The latest from Mexico indicates that the elections are going in favor of Diaz, who is urged to basten his return to the capital, as the Govern. ment is in danger of going to pieces, owing to the dissensions in the Cabinet. Business is iu a worse condition than ever and failures are numerous. Some foreigners who favored the Diaz revolution have have just received a large, new stock, failed, and the new revolution against Diaz is encouraged by capalists who made money by loans to the revolutionists at excessive interests. Escanlante loaned Diaz \$200,000 towards the payment of \$300,000 to Do United States with incoming dates as security, receiveing \$25,000 interest for sixty days. CONSECRATION SERVICES .- Bishop Ma- night, which will be the last appearance performed the arrives known as of the troops in this city. Let every one remember this and give her a hearty and "blessing the bells" at St. Joseph's church on Sanday evening. The Rev. -The momentous question now is, how shall we accommodate our excursion visi-tors on the 19th f Why string them on cote along the top of the Menger and Vance, so by night they can get the full benefit of the zephyra, for which Western Texas is faimed, and at the same time study the astrology of our heavens. Such a strole up here, however, we fear, would not be appreciated by our sea side friends nor would it increase our immigration prospects. May be the Herald man can fertilize something better.

- Some of the costumes at the mas querade Saturday night were gotten up most admirably. The Convicte, it was hard to believe, had not served a term at Huntaville. The Pickpocket, successfully showed his aptness in his profession. He "picked" two watches and other pieces of jewelry with the ease of an old hand These things look suspicious, gentlemen. You should all have been sent to Galves ton. You would have made no small part of the Mardi Gras.

- There is need of a Bergh in Galves ton, according to the News. They are in the habit of treating fowls most cruelly that are brought to market there. Bergh is needed at other places in the State besides Galveston, and for cruelty to other dumb creatures besides chickens. He would find plenty to do, if he paid a visit to this city. It will be a good thing when we have a law and that law carried out, severely punishing cruelty to animals.

THE EXCURSIONISTS.—The train bearing about one hundred f our citizens FOR RENT - A Carriage House and to witnes the Galveston Mardi Gras, got off duly at 6 a. m. Sunday morning. Several, however, missed going, on ac count of the heavy suppers they ate the night before, which caused them to over sleep themselves. They followed yesterday, and will arrive in time. The Mardi Gras train consisted of two passenger coaches and a baggage car. The train arrived in Galveston, without ac

cident, the same evening. Let not our visitors who have rece come to San Antonio become disgusted because of the present wat meather. It is a disappointment to them, we will allow But it is a matter of absolute need to us. The great drawback to this country has always been the insufficiency of the rain fall, and what to them is a nuisance, to the country is a blessing. The past fall and the present winter to within the past three weeks has been an exceedingly dry one, so much so as to cause apprehension Bright sunshine is to us a pleasure, given with an open hand. We are thankful therefore when the country is rejuiced by such a glorious rain as we have had. We see the promise of full garners for the farmer, and of luxuriant grasses for the stockmen. We then can well afford to endure what is to us personally so disagrecable when we know it is pregnant

The Express will heartily second any honest endeavor to secure water works for the city, and believes the subject can not be brought up for consideration any

It is now generally admitted by hones physicians, that when once the consump tion is fairly fastened upon the lungs, no human power can save the patient from death.
