Civil Rights. General Butter's Opinion of the Law,

Gen. Butler, in a letter from Washington, March 18, to Robert Harlan, of Cincinnati, says : I have the pleasure to acknowledge the receipt of your letter of the 14th, contain-

ing expressions of appreciation of my afsaloons and barber shops under its provi-sions? To this I answer, I understand by "saloons" you mean drinking saloons. I am happy to say the civil rights bill does not give any right to the coloned man to go into a drinking salton without the leave of the proprietor, and am very glad it does not. As to the other branch of your question in reference to barber shops, let me say that the traile of a barber is like any other trade, to be carried on by

at all from what they were before under the common law applicable to nearly every State in the Union. It has only given him a greater power to enforce that right, to meet the exigency of combined effort to deprive colored citizens of it, and all idea that the civil rights bill allows the colored man to force himself into any man'a shop, or into any man's private house, or into any easing house, bearding-house, or establishment other than these I have named, is simply an exhibition or ignorance, as well as, in some cases, of insufferable praindice and malignity. And while I would sustain any colored man in firmly and properly

It was generally enprosed that Dele-ware had the entire monopoly of public whipping in this country; but Virginia the mother of Presidenta, is contesting the paim for the perpetuation of this yello of barbarism. By law, in that Beat, the right to punish with stripes has been granted to the courts and justices of the peace in certain eases. And in accordance with this authority a few days since, at Danville, was presented the merry and most unseemly sight of two women, one white and one black, receiving twenty lashes each at the hands of men under order of a justice of the peace of that place.

### THE ORIGINAL HOWE

The World-Renowned Eline Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Howe jr., since 1845.

### The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have engaged in organizing a most complete system, combining perfection of workmanship with the largest productions at the smallest cost.

In order to obtain these results, time, labor, money, and the experience of My Lark, as a practical mechanic have been freely contributed, and I believe, with success. Further to facilitated the manufacture and sale of my Machines, Thre Howe Machine Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my name in counsetlom with Machines of an inferior description—and I have, therefore, to protect inyself and the public, adopted, as an especial Trade Mark, a Manallon, having in the centre the profile of the Inventor surrounded by the logent, Elias Howe, Jr., Inventor and hower medallion is embedded in sect Machine, and home are the production of the Howe Machine Company nuless they bear this distinguishing Elias Howe. CONSUMPTIVES, TAKE NOTICES - Every Consumpreves, Take Notices—Every moment of delay makes your sure hopeless, and much depends on the judicious choice of a remedy. The amount of testimony is favor of Dr. Secenck's Pulmonic Syrup, as a cure for consumption, far expected all that can be brought to support the pretensions of any other medicine. See Dr. Schenck's Alumnae, containing the certificates of many persons of the highest receptability, who have been restored to health, after being pronounced incurable by physicians of acknowledged ability, Schenck's Pulmonic Syrup alone has cured many, as these evidences will show i but the cure is often promoted by the employment of two other remedies which Dr. Schenck provides for the purpose. These additional remedies are Schench's Ses Weed Tonic and Mandrake Pills. By the timely use of these medicines, according to directions, Dr. Schenck certifies that most any case of consumption may be cared. Dr. Schenck is professional at his principal office, Corner Sixth and Arch Sta., Philadelphia, every Monday, where all letters for advice must be addressed.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfect-ed preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most eco-nomical HARE DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPA-RATION for its intended purposes." The large quantity we supply for a dollar brings it within the reach of everybody; and in hillous districts, where FEVER AND AGUE prevails, everybody should have it, and use it freely, both for cure and proceeding. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinium or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

A Word of Advice to Travelers. The Missouri, Kansas & Texas Railway, has become so wall known to the people of Texas, as one of the finest and most com-

fortable Roads on the continent to travel on, that it seems almost unnecessary that we should say aughtin its praise. Yet we cannot ever get back from a trip over this line without saying something in praise of the management, who always seem to be striving to make their patrons comfortable, while traveling over their road. The track fortable Roads on the continent to travel is always in the best possible condition and trains are at all times run at uniform speed. Pullman's finest Drawing Room Sleeping Cars accompany all through passenger trains, and if you are going north or east, by making your wants known, you can go either via Hannibal or St. Louis. And for either via Hannibal or St. Louis. And for Kansas City, Denver, California, or any ef the Northwestern States or Territories, it is much the best route we have from Texas. Their Dining Stations and Hours for Meals are all that a treveler could wish for, and in fact there seems to be nothing left un-done to render a trip over this line pleas-ast. 28 1-75 wly 1121
