DAILY EXPRESS

The softer side of Bismarck's heart was shown the other day at the funeral of the young man who was to become his son-in-law. The proud ruler, who has thus far humbled every political enemy, was moved as, it is said he was never before known to be, and, covering his face, wept like a child. That touch of nature makes him more than ever akin to Germans, and from that day he will be dearer to their hearts. They admired and feared him before, they will reverence and love him now.

"I wouldn't be such a Christain as you are, John," said his wife as she stood in the doorway, dressed for church. "You could go with me very well if you wanted to."
"How can I?" he half sobbed, "There's the wood to be split, and the coal to be showeled over to the other side of the cellar, and no I didn't think of that," she mur mured thoughtfully, and giving her her new cloak a tresh hitch aft, sailed out alone.

The New York Tribone says that since the message of President Grant, the number of letters on the school question is unprecedentedly large, and argues from that cir camstance that there is an extraordinary interest being taken by the people on the subject. In its issue of the 24th the Tribune has several columns of these letters epresenting the different views held, and while some give up the Bible in the schools, and let Chris-tians of all classes, atheists, panthe-ists, Moslems and Buddhists be satisfied, others say, dont make fools of ourselves, and teach the history of Confucius, Mahomet, Buddha, and the Grann Llama, and refuse to teach the history of the Lord, spoken of by our fathers in the Constitution, which they made.

Many of the letters are ably written, and strong arguments. ten, and strong arguments are us-

not accomited for by any law of physics wherewith I am acquainted. That they are the work of our departed friends, whose sames they invoke, I am not satisfied. I do not say they are not; but of the testimony I have had on that point, the stronger portion seemed to negative the spirital hypothesis." The late Gerritt Smith's benove ence receives a fresh illustrasio by an old letter of his which is Pearing that one of his tenants eradicated in a short time or no charge was in debt, and unable to pay his

Mr, McPherson retires from his aurdous and responsible post with the words, "well done, good and faithful servant," ringing in his cars. He was faith-ful and efficient, and his manners. were gentle and engaging. Clinton Lloyd, his chief office, proved himself good and true.

When the blood contains the acrid e When the blood contains the acrid elements which produce rhounaties, gont and venal disorders, the kidneys cought, for it is their office, to filter from the blood, in its passage through them, these hurtful impurities. When they do not, they may be incited to a thorough performance of their duty, and the blood thoroughly depurated by their admirable corrective of organic inactivity, Hostefier's Stomach Bitters. Not only is torpidity of the kidneys overcome, through the agency of the Bitters, but dignation is facilitated, billious tendencies counteracted and the heads at the second and the beauty at the second and the second and the beauty at the second and the sec

There is at the present time considerable excitement upon the subject and the leiters in the Tribune are indicative of that fact.
