The proposed Convention, as we understand it, will be willing to let should not exclude that man from nominated on the regular Democratic ticket. Had the exciting questions which came up before the the Republican State Convention on the 12th at Houston, and which were decided in the affirmative in that body, -had these questions come before the San Antenio Convention, we are assured by its leading members in their precint, and if they come upon that they would have been decided overwholmingly in the negative.

The divided in opinion, among its individual members, as to the merits of the quarrel alluded to; but they would never have allowed that quarrel to become a question for their action as a convention. Honce, the action of the Houston Convention does not at all represent the views and feel togs of the San Antonio Convention so far as we are informed on the subject.

The truth is, that the San Antonio Convention had no proper representation in the Houston Convention. The only delegate who attended was our friend, Hon. W. J. Locke, and he was understood to sympathize with the faction that cut up the very capers in Houston which we now speak of, and which were anticipated. C. O N C H O Eight of the twelve delegates sent their proxies to Gen. B. G. Shields and Judge Lemuel D. Evans, of Galveston, It was intended to send the proxies to these gentlemen and to Judge Sahin, and they were telegraphed to that effect. But afterwards, to avoid all appearance of participating in the quarrel, the proxies were sent to Shields and Evans; they were sent to Shields and Evans; they to report any irregularities to P. C. The whole thing is an insult to the conservative national Repub licans of San Antonio, and they say they wash their bands of it.

CELEBRATED LIVER PILLS

LIVER COMPLAINT DYSPEPSIA AND SICK HEADACHE

Symptoms of a Diseased Liver. DAIN in the right side, under the edge of the ribs, increase on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulderblade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accomparative with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, acof having left indone something which ought to have been done. A slight, dry couch is sometimes an attradant. The patient complains of weariness and detailsy; he is easily martled, his feet are cold or burning. and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the Liver to have been extensively de-

the reasons pro and conf Why, gentlemen, circumstances beyond our local control, force us to be in a hurry otherwise our efforts will be in vain A new constitution was lately framed, and will be voted upon in the course of next month. This constitution contains a provision probibiting the State, the counties, and municipatities, to grant subsidirs to ratificals. It is assumed that the constitution will be ratified by the people. Thus if we down it in our interest to grant a subsidy for the purpose of sceedcrating the temple tien of the railroad, we must do it new or six barrels a year. But, why tax outselves at all—will not the railroad be completed "anyhow" in the that on this point, at least, I can afford to be brief.

It is a well established axiom of national economy that the soil, it its most comprehensive meaning, that is the surface as well as the intestines of the earth, its navigable rivers and the rivelets rushing from the mountains with their inexhaustible isboring power, everything living on the aurface of the earth, animal and man, the civilization and mental endowment of the people, are the basis of the wealth of ally no difficulty in sullising capital in

Our latest assessment valued the city property alone at \$7,000,000. The county property is assessed at between two and three millions more—say \$10,000,000 in the aggregate. It is asserted that these thirty cents are like the straw which breaks the came is back.

Have you forgotten, fellow-citizens, that in the previous year, we paid 25 cents more to the county as a school-tax, and that the city has taken charge of the public echools, relieved you of the county tax of 25 cents, and, notwithstanding this additional charge, reduced her own-rate to 90 cents I. Thus, in reality, the camel's back was relieved of 30 per cent. taxes, precisely the same amount which is asked as a railroad subsidy. And for this same load which you carried two rears ago, without receiving any equivalent therefor, you now receive a railroad connection with the civilized world.

What this connection is worth, I will immediately show. I will show that the tax payer, before he squares up with the collector, has already the additional far of 30 cents in his pocket, in the way of savings on articles of daily consumption—

Thus these two srticles, salt and flour alone, cover his railroad tax. Does the rich man consume more? His table does cost more, but certainly it is not the quantity but the costliness of the dishes on his table which increase the price. The bulkier and the heavier the articles are a family consumes; the greater is the sum it saves by railroad transportation.

Again the poor man needs a fence around his lot. Lumber is too high. The locomotive makes its appearance, I mber becomes \$10 cheaper for the thousand feet, the poor man makes it possible to fence his lot, change a grass plot isse garden, and employ his spare time in raising veg., stables for his family.
