Everyone is trying to plant first, or seems to be. We can't imagine what the farmers down this way are going to do for more seed corn if this they are planting comes up in time to get killed, for seed corn is a very scarce article in this neck of the woods.

Lila Ritchey visited Miss Mary Caudill Saturday and Sunday and attended the entertainment at Pickwick Saturday night.

Mr. Bird Stringer and Mr. Earl Pickard of Mountain Home and Ming Bend made their annual visits, or calls, at Fox Hollow Sunday.

Plow Boy, the Kid said that you thought all us Correspondents were Catholics because we never boosted you. I kinder think the Kid is mistaken, is he not? Of course you know we are not. I do my part of the boosting alright, if it's not on paper, and wish I had the gift to write half as well as you can.

Everett Newby says he sure does like to go boat riding when he can get a pretty girl to go with him, but you better be careful. Everett, you know girls are rather "scary chaps" anyway so do not sink your boat next time.

Miss Mary Caudill attended the club meeting at Pickwick Wednesday.

The post oak and elm trees have commenced to send forth tiny new buds, and the grass has begun to look—goodness, I clear forgot that time, Mr. Editor, please pardon me. I will not say another word about spring time.

SALEM

If March intends to go out like a lamb she will have to don some of the new spring duds pretty suddenly.

Corn planting is all done and in cold storage now, and as there is a good season in the ground we will get a good stand when the weather turns warm. Spring oats are blooming and gay. Looks like they are case hardened and the cold don't hurt them.

The late blooming plums appear to be killed by this cold spell and as there will be no peaches, if we have any fruit this year we will have to get it from the other fellow.

Our teacher, Miss Reta Ragland, spent Saturday and Sunday with home folks.

Mrs. Maggie Gilmore and niece, Miss Lena, returned Sunday from a two-weeks' visit at Spring Creek.

Brother Cook filled his regular appointment here Sunday.

Rob. Henderson is spending a few days up in the Eliasville country.

When we passed you, Kid, on the prairie north of Graham we were on our way to Red Springs in Baylor county and we sure went there in a hurry for those Ford cars, where the roads are good and smooth, can come nearer annihilating distance than anything we have yet struck up with. They just chew up space and spit it out and go on and say no more about it. We left Graham at 1 o'clock and before sundown we were twelve miles up the river above Seymour, and before returning we went on up in the Vera country. On the whole route traveled the prospect for wheat is extra good, and with a few light rains during the next two months a big wheat crop will be made.

Only two more weeks of school then the children will be free. Guess we will have to let them go fishing until cotton chopping time.

Mack Davis of Gooseneck visited his uncle, John Kisinger, here Sunday.

Plow Boy is a good correspondent and all o. k. More than that he shows great wisdom when he turns the defense of his war clouds over to the Menace, for of course if the Menace makes a failure on it it is no fault of Plow Boy's. But the explanations and defense put up by the Menace has just about as much weight as the defense put up by the man who was sued for cracking a kettle, as related in the last issue of Mr. Bryan's Commoner. This man had three lines of defense. First, that he never borrowed the kettle; second, that it was cracked when he got it and third, that it wasn't cracked when he carried it home. Now in order to treat Plow Boy with perfect fairness we are willing to let More Anon, if he will act, decide as to whether the man who cracked the kettle, or the Menace has put up the best defense. Plow Boy quotes the following* from an ex-priest: "Catholicism teaches her children that our public schools are plague spots, and nurseries of hell." If this be true, then why are so many thousands of Catholics patronizing our schools? There is a very large settlement of Catholics in Baylor county, and they use the state text books, and all the teachers are protestants. This same plan is followed in nearly all the states.

The priest quoted above is one who has been kicked out of the Catholic church because he was not worthy of membership in it. Every once in a while one of those ex-priests floats to the surface loaded with a lot of pamphlets claiming to be an exposure of Catholicism. He puts up this work partly in malice, but mainly in order to earn his bread and butter and the whiskey he drinks. Salemite.

CEDAR CREEK

Mr. Editor we had another cold day Saturday, March 21st but we are not disposed to sing about it this time. We put in the day whittling but it was on post oak grubs with a mattock and an ax.

Since we read Gringo's "Poets and Plagues," we have decided that we were not cut out for a poet and couldn't make a living at writing poetry and we can wield the grubbing hoe better than we can the pen anyway. So now we will take a back seat in the poetry business and turn that job over to Plow Boy.

BUNGER

From the Fort Worth Record of March 16th we take the following: "The secretary of state today filed amendments to the charter of the Quanah, Seymour, Dublin and Rockport Ry. Co., changing its name to the Central Railway of Texas and increasing the capital stock from \$500,000 to \$550,000. Work on the proposed road will begin shortly, according to L. E. Walker, president of the company, who filed the amendment to the charter. English capital is said to be behind the movement.

The road as planned will start near the northwest corner of Hardeman county and the south bank of Red River and run in a southerly direction through Hardeman, Wilbarger, Baylor, Throckmorton, Young, Stephens, Palo Pinto, Eastland, Erath, Comanche, Hamilton, Bosque, Coryell, Bell, Williamson, Travis, Bastrop, Hayes, Caldwell, Gaudaloupe, Gonzales, Karnes, DeWitt, Goliad, Refugio, Nueces, and Aransas counties to deep water terminals on the harbor frontage of Harbor Island in Nueces and Aransas counties, a distance of 550 miles. Authority is granted to construct port and harbor works at Harbor Island."

I wish this road would come through Bunker. It would give us a direct line to Rockport, a great shipping point for cotton.

Elmer McLaren had the toothache last week and he thought he would pull it, so he put a strong cord around the tooth and tied the other end of the cord to the door. Just at that time a hard puff of wind came and slammed the door to, and he thought the door was going to slap him in the face and he jumped back and out came the tooth.

In week before last letter I was mistaken in the parties that came to Bunker for candy for the candy breaking at Mr. Kisinger's. Mr. Hansford Hatfield was not with them.

FISH CREEK

Pardon me Mr. Editor I did not intend to write again, having turned my pen over to a more competent scribe. But since Plow Boy has become so almighty wise as to who I am and what my occupation is I will give him to understand he doesn't know one thing about me. I never taught school one minute in my life, therefore don't spend too much time in running around advising school boards about School Boy. You will need all the time that is coming to you in your campaigning tour and keeping something to eat on the "board" for Mrs. Plow Boy and the little ones. I don't think the voters of Young county will want a man for commissioner, who has reached middle age and has never been financially successful enough to acquire a home of his own. Hold on now Mr. don't you believe in telling the truth? Get your encyclopaedia and look up a biographical sketch of the Roman Catholic church and see if what I said isn't correct. There is where I got my Catholic dope. Those people know more about it than I do. As to More Anon driving me into the corner I had decided she had played shut mouth. Why don't she answer my questions? If the Romish are so bitterly opposed to schools why do they spend so much annually for the maintenance of schools? What are their higher institutions of learning for if they teach no higher than the eighth grade and teach the children that schools are "nurseries of hell?" Where did your lawyer in the Menace get his learning? Was he a true Catholic? We all know they don't believe in protestant schools, neither do we believe in theirs. There are more evils right at home that are more baffling to me, and I have no time to borrow trouble from distant places until I see our county at least cleared of all evils. Oh! wouldn't it then be a glorious county in which to live?

Mrs. Earl Brockman and Mrs. Megginson visited Mrs. Hamilton of Masters Wednesday.

Tom Hamilton went to Graham Friday.

The little son of Mr. and Mrs. Claud Mayes is very sick.

All our youngsters enjoyed a singing at the pleasant home of Mr. and Mrs. R. D. Tyra Sunday afternoon. It was not one of your "sparking parties" but the real thing.

There will be no entertainment at close of school as announced last week.

Frank Megginson made a business trip to Newcastle Saturday.

There seemed to be three bachelors in our community Friday and Saturday night. Don't know if they like catching or not. Didn't hear them say.

Some one of the Rocky Mound and Flint Creek girls like to look at Bill's smiles, no wonder.

Well, as we are in school and don't know our lessons very well will ring off.

INDIAN MOUND
 Let's we might forget to mention it later on we will do so right now. When we met a week ago last Saturday night to pound Bro. Wilson, our pastor, this was done as a charitable deed, not because we thought Bro. Wilson was poverty stricken or entirely unable to work, for we don't believe either one. And so far as pounding our neighbors that were unable to work instead of Bro. Wilson, I will say if we have any such persons in this community I know nothing of it. But, to those who do know of any such neighbors, if they will let it be known to this Kid I will guarantee them a larger pounding than this one was.

The health of our community is pretty good at present.

FLAT ROCK
 Good morning Mr. Editor and Correspondents have you plenty of room for me this morning? I am not going to stay long for I haven't much to say.

I don't believe there is a family in this community that hasn't had some sickness the past week. Some are better and some still in bed.
