Archbishop Darboy. 1871.

The murder of the Archbishop of Paris, The murder of the Archbishop of Paris, for there is no other word to characterize the dec6; is one of the foulest blots on the commune. M. Darboy was eminent for his picty, patriotism and great ability. In the earlier stages of the struggle between the commune and the Versailles government he remonstrated with Thiers, addressing him in the words of Christian shepherd and preinte, indeed: "This appeal comes from the heart of a man who of late has seen much misery. It comes from a French heart which bleeds at the misfortunes of our own country. It comes from a religious heart, ready to sacrifice everything, even life, to save those whom God has made his flock and fellow-citizens."

The assassination of such a man can have the finest assortment of Spring and Sum-mer Dress Goods ever brought to this market. We earnestly invite the attention of the public to our elegant Japanese Silks,

Had he plotted to aid Tulers, or to aid Napoleon or any one else, there might be some reason for his death. But that has never been even insinuated. All his efforts were to bring peace to his unhappy country; to restrain the fury and the savagues of the combafants. The county Executive Committees will be duly announced and are requested to call their conventions before the first day of August next, and that the utmost good feeling and fairness be exercised in order that the Congressional Convention may be the unanimous and houset expression of the wishes of the Republican party of the district.

The approaching canvass is one of great importance, not alone to the State, but to the nation at large, and should awaken the liveliest spirit of emulation and patriotrism in the breasts of all Republicans and advocates of peace and good government in the State. #### Indecent Journalism.

THE San Autonio Herald delights in caffing Mr. Newcomb by the indecent uphithet of "Jimmy Lodown." It is a phrase of their own coinage and so far, their patent right has not been lufringed upon by any other Journal in the State, and its very use, stamps its anthors as mean and cowardly.

In this community, where Mr. Newcomb is well known, such indecency has only the effect to excite contempt. If the etlitors of the Herald have a personal griev-ance against Mr. Newcomb, they have had imple opportunity to redress themselves ; If they wish to bring on a personal diffiealty, but there seek the wan in person and not exhibit their indecency in carrying their cowardly epithets into the fan ily circles of our city where they pretend the Herald goes.

ion of all the citizens of San Antonio, the Herald orew excepted, Mr. Newcomb as a loyal gentleman, a citizen, a friend and a companion stands for above the Herald men, hence their disgusting malice.

Mr. Newbounb grew up from boyhood in the city and his name, and record are unand his example as a young man is commendable to every young man in this community. Ho is positive in his views an effectual manner, it may be that the political and otherwise, and like all other men must have evenies, and as palities son from his English admirers should be will probably tell of the luvasion of them since the war, have been inseperable from personal hatred, Mr. Newcomb can attribute to his Republicanism and loyalty all actic, cold blooded, relentless execution of anward to a nation's center, for protection the ennity towards him. The Herald edis the leaders, but the United States governs for our people. If the Indians will war, tors ato welcome to all the praise or credit ment requires nothing but a cessation of war they will have, and if our glotious govthey can gain by using mean epithets. the war and an actual recognition of the ermient will give us a Sheridan, a Sh against them of meanness and cowardies.

WE FEEL confident that should the presfirst class city becomes evident to every their success in evading the soldiers and one, that they, the men who have brought this misfortane upon the people, will be magnanimit glad to hide their diminished heads. The Versaillists. longer the people consider this question, the more evident it will appear that a fatal blunder has been committed.

There are some men in our community who are opposing the Columbus road from pure maliciousness, and we will prove it. We call the attention of the public to the following copy of a document which only dwo years ago was signed by nearly all our prominent citizens, and we ask in all canfor, lesw could a man place his name to it and office to the proposed donation to the same road referred to;

there may expect fatal consequences.

"We, the undersigned, agree and promise to give and pay to the New Buffate Bayon, Brazos and Colorado Railway company, or say ofter company to the named of the same and and fred named company may assign their franchise and right, the real estate and money set opposite our names respectively, and for which we will on demand execute deeds and notes to be conditioned, however, upon the completion of a railread from a point at or may Columbus, on the Colorado river, State and provided further, that and railread shell be completed to and point last named, within three years from the last of March, 1860. The money given to he payable on demand, after the road shall be constructed to San Autonic, and it is further agreed that J. W. Stell, agent of the said company be authorized to after to said, deeds and notes the necessary revenue stamps and cancel the same."

We omit she names and amounts, but we notice among the named, those of some men who are now opposing the douation. In the language of the lamented Artenna, Why is this thus?

"Do you enjoy good health, Zachary "
"Why, yes, to be sure; who does'ut?"

Consumption In Ours and the Proventive. By J. H. Schenck, M. D.

Many a human being has passed away, for whose death there was no offer reason than the neglet of known and indiputably prove means of the . These near and dear to family and friend are sleeping the dramatical thinker into which, had they calmir adopted droamless sluck

Dr. Joseph M. Schenck's simple and availed themselves of his worderful of-ficacions malicines, they would got have fallen henone thein his sent case proved

fallen.

Difference in in the step case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuess. To the faith of the invalid is made no representation that is not a thousand times subject antitude by living and visible works. The theory of the care by Dr. Schouch's medicines is as simple as it is unfaitines. Its philosophy requires no argument. It is self-assuring, self-convicing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assaited. Two thirds of the eases of consumption originate in dyspepsis and a functionally disordered liver. With this condition the breachial tabes "sympathine" with the stomach. They respond to the morbif; action of the liver. Here then comes the culminating result, and the setting in, with all its distreming ay mptoms of ressing symptoms of Consumption.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podephillum Peliatum They possess all the blood-searching, alterative preparties of calcule, but unlike calculed, they

"Leave no Sting Behind," The work of cure is now beginning. The vitlated and mucous deposits in the bownla and in the alimentary canal are ejected. The liver, like a clock. Is wound up. It arouses from its torpidity. The atomach acts responsively, and the patient begins to feel that he is getting, at last,

A Supply of Good Blood.

The Seaweed Tonic, in conjunction with the Pills, permeater and anomaliares with the food. Chylification is new progressing without its previous tofthres. Digestion becomes painless, and the cure is seem to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite

sets is.

Now somes the greatest Blued Purifier ever yet given by an indulgent father to suffering man. Schesch's Pulmonic syrup comes in to perform its functiors and to hasten and complete the cure. It chars at once upon its work. Nature caused be cheated. It collects and ripens the impaired and desanaed postices of the imags. In the form of gatherings, if prepares them for expectoration, and is I is a very short time the malady is vanquished, the rotten throm that it occupied is renewated and made new, and the patient, in all the diguity of regained vigor, steps forth to enjoy the mannood or womanbood that was.

Given up as Lost.

The second thing is, the patiente must stay in a warm room until they get well it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure parent be effected. Fr. sh air and riding out, septicially in this section of the country in the fall and whose season, are all erring. Physicians, who recommend that course took their patients, if their lungs are badly diseased, and yet, because they are in the house they must not all down quiet; they must walk about the room as much and as last as the strength will bear, to get up a good circulation of blood. The patient must keep in good spirblood. The patient must keep in good spir-its—be determined to get well. This has a great deal to do with the apperite, and is

a great deal to do with the apperite, and is the great point to gain.

To despute of our after such evidence of its possibility in the worst cases, and moral certaints in all others, is airful. Dr. Schenck's personal statement to be Faculty of his own our was in these modest words; Many years upo I was in the last stages of

constimption; confined to my bed, and at one flore my Physicians thought that I could catching a straws. I heard of and chasined the preparations which I now offer to the public, and they made a perfect cure of me. If scemed to me that I could feel them penearate any whole argues. They seem tipened the matter in my lungs, and I would spit up makes than a pist of offening yellow matter every mo. ning for a long time.

Makeor as that began to anheide my

on gh, fever, pain and night sweats, all began to leave me, and my appetite became an great that it was with difficulty that I could keep feed esting for much. I soon gained in, attends, and have grown in flesh over since.

gained in, atrength, and have grown in flesh over aince." I was weighed shortly after my recovery," added he Doctor, "the fooking like a more skeleten; my weight was only sine-ty-seven pounds 2 my prosent weight is two hundred and twenty five (120) pounds, and for years I have grieved minterrepted bealth."

The Circultons for taking the medicines are shapted to the intelligence even of a child. Follow these directions, and kind Nature will dutte rest, excepting that in some cases the Mandrake Pills are to be taken in increased does ; the three medicines need no other accompanients than the ample instructions that accompany them; Pirst create appetite. Of returning health, hunger is the usest welcome symptom. When it comes, as it will come, let the despairing at once, be of good cheer. Good blood at once follows, the effigh lossous, the night work of these methid symptors are gone forever.

The great field trials at Sedalia, Mo., and at Xenia, Ohio, in the Summer of 1862—where "The Clipper" met some i'll competitors including all the leading machines built, and was awarded the First Premience and Gold Medal—proves that the proprietors have been able to sustain in the filed their claims of superiority for The Clipper Machine over all others. Its extraordinary lightness of draft takes one-third of the labor off the toam. The adjustability of the finger-oar, to cut high or low without stopping the team is worth \$25 on any machine. It is the only mower that has the true center draft in ac cordance with correct mechanical principles. In short, it is the lightest, the most durable the least complicated, the most perfectly constructed the most symmetrical in design, as any implement of its class. Farmers is the forces friend, and you cannot afford to ignore their weifare. Send for pamphlet-investigate. See or write to some one who has used THE CLIPPER. See
