WEDNESDAY, FEB. 24, 1876.

THE mockery of free government in the Southern States, where men are murdered on account of their political belief, is a crying shame.

SIXTY-THOUSAND Japanese in Yeddo are studying the English language, and tearing their hair over it torturing idioms.

SENATOR RUSSELL, (our "Bill") the renegade "Radical," is highly praised by our neighbor, the Herald, of this city. "To what use, etc."

A Florence journal prints a pretended correspondence between Mazzini and Bismarck in 1867, which the Berlin press repudiates. The subject is of no present importance.

SENATOR SCHURR is going to Europe when Congress adjourns, to visit a young daughter, who is at school in Germany. His youngest child, a four-year-old, is to be educated in this country.

CONGRESS has it in its power to save the lives of hundreds and thousands of Republican voters in the South by the adoption of remedial measures providing for the repression and punishment of violence in that section. The people of the country understand this, and expect their Representatives to do their duty.

ONE HUNDRED AND THIRTY-THREE States rightfully belong to the Republican party. If the present Congress does not do its duty those votes will be added to the Democratic candidate for President, and, with the number probably cast the same way from the Northern States, the election of a Democratic President is among the possibilities of the future. The Democrats foresee this possibility, and are laboring to make it a certainty.

TEXAS BEEF FOR ENGLAND. Western Texas, the great beef region of the United States, is very much interested in a new enterprise, now set on foot, of transporting live cattle from Galveston to London. An organization has been formed in London which is called the Texas Live Cattle Importation Company. Sir Howard Epperson is its chairman, and Col. R. M. Graham proposes to transport it in Galveston.

The plans of this company as stated by Col. Graham, are very interesting. Based on a capital of five million pounds, these plans contemplate the establishment of a regular line of steamers between Galveston and London, adapted especially to the business of carrying live cattle to England and bringing immigrants to Texas. The chief peculiarity of these vessels will be the application of Ralph's patent for securing cattle on voyages, by a series of connecting ham-mocks. It is thought that, with the use of this patent, as many as fifteen hundred cattle can be safely transported in a direct trip of about sixteen days.

Another feature of the company's plans is the establishment of a stud farm in the interior of Texas, for the improvement of stock.

THE NEW BISHOP of the Roman Catholic Church for the Rio Grande section of the State has arrived at Brownsville, and was met with a grand and imposing reception. The Bishop says that upon the arrival of the Bishop, Right Rev. Dr. Manney, at the depot, the fact was announced by the ringing of the bells of the Church, and a salvo of artillery, whilst the band of the 24th Infantry discoursed some of their best and most appropriate music. One of the Bishop's gatherings of the people of the city and vicinity ever seen, congregated at the depot to welcome the distinguished stranger to the home of his future labors. The Bishop says that while from all sections, telling the people of all denominations will welcome the arrival of the Bishop on account of the great benefits that his apostolic mission is capable of conferring upon the people. The sacred cause of education, so badly needed in that

section, ought to receive an impetus from the dignity and influence of so powerful a personage, whilst morality and virtue will have an advocate who can speak with the voice of command and authority.

Gen. Hatch and the Ranchero.

Our readers will recollect that we lately published the report of Gen. Hatch to Gen. Angur in relation to a fight between Mexicans and soldiers, in which two soldiers were killed. The report was published in regard to that matter were approved by all the military officers we have conversed with in this city, who know that country, and Gen. Hatch. The Herald of this city, for some unexplained reason, set to work to disparage and abuse Gen. Hatch. And the Brownsville Ranchero, with some of the bitter political motives which inspire the Herald, has been playing strangely fast and loose in regard to this matter. It has never yet published Gen. Hatch's report, but fills its columns with the vindications of the murderers prepared by their friends and sympathizers. At last, however, the Ranchero has got hold of and published the other side. Its statement is that a corporal and four men were stationed as a picket guard at the ranch, and that the friendliest relations existed between the soldiers and rancheros. On the 27th of January, the corporal noticed that a large number of armed men appeared in the ranch, and he made preparations to proceed to Ringgold to report the facts. In the evening, a volley was fired in the direction of his camp, and a Mexican who was in his rear, he asserts, was killed by this volley, and, of the subsequent post-mortem examination, the ball was extracted from the head of this man and was found to be of a different calibre from that of the ammunition used by the soldiers. The corporal went to the ranch to try to ascertain what the firing was about, but could obtain no satisfaction.

He then prepared to return to Ringgold, but waited until the moon rose before starting, and had left the ranch when one of the men found that he had left his overcoat, for which, with another soldier to accompany him, he returned to the ranch. These two men, the corporal says, were fired upon from an ambush and killed. The corporal and his other two men then for the first time opened fire, and they wounded several of the attacking party, after which they went to Ringgold and reported the facts.

Gen. Hatch then proceeded with two companies of cavalry, accompanied by the Sheriff and posse, to the scene of the conflict, when the Sheriff made the arrests that have been charged on the military. After a long investigation by the magistrates at Rio Grande City, nine Mexicans were bound over to the District Court for the murder of the soldiers, and this fact alone goes far to relieve the military and the soldiers from blame in the matter. When the two soldiers were killed their horses and accoutrements were taken to the Mexican side of the river, but the next day they were promptly returned by the authorities of Camargo, who stated that so far as they could ascertain five men from the Mexican side of the river were engaged in the fight. The fact that the horses of the dead soldiers were taken to Mexico is another strong evidence of the truthfulness of the statement of the occurrences made by the soldiers. And it is said that the judicial examination and coroner's inquest sustain the foregoing statements of facts.

The Austin Statesman says that Mr. N. A. Rector, who went to Mexico over a year ago with Dr. Win has returned to his native place. Mr. Rector gives a glowing description of the country beyond the Rio Grande.

A resolution passed the House granting the use of the Representatives Hall to the State Medical Association for ten days from the seventeenth of April. The Association, we understand, has about 400 members.

The Statesman says: An old citizen came into town last night to get a partridge for his wife, who has been lying several days at death's door. He applied to a grocer or veterinarian, who had two dozen birds, and was refused. The old man offered any price for a bird, and was still coldly refused. They were wanted for the guests of the house. The honest countryman then went to follow. The fowl was in the very act of pinning a killed bird before a grocer's counter. He listened to the countryman's story, and said at once give him the bird, and would not receive a penny for it. The guest of the mansion was well pleased to hear of

A special to the News from Hempstead says: A railroad laborer named T. Lubbock, an Englishman, while lying drunk on the track, half a mile west of this place, was run over by the night freight train and instantly killed, his head being mashed into fragments and his brains scattered over the cross-ties.

A small boy wished to see how a cup of cherries would taste in an open fire. Now he thinks he knows how it looks. Now skin and hair will grow before he is presentable to company. Vigorous action prevented a disastrous fire.

Spring fights open early in the season. There were only three last evening; no bones broken.

Waco Examiner: From a Rainey's Creek farmer we learn that a "vast area" is that planted in corn the coming week in that neighborhood.

Coryville county was represented in our local business yesterday by seven wagons loaded with coffee.

At dusk Friday night, just as the stage was passing through Bosqueville, a horse was discovered to be on fire, a lady in great distress came running to the stage for assistance. The passenger jumped out, and very promptly extinguished it.

A day or two since Mr. Frazier's children were playing in Barren's branch, and near the root of a tree they found several pieces of money. They hurried to the house and reported the fact to Mr. Frazier, he accompanied them to the spot, and succeeded in unearthing seventeen pieces of silver and gold of very old coinage.

-Waco Register.

Mr J B Tucker, baggage master on the Tap Road, was run over by the cars and is instantly killed, Tuesday morning last, somewhere in the neighborhood of Ferry Station. His body was terribly mangled, the cars having passed over his breast and arms. His remains were sent to Bermond, where his wife and three little children reside.

Indian Territory. The House Committee on Indian Affairs, to whom was referred the bill to provide for the organization of a territorial form of government over the country usually known as the Indian Territory, and for other purposes, reported recently, that, after a careful, thorough, and impartial consideration of the subject, they find, in view of the peculiar relations to be sustained by the people therein, that there is no authority which will justify, but, on the contrary, they find much, in many treaties with the Indians occupying and owning the territory, in the act of Congress vesting and guaranteeing certain rights and immunities to them, and in opinions of the Supreme Court interpreting, defining and sustaining the same, which expressly forbids the legislation proposed. The committee says:

"Believing as we do, that the legislation proposed in these bills to be unjust and inexpedient, and therefore unwarranted, we trust the seal of disapproval will be, by Congress, emphatically set upon these bills. We believe, however, that it is the binding force of the nation's obligation to the Indian people who are thereby to be affected. The people of this great nation ought to know and those of the Indian nation ought to be reassured, that Congress of the United States cannot and will not lend its sanction to any measure tarnishing the nation's honor, especially where its faith has been pledged by solemn guarantees and written covenants."

Fractional Currency. A Questionable Vignette. Special Dispatch to the St. Louis Democrat WASHINGTON, Feb. 6.—Under what was unobtrusively discovered to be the had management of the Bureau of Engraving and Printing of the Treasury Department, the vignette of a very beautiful, though somewhat eccentric, woman was placed on one of the issues of fractional currency. General Butler has had it intimated to him that there is now in course of preparation a female vignette, which is to grace some class of stamp about to be printed. To this end, he introduced in the House a resolution, calling on the Secretary of the Treasury for information as to whether the portrait of any living original had been prepared or approved for the purpose of being printed upon any currency or stamp issued under the authority of the Treasury Department, if so, under what authority in contravention of a law prohibiting a portrait of any living person being placed on issue of any kind from the Treasury Department.

STEINWAY Grand, Square and Upright Pianos.

Have obtained the Highest Honors ever awarded to any Piano Manufacturer in the World. First of the Grand Gold Medal of Honor WORLD'S FAIR, PARIS, 1867. LONDON, 1862.

The world's greatest pianists and composers, including the renowned Dr. Franz Liszt; Anton Rubinstein; Berlioz; Kalkbrenner; Chopin; Mendelssohn; Schumann; the Academies of Fine Arts of Paris, Berlin and Stockholm; Professor Helmholtz of Berlin, the highest authority in the science of Acoustics; as well as the piano-purchasing public of Europe and America, all unite in the unanimous verdict of the Superiority of the Steinway Piano over all others and declare it to be the STANDARD PIANO OF THE WORLD.

All American Piano manufacturers, without exception, and a large number of the most celebrated European makers have been forced to copy the Steinway scales, principles of construction and various improvements, and to adopt the Steinway Construction System. Of this immense number of imitations STEINWAY & SONS beg to submit the following: ANTON RUBINSTEIN. New York, May 24, 1873. Messrs. STEINWAY & SONS.

"GENTLEMEN.—On this eve of returning to Europe, I beg to express to you my most heartfelt thanks for all the kindness and courtesy you have shown me during my stay in the United States. I have had the pleasure of playing your unrivalled Pianos, which once more have done full justice to their world-wide reputation, both for excellence and sagacity of construction. The several trips during all my long and difficult journeys all over America, in a very inclement season, I need not have been enabled to use your piano exclusively in my 31st concert, and also in private, with the most eminent satisfaction and effect. Yours very truly, ANTON RUBINSTEIN. DR. FRANZ LISZT. Weimar, September 3d, 1873.

"Messrs. Steinway & Sons: 'GENTLEMEN.—The magnificent Steinway Grand Piano now stands in my music room and presents a harmonious totality of admirable quality, a detailed enumeration of which I do not deem it necessary to attempt. It fully justifies the world-wide reputation that for years you have everywhere enjoyed. After so much well-deserved praise, permit me to add my homage and the expression of my undiminished admiration, with which I remain, 'Very sincerely yours, 'FRANZ LISZT.' In a letter addressed to Metzdorf, the celebrated composer, dated on Weimar on the 27th of the same month, Franz says: 'His remains were sent to Bermond, where his wife and three little children reside.' 'Pray tell Mr. Steinway that his splendid Upright Piano shows to brilliant advantage at the Festival performance at the Warburg, where, last Tuesday, it was used under my fingers as 'Die Doppeltraue,' exciting general admiration. Yours, very truly, 'FRANZ LISZT.'

Whilst as a corollary on the above 'The New Leipzig North Zeitung' adds: 'A new Grand Piano from Steinway & Sons, New York, which we saw and heard in Dr. Franz Liszt's concert, we gratefully acknowledge as the grandest creation that modern science in piano building has produced. Every Piano warranted for five years. Prices as low as the exclusive use of the best materials and most thorough workmanship will permit. Old Pianos taken in exchange. Illustrated Catalogues, with Price Lists, sent free on application.

The Missouri, Kansas & Texas Railway has become so well known to the people of Texas, as one of the finest and most comfortable roads on the continent to travel on, that it seems almost unnecessary that we should say anything in praise of it. Yet we cannot say enough for this line without saying something in praise of the management, who always seem to be striving to make their patrons comfortable, while traveling over their road. The track is always in the best possible condition and trains are at all times run at uniform speed. Pullman's finest Drawing Room Sleeping Cars accompany it through picturesque scenery, and if you are going north or east, by making your way known, you can go either via Hannibal or St. Louis. And for Kansas City, Denver, California, or any of the North western States or Territories, it is much the best route we have from Texas. Their Dining Stations and Hours for Meals are all that a traveler could wish for, and in fact there seems to be nothing left undone to render a trip over this line pleasant. — N. Y. Times.

RENEWER
...
Every year increases the popularity
...
of this valuable Hair Preparation;
...
which is due to merit alone.
...
We can assure our old patrons that it is
...
kept fully up to its high standard;
...
and it is the only reliable and perfect
...
preparation for restoring GRAY
...
OR FADING HAIR to its youthful color,
...
making it soft, lustrous, and silken.
...
The scalp, by its use, becomes white
...
and clean. It removes all eruptions
...
and dandruff, and, by its tonic prop-
...
erties, prevents the hair from falling
...
out, as it stimulates and nourishes
...
the hair-glands. By its use, the hair
...
grows thicker and stronger. In
...
hairiness, it restores the capillary
...
glands to their normal vigor, and
...
will create a new growth, except in
...
extreme old age. It is the most eco-
...
nomical HAIR DRESSING ever used,
...
and requires fewer applications,
...
and gives the hair a splendid, glossy
...
appearance. A. A. Hayes, M.D.,
...
State Assayer of Massachusetts, says,
...
"The constituents are pure, and care-
...
fully selected for excellent quality;
...
and I consider it the BEST PREPAR-
...
ATION for its intended purposes."
