SHERIDAN .- The Seate Gazette 18 Coke's political and social organ at the Capital, in fact that paper bears the flesh marks of the so-called Governor. The spirit in which it is conducted is illustrated in the following remark about Gen. Sheridan:

Aside from the negro population and thisving carpet-baggers, there has been none so poor in the South as to do him reverence. He exhibited the spirit of a demon in Donis which they pay into the city treas His love for Texas is known in his memorable saying, that "if he owned Texas and hell and was compelled to live in one of the two places, he would rent out Texas and live in hell. A Much reeded Reform-Good Beef vs. Poor Beef.

One of the essential things in the domestic economy of our city is beef. The monthly market reports show that we are a beef eating community, that during the year we ion pounds of meat.

The city has taken the markets entirely under its control and secures therefrom a revenue of \$12,-000 per annum, in the way of stall rents. The city, in fact, is our butcher and responsible for the character of the beef we are compelled to buy at its market houses. the clerks who wait upon us. What kind of beef do our city authorities formish to our citizens?

This inquiry is answered by tenthousand tongues at once; miserab. seems that the Government never intend dy poor and tough at the

For this zens to either rush out of their purpose they are well armed and well beds and go to market or put up mounted, protected by the authorities of with poor cuts and such as the stall renters furnish at their doors by their carts.

There is no inspection as to Uncle Sam whould either provide rations the quality of the beef furnished; for the hungry population of the Republic of Mexico, or send a few hard working in-dustrious men to civilize them, and learn the market masters are simply required to watch the ear marks and prired to watch the ear marks and them how men can get bread and corne brands on the hides of the animals without stealing. Any assertion made by slangb tered.

The city also by these arrange ments make the business of furnishing beet a monepoly to a few men, for when the market stalls are all sold competition ends; no one else can butcher. This, then, is a double monopoly taxing our citizen in a double capacity; towit: We pay \$12,000 to the butchers sale by J. CLAVIN and A. > This beef matter is one of the most grievous evils existing in our 29 4. with city to-day; in no other particular are our people so sorely taxed, or so foully imposed upon. Beef is as much a necessary of life as bread, city could establish a grocery store and control it in the same manner as the sale of beef is controlled The bare suggestion shows how monstrous the present system of selling beef is.

What is the remedy? Why, place beef upon the same footing as all other articles of food; let it be sold anywhere in the city, at all hours and by any body under a moderate business license, and proper sanitary regulations. The city treasury may not be the gainer, but the people will be, both in pocket, stomach and convenience.

Market masters should be competent to judge beef instead of simply making out brands and marks, a regulation now out date. And before beef is out up and offered for sale it should be properly inspectwhere his lot may fall. He carries with ed; this regulation is very import-

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sawing Machines, and have succeeded in organizing a most com-plete system, combining perfection ofworkmanship with the largest productions at the smallest cost.

In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, The Howk Machines Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallion, having in the centre the profile of the Inventor surrounded by the legend, "Ellas Howk, JR. Health invariably declares itself by visi-ble signs. A person with a sallow, hag-gard visage and attenuated frame may declare that he is "in perfect health," but if he does, don't believe him, for he is not. if he does, don't believe him, for he is not. His looks belie him, and his asseveration is mere brayado. Fow persons, except hypochondriacs, desire to be thought unwell. A fresh complexion, a crear eye, a happy expression, and an absence of leanness, indicate that their possesser enjoys good digastion, sound sleep and a vigorous circulation, three essentials of health which are fortunately not beyond the reach of invalids. The largest medium for their attainments is Hostetter's Stomach Bitters which by purifying the blood banish salwhich by purifying the blood banish sal-lowness, and by promoting perfect diges-tion and sound sleep, keep the body well nourished, and impart to the face the placid expression indicative or a clear and unwearied mind. The Bitters are far more

conducive to good looks than any cosmetic that ever humbugged the credulous. Cast Them Out. If there are any diseases which deserve the name demoniac, Dyspepsia is one of them. It racks and tears the system like a veritable field, and renders life a burden. The medicines of the Dispensary will not expel it. Coat it out with Da Walker's Vegether Vinedar Bitters. There is no form of indiges tion or liver complaint that can withstand this potent toric and alterative. The newly discovered California roots and berbs from which it is prepared are of more waits to manking them all the the gold of the Pacific States.

HADES VEGETABLE SICILIAN HAIR TT

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OF FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PEEPA-BATION for its intended purposes.'
