LIVER PILES FOR THE CURE OF LIVER COMPLAINT, DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver. PAIN in the right side, under the edge of the ribs, increase on pressure, sometimes the paintis in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder-blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a sheumatism in the arm. The stomach is affected with loss of appetite and sickness:

the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompagied with a dull, heavy sensation in the back part. There is generally a echoderable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility he is easily startled, his feet are cold or berning. and he complains of a prickly sense tion of the skin; his spirits are low ; and although he is satisfied that exerthe would be beneficial to him, yet he can scarcely summon up fortite de enough to try it. READ AND BE CONVINCED

THAT THE

OHLANTO

OIL

Best, Purest and Safest Oil

IS THE

EVER OFFERED IN THIS MARKET

A FEW OF OUR REASONS WHY WE CLAIM IT AS SUCH :

1. It is made upon scientific principles, and guaranteed to be pure, containing o mixture nor chemical of any kind, no Naptha nor Gasoline.

11. It burns alcwly, and is hence more economical, and has no offensive odor so requently found in burning other oil.

III. It gives a mellow light, thereby more beneficial to the eye.

IV. It will not explode, and is as safe as the old lard oil.

V. It will in all tests and trials be found, fully up to the standard of the chemical contribution.

Why We Denounce

OIL

Inferior Oils.

It is a deplorable fact, but nevertheless frequently practiced in several branches of manufacture, that whenever an article has assumed and attained a popularity and reputation on the merits for its good quality, those manufacturers, presuming to have established an unflinching demand for such, then see fit, for reasons best known to them, to send out an inferior article under the same name and style of package; and now we assert and prove by the below submitted devillentes of our local chemists (known as competent and honorable men, who made six tests of STAR OIL and Astral Oil,) that such is the case with the brand of oil introduced here in

1870 as Pratt's Astral Oil.

At the time of its introduction said oil was then fully up to the standard of the certificate of G. H. Kalteyer, chemist. To what has it be em reduced mow! Those recent tests show in one instance IS degrees, and in another 26 degrees below the referred to flashing point of 1870.

We furthermore desire to impress upon the minds of consumers that even at the present standard of said Astral Oil there is no uniformity in its quality, (a property generally found with the most inferior grades,) as in testing a case, containing two five-gallon cans, purchared from H. Grenet, it was discovered that a Difference of Nime Degrees existed in the flashing point of the cans alinded to. Those advertisements claiming such superior qualities for the Astral, prove to be exaggerated, as only recently, at different times, in the Casino building, a lamp filled with that Astral Oil fell to the floor and in a moment all was in a blaze, and had it not been for the prompt assistance of those present the building would be a total ruin. How reliable and of what good qualities oils so extensively sold in this city, is found in an article offered by the trade as Prate's Radiant Oil, which proves to have only a flashing point of 92 degrees and burning point 102 degrees.

As it is our constant desire to furnish our

Unexcelled, Twice Distilled Star Oil.

always uniform and up to the advocated standard, we have effected an agreement with Mr. G. H. Kalteyer to examine each and every case and attach a cartificate, with his signature to such before offered to the public. The Star Oil is only furnished in cases of two five gallon cause, and every can is stamped with our trade mark, of which this cut-is a fac simile.

OUR PROOFS.

Certificate from Kalteyer's Chemical Laboratory, San Antonio, Texas : Since that time I have at various times tested Pratt's Astral Oil, from different calers, with various results, some having the flashing point as low as

One Hundred and Seventeen Degrees Fahrenheit

I have tested one case bought from H. Grenet, containing two five gallon caus of Astral Oil, and found the flashing point of the oil in one can to differ NENE DEGREES from that of the other.
