John Dumas Writes From Indies

John Dumas, S 1/C USNR, writes in from some base in the British West Indies, stating that if we think traffic laws are rigid in the USA, we ought to come of that country for awhile. He sent in a newspaper clipping where a man was fined around nine dollars in our money (2 pounds, ten shillings) for having a dirty license plate, and another like fine was tacked on because the driver did not have his license along.

He stated that he knew the Herald was having a hard time with the Old He ill and Jack Jr. in the navy, leaving the women folks to get the Herald to him and offered to send them bobby pins or Kleenex, not scare them if they wished. Thanks John, we'll make out some way for the duration.

Notice To Voters Of Terry County

The 5th War Loan Drive Is On

This is our time to work and we can do a lot if we buy and buy War Bonds until it hurts, and that is such a little bit for us to do compared to what our boys are doing over there.

As yet there has been no definite report on the bond sales, but it seems that it's going slow, however, after this week, a definite total will be turned in to this paper. This is our way to fight, so let's all fight and be ready when we are called on.

McCord Makes Formal Statement

District Attorney, Rolin McCord has authorized the Herald to publish his formal statement in behalf of his candidacy for reelection. Mr. McCord was elected District Attorney in 1940, being the last candidate to announce for

that office, he led the ticket over four worthy opponents in the first primary by almost 350 votes and won the nomination in the runoff primary by almost 1500 votes. Prior to serving as District Attorney, he served four years as County Attorney of Lynn County. Mr. McCord has made a splendid record as District Attorney of this district and enjoys the respect and confidence of all who have worked with him. He is 40 years of age and lives with his wife two children in Tahoka. His formal statement follows:

If re-elected your District Attorney, I shall continue to vigorously enforce the laws of our state to all alike regardless of race, creed or color and co-operate and work in harmony with our jurors, peace officers and court officials. I promise you the same honest, efficient administration.

During the time served as your district attorney, I have tried about 400 Felony cases and have only lost 5. Three persons were given life sentences in the Penitentiary and two others 99 years each. Of the many cases appealed to our highest court at Austin, only two have been sent back for re-trial and not one case has been ordered dismissed by that court.

I have been ever mindful of the wasted time and delay occasioned by many courts in the trial of cases and have tried and disposed of all cases as quickly as possible, having tried as many as four separate cases before juries in one day. It being necessary that we save not only our tax dollars but our jurors time so badly needed for the war effort. I believe that I can be of service to this district by the experience gained as your district attorney and the many years that I have been in the active practice of law. I deeply appreciate the honors you good people have bestowed upon me and also the encouragement of so many friends throughout the district in my race for reelection. May I respectfully ask that you carefully investigate my record as a public official and also my private life as a citizen of Lynn County since 1916.

Due to the gas and tire shortage it will be impossible for me to make an active campaign, so please allow me to take this means of asking for your active vote and support in the coming Democratic Primary.

Rolin McCord.

Mrs. R. D. Johnson, Chairman For the 5th War Loan Drive in the Johnson community, reports a pie supper will be given in the school building auditorium Friday night June 23, at 8 o'clock, for the purpose of selling War Bonds.

There will be a speaker and plenty of fun. Everyone is urged to come and bring pies and come prepared to buy Bonds, as many as possible.

Mrs. C. P. Griggs of Monahans visited her parents, the J. H. Jenkins last week-end.

Terry County Honor Roll Under Construction

A huge wooden plaque is being erected on the north side of the court square, which when finished will be 91 feet long by six feet high, which when completed will contain the names of every boy or girl from Terry county in the armed service of the United States. Terry county is furnishing the material, and the city of Brownfield is matching the material with labor.

Balance of labor and painting of names is to be raised by private subscription. Such subscriptions should be handed to or mailed to Glen Akers, Jim Miller or Chris Quante. The amount per name will run around 50c each, but no one is limited to that amount, but all contributions will be appreciated, whether you have boys or kin in the service or not. Let it be said right here that no one has the time, what with short-handedness, we are all confronted with, to circulate a subscription list.

Another important thing about this matter is, be sure that you turn in the names in full of your loved ones in the service, but only initials will be printed on the board. The draft board, nor even others here may have the name of your boy, as many of them left home to work and registered in other counties—Jack Shepherd is one, for instance. This is very important, and the next time you come to town, be sure to bring the names of your boy or husband, who now is or has been in the service, and this includes the dead, missing or prisoners.

It is said that this board will hold 1508 names, which will perhaps and we hope be all from Terry county to be called to the colors.

FOOD DISTRIBUTION

The American Stores Company of Philadelphia has issued a very important statement on "Food Distribution." It takes, "How essential is it to the war effort? Is there danger in crippling its efficiency? What results may attend a distribution breakdown? How far should leaders of the food industry permit things to drift toward a progressive collapse of the distributive function, before bringing the gravity of the situation to the attention of constituted authority?"

It points out that "the distributor group is the connecting link, the transmission belt, between products on the farm, and those same products on the dining tables of 135,000,000 Americans."
"The more acute the shortage of farm labor, the greater the necessity, to the farmer, of dependable effectively functioning outlets for his products, as the only available alternative to dumping his goods into blackmarket channels."
"Continued operation of price control, rationing and similar anti-inflationary regulations, depends directly and fundamentally upon an orderly, responsible, and responsive distribution of foodstuffs."

"To permit any agency of government to believe that present-day mass food distribution can function even fairly effectively without the active supervision of certain groups of trained leaders—is to do a serious, if unintentional, disservice to the war effort."
It then points out that in buying 2,500 food items, operating warehouses, handling refrigerated products, inspecting, refrigerating, and cutting meats, managing stores and interpreting and carrying out the vast number of government regulations and restrictions, requires more than 17-year old boys and inexperienced girls.
"In the future, and under all circumstances, we must look out for the safety of the America we love, and the American way of

THE LOW DOWN FROM HICKORY GROVE

The land of the free, and the home of the brave—that has been us, all over—in history. And if you care to stretch the imagination, but not too much, it is still likewise if you don't count the IF part that is now hooked on. For example, everybody is free to work, if his dues are paid. And folks belonging to the "Andrew Jackson-day" Party, they are free to go to the Chicago convention, if they agree not to start a ruckus.
But, enough about freedom—and back to the "home of the brave." This old Chicago boy the Govt. barged in on, and carried out and plunked down on the sidewalk, he is the kind of baby this country needs more of. The spirit of independence shown by this old Windy City boy is what made this country. Like Geo. Washington and our Mayflower ancestors, Redcoats nor tomahawks didn't make him curl up and lay down, meek and lowly, and scared speechless. He deserves three cheers. I give him same.
Yours with the low down,

To the People of this Community

There are many urgent reasons for buying War Bonds. First, the invasion needs money. Bonds pay for planes and guns and munitions with which to beat the Axis. Our fighting men must have the best possible equipment and it is up to us to let our money provide this.
A second reason is this: There is a shortage of goods now. Later on there will be plenty for civilian desires. Money put into War Bonds now will be available then. Business opportunities will be open then, too, and the "nest egg" saved now may hatch out commercially then.
Money put into War Bonds now will be deprived of its current potentiality as a part of the causes of inflation. You will be doing your part toward stabilizing the money situation by buying Bonds instead of dwindling stocks. That is a third reason.
But the best reason from a selfish viewpoint is this: Right now there is no better investment than War Bonds. There is no safer repository for your money. By buying Bonds you become a stockholder in the strongest "going" concern in the world today, the United States of America.

The Strongest of Bonds—Your Dad and Your Country, Is the Slogan of Father's Day, June 18—Buy Bonds

WASHINGTON, D. C.—June 13th, 1944, will be a different kind of celebration of this event than in days before the war. This year finds that one underlying motivation. The battle cry for the Father Bond Drive and for the observance connected with Father's Day this year is "The Strongest of Bonds—Your

Pictured here is Ted R. Gamble, National Director of the Treasury's War Finance Division, and his son, Ted R., Jr. The youngster is planning a Father's Day rosette in his dad's coat lapel. The rosettes are made up of War Stamps. Girl Scouts and others will sell the rosettes on Father's Day, June 18.

American fathers away from home and family and by hundreds of thousands in uniforms of the Armed Services of our country. Many fathers are overseas.

So this year's Father's Day is America's "Salute to our Fighting Dads". The National Father's Day Committee, in conjunction with the United States Treasury, is conducting a gigantic Father Bond Drive. There is an earnest and all-abiding awareness to push on to victory in the observance of this year's Father's Day. And every move being planned for the event is keyed to

Dad and Your Country. Buy a Bond for Father's Day." Father, himself, needs no reminding and will take note of the holiday created in his honor by himself buying bonds for Father's Day. The family is being urged to remember Dad—with War Bonds. The nation is being asked to wear the Father Rosette, a floral decoration made of War Stamps—a gentle reminder to all that there is only one idea in anyone's mind for this year's Father's Day and that is the winning of the war as quickly as possible and that means War Bonds and More War Bonds.

TERRY COUNTY COUNCIL MEETS

The Terry County H. D. Council met at 2:30 pm June 10th in the Brownfield High School auditorium with about 65 club members and visitors present for the purpose of seeing three short film pictures shown by Mr. Brownlee for the benefit of the H. D. Clubs. The pictures were "Proof of the Pudding" a presentation of the essentials of nutrition.

Immediately following the showing of the pictures, council held its regular meeting in the school auditorium with Chairman Mrs. Karl Griffith presiding.

There were 45 club members and visitors present for council meeting. Nine of the H. D. Clubs were represented.

After the reading of the minutes by the secretary, Mrs. R. D. Jones, we heard the reports of the Finance and Marketing Committees.

Through the Home Demonstration Council Marketing Committee there were 275 dozen pineapples bought and sold this month for home canning purposes.

It was decided that the County-wide H. D. picnic be held at Meadow, July 19th in the High School building. The Recreation Committee will hold a meeting in the district court room, July 1st at 3 p. m. for the discussing of plans for the County picnic.

Council Reporter

To the People of this Community

This is a home front communique on the most vital war action now in progress in every community of the land—the Fifth War Loan.

We are advancing on our objective. However, we must make certain that we reach our goal by July 8. This can be done if every one of us puts something extra of ourselves into the fight.

No one needs to remind you that it is an American trait to go into a sprint with the goal in sight. We started this push June 12. Reports from every city and town in America tell us that the number of individual buyers of extra War Bonds today has reached an unprecedented total. We all know that in addition to numbers we need fire power. Your extra War Bond is absolutely essential. The greater the stockpile of War Bonds, the easier it will be for us to get this war over.

This very moment our boys are waging a life-and-death struggle. Every additional War Bond you buy will play its part in the outcome. Last month's War Bond, last week's War Bond, yesterday's War Bond are already in the embattled foxholes. Today is another day for the home front just as today is another day for the boys on the battlefronts.

BAPTIST CHURCH NEWS

The Training Union study course being held in this church this week classes Friday evening. Miss Clara May is leading in this school which has been a very successful study in training for church membership and will no doubt cause a revival of interest in the Training Union which meets each Sunday evening, one hour before the preaching service begins. This service is designed to develop Christians in the art of Christian living and make them more useful in the work of the church.

Next Sunday throughout the Brownfield Association the churches will place stress on the campaign to fortify financially Wayland Baptist College of Plainview as all who would aid that institution are asked to buy bonds in the name of the college which will be used after the war to build additional buildings and for endowment. This college is farther West than any of the institutions owned by the Southern Baptist Convention and must get its support from this Plains area in large measure as people East of us are supporting institutions in their own territory. This is the only Christian College on the Plains and people of this generation must make it a strong institution if it is to remain and bless future generations and we predict that a hundred years from now it will be strongly endowed and will have a great student body from the Plains and States to the West of us. The college is debt free and every dollar will be for new buildings needed and for endowment.

We invite you to make this church as a place to serve.

SUNDAY IS DAD'S DAY

He probably hasn't given it a thought ... dads are like that—they work hard and unselfishly, day after day, with never a thought for themselves. They want the very best of everything for their families, and leave no stone unturned to get it for them.

All the more reason why we should do all in our power to see that they're remembered at least one day each year. Therefore, June 18 has been set aside to do our American fathers honor. Salute him that day with a gift. We have everything the well-dressed man would like.

**BOYCE HOUSE
HAS COLORFUL
CAREER—BOOK IS
A HIT**

He's from Arkansas but he's lived among us long enough to have a touch of Texas in his walk, a touch of Texas in his talk and Texas to the saturation point in what he writes.

That's Boyce House, who will make a speech at the slightest provocation if you'll let him tell you of the glories of the Lone Star State.

Boyce started collecting Texaniana in Cotulla where the fellows who had stories of Texas gathered around a table in a hotel where the meals were served family style. The hotel is gone and most of the fellows who told the stories have gone with it but what they told lives on in a book "I Give You Texas" that surprised even House in the way it sold.

In six months, he says, 40,000 copies of this book have gone into the homes of the State and it's now printing on its ninth edition.

But that's just one product of lanky Boyce House. He started as a reporter, became an author and today makes more speeches than a congressman. House has delivered 500 talks—he doesn't call them speeches—in four years. The idea is twofold: he gets to tell about Texas and he collects more stories to go into his books.

Six years ago he started a weekly column "I Give You Texas." Most of the stories have been told down through the century and the people have heard them time and again.

"But that's why they like to read them," he said. "They feel they are going back through the years, are living their Texas all over again."

House went to Hollywood to serve as technical advisor on an oil picture. He spent four months there, not doing too much work but getting paid plenty for it. As soon as he got loose he hurried back to sweep the State with his talk "How I Took Hollywood by Storm."

Boyce started as a newspaperman in Memphis, Tenn., but came back to Texas in search of health. He settled down in the Oil Belt and it was a Eastland that he broke on the the famous series of Texas—Old Rip, the horped toad that stayed in the cornerstone of a courthouse for 31 years (at least that's the story and no one ever was able to refute it).

It was Boyce House who wrote the story of the Santa Claus Bandits of Cisco—the men who robbed the bank dressed in Santa Claus regalia. "I made more money out of it than the bandits," grinned Boyce. "The robbers were captured and lost the money; I sold a story to a magazine for \$300."

House's father died when Boyce was 12. He managed to get a high school education. His writing accomplishments came the hard way.

Christmas Packages For Overseas Servicemen

DALLAS, June 15—The Navy Mail Service has already initiated plans to handle the volume of Christmas mail for Navy, Marine, and Coast Guard personnel stationed overseas. Mail this year is expected to exceed last year's record figures, according to Eighth Naval District Headquarters. The 30-day period from September 15 to October 15, 1944, has been designated as Christmas Mail Month for Bluejackets, Marines, and Coast Guardsmen outside the United States. With distances so vast and fleet operations so widespread, every effort should be made to mail early in this period in order to assure delivery of packages to men in the farthest outposts. Christmas gift packages this year will be accepted for mailing only within the present limitations of weight and size—five pounds in weight, 15 inches in length and 36 inches in width and girth combined. Perishable articles will not be accepted for mailing and every effort will be made to discourage the mailing of fragile articles which cannot survive transportation to war zones. Emphasis is being placed on the necessity of addressing packages properly. In correct addresses may hold up the mails an average of 90 days and sometimes longer. Last year, several thousand Navy Christmas packages were delayed due to this factor. Plans are now being formulated by the Waac, Navy, and Post Office Departments in conjunction with the Office of War Information and the War Advertising Council for a nationwide campaign to inform the public of all phases of Christmas mail regulations in an effort to secure wholehearted cooperation in mailing early. Wrapping packages carefully, and addressing them properly with the purpose of insuring safe and prompt delivery of the servicemen's Christmas mail. Major and Mrs. C. T. Edwards of Austin were week-end visitors in the R. A. Crosby home. Mrs. Edwards is visiting this week with Mrs. Crosby.
