A BOOSTER FOR TERRY COUNTY FOR THIRTY-FIVE YEARS—“BELIEVE IT OR NOT.”

PRINTED IN TERRY COUNTY, ON THE SOUTH PLAINS, THE IDEAL DIVERSIFIED FARMING SECTION FOR THE FEEDER-BREEDER OF LIFE STOCK—WHERE THE ANIMALS AND ABUNDANCE OF FEED CONVERGE
VOLUME THIRTY-FIVE BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, SEPTEMBER 29, 1939 NUMBER 8

The New 1940 Ford To Be Here Next Friday

The dates have finally been announced to local dealers that the beautiful new 1940 Ford will be on display in the Tudor Sales Co. show rooms next Friday, October 6th. This goes for the 1940 Mercury as well, according to Mrs. W. B. Tudor, who stated that there would be several changes, none very radical, in the new model. From pictures, the grill work around the hood and radiator seems to show the greatest changes.

But we will have to see the car itself to note other changes. There was a salesman meeting for the area being held Wednesday of this week, attended by Carl Lewis and Lucky Pace. Friday there will be a preview showing at Dallas, for dealers, which will be attended by Mr. Tudor.

We believe that the new Ford will be a great car, and Tudor Sales is ready to show you. The floors of the show room have been redecorated and are really beautiful, ready for the showing of the new model Fords and Mercurys. Remember the date and place.

Dodge-Plymouths Are Selling Says Jordan

F. A. Jordan, junior member of the Jordan Motor Co., informed us this week that they sold two Dodge cars Friday, and in the past week sold a number of Plymouths. A lot of prospects are in view, he stated, and they expect a good business this fall. A Plymouth was to be delivered late Wednesday.

We note also that their used car lot was pretty well cleaned out, showing a demand for them lately since the Mexican pickers have come in. The Jordans are well pleased with their business since establishing it here last spring.

However, will state that while this firm believes strong in advertising, they do not think much of what they did yesterday or last year. They look to the future.

Rio Reopens Tonight For Its Fall Run

Mrs. Earl Jones, proprietor of the Rialto, Rio and Ritz, the string of the three theatres in Brownfield, is announcing the reopening of the Rio, which has been closed since spring. The opening show will be tonight, with a good program. The Rio, which is extra well equipped and seated, will be open all fall and winter, longer if business justifies.

The opening show will be "Range War", featuring some of the best stars in Hollywood. The Sunday show will be "Blackmail", which is also classed high. While the advertised program runs only until Monday night, other shows for next week will be announced in the theatre.

Craig Motor Co. Showing the New Nash

Marion Craig of the Craig Motor Co., is proudly showing the new 1940 Nash at his place this week, and is anxious for his friends and customers to call and see it whether they are in the market for a new car just yet or not.

This is a very beautiful as well as one of the best cars built in the medium price range. Yet, it is not so large that it takes a great deal more for tires, and the claim is that it is a gasoline saver.

J. E. Eakin and Family are entitled to a pass to the—
RIALTO THEATRE
—to see—
"Man of Conquest"
Be sure to present this clipping at the box office at the Rialto Theatre.
Compliment: Rialto and Herald

Resumed Terry Co. Fair Was Good

Those who saw the Terry county exhibits at the fair here last Friday and Saturday have no occasion for regrets. They were everything that anyone expected and more. In fact, nearly a dozen community exhibits of agricultural products of the county equaled in many instances exhibits we have seen of counties at the regional fair at Lubbock. This handiwork of making these displays was perhaps the work of teaching vocational agriculture as well as home demonstration departments in the rural schools.

We talked with farmers, bankers, merchants and professional men, and all expressed themselves as highly pleased with the displays of all sorts, including poultry and livestock, which, while not large, had some mighty good stuff. The ladies departments of handiwork and canning were especially good and attractive. We wish we had the space and ability of description to do justice to all these displays, but as most people in Terry as well as many from other counties saw these displays, it will be useless for us to greatly enlarge.

But here is the great benefit of the fair. In the first place, it gives the managers and people the courage to go forward with renewed effort to have a bigger and better fair next year. It creates a spirit of competition among the farming population to excel one another, which is beneficial not only to them, but to the entire section. A fair advertises the fact that Terry county is still on the map, and making great strides agriculturally.

While our county exhibit at the South Plains Fair was far down the line, we have a fine display, thanks to County Agent McClain and J. E. Shelton, secretary of the Chamber of Commerce and perhaps others. In points, however, there is little difference in the first prize winner, Lamb county and Terry, a matter of 27 points. There's was 945 out of a possible 1,000 and ours 918.

Hey, Fellers! We Need Some Money

Say, you boys who are getting out some cotton. We don't want to hold your cotton bag, but we have a money bag that will at least hold a few dollars. By Ned, we haven't bothered you about what you owe us since spring. We have continued to send your Herald whether you was in advance or in arrears. We always spoke to you on the streets, and sometimes smiled and told jokes with you. Now wouldn't it be nice as you pass the office to toss out a dollar or two, and say, "just keep the old rag coming, Jack!"

Now, don't forget this. And you'd better not for your better half will read this too, and will raise old billy with you until you have renewed. The ladies, bless them, don't forget so easily. So better drop in Saturday and pay up, then when the little woman asks you about the matter, you can tell her that you've done settled with old Jack, or Uncle Jack as some of you call us, for another year.

Chesshir Reports Good Grade and Staple

In conversation one day this week with Herman Chesshir, manager of the West Texas Gin, he informed us that the grade and staple of Terry county cotton was the best he had ever seen, all the Accalas going extra strong on both. In fact, says Herman, we are getting some real cotton this year.

He says that he has bought none less than 7-8ths, and that most of it goes 15-16ths, and some an inch and over. He believes that the major part of the crop will grade 15-16ths, middling. He contrasts this with former years of bulfutz that blew out in your face like flour when you cut a bale.

Uncle Jack Blankenship is vit in N. M. this week.

Nature Provides Cover Crop, Says Eudy

Joe Eudy, who has a fine farm north of town about seven miles is not only a persistent reader of farm news and new ideas, but he is a close observer as well. Saturday down at the agricultural displays of the several communities, he pointed out one especial advantage of farming in Terry county. Says Joe, pointing to long and large bunches of crab grass and Colorado grass hanging in the Challis booth, "See that grass?" "Yep," says we, "some one had a very grassy crop, was it you?" But here is the point he was making. The U. S. Department of Agriculture is spending millions of dollars to get a real cover crop that will hold the land after the crop is gone, yet not interfere with the making of the crop. Well, we have it in Terry county, without the formality of getting it started.

In fact, you may drive where you will over the county, and these two grasses are way up in the corn fields, yet they did not come on in time to greatly interfere with cultivation. Back east, crab grass especially seems to come up with the crop, but it really has to get hot up in July and August for it to start here. The stuff now is as green as Bermuda grass on a tank dam, and is well enough sodded to stay there until spring and keep the farm land from blowing.

There is still another grass we note in driving over the farm area of this county, which looks considerably like what we call tickle-grass back in the east, but is different. We are inclined to think it would dry up and blow away before spring, as it has a very delicate stalk.

Bill Joe McGowan Is Initiated

After two years in Tech college, Bill McGowan, son of Atty. and Mrs. Joe J. McGowan is taking his third year in the University of Texas, Austin, and we note that Bill has been fully initiated into the Greek letter fraternity, Phi Chi, whatever that means. It seems that they call the first week down there "rush" week, and everyone rushed into some society of the alphabetical order. Must be a new deal institution. Anyway, hope Bill did not rush out from under his hat.

Bill is following in the footsteps of his Dad, and we hope he makes as good, conscientious lawyer as old Joe. And we believe he will, for he has always been popular here with his age as well as grownups. His first two years at Tech were pre-law majoring, and of course he will finish in two years and get his degree at U. of T. If Bill sees this he will understand what we mean by rushing out from under his hat.

The University publicity department reported 380 Greek letter pledges to twenty-one different societies. We suppose Bill's society is a law fraternity. Ours was Epsilon Sigma, Bill.

Local Man Honored For Selling Record

A Brownfield salesman, C. D. Ray, has been honored for meritorious achievements in the gas refrigerator selling field because of high selling records since Jan. 1. This announcement has been received from George S. Jones, Jr., vice-president and general sales manager of Servel, Inc., Evansville, Ind.

The recipient of the honor is a member of the sales force of the J. B. Knight Hardware Co. He is one of a group of sales people in various parts of the United States who have won recognition as master "Servel Star Salesmen," according to Mr. Jones, who stated: "He has received an attractive silver lapel button awarded for high sales of Servel Electrolux refrigerators within a twelve-month period."

G. W. Paynor of Brownwood, has accepted a position with the Sanitary Barber Shop.

Have You Seen That 85-Acre Melon Patch?

Five miles almost due south of Brownfield is what many believe to be one of the largest if not the largest watermelon patches in Texas, and perhaps anywhere else. The 85 acre field is situated on the farm of Mr. T. A. Lowe, and is perhaps better known as the old Goodpasture place. The melons, however, are being produced by W. J. Wingo on the shares. We have seen 5 and 10 acre melon patches before on several occasions and they looked big, but this one takes the rag off the bush as far as we are concerned.

In places, one can almost step from one melon to another, yet the ground is literally covered with small melons that have been cut off the vines to give the large ones the full benefit of the vine. These melons weigh anywhere from 35 to perhaps 75 pounds, and some of the younger sections of the field are not ripe. There are several varieties, but the large, round, black variety in predominate. There are also long blacks and striped melons. Two colored men are employed to help load trucks, and they seem to be in their element—heaven to them.

Mr. Wingo stated to the Herald that he sold more than \$1300 worth of melons from the first 13 acres to come in, and that they were nearly all gone. Other sections are now ripe, and others will be in another week or two. He figures that if nothing happens he will sell around \$6,000 worth of melons from this 85 acre tract. There were a number of cars there Sunday and one large truck from Ralls. Many truck loads have gone to Fort Worth, Dallas and other Central Texas Cities.

Mr. Wingo takes great interest in showing visitors his melon field, which is on some of Terry's deep, sandy soil.

Speaking of growing melons, of late we have talked with growers here that are from Parker, DeLeon and other sections of Texas where the melon is a money crop, and they state that Terry county has any of them bested on melon growing. One said more ways "than a farmer can whip a mule." And further, there is no better or sweeter melon grown anywhere.

Oldest Citizen Pays A Call on the Herald

Grandpa R. Durham, 95, called with the taxicab driver Tuesday afternoon. With the exception that Mr. Durham is slightly hard of hearing, he is as lively as most people half his age. In fact, when he mentioned that he was born in North Carolina, we accused him of being a Tarheel. His answer was that he was sure he was. Well, that fact makes us a close neighbor of Mr. Durham, as we were raised in a neighbor state, Tennessee, and our forebears on both sides of the house, Stricklin and Jones, migrated from the old North State to Tennessee.

Mr. Durham is a Civil War Veteran, having served 22 months as a Confederate soldier. Apparently he will have little trouble reaching 100 years of age or older. This family lives in the north part of the city, and consists of five generations, his daughter, Mrs. Zilpha Hunnicut, her eldest son, Allie Hunnicut, a great granddaughter and a great-grandchild.

Bowling Alley Being Remodeled

With the installation of new balls and pins, the replacement of the two linoleum alleys with maple, the refinishing of the two oak floors, and the repainting of the walls, ceiling, and all woodwork, the Brownfield Bowling Alley will be one of the nicest of its kind to be found anywhere.

The alley has been closed during the remodeling process. It will reopen Friday. The alley is under the management of Lefty Kizer.

Lefty Blair is now with Buck's Barber Shop on the east side of the square.

N. R. Butcher Has A Mighty Fine Crop

Had occasion to drive over the the crop of N. R. Butcher, one of our real farmers, Sunday afternoon, to see his fine feed crops, corn, and beans. Mr. Butcher has sold a world of beans this summer to housekeepers in the city. They are as fresh and snappy as if they had been irrigated every day, although they have had nothing in the way of moisture except that which has fallen from above.

Like everyone else, his cotton has deteriorated badly in the past three weeks of hot, unseasonably dry weather, but he is going to make lots of cotton, lots of it going a half bale, we estimate. He made no estimate, but we figure there is enough open now to make a quarter easily and it didn't look like it was half open. He has old corn that is really good, with little worm sign on it.

As to the row feed crops of the sorghum variety, we just don't see where he is going to put all of it. Man, it is on every side, and oodles of it, well headed. In making our rounds Sunday, we saw a lot of what is generally known as "wheat maize." That is, the stalk doesn't get over two feet high, but it has a head nearly a foot long, and large. It is said that wheat farmers of the north Plains use it as a follow up crop for grain and partly to hold land. It is easy to "combine" as it stands erect, and all heads about the same height.

Thus, in harvesting this heavy grain with a combine, the grain is taken, threshed and sacked at the same operation, and is ready for the market.

Meadow Star in New Office-Home

We had occasion to visit in Meadow last Friday for a short while and of course called on editor and Mrs. Afton Richards and the Meadow Star. They are now domiciled in their new combination office with a well arranged home or living quarters in the rear. So, the editor is always in (almost) when you call on him. Of course, if Alton is like us older and more experienced newspapermen, he is out when a bill collector calls, and in if some one wants some advertising or job work.

Anyway, he has a well arranged shop, and can handsomely care for the needs of his customers in any printing line. In fact, he showed us job work the equal of any that he has recently turned out. Despite the fact that they have short crops in the near vicinity of Meadow, they are much better a few miles out, and they expect a reasonably good fall.

We returned home via the old road—west four miles and thence south. Crops in that section have been badly hurt the past few weeks, as a lot of cotton is young as well as feed crops, but they are not going to be greatly hurt in the final wind-up. However, we know it is a great disappointment to be let down like the farmers have all over the county in the past three weeks.

Notice

All vehicles on all roads and highways should have lights as required by law. On cars you should have two headlights and tail lights, good reflectors or tail lights on all wagons and trailers. Please have your lights examined and let's try to save a life. Thanks.
J. D. Stafford, Constable 9c

COBE'S OCCUPIES NEW ADDITION

Cobb's Department Store is moving part of their stock back in the new addition to their store. They have added fifty feet to their already 140x50 feet, making them 7,000 feet of floor space on the first floor and a ladies lounge in the balcony.

Mr. Cobb has shown his faith in the country by having this building enlarged and in the great increase in his stock that was necessary to fill such tremendous floor space.

Travelers Visit Farm For Refreshments

Five weary, hot and thirsty travelers, including Jack Sr., Jack Jr., wives and the little tyke, Jack III, stopped Sunday afternoon at the fine Brock home, after seeing many crops in the south part of the county. As we neared the L. L. Brock residence, we made it known that this was where we meant to unload for some liquid refreshments in the way of cool water. There are times when nothing but water will satisfy us, despite the fact that some say "they never touch the stuff." Just a few minutes after unloading, L. L. was heard in the kitchen in the vicinity of the Electrolux, and we heard ice jingling against the side of a pitcher.

Here is another real, progressive Terry county farmer, and he has a fine family. Their farm home is modern. They have butane gas for heat and lights, and to run their Electrolux. A wind-charger keeps their radio going so that they keep in touch with the entire world. Mr. Brock has a good farm, and when it rains at all, you can always depend on him having plenty cotton to sell. It is our opinion, however, that he feeds most of his grain, selling it in the hides of animals.

Mr. Brock stated that as a result of his trip out to the stock show in Harding county, N. M., recently, where his son Steve, is serving as county agent, where he took a load of Terry melons, the Clayton N. M., Chamber of Commerce has ordered 200 large ones to be used at a feed. A truck came after them, and Mr. Brock took them to the people who had melons for sale in his vicinity. Thus, the flavor and sweetness of Terry county melons that exceeds any honeycomb, is well established in that fine section of New Mexico.

The Brock family spent their vacation this year out in the northwest, and as they had a good camera, they had many pictures of the interesting scenes they visited.

Official Test is Run On Discovery Well

Latest reports available from the Stanolind Oil and Gas Company Jeanette Raynor No. 1, discovery well in Eastern Gaines County, is that by the official test the well made 1279 barrels of pipeline oil in 24 hours.

It is understood that the derrick has been removed and storage tanks constructed. Work of oiling down the roads around the well was being done Wednesday. It is not known whether the well is now flowing or whether it has been shut down in awaiting production orders.

Preliminary work is being done in the form of determining how deep the alkali is in Cedar Lake, with the idea of determining what sort of a structure to hold derrick and build base for road, for an offset to be drilled in the lake. It is understood that the first will be drilled directly west of the discovery which would throw it out in the lake.

At this time, it has not been determined how deep this formation is or how deep operators would have to go before they secure a permanent foundation on which to work.

It is understood that three offsets will be drilled in the near future. One to the west, another to the south and the third to the southwest of the discovery well. This information is reported by local operators, although it has not been confirmed by the company.

STAR TIRE STORE HAS TIRES

The most tires we have ever seen in one place are at the Star Tire Store of L. E. McClish and Arlie Lowmire. They have just added a big truck load to their already large stock.

Marnar Price, son of Judge and Mrs. W. W. Price, will read the Herald for the nine months he is in A. & M., complimentary of his Dad. Hope Marnar gets a weekly kick out of the old sheet.

Safety Program For County Schools

Through the efforts of Sheriff C. D. Gore, the Highway Patrolmen have agreed to give a series of safety talks at the various schools of the county. Such a program has already been delivered at Meadow and met with the approval of the teachers and pupils.

At the same time these lectures are given, each bus driver is requested to be present and each bus will be checked by the Patrolmen. We hope this will cause the bus drivers to drive more carefully and make the buses safer for the transportation of the children.

The following is a schedule of the time and place for each of these lectures:

Schedule for Programs	
First Group	Second Group
Mon. Oct. 2	
9:00 Challis	Pleasant Valley
10:00 Brownfield	Brownfield
Noon	Noon
1:00 Union	Wellman
2:30 Scudday	Foster
Tues. Oct. 3	
9:00 Lahey	Harmony
10:00 Gomez	Needmore
Noon	Noon
1:30 Tokio	Johnson
3:00 Harris	Poole

Sheriff C. D. Gore will accompany one of the groups while County Superintendent Lee Fullon accompanies the other.

Star-Telegram Bargain Days Are Here

Despite the war in Europe having put prices of producing a paper up, the Star-Telegram will remain the same as last year, according to information received at the Herald office. Again the Herald has been designated as one of the agents in this city for Bargain days only.

We are authorized to give you one year's subscription to the daily and Sunday Star-Telegram for \$7.45. Or, if you care to do so, you will be credited one year for the Telegram and one for the Herald for only \$7.95.

Should you wish the six day week Star-Telegram, it will be \$6.45 alone, of \$6.95 with the Herald one year. School teachers get the daily and Sunday for \$6.45. Active ministers get it for \$5.00.

NOTICE

Due to the fact that one of the home games has been called off, holders of season tickets for local high school football games may receive a 50c refund by calling at the city office. But, due to the shortage of funds, the Athletic Association is urging you to refuse this refund, and in return, you will have seats for you reserved on the 50-yard line.

Season tickets are now on sale by the Junior Chamber of Commerce. Prices are \$2 for general admission tickets, and \$2.50 for tickets with reserved seats on the 50-yard line.

Market For Peas Announced Here

Grady Goodpasture of the Brownfield Implement Co. announces that he has found a market for the hundreds of acres of blackeyed and other peas in Terry county and area. Blackeyed peas are worth \$40.00 per ton, and stock peas \$28.00 per ton.

There are fields of these peas in Terry county that one can almost gather a handful at one swipe they are so thick on the vines, which will go to waste if not gathered. However, if they are on government retired acres, one had better watch their step about selling them.

PLENTY PROVISIONS

Friend—When you were marooned on that desert island, how did you live?

C. L. (Abe) Lincoln—I happened to have a Western Reserve policy in my pocket, and it had so many provisions in it I lived off them until I was rescued.

The Official Paper of Terry County and the City of Brownfield

The Herald is just wondering if the management of the next big fistic exhibition at Lubbock will feed the surrounding weekly press with as much propaganda as the last one between Baer and Ritchie? Some of the country weeklies carried many dollars worth of free publicity, the Herald among them. They seem to be long on propaganda and short on Annie Oakleys. Suffice to say our free space will be pretty well filled with local school doings, football games included, this time, so they need not apply.

The Herald never boasts about its circulation because there is no need of it. But we will say we have an extra good coverage of the best buyers in Terry county, who subscribe, pay for and appreciate the Herald, and never ask us to cut our rates. When two or more papers of the same issue go into the same home, that ceases to become circulation, and becomes duplication. One paper to a home or business house is all they need to read. Many of our subscribers tell us that their neighbors borrow their papers after they have read them; one in particular told us recently that his paper was read by five families. That is circulation with all the skin on.

Gov. W. Lee O'Daniel's plan to raise more than two million dollars by public subscription, does not seem to catch the popular favor. In fact, while a lot of people will stand their share of the taxes for the purpose, they don't like the idea of having to perhaps oversubscribe their share of a straight donation. The Herald is of the honest opinion that if the governor will call a special session of the legislature and let them work out the matter without too much dictation from the Mansion, it will be put over, without writing a burdensome sales tax into the Constitution, to perhaps stay there forever. Otherwise, some old people are going to feel the pangs of hunger before this winter is over, if not helped locally.

We have spent nigh onto 31 years in Brownfield and Terry county, and with each year we learn to love the section just a bit better. Thirty years ago, it was either ranch or a few farms; was undeveloped, and 100 miles from what some people termed "nowhere" or railroad to be exact, and a railroad did mean a heap in those days. But somehow we could, in our mind's eye picture the future. Prosperous farm communities and good home everywhere. Of course such things as radios, electric lights and gas stoves we unheard or unthought of. But we could see good farra homes, surrounded with fat stock of all kinds, a good farm wagon, a buggy or surrey, and perhaps occasionally a fliver. Folks, when you go thinking back, the present is amazing, and with television just around the corner, we may be able to see even more AMAZING scenes, occasionally.

With our boasted civilization and so-called Christian nations, ambitious men who seek to rule or ruin come along now and then, all too frequently, and start a war of subjugation and conquest. Millions of lives are taken, and billions of dollars go up in smoke and shell. One year of war destroys more than the world at peace can replace in a decade. But this is not modern by any means. Ambitious men have been doing that for centuries, and even Jehovah once called on his King Saul to utterly destroy the Amalekite nation. Saul somewhat failed, in his mission, but that is

not the question. It looks like as long as this old world is allowed to stand, we will have dictators and warlords to send the flower of the country into battle and eternity. Maybe in the next world, those who love peace will be to themselves, and the war lovers will be to themselves and fight it out if it takes all of hell's summer. War is just a kind of legalized murder at best.

HARMONY

Farmers in our community are very busy harvesting. We understand crops are spotted throughout our state. Our information comes from those who have traversed Texas. Crops here are like that. Late feed would be helped by a good rain.

Mr. and Mrs. Walter Jones of Santa Anna, are visiting here a part of this week. They spent last Sunday with Mr. and Mrs. Herman Fore among other friends who visited in this home were Mr. and Mrs. A. W. Fore.

We are glad to welcome Mr. and Mrs. Ronald Johnson in to our community.

Mr. and Mrs. H. F. Brigance had relatives to visit them from Mainview recently.

Mr. and Mrs. Buford Hobbs visited her parents, Mr. and Mrs. Chambliss who live at New Deal-ling, La., for a stay of about three weeks.

Mr. and Mrs. Harvey Davis and children, accompanied by his parents, Mr. and Mrs. Joe A. Davis visited Mr. and Mrs. Vernon Bradley of Plainview last Sunday.

The Harmony P. T. A. met last

Taxes, More Taxes

By Pierce Brooke

It has been said that the power to tax is the power to destroy.

The business interests and the common people are both waking up to this fact. The 46th session of the Texas Legislature perhaps did more to arouse the public to a tax consciousness than any legislature in recent years. Letters by the thousands poured in from all parts of the state to their Representatives and Senators.

They were reminded that we may be destroying the very sources of support and life, not only for the workers of Texas, but also of the very government, when we burdened Texas consumers, commerce, industry and business with destructive taxes.

These messages from the men and women "back home", from the forks of the creek, from the cross-roads and from every county, indicate that there is a wide-spread demand on the part of not only business, but the masses of the people themselves, that we encourage business, that we reduce spending and thereby put a stop to increased taxation.

Many of the tax measures now on the statutes cost vast sums of money and are getting us abso-

lutely no where, except to chaos, disintegration and destruction. In terms of better business conditions, in terms of a higher standard of living, even in terms of life,

Friday night for the first meeting. Attendance was good. A Back-to-school program was rendered. After the program, friends of Mr. and Mrs. Robert Garner entertained them with a bridal shower. Many lovely and useful gifts were presented to this popular young couple.

lutely no where, except to chaos, disintegration and destruction. In terms of better business conditions, in terms of a higher standard of living, even in terms of life,

Hot Check Law Affords No Excuses

When you give a bank check after Friday, September 22, you had better be sure your balance is ok for on and after that date the new Texas "bad check" law is in effect.

The law passed by the last State Legislature sees no excuse and will tolerate none if your check is turned down by the banker.

If you happen to be one of the many persons that can't keep an accurate check on their account it may be wise to examine the following excerpts from the bill: "It shall be unlawful for any person, with intent to defraud, to obtain any money, goods, service, labor, or other thing of value by giving or drawing any check, draft, or order upon any bank that does not have sufficient funds in said bank to pay said check, draft or order at the time it is presented for payment.

For giving a check of \$5 or less without sufficient funds, the penalty shall be imprisonment in the county jail not to exceed two years, or by fine not to exceed \$200.

Checks over \$5 and less than \$50 given without sufficient funds shall be punishable by imprisonment in the county jail not to exceed two years or by fine not

to exceed \$500.

Upon conviction of the second offense, any person giving a check without funds sufficient for coverage, shall, if the check is \$50 or less, be punished by not less than 30 days or more than two years in the county jail.

All checks over \$50 given by persons without sufficient funds shall be punishable by confinement in the penitentiary for not less than two years nor more than ten years.

Any person making a complaint on the "hot check" law before a county or district attorney or a grand jury, and later requesting that prosecution be dismissed, is guilty of a misdemeanor, and upon conviction shall be fined not less than \$100 nor more than \$500. All cases involving this law will be handled either in the county or district court, rather than in the justice court as was formerly the case.

Mr. and Mrs. Graham Smith and daughter Charlotte Ann and Gwinette Glover were in Lubbock Tuesday to attend the circus.

Fair Premium Winners Given Next Week

Owing to the fact that County Agent L. N. McClain was at the South Plains Fair this week as superintendent of the cattle division, and no one in his office seemed to know anything about the premium list of the Terry County Fair, so we are deferring the individual prize winner list until next week, when we will have time to run it down.

As to the community booths we are able to give only a few: Gomez, 1st; Meadow, 2nd; Pool, 3rd; Foster, 4th and Brownfield 5th. However, the judges found very little difference in number of points from the highest to the lowest. All were very good.

Mrs. Marlin Davis of Fort Worth arrived Wednesday to visit Mr. and Mrs. W. R. McDuffie. Mrs. Davis is Mr. McDuffie's sister.

Mr. and Mrs. T. H. French of Hobbs, N. M. visited in the home of his sister, Mrs. I. A. Lowe, on Tuesday.

Mr. McManus of Lubbock and Mr. Trice of San Angelo were here this week. They had been to Seagraves checking over Western Union clocks.

Delbert Swindle of the Palace Drug Store had as his guest over the week end his parents, Mr. and Mrs. B. H. Swindle of Tuscola, Texas. They were accompanied by Miss Frances Brock to Carlsbad Caverns, Sunday.

Lessly Thurman, of Draughton's Business college, Lubbock, visited home folks over the week end.

Mr. and Mrs. Roy Herod spent the week end in Snyder, visiting his parents. Sonny Mack remained over there for a few days visit.

Mrs. Bob McDonald of Nocona, Texas, is here visiting her parents, Mr. and Mrs. George Warren.

Wayne Cleveland of near Plains was a visitor here Tuesday.

Mrs. Perla Cardwell left Sunday for Byers where she will

COTTON UNDERWEAR?

College Station, Sept. 18.—A challenge to clothing manufacturers and stylists has been issued by Mrs. Dora R. Barnes, clothing specialist for the A. & M. Extension Service, when she stated that rural women of Texas would wear cotton underwear if it were as inexpensive, durable, and as well designed as the synthetic fibers now available on the market.

Mrs. Barnes believes that a well-fitted, well-styled, one-piece garment of high grade cotton would make the ordinary woman forget about rayon and other similar synthetic fibers. The kind of underwear the specialist thinks women want might be manufactured of cotton mesh or knit. It would have no elastic in the bottom of the legs and might be built up at the shoulder or merely have straps. Several advantages of cotton underwear have been listed by the crusading specialist.

First, cotton is more absorbent than synthetic fibers. Another advantage is that they can be placed with the bulk of the family laundry instead of being washed by hand. Then, too, a foundation garment will stay down on cotton material, while it "rides" synthetic fibers, she says.

Mrs. Evelyn White, who is attending A. C. C., Abilene again this year will keep posted on the old home town by reading the Herald. Her Dad says it will save letter writing.

Mrs. Morgan Copeland is having her home remodeled, and adding a couple of rooms, which will greatly add to its appearance as well as value.

POOL

Rev. Jesse Young filled his appointment Sunday.

Mr. and Mrs. S. V. Newsom are entertaining a new son. The young man's name is Alfred Terrell.

The League Council met with Mr. and Mrs. H. H. Harben Friday night.

Mr. and Mrs. Oscar Gunter and family of Terrell, Okla., are visiting Mr. and Mrs. J. J. Gunter and family.

Mrs. Hazel Harris is going to the state of Wash., to join her husband, who is working there.

Those visiting in the Gunter home on Sunday were J. T. Nettie Jean Newsom, Henry Billy and Herman Rowe and Bernell Gunter of Terrell.

Mrs. Dearman of the Harmony community gave a shower for Mrs. Carrol Shults, in Mrs. Shults' home on Wednesday evening. Fifteen ladies were present from all over the county and a number of others sent gifts.

Bernell Gunter of Terrell, Oklahoma, is spending a few days with his cousin, Foy Gunter. Quite a few school children attended the Lubbock fair, Wednesday.

Several of the young people of Pool attended the Union league meeting at Lahey.

We understand the Brownfield News has purchased the building formerly used by the Southside Grocery, moved it to the 400 block on east Hill street, and will use it for their printing plant building, we understand.

L. O. Turner is entitled to pass to see **'The Sun Never Sets'** at RIALTO Fri.-Sat. (pass good for one only)

CARD OF THANKS

We wish to thank the good doctors and kind nurses for their wonderful care to our son while he was in the hospital and for the beautiful flowers kind friends brought. We also thank each one for every kind word and deed and pray that God's richest blessings will rest upon each and every one. We hope he will soon be home and may the Lord bless every one.

Mr. and Mrs. G. W. Walsler and children.

We regret to report that Grandma A. P. Moore, who has been ill for some time, is no better.

A. D. Repp, superintendent of the local compress must be receiving cotton. He ordered 6,000 tags about the first of the month and gave a re-order for 10,000 more this week.

Misses Patricia Steen and Merle Moore, attended the fair at Lubbock, Tuesday.

MRS. JORDAN LOSES FATHER

Mrs. F. A. Jordan received word Sunday that her father, C. T. Wisdom, 71, had died at Amarillo at nine o'clock. The body was prepared by Amarillo morticians and carried overland to Crowell, old home of the Wisdom family. Funeral services were held Monday at 4 p. m. at the First Baptist church, conducted by the pastor, Rev. Fitzpatrick.

Mr. Wisdom had been in ill health following a stroke the 15th of June. He is survived by his wife and eight children.

NEW AUTOMOBILE LAW OCTOBER 1

Prospective buyers had better see their tax-collectors about the newest of many laws to which an automobile owner is subject.

Department of Public Safety officials prodded the public memory last week that on October 1, the new "certificate of title" law goes into effect. It was passed by the regular session of the Legislature. It means what the name implies—the motorists buying a car after Oct. 1 must have a certificate of title to show where he got his car and who owned it before.

The cost to the motorist is 25c per certificate.

The law is designed to catch up with auto thieves and those attempting to sell mortgaged automobiles. The tax collector issues the certificate and certain phases of the law are enforced by the department of public safety.

—State Observer.

SOUTHWESTERN LIFE INSURANCE CO.
A Policy For Every Purpose

Robert Barrat As Crockett in Film

Robert Barrat who has enriched the stage and screen with many fine character portrayals, plays the role of Davey Crockett in Republic's screen story of the life of Sam Houston, "Man of Conquest."

Richard Dix, Gail Patrick, Edward Ellis, and Joan Fontaine have leading parts in "Man of Conquest," which is showing at the Rialto Theatre Sunday and Monday.

Standing well over six feet tall, with dark hair and eyes, and possessed of an athletic build, Barrat is an imposing figure, as was Crockett, the character he portrays.

All Davey Crockett wanted, according to history was a good fight. He fought bears with his bare hands, and entered Texas only to fight for freedom. His one creed was action.

The screen's Crockett, Barrat, is of French descent and was born in New York City. His boyhood ambition was to become a doctor, and he turned to the stage even while he studied his school lessons. After graduation he tried unsuccessfully to convince Broadway producers of his talents. They turned him away because of his lack of experience.

Undaunted, Barrat looked elsewhere, finally landing a professional job in a little stock company in Springfield, Mass. After a long period with other

stock troupes and road shows, he arrived on Broadway. This time, he had no difficulty landing jobs and he achieved a wide reputation in character roles. Later he was brought to Hollywood to play his stage role in the film version of "Lilly Turner."

Barrat has played top roles in such screen epics as "Captain Blood," "Charge of the Light Brigade," "Last of the Mohicans," "Life of Emile Zola," and "The Buccaneer."

M. L. Watkins and wife have purchased a home in the north part of the city, and are now really town folks. They moved from their farm in the Meadow section. Mr. Watkins stated that he was 75, and had been paying taxes 54 years, and had gone up and down the rows regularly all that time. Now he aims to take life a little easier.

Mrs. I. A. Lowe, accompanied by Mr. and Mrs. Paul Goodman of Seagraves, went to the roadside park south of Seminole and enjoyed a picnic lunch.

SANTA FE CARLOADINGS

The Santa Fe carloadings for the week ending Sept. 23, 1939 were 23,157 as compared with 21,122 for the same week in 1938. Received from connections were 6,835 as compared with 5,514 for the same week in 1938. The total cars moved were 29,992 as compared with 26,636 for the same week in 1938. Santa Fe handled a total of 29,958 cars during the preceding week of this year.

P. M. Williams, that jolly stockman was over from Yoakum Wednesday, and felt so good he slapped down two bucks on subscription, as he was a bit behind.

Mr. and Mrs. Claude Hudgens of Levelland were here Monday, visiting friends. They were en route home from Monahans, where they had visited Mr. and Mrs. M. L. H. Baze.

Mrs. B. A. Gibson of Denver, Colorado, is the guest of her daughter, Mrs. D. M. Evans.

TUDOR SALES & SERVICE

A SAD REFLECTION TO ENCOURAGE US

Nothing is born without travail. Back of the birth of a babe there is suffering and pain, sacrifice and careful planning.

The same is true of the birth of movements, of new organizations, of institutions that help humanity. Look about on every hand in this community and you will see where men, women and children have created things—things that they had their hearts in, about which they had wrapped their very lives, and which represent their longings for something better.

Schools, churches, businesses, homes, all are here because someone back yonder in the yester-years were willing to pay the price that they might be a reality.

Along every highway, bordering every street, out in the fields, things that were once born are visible monuments to ambitions and faded hopes. The empty structure, the vacant run down hovel of boards or brick, of stone and mortar, the rusty plow, the dilapidated vehicle, the old sewing machine in an abandoned loft—these all tell their own heart appealing an sad story of misplaced effort and misdirected energy, of waning hopes and faded aspirations.

Go to the cemetery and there you will find other evidences of indifference, of neglect, of forgetfulness. Tombstones have fallen down, graves have caved in, weeds are growing on unkept mounds where in bygone time were buried those who once passed this way in life.

Go to the books that tell the history of humanity and here you will find accounts of the rise and runs of empires once the pride of the world.

Let these be an inspiration to those yet in the land of the living to the end that all will determine to carry on as befits mankind and do what can be done to correct this defect in the ways of man in the world.—Exchange.

Ed Aryain and family were here Sunday from Seminole, visiting in the M. V. Walker home.

Mr. and Mrs. Herman Heath and son went to the circus in Lubbock Tuesday evening.

Mr. and Mrs. John Gracey and Mrs. G. Chatman visited relatives in Abilene Sunday.

Ralph Carter and daughter, Pat-sy attended the circus in Lubbock Tuesday.

H. D. Clark has returned from a vacation spent in El Paso.

Dr. M. E. Jacobson spent the past week visiting his family in Los Angeles, California.

Texas farm income rose from \$4,328,000 in 1932 to \$8,574,000, 000 in 1937 and \$7,632,000,000 in 1938. At the same time, the number of farms purchasing electricity climbed from 11,537 in 1932 to 31,205 in 1937.

Mr. and Mrs. Clyde Cave and daughter, Joan, went to the circus in Lubbock Tuesday.

Time to Shout

Cotton is the prince of fabrics. It has been so since Herodotus, that busy traveler, discovered it during the fifth century before Christ and wrote that India had "a kind of plant which produces wool of finer, better quality than that of sheep."

In basic quality, cotton has no peer. It is nature's whitest and most beautiful fiber. It has superior strength, especially when put to the test of wetting. It has outstanding susceptibility to dyes and resistance to stains. In the versatility of its uses it has not even a distant rival. It can be shaped more easily, worn harder, and laundered more safely than other materials rated as its superior.

Why then is cotton the scandalized and sniffed-at underdog of textiles?

Cotton has taken the brunt of high-powered sales and advertising campaigns by its rivals. The style-makers, the manufacturers, the distributors have been cleverly induced to give other fabrics the advantage. Millions have been poured into advertising which shouts that other products are superior and cotton, by implication, inferior.

Cotton also needs a champion with a loud voice and some merchandising finesse. The National Cotton Council is taking up that challenge. May its cause prosper and its tribe increase.

CHEMURGY, CASTOR BEANS

The industrial triumvirate — castor beans, chemurgy and Texas promises to become one of the pioneer activities for the return of a nationally spread prosperity. The three contain all of the elements for a natural affinity. Castor beans are rivals of their Soy cousins in Chemurgic interests in that they are possessed of ingredients so plentiful in individual values as to open wide avenues of industrial by-production. The castor oil feature is but one of a dozen or more processing avenues which will put articles of commerce on the market.

Every fence corner in Texas in which are to be found prairie grass, cockleburrs, Johnson grass or ragweed will grow castor beans in crop quantities. The plant has the singular distinction of growing unharmed in chicken runs and livestock will not eat it. In the farmlands of the State no other crop will excel it in hardiness or in fruit productivity. Now that all of its plant anatomy has been found to be the raw material for some manufactured article, the raw material supply may definitely be depended upon to keep well ahead of the finished product demand.

The large number of varieties of the plant and the methods of planting and harvesting are mere incidentals. If Texas goes in for castor beans along the lines planned, the idea of imports of oil and various by-products will disappear from American trade. Texas can supply all and do it so handily as to make the proposition into a legitimate monopoly.—Star-Telegram.

Radiant Womanhood

A correct amount of food exercise and a good neutral altitude are important for good health, but the greatest concern is to preserve a harmonious balance among all body functions.

This harmonious balance is preserved by an agency known as nerve force or vital energy. It regulates all activities to such a degree that perfect order and system prevails. It is when the mechanical features of the body cause interference to this nerve force that the liver, stomach, heart and other vital organs become diseased.

The focal point of interference from the mechanics is at the spinal column. This is where the trunk nerves leave the spinal cord and pass between movable segments of the spinal column. This makes a normal spine, the most important factor in maintaining health.

I, your chiropractor am educated to correct the abnormalities of your spine so that you may be well. Come to see me at once.

Bernice Weldon
Dr. of Chiropractic

Dewey Reynolds of the Gomez community was operated the 18th for appendicitis and is reported doing nicely.

Common Colds Lessen School Attendance

AUSTIN, Texas, Sept. 18.—Loss of hundreds of school days during the approaching school year could doubtless be saved with some advance home teaching in connection with prevention of colds and other respiratory infections, according to the Texas State Department of Health.

A considerable reduction would result in school time lost if parents would instruct their children regarding proper use of the handkerchief. School children should be taught to cover the mouth and nose when coughing and sneezing. Both channels must be covered to prevent spread of infectious material.

The common cold virus is conveyed in secretions of the mouth and nose of infected persons. Colds are the most common of the infectious diseases, outnumbering any of the other communicable diseases about twenty-five times, according to some estimates. Other diseases spread by respiratory discharges are influenza, scarlet fever, diphtheria, measles, whooping cough, smallpox, and meningitis.

The State Department of Health advises that school children go to bed at the first sign of a cold and stay there until at least 24 hours after the temperature is normal if there has been fever. At school, children who have recently had a cold should avoid conversing with others at close range, and should take care to use a handkerchief whenever they cough or sneeze.

Because of the complications of the common cold, it is a disease of major importance; among possible complications are sinus infection, middle ear and mastoid infection, throat infection, bronchitis, and pneumonia.

ONE IN FOUR DECEIVED

An analysis made by the National Consumers Tax Commission indicates that 56 per cent of all Federal, State and local revenue comes from hidden taxes buried in the retail cost of goods and services.

A Gallup poll indicates that one voter in four thinks that he pays no taxes in any way, shape or form.

Put these two together and you have an ideal broth for the culture of politicians. They have the power to hide the taxes and they can hide them so well they can fool a quarter of the people all the time. Lincoln opined that you could fool some of the people all of the time. Perhaps he had hidden taxes in mind when he said it.—New York Sun.

MARS INHABITED

Dr. Cyril Wyche, of Dallas, astronomer and builder of amateur telescopes, says the planet Mars is inhabited by beings whose intelligence surpasses that of Earthly humans. "I believe Mars has conditions suitable for life," said Dr. Wyche. "As conditions there would be more severe than on the Earth, the beings would have to be smarter than we to survive."

Mr. and Mrs. Clyde Bond and children, who moved to Seagraves several months ago have returned to make their home. Mr. Bond will be employed by Teague-Bailey Motor Co.

Mr. and Mrs. Z. C. Collier and daughter of Amarillo, were guests of Mrs. Ralph Carter Saturday.

Mr. and Mrs. W. R. McDuffie and children were Lubbock visitors Sunday evening.

Chas. Moore who included Canada as a part of his vacation tour this year says the Canadians come nearer speaking English as "she is spoke in Texas" than most northern people. He says New York is as bad as most of Europe, Chicago a little better, and by the time you get to St. Louis you feel like you are back in Dixie.

You Can Depend on
ICE

Pure, clean Ice has always been FIRST in mind for the natural preservation of foods and meats. It consistently keeps foods garden-fresh; never too cold, never too warm; always the right temperature for proper refrigeration. In addition, Ice actually is cheaper in the long run than complicated and artificial methods.

Harold Carpenter is now employed at the Corner Drug.

Mr. and Mrs. Everett Latham and Mr. and Mrs. Spencer Kendrick were Lubbock fair visitors Monday evening.

A. C. Kincaid of Aspermont has accepted a position with Walker Barber shop. Mr. Kincaid is said to be a fine barber.

Deputy Sheriff Joe Price carried Wayne Doss, 21, to the State Hospital, at Big Spring, Tuesday for treatment.

Home economists estimate that 1,340,000 people in Texas have very poor diets, 2,680,000 have fair diets, 1,000,000 have good diets, and 680,000 have first rate or very good diets.

Several good friends brought in fine melons and presented them to the Herald. Thanks, good neighbors.

Tenants, including share-croppers, operated 42 per cent of all the farms in the nation in 1935 as compared with 25 per cent in 1880.

MRS. FRANK WEIR ATTENDS P. T. A. DISTRICT MEET

Mrs. Frank Weir went to Lubbock Saturday, September 23 to a meeting of the 14th District Parent-Teachers Association. Following a one o'clock luncheon in the jr. hall room of the Lubbock Hotel, a business meeting was held with Mrs. Weaver, president of the organization, presiding. Plans for the coming year were discussed. Mrs. Weir is publicity chairman for this district.

WILSON COLLINS HONORED ON BIRTHDAY

Mrs. Wilson Collins entertained Tuesday evening with a buffet style dinner, honoring her husband, whose birthday fell on that date. Guests were his parents, Mr. and Mrs. W. B. Collins of Lamesa, Warren Nobles, Mr. and Mrs. W. H. Collins, and Mr. and Mrs. Stanley Wilks and Dick Collins of Lamesa.

MRS. WAYNE TIPTON HONORED WITH SHOWER

Mrs. Wayne Tipton, recent bride was honored Wednesday afternoon September 20 with a miscellaneous shower at the home of Mrs. C. R. Rambo. Dahlias and roses were decorations. The bride's book was passed to each guest to write a wish for the bride ten years hence. Assisting with the party were Mesdames Ted Hardy, Otis Moore, Tom Cobb and Miss Viola Brown. Clear punch and wafers were served to fifty guests.

GOMEZ EXES FEAST ON WATERMELON

At the regular meeting day on Wednesday of last week, the exes had one of the most enjoyable evenings of the year. Games of "42" featured the diversion of the evening's entertainment. The two sides of the contest are running a close race in getting members to join.

And was that watermelon good? Exes, you really are missing something when you fail to attend these meetings. The Gomez ex-students owe a hearty thanks to John Newberry who furnished the watermelon.

All ex-students are invited to attend the meeting on Oct. 4th. A "tacky" party is to be held in the auditorium of the Gomez school. Dress your tackiest and come prepared for an evening of real entertainment. The ladies will please bring some cookies. Please don't forget to come looking tacky and a prize will be awarded to the tackiest boy and the tackiest girl.

ROBERT JAY KING HONORED WITH BIRTHDAY PARTY

Mrs. Queenelle King entertained Friday evening with a party to honor her son, Robert Jay on his tenth birthday. After attending the Rialto theatre, refreshments were served at Hancock's Cafe.

Guests were Patsy Carter, Peggy Jean Lewis, Christine McDuffie, Ramona Pittman, Gloria Jean Swan, Ida May, Marion Wingerd, Tom Adams, Richard McDuffie, Bobbie Jones, Sammie Jones, Dudley Repp, Dickie Lees, Cecelia and Charles Miller.

MRS. D. SMITH ENTERTAINS

The Pleasure Club was entertained by Mrs. Dell Smith Wednesday at 3:30.

Following an afternoon of bridge a salad plate, individual cherry pies topped with whipped cream and Coca-Colas were served to the following:

Mesdames Charley Stahler, R. L. Bandy, C. C. Primm, Guthrie Allen, John L. Cruce, Ed Stuart, James P. Davis, and Miss Virginia May.

Mrs. C. C. Primm was presented with a cogene in an attractive wooden container for high score.

LAWN PARTY

Miss Jackie Seale, daughter of Mr. and Mrs. Fred Seale entertained Friday evening with a lawn party at the home of Mrs. B. L. Shoemaker. Games were played and refreshments were served to twenty-two guests.

Misses Mildred and Mary Nell Adams, daughters of Mr. and Mrs. Will Adams of this city, will receive the Herald while attending Baylor University this term, complimentary of their parents.

WOODMEN CIRCLE

Local Woodmen Circle members have been invited to attend a district convention at Plainview on Monday, October 2. When delegates will be present from 20 nearby towns. Honor guests and speakers for the occasion will be Mrs. Laura E. Kreks, National Representative and State Manager of Austin. Mrs. Jennie Lindbloom, State Auditor and District Manager, Mrs. Myrtle Massey, State Page of Amarillo, Mrs. M. B. Wright, State Page of Sudan. Assisting with various ceremonies are the following local and district officers: Mrs. May Cooke, Past Guardian; Mrs. Effie Smith, Chaplain; Mrs. Serena Warren, Assistant Attendant; Mrs. Rose Mayfield, Second Auditor; Mrs. Luke Brown, Third Auditor, Mrs. Cornelia Moore, Historian and Mrs. Rose Mayfield, response to welcome address. Brownfield's drill team will assist with the seating. Other members attending are Mesdames Viola Mullins, Thelma Blair, Avanelle Travis, Stella Jackson, Lama Smith, Helen Mangrum, May Howell, Addie Hogue, and Mary Neill.

PRESBYTERIAN M. S.

The Presbyterian Missionary Society met Monday at 2:30 at the church. The regular monthly mission study was led by Mrs. Walker. We were happy to have an increase in attendance and welcome our new members and those who have returned from vacationing.

The ladies of the church will please take note that Monday 2nd our social and business meeting will be held at the home of Mrs. Dave Perry at 3:00. If you have not yet been able to attend since we have resumed our studies, make next Monday your starting date.

METHODIST W. M. S.

Met last Monday afternoon at 3 o'clock, both circles in the study of the new study book—Through Tragedy to Triumph. The following program as very greatly enjoyed, Subject, The World as We Find it Today, led by Mrs. Judson Cook. Devotional was led by Mrs. Linville. First, "Modern Political-isms, such as Nazism, etc." Mrs. G. S. Webber; second, Poland's Place in the European War," Mrs. Hughes; third, "National organizations, as the Red Cross, etc.," Mrs. N. T. House; fourth, "The Madras Conference," Mrs. Carpenter. Mrs. H. O. Longbrake had charge of the music. The society adjourned to meet next Tuesday at the same hour to continue the study of the book. 17 present.

N. S. BAPTIST CHURCH

All services of the church were unusually well attended last Sunday, as well as a twenty per cent increase in the Sunday School over the previous Sunday.

Evangelist Jno. R. Denning brought two most interesting and timely prophetic messages, and there were three additions to the church, two confession of Christ and one by letter. Several out-of-town visitors were present at both services.

Next Sunday morning the entire Sunday School begins the study of the book of Matthew, starting with the first chapter and using the Bible only. Rev. J. D. Evans of Littlefield, will preach at both morning and evening services.

1-DEAL CLUB

Mrs. E. G. Akers entertained for the 1-Deal club Wednesday. High score was made by Mrs. Ike Bailey and second high by Mrs. Guthrie Allen. A salad course was served. Guests were Mesdames Lee O. Allen, Guthrie Allen, W. R. McDuffie, Jim Graves, Orb Stice, I. M. Bailey, J. J. McGowan, R. R. Taylor, Paul Lawlis, Ray Christopher, Clyde Cave, A. A. Sawyer, L. M. Wingerd, J. H. Dallas, Cecil Smith and D. M. Evans. Mrs. B. A. Gibson of Denver, Colorado was a tea guest.

Misses Elizabeth Travis, Shirley Bond, Ima George Warren, Margaret Travis, J. K. Davidson, and James Travis were Lubbock visitors Sunday.

Mrs. Bob McDonald returned to her home in Nocona today after a two weeks visit with her parents Mr. and Mrs. Warren.

BAPTIST CHURCH

Sunday was about average in attendance with 322 in the Bible school. Little progress is being made in bringing the school up to the requirements of the standard or better school, which responsibility is largely on the teachers. The best is none too good for our people and it is hoped we can reach this standard as more than 300 churches in Texas have already done so this year, but it requires real work.

The men's Down Town class will elect their new officers next Sunday morning and all men not engaged elsewhere are welcome in this class which is being taught by the pastor and the hour is 9:45 sharp.

The W. M. U. met at the church last Monday and they will meet every day next week at 3 p. m. at the church in what they will call their week of prayer, except Wednesday when they will meet at the church at 8 p. m. and men of the church will be requested to bring the program for that hour. As the name implies, this organization of the women of the church study to know what the Bible teaches about missionary work and keep informed about what is being done by our church throughout the world, and next week will especially pray for this work and they ask that all Christian people may join in this prayer that the will of Christ may be done on earth as it is in heaven.

The building committee opened the bids Tuesday evening for the construction of the new building and three of the lowest bids are being held for further consideration and ten days are allowed for the acceptance or rejection of these bids. It is hoped that details will be worked out and that this much needed improvement may shortly be a reality.

Dear reader, if you are not a regular church goer, resolve now that you will become one and if you have a family do not be content to rear them outside the influence of the church, as Christ established the church himself and if it was of such importance to him how can you afford to ignore it?

You are invited to worship with us.

Mr. and Mrs. Wallace Bailey and Miss Beatrice Bailey of Altus, Oklahoma were week end guests in the J. D. Bailey home.

OLD CHICKENS ARE BEST CANNERS

College Station, Sept. 25.—Hens not laying enough to earn their "board and keep" may be just right for canning, suggests Grace I. Neely, specialist in food preservation for the A. & M. College Extension Service.

Chicken dinners, she says, shouldn't be confined to summer days, canning surplus birds from the flock is one means of insuring a continuous supply.

Because of the precooking and subsequent temperature under pressure which is involved in the process of canning, a better quality product is obtained if older birds are used. The best chickens to put in cans or jars are plump hens—two years or a little older. Ordinarily the texture of the meat is firmer, the broth more concentrated and the flavor more characteristic than that of the young birds.

Poultry products must be canned under steam pressure and tin or glass containers may be used in packing the meat. No. 1 tin cans have become quite popular since they are adequate for one meal in an average sized family. Because of the difficulty of heat penetration and the lack of proper equipment in the home to process and cool the larger containers safely, quart glass jars and No. 3 tin cans are not recommended for either home or market.

DAINTY LADY BEAUTY SHOP NOTICE

1ST PRESBYTERIAN CHURCH Fred A. Walker, Pastor

Sunday School --- 11:00 o'clock Morning Worship - 11:00 o'clock Senior C. E. --- 6:45 o'clock Preaching Service -- 7:30 o'clock

Subjects of the morning and evening sermons are, respectively, "Christ, the Light of the World," and "Was Christ God or Man?" The sacrament of the Lord's Supper will be observed at the morning service. Come and bring a friend.

METHODIST CHURCH John W. Hendrix, Pastor

Church school opens its session at 9:45. It offers too many opportunities to be itemized here, classes to suit all sizes and ages. It has a fine corps of teachers. With it, its new year begins next Sunday.

Morning Worship comes on at 11 a. m. exactly at that moment. It is the sincere effort to have it run just one hour. The choir is ready to render its share in the service. The pastor will use as his theme, "Paying Tax to Mammon." Do saints pay tax to the God of Mammon? Has he a kingdom. Is it more expensive to be a Christian than a worldling? Does it cost more to rear and care for a good son than a prodigal? These are vital questions. Interested? Come Sunday.

Evening Worship comes on at 8 p. m., and every effort is made to make these services a bit short of an hour. You'll like 'em, free and informal! The subject of the sermon will be, "Is the End Near?" The woods are just full of people who keep proclaiming that the end is near. In fact, the pastor was reared on this sort. As a child the Spanish-American war, as it always does, brought to the fore this same question. Will war last always? Does the 24th chapter of Matthew teach the end of the world, all of it? Let's discuss this question Sunday evening.

Young People's service comes on at 7:45 p. m. and is out by evening service. You're invited to this service, all young people not attending elsewhere. These services study some of the most vital subjects of the day.

Mrs. Paul Gainer, north of town suffered serious burns about the face and hands, when a pressure cooker exploded. She was carried to Lovington for medical treatment. The accident occurred Wednesday morning. She is reported as getting along nicely. —Tatum (N.M.) News.

URGES EARLY EXAMINATION AND TREATMENT

AUSTIN, Texas.—The need for education that will bring potential mother—and in particular those mothers infected with venereal diseases—to the physician early in pregnancy, and the necessity for adequate treatment and follow-up of every case of syphilis thus uncovered, is emphasized by the Texas State Department of Health.

The 1,200 deaths, and 3,000 annual syphilitic births, are the price of ignorance which reflects the failure of maternal health education in Texas. These deaths are needless, when we consider the present state of scientific knowledge and practice in regard to the control of syphilis.

There are many potential mothers in Texas today infected with syphilis. Without treatment, the chances are that more than 80 per cent of their offspring will be infected. Unless the need for treatment early in pregnancy is impressed upon all potential mothers, and the necessity for blood tests as a routine check in physical examinations is realized, too many mothers will not know that they have syphilis and are in need of treatment.

Reason number one for this neglect is that many women do not understand the importance of early and good prenatal care, including examination and if necessary treatment for syphilis.

It is pointed out that the chances that a healthy, non-infected child will be born of a mother with syphilis are less than one in six. "Start treatment before the fifth month of pregnancy—even before the third—and that ratio can be reversed to ten healthy children out of every eleven born. The remedy is education of our people, so that they may know what to expect in a prenatal examination," states the Health Department.

Red Cross Representative Visits Here

On Thursday and Friday of last week, Miss Frances Blackman, District Representative of the American Red Cross, visited with the local officials of the Terry County Chapter. A very elaborate organization was set up for the roll-call which is to take place between Nov. 11 and Thanksgiving. C. L. Lincoln was appointed roll-call chairman and will have direct supervision over the organization over the business district. Mrs. Ruth Moore will be responsible for the resident section of the town. W. H. Dallas will be responsible for Yoakum county, which is attached to this county for Red Cross purposes.

Every person in Terry and Yoakum counties is invited and will have an opportunity to become a member of the Red Cross. We did not have a roll-call last year, and with the war clouds in Europe bringing greater responsibilities to the national organization, our quota is greater than previously.

A MILLION COTTON MATTRESSES

College Station, Sept. 25.— A million new cotton mattresses will be the subject of a conference called here for Oct. 2.

H. H. Williamson, director of the Texas A. & M. Extension Service, has asked heads of some 80 state organizations and agencies to take part in the meeting. The representatives will be asked to consider the advisability of launching a mattress campaign and the contribution each group could make. "Since one purpose of this movement would be to use surplus cotton, you may be interested to know that it takes some 50 pounds of cotton to make a mattress," the invitation reads. "A

million new mattresses—less than use up 100,000 bales of cotton."

Although most urban families would probably buy factory made mattresses, the Extension Service will be ready to teach mattress making through its 206 county home demonstration agents. County agricultural agents would also

cooperate in the undertaking, one for each Texas family—would

Mrs. John Cadell has returned to her home in Dallas after visiting her parents, Mr. and Mrs. John Gracey. Miss Marie Gracey went home with her for an indefinite visit.

SENIORS SELECT OFFICERS

By Flora Lee Shultz
The seniors of Brownfield High School have well selected their class officers this year. They are as follows:

President, Edwin Helms; Vice-President, Earl Burnett; Secretary, Mary Jean Lees; Class Reporter, Claudie Gore.

The seniors plan to select their class colors, a senior class motto, and a senior class project in the near future. They hope to receive their class rings, which have been ordered, soon.

THE JUNIOR CLASS ELECTS

In home room Monday, September 25 the section of juniors from A to J, elected the the fol-

lowing officers: President, Jimmy Green, Vice-President, Wanda Hendricks; Secretary, Lois Chambliss.

These officers will attend to the business of this particular section.

JUNIOR CLASS WILL WORK

By Gene Hill and Jimmy Green

Mr. Smith has given the junior class permission to have first Monday off for work day. On this day each member of the class will be expected to get at least one dollar, which will be used for the junior banquet fund.

Any business firm of housewife, who has work to be done, may secure the help of any junior if you will notify the sponsors, Mr. James or Miss Edwards of the high school.

SOPHS ELECT OFFICERS

On Monday, September 11, the sophomore class of Brownfield High School met for the purpose of electing its representatives for the year 1939-40.

We elected as follows: President, Jacqueline Thompson; Vice-President, Eldora Lewis; Secretary-Treasurer, Lois Nettles; Student Council Representative, Minnie Lee Walton.

As the class sponsors we chose

FREE KIDNEY TRIAL FOR WEAKNESS IF IT FAILS

Title I Loans From \$100.00 to \$2500.00.
Title II Loans From \$2000.00 to \$5400.00.

Why buy a stock home plan or a ready built home where the rooms and closets do not suit you, when your own home town dealer will make your plans, specifications and arrange all details for a home that each room and closet will suit your own notion, at no extra cost to you.

You pay nothing to us until you are ready to move into your home.

We have 35, 75x140 foot lots or will build it on a lot you now have or may secure.

Our company and ourselves are interested in the community as a citizen and as a taxpayer.

Investigate our costs in obtaining these loans and be convinced that we are doing more for your money.

Cicero Smith Lmbr Co.

Mr. McCook and Miss Daugherty. The class is very highly pleased with officers and sponsors. We expect to do great things as sophomores in high school.

F. F. A. STARTS PROJECTS

Although just getting started, the Vocational Agriculture class is progressing nicely on its projects. The projects are going to be of many different species. Hogs, calves, dairy cows, and sheep are some of the projects which are required of the Future Farmers by the national organization.

We hope that everyone enjoyed the Agricultural exhibits at the Terry County Fair. There were many nice exhibits. Our exhibit under the name of Brownfield, ranked fifth.

At the South Plains-Panhandle Fair there were seventeen exhibits set up by F. F. A. Chapters. We hope every one will visit these exhibits because they are very educational. Our small exhibit ranked tenth at Lubbock.

ASSEMBLY NEWS

Juanita Cranford

Friday afternoon, September 25, the students and teachers met in the auditorium for assembly. The Student Council was the sponsor of the program and Claudie Gore was announcer. The new teachers in high school were introduced to the student body, and the new pupils were introduced also. The teachers were Mr. McCook, introduced by M. J. Akers; Mr. James, introduced by James Bryan; Mr. Nealy, introduced by Lejune Lincoln, although Mr. Nealy wasn't there. Mrs. McCook introduced by Larry Tarpley, Laverne Collier introduced Miss Tittle.

There were several new students introduced. Afterward Mr. Brewer made announcement, and let school out for the afternoon.

THERE WILL BE SEATS

By Joy Lee Gordon

The Athletic Council met Tuesday night to discuss plans for building bleachers on the football field. Mr. L. M. Wingerd, a member of the Council, was asked to start immediately construction of seats for the seating of one thousand people. The seats will be built on concrete foundations and will be the same type as those at the Stadium of Texas Tech in Lubbock.

HOME ECONOMICS CLUB

Some twenty girls met Thursday afternoon, September 21, in the clothing laboratory, for the organization of a Home Economics club under the sponsorship of Miss Murphy. Officers for the following year were elected as follows: President, Mary Martin; Vice President, Redell Parks; Secretary and Treasurer, Lois Chambliss; Reporter, Barbara Garret; Parliamentarian, Arline Fore; Student Council Member, LeVeda McCrary.

The club will meet on the first and third Thursday of every month. As there are only a few members in the club, those who are not in the Home Economics class and wish to be in this club, may join as members.

HANK WAS BALLOON MAN

By Roberta Underwood

On Wednesday, September 20, Mr. Hankins, with the aid of Mrs. Smith, gave away balloons to the pupils of West Ward, junior high school.

He also gave balloons away to all pupils who bought their school supplies at his store. One thousand and three balloons have been given away since school started.

WEST WARD NEWS

In West Ward there are three room mothers appointed for each

home room to solicit members for P. T. A.

Fifteen new pupils enrolled last week in West Ward. All teachers are doing good work and the different units they are using, show good work.

Play ground work is functioning nicely with some five or six play ground ball teams that are organized.

PEP SQUAD

By Emogene Fitzgerald

The Pep Squad, under the direction of Miss Huff, is showing rapid improvement. This organization of fifty or sixty members has thirty minute drill practice each morning, other than meetings after school.

Pep leaders, Virgella Nan Dunn and Grace Tarpley have been selected for this group. Few band leaders have been playing for their marches.

GLEE CLUB

By Emogene Fitzgerald

The Glee Club, under the direction of Miss Daugherty has elected their student council representative who is Jimmy Green.

This club is making preparation for drills and their work for this year.

IT'S A FACT

By Vernice Anderson

A lady is not considered well dressed unless, after you have seen her, you forget the color and how everything she has on is made.

PRESS CLUB ORGANIZATION

By Dorothy Crow

The Press Club met Tuesday, September 25, in room 202 and elected the following new officers: Vice-President, Dorothy Crow; Secretary, Leta Zae McKenzie. President Leveda McCrary presided over the meeting. The old officers who remain are as follows: Club Reporter, Esther Smith; Student Council Representative, Wanda Hendricks; Editor-in-Chief, Wanda McChesney; Assistant Editor-in-Chief, Emogene Fitzgerald.

With this staff of officers the Press Club is hoping to be the best Brownfield High School has ever produced.

SENIORS OF 1939-40 STAY TILL THE END

By Flora Lee Shultz

Last year there were sixty-two seniors in Brownfield High School. All sixty-two of them graduated. This year there are approximately eighty seniors in this school. We hope and sincerely believe that each of these will be capable of graduating. Come on, seniors, don't you think we can do as well as the seniors of 1939-40.

PAY ASSEMBLY PROGRAMS WILL BE GIVEN

By Emogene Fitzgerald

The following assembly programs will be sponsored by the student council:

A program will be presented by Cushing-Hutton Duo, October 11. This will be a musical program.

A program will be presented by Jack Raymor, November 3. This will be a herpetology program.

Lucille Elmore Company will present a program January 26. This program consists of music, ventriloquism and mimicry.

"Science on Parade," will be presented Nov. 27.

Roland Van Cavel will present a program February 7. This program will be songs and stories of the Hollander.

Bal Thood, artist and cartoonist, will present a program April 12.

There will be more printed about each as the date approaches. An admission of ten cents will be charged for each program. This money will be used to furnish a room for the Student Council.

THE SEVENTH GRADE OFFICERS ARE ELECTED

By Roberta Underwood

The seventh grades have elected officers. They are: President, Patsy Frank Ballard; Vice-President, Mon Telford, Jr.; Secretary

and Treasurer, Joyce Shaw; Reporter, Teresa Chisholm; Student Council Representative, Mr. Griffin's room, Christine McDuffie; Miss Montgomery's room, Patsy Ruth Carter.

PHYSICAL TRAINING CLASS

The physical training class under the direction of Miss Huff, have enjoyed the past week of rhythm training. We have practiced walking and skipping to music. More advanced rhythms will follow. Two days each week, the classes are in the building instead of the gymnasium. We have started a unit of correct posture which will continue for several weeks.

CUBS TACKLE CRANE

On Friday, September 29 the Brownfield Cubs again journey into district 7-A when they engage the Crape Golden Cranes.

This is the second game of the season for the Cubs, and they have been working hard the last two weeks in preparation for a rough night the 29th.

In practice, the boys have shown added spirit, and work has progressed rapidly. The backs especially have shown lots of improvement in their running and passing. Little Pete Brown has been hitting his receivers with the form that sent the Cubs to the district championship last year, and Warren and Bowers have been snagging the ball from every angle. Bobby Lewis, who has been shifted to center, has developed nicely, and he has possibilities of being a great pivot-man. Doss, Waters and Akers are improving steadily and are strengthening the center of the line.

The Cubs are fighting this season without the aid of such former stars as Rowden, Morton, Jenkins, McCraw, Murry, and the great Wade Hill, but the suits of red and white are on boys who play football with the word "fight" and the fight, that is a Cub tradition, lives on.

Again the red and white will be the dread of the South Plains, despite the fact they are not the "unbeatable" of the last few years.

Only a few minor injuries have occurred. James Bryan at end has a slight knee injury, and Lewis and Rambo have slight injuries, but they will be ready to go Friday.

Dorothy Jean Wylder, a 7th grade pupil has recovered from an illness which kept her from school Thursday and Friday, September 21 and 22.

Cass county led the state last year in new terrace work, with 7,843,200 feet of terraces constructed by farmers cooperating with the AAA.

STILL TALKING REAL ESTATE

Mr. Guffy, the Florida realtor, died and went, surprisingly enough to heaven. There he was regaling a group of new acquaintances with a vivid tale of a subdivision he had sold for \$1,000,000. "And if I had held it six months longer, I could have cleaned up double that sum," he declared with dramatic effect.

A bronzed individual rose, snorted, and walked away. "Who was that man?" demanded Mr. Guffy. "That," he was informed, "was the Indian who sold Manhattan Island for \$24."

Dr. H. Townes of Sweetwater visited his sister, Miss Jewell Townes, Tuesday.

Mr. and Mrs. J. H. McGowan spent Sunday in Paducah and Quanah.

Charley Sherwood, Midland oil man, was a business visitor here Tuesday.

Mr. and Mrs. Harvey Gage were Lubbock visitors Sunday.

44 Million Dollar Texas Industry

College Station, Sept. — In poultry business, Texas has an industry that grosses around \$44,900,000 a year, and the state has come from nowhere in the national picture to rank fifth in number of chickens, fifth in total value of eggs produced, and eighth in value of poultry produced for market.

The industry, often forgotten because of Texas' predominance in the production of cotton and livestock, contributes an annual gross equal to the sale of a million bales of cotton at eight cents per pound.

Texas poultry producers have an investment of \$13,000,000 in their 24,000,000 chickens, and in 1938 took in \$30,000,000 from sale of eggs, \$8,500,000 from turkeys, and \$5,000,000 from dressed poultry.

Director H. H. Williamson of the Texas A. and M. College Extension Service points out that this is a creditable rating when it is considered that Texas is a long way from eastern markets and that most of the advance has been made in the past 25 years.

"At the same time, if Texas farmers are to get what they should out of poultry, there must be an increase in the quantity and quality of poultry products offered for market," the director said.

He quoted the 1935 farm census figures showing that the average production of hens on Texas farms was only 53 eggs per hen. Meanwhile, poultry demonstrators working with county agricultural and home demonstration agents have brought their flock's average production up to 176 eggs a hen.

In 1938 there were 3,285,000 turkeys grown in Texas which brought a total of \$6,866,000 or approximately \$2.09 each.
