to his character, and shall carefully ex-
amine the applicant as well as the proofs

are such as to warrant the belief that he
can be safely entrusted with the duties
and responsibilities of the station for
which he makes application, they shall

grant him a license, authorizing him to be
employed in such duties for the term of
one year, in which they shall assign him

TESTIMONIALS.
From Genie C. Scott's "Report of Fashions."
Reading at the fountain-head of American
enterprise, and knowing the interests of the
tailoring business from many years' experience,
we most unhesitatingly pronounce the Shuttle
stitch, last invented sewing machine of Grover &
Baker, one of the best machines—if not the
very best—in the world for tailors' use, or for
the use of any trade requiring a tight seam in
cloth or leather.
We have used the Grover & Baker Shuttle
Machine No. 1, and find it admirably adapted to
our business. It runs lighter, makes less noise,
and is in every way preferable to the Singer
machine for either light or heavy manufac-
turing.
JOSEPH SCOTT,
Manufacturer of Clothing,
No. 24 Broadway, New York.
I am the fortunate possessor of one of your
new Shuttle Machines, which you designate as
No. 1. I have used many different machines in
my business during the past eight years, and it
gives me great pleasure in asserting that this
one is far superior in all points to any that I
have ever used. I want no better.
SEBASTIAN BLESI, Boot and Shoe Maker,
154 South 9th Street, St. Louis Mo.
Having used the different kinds of Sewing
Machines in the market, including Leavitt's,
Singer's and Howe's, have finally adopted your
No. 1 Grover & Baker Machine; and having
used it the past two years, can truthfully say
it proves to be the best machine, and superior
to any we have used.

Hard on the Omnibus Driver.

Doubtless many have heard the story of the young man who applied to Dean Richmond for a position as conductor of the New York Central railroad, and was asked if he had a gold watch, diamond breastpin and some other similar trinkets.

Well, I don't think you treated me exactly fair," Hank dryly replied; "you ought to have given me another chance for that four shillings."

ODE.

ON THE RHINE'S RETURNING INTO GERMANY FROM FRANCE.

Oh, sweet is thy current by town, and by tower,
The green sunny vale and the dark linden lower;

The roses are sweeter, the air is more free,
More blithe is the song of the bird on the tree.

The yoke of the mighty is broken in twain,
And Rhine, dearest river, thou'rt German again!

The land is at peace and breaks forth into song,
The hills, in their echoes, the cadence prolong.

The sons of the forest take up the glad strain,
Our Rhine, our own river, is German again."

Thy daughters, sweet river! thy daughters so fair,
With their eyes of dark azure, and soft sunny hair,

Repeat, mid their dances at eve on the plain,
Our Rhine, our own river, is German again!"

Celestial Costumes.

A Chinese lady—that is, a small or bound-footed woman—may wear the most elegant clothing. Her outer garment is called a sang; it is a loose garment buttoned up the right side, and extending below the knee.

I wish that I could describe the style of the Chinese ladies' hair. It is very elaborate, and is certainly far more becoming than the present style of American ladies.

One McGee, a prominent politician of Kansas, was once the presiding officer of a Democratic county convention. A resolution was under consideration to which McGee was opposed, but which was finally passed by a decided majority.

Horace Mann was once seated in an omnibus with a young man who coolly took out a cigar, lit a match, and put it in his mouth.

Be Guided by What you Know.

There is an old proverb which says, "Experience is the safest guide." To this guide the sick and falling turn when casting about for the means of relief.

Ayer's Hair Vigor,
For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once refreshing, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth. This hair is thickened, falling hair checked, and baldness cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such a result can be secured by usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,
nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.

Good News. 5
We acknowledge through courtesy of his
Hon. Mayor Thielepape, the following:
MAYOR'S OFFICE, CITY OF SAN ANTONIO,
March 28, 1871.
Editor San Antonio Express:
Dear Sir—Having forwarded a telegram
to the Hon. E. Dogener, our representative
in Congress, for the purpose of ascertaining
by and through him, how matters stand in
regard to the acceptance of the General
Government of the donation made by this
city, for the establishment of a permanent
military depot, I received the following answer:

WASHINGTON, Dec. 27, 1870.
HON. W. C. A. THIELEPAPE,
Mayor, &c.:
The Attorney General of the United States
has declared the documents in order. I
send by mail General Belknap's letter.

(Signed) E. DOGENER.
I wish you could notice this fact in your
paper as it is of the greatest interest to our
city, and oblige by so doing.
Yours very truly
W. C. A. THIELEPAPE,
Mayor of the city of San Antonio.

The above is the final settlement of all
doubts regarding the building of an im-
mense depot at this point for the use of the
military. It has long been considered as a
settled fact by military men, and accord-
ingly plans and specifications are at hand
showing the magnitude of the work to be
entered on. In size the building is to be
four hundred feet square and all possible
convenience, (of which we shall speak here-
after) will be attached to it.

The whole affair is one of those triumphs
over obstacles that accredits itself to the
Republican party. Steadily the leading
Republicans in this section have pushed
the matter, and by written and personal ad-
ditions to the subject urged it forward to
its present finality, and San Antonio is to
have the depot and have it very shortly.

The effect of expending a million of dol-
lars in our community for materials and
labor for the building, can hardly be at present
concealed.

It will stimulate every branch of trade,
will open up a mine of enterprise to our
mechanics, will add to the value of all city
property, and what is still more important
will give us a reputation abroad for a city
of growing importance that will bring hun-
dreds to our city, prepared to cast their
fortunes with us, and add their labors in
the common fund.

The use of New Orleans as a supply de-
pot has been or will be discontinued, and
this department's supplies will be kept
here at San Antonio; and when we re-
member that we have nearly a fourth of
the entire army in this department, the im-
portance of this fair city of ours will assume
its proper estimate.

San Antonio is fast filling out her pleas-
ant destiny. Little by little the prestige
due her fine natural position, her healthy
climate and her central position is gather-
ing. Ten years of careful and economical
management of her municipal finances will
place her first on the rolls of the great cities
of Texas. Will the people see their opportu-
nity and profit it by it?

SOME well wisher of Texas sets forth a
neat account of the statistical standard of
Texas, as regards the crops she raises, and
speculating as to the future, pertinently
asks the San Antonio Herald:
"What is Texas destined to become when
astonished John.

good Northern or Western farmers come among
us who are not accustomed to our careless
manner of farming?
The Herald should answer, by all means.
It should tell that enthusiastic writer, that
it omnivorously frowns down all Northern im-
migration that threatens to turn its steps
this way. It should tell him that any yank
is considered among the lovers of the Her-
ald, a carpet-bagger, and that ten chances to
one, the Democrats will turn out on massie,
destroy his crops, steal his stock, and per-
haps, if he is from extreme Yankeeism,
from Massachusetts for instance, tell him
that if he escapes a rope he will be fortun-
ate. This is what the Herald should say,
for its every day, teachings to Democrats
is the self-same theory over and over again.
The highest crime on the calendar, in Her-
aldic eyes, is being a Yankee.

Democratic Brag.
Democracy is a party given to strange
vagaries. The result in the State election
of New-Hampshire, wherein they have
wrought a majority of five or six hundred
votes, has afforded its press a theme upon
which the wildest extravagancies and
hopes have been built. The country has
been flooded with papers setting forth
wonderful calculations of Democratic gain
and containing positive assurances of a Dem-
ocratic triumph in the presidential caucuses
of 1872.

Unfortunately for the easily encouraged
Democracy its stand is unsupported by the
chain of the experience of the past. For
the last ten years Democracy has been sub-
ject to those spasmodic enthusiasms, which
usually end in one of those mortifying
defeats, that for the time fairly paralyze the
party of ideas, inconsistent with the ideas
of either National Peace or Progress. In
1862 Democracy made a much more hopeful
showing than now, but made as usual the
proper amount of brag, which very properly
culminated in a terrible defeat in the
caucuses of 1864 and despondent Democracy
took a back seat until the victories of a
few State elections in 1867 again brought
forth all the hopes and same overwhelming
assurances of a triumph which proved if
anything more preposterous than those of
1862, for fully two-thirds of the House of
Representatives elect, were square Republi-
cans, while a Republican President in-
augurated measures of reform and national
economy that promised well for another
triumph in 1872.

And now we come to another point, hav-
ing an important bearing upon the hopes of
the Democracy in 1872. It is the national
query of what has Democracy done or what
does it promise to do in order to receive the
countenance and franchise of the American
people? Thus far its promises as merged
into the numerous State platforms are ad-
verse to national advancement and perpe-
tuation of American enterprise. It promises
to foment internal disorder by appearing
as apologists for a class of lawless men who
would if left to run either State or Nation,
soon become a rival revolutionary govern-
ment to famous and disorderly Mexico. It
promises to regress back to the times
when the civil rights bill had not made its
appearance and the fourteenth and fifteenth
amendments to the constitution had not
made more forcible the enunciations do-
trine of equal rights. There is in the
nation if it be true (and pity 'tis true) those who
still believe in class legislation; who believe
in excluding human beings from rights and
privileges of citizenship because of a black
skin, but the mass of thinking and intelli-
gent people of the United States counte-
nance no party presenting such an issue.

Free trade, some able Democratic jour-
nals think will be the key note, which will
summon to harmonious working the people
of the West and South, but here proceed
steps in and points an unerring finger to
the record of the acts of Democracy in the
forty-first Congress, where Democrats voted
solidly against the repeal upon certain
articles, thereby proving to the people that
free trade is one of those myths, an ignis
fatuus which may appear luminous at a
distance, but which an approach to, leads
to the treacherous depths of the depression
of a nations industries.

Now if political results were akin to mir-
acles we might be somewhat shaken in
faith by the extravagant presumptions of
Democracy, but looking calmly and con-
siderately upon all sides of us we fail to
see ought, but the brightest of hopes for
the maintenance of the Republican tenets
and their party. The cry that "the mis-
sion of the Republican party is ended" is
unfounded in fact and in reason.

Democracy places an issue before the
country in the shape of its opposition to
the Reconstruction matters, that calls for
at least four more years of hard work in
filling out and building up certain prin-
ciples in sympathy with the original ideas
of the creators of our government and con-
stitution, and in perfect harmony with the
advancement of civilization throughout the
rest of the intelligent world. We leave
Democracy to brag while we work. With
parties as with men, disinterested human-
ity may look upon our works as experi-
ments, but when the trial trial comes on,
and our gallant ship of state moves on
with the power of self motion, abiding a
parallel of the invention of the much abused
Fulton, our reward will be at hand in the
shape of a history and a record left, which
coming ages will admire and deduct health-
ful reasoning from.

A SITCH IN TIME SAVES NINE.—If you
have a cough, do not neglect it; thou-
sands go to untimely graves by neglecting
what they call "a slight cold." These
slight colds are very insidious. They soon
become deep-seated, and defy all remedies.

THE loveliest fancy dress quoted
from abroad is a flower costume.
This is simply an ordinary evening
dress, with demitained skirt, made
up entirely of ruches of shaded silk
alternately mauve and violet, sewed
on a tarlatan foundation. The
ruches are very full, notched on the
edges, and caught up between the
plaits to look like flower petals. To
often all this is an overskirt of violet
tulle, with long slender vines of
dark green leaves of the violet loop-
ing behind for a slash. The dress
looks like a huge bouquet of Parme-
san violets.

MOVED.—Gen. Card's office from Vance's to French's building.

ASPIRING.—Morning glories. They are ever on the climb.

A NUMBER of vacant houses within our city limits bespeak the cause of sudden reduction of rents.

FREIGHTS still arriving. Many of our merchants have not yet received their spring goods.

DECORATION day is the thirtieth of May. Don't forget it, all ye who hold in reverence the memories of the soldier dead.

TURTLE soup, fine fish, asparagus and green peas make up a famous dinner for the gourmands just now.

We invite attention to the article elsewhere, headed "Good News." We believe the matter treated of, is one of great interest to our citizens generally.

THE weather yesterday savored more strongly of April sunshine than of March winds. It was one of those balmy days whereon all nature was clothed in universal smiles.

THE San Pedro Springs are the center of evening or afternoon interest again. Duerler's is the most pleasant place to visit within a hundred miles of town.

Mosquitoes came in with the last rain, and have already presented sundry bills to our perplexed citizens. Some few have preferred to draw on parties, though the drafts have not been pleasantly accepted. We protest all of ours.

We notice stout bodied men around begging, putting on woe begone looks, and imposing upon the charitable credulity of many of our people. We hope the police will arrest all such. We believe where begging becomes a business, the police should interfere.

BOYS.—We had noticed a good many of these blessings (I) distributed round, and half way imagined we were to be slighted. We are gratified (I) however, to find ourselves possessed of one which evidently, by its size, will make all amends for its tardiness. We have't been so happy before since we had the measles.

Our esteemed friend and neighbor, A. F. Wolf, is ranking a second paradise of his handsome grounds, while the style of architecture adopted in the building of his residence is universally admired. He has one of the finest places in San Antonio, and we wish him many, many years of life to enjoy it in.

WON'T it be nice when our handsome city is graced with those new iron bridges, and the fine building of the Government Depot looms up as a mark of appreciation of our advantageous natural site? Won't all our merchants rejoice over the stimulus to trade and the advent of prosperous times, such as San Antonio has never before seen? Then the iron horse will come thundering over the hills to the east, and as it halts with a snort in our flourishing city, the picture will be perfect, and Republican toilers can feel that they have indeed done their whole duty to the people whom they worked and legislated for.

A GOOD JOKE.—A gentleman, a farmer from the country, came into San Antonio a few days ago and put up at a genteel boarding house which is blessed with all the conveniences human nature could ask for. Among others, is a large shower bathing apparatus in a neatly built pavilion in the yard. Our gentleman farmer, used to early rising, got up a few days since, and in prowling around the yard opened the door of the pavilion and looked in.

Pleased with the conveniences, in shape of a table and glass, he boldly entered,

dooming it one of those pleasant summer houses he had heard so much about. Curiosity of course was excited by the dangle of string hanging near the center of the apartment, which, however, was speedily dissipated by a strong pull at it, as a perfect deluge was launched upon the unsuspecting head of ye gentleman farmer. The inmates of that boarding house were aroused in a hurry, and the timid ones, half way scared that a Comanche raid was being made upon the premises. The yells of distress were frightful, and only the presence of mind of a colored boy on the premises, saved the drums of the ears of the listeners from total destruction. The gentleman was led out speechless with fear, and since that time wisely keeps his nose out of places that he is not induced into by some of those who understand the mysteries of modern improvements.

SUFFERERS from neuralgia may be pleased to learn that a medical correspondent of the London Lancet writes: "A few years ago, when in China, I ascertained that the natives when attacked with facial neuralgia, used oil of pepper mint, which they lightly applied to the seat of pain with a camel's hair pencil. Since then, in my own practice, I frequently employed this oil as a local anesthetic, not only in neuralgia, but also in gout, with remarkably good effects."

It is related of a certain minister in Maine, who was noted for his long sermons with many divisions, that, one day, when he was advancing among the *teens*, thoroughly wearying his hearers, at length reached a kind of resting place in his discourse, when, pausing to take breath, and looking about over his audience, he asked the question: "And what shall I say more?" A voice from the congregation, more suggestive than reverent, earnestly responded: "Say amen!"

Jenkins has much to contend with. In describing a recent ball at Columbia, S. C., he attempted to speak of Mrs. Theodore Hammond as "exceedingly lovely in long train and short sleeves," but the demoniac printers made him mention "Mr. Theodore Hammond exceedingly lovely on a fast train in his shirt sleeves."

A Connecticut lawyer, who wished to cross the river on the ice, was told that it would be entirely safe to make the attempt if he crawled over on his hands and knees. Anxious to go, he humbled himself accordingly, and had laboriously got half way across when he was overtaken by a man driving along leisurely in a buggy. The rapidity with which he assumed an upright position was startling to the driver.

SAVED IN HERRING'S SAFES.

OFFICE OF ADAMS EXPRESS COMPANY, No. 15 Broadway, New York, Dec. 31, 1870.
Messrs. Herring, Farrel & Sherman—Our Agent at Richmond writes: "We got through to-night drying and fending up the money from the late fire. The contents of the safe—\$25,000 in bills, we recovered. It was a Herring Safe, and a good one, certainly. Yours, truly," "J. C. BARBOUR, Treasurer."
Messrs. Herring, Farrel & Sherman, New York Agents: "These safes of your manufacture, which we had in use on the morning of the 26th inst., at the disastrous fire which destroyed the Spotswood Hotel and adjoining block of buildings, have given full satisfaction, and served to prevent the destruction of some \$25,000 in currency, besides the valuable papers and books enclosed therein. It was impossible for workmen to excavate the safe until nearly 24 hours after the fire. Respectfully,
J. P. GIBSON.

Consumption, Its Cure and its Preventive, by J. H. Schenck, M.D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. These wear and tear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted Dr. Joseph H. Schenck's simple Treatment, and availed themselves of his wonderful efficacious medicines, they would not have fallen. Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor. In his statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self-assuring, self-convincing. The Sawweed Tonic and Mandrake Pills are the first two weapons with which the onset of the malady is assailed. Two thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbid action of the liver. Here then comes the enliminating result, and the setting in, with all its distressing symptoms of Consumption. The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophyllum Peltatum. They possess all the blood-purifying, alterative properties of colomet, but unlike colomet, they "Leave no Sting Behind." The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsibly, and the patient begins to feel that he is getting, at last, A Supply of Good Blood. The Sawweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing without its previous tortures. Digestion becomes painless, and the cure is soon to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in. Now comes the greatest Blood Purifier ever yet given by an indulgent Father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impure and diseased portions of the lungs. In the form of gatherings, it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the meadow or womanhood that was. Given up as Lost. The second thing is, the patient must stay in a warm room until they get well. It is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients. If their lungs are badly diseased, and yet, because they are in the house they must not sit down quiet, they must walk about the room as much and as fast as the strength will bear to get up a good circulation of blood. The patient must keep good spirits—he determined to get well. This has a great deal to do with the cure, and is the great point to gain. To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is itself, in Schenck's treatment, almost certainly the cause of his own cure was in this respect wrong. Many years ago I was in the last stages of consumption, confined to my bed, and at one time a physician said to me, "You cannot live a week; then they gave me many soothing draughts. I had of and obtained the preparations which I now refer to the public, and they made a perfect cure of me. It seemed to me that I could feel then penetrate my whole system." They soon effected the matter in my lungs, and I would spit up in a thick, slimy, yellow matter every morning, a long time. As soon as that began to subside my cough, fever, pain and night sweats all began to leave me, and my appetite became great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown to flesh ever since. I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only one hundred and twenty pounds, and for years I have enjoyed unimpeded health." Dr. Schenck has distinguished his professional visits to New York and Boston. He of his son, Dr. J. H. Schenck, Jr., continues there to see patients at their office, No. 15 North Sixth Street, Philadelphia, every day, weekdays from 9 A. M. to 5 P. M. Those who wish a thorough examination with the best promoter will be charged \$5. The Hospitaler declares the exact condition of the lungs, and patients can readily learn whether they are curable or not. The directions for taking the medicines are adapted to the individual case of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses. The medicines need no other accompaniments than the ample instructions that accompany them; First create an appetite. Of restoring health, when it comes, as it will come, let the despairing at once be of good cheer, Good blood at once follows, the cough ceases, the night sweat is stilled. In a short time both of these morbid symptoms are gone forever. Dr. Schenck's medicines are constantly kept in tens of thousands of families, as a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms. Price of the Pulmonic Syrup and Sawweed Tonic, \$1.00 a bottle, or \$7.00 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers. E. J. HART & CO., 73, 75 and 77 Tchoultoulas street, New Orleans, Wholesale Agents. 11-1701y

ELMENDORF & CO., Agents for the Clippier Mowers and Reapers.

The great field trials at Sedalia, Mo., and at Xenia, Ohio, in the Summer of 1869—where "The Clippier" met some of the best competitors, including all the leading machines built, and was awarded the First, Premium and Gold Medal—proves that the proprietors have been able to sustain in the field their claims of superiority for "The Clippier" machine over all others. Its extraordinary lightness of draft takes one-third of the labor off the team. The adjustability of the finger-bar, to cut high or low without stopping the team is worth \$25 on any machine. It is the only mower that has the true center draft in accordance with correct mechanical principles in short, it is the lightest, the most durable, the least complicated, the most perfectly constructed, the most symmetrical in design, of any implement of its class. Farmers—THE CLIPPER IS THE HORSE'S FRIEND, and you cannot afford to ignore their welfare. Send for pamphlet—investigate. See or write to some one who has used THE CLIPPER. See the Machine yourself before you buy any other.

WONDERFUL RAPIDITY. Perfectly Regular and Even Distribution of the Seed. Cahoon's Broadcast Seeder. For Sowing all Kinds of Grain and Grass Seed.

The unprecedented success of this Seeder the past season is without a parallel in the history of Agricultural Implements. The farmers of the Country have no longer got to wait in the busy of Seeding time for the imperfect process of Hand Sowing, nor for the "Slow Catcher," called "Combined seeders." A Hand Cahoon's Seeder will sow as fast as five, and a Power Cahoon's Seeder as fast as twelve of them, and the work will be done better than it can be done by any means whatever. Farmers save your money and your time. Look to your own interests and not to the pockets of interested dealers and manufacturers.
