Influence of Temperature on
Hentil. In the fall the difference between the

temperature of night and day is greater an at any other time of the year, In the early autumn the quicksilver somethe most fervid summer weather; while at night it often sinks to an almost wintry point.. The human body not being made of sicel or India rubber, sensibly feels these tremendous changes. To fortify the system against them, a genuine tonic is required; and the public has long since discovered that among this description of medicines Hostetter's Stemach Bitters is infinitely the best. It gently quickens the circulation, regulates the bowels, tones the liver, braces the nerves, and thus puts the whole physique on its defense against the viciositudes of temperature in our climate. Few, in any cases of epidemic fever are heard of in localities where it is in o mon use. As it becomes more and more widely known, and the demand tor it in creases, chills and fever, and the billions remittent seem to recede before it, and "If ever it should come into universal use, these diseases would reast to be known as the scourges of our low-lying and marshy districts. That homely bit of proverbia districts. That homely bit of proverbial philosophy, that "prevention is better than cure," should be aspecially borne in mind in the authors months; and indeed in all acasons, together with the fact, that among all the preventives of unlarious disease, Hostetter's Stomach Bitters is the most safe and potent.

Grand Republican Rally.

The rally of the German Republicans at the Firemen's Hall on Saturday night was one of the most spirited public meetings we have ever attended in this city. Many of our most prominent merchants were present, and took great interest in the pro-

The meeting was called to order by Judge Siemering, Mayor Thielepape was alled to the chair and Mr. Siemering elect-

The Chairman stated the object of the meeting and introduced Mr. Degener, the republican Congressional candidate.

Mr. Degener was received with hearty cheers, and than proceeded to address the audience, stating, that if any one wished to ask him any questions during the course of his speech, he hoped he would do so, as it would afford the speaker real satisfaction, to answer any and all interrogatories, that might be addressed to him.

He had recently travelled over his district and had occasion to mingle with people of all classes and chades of political epinion, and that the residents of this republicau strenghold could form no idea of the spirit, that animated the democracy, ne might be led to believe, that, instead of a Congressional election being the question of the hour, the country were on the ere of another rebellion.

The orator said, he was a man of peace, be wanted peace above all things, and had oped, that when the war had ended we would have peace, as by peace alone we an enjoy prosperity, but he had been bitterly disappointed, that open rebellion was preached to the people from the stump. dreads the fire" and the character of these sion, that a third party movement was to be made in Texas, good that he, Degener, would be at the head of it. This he need as a democratic lie; that whatever the Legislature had done amiss, was to be remedied by electing good men in the republican party to the Legislature, that the republicans had nothing to do with the democracy, and the republicans could bring about whatever reforms they deemed necessary in their own party.

Mr. Degener then sulogized Carl Schurz as an orator, but condemned his political tendencies, and showed how this unnatural union of republicans and democrats had brought is to pass, that Frank Blair, an all afraid of the thieves, otherwise they nstructed robel had been sent to the United States Senate from Missouri, that the democracy were using Schurz's speech as a campaign document among the Germans, he himself having had packages of it sent him under the frank of democratic members of Congress

The close of Mr. Degener's speech was treated in an able manner, to the resume of at the San Pedro Springs.

The objects of this Association are the deobliquity of Me. Hancock, and an exhortavelopement of the Agricultural and other tion to his constituents to act in strict conformity to the dictates of their own con-

Doctor Horff was the next speaker, and was received with such an earthquake of applause as to shake the very building.

The Doctor began by saying, that to his unspeakable herror he had seen his name pested on the carners as a speaker for this evening. On a former occasion he had been forced, much against his will, to make a speech, but he would put himself and his hearers ons of their misery in short order by being extremely brief.

There had been disentiafaction republicans regarding the school law, etc. ne of the Germans had in this instance acted in a feelish manner; but even when the German made an ass of himself, he was actuated by high and noble motives, and so it had been in this instance.

Mr. Herf then reviewed the past record of the democratic candidate, much to the disadvantage of the ex-Knownothing, his dispolling of the people of Hortentown of

their land, his knownothing candidacy ac. Then the speaker refered in tones of bitter invective to the treatment the Germa had received from the democratic party, and warned them, that the danger was to

We wanted appropriations from Congress for Indian defence and other pur-poses; which was the most likely to obtain it for us, Degener or Hancock ! Congre was agood milk com with four tits, three of them were good healthy republican tits, full of milk, and one democratic tit, that gave no milk, that was swollen ac-

Now then here comes milk maid Degener (here Mr. Degener smiled with such modesty, that the audience was convulsed with laughter) and he got any quantity of good fresh milk for us; but suppose milkmaid Hancock were to come and try to milk his democratic tit, that was all diseased and swellen up, do you suppose he would get any? No! But if be took to pulling at the sore tit, the cow would be apt to kick him head over heels, and where would our milk come from

The Doctor closed amidst unending apclause of the most Homeric character. Notice was given by the Chairman of a meetfng next Tuesday evening at the Firemen's Hall for the purpose of organizing a German Republican Club.

The meeting then adjourned,

The Lund-Sharks of the Texas

The Texas Bar is an obstruction to commerce and immigration. The bar is an institution of long standing; it is caused by the sediment and impurity of a river accumulating at the mouth and gradually forming shoals and quicksaud, on which are wrecked hundreds of ships of all class, whose owners are not acquainted with these shoals and quicksand.

In many States honest reliable pilots can be employed to guide and assist those, who are not acquainted with the channels, into deep water; but in Texas, the bar is infested with a dishonest, crafty, unscrupulous gang of wreckers, who prey upon the un fortunates, that need assistance.

The wreckers bang out false light, give false signals and by all manners of wicked devices endeavor to ship wreck those they should sasist. When a vessel gets on the rooks and the owner is threatened with loss of life and property, these cormorants flock on board and offer their services. On such occasions they will say, we are not thieves and villains, but houest men; we have a license to practice our profession, we will get you safe into harbor, and save your property; but it frequently happens, that having been paid, they go their way and are seen no more; or they appropriate and conrey away everything of value, and leave the poor devil penniless. Some times it happens, by hanging out false lights, thousands of innocent people are lured to destruction, because people knowing, that these men should understand the autricate passages and shoals and supposing them. te be honest men, the people placed unbounded confidence in them.

In 1866 the entire people of Texas were deceived and thousand were lured to death our Representative. and destruction, and the whole population were beggared by following the lead of these land sharks of the Texas bar, many of whom became immensely wealthy by plundering the unfortunate victims of their duplicity.

Since that time the people of Texas have lost confidence in these men, who are always trying some new codge to regain their old ascendancy, but "a burned child The democracy had endeared to create the heartless wretches is now so well understood and detested, that the whole sion has fallen into disgrace, and an honest member of the bar is supposed to be a le- the total number up to date amounts to 63, 23-9.71d1m.

> The last dodge of these villains is to induce the people to refuse to pay the dues, that are owing to the government.

> The object of this is to gain the confi dence of the people, so that these sharpers may again bring about a general shipwreck for their own private plandering.

> As all these men have causes to be active, the few honest fiten among them are supposed to be no better than the wreckers, and it seems, that the honest ones are would have their licenses taken away from them, in order that the profession may not be in such bad repúte, as it is at present.

The Pair.

The third annual Fair of the Agricultural, Stockraising & Industrial Association devoted to financial questions, which he of Western Texas will be held this year at

industrial interests of Western Texrs.

The San Pedro Springs are about two miles from the city and are admirably adapted for a fair or exhibition. In addition to the natural advantages of beautiful running streams and shady walks, Mr. Duerler, the proprietor, has spaced no expense to make the place attractive.

We visited the Springs yesterday and found Mr. Kalteyer busy attending to matters connected with the coming Fair; numbers of workmen were at work on different parts of the grounds.

On Wednesday, the 27th inst., the Fair will open and continue four days.

WYOMING, North Carolina, California and Maine have gone Republican by increased majorities, and the white man's party has nt got a policy yet. Stand from under, if you please, gentlemen

SHAME ON YOU. How many skins has the Radical party not. We ask for information on this subject because we conten we are puzzled. We have read of at least 15 blatherskiting pettifoggers who have en different occasions, before large audiences shimed the Radical party. How many ere skins has the Radical party got and what do the young bar lenders do with them, do they hide them or hew? Mr. Degener's scalp has been taken 13 times in as 'many different places by these Democratic Com-

The last skinning the party got was at the hands of that gushing legal thunder-bolt, C. Upson, at the fax-howlers convention in Austin. The Herald says he did the skinning neatly and in the presence of the first ladies and gentlemen, of the land. For shame on you. Is this chivalry?

DEMOCRATIC CONSISTENCY.-The Demo crats of Texas harp on the one stringed instrument of high taxes with more perseverance than discretion. The President of the Democratic Club of this county, and principal wire puller, generally, W. B. Knox, has a record of his own in regard to high taxes, which the Herald has forgotten to refer to. In the Legislature of 1866, Mr. Knox was a member of the Senate that made the city charter of Galveston a law, and in which the following section cau be found on page 327, of the Special laws of 1866:

Sec. 28. The City Council shall have power within the city, by ordinance, te annually lery and collect taxes not exceeding 2 per cent on the assessed value of all real and personal estate and property in the city, made taxable by the laws of our State.

How is that for High!

Austin Letter.

AUSTIN TEXAS, Sept. 22nd, 1871. The Tax Convention met to-day at 2 'clock,-the delegates number about seventy, the proxies are all held by Pease, Hamilton and Walton.

Since the secession Convention of sixtyne a like body has not assembled. But four Germans participating Pfeufer, Kenler, Walter Tipps, of New Braunfels and an old German from Austin County. A German from Bastrop, one of Gov. Davis' old soldiers, came up. as a delegate, but seeing the crowd he had got into, would not attend. It is, in a fact gathering of the head centers of the Ku-Klux in the State.

A fellow named Nunn let the cat out of the bag in a speech by saying that it wasn't taxes that they came to consider but State affairs generally, that E. J. Davis was monarch of Texas &c,-they tried to down him but he wouldn't.

Pease was made Chairman and with the exception of Pease and Jack Hamilton the assemblage did not contain a man who ever called himself a Republican. They have begun like a Legislature and

we can look for rich developments.

FREDRICKSBURG, Tex, Sept. 19th, 1871. Editor of the San Antonio Express:

I have the honor, to inform you, that Gillespie County will at the ensuing electien turn out thoroughly Republican. Hon. Degener will be elected undoubtedly as

Our school law proved to be excellent. Over four hundred children frequent now the public schools which are in the hands of very good teachers. Though our people has to pay high taxes, they do it willingly, if taxes are required, to keep up a system, that gives us peace and the light of education.

I am very respectfully, Yours, W. W. B.

THE HERALD has at different times of late called for "three cheers for Hancock,"

THE public debt was decreased \$9,000,000 in August.

Hada't Jined 'em Yet.

We heard a good thing recently that every member of the Free Accepted Mas-ons will be apt to have a good laugh over, and for that we send it out on its fravels: A rather verdant young man, wh A rather verdant young man, whose features exhibited avery symptom of having been slightly tinged with the emerald, lately entered a jewelry store in New York, and gazing sarnestly into the show-cases, remarked:

"Yon've got a heap of mighty pretty-breast-pins thar, mister; what monght you ax fordem."

What sort of a pin would you like to look at? inquired the merchant.
"Well, I dunno?" said the visitor, pointing to a plain Masonic pin, (the compact and square) how much is that one.
"Five dollars only, sir," was the reply."
It's a very fine pin, eighteen carat gold and—"

"It's a very fine pin, eighteen carat gold and—"
." You havn't got airy one with a liftle gold hand-saw laid across it, hev you?"
interrupted the would be purchaser.

"Wish yer had; it would snit me exactly. I'm just ont of my time, and gwine to set up as a carpenter and finer; and I thought I'd like some sort of a sign to wear about me so folks would have some idee who I was. What do you ax for that ar pin you got yer hand on?"

"Seven dellars, sir," said the merchant, producing a compass and square surrounding the letter G.

"I'l take it—sorry yer didn't have the hand-saw, though but recken avery body'll understand it. The compass to measure out the work, and the square to see it's all-right after it's fone measured; and every durned fool orter know that G allus stand for gimbet.

Bolled.—A landlord recently going round to collect his rent, sent his servant ahead to prepare his tenants for the visit. On reaching the first house, and seeing his servant taking a survey, apparently endeavoring to garn admittance, he inquired, "What is the matter, John 7 is the door bolted?" "I don't know, sir," replied John "but the tenant evidently has,"

Mrs. Knight, of Salem, Ind., an old lady of 92, being ill, recently, called around her bedelde five sone all gray haired from age, to be present at her anticipated death. The scene was one of deep interest. The sone ranged in age from 73 downward, a lapse of two years between each of them. They comprised the venerable woman's entire family, and she had lived to see all of them grandfathers, without a death in her tamily except her husband.

William Oakley, why was killed by lightning at Prince's Boy, awed his death to a metal badge that he would on his breast, which attracted the shaft.

A man in Kansas, on whose shoulder a lady laid a lash, didn't sue for damages, because it was an cyclash.

THE CAUSE AND CURE OF CONSUMP-THE CAUSE AND CURE OF CONSUMP-TION.—The prince cause of Consumption is derangement of the digestive organs. This derangement produces deherent nu-trition and assimilation. By assimilation i mean that process by which the natur-ment of the food is converted into blood, and thence into the solids of the body. Persons with digesties thus impaired, having the slightest pre-disporation to pulmonary disease, or if they take cold, will be very liable to have Consumption of the Lauge is some of its forms; and is held that it will be impossible to sure any case of Conformation without first restor-ing a good digestion and healthy assimila-tion. The very first thing to be done is to

hold that if will be impossible to core any case of Confamption without first restoring a good digestion and healthy assimilation. The very first thing to be deno is to cleanse the stemach and howels from all diseased mucus and slime, which is clogging these organes so that they cannot perform their functions, and then rose up and restore the liver to a healthy action. For this purpose the surest and sust remedy in Schenek's Mandrake Pills. These Pills clean the stomach and bowels of all the dead and morbid slime that is causing disease and deany in the whole system. They will clear out the liver of all diseased a new and healthy action, by which natural and healthy bile is secreted.

The stomach, bowels, and liver are thus cleansed by the use of Schench's Mandrake Pills; but there remains in the stomach an excess of soid, the organ is torpid and the appetite poor. In the bowels the Instead are weak, and requiring strength and supports. It is in a condition like this that Schenck's Seaweed Tonic proves to be the most valuable remedy ever discovered. It is alkaline, and its use will neutralize all excess of acid, making the stomach awest and fresh; it will give permanent tone to this important organ, and create a good, hearty appetite, and prepare the system for the first precess of a good digestion, and ultimately make good, hearly appetite, and prepare the system for the first prepare of a good digestion, and ultimately make good, hearly treatment, what remains to cure most cases of Consumption is the free and pretrotiment, what remains to cure most cases of Consumption is the free and prescring use of Schenck's Polmonic Syrup. The Pulmonic Syrup nourishes the system, purifies the cloud, and is readily absorbed must be creating, and thence distably. into the diseased lungs. There it ripens all morbid matters, whether in the form of abcasses or tubercles, and then assists. Nature to expel all the diseased matter, in the form of free expectoration, when once it ripens. It is then, by the great healing and purifying properties of Schenek's Pulmonie Syrap, that all alcers and exvited are healed up sound, and my patient is exceed.

The essential things to be done in caring Consumption is to get up a good appetite and a good algestion, so that the body will grow in fresh and get strong. If a person has diseased langs,—a cavity or abscess there,—the cavity canned heat, the matter cannot ripen, so long as the system is below pay. What is necessary to cure a new order of things,—a good appetite, a good nutrition, the biody to grow in flesh and get fat; then Nature is helped, the matter will ripen and be thrown off in large quantities, and the person regain health and strength. This is the true and only plan to cure Consumption, and if a person is very bad, if the lungs are not entirely destroyed, or even if one lung is ontirely goos, if there is smoogh yitality left in the other to heal up, there is hope. I have seen many persons cured with only one bound lung, live and enjoy life to a good old ags. This is what Schenek's Medicines will do to cure Consumption. They will clean out the stanach, sweeten and strengthen it, get up a good digestion and give Nature the assistance she needs is clear the system of all the disease that is in the lungs, whatover the form may be. If its important that while using Schenek's Medicines, care should be exercised not to take cold; keep in-doors in cold and damp weather; avoid night sir, and take out door exercise only in a gonial and warm sumshine.

I wish it distinctly understood that The essential things to be done in enring

door exercise only in a genial and warm sensitive.

I wish it distinctly understood that when I recommend a patient to be careful in regard to taking cold, while using my Medicines, I do so for a special reason. A man who has but partially recovered from the effects of a bad cold is far more liable to a relapse than one who has been entirely enred; and it is precisely the same in regard to Consumption. So long as the lungs are not perfectly healed, just so long is thete imminent danger of a full return of the disease, Hence It is that I so strenuously cantion pulmonary patients against exposing themselves to an atmosphere that is not genial and pleasant Confineed Cousemptives lungs are a mass of sores, which the least change of atmosphere will inflame. The grand secret of my success with my Medicines consists in my ability to subdue inflammation instead my success with my Medicines consists in my ability to subdue inflammation instead of provoking it, as many of the faculty do. An inflamed lung cannot, with asfety to the patient, be exposed to the biting blasts of Winter or the chilling winds of Spring or Autumn. It should be carefully shielded from all irritating influences. The utmost cautien should be observed in the particular, as without it a cure under almost any cirenmatances is an impossibility.

The person should be kept on a whole-some and nutritions debt, and all the Me-dicines continued until the body has res-tored to it the natural quantity of flesh

and strength.

I was myself cured by this treatment of the worst kind of Consumption, and have lived to get fat and hearty these many years, with one lung mostly gone. I have cured thousands since, and very many have been cured by this treatment whom I About the First of October I expect to

About the First of October 1 expect to take possession of my new building, at the Northeast Corner of Sixth and Arch Streets, where I shall be pleased to give advice to all who may require it.
