At halftime, the football king and queen will be crowned.

Candidates for queen are Tammy Davis, senior, daughter of Mr. and Mrs. T.D. Davis; Christie Feagley, freshman, daughter of Mr. and Mrs. Jack Feagley; Sandy Feagley, junior, daughter of Mr. and Mrs. Jack Feagley and Sheryl Waltrip, freshman, daughter of Mr. and Mrs. Dean Waltrip.

With the new Jaycee-guest contest underway, three guests' attended the meeting, giving the Jaycee-host the opportunity to play the Jaycee dart game.

PUMPKINS HERALD HARVEST SEASON--W.H. Lee, who has operated a vegetable stand at Progress for the past 21 years, notes that pumpkins are beginning to arrive, heralding the approach of the harvesting season. JUDY BROCKMAN Brockman Wins First In Contest

Last week, first place winner Phil Brockman was 'knocked out of the saddle' on a recheck of the football scores and Anne Taylor was determined to be the actual winner. Brockman dropped to second place in the popular contest.

This week, the scores have already been double checked, and the winner determined. First place winner for this is Judy Brockman, wife of Phil Brockman. Showing up for the first time this year in the winner's column, Judy missed four games, including both the tie games and was 26 points away on the double tiebreaker.

A tie marked second place. Consistent with the two tie games that showed up on the contest, including one of the tiebreaker games, both the winners of second place missed four games, but were 41 points off the tiebreaker. Tying for second were Mike Perez and LaWayne Williams.

A faithful entrant for many years, C.O. 'Dutch' LaRue of Dimmitt was third place winner. Dutch

of the local option one-percent sales tax set a record in the tax's 11 year history.

Bullock said more than 900 cities shared in \$124.2 million during July, August and September -- passing the state's previous high three-month allocation in the final quarter of 1978 by more than \$6 million.

Bullock also announced that his office was sending September sales tax rebate checks totaling \$73.4 million.

"This month's allocations are just under the record payments of \$74.9 million made in December of 1978," Bullock added.

"I think the state's strong economy and our ability to rapidly process tax returns helped to produce these peak rebates."

For September, Muleshoe received a check for \$19,227.99 to bring the year total to \$107,588.30. Last year at this time, Muleshoe had received a check for \$22,512.07, and the total for the year to date was \$102,390.35, for a five percent increase for the year.

Plans are being formed for the October 8-10 Arthritis Victory March, and committees and team captains will provide the "People Power" to make this drive a success, according to workers with the planned drive.

The Victory March will be directed by the Finance committee composed of Terry Young, Marilyn Cox, Sharon Montgomery, Judy Watson and Elaine Damron.

The Publicity committee spokesman said, "Perhaps the biggest job of all in bringing the drive to a successful conclusion will be in the hands of the team captains who will be responsible for the actual collection of donations."

Team captains include Jerri Wagnon, Donna Black, Iva Noble, Margaret Hamilton, Johnny St. Clair, Wilma Waddle, Mary Nell Bleeker, Martha McCormick, Judy Watson, Judy Lambert, Sandi Chitwood, Mary Sweatman, Jan Crawford, Sherry Barrett, Kenneth Powell, Elvay Simnacher, Dorothy Bogard, Kay Kindle, Georgia Pena, Reagan Cox, Rowena Meyers, Tona Simnacher and Sylvia Warren.

Store Celebrating Fiftieth Year Here

In September, 1929, W.L. Koen, who had operated a drug store at Olton, moved the drug store to Muleshoe and opened under the same name as the Olton firm, Western Drug.

He initially opened the store in the Gupton building, in the location of the

former Gupton Cafe. He was joined in the business by Julian Lenuu.

Early editions of the Muleshoe Journal said the Western Drug Company would carry a complete line of drugs and drug sundries, and would have a prescription department.

The drug store was later

joined by Harry and Wilma Waddle, who purchased the store and continued the operation as Western Drug.

They moved to a location on the corner of Main Street and Ave. B. then moved to a location where they presently conduct the same business.

Little Mules Are Unbeaten This Season

Muleshoe's ninth grade football team remains unbeaten with a 3-0 record following last Thursday's 7-2 win over Tullia. This win goes with two straight victories over Portales to give the Little Mules their unblemished record for the season.

Last Thursday's action saw a second quarter drive of some 70 yards for the lone Mule touchdown. Hector Orozco and Raul Garcia provided key runs to set up a 4th and 10 touchdown pass from Sammy Gonzales to Mike Isaac. The extra point kick from Tyrry Vandiver was true to give the Mules a 7-0 halftime lead.

The second half kickoff provided the Hornets with a safety for their only points of the game. After the safety, the Mules played tough defense to hold on to the 7-2 victory.

Playing tough on defense for the Mules were Johnny Campos, Zeke Contreras, John Wuerflein, Perry Flowers, Mike Pugh, Hector Orozco, Raul Garcia, Winston Allen, Chubby Ramos, Rene Reyes, David Pruitt and Mike Isaac.

Tonight the Mules put their record on the line again by hosting Lubbock Christian J.V. starting at 5 p.m.

Little Mule Coach Brandon said, "We invite everyone out to watch these Young Mules play."

Late-Planted Cotton Maturing Slowly Now

Although cotton has started maturing and bolls opening in Bailey County, the maturity is not general yet, explained Bailey county Extension Agent Spencer Tanksley.

He said he estimates some five percent of the cotton is beginning to open now, and reminded that all cotton crops are late this year.

Tanksley explained that cotton will need an additional 30 days of warm to hot days to fully mature, but predicted that good, warm weather during the next 30 days will boost the potential and good crops can be expected.

"Cotton is burning up good now," he added, "and the very hot fall days are helping to mature the crops, which have been going to stalks and leaves. The cotton needs time, and the very hot days are giving the crop a chance to mature."

The county agent said that even the crops that escaped the severe hail damage early in the season need the boost of the continued warmer weather.

Deadline Near For Application For '78 Loans

October 17, 1979 will be the final date for making application for a 1978 emergency loss loan through the Bailey County Farmers Home Administration, according to John C. Kennedy, the agency's local supervisor.

Kennedy said farmers who suffered as much as a 20 percent production loss in 1978 can still apply for a loan until the close of business on October 17.

Applications can be obtained at the Muleshoe office located at 111 East Avenue D.

Youth Disco Slated

Beta Sigma Phi Sorority will sponsor a disco for high school students and their dates on Saturday, September 29, from 8:30 - 12:30 at the Bailey County Exhibition Center and Coliseum.

Music will be provided by KSEL Radio-Lubbock personnel. Admission will be \$3 for couples and \$2 for singles. A concession stand will also be provided, according to Sandy Chitwood, publicity chairman.

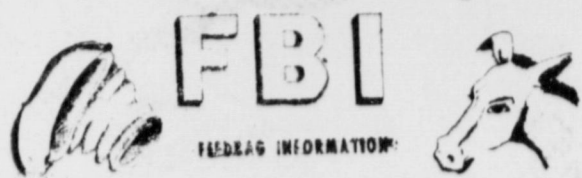

In a meeting this week with representatives of YAC (Muleshoe Area Youth Activities Committee Inc.), Beta Sigma Phi expressed an interest in sponsoring future youth activities and being of assistance in any area that will further youth work in the Muleshoe area, according to Barbara Finney and Sandy Chitwood of Beta Sigma Phi.

On behalf of YAC, Keith Pate, president, said he welcomed the support of Beta Sigma Phi and would like to solicit the support of any area organization with the coordinated youth activity programs which began approximately one year ago by the volunteer YAC committee.

SEALCOATING AND REPAIRS--Workmen from Jake Diel Dirt Moving and Paving have started some sealcoating and repairing of streets in Muleshoe during the past several days. The operation follows complaints from residents who said paving operations were insufficient in several areas of the city. EDDY NICHOLSON

Eddy Nicholson Will Speak At Trinity Baptist

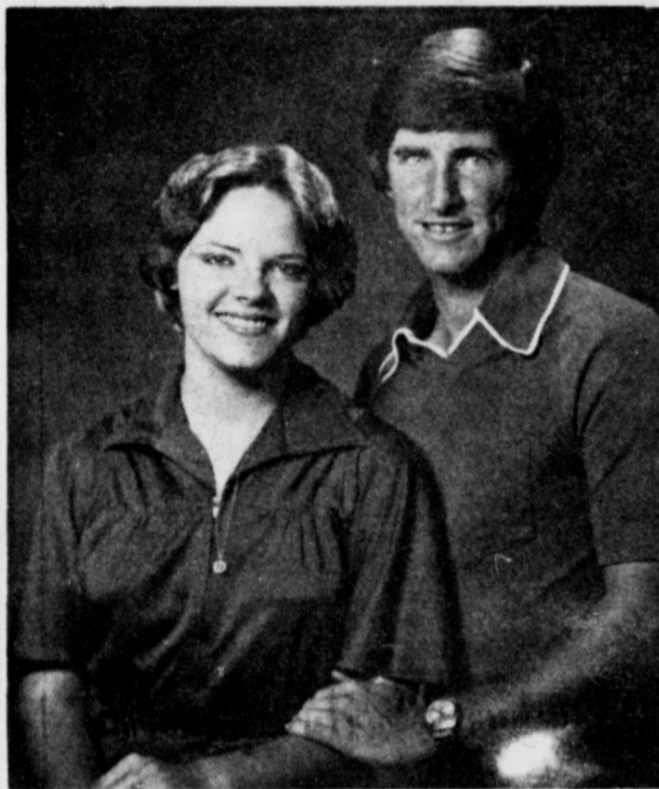

It is said that Eddy Nicholson, better known as America's Rocking Chair

Philosopher, is a Christian humorist and entertainer. He mixed southern fried humor, old fashion fun and music in such a way that he has produced one of the most enjoyable, non-fat-tening programs to be found anywhere.

Nicholson will be the morning speaker for the Trinity Baptist Church Sunday, September 30.

He speaks constantly for Trade Associations, Chambers of Commerce and Civic organizations. He has the same California agent as Art Linkletter, Debbie and Pat Boone, Dale Evans and Roy Rogers, B.J. Thomas, Norma Zimmer and other top performers.

Nicholson wears Bib Mac Overalls, flour sack shirt and sits in a rocking chair during his performances. And the country philosopher spares no punches in showing his audiences how to really enjoy life—the old time American way.

NOVEMBER VOWS PLANNED: Mr. and Mrs. Don Harmon of Muleshoe and Mr. and Mrs. Elroy Templeton of Lubbock wish to announce the engagement approaching marriage of their children, Connie Lynn Harmon and Robby Templeton. The couple will be united in a double ring ceremony on November 17 in the Muleshoe Church of Christ. The bride-elect is a 1978 graduate of Muleshoe High School and is attending Lubbock Christian College. She is employed at First Federal Savings & Loan in Lubbock. The prospective bridegroom is employed at Southwestern Public Service. The couple will make their home at Lubbock.

Former Muleshoe Residents Named Farm Family of Year

Jimmy and Jaqueta White, Kristi, Kathy and Kyle of Fort Towson, Okla., formerly of Muleshoe, were recently named "Choctaw County Farm Family of 1979" as a result of the work they've done since they moved four years ago. They were selected for the honor by the Agriculture Committee of the Choctaw County Chamber of Commerce and by the County committee of the U.S. Department of Agriculture.

When the Whites sold

their farm near Muleshoe, they bought a mobile home and moved it to their new Oklahoma farm where they lived until their new brick home was completed. White did much of the work since he had once been a carpenter.

His father, L.R. White of Friona went to Oklahoma to help with the project and his mother and father-in-law, Mr. and Mrs. Virgil Nowell, also lent a hand.

Mrs. White is known about Fort Towson for her cake decorating, which she

does commercially. She also sews, paints and works in the family garden.

The girls are busy from daylight 'til dark. They in addition to joining their parents with the customary farm chores, sew, paint, and play musical instruments. Kristi, who won first place in county 4-H sewing competition year before last, plays the piano, violin and guitar. Kathi plays the violin, a skill she learned by taking

private lessons in Paris.

The youngest member of the family, Kyle, three, spends much of his time playing cowboy and napping.

Although most days are filled, White still finds time to serve as a member of the Fort Towson School Board. Mrs. White is a member of the Fort Towson Parent Teacher Association and is a Cancer Crusade worker.

The Whites also teaches the Couples' Sunday

School Class at the First Baptist Church in Hugo.

The Whites have won other awards for their farming and ranching operations. He was once named Jaycee Farmer of the Year by the Muleshoe Jaycees and was selected Soil Conservation Farmer

of the Year by the U.S. Soil Conservation Service, District 9. Mrs. White also shared the honors by being named district Home-maker by the SCS.

coffman's children.

Pictures were displayed of the highlights in Coffman's life.

Attending were his children, Mr. and Mrs. Harvey Coffman, Keitha of Garden City; Mr. and Mrs. Wendell Speck, Sandra of Muleshoe; and Mr. and Mrs. Micky Rundell, Raylyn, Robby and Rhyn of Ackerly; also his sister-in-law, Mrs. Pruda Coffman of Morton; his grandchildren, Mr. and Mrs. Wayne Leverett, Jason and Rick of Odess;

instances, some corn could be salvaged from the late afternoon storm, so no corn was considered a total loss.

Tanksley explained that it is crucial at this point for producers to be alert for possible bollworm infestations in crops. He said heavy bollworms have been reported in counties immediately to the east of Bailey County and some bollworms have been found in this county.

He said the lower temperatures as bolls mature will cut the activity and will reduce the damage bollworms can do to the crop.

He stressed that a control measure will be hard to

justify at this time, and said that if the producer becomes very concerned about a possible infestation they should come into the extension office and obtain an insect guide for bollworms.

In other farm-related activity, Tanksley said farmers are getting equipment ready for harvest.

He spoke some of the excellent fields of dryland maize and said winter wheat is beginning to suffer, from lack of moisture. Irrigated wheat is progressing very well, he said, although the dryland wheat would benefit at this time from approximately an inch of moisture.

Wheat that has been planted during the last three weeks needs additional moisture as it is not getting a good stand at this time, he added.

FIELDS OF GRAIN--Maturing late in September are fields of grain as depicted by the large heads of maize. Dryland crops are beginning to mature, although more time will be needed for irrigated crops.

He also missed four games, and was 43 points off on the double tie-breaker.

Barely out of the contest was James Whitson who missed four games and was 45 points away and Jerry Roddam and Randee Buchenau both persons missing four games was Frank Jesko, who had a tiebreaker score of 56.

This week, we had another two contestants who did not put predicted scores in the tiebreakers. Please be reminded that the tiebreaker score is mandatory and the entry cannot count without the predicted scores, such as 20-18; 7-0, or whatever you choose.

Water Depth Studies Scheduled For Area

An intensive survey of water wells in the High Plains area will begin in October, conducted by personnel of the Texas Department of Water Resources, according to a TDWR spokesman. He said purpose of the survey will be to obtain measurements on the depth of water in the aquifer from land surface, with one measurement for every 10 square miles.

The survey is a part of a multi-state study to evaluate the vast Ogallala Aquifer.

TDWR personnel will work in the field gathering and recording depth-to-depth measurements from wells included in a statewide network of observation wells, and will also attempt to obtain additional measurements from wells not in the network. Measurements are made by lowering a steel tape down the well's casing until it is in contact with the water in the well, observing and recording the depth to the water, and retrieving the tape. The process requires only a few minutes and care is taken not to disturb anything in or around the well, explained the spokesman.

According to the spokesman, the department has received warm cooperation from the many well owners throughout the High Plains in its effort to document changes in water levels through its annual measurement program in the statewide network of observation wells, and is seeking and confident of receiving the same cooperation from well owners whose wells are not in the network but who

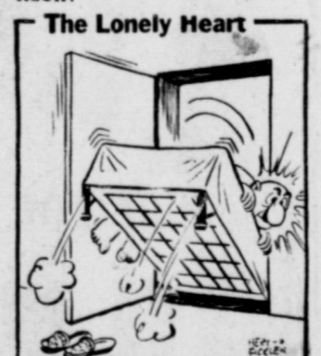

will be visited during the coming fall and winter months.

Cooperating in the program are the High Plains Underground Water Conservation District No. 1, in Lubbock, the North Plains Ground Water Conservation District No. 2 in Dumas, and the Panhandle Ground Water Conservation District No. 3 in White Deer. Each district will be responsible for measuring wells in its area.

Counties included in the study area are local and area counties, Castro, Cochran, Deaf Smith, Hale, Lamb, Parmer and many others to conclude the current water depth in the aquifer.

TDWR spokesmen said they appreciate the cooperation of the land owner and water user when they make the surveys.

One of the peculiar things about truth in general is that it requires very little argument to support itself.

The Sandhills Philosopher

Editor's note: The Sandhills Philosopher on his Johnson grass farm on Sandy Creek this week discusses oil or rock bands, one or the other.

Dear editor: There are two main reasons why the nations of the world can't get along. (1) They don't understand one another, and (2) they do understand one another.

The first of the two is what interests me this week, after I read that Iran's oil chief said the other day.

As we know, whether we understand it or not, the United States has sold 47 million dollars worth of scarce kerosene and heating oil to Iran, a country sitting on top of one of the World's biggest oil deposits.

A lot of people started hollering about this, despite the fact Washington pointed out it was an emergency situation and made sense, considering that Iran sells us 850,000 barrels of oil a day.

When the hollering reached the U.S. Senate, the oil chief of Iran said it ought to stop, or Iran might cancel the purchase and buy its kerosene some place else.

"I recommend to the U.S. Senators that they stop this criticizing," he warned.

This is the king of lack of understanding between nations I'm talking about.

Trying to get the U.S. Senate to stop talking about anything shows an utter lack of understanding of the U.S. Senate. It's as uncomprehending as our trying to send a

rock band to play for the Ayatollah, who has banned phonograph records in Iran on the grounds that music dulls the mind. His oil chief, following suit, may have been thinking that Senate oratory also dulls the mind, but I don't know enough about the Iranian mind to go into this.

I seriously doubt however that rock music does dull the mind. Something else does it. There's no rock band in the U.S. Senate.

Yours faithfully,
J.A.

The Speaker Reports

by Bill Clayton

AUSTIN—In response to undeniable needs, the 66th Legislature has passed sev-

eral bills dealing with child abuse and child care. H.B. 43 changes the definition of sexual contact to include the touching of the breast of any male or female. It is known that child molesters often abuse children of both sexes and that the former age limit hindered convictions on certain cases when the children involved were less than 10 years old.

Though we do not even like to speak of such matters, I believe we must speak about them in order that we can "speak out against them."

Two other bills, H.B. 1741 and 1742, expand and re-define what is obscene; provide stiff penalties for wholesale promoting and possession of obscene materials and for those who produce, present or direct obscene performances; and make it an offense to employ, authorize or induce a child younger than 17 to engage in a sexual performance or to produce, direct or promote an obscene performance by a child.

S.B. 394 amends previous statutes to include bodily injury to a child. Thus, in child abuse cases, the abuser could be guilty of

causing bodily injury to a child though the child might not have suffered what is narrowly defined as serious bodily injury.

H.B. 1375 creates the offense of harboring a runaway. Under this law it is illegal for an adult to knowingly house a runaway child.

There are two other significant bills which will enable parents and the state to provide better care for children. S.B. 172 allows both parents to be appointed managing conservators of the children in a suit affecting the parent-child relationship. S.B. 270 requires that children who are placed under the care and custody of the Texas Department of Human Resources must be periodically reviewed by the court in order to prevent them from becoming lost in the system.

The aim of all these bills is to see that those children who are in unfortunate circumstances, such as child abuse, child neglect, divorce, etc., are given new protection, better defense, and the best arrangements that can be provided.

Health group urges restriction of birth defect kits.

Mining engineering degree program is a first in Texas

COLLEGE STATION — Texas A&M has started the state's first mining engineering degree program.

Initiated in response to industry needs, the new program comes at a time when Texas is looking to its lignite and uranium deposits to help meet energy demands.

"The increasing demand for energy will require us to utilize all of our oil, gas, lignite and uranium," said Dr. Douglas Von Gonten, head of the Petroleum Engineering Department at Texas A&M University which is offering the new program.

Michigan State Continues To Roll

It seems as though the guys in the black hats figured that if both Michigan and Purdue failed in their missions to knock off Notre Dame, they'd still have Michigan State in reserve to do the job. Well, the Spartans aren't really needed as the Boiler-makers were successful; beating the Irish in a thriller last week, 28-22. However, Michigan State is undefeated and still ready to do its job. We felt at the start of the season that if Notre Dame could win their first three games - almost an impossibility - they'd be in a commanding position to challenge anyone for the national championship. Though they'll have the home field advantage Saturday, the Irish look to be one and two against the Big Ten to start 1979. Michigan State by two.

In an intersectional encounter, Penn State travels west to invade Nebraska. Both powers ran into unexpected trouble last week, Nebraska still holding on to beat Iowa by three points and Penn State being upset by Texas A&M. The Cornhuskers hold a four to two edge over the Nittany Lions in regular season meetings, and we think Nebraska will increase its lead. Penn State is a one-point underdog.

do battle with Louisiana State, and U.C.L.A. hosts Ohio State.

The Bruins of U.C.L.A., after dropping a 24-16 decision to Houston in their opener, have beaten both Purdue and Wisconsin. The Buckeyes have won their first three games, but we're making them underdogs in this one. U.C.L.A. will beat Ohio State by seven points.

The Trojans are undefeated through three games, the most recent victim being Minnesota. L.S.U. was a surprise two weeks ago as it squashed Colorado 44-0. However, Southern Cal just looks too tough... the Trojans by ten points.

Two of the three powerhouses in the Pac-10 Conference are involved in outstanding intersectional scraps. Southern California flies to Baton Rouge to

Feeder Cattle Numbers Down

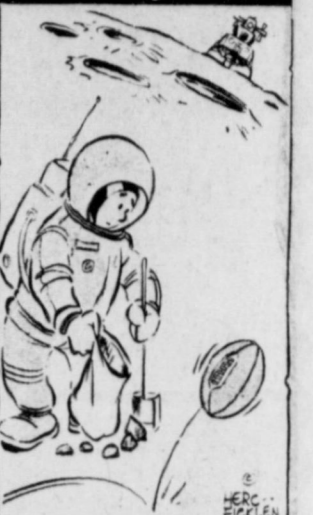

Total U.S. feeder cattle numbers are down about 2.4 million head from a year ago.

"However, the decrease probably won't be large enough to strengthen prices," believes Dr. Edward Uvacek, Jr., livestock marketing specialist with the Texas Agricultural Extension Service, Texas A&M University System. These reduced placements, along with only a one percent reduction in the 1979 calf crop and a sharp reduction in calf slaughter, mean there will be a lot of potential feeder cattle available during the rest of this year, reminds the specialist.

"Cattlemen indicate that this year's calf crop is later than usual. Therefore, calves born in the summer will be added to the total feeder animal supplies

available this fall and winter," Uvacek points out. He adds that feedlot losses have become more common with the lower fed cattle prices. This could further reduce the demand for feeder animals, just when supplies are increasing. "So, cattlemen hoping for stronger prices this fall may be sadly disappointed," says Uvacek.

Letters To The Editor

inside dear editor
Dear Editor:

As a former resident of Texas and Bailey County, I am surprised and disturbed by the reactions of my former statesmen to comments made by Arizona Governor Bruce Babbitt during his recent visit. Because I presently reside in Arizona, and am continually exposed to the Governor's activities, I can provide informed insight into his character, thereby clarifying the significance of his remarks.

The state of Arizona contains a variety of political, economic, and ethnic interests. This diversity forms a "hotbed" of potential criticism, yet Governor Bruce Babbitt remains a highly respected leader, with a reputation for fairness and effectiveness. In his last popular election, for example, he received support from members of both political parties, and widespread endorsement across community lines. Under his administration, Arizona has continued to prosper, attracting a growing population, yet preserving cultural identities.

Negative reaction to Governor Babbitt's remarks appears to be based upon his presentation of historical events, and the words he chose to convey them. This represents misdirect-

ed criticism, and is unfortunate because it blinds the public to the Governor's intended message. To quibble over the historical accuracies that occurred at the Alamo is not the issue, and is best reserved for the pages of our textbooks. The point Governor Babbitt was making goes beyond this, and is one of greater significance. His distinct intention was to demonstrate that human sentiments cannot be viewed separately from historical events. This perspective is often ignored by those whose focus is confined to the barren facts. Imagine trying to fully grasp the motivations that inspired the Crusades, the Protestant Re-

formation, or our own American Revolution, by limiting our examination to the dates or outcome of the battles! Our understanding is rendered futile by the narrowness of our knowledge.

It is therefore necessary to maintain a dual perspective to our interpretations - feelings of territorial loss by Mexicans during the War of 1846 represents an expression of their nationalism, admirable termed "Patriotism" in this country. Governor Babbitt was conveying a viewpoint of enlightened understanding that does NOT constitute an attack on the particular groups involved. One wonders, therefore, if the resulting furor is really

a reaction to his selection of the words "gringo plundering." Assuming this is indeed the case, the criticism levied against him is flagrantly nearsighted, since the words only serve as tools to illustrate his broader point. Again, an example of "can't see the forest for the trees".

Fortunately, historical analysis is moving in the direction of understanding the people behind the events. The recent publications concerning the personal traits of our nation's leaders provide evidence of the trend. This clearly relates to the point Governor Babbitt was making when he spoke to his audience in Texas; whether we are interpret-

ing the past, or seeking solutions to current problems, total understanding is only achieved when human emotions remain unseparated from factual events.

I hope the people of Texas will extend the same warm feelings to Governor Bruce Babbitt that he received throughout his home state.

Sincerely,
Bobby Raymond

Gas rationing predicted soon

AUSTIN, Texas (Sp1) - A University of Texas expert on energy resources has a dire prediction for America's gas-guzzling way of life: Permanent gasoline rationing two years from now.

That outlook is voiced by Dr. Samuel P. Ellison, who says the energy crisis is here to stay because current energy resources are finite and nonrenewable.

"The 10 gallons of gas you put in your car last week are gone - forever," the UT geologist says.

Among his suggestions for coping with the crisis are developing alternative energy sources (such as solar energy, which is renewable), conserving existing energy and controlling world population.
