THE Grand Jury, we are informed, will adjourn to-day, having found quite a large number of indictments for misdemeaners, a few felonies; sud one ludictment for murder. The criminal decket will be taken up next Monday, and it is expected that the work of prosecution will be prosecuted with unusual vigor.

Tun all-absorbing topics on our streets, and every where among business men, it this city, are the rail-read and U. S. government depet questions. There is a general fever of anxiety, almost amounting to desperation, throbbing the public pulse, and we are mistaken if every interest in the city is not being aroused to the accomplish, ment of some effective work. It is a good aign when a very wink patient atouses from a long lethargy.

Editor San Antonio Exprest:

I see in the last published proceedings of the City Council that it is seriously con templated to build two ditches at an exnames of \$20,000 for the purpose of not only irrigating lands but for the purpose of taking off water in case of floods.

With dug deference to these who as committees reported in favor of such a scheme, I must believe that they know nothing of the ambject. Any one who has seen a ditch or a cornel taken out of a river subject to everflow must have noticed and protected and protected and protected and protected from rain or sun. which the pritrages to the entral or ditch is guarded, and the arrangements for discharging the surplus water called Waste-Weirs, all fo prevent the damage that would arise by an overflow of the ditch or
