Why We Denounce.

Inferior Oils.

It is a deplorable fact, but nevertheless frequently practiced in several branches of manufacture, that who never an article has assumed and attained a popularity and reputation on the merits for its good quality, those manufacturers, presuming to have established an unlinching domand for such, they see fit, for reasons best known to them; to send out an inferior article under the same unme and style of package; and now we assert and prove by the below submitted certificates of our local chemiets (known as competent and honorable men, who made six tests of STAR QIL, and Astral Oil,) that such is the case with the brand of oil introduced here is

1870 as Pratt's Astral Oil.

At the time of its introduction said oil was then fully up to the standard of the certificate of G. H. Kalteyer, chemist, To what has it been reduced newly the referred to flashing point of \$870.

We furthermore desire to impress upon the minds of consumers that even at the present standard of said Astral Oil there is no uniformity in its quality, (a property generally found with the most inferior grades,) as in testing a case, containing two five-gallou cans, purchased from H. Grenet, it was discovered that a Difference of Nine Degrees existed in the flashing point of the cans alluded to.

Those advertisements claiming such superior qualities for the Astral, prove to be exaggivated, as only recently, at different times, in the Casino building, a lamp filled with that Astral Oil fell to the floor and in a moment all was in a blaze, and had it not been for the prompt, assistance of those present the building would be a had it not been for the prompt, assistance of those present the building would be a total ruin. How reliable and of what good qualities oils so extensively sold in this city, is found in an article offered by the trade as Pratt's Radiant Oil, which proves to have only a flashing point of 92 degrees and burning point 102 degrees.

As it is our constant desire to furnish our

always uniform and up to the advocated standard, we have effected an agreement with Mr. G. H. Kalteyer to examine each and every case and attach a cartificate with Mr. G. H. Kalteyer to examine each and every case and attach a certificate, with his signature to such, before offered to the public. The Star Oil is only furnished in cases of two five-gallon case, and every can is stamped with our trade mark, of which this cut is a fac simile.
