HOUSE OF REPRESENTATIVES, AUSTIN, Tex., Feb. 18, '73. desars. Trucy & Baker, Houston

GENTS-As you appear to take an interest in stock matters, I request that you give the enclosed communication a place in your Pinto county for twenty years, and Yours truly, MR. VEALE.

PALO PINTO, Tex., Feb. 10, '78. To Hon. William Veale, Chairman of the Committee on Indian Af-

fairs. SIR-Your letter dated January 3d, requesting me to make a detailed statement of my expedition to New Mexico, in search of stolen cattle, has just come to hand, and I hasten, with pleasure, to comply with your request, so far aspossible from recollection, not having all the The law under which the Departdata of operations at hand to make a full report.

It is well known to you and your Committee that the stock raisers on the north-western borders of Texas, have been subject to heavy losses by the frequent invasions of the Comanches, Kiowas and other tribes of Indians, who have nearly depleted our section of the State of its once numerous berds of cattle, by their constant and unrestricted depredations.

In order to put a step to these Indian depredations, as far as possible, as well as to recover stolen preperty, I went to New-Mexico last spring, but on account of not procuring necessary aid, and limited time for operations, I only partly succeded in accomplishing my

There are many difficulties in the way of the recovery of stolen property, as many people of that Territory are engaged, either directly or indirectly, with the Indians in steal ing stock from the frontier; they also furnish the raiders with arms and ammunition, with which NOW is your time to build yourselved many of our people have been mur-Houses. I desire, however, to state that I received much valuable aid and assistance from the better and more influential citizens of New Mexico. succeeded in evercoming most of the year 8,187 criminal cases termthe obstacles thrown in my way and got possession of between five and six thousand head of cattle that had been stolen, which are now be there were pending in the United ing herded in the Territory of Colo-States Courts, an aggregate of 6,755 an enormous expense, nearly equal to the value of the property recover-

The number of stolen cattle purchased by the rancheros from the Indians, and disposed of to parties who are engaged in this unlawful trade in the Territories of Arizona and New Mexico, is much larger than the people of Texas suppose. I am satisfied that, from my observation, it would be sate to estimate the number of cattle driven from the State of Texas and disposed of as above stated, during the last two decades, at one hundred thou-sand head. Unless there is something done, either by the General Government or by the aid of the State, these thieving depredations cattle or horses on our frontiers; and if our State Legislature shall render us Eny assistance in our endeavers to protect our lives and property, they will receive the ing business on our frontiers.
With many respects, I remain

LOVE, YOU LOVE.

Old Jones, the village pedagogue,
The grammer lesson called one day.
Young Bess, a maid of sweet sixteen,
Began the well known words to say:
"First person, I love," first she said.
Sly Tem, beside her, whispered, "Me?"
"Sheard pesside her, whispered, "Me?" "Second person, you love," Bess went on "Ay, that I do!" said Tom—"leve thee?"

"Third person, he leves," still said Boss Tom whispers, "who the deded is "he?" "O, Tem?" said Bosse, pleading low, "Do held your peace, and let me be!" "No whispering!" calls the master food, And frowned upon the ferward youth. "First person, se love," Bests said. "By George!" Tom whispered, "that's the truth!"

The lesson o'er at last, poor Bess With sheeks all erimson, took her seat, While Tom, sly fellow, tried in vain The maiden's soft blue eyes to meet. But when the recess hour was come Tom begged a walk with coaxing ten And 'neath the trees Bees and again The lesson o'er-for him alone.

THE GREAT HAIR PRODUCER.— Hair Oils, Pomatume und Pomades have had their day. They belong to the musty past, Nebody that understands the chemistry of the hair and the philosophy of its growth thinks of using them. Instead of clogging the pores of the scalp with thick ungusuts and thus obstructing the insecusible parapiration which is essential to the health of the fibers, we now tone the surface of the land with a state of the state of the land with a state of the of the fibers, we now tone the surface of the head with an invigorating application which penetrates to the roots of the hair and stimulates them in the same way that the fertilizing agents spread over the meadows atimulate the grass roots and cause the blades to spring up in myriads, coating the earth with venture. The invigorant best adapted to this purpos is LYON'S KATHARION. It may well be called the fertilizer of the head. To the barren scalp it commandates vegetative power. If the hair is dromning out or becoming dry and lizer of the head. To the barren scalp it communicates vegetative power. If the hair is dropping out or becoming dry and withered, it arrests the process of dilapidation or blight. The hair thickens and becomes glossy and flexible under its genial operation, and as a dressing it is unapproached by any preparation that has yet been laid on the toilet of Fashion.

Medically used in Scrofula, Scrofulous Abcesses and Swellings, and all diseases of the blood traceable to a scrofulous diathesis: in Cancer and Cancerous Tumours, Caries or diseased bone; Bronchial and THE undersigned will rout out a few diseased bone; Bronchial and acres of garden land in this city, therefor one-third of the crop or a reasgeneration, Erysipelas, Salt Rheum, Scald Head, and Cutaneous affections; in Neuralgia and Rheumatism, and particularly efficient as an auti bilious remedy to combat what is commonly called "Liver Complaint."

Dr. L. Rogers states that in his practice he was called to see a patient who was attacked with pain and swelling of the hip, simulating acute rheumatism, which finally culminated in a large abscess which reor cuminated in a large abscess which required opening. Abscess after abscess appeared, five in all.—Suppuration profuse, and portions of the dead bone extracted from day to day—suffering intense. At this stage be commenced the use of the Elixir, and when fully under its influence patient made a rapid recovery. He says: rigave him no other medicine, only as was necessary to correct the disturbed condition of the secretions; consequently the combatment of the disease must be attributed to the influence of the 'lodo Brom-
