AND NOW comes Ass-O-SCIATE who gallops like mad through nearly a column of the Herald of this city all at his own expense. We congratulate our neighbor upon its newly acquired advertising patronage. Advertising is the most profitable feature of the newspaper business, and its new customer seems to be prolific and anxious. Encourage him, Mr. Herald, for we are not envious. If by chance you should want any posters put up conspicuously, charter his ears they might have been used by Cole's Monster Managerie, Circus, &c., for the purpose of displaying illustrated hand-bills - there would have been no lack of room for pasting them on, and then there would have been added an ambulatory movement to the advertisement, and a great saving of lumber. Everybody would know the ear-marks, and would shout, look at our great A. O. S.! Perhaps ho might have been District Attorney-but for Julius! Too much credit is given to the Ex-PRESS. We claim no such influence as that attributed to us-nor was it exerted in the way indicated. But

we do know where and how the disorganizers played their parts. It commenced with the Governor himself, who, we can prove, opposed our own election. The Secretary of State favored, our defeat, and the colored voters of this city and county, as we are able to show, were influenced against us by the very men who complain of our criticisms upon the State administration and of the party management in this State. ters or fledglings; to the Republican party belongs the duty of securing and perpetuating good government, and whenever it keeps in view that single aim it shall receive our support, but whenever it falls into the hands of men who exalt their own interests above the pub lie weal, we shall, as heretofore, battle for the principles of the party, and criticise as we see proper the actions of those who claim therein a prominence which does not be-A. O. S. His influence, his principles, are of mnother sort from ours. of the interests of the whole people. So far, our course has been signalproved by the wisest and best tried ed for the commercial presperity of your men of the Republican party, approved by a subsidence of that bitteruess and unreason which only a short time since character zed every political discussion in this administration; but we certainly should not have hesitated to criticise had criticism seemed necessary. As to our associates, we do not grounds, but simply because they are decent, honorable men, worthy of the positions they hold in society. If A. O. S. were able to say the same he might think better of himself - and the public might think better of him. We have only, to sny, in conclusion, that the sensitiveness manifested by the Registrar and his ass-o-ciates, is abundant proof that they prefer swimming in muddy rather than clear

Life Insurance.

There is no interest in this country which has grown to such magnitude as that of life insurance, and none so little understood. There aprings up here and there compan-ies with a pronounced capital of

main sound for any length of time, the investment is precarious, and the returns by no means equal to the expenditures. Indeed, there is no investment so entirely unsatisfactory and unpromising. A like investment in government securities would be vastly safer and much more remunerative. But the press is so universally subsidized that it is impossible to find a newspaper possessing the courage to expose the monstrous swindle. Once or twice the leading newspapers of New York, the metropolis of the country, have undertaken to expose country, have undertaken to expose the glaring impositions of life insurance companies; but each has invariably succumbed to the arguments which accompany a full

We find this kind of business flourishing in the South as never before; and the amount of money absorbed is simply enormous. We propose hereafter to show where the money goes -and to give a searching and critical expose of this business for the benefit of our readers, so plain that he who runs may read, and he who reads may understand.

"Progress" and Railroad Connectious.

EDITOR EXPRESS:

The vigorous punch recently given by Mr. C. S. Whitney, in behalf of the Mor gan road, has, it seems aroused, partially at least, your correspondent "Progress! and perhaps many others of San Antonio's citizens, from the " paragram ightmare" which has so long held their mental visions beneath its own heels, on the subject of "railroad connections." But judging from the various propositions suggested by Progress," another and more vigorous punch will be necessary, to fully arouse your people to the clear comprehension of their true interests. And while it is perhaps useless, until that punch is given them, to even make a suggestion, nevertheless I will throw out a few thoughts for their consideration.

The commercial interests of the city and surrounding country, demand the most direct connection possible by railroad, with the seaboard, and Mr. Morgan's read, if built, or any of the prejects suggested Our record as a Republican is toler-by "Progress," will secure that end. For ably clean, we think, and we are the survey made by Mr. James P. Hector, by "Progress," will secure that end. For not easily frightened either by tricks under the charter of the Indianela, San Antenio and El Paso road, demonstrated that Indianola can be reached at the distamce of 137 miles, and at a coat of cone traction and equipment-with rolling stock and depots all complete of one half million of dollars, with a gauge of four feet eight and a half inches, there being more than ninety miles of the surveyed route already prepared by nature with a suitable grade, and the remainder of easy construction. But suppose the narrow gange of 3 or even 24 feet, which is being so extensively adopted, should be selected, then with a cost of one third less in countruction and equipment, it is brought down within the means which the county sublong to them. We need have no sidies now pledged to other routes would serious controversy with such as almost construct, and which the fourteen hundred thousand dollars—the limit of the county-would place in complets working order, putting it under the entire control We could not affiliate with that of your citizens and thus, leaving out all ort if we would. We are the ad- individual assistance or aid from counties vocate of no faction, of no class, but along the line, both of which may be largely depended upon, you have what San Antonio must sooner er later have-direct communication with the Gulf, free from ly approved by the best men of all extertion from a Shylock Morgan, or soulclasses approved by an increased less corporation, and secures the legitisubscription to the Express, ap. mate exit and exedus of whatever is need-

With this route secured, Mr. Morgan's monopoly of Gulf transportation is destroyed, connection with the commercial centies of the world secured, and no dependence upon the whime or caprices of community. The since of A. O. S. for connections and time tables, or the are unjust and unwarranted by the payment of tennage or ser dues for the facts. We dely him to point out use of their tracks to reach the more dist any lack of support of our late city aut ports, and in due time the other roads to which "Progress' and others of your citizens have been so long and fruitlessly leoking for, and at whose piping they've been dancing, for a connection, will extend their iron trunks to secure a portion chose them on political or religious of the traffic and to bring the emigrants from the more northern regions, to enjoy your climate, aid in extending your pros

perity and share in its fruits. Need I then ask in view of those facts, what is the manifest duty of your citi neps ! Common souse, business sense and self-interest all say, take held of the enterprise at once, build the road, either under the present or an amended charter, and secure to yourselves, the city, and country the benefits that will arise there from. More anon. ANTI-DELAY. COTOTE, Dec. 9th, 1872.

P.S .- Your editorial inferences from your sorrespondente articles, bear indications of your being affected by the paralyzing influences of a "mare" of the same brand of the one which he seemed to fancy, he with others had been relieved from, but which it is plain to an outside observer has still one foot resting on him.

Street, Liver, Mich A BILL is said to have been drawn up by councillors form the three departments of ustice, education, and the interior, and to have received the eauction of the German emperor, which is known as "the obliga-tory civil marriage bill." This title might inspire the fear that Blemark has resolved to make marriage compulsory and celibacy a crime, with a view, perhaps, to offsetting the drain upon the population of the German empire that is caused by the increasing emigration to America. Such appre hensions, hewever, are probably misplaced.
The bill is in fact designed to substitute
civil for ecclesisation suarriages, and is a part of the well defined policy of the German premier to everthrow the power of the Catholic priestheod in the empire.

DR. C. F. BRAWN'S Young American Liniment.

THIS Liniment has gained a lasting re-_ putation, where it has been used, in most cases which require an external remedy, such as rheumatism; soreness and awelling of the breast, pain and weakness in the back and joints, sprains, bruises, orampa, numbness, frozen limbs, bites of insects, old sores, fever sores, goitre or swelled neck, paralysis, wounds, erysipelas, bites of reptiles, headache, white swellings, mange, poison, burns, all swellings, sait rheum, corns, warts, sore eyes, run-rounds, &c. We daily hear of the more test of the corner most astonishing cures on animals by this excellent remedy, and hazard nothing in saying that there never has been its equal curative for horses. We assert posistrains, bruises, scratches, wounds, big head, wind galls, sore eyes, swellings, ac.; and has never failed to cure fistula, pollevil. ring-bone and spavin. When used in the beginning, strictly according to directions, and given internally with the feed, for it is a harmless but certain remedy for worms. Do not fail to give it a trial: only

25 cents a bottle.

Horse Epidemie.—This Liniment cured thousands of horses at the North during the prevalence of the horse distemper there. In such cases rub the neck and throat well every evening, and give a table apponful of it in the horse's food for wo or three evenings.

The drawing will take place under the freetien of a Committee selected by the Shareholders and those present at the drawing, in full view of the andlence, and will be by blind children, from 10 to 15 years of age, from two glass wheels, the on printed slips in scaled boxes, and the other leather tags with numbers on them corresponding to all the tickets sold. Af-ter the contents of both wheels are thoroughly mixed by revolving the blind child at the first will draw a number therefrom, and then the child at the second wheel will draw a gift therefre and the gift thus drawn will belong the number drawn immediately before it. Thus this process will continue until the by this mode of drawing, fraud, favoritism, or a knowledge of what gift any num-

ber will draw, is impossible.
