VOL. 55 Published Every Friday Morning at Sterling City, Texas. "Since 1890." Friday, Feb. 9, 1945. No. 6

OUR MEN IN SERVICE

Lt. R. D. Garrett writes from somewhere in France that the going is plenty tough. Sleeping is accomplished, if at all, in foxholes, and the GI is lucky who can manage for a load of hay for bedding, he says. He has two brothers in the service. S-Sgt. R. W. Garrett is in the Aleutians and Lt. A. K. Garrett is stationed at Midland as an instructor, having completed 50 missions overseas.

F-O LOUIS J. BLANEK

Wings to Louis J. Blaneck

Another class of combat pilots was graduated last week from the Aloe Army Air Field in an impressive ceremony similar to that being enacted at other advanced pilot training schools throughout the vast AAF Training Command. Among the graduates was Flight Officer Louis Blaneck, son of Mr. and Mrs. Joseph L. Blaneck of Sterling City. Prior to entering the service, the young flying officer attended the College of Mines, El Paso.

At Aloe these young pilots received the finishing touches in their aerial education. Here they mastered intricate ground school subjects, absorbed needed military training, and spent many hours in the famed AT-6 Texan trainer learning the fundamentals of instrument, formation, night, and combat flying.

Flight Officer Blaneck finished school here in 1942. He joined the Air Corps in June, 1943. At various times he was stationed at Sheppard Field, Shawnee, Okla. C. T. D., San Antonio, El Reno, Okla., Garden City, Kansas, and Aloe Army Air Field, Victoria, Texas.

PVT. WILLIAM T. MILLS

Mills Awarded Purple Heart

Pvt. William T. Mills, who was awarded the Purple Heart for losing his left hand in Germany on November 19, is now in Bushnell Hospital in Utah. He will undergo another operation on his left arm at the hospital. Pvt. Mills in-

Invited to Dallas Conference

The responsibility, and the opportunity, of women in the war will be discussed in a one-day meeting of representatives of the 36 national women's organizations comprising the Advisory Council to the Women's Interests Section, War Department Bureau of Public Relations, Friday, February 9, at the Dallas Power and Light company auditorium. The Eighth Service Command is host to the meeting.

Miss Ethel Foster of Sterling City has been invited as a representative of the General Federation of Women's Clubs.

The conference has been called by the War Department for the purpose of discussing with local leaders of organizations representing more than 15 million women throughout the country matters of interest to wives, mothers, and friends of service men and women.

formed his wife that he will be home on furlough next week.

Seaman 2-c Warren Eugene Carr, son of Mr. and Mrs. Gene Carr of Garden City, recently left the States for the Pacific.

Pvt. Harry Gann, Marine has arrived safely overseas, according to word received by his parents, Mr. and Mrs. George Gann of the U Ranch.

Lt. Jimmie D. Hall, who recently underwent an operation in the Hawaiian Islands, is now in the Philippines. He wrote that he and Bubba Foster often see other in Philippines.

Mr. and Mrs. W. D. Augustine have received an APO number for their son, Pvt. Tommie Augustine, who was stationed at Fort Ord, Calif. He was formerly at Camp Hood.

Pfc. Garland Cannon, who was in the hospital on Guam, has been released, it was learned here. He is with the Marine Corps and saw action in the Philippines.

Sgt. and Mrs. Paul Sammons and Sgt. James Gaillaume from the Pecos Army Air Field spent last week-end here visiting the Will Atkinsons. Mrs. Sammons and Miss Mildred Atkinson were college classmates and graduated from T. S. C. W., Denton, Texas.

Barney L. Echols, Sgt. in the First Cavalry Division that has been fighting toward and in the Philippines, is now in a rest camp. He wrote George McEntire that the mail caught up with him and he had 14 cartons of chewing tobacco from George. Barney used to work on McEntire's U Ranch.

Sgt. Forest Smith recently returned from the Aleutians. Forest, a mess sergeant, has been in charge of the mess hall for 4,000 troops.

Capt. Joel R. Barton, Jr. and Sgt. John T. Rotan, Jr. are visiting at the J. R. Barton ranch. They are from the AAF at Santa Ana, California.

Question Box

THIS WEEK'S QUESTION: "Where Do You Think the Big 3 (Roosevelt, Stalin, and Churchill) Are Meeting?"

(Note — These questions were asked on Monday and Tuesday. See who the good guessers are).

S. M. BAILEY: "Turkey."

RUFUS FOSTER: "Not too far from Stalin's headquarters."

H. M. CARTER: "Paris."

A. T. BRATTON: "I wouldn't be saying."

J. M. STARR: "Teheran."

CLYDE DAVIS: "I'd say that they're meeting in Moscow. Next week in Berlin."

GEO. H. McENTIRE: "Cairo."

FRED HODGES: "Somewhere in southern Russia."

W. M. McDONALD: "You kinda got me there. From what I've heard over the radio, it might be some place in Russia."

MRS. W. P. MEYER: "I believe they're meeting in France."

C. L. COULSON: "Broome, I imagine."

LOUIS J. BLANEK: "I just wouldn't know. I would be afraid to guess."

"Wilson" Film To Show Here

Darryl F. Zanuck's Technicolor production of "Wilson" is being shown February 21 and 22.

Subject of controversy when it was made—when international cooperation was an issue in political campaigning—the picture has drawn unanimous attention and praise among movie critics.

Basically the picture is the story of President Woodrow Wilson, who is played by Alexander Knox.

Tax Collections Almost 100%

Almost 100% of 1944 taxes have been paid in Sterling County. The actual percentage is 99.27 per cent, according to records in the tax assessor-collector's office. Most of the remaining taxes will be paid by July—before they become delinquent, said Hinton Emery, deputy.

413 POLL TAXES

There were 413 poll taxes paid in Sterling County for 1945, according to the records in the tax assessor-collector's office. Five of these were exemptions.

Notice, Draft Registrants

Affidavit-occupational classifications have been mailed to all registrants enjoying deferred classification, said the clerk of the local board. These affidavits must be properly executed and returned to your local board within five days.

Those failing to do so will likely draw I-A classification and inducted. The board must have the information as shown of affidavit to properly classify each registrant.

Burglaries Cleared Up As Mexicans Arrested

Lions Hear of Post War Cars

W. S. Nichalson of the Texas Company, spoke on "Post War Cars and Fuels" at the Lions Club luncheon Wednesday at the State Hotel.

Flight Officer Louis J. Blaneck, Mr. Nichalson and Mrs. J. Douthit were guests. The prize went to F-O Blaneck.

A. T. Bratton reported that the SAAF picked up the waste paper from the bin Wednesday—approximately 5,000 pounds.

Paralysis Drive Big Success

The campaign to raise funds for the Infantile Paralysis Fund went over better this year than in the past five years combined. The sock supper netted \$247.35 and the Lions Club made it \$250. Mrs. Herman Garlington was chairman of the drive. Others on the committee were Mrs. A. T. Bratton, J. T. Davis, Mrs. E. H. Lovelace, Mrs. L'Jean Gober, Mrs. Faye Brown, Mrs. Riley King, Dr. W. Swann, O. T. Jones, and Miss Mildred Atkinson.

Money raised in the past six years was as follows:

1940 \$21.62, 1941 \$23.76, 1942 \$46.93, 1943 \$42.59, 1944 \$43.75, 1945 \$250.00.

C. B. Stovall Critically Ill

Rev. C. B. Stovall, pastor of the Stanton Baptist Church, formerly of Sterling City, is in a critical condition in the Dallas Baylor Hospital following a spinal operation.

What we can't understand is how nature takes care of things, even though they may happen years and years later. For instance, look how our nose and ears are located just to hold spectacles.

\$6,000 Loot Recovered

This week closes the doors on 25 or 30 burglaries, with the arrest of five Mexicans and recovery of almost \$6,000 worth of loot. Sheriff Vern Davis and the sheriffs of Dawson and Martin Counties completed the investigation and made the arrests Monday. The Mexicans had burglarized places in six counties of this vicinity and had stored the loot or opened second-hand stores.

On January 20 the Dodson home on the Pete Allard place was burglarized of clothes, guns, ammunition, etc. This was practically all recovered and returned to the couple by Davis. Two Dimmitt County Mexicans, Clemento and Francisca Garca have been charged with this burglary. Three other Mexicans have been jailed and several more will be picked up soon.

Sheriff Davis has been busy in the counties north of here, and in and around Uvalde gathering loot and placing the burglars under arrest.

If you had bought a baby bond when they went on sale in sale in March 1935 you could cash them out at full value next month at the bank. They were put on sale at postoffice in March 1935. They are the same as the current "E" War Bonds.

We don't know how many are ready to cash their baby bonds—Hal Knight, Jr. has one that will mature in October. Do you know of earlier ones?

We wish we had bought several of them back in 1935.

Mrs. J. A. Revell is spending this week-end in Seminole, visiting her brother.

Death and taxes are certain; but you feel the effect of death only once.

A New Butterfly Comes to Life

WICHITA, KANSAS — Airwise residents during the past few months have been startled at the sight of a queer-looking airplane with a tail that resembles the half-opened wings of a butterfly. It flies without either horizontal or vertical tail surfaces and has a V tail with only two elements and so was nicknamed "Butterfly" tail. The unique design originated at the Beech Aircraft Corporation and their purpose in building this experimental unit is to investigate the possibilities of simplified structure, elimination or reduction of compressibility effects at high speeds, simplified controls, and the effect on control, stability and handling ease which may be offered by such a radical departure from conventional construction. The airplane is a modified AT-10 Beechcraft plywood transitional trainer, which has been converted to a flying test unit for various advanced ideas. Test pilots state that the "Butterfly" tail renders excellent control and stability characteristics at all speeds.

Notice for County Depository

Notice is hereby given that the Commissioners Court of Sterling County, Texas, at the February Term, A. D. 1945, will receive sealed proposals from any banking corporation, association or any individual banker of Sterling County, Texas, that may desire to be selected as the depository of the funds of such county. All proposals shall be in compliance with Article 2544 to 2558-A, Vernon's Annotated Civil Statutes.

Given under my hand and seal of office this 8th day of January, A. D. 1945.

G. C. MURRELL
 County Judge, Sterling County, Texas.

Raise Some Vegetables You Can't Buy

—Photo Courtesy Ferry-Morse Seed Co.

The only way you can be sure of having certain delicious vegetables for your table is to raise them in your own garden.

Take Swiss chard, for example. Those appetizing greens have been widely grown in Victory Gardens these war years. The reason you don't see them in the markets is because the delicate foliage wilts quickly after picking. To enjoy Swiss chard at its best, you should use it shortly after cutting. The same planting will furnish many a "mess of greens" over a long period if only the outside stalks are out each time, allowing the center leaves to go on growing. (See illustration).

Savoy is a type of cabbage not at all improved by being hauled from place to place . . . the crinkly brittle leaves bruise so easily. By growing a few heads in the garden, you can have this tender, delicately flavored, nearly odorless variety at its finest. It takes no more exertion and care than raising plain cabbage. Chieftain is the variety which has become a universal favorite.

Friends who come to dinner will exclaim over edible pod peas from your garden vines. This is a type of pea which is cooked and eaten like snap beans, pod and all, when the young peas have barely begun to form. The liking for this mouth-watering dish

may have originated in France or Holland. Folks of Dutch ancestry are the ones most familiar with edible pod peas in our own land. Once grown in anyone's garden, they are likely to be on the repeater list year after year.

Do you know that odd shaped vegetable, kohlrabi? Plant a row of it and give the family something out of the ordinary. Although related to cabbage, it is milder and more delicate in flavor. It looks like a turnip growing above ground. Kohlrabi matures quite rapidly and should be eaten when about two inches in diameter.

Anybody can have common cucumber pickles. You can add that extra touch to your list of appetizers by raising West India gherkins. The prickly little oval fruits, picked when fairly small, make unusually good sweet pickles . . . nearly impossible to get these days for love or money.

Big Spring Campaign

The Big Spring merchants are continuing their campaign to draw to that city trade from this territory that ordinarily goes out of the county. They are suggesting that if you can't find your needs in your home town, try shopping in Big Spring. Not trying to get the business that the home town merchants get, the Big Spring merchants are wanting that trade that of necessity goes to the cities.

Watch Repairing

Al Cade, jeweler and watch-maker, who has his shop at Carlsbad for the past five years, manufactures all kinds of special orders of jewelry, etc. He invites everyone to stop at his shop (located at the side entrance of State Sanatorium) to see samples of his work.

For 1 1/2 years he has supplied Davis Drug with jewelry items and watch repairing. Mr. Cade has 29 years experience in the jewelry and watch repair business.

Mrs. Flem Harris of Brownwood, sister of Mrs. Lee Hunt, is here visiting the Hunts.

Just Patter

Hi, folks—
 Here's our perfect boy. Don't you think so, too?
 He should have eyes like Tommy's, hair like Billy Hudson's personality like Norvin's, ability to play basketball like Norman's, a physique like Bobby King's, a way with the girls like Billy Rusk's, lips like Joe's and a walk like Bobby Edward's.
 Jackie Tweedle was home for the week-end from Schreiner.
 "Ain't love grand!" Well, it looks that way, anyway. You never see Margaret without Jackie and vice versa.
 The volleyball girls are going to Millersview Saturday, and the basketball boys are going to Forsan. Boys and girls we wish you all the luck.

Q and A

Q. What is the world's most powerful X-ray unit?
 A. A 2,000,000-volt industrial machine, making possible speedy radiographic examination of castings and metal structures. Recently perfected, it can inspect steel sections up to 12 inches in thickness in less than an hour, compared to a week with the million-volt tube.
 Q. How many alarms does the fire department of New York City handle each year?
 A. 60,000. The department expedites its service by means of radio communication.
 Q. How much horsepower does the average U. S. factory worker have at his command?
 A. In 1914 he had 3.20, of which 0.56 was in motors driven by purchased energy. Today he has 6.50, of which 3.80 is motor power run on purchased energy. It has been stated that mechanization of the United States has made available six billion man-power, "equivalent to fifty slaves for each man, woman and child."
 Q. What is the trend in lighting costs?
 A. In 1900 artificial light cost 25 to 30 times more than it does now. A century ago it cost a hundred times more. A penny now buys as much light as a dollar did a century ago.
 Q. Who invented the germicidal (germ-killing) lamp?
 A. Dr. Robert James, Detroit, in 1934. It was perfected and placed on the market in 1937.

IF YOU want to get married, write Box 359, Juliatta, Idaho. Send stamp.

What's the matter with the other Haystack?

CATTLE are smart critters, as any livestock man knows. They'll even show you whether your land is properly fertilized!

That cattle can give you the answer to this question has been proved by an experiment reported by Dr. Wm. A. Albrecht of the University of Missouri, which is illustrated here. The cattle were turned loose in a field in which there were two stacks of hay. The grasses were the same species; the curing was the same; they looked and smelled the same. But the cattle ate one stack and never touched the other.

The hay from the stacks was analyzed in a laboratory. Then it was discovered that the stack the cattle liked contained much more calcium and phosphorus—two minerals cattle must have for good health. The good hay came from soil that had been treated with lime and phosphate . . . the poor hay from untreated land.

Minerals essential to both human and animal health come from the soil, are absorbed into plants and so get into the bodies of grazing animals. Human beings, of course, get their supply of minerals from plant foods like fruits, vegetables and cereals, and from foods of animal origin like meats, fish and eggs.

Better soil produces better food, better livestock and healthier people.

\$5 FOR YOUR GOOD IDEAS!

Ideas and special tools or gadgets which have helped you in your farm or ranch work can help others. We will pay you \$5 for each one you send us which we publish on this page. Address Agricultural Good Idea Editor, Swift & Company, Chicago 9, Illinois. We cannot return unused items—sorry!

Oliver Kinzie, Cushing, Oklahoma, 19-year-old president of the Future Farmers of America with his friend and instructor, Dick Fisher (left).

THE EDITOR'S COLUMN

So many important things are happening in the livestock and meat business that it is difficult for an editor to decide which to write about and which to leave out.

Few people realize how much beef, pork, lamb and veal must be set aside by meat packers operating under federal inspection for the armed forces and Lend-Lease. In December, 1944, the Government's set-aside orders called for 60% of the "Choice," "Good" and "Commercial" steer and heifer beef carcasses, excepting extremely light weights; also 60% of "Utility" steer and heifer carcasses of specified weights; also 80% of the "Cutter and Canner" beef. Of the total pork meat produced, excluding lard, approximately 50% has to be set aside. Government priorities on "Good" and "Choice" lambs have averaged from 40 to 50% of the suitable lambs. Priority orders also apply to approximately 50% of the "Choice," "Good" and "Commercial" veal produced within specifications.

Of course, such regulations are necessary in order to insure the proper conduct and winning of the war. Nevertheless, producers and consumers should know of these regulations as a partial explanation of why they are having difficulty in getting the supplies of beef, lamb, pork, and veal which they want.

F.M. Simpson,

Agricultural Research Department

SODA BILL SEZ:

That hens that cackle the loudest are often better at lying than laying.
That he makes the livin', but it's his family that makes livin' worth while.

"The pig that pays" is the "extra" one that lives in an average litter. Baby pig death losses of from 30 to 50 per cent are far too high. They can be greatly reduced.

Cleanliness is the first rule of profitable hog raising. Dirt breeds disease and parasites, so it pays to move young pigs to clean pastures and to keep them away from old pens and yards. Old dry bedding has been known to start dust-pneumonia. Cholera and erysipelas can be prevented by early vaccination, and transfer of diseases from newly purchased hogs can be controlled by a period of isolation.

Observe common-sense rules and your pigs will live and grow. Feed them well and when your hogs are ready, you'll get your "profit" from the extra ones raised in each litter.

WHAT DO YOU KNOW!

- Corn is grown in how many states in the United States?
36 12 48 29
- Two of the thousands of domestic animals originated in the Americas. Which two?
Beef Cattle Turkeys Llamas
Thoroughbred Horses
- What is the average distance meat must be transported to get it from producer to consumer?
530 3000 1050 250 miles

Martha Logan's recipe for
GEORGE WASHINGTON CHERRY PIE

Make pastry using Swift's Bland Lard for shortening to insure flakiness. Roll out and line one-inch-deep pie pan.

The filling is made as follows: 3 cups canned cherries; 1 cup sugar; 2 tbsp. flour or corn starch; 1 tbsp. butter. Combine cherries and dry ingredients and fill pie pan level. Cover with pastry—full crust or lattice of strips. Bake at 425° F. for 10 minutes, then at 350° F. for 35 minutes longer.

"What Do You Know" answers:

- 1) 48; 2) turkeys and llamas; 3) 1050 miles.

Looking Backward

27 Years Ago

Taken from the files of the Sterling City News-Record, February 8, 1918.

Born on January 12, to Mr. and Mrs. Templeton Foster, a boy.

Mrs. George H. McEntire suffered a frost-bitten hand and ear as a result of her car going "dead" in a snow bank and being forced to walk a half-mile in the blizzard recently.

Included on the honor roll for the first term were Roy Glass, Carl Slaton, LeSeur Black, Harold Durham, Durham K. Durham, Marjorie Allen, Mary Tom Allen, Edna Finney, Prebble Durham, Annie Lee Durham, David Glass, and Clyde Reynolds.

Dee Davis has announced himself a candidate for the office of Sheriff and Tax Collector of this County.

Last Sunday night Sterling had a 6-inch snow. So far as can be learned the snow was general over the west and most believe that the great drought is broken.

Your Tires

DESERVE THE VERY BEST . . . HERE IT IS!

THERE IS A BEST METHOD OF DOING EVERYTHING—IN TIRE REPAIRING AND RE-CAPPING IT'S O. K. RUBBER WELDING!

The war is teaching motorists of America the serviceability, reliability and economy of Re-capped tires . . . but re-capping jobs are not all alike. For the best results, your old tire must be in sound condition. The materials used for the job must be the best available. And the work must be right. New developments in rubber welding machinery . . . and just installed in our shop . . . assures you that expert re-capping for your precious tires is available right here at home.

Step in tomorrow and let us inspect and advise you on the condition of your tires.

North Concho River Soil Conservation District News

Board of Supervisors:
 Zach Jones, Chairman
 L. R. Reed, Vice Chairman
 Foster S. Price, Secretary
 J. R. Mims, Supervisor
 J. W. Cox, Supervisor

W. N. and L. R. Reed built two tanks for additional water supply in their north four section pasture. Fifteen road blocks were also built to prevent washing in a pasture road on sloping ground. One diversion was constructed to turn runoff water around an active overall and spread onto adjoining grass land.

Fred Dodson, with the assistance of the Soil Conservation Service Technician, planned an irrigation system on N. H. Reed's 69 acre field south of the ranch headquarters on the North Concho River.

Range and engineering surveys were completed on W. Y. Bengé, Jr.'s ranch in Howard County this week.

George Broome plans to apply kerosene to a measured area of mesquite to determine if this method of eradication is effective and economical.

The Methodist ladies will serve a chicken dinner in the basement of the Methodist Church on February 17. Chicken, dressing, vegetables, dessert and drink will be served for 75c.

H.E. Girls' Bake Sale Feb. 17

The homemaking girls are having a bake sale in the Palace Theatre Saturday morning, February 17, at 10:30 o'clock. Miss Mildred Atkinson, instructor, said the girls would use the proceeds to help pay for a new rug in the homemaking laboratory.

So remember, you can buy a pie or cake from the homemaking girls Saturday, February 17.

Wimodaust Club

The Wimodaust Club met at the home of Mrs. R. P. Brown February 7. 13 members present.

Communications were read by the president of the G. F. W. All members were urged to bring paper and grease.

Mrs. Brown served delicious divinity candy after the club dismissed.

Every Job Requires a Different Kind of Work Shoe—And We Have Them All at Low Anthony Prices.

For nearly a quarter century we've been "lookin' after" the needs of Southwestern working men and their families. We're specialists in good shoes at low prices. Pictured here are a few of the styles you'll find at Anthony's.
