F. HASENBURG, M. D.,

Physician, Surgeon,

Mrs. Judge Jenkius.

BEING THE ONLY GENUINE SEQUEL TO "MAUD MULEER."

Mand Muller all the summer day Raked the mendow awest with hay; Yet looking down the distant lune, She hoped the Judge would come again; But when he came with smile and bow She only blushed and stammered "haow!" And spoke of her Pa, and wondered whether He'd give consent they should wed together

Old Maller burst in tours and then Bogged that the Judge would lend him ton; For trade was dull and wages low, And the "crops" this year were so what slow.

And 'ere the languid summer died Sweet Mand became the Judge's bride. But on the day that they were mated Maud's brother Bob was intoxicated; And Mand's relations, twelve in all, Were very drunk at the Judge's Hall.

And when the summer come again -The young wife hore him bables twain, And the Judge was blest, but shought it That bearing babies made such a change ; For Mand grew broad, and red, and stout; And the waist that his arm, once clasped

Was more than he now could span; and he Sighed as he pondered rucfully. How that which in Maud was native grace In Mrs. Jenkins was out of place; And thought of the twins, and wished

that they Looked less like the man who raked the hay On Multer's farm, and dreamed with pain Of the day he wandered down the lane; And looking down that dreamy track, He half repretted that he came back; For had he waited he might have wed Some maiden fair and thoroughbred.

For there be women fair se she, Whose verbs and nouns do more agree Alse for maiden, alse for Judge, For the sentimental, that's one half fudge For Mand soon thought the Judge a bore, With all his learning and all his lore; And the Judge would have bartered Maud's fair face, For more retinement and social grace,

If, of all words of tengue or pen, The saddest ere these, "is might have been," More sad are these we daily see, "It is, but it hadn't ought to be."

Referring to recent articles in this paper, we have had the pleasure of a call from Col. Jao. T. Tracy, general traveling agent for the Kansas Pacific Railway, and obtained from him some interesting facts in relation to our railroad connections with St. Louis and Kausas City.

The Missouri River, Ft. Scott & Gulf road is, and has been for the past twelve months, in active operation to Baxter Springs, a town located on the Government strip immediately adjoining the northern boundary of the Indian Territory. This is commonly known as the Joy road, and is owned by the Chicago, Burlington & Quincy Railroad, one of the wealthiest corporations in the West. The Missouri, Kansas and Texas Bailroad is in successful operation from Sedalia, Mo., to Junetion City, Kansas; the most south-ern point being Chetopa, Kansas, about twenty miles west from Bax

Udolpho Wolte, Esq., Present: Dear Sir: I have made a chemical examination of a sample of your "Schiedam Schnappe" with the intent of determining if any foreign or injurions substance had been added to the simple distilled spirits.

The examination has resulted in the conclusion that the sample contained no poisoness or harmful admixture. I have been unable to discover any trace of the deleterious substances which are sometimes employed in the adulteration of liquors. I would not hesitate to use myself, nor to recommend to others, for medical purposes, the "Schiedam Schusppe" as an excellent and unobjectionable variety of gin, Very respectfully yours, (Signed)

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the bair. Faded or gray hair is soon restored

to its original color, with the gloss and freshness of youth.

Thin hair is thickened, falling bair checked, and haldness often, shough not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for But such as remain can be saved for But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations denocrous and make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. The billows of Caste and Privilege may roar and rage around that reek, and may transfently seem on the point of washing it away; but its foundations are deep laid and alcadiast, and the breakers of Reaction and Slavery are hurled against and dash their prayevers it in vain.

We do not underrate the forces of Prejudice and Arist cracy. We do not forget that a very large mimority of the American People still hold in their immost hearts that Blacks have no rights which Whites are bound to respect. We fully appreciate the deaperation wherewith all the warring elements of hatred to Republican accondancy in the Presidential Election of 1872. We do not doubt that local successes, facilitated by Republican feuds and disserrations of the great struggle by legitimate means to beneficent ends. To State Soveries, will inspire the clarging host with we sampuice hope, of victory, such as nerved it to put forth its utmost strength in the earlier stages of the contests of 1804 and 180e, Yer our faith is clear and strong that the American People still bless God that, on the red battle holds of our late Civil Warther to informate and invincible God will. By a gentleman just from the Coucho, we learn the following regarding the In

Last Friday, a party of cattle hunters in the neighborhood of Fort Concho, consisting of Clay Manu, Bill Manu and seven others, came upon a herd of cattle about eight hundred in number, that were being driven off by Kiowas and Comanches, without as much as saying to the owners thereof, "by your leave." The gallant cow boys let in upon the savages, and a fierce fight ensued on the spot known as the Devils court-house. The boys fought have the further taxation to hear of six bravely, but the red devils were about hundred thousand dollars per year as inferthirty against nine, and finally the boys ast and sinking fund. Give them the land were driven off, and the Indians started and you are offering it to them at less than off, pushing the herd as fast as it could be 70 cents per acre which would simply be a driven. All this happened within twelve

Menardville, a settlement numbering perhaps a handred families was not as for canate, for everything in the shape of traveling stock, horses, mules, year old colts, &c., were driven off by either the same party or a division of the main body of raiders who have come down this time

The situation of our frontier people is becoming hourly more pertilous. Even travel upon the post roads is over teeming with dangers.

Instead of coming in, in twos or threes, and skulking through the country, stealing under cover of night, the reds come boldly in, in force. They are well armed and have full supplies of ammunition. The stockraisers and cow hunters are not safe from them unless they band together and hunt their stock in large parties. Surely, surely the situation demands the Government's immediate attention. The highest duty of the Government is to afford its citizens protec tion from murder and violence, and their property from sequestration and wholesale every. SUBSIDY SCHEMES.

The Labbyist- at their old Tricks,

A Fout Scheme to rob the State of Texas.

We have received a bill which has been offered in the Texas Legislature, which for bure faced robbery and impudent attempt procure subsidies for a net of lobbyists and speculators, heats anything we have ever yet seen. The bill opens with a lengthy able setting forth the probability of all the different source valuing to El Paso and the Pacific ocean, merging into one, the Southern Trans Continental route, and then the preamble sets forth in extravagant style the wonderful benefits to accrue to the State from the encouragement and riff-raffs of that place with an exhibition of ompletion of that route.

All the preamble's verbiage is for so hing, for the first enactment in the bill, as ropused donates and grants the Southern Pacific Railroad Company and the Southern Trans Continental Railway company the bonds of the State of Texas to the amount of six millions of dollars upon certain con-

What are those conditions? Simply that the two companies agree upon a point of junction of the two roads between the twenty-second and twenty-third degrees of longitude, west from Washington, and be- ton, &c.," "I introduced a bill, &c.," and tween the thirty second and thirty-third parallela of north latitude, within the that "I" did everything, and the characters space of six months from the passage of of our other Texas Congressmen are given

The six millions of dollars in bonds are to bear interest at eight per cent per annum, to be paid semi-annually, thus creating a yearly burden of \$480,000 interest alone, and \$130,000 as a sinking fund.

There is still another phase to this scan-

dalous affair. The act provides that these onds can before reaching maturity, he reemed by the granting to the holders of ndred and forty acres of land for each bond of one thousand dollars.

This phase is peculiarly gratifying. Eight million aix hundred and torty thousand acres of land, would thus be the subsidy of a company whose entire expenses in building the road through Texas would be thus ore than paid.

"For ways that are dark and tricks that are vain" recommend us to the Texas lobby; This bill has been prepared by them in the interest of a railroad ring. A more glaring piece of chicanery was never exposed to view, and yet they seem to have that faith in the power of money and judicious use of bribes that will ensure them a show of success in getting this monstrons proposition

It is time for our Legislature to give visi ble signs of its incorruptability. It is time that they passed upon this bill, such an overwhelming flat of disapproval, that the willy tricksters and lobbyists infesting the capital city of our State, will pack up their small stock of worldly effects, and leave for regions where their temptations will be better received.

Just think of what is asked. Six million in money or eight million six hundred and and forty thousand acres of land. Give them the money and the people of Texas shameless sacrifice of territory, and a plac News of the fight ing of a landed monopoly in the hands of

We trust that Texas is spared from the dishonor of having a man to represent even a part of her interests, in such a shameful way. The whole aspect of the case is bad. Last session this company and its adherents who manipulated the charter through the Legislature were foremost in expressing and declaring that they simply wanted the right of way, and wanted no subsidy. This ssion they come back with such outrageous demands, that we doubt the sanity of those reckless schemers, who have the ef-frontery to put the bill in shape.

We hope our Legislature will disp the subject at an early day, and so effectually put the seal of disapproval upon these subsidy schemes, that our patience and the patience of the people will be no longer im-posed upon by even the mention of them.

John C. Connor.

The "Don Quixote" of Democracy in Texas, has arrived within our State borders, and the Galveston News spreads itself in a two column article, to tell its readers what that ex-captain of a colored regiment, and, ex-representative of Democracy, had to say,

We had a faint idea, once upon a time, that Connor did have at least one good quality, to balance all his vicious ones, such as beating colored soldiers, and playing buffoon in Congress by tilting against the iron clad Tribune, or butting even his own Democratic allies, by forcing them to vote against him on nonsensical free trade spasms of thought. Yes, we thought Conple and its civilization, to go unpunished ! by experience, but a perusal of his egotis-

The Paily State Journal,

TESTERDAY was generally observed by the Christian denomination as a day of worship, and ascred from the investoof business or pleasure. The churches were largely astended, and the services in many of them very impresive. Business seemed to feel the effects of the day, for very little was done in a commercial way. Twelve o'clock to-night, closes Lent, and to-mor-row's sun, ushers in Easter Sunday, the fec-tival of the resurrection. The austerities of Lent give way to rejoicing, and the 'Choria' is again heard in the churches. The servi-ces to-morrow will be grand, in all the

THERE is a general complaint among our citizens as to the poor quality, and yet ex-

A laboring man remarked yesterday that it now cost him forty cents per day for the item of meat alone, where heretofore it cost him only twenty-five cents a day, and the meat purchased now is inferior in quality to what it was then. There is no excuse for this, save it is an unsernaulous combi nation of the butchers to advance the prices of the article, and thus fill their pock ets with superabundant profits. Meat today in New Orleans, where Texas beeves are quoted at from forty ta sixty dollars perhead, is not much higher than it is in San Antonio, where the rate for good beef cat-tle never exceeds twenty dollars per head. Meat is furnished to the army at this post at less than 3 cts. per 1b. and large profits made at that rate, while our citizans pay at a rate of fifteen or twenty cents per pound. This discrepancy in prices is too much, and calls for a change.

The stancing, adopted Treatment, a sample Treatment, and availed themselves of his wonderful of the selections incidence, they would not have falled.

filescions medicines, they would not have fallen.

Dr. Schenek has in his own case proved that wherever sufficient vitality remains, that yitality by his medicines and his directions for their use, is quickened into health-ful vigor.

In this statement, there is nothing pressionant. To the faith of the invalid is made no representation that is not a thous.

made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr.
Schench's medicines is as simple as it is un
faling. Its philosophy requires no argument It is self-assuring, self-convicing.

The Secured Tonic and Mandrake Pills
are the first two waspons with which the
citadel of the malady is assailed. Two
thirds of the cases of consumption originate

citadel of the manay is assaired. We thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "aympathise" with the stomach. They respend to the morbita action of the liver. Here thes comes the culminating result, and the acting in, with all its discrete. tressing symptoms of

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peliatem. They possess all the blood-searching, siterative properties of calomel, but unlike calomel, they

"Leave no Sting Behind," The work of cure is now beginning. The vitisted and macous deposits in the bowals and in the allmentary quital are ejected. The liver, like a clock, is wound up. It are uses from its torpidity. The atomach acts responsively, and the patient begins to

A Supply of Good Blood. The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylideation is new progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, he at hand. There is no more flatulence, no exacerbation of the stemach. An appetite sets in.

Now comes the greatest Bleod Purifier sver yet given by an indulgent father to suffering man. Schenck's Pulmonic ayrup comes in to perform its functions and to hasten and compute the cure. It enters at once inpon its work. Nature enabot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings, it prepares them for expectoration, and lo I in a very short time the mahaly to ranguished, the rotten throne that it occupied is removated and made now, and the patient, in all the dignity of regained vigor, steps forth to unjoy the man-hood or womanhood that was. Now comes the greatest Blood Purific

The second thing is, the patients must stay in a warm room nutil they get well; it is afmost impossible to prevent taking cold when the lungs are diseased, but is must be prevented or a cars cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter vesson, are all srcng. Physicians who recommend that course less their patients, if their lungs are badly diseased, and yet, because they are in the house they must not it down quiet; they must walk about the sit down quiet; they must walk about the room as much and as last us the ettength will hear, to get up a geed pirculation of blood. The patient must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great origin to gain.

To despair of cure after such evidence of its possibility is the worst cases, and moral certainty in all others, is sitful. Dr. Schenck's personal statement to be Faculty of his own once was in these modest words:

Many years ago I was in the last stages, of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then, like a drawning man catching at straws. I heard of and obtained catching at straws, I heard of and obtained the preparations which I now offer to the

the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel shem penstrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a plat of offensive yellow matter every morning for a long time.

As soon as that began to subside my cough, (expf. pain and night sweats all be gan to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much, I soon gained my strength, and have grown in flesh ever since."

"I was weighed shortly after my recov-ery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two-hundred and twenty five (225) pounds, and for years I have enjoyed uninterrupted health.

Dr. Sebenck has discontinued his professional visits to New York and Boston. Heer his son, Dr. J. H. Sebenck, Jr., atili continue to see patients at their office, No 15-North Sixth street, Philadelphia, every Sat-

The Respiremeter will be charged \$5. The Respiremeter declares the exact condition of the lungs, and patients can readily learn whether they are curable at not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Fills are to be taken in increased doma; tha three medicines need no other accompaniments than the ample instructions that accompany them; First create appetite. Of returning health, hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once he of good cheer. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both of these merbid symptoms are gone forever.

time both of these merbid symptoms are gene forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families, As a laxative or pu gative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a curer of coughs and colds, may be regarded as a prophylactric against consumption in any of its forms.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, suon as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the schole history of real-ing, its any thing wor so whelly and so early upon the continuence of mankind, as this vertical remody for pulsionary complaints, are the many things were of mankind, as this vertical remody for pulsionary complaints, are the many the many through the property of man, it has shear higher and higher and higher neither measure of the lungs and through have to care the viscous give times of the lungs and through have not against a trainer of the lungs and through have not it known as a reliable protector against ear. While adapted to militer forms of disease fail to young dishlaves, it is at the same time the cost offer that sensely that can be given for inchestary and and lungs. As a provision against indica attacks of Crosey, it should be kept on and in every family, and indeed as all are comes achieved to exist and coughs, all should be caviled with this antidote for them.

Although settled to incorney free is thought incore sequence subject to exist and coughs, all should be earlied with the antidote for them.

Although settled to incorney free is thought incore, the course settled, have been completely used, and the patient restored to several health which the earlier of them present the discoverer of the Lungs and Level, that the most obstanate of them yield to it, then nothing else could reach them, under the heavy Frederical the property and often wholly ured by it.

Herearchile is generally caved by taking the Herearchile is generally caved by the Herearchile is generally caved by the Herearchile is generally caved by taking the

dathese is always relieved and often wholly cured by it.

Bromehitis is generally cured by taking the Cherry Pertacel in small and frequent doses. So generally are its virtues known, that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic potsons.

from malarious, marsh, of miasmatic poisons.

As its name implies, it does Cure, and does not fail. Containing neither Accenic, Quinipe, Iliamoth, Zine, nor any other mineral or poisonous substance whatever, it is nowise injures any patient. The number and importance of its cures in the agent districts, are literally leey ond account, and we believe without a parallel in the history of Ague neclicine. Our peide is gratified by the acknow ledgments, are necessed to the real-accentain obstinate cases, and where other remedies had wholly failed.

I nacclimated persons, either resident in, or travelling through minamate localities, will be protected by taking the Act & S. C. E.E. Caily.

For Lieser Cossipalmints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy derivity.

For Hillous Discorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.
