DICK TATER. QUARANTINE Las been raised.

Gineinnati, ever mindful of the needs of the peor, has established at convenient distances too-water public drinking foun-tains, to which heated and and weary vay-farers pionteously resort, each bringing his own whickey.

We heard the succeing remark made the We hard the specific remark made the other day, that the radical party was uphold by rebel brains; meaning, doubtless, affat the copublican party in the South has been essential reinforced by accessions of large numbers of ex-confederate soldiers. This is a gratifying indication of the growing atrength of the republican party, a more than counteracts the defection of m my ex-Union soldiers in the South, who have gone over to the anti-American party. they are afraid of being ridiculed by the partially resuscitated aristogracy of the South.

The imputation of incincerity, and the prediction of treachery, that is made in reference to ex-confederate republicans, generally speaking, proceed from those who are not to be relied upon in any emergency, and who do not now enjoy the respect of even their own political party.

The Southerners cannot be charged with insincerity; they have always voted in the most straight forward manner; they openly declared their intention of carrying slavery into the territories, when they saw, that they could not rule the country any longer, they did not whine and swagger like the copperhead democracy of the North, but they proceeded to wage war, and the contempt with which the "new departure" has been received in the South, shows that their character in this particular has undergene no change. The next time (and it is not so very far off) that the republican party undertake to maintain the national dignity, it will be done in a manner that will render a third ebullition of treason impossible and then it will be found that the ex-confederate republicans will have retained the peculiar characteristic of their section.

The only instance of duplicity, that we have met with, is to be found among these ex-confederates, who by some singular legox-confederates, who by some singular leg-ordemain have managed to obtain and en-joy positions in the employment of the U.S. government, positions, which in hon-esty and decency should be filled by dis-abled ex-Union soldiers.

We can understand, how in the eagerness of the moment, their ideas as to the nature of an oath might undergo some mortification, but we had always supposed, that the changed views, that permitted them to take the oath and accept the pay of the government, would preclude their supporting any other party, than that, on whose bounty they feed.

A number of the government clerks and suployees of the government depet in this city, who were formerly in the confederate army, veted, so we are told, for Hancock at the last election,

Outside of these "conversions to radicalam" we know of no ex-confederate republicans, that require watching, and we hope this scandal to republicanism may be speedily abated, and that those may be em-ployed, who is addition to superior ability, bring with them the very important qualification of faithfulness to the administration of President Grant.

THEUXUSE AND DURE OF COMBUMP.
THON.—The primary cause of Communities is decangement of the digestive organo. This decangement produces dedicion instriction and assimilation. By assimilation I was that process by which the nutriment of the food is converted into Blood, and thence into the solids of the body. Fergons with digestion thus impaired, having the elightest pre-disposition to palmonary disease, or if they take cold, will be very liable to liave Consumption of the Lauge in some of its forms; and I held that it will be impossible to cure any case of Consumption without first resturing a good digestion and healthy assimilation.—The very first thing to be done is to cleanse the atomach and bowels from all diseased mucus ant alime; which is clogging these organe so that they cannot perform their fourtions, and then rose up and restors the liver to a healthy section. For this purpose the sourcet and best remedy is Schenek's Mandrake Pills. These Pills elean the stamach and howels of all the dead and morbid slime that is causing disease, and decay in the whole system. They will clear cat the liver of all diseased a new and healthy action, by which natural and healthy bile is secretaed.

The stomach, basels, and liver are thus eleansed by the use of Schenek's Mandrake Pills; but there remains in the stomach an excess of acid, the organ is torpid and the apport. It is in a condition like this that Schenek's Seaweed Tonic proves to be the most valuable remedy ever discovered. It is alkaline, and its use will neutralize all excess of acid, making the stomach awest and fresh; it will give permanent tone to this important organ, and create a good, hearty appetite, and propare the system, purifies the blood, and is readily absorbed into the circulation, and thence distabluted to the diseased lungs. There is ripens all morbid matters, whether in the form of aboases or inherites, and then assets are healed up sound, and when the particular are healed up sound, and my patient is unred.

The cescutial thing to be done in

monic Syrup, that all ulcers and cavities are healed up sound, and my patient is eured.

The essential thing to be done in curing Cohaumption is to get up a good appetite and a good digastion, so that the body will grow in fresh and aget streng. If a person has diseased lungs, ra cavity or abscess there, the cavity cannot heal, the matter cannot ripen, so long as the system is below par. What is necessary to cure a new order of things, ra good appetite, a good nutrition, the body to grow in flash and get fat; then Nature is belowd, the matter will ripen and be thrown off in large quantities, and the person regain health and strength. This is the true and only plan to cure. Consumption, and if a person is very bad, if the lungs are not entirely gone, if there is emough vitality left in the other to heal up, there is hope.

Lineve seen many persons cured with only one sound lung, live and snjoy life to a good old age. This is what Schenek's Medicines will de to pure Consumption. They will clean out the stomach, sweeten and strengthen it, get up a good digestion and gigs Nature the assistance sine heads to clear the system of all the disease that is in the lungs, whatever the form may be. It is important that whils using Schenek's Medicines, care about the experiend not to take cold; keep in-doors in cold and damp weather; avoid night air, and take end-door exercise only in a gental and warm amathine.

effor exercise only in a genial and warm smatter.

I wish it distinctly understood that when I recommend a patient to be careful in regard to taking cold, while using my fledicines, I do so for a special reason. A man who has but partially recovered from the effects of a bad cold is far more liable to a relapse than one who has been entirely cured; and it is precisely the same to regard to Consumption. So long as the langs are not perfectly leaded, just so long is there imminent danger of a full return of the disease. Hence it is that I su strannously caution pulmonary patients against exposing themselves to an atmosphere that is not genial and pleasant. Confirmed Consumptives lungs are a mass of sores, which the least change of atmosphere will inflame. The grand secret of my success with my Medicines consists in my ability to subdue inflammation instead of provoking it, as many of the faculty do, An inflamed lung caupot, with nafety, to the patient, be exposed to the hiting biasts of Winter or the chilling winds of Spring or Antume. It should be carefully shielded from all irritating influences. The utmost caution should be observed in this particular, as without it a care under all most any circumstance is an impossibility.

most my circumstance is an impossibility.

The person should be kept on a wholesome and nutritious debt, and all the Mediclues continued aptil the body has restered to it the nalural quantity of fissh
and strangth.

tered to it the majorat quantum and strength.

I was myself cured by shis treatment of the worst kind of Constription, and have lived to get fat and hearty these many years, with one lung mostly gone. I have sured thousands since, and very many have been cured by this treatment whose I have next as seen.

have been cured by this treptoma.
About the First of October 1 expect to

having become aware of the extraordinary
medicinal properties of the South American Plant, called
JURUBEBA.
Sent a special commission to that country

Sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to effer it to the public, and is happy to state that he has perfected arrangements for a regular supply of this wonderful Plant. He has spent much time experimenting and investigating as to the most efficient preparation from it, for popular me, and has for some time used in his own practice with most happy results the effectaal medicing now presented to the public as

Dr. Wells' Extract of Jurubeba and he confidently recommends it to every family as a household remedy which should be freely taken as a BLOOD PURIFIER in all derangements of the system and to animate and fortify all weak and Lympatic temperaments.

The great field trials at Sedalia, Mo., and at Xenia, Ohio, in the Summer of 1869where 'The Clipper' met some 40 competi-tors: including all the leading machines Shift, and was awarded the First Premiums and Gold Meds. -proves that the proprietors olaims of superiority for The Clippez Machine over all others. He extraordinary lightness of draft takes one-third of the labor off the team. The adjustability of the finger-bar, to cut high or low without stopping the team is worth \$25 on any machine. It is the only mower that has the true center drag in ac-cordance with correct mechanical principles. In short, it is the lightest, the most durable, is short, it is the lightest, the most durable, the least complicated, the most perfectly constructed, the most symmetrical in design, of any implement of its class. Farmere-rux current is the Horses Friend, and you cannot afford to ignore their walfare. Send for pamphlet—investigate. See or write to some one who has used THE CLIPPER. See the Machine yourself before you buy any other.
