FOREIGN MISCELLANY

The Mentenegrin Minister of War informs Baron Roderer that an offensive and defensive alliance has been concluded between Servia and Roumania, and Montenegro and Greece, and it is intimated that Cielly and Greece would rise in support of the movement in Northern Turkey. Altogether, the situation is regarded as drawing to a criss. The Porte had informed them that no armistice would be granted on the Berlin proposition, and the insurgent leaders declared that they would fight until independence was achieved.

The French government urges the new Turkish government to hasten a pacific

The Duc de Cases has pointed out to the Turkish government that Murad is entirely free from embarrassing engagements, and that his succession would naturally induce a suspension of hostilities, and that an armistice is in no way inconsistent with the dignity of his government. The Porte is urged to take advantage of the concertunity, and immediately tage of the opportunity, and immediately enter upon negotiations with the meargents, and to make the concessions judged equitable and necessary, and thereby avoid making them noder pressure of the

powers.

The Russian telegraph agency states that the Sultan's deposition is received as an opportune occasion for a peaceful settlement, which is desired by all parties.

THE TRUE TEXAS PACIFIC RAIL BOAD ROUTE.

Time, and the progress of rallcoad construction, are throwing the needed light on the subject of the true route for the Texas Pacific railroad. Were the International railroad completed to this city, giving us a line of railroad from San Antonio through the greatest length and central portion of the State, via Austin to Jefferson, Little Rock, branching to Momphis, St. Louis and all the Morthern cities; were the Pierce railroad completed, con-meeting us with Houston and Galveston; and were the Texas and New Orleans railread completed, connecting San Antonio year ago on a rag money platform, when with New Orleans and all the Southern the republican party was not too firmly and Eastern ports, and States; were these and Eastern ports, and States, were these connections made, the glamour surrounding the Tem Scott scheme, and which has blinded the uyes of both Congress and the Texas Legislature, would suddenly be removed. Then we should soon, consect Austin with Waco and Dallas; and then, going Westward, we should such that Southern Pacific railroad of California at El Paso, and we should push the International railroad toward Levedo, and from thence toward the City of Mexico, gathersee toward the City of Mexico, gather ing an immense trade as they go, in both directions. The quiet and unobtrusive manner which this work has been steadily carried forward, and the absolute certainty of its early completion, may lead the uninitiated to conclude that the work has been healify and cheaply done, and, as has been removed abroad, that the jub is to be a more piece of patch work, sufficient only to speet the requirements of legislative demands.

There could be no greater mistake. Everything pertaining to its construction including magnificent iron draw-bridges and especies rolling clock, is in all respects first-class, comparing in every particular favorably with any railroad in the little. Inflation in its madness, like secession in its madness, does not hesitate to threaten sectional strife if its heresies and fancied personal rights are disregarded. Mr. Allen will not probably help his chances of a nomination -if in deed, he ever lend any-by his expressions of contempt for the East, which he describes as "an ornamental fringe hanging on the edge of the West," and it contract for cross ties and the in. as "a pygmy bullying a giant." Let us hope that there is no real sentiment of hostility to the rest of the Union in the breast even of an inflationist, and that while the Western rag baby republicans want Morton and the Western rag baby democrats stry for "Old Bill Allen or a bolt," they will all be willing to consult with their brethren of other sections of the Union in their national conventions, and to support such candidates as the united good sense of the parties may select for the

> MINUTE MEN, -The Gonzales Inquirer Index says that Dick McCoy, and his minute men, are making things preity warm for certain parties in the neigh-borhood of Raucho. It has been known for a long time that there were certain individuals living in that neighborhood who not only sympathized with mur-derers and thieves, but actually harbored them, which makes them in law equally: guilty with the offender. McCoy took renty five of his men and went are and called on these gautry and gave then notice that their room was wanted, and that they must hunt homes elsewhere, and if they did not take heed in tim what they might expect. It is presumed from these faces, that there will be an exolusioon of all that class from the vicinity of Bancho, and when they do start, it is to be hoped that they will not stop this aide of the Mie Grande.

Demografs of the independent patriotic class, seem to approve of the recent edi-torial in the Expuse recommending Hon, John Hancock for nomination to the Presidency by the National Democratic Convention at St. Louis, Some of the oliticians of that party seem to deprecate the proposal of Judge Hancock's name for that high position. We have only to say that the Democratic party may go farther and fare werse than in the nomination of John Hancock. His name, we are fully persuaded, would develop astonishing strength. He had a national reputation before, but since the unjust treatment he received at the election for United States Senator, in consequence of his having been a Union was afteen years ago, not-withstanding the wishes of the Democratic leaders of the nationl, his name has become more noted and influental than the hunkers and barnburners in New ever before. FACTS BY WHICH DECIDE

In those spacious but insignificant advertisements of C, Pratt & Co., they endeavor to convince the public that our STAR OIL and PEERLESS are identically the same, which they know, even better than we could ever attempt to convince them. IS NOT THE CASE. Poerless is by no means one of the inferior grades of oil; it is every respect equal and fully up to the actual standard (not the advocated) of Astai, and is like the latter 12 degress below the burning point of our STAR OIL. Now we propose to Furnish the Poerless, guaranteed equivalent in every respect to Astral, at One Dellar a case less than our STAR OIL, which we sell at the price of Astral, although our STAR OIL is 12 degrees better, hence safer, and consequently has the preference of the consuming public.

Our certificates, formerly published, (originals of which can be seen at our office) from our local, disinterested chemists, Mosars, Geo. II. Kalteyer. A. Nette ar (E. Dreiss, who tested both oils, and declare our Star Oil
