DEPARTED this life after a short illness at Clifton, Texas, on the 20th of November 1874, DR. GEORGE J. LINDSEY, of Virginia. It will be gratifying to his relatives to know that he was surrounded by kind friends who ministered to all his wanter and cheered him by their leving kindness, His mind was so well emightened by the truth of Christianity that he was ready and anxious to enter upon the bright realities of the higher life. His exit from the mortal casket was as serene and quie as dropping asleep when tired nature re quires reposed He was truly a noble generous hearted man, and he leaves many friends who mouru his lose.

We extend our sympathy to his beriev \* ed relatives in this their affliction, and pray that the Divine Giver of all good, who doeth all things well, will teach them to say, in spirit and faith, "Thy will be done;" for he died believing, and "Blessed are those who die in the Lord."

The Bishop was received with the lev erence paid his high office in Catholic schools, and gave his blessing. He was then presented by the pupils with a hand come little tele a tete china ten ebts. He made an excellent address to the children setting forth the value to them of education, and especially of moral and religious education, and resired amid the piemings of the children and teacher.

Mrs. Bacon is doing an excellent work among these colored children, and deserves all encouragement. She has no regular pay from any body, and deserves the aup port of the citizens.

1875.
Believing that all concerned will appreciate our action as one for their interest, and that a full and complete drawing and that a full and complete drawing would be preferable to a partial pro-rate drawing, we have decided to make this short postpenement, as an act of matice to the ticket holders and the public.

In appronning the 31st day of December 1874, as the first date; we did not make due allowance for delays incident to an enterprise of such magnitude.

The Texas Gift Concert Association of Dunison, is now a fixed fact, with over 5000 Agents scattered yever the United States and Usingdam edvertisements in over 2000 papers, with ithe most complete and perfect system in our office; daily receiving thousands of orders for tickets, and the most flattering reports from our agents—we can assure the public without doubt that a full drawing will take place only, that a full drawing will take place ositively on the day fixed. The extreme-low price of tickets compared with ther enterprises of this kind, places a chance in our association within the reach of all, and our success thus far has fully lemmatrated the wise policy we adopted.

MARRIAGE GUIDE,  WILSON

Every year increases the populari-ty of this valuable Hair Preparation; which is due to merit alone. Wo

can assure our old pairons that it is kept fully up to its high standard; and it is the only reliable and perfect-

ed preparation for restoring GRAY OR FADED HAIR to its youthful color,

making it soft, lustrous, and silken.

The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic prop-erties, prevents the hair from falling

out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In

baldness, it restores the capillary glands to their normal vigor, and

will create a new growth, except in extreme old age. It is the most economical Ham Dressing ever used,

as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Haves, M.D., State Assayer of Massachusetts, says,

"The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPA

BATION for its intended purposes." Sold by all Druggists, and Dealers in Medicines. Price One Dollar.

papers, those parts of the President's Louisiana Message which did not reach us by telegraph. It will repay a careful reading. The gist of the his ory of the Louisiana troubles will be found in it: Louisiana troubles will be found in it:

Through various controversies and com, lication the State administration was organized; with Wm. P. Kellogg as Governor, which, in the discharge of my duty, under Sec. 4, Art. 4, of the Cons.i-tuilon, I have recognized as the government of the State. It has been binarly and persistently alleged that Kellegg was not ejected. Whether he was or not is not altogether certain, nor is it any more certain that his competitor, McEnemore certain that his competitor, accepted by was chosen. The election was a gingantic fraud, and there are no reliable returns of the result. Kellogg obtained pessession of the office, and in my opinion, has more right to it than his competitor. On the 20th of February, 1873, the Committee on Privileges and Elections of the Sente pages, report in which the Senate made a report in which they say that they are satisfied by the testimony that the

MANIPULATION OF ELECTION MACHINERY by Warmoth and others was equivalent to 20,000 votes, and they add that to recognize the McEnery government would be recognizing a government based u on fraud, in demance of the wishes and intention of the voters of the State.

Assuming the correctness of the state-Assuming the correctness of the statements in this report—and they seem to have been generally accepted by the concry—the great crime in Louisiana, about which so much has been done and said, is that one is holding the office of Governor who was cheated out of 20,000 voices against another whose title to the office is underbitedly based on fraud, and in defiance of the wishes and intentions of the waters of the State.

We call attention to the advertisement of the Texas Gift Concert Association of the Texas Gift Concert of the voters of the State.

Misinformed and misjedging as to the nature and extent of this report, that a porters of McEnery process ed to displace

was committed at Colfax, which, in blood-thirstiness and barbarity, is hardly sur-passed by any acts of savage warfare. To put the matter beyond controyersy, I quote from the charge of Judge Woods, of the United States Circuit Court, to the jury in the case of the United States vs Cruck shank and others in New Orleans in March

He said: "In the case on frial there are nany facts not in controversy. Throcord to state some of them in presence and hearing of conceed on both sides, and, if I the above points, making close constate as a conceded fact matter that is disputed, they can correct me." After stat

After stating the origin of the difficulty, which grew out of an attempt of the white persons to drive the parish judge and sheriff, appointees of Kellogg, from office, and thor attempted protection by colored persons, which led to some fighting in which quite a number of negroes were killed, the a number of negroes were killed, the Judge states: "Most of those who were not killed were taken prisoners. Fifteen or sixteen of the blacks had lifted the floor and taken refuge under the court-house They were all captured. About thirty. seven men were taken prisoners. The number is not definitely fixed. They were 29 .0 q6m kept under guard until dark. They were

GENERAL LOGAN in his speech in the U.S. Senate on Louisiana, made some unanswerable points when he showed that military led up the to-days session. forces have been repeatedly used by Democrats, under circumstances in which interference was much less excusable than in New Orleans. In that same city General Jackson arrested and imprisoned a judge for issuing a writ of habeos corp s; in Boston President Pierce used troops to arrest a runaway slave; in Topeka President Pierce caused a State Legislature to be disbursed by Colonel Sumper; and General McClellan was afterwards a Democratic candidate. It was all right, in Democratic estimation, to disperse, by use of United States dragoons and artillery, a Free State Legislat ure in Kansas. But it was an intolerable usurpation to answer the call of the Governor of a State to place a majority of members duly elected in possession of a hall seized unlawfully by an armed mob.

THE CLERGY of the States where the White League rules and reigns, having come to the support of that lawless and bloody organization, the clergy of other States are beginning to speak out on the other side. The New York Tribune says hat the Rev. Dr. J. D. Fulton, of the Hanson Place Baptist Church, preached recently on 'The Nation's Peril and the Way Out.' His text was Psalms xxxiv., 7: 'The angel of the Lord encampeth about them that fear Him, and delivereth them.' The following are passages

"The President has acted as he was compelled to act, and as any one else in his position would have been compelled to act. Without doubt the task was disagreeable, out his duty was plain.

"Gen Sheridan, seeing that there was to be trouble, assumed command. He has driven no one out, but he has told the truth in his blunt soldier way about those who have been driven out, and about the condition of affairs in Louisiana. jr. 1, N P Banks 1; second ballot same re Then comes the dispatch which is called 'Gen. Sheridan's remedy.'

"It ought not to throw a nation into a collapse because a plain soldier like Gen. Sheridan expresses his mind in regard to those who have impregnated the very air with asination. If the man had erred against the negro, would there have been any protest? If the five members had been retained or supported, would there have been any

THE NEW CITY COUNCIL, with the new Mayor, Hon, J. H. French, presiding, assembled yesterday afternoon, and organized. All the Aldermen were present. Between half past four and tive e'clock, the Mayor called upon the Aldermen to take their seats. Both the Mayor and the Al dermen had already been qualified accord ing to law before the proper officer.

The first business attended to was the drawing, by lot, for terms of office by the Aldermen, the amended charter providing that of the three Aldermen from each Ward, one shall hold office for one year one for two years, and one for three years. The following was the result of the draw-

Third Ward : Hahn three years, Prescott two years. Degener one year. Fourth Ward : Muench three years, Kiol-

The bond of the City Collector, Mr. Mr. Julius Hoyer, was fixed at \$20,000, on motion of Alderman Schreiner. The same gentleman then moved that the bond of abandoned him to his fate. Soon after, he paid special attention to a niece of Mr. Bear, who finally give him the mitten. He then sought the hand of Mr. Bear's daughter, but the young lady declined to place her affections upon him. As a last resort he visited Mr. Bear, and proposed to give him \$500 for his wife. These deservedly celebrated and popular medicines have effected a revolution in the healing art, and proved the fallacy of several maxims which have for many years obstructed the progress of medical science. The false supposition that "Consumption is incurable" deterred physicians. from attempting to find remedies for that disease, and patients afflicted with it reconciled themselves to death without making an effort to e-cape from a doom which they supposed to be unavoidable. It is now proved, however, that Consump-tion can be cured, and that it has been cured in a very great number of cases (some of 11-18daw7w them apparently desperate ones) by Schehck's Pulmonic Syrup alone; and in other cases by the same medicine in con-nection with Schenck's Sea Weed Tonic.

HAIR

Every year increases the popularity of this valuable Hair Preparation which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourished the hair glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most eco-nomical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or misamatio

No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever and Age. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distence. This "CURE" expleit the miasmatic poison of Fever AND AGUE from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remody ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and is billous districts, where Fever AND AGUE prevails, everybody should have it, and use it freely, both for cure and protection. It is boped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it constains no Quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never shad the disease.

Fever and Ague is not alone the consequence of the miasmastic poison. A great variety of disorders arise from its irritation,—among which are Newsley Businessians. Gout. Headache, Blindness, Toothache, Karache, Catarrh, Asthma, Palpitalion, Fainful Affection of the Spieces, Ohio State Fair ! Northern Ohio Fair; Amer. Institute, N. This "Curer" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure; and few will esse auffer from Intermittents if they avail themselves of the protection this remedy affords.

For Liver Completions, arising from torpidity of the Liver, it is an excellent remedy, simulating the Liver into healthy activity, and producing many truly remarkable cures, where other medicines fail. unsurpassed.

iscus purely vegetable, the contain no mercary or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the Pilis with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleanased by Ager's Pilis, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and berfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.
