Europe Bristling with Bayo-

The military contributor of the Cologne Gazette compares the pres eut strength of the German army with that of the armies of the other leading European Powers. At the beginning of 1875 the German army consisted of 31,830 officers, 1,329,600 men, 314,970 horses, 2,700 field guus and 820 siege guns. Of these the number of troops available for sers ed, reciting that a condition of lawlessness vice in the field within six weeks and violence exists in Louisiana and other after the mobilization, is excluding parts of the South, which seems to spring the transport and staff corps, 710, chiefly from metallice stainst of the limit. 130 meny with 114,850 borses and 2,082 field gaps. These figures do not include the tourth battalions, 3.400 officers and 152,100 men, formed in case of war, or the landsturm to be raised under the new law, which would bring into the field a force, by the lowest computation, of 3,748 different and 203,200 went The total force as the disposal of Germany is, therefore, 38,948 offic-ers and 1,684,200 men, excluding surgeons and the hospital corps, on the right and Instice of the American and not taking into account the probability that the estimated force of the landsturm will be greatly ex-

ceeded when in the field.

The strength of the Russian army, including the Don Cossacks, bus excluding Cancasian and Asia tic troops, is 1,376,860 mes, of whom 761,000 are available for field service; the French army, 1,098,400 abeliabling the practice of his courtiers and of whom 685,700 are available for others prestrating themselves to the the field; the Austrian, 365,900, in ground in his presence, has cetablished a serve; the Italian, 741,700, include to seem the string are she admining 379,000 field troops and reserves; intribute afficient and a frity Connect to seem to she admining a 379,000 field troops and reserves; intribute afficient and a frity Connect to seem to she admining a string to seem to she admining the string and the she are she admining the she are she as a string to seem to she admining the she are she admining the she admining t cluding 572,750 field troops and rebut excluding volunteers, 280 240 to craffic the law way, a deeply-rested and of whom 93,860 are the highest most britishly enforced initiation is Stam. out fresh eplistments. was the law before,, and to arrest offenders, found in the District, who have committed crimes against the United States in some indicial district of the United States, and to send them to such district for trial, and that in all.

No person can be brenght into the Distriet of Columbia under it, sither for libel or any other erises. The committee are of the epinion that both sections of the feet accordance with the principles of just San Antonio Soap Company tice, and the course of sivilized jarieptudence. Witent provisions of this character the District of Columbia, geould be an asylum for affenders committing crimes against the laws of the United States and escaping bither. It only remains to report, as directed by

resolution of the Senate, whether the said act has any application to the prosecution or indistment for the crime of libel in way case. We are of the opinion that, as before stated, no person charged with the crime of libel can be brought into the Distriot of Culumbia under 16, for no parson can be brought here under it for any erime whatever, and 16 is equally plain 48at no person, charged with the stime of Mbel in any other district or place in the Hillted States, can be arrested here and sunt to such district or place ander it. Per, first libel is not a crime against the laws the United States or of any of the State, so that no case could arise in which a court or Judge in the District of Columbia could be called upon to arrest a person here and send him to sny State for trial for fibel It should be here observed that the furis diction of courts of the United States in criminal sases, is confined to offcuses created by statutes of the United States. No offeres at law is indictable or triable in courts of the United States. This was early determined by the Supreme Court of the Wnited States, and is the settled law

the b'nited States, and is the settled law of the land.

Second, if, in any Territory, libel is a crime by inclusive, and if such laws could be held for each purposes to be laws of the United States, the act under consideration provides no unid in sending persons from this District to such Territory. To the 33d section of the such Territory. To the 33d section of the such Territories. The result is that the set of June 25, 1874, is not, in our opinion, obnexious to any criticism, and in respect to the trum of fibel, it confers no power either to bring a purson charged with it into the District of Columbia or to seem him out of it. THE State Gozette, inspired by something the editor has read in the Courier-Journal, makes out a cockand bull shory to the effect that Postmaster General Jewell is about to be dismissed from office. To what straits must the Coke White League journals be reduced when they serve out such disgusting porridge as this for the intellectual digestion of their readers. To read a partizan Democratic journal of the present day for a series of years, and not mad the other side, is to in-flict an injury upon a man's intel lect, taste, morals, and character from which he can rarely recover.

THE PRESS GAG LAW, so-called, is fully explained in the report of the committee of the U. S. Senate, appointed to examine, it which we publish in this issue of the EXPRESS. That report is signed, as will be seen, by three Republican and three Democratic Senators, among the latter, Thurman of Ohio, and Stevenson of Kentucky. It will be seen that there is no "press gag law" at all, and that all the charges and denunciations of the Demoeratic press on the subject are the emanations of falsehood or ignorance. This report, signed by these distinguished Senators, recommends that the law should stand just as it is. Will the Austin Statesman and Gazette, and the other Coke journals of the State, make a note of this; or will they still try to mislead The All Unit banks along

LIEUT. GOV. HUBBARD.-During the canvass of 1874, the Republican papers, although they admitted and admired the mients of Col. Hubbard, "poked tun" at his spread eagle oratory and other indications of a harmless vanity. The Democratic papers were exceedingly indignant at this. Now, since Lieut. Gov. Hubbard has taken position in favor of the International railroad compromise bill, and against a constitutional convention at this time Belton Journal;

And now comes the Lieutenant-Governor and, by his casting vote, passes the International through the Senate. Then he gives the Senate a very flowery talk about Louisians and Federal relations. This effort doubtless caused the Lieutenant - Governor great labor and care of thought. It is in his usual bumbantic style, filled with rhetorical figures and poetical quotations; only this and nothing more. The drift of the whole thing is that The drift of the whole thing is that it will not do to call a convention till after 1876. So, no, Richard, we should not do it, because, first, some of the present incumbents of office, who were elected by large majorities, might be solicited to remain at home next time; they might not be able to give a satisfactory account of their stawardship. account of their stewardship.

Q. Did you take your son out with you? A. During the firing, when I thought it had slacked a little, some man whom thought I recognized by his voice as Comer. who lives at Spring Hill depot, called me. Lasked him what he wanted. He says: "I have come here to protect you." I said "That is all right." He came right up to me, and then, for the first time, I missed my son's hand off my shoulder, but he had told me before that he was shot. He told me that

When Comer came up I missed his hand, and felt around and could not feel him. I told Comer that I wanted to find my son; that he was shot. He said, "Wait a minnte, you can't find him now." His brother and two or three others came up, and they ordered a light. One of these men went out to the door and found my son there. Three or four colored men took him and carried him up to Dr Davis's, about 300 pards off, and in a few minutes, the crowd around me preventing my being shot at any more, guarded me up there. I went back to the polling place next morning with the Boutenant and some soldiers, and looked at the place. The contents of the ballotbox seemed to have been suptied on the floor and burned. I could see scrape of the poll-lists and ballots there. The place was riddled all around with bullets.

The President's Arkansas Message.

Special Telegram to the Inter-Ocean.] WASHINGTON, Peb. 9.—There is a wide difference of epinion among Republicana in regard to the President's message upon Arkaness, and there seems very much less chance for any notion being taken in the Senate in this matter than in the case of Kellogg in Louisians. The friends of Gov. Brooks here represent the President as very clear and very positive in his views. They represent him as saying that he has information that if the General Govern ment faile to take notice of the methods by which the Garland revolution was achieved in Arkaness, every other Southtionized by the Legislatures lately elected, in the same manner as Arkansas. They apresent the President as believing that those changes wifl be brought about within ninety days, if unchecked by any action As soon as he unbarred the door the growd of Congress. Thus far the President has absolutely refused to recognize distand as Governor, and the latter has recorded to several expedients to secure such recognition. After various attempts he finally made a requisition, as Governot, upon the becretary of War for a quota of arms be-lenging to the State of Arkansss. No at-tention whatever was paid to this. tention whatever was paid to this requisition, and Garland was not even notified that it had been received. Soon after he notified the State Department that, as Governor, he had made certain appointments as commissioners for the State of PRESIDIO DEL NORTE, Arkansas to the Centennial. The Presi- with permanent water, turbine wheel, and dent directed the Secretary of State to write to him officially, simply announcing that his various letters and dispatches had been received, but to admit no recognition as Governor. Gov. Brooks, who is here, feels confident that if either the House or the Senate should recognize him as the 1930 A MOSTH. Agents wanted everywhere. Business honorable and first legally-elected Governor, Garland would class. Particulars sent free. Address, give way without resistance. His friends here are confident in the belief that unless Congress askes point sevies upon the message of yesterday the President will construe their failure to set aske did their failure and will, when Congress adjourns, fully recognize Brooks as Governor, and use whatever means he find place him in power.

DYSPERSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver, DAIN in the right side, under the edge of the ribs, increase on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulderhisde, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumathm is the arm. The stomach is affected

with loss of appetite and sinkness; the bowels in general are costive, sometimes alternative with lox; the head is troubled with pain, accommand with a dull, heavy assistion in the back pars. There is generally a considerable loss of memory, accompanied with a painful scharfon of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and deblifty; he is easily startled, his feet are cold or burning, and he complains of a prickly some and he complains of a prickly some-tion of the skin; his spirits are low; and although he is satisfied that exer-cise would be beneficial to him, yet he can scarcely summon up fortiude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the given to have been extensively deranged.

AGUE AND FEVER. DR. C. M'LANE'S LIVER PILLS, am CASES OF AGUE AND PEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to or after taking Quinine. We would advise all who are afficred with this disease to give them A PAIR TRIAL.

DE WEIVER ST MARRIAGE CUIDE,

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfect. ed preparation for restoring GRAY OR FADER HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic prop-erties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal viger, and will create a new growth, except in extreme old age. It is the most eco-nomical Ham Dressing ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPA-RATION for its intended purposes." Sold by all Druggists, and Dealers in M Price One Dollar.

Buckingham's Dye.

FOR THE WHISKERS. As our Renewer in many cases requires too long a time, and too much care, to restore gray or faded Whiskers, we have prepared this dye, in one preparation; which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by neither rub nor wash off. Sold by all Druggists. Price Fifty Cents. Manufactured by R. P. HALL, & CO.,

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or missmatic

No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fewrand Ague. Such we are now called to offer, with a performance, founded on proof, that no harm, can she from its use in any quantity.

That which protects from or prevents this list must be of immeans service in the omnunities where it prevails. Prevention is true the must were it prevails. Prevention is true the must run in violents attacks of this baled distunger, This "CURR" expels the mismatic poison of FEWER AND AGUE from the Aystem, and prevents the development of the desire, if taken on the first approach of its preconitory symptoms. It is not only the best misedy ever yet discovered for this class of coplaints, but also the cheapest. The large quality we supply for a dollar brings it within the reach of everybody; and in bilious diricts, where FEWER AND AGUE prevails, everybody should have it, and use it freely, both from the about the reach of all—the poor as rell as the rich. A great superiority of this meedy over any other ever discovered for the seedy and certain cure of Intermittents is, that if contains no Quinism or other injurious efficis winstewer upon the conscitution. Those carries by it are left as healthy as if they had never by the relief as healthy as if they had never by the disease.

Ferer and Ague is not alons he consequence of the minamatic poison. A great variety of disorders arise from its irritatio, among which are Neuralet's Rheumatism, qoot, Headache, Blindness, Toothache, Earsched Calarrh, Asthun, Fallystation, Famirul Affectio of the Spicen, Hybterics, Pain in the Bowell, hole, Paralysis, and decreancement of the Stomash, all of which, when originating in this cause, put on the instrument type, or become products. This "CURE" expels the poison from the malarieus districts. If taken occionally or daily while exposed to the infection that one; is they avail themselve of the protection than ourse; and few will evenufier from the remittent if they avail themselve of the pro

The Missouri, Kansas & Texas Railway has become so well known to the people of Texas, as one of the finest and most comfortable Roads on the continent to travel on, that it seems almost unnecessary that we should say sughthin its praise. Fet we cannot ever get back from a trip over this line without asying something in praise of the management, who always seem to be striving to make their patrous comfortable, while traveling over their road. The track is always in the best possible condition and trains are at all times run at uniform speed. Pullman's finest Drawing Room Sleeping Cars accompany all through passenger trains, and if you are going north or east by making your wants known, you can go either via Hamnibal or St. Louis. And for Kansas City, Denver, Californis, or any afthe Northwesters States or Territories, it is much the best route we have from Texas. Their Diving Stations and Hours for Mosle are all that a treveler could wish for, and in fact there seems to be nothing left undone to reader a trip over this line pleasant.
