FUNERAL OF GEN. MAGRUDER.

The funeral services observed at Galveston last Saturday on the reception of the remains of General Magruder from Houston, were very imposing. They lay in state at the Army of the Gulf Station, Artillery. Thence the procession moved from the hall at 12 o'clock, in the following order:

Mounted Police, Band, Galveston Fire Department, 150 men, under M. A. Davey; Chief, Mayor, Aldermen and other city officers; Federal, State and county officers in carriage; members of the Democratic State Convention on foot; Band; Louis Star Hill, with reversed arms; Major, General Bragg, with reversed arms; General Bragg, with reversed arms; General Magruder's staff and Executive Committee; Confederate soldiers; Island City High with reversed arms; Lieutenant Governor Hubbard, Rev. Dr. Bunting, Rev. Mr. Byrd in carriage; Galveston Artillery; Citizens' Carriages.

The Governor, P. R. Lubbock, acted as Chief Marshal of the day, assisted by P. G. Campbell and O. G. Brown. Mr. Hubbard, John M. Claiborne and F. C. House. Governor Lubbock rode a magnificent looking bay horse, with full military rigging, it being the property of General Bragg, and was donated for the occasion. The procession was halted in front of St. John's (Catholic) Church, corner of Broadway and Fifth Avenue, where a stand had been erected from which the oration was to be delivered.

The oration of Governor Hubbard was one of the most brilliant forensic efforts of his life, at times bringing tears to the eyes of many of his hearers. He paid a glowing tribute to the memory of the illustrious dead, referring to his great military genius in fitting terms. He touched the hearts of all present, when alluding to the dead comparison of the gallant Magruder. The speakers referred to the last words of the brave Scary—"The sweetest die for my country"—swelled the hearts of the old soldiers of that good man and gallant officer who were listeners.

Governor Hubbard spoke about thirty minutes, and closed his oration with the stirring words of Theodore O'Hara—"On Fame's eternal camping ground Their silent tents are spread, And glory guards with solemn tread The entrance of the dead."

A COTTON CROP OF 4,000,000 BALES. The Washington dispatches of the 8th say that the Statistician of the Department of Agriculture has completed the compilation of official returns for the past month, and finds correct the general assumption of a lower yield of lint in proportion to the yield of seed in comparison with the previous year, and none of them over thirty pounds to each one hundred pounds of seed. The average decrease in all the States is four per cent. This reduction is attributed in most cases to excessive moisture and the result of an imperfect development of the bolls, and in some to the effects of early drought in preventing full maturity. Cotton grown in fields very heavily dressed with commercial fertilizers is found to have a greater and proportionate development of seed than of lint. The average quality of the lint is somewhat lower than last year. Arkansas and Texas furnish the only exceptions to these statements. Though the average decrease in lint is slight in Louisiana and Alabama, it is greatest in Mississippi and the Atlantic States. The proportion of the crop gathered, on the first of December, is sixty per cent, and reported as follows: North Carolina 85, South Carolina 92, Florida 91, Georgia 89, Alabama 87, Mississippi 75, Louisiana 83, Texas 94, Arkansas 76, Tennessee 75. In analyzing the monthly cotton reports of the season the Statistician has found that the yield of lint makes a reduction of 126, 000 bales, and the difference in maturing and gathering since October points to a further reduction of 2 1/4 per cent, with a margin of one hundred thousand bales for contingencies after the first week in December. The average receipts, taken together, indicate a crop not less than 4,000,000 bales, or more than 4,350,000.

THE CONSTITUTION IN THE CONVENTION. In the Express of yesterday we said that all discussion of the new Constitution had been checked down in the Democratic State Convention at Galveston. It seems that the opposition to the Constitution on the part of its opponents, and the fear of disunion on the part of its friends, was so great that the slightest sort of a resolution in its favor was overwhelmingly voted down.

The following is the resolution offered in the State Convention by John D. Elliott, and afterwards favored by W. E. Crawford: It will be remembered that the resolution was taken on the table by a vote of 674 to 170.

Resolved, That it is the sense of this Convention that the question of the adoption or rejection of the proposed new Constitution should be left to the free suffrage of all the qualified voters of the State, to be determined by party divisions; that, whilst we would recommend its ratification by the members of the party at the ballot-box, we refrain from making it an issue in the canvass, leaving every man to be controlled upon the subject by his own enlightened judgment.

The incidents and circumstances of this vote are described by a correspondent of the Houston Telegraph, who would seem to indicate an compromise of the Convention.

TELEGRAPHIC NEWS. Associated Press Dispatches. DOMESTIC. NOON DISPATCHES. CONGRESSIONAL. SENATOR HAMILTON'S BILL. Washington, Jan 11.—Senator Hamilton's bill, relative to the Texas Pacific and Southern Pacific railroads, proposes to authorize the Southern Pacific railroad of California to extend its lines eastward from the Colorado river to meet the Texas Pacific road on the Cottonwood line, or more practically, if found, on or near the 33rd parallel. The said Southern Pacific company is also empowered to build a road from some point on its line to the Colorado river, for the purpose of this extension of its line, and to connect with the Texas Pacific road, provided it shall build twenty miles of this branch within two years and twenty miles yearly thereafter. It is also authorized to commence work on its extension eastward from the Colorado within one year after its line is completed to that river, as now required by its charter, and must build at least twenty miles of this branch yearly until it connects with the Texas Pacific, provided that this connection, if west of the eastern boundary of New Mexico, shall be within six years from the enactment of this bill.

WOOL—Unchanged; fall clip, medium to fine, 22 1/2 to 27; western, 18 1/2 to 21. FOREIGN. London, January 11.—The Paris correspondent of the Times writes that M. Dufaure's resignation was accepted by the withdrawal alone would not have deprived the ministry of its entire liberal element, and necessitates an immediate convention of the Assembly; consequently a Cabinet council was immediately called and held under the presidency of McMahon. A war was followed between Bay and Buffet. The latter complained of the former's conduct by the publication of the minutes of the cabinet council, which was held under the presidency of McMahon. M. Dufaure concurred, and suggested a programme of resignation, and not only resigned, but also suggested a moderate new. It was therefore agreed that Dufaure, Waller, Douce and Buffet should draw up a programme, which will be submitted to the Chamber. It was also suggested that President McMahon should also sign the programme. The foregoing is the situation at the present hour. The resignation of Bay and Buffet hold good unless an agreement is effected to-day. Later: The Paris correspondent of the Times and telegraph news believe that the Ministry while agreeing on the general sense of the programme, will differ in regard to the details on the other hand, in view of Dufaure's resignation. Marshal McMahon and M. Buffet, it is thought, will likely hesitate to embark into a policy which might entail serious results. Recent marked the Harvest Queen, has been washed ashore near Coahuila. The Harvest Queen left San Francisco on the 26th day of August and arrived at Coahuila on the 26th of December. She sailed again for Liverpool on the 5th of January, and it is feared that she has been lost with all on board. Charles Bonney & Co. postal inspectors of Havana, failed. Liabilities \$107,000 sterling. The Times has reason to believe that the Queen will personally open the remains of Peruvian, announced by the Princess of Wales. London, Jan 11.—This morning a special train from Paris to the Fall Mail Gazette says that the retirement from the Cabinet of Lord
