VOLUME 57 PUBLISHED EVERY FRIDAY AT STERLING CITY, TEXAS. "Since 1890" FRIDAY, SEPTEMBER 19, 1947 NO. 38

## PLYMOUTH WELL IS STILL SWABBING WATER

Sulphur water in unreported amount was swabbed Tuesday by Plymouth No. 1 Mrs. Georgia Frost, Sterling County wildcat, after perforating 5 1/2 inch casing between 8,365-70 feet opposite the Ellenburger with 90 shots. No shows of oil or gas were reported.

The next step was unannounced but it was expected swabbing would continue for sometime to determine if the water would exhaust. Some observers believed it likely that more cement would be squeezed behind the pipe.

No. 1 Frost appeared to be an Ellenburger discovery when it flowed high gravity oil naturally on Aug. 24 upon perforating the casing from 8,356-76 feet, and in 12 hours the next day flowed oil naturally at the rate of 7 1/2 barrels hourly. Its flow never was revived after being killed to remove the gun perforator and tester, and oil and water were recovered in swabbing.

The water was believed then likely to be coming from cavernous shale in the Mississippian and cement was squeezed into that section through perforations at 8,210-20 feet in an unsuccessful attempt to exclude the water. The perforations through which the oil flowed were sealed, the casing was reperforated from 8,356-76 feet and 2,000 gallons of acid injected. After No. 1 Frost last week had recovered 110 barrels of oil and 112 barrels of water in swabbing 24 hours, the perforations at 8,356-76 feet were closed in squeezing more cement behind the pipe. Reperforating from 8,365-70 followed.

Later this week Charley Hickox of the Plymouth Company said the company was continuing to swab and try to get rid of all the water.

## Earl Bailey Helping Town's Appearance

The Earl Baileys are really fixing up their part of town in a nice way. They are making a showplace of their neighborhood. First, they remodelled their own two-story home out and out. Then they built one new house and rebuilt four old houses and made rent houses out of them. Earl said they had two more to rebuild a little later on.

They houses that were built and remodelled for renting purposes are the nice kind. They have all the built in features that are to be found, hardwood floors, and

## LIONS CLUB

W. C. Duff and George Blackburn, new members of the Sterling faculty, joined the Sterling City Lions Club at the luncheon this week.

The committee that has been serving on the community center project was asked to stay on the job until the dishes, chairs, etc., were procured. The chairman of the committee, Roland Lowe, said that \$1,000.00 more was needed to finish up the job.

Those who have not yet donated to the project, had better turn in their donation as the plaque bearing the names of the donors will be prepared before long.

Coach G. W. Tillerson told of the Eagles winning the ball game here with Whiteface last Friday night, and of the coming game with Coahoma.

## MRS. CHAPPLE IS SESAME HOSTESS

Beginning the year's program, "Texas", Mrs. H. A. Chapple was hostess to the Sesame Club at a luncheon in the home of Mrs. Ruth Allen on Tuesday of this week.

"To live is not to live for one's self alone; let us help one another" was the thought for the program. The program included the presentation of the yearbooks by Mrs. Herman Garlington; the President's message by Mrs. Ruth Allen; Parliamentary Instructions by Mrs. A. T. Bratton; and a song—"Eyes of Texas", assembly singing with Miss Ethel Foster as accompanist.

Guests included Mrs. Lee Reed, president of the Wimodausis Club, and Mrs. Fowler McEntire.

Members present were Mmes. Allen, Ted Brown, Ralph Bynum, Frank Cole, Lura McClellan, Fred Hodges, H. A. Chapple, A. T. Bratton, George Caste, Kenneth Garms, Riley King, Herman Garlington, and Miss Ethel Foster.

The luncheon committee included Mrs. Frank Cole, Mrs. Ted Brown and Mrs. Herman Garlington.

The next meeting will be on September 23 with Mrs. W. R. Hudson as hostess.

inlaid linoleums. Nothing is left lacking to make the houses desirable and liveable.

It is good for Sterling City that the housing situation is helped as much as it is by the Baileys program, and it would not be amiss for several projects such as this to get underway. Nice rent houses add much to the worth and appearance of a town.

## SWING OF SOUTHWEST FARM MARKETS

By United States Department of Agriculture

U. S. D. A.) — Continued strong trends prevailed at Southwest farm markets last week, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Most hog markets established new all-time high prices in advances ranging from \$1.00 to \$2.25 per hundred pounds. Week's top was \$27.75 at San Antonio, \$29 at Ft. Worth, \$30 at Oklahoma City, \$30.35 at Wichita, and \$31.75 at Denver. Sows and pigs shared the full advance to sell at mostly \$22 to \$28.

Southwest sheep moved at generally steady to stronger prices last week. Medium ewes brought \$7 to \$7.50 at San Antonio, while medium to good aged sheep sold at \$7.50 to \$8.50 at Fort Worth. Best ewes brought \$8 at Oklahoma City, and \$8.50 at Denver. Wichita bought good and choice kinds at \$7.50 to \$8.50.

Cattle closed the week mostly steady to 50 cents higher than a week earlier, but weak spots appeared on calves and low grade stockers. Common to medium calves sold largely from \$13 to \$18.50 at Texas markets. Beef calves brought mostly \$22 down at Oklahoma City and Denver, while Wichita paid \$17 to \$20 for good and choice heavy calves. Stocker and feeder calves sold generally at \$16 to \$22.

Seasonally scarce fresh eggs and poultry sold at firm to higher prices last week. Cold storage eggs supplied most of the market for best grades. Fort Worth and Dallas offered around 55 cents per dozen for best candled white eggs, and 50 for mixed colors. Heavy hens brought mostly 23 to 26 cents per pound.

Grain markets made further sharp gains last week, with even poorer prospects for feed grain crops and more pressing requests from Europe for relief supplies. Sorghums gained around 25 cents per hundred pounds at Fort Worth and Galveston, and sold Friday at \$3.82. Yellow corn rose 10 to 15 cents per bushel to sell at \$2.65 and white corn \$3.00. Wheat advanced 6 to 7 cents to reach \$2.78.

Both rough and milled rice prices dropped back last week from recent record levels. Most feeds advanced sharply, while hay remained firm. Farmer's stock peanuts sold at support prices, and shelled peanuts found little demand at 16 1/2 cents. Texas fall wool sold actively at 40 to 42 cents, 1 to 4 cents more than support levels.

Cotton dropped sharply following the crop report Monday, but climbed back to close Friday only a little lower for the week. Spot sales increased, and demand continued good for Strict Low Middling and above of 7/8 to 31/32 staple.

Potatoes, onions, and cauliflower strengthened last week at Colorado shipping points. Sweet potatoes loaded in Southern Louisiana at lower prices of \$2.60 to \$2.65 per 50 pound crate of U. S. No. 1 Porto Ricans. Light receipts met good demand at New Orleans' wholesale market, where potatoes and peppers sold strong. Kansas City and St. Louis saw rather slow trading on mostly light to moderate supplies. Potatoes, carrots, beans, and tomatoes last found good demand at firm prices.

### COLLINS GETS 22c and 23c FOR CALVES

Claude Collins, local rancher, sold his calves last week to E. D. Webster and sons for 22c for the heifers and 23c for the steers. Included in the sale were the calves from the Mendenhall and Claude Collins, Jr. ranches.

### STERLING P.T.A. HAS FIRST MEETING OF YEAR

The Sterling City P.T.A. met at the school auditorium on Thursday night of last week for the first meeting of the year.

Mrs. H. M. Knight was sponsor of the program. Following the devotional Carolyn Foster played sevian piano numbers. Chesley McDonald spoke on "The More We Get Together."

The executive committee was in charge of the social and refreshments. The social hour was honoring the teachers.

## But It's True

The eagle, banded by a farmer near Stroudsburg, was found seven miles inland in Ireland 11 days later. No one knows why it went to all the trouble. It is known to have lived in Ireland for three years, then disappeared. The flight took place in 1912.

## STERLING EAGLES BEAT WHITEFACE 25 TO 0

The fighting Eagles of Sterling City came back strong in the second half of the opening football game last Friday night to defeat the powerful Whiteface steers.

Sterling City took the ball on the kick-off and made two successive first downs and then Whiteface took over and made two first downs. The teams battled in mid-field the remainder of the first quarter and until the remainder of the second quarter. Sterling City then kept Whiteface in the shadow of their own goal line losing at least three attempts to score. The score at the half was 0-0. Tweedle left the game in the first five minutes with an injured knee and it is doubtful if he will be able to perform this week against Coahoma.

Sterling came back strong in the second half. The kick-off was to Whiteface. They fumbled on their own thirty yard line with Sterling recovering and after two line plays Grosshans caught a pass from Hudson for the first touchdown. Smith made the extra point to make the score 7-0. The second touchdown was a pass, King to Grosshans to make the score 13-0. In the fourth quarter Smith went over from the 5 to make it 19-0. In the last two minutes Hudson passed again to Grosshans to make the final score 25-0.

The Sterling boys and the Whiteface boys were fed by a group of Mothers of Football boys after the game. The Pep Squad girls helped entertain the boys with a dance at the Community Center.

The Whiteface boys spent the night with football boys and Sterling parents. The Whiteface boys left Sterling Saturday morning at 8:30. They said they were better entertained after the game than they had ever been and also that Friday night's loss was the first suffered in three seasons.

Coach Tillerson said this morning that he didn't have a star Friday night, but it was through the efforts of all the boys that they were able to win. Outstanding on offense Friday night was the clever ball handling of Hudson, the line bucking of Leroy Butler, as well as the pass-catching of Grosshans. On defense Baker stood out in the line and the jarring tackles turned in by King and Smith were something to witness.

Programs Friday night were furnished by the Coca-Cola Bottling Co. and Bailey Bros. If you enjoyed them, thank the sponsors.

Some fifteen boys and two coaches will leave Sterling about 12:15 Friday (today) to journey to Coahoma and meet the strong Coahoma Bulldogs. Coach Tillerson said his boys are not in the best of condition for Friday's game, but with the same type of blocking and tackling they had last week, we could win over Coahoma. Game time will be 3:00 p. m.

A host of followers from Sterling is expected to witness the game at Coahoma. The next home game will be Sept. 26 with For-san. Last week's results in this

## Robert Lee Road Paving

It was reported from Austin this week that the highway from Sterling City to Robert Lee had been assured of paving by the State Highway Commission from Sterling City as far as the Edith Community in Coke County. The road was designated as a farm to market road and not a state highway, as had been requested, however.

County Judge G. C. Murrell said the reason that the paving would stop at Edith was the proposed Upper Colorado River Authority dam to be located near Robert Lee. It is not certain just where the dam will be located, so the Highway Commission is playing safe and only paving the road to Edith at this time.

## District President Guest Speaker at Wimodausis Reassembly Tea

Guest speaker at the Wimodausis Club reassembly luncheon Wednesday was Mrs. W. E. Cantrell, president of the Sixth District of Texas, T.F.W.C. She spoke on the seven objectives for this year's work.

Other club members of Sterling City were guests at the affair, which was held in the home of Mrs. Roy Foster, hostess. President Mrs. L. R. Reed made the introductory remarks. Miss Ethel Foster gave highlights from the G.F. W.C. Convention which she had attended. Piano selections were played by Mrs. Ed. H. Lovelace during the program.

Mrs. L. R. Reed poured tea. Tea hostesses were Mmes. S. R. Hefley, W. L. Foster, Jr., L. R. Reed, O. T. Jones, H. D. Glass, N. H. Reed, C. N. Crawford, and J. R. Lane, Jr.

### C. COLLINS WOOL NETS 50c AND 51c THIS WEEK

Claude Collins sold his wool this week with a net to him of 50 and 51c. He received 51c net for the wool from the Claude Collins Hackberry Ranch, 50c net for that from his Merchant Ranch. Also selling was the wool from the Collins and Mendenhall 7-D Ranch for 48.02 net, and the Collins and Mendenhall Lower Ranch 49c net.

The wool was sold through the Western Wool and Mohair Co. in San Angelo. Nelson Johnson bought the wool for Albert A. Schneider, Inc. of Boston.

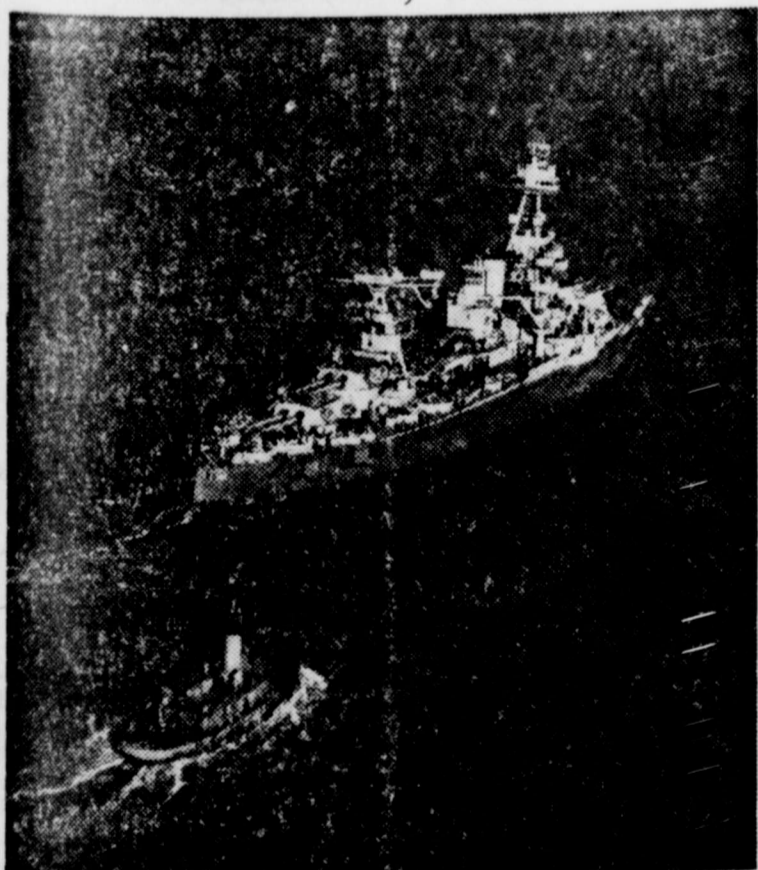

### FOSTER AND DAVIS CALVES SOLD TO ESPY AT \$22 and \$23

Espy & Sons of Fort Davis have purchased the calves from the Foster and J. T. Davis ranches here at \$23 per hundred for the steers and \$22 per hundred for the heifers. The calves, around 2,500 this year, have been bought by the Espys for the past eight years.

The buyers will take delivery on the calves the latter part of October.

district were as follows: Garden City 26, Flower Grove 0 Fort Davis 27, Rankin 14 Coahoma 21, Union 19 For-san 36, Water Valley 0 Sterling City 25, Whiteface 0.

## Come On, Texas!

When action aboard the Battleship Texas reached battle heat, her crew members used to shout, "Come on, Texas!"... which meant: "Let's get in there and fight!" After 35 years of service, through two world wars, she won't fight any more. The Navy has put her on the retired list, and, unless the State of Texas takes action, she goes to the scrap heap. But she won't go to the junk pile, if thousands of Texans can help it. They are already contributing to a \$225,000 goal needed to bring the old battleship to the San Jacinto Battlegrounds, below Houston.

She is seen above, steaming out to open sea, as she was in her glory as a capital ship of the U. S. fleet. To bring her home to Texas, Lloyd Gregory, chairman of the Battleship Texas Commission, urges every Texan to aid the fund-raising campaign which began September 15. All contributions are to be sent to Mr. Allan H. King, Battleship Texas Fund, First National Bank, Houston 1, Texas.

SCRIPTURE: Proverbs 3:5-7; 4:23; 6:16-19; 9:10; 14:34; 15:1; 16:18; 21:3; 22:1; 27:1, 2; 28:1; 29:18; James 4:17.  
DEVOTIONAL READING: Proverbs 16:1-9.

### Guidance From Proverbs

Lesson for September 21, 1947

OUR study of Sunday's lesson centers about the idea of goodness, which is a rather trite-sounding theme, but very vital, I assure you, and quite interesting. The Scripture passages are all found in Proverbs, save one, and that from the very practical preacher of the New Testament, James, chapter 4, verse 17.

Perhaps you will find the passages from Proverbs as helpful and interesting as I did. It will require but two minutes to read them—Proverbs 3:5-7; 4:23; 6:16-19; 9:10; 14:34; 15:1; 16:18; 21:3; 22:1; 27:1, 2; 28:1; 29:18. And after you have devoted two minutes to the reading of these passages, you will have something to think about for the rest of the day, the week, all your life.

#### One Man's Experience

A VERY successful business man in Atlanta, a shoe manufacturer, was telling me his life story one day as we fished together at Homosassa, Fla. Finally, he said: "Do you know the passage in the Bible that has meant most to me as a rule and guide for my faith and practice?"

I wondered what he would say. And then he quoted from Proverbs 3:5-7.

"Trust in the Lord with all thine heart; and lean not unto thine own understanding. In all thy ways acknowledge him, and he shall direct thy paths. Be not wise in thine own eyes; fear the Lord, and depart from evil."

#### The Essence of Goodness

WHAT is goodness? We talk about good men and bad men, good times and bad times, good luck and bad luck. Just what is good-

ness? Jesus himself once said to a young man:

"There is none good but One, that is, God." Mark 10:18.

Goodness then, permit me to suggest, is what happens when God lives in us. We can never know goodness apart from God, try as we may. The essence of goodness, therefore, is found in that heart, in that life, that sincerely prays, "Thy will be done."

#### The Essence of Badness

GUIDANCE from these great Proverbs identifies the things that we are to shun as well as the things we are to do—the essence of badness as well as the essence of goodness. Here are the seven things that God hates—the seven qualities of heart that constitute the essence of badness:

"Haughty eyes, a lying tongue, hands that shed innocent blood, a heart that deliberately plans wickedness, feet which are swift in running to mischief, a false witness who utters lies, and one who sows discord among brethren."

Analyze these seven qualities of heart, and you have the explanation of the woes of the world. Many clever modern books toy with these deadly sins, trying to make them seem good, but no amount of decoration can atone for the heart that consistently entertains these cancers of hell.

#### The Individual and Society

I LIKE the impact of these Proverbs. They begin with the individual. They fruit in society. Individuals who "trust in the Lord with all thine heart," will "exalt a nation." It is not enough to put better food in peoples' stomachs, better clothes on their bodies, better roofs over their heads. These are essential as expressing the better life; but you have got to give people something to live for as well as something to live on.

Good business depends upon good business men. Good international relations depend upon good nations. Good race relations depend upon good races.

We have been greatly enlightened by the establishment of United Nations as a world idea and ideal. Will it succeed? The answer is found not in dollars and bullets, but in hearts that always "trust in the Lord."

"Except the Lord build the house, They labor in vain that build it; Except the Lord keep the city, The watchman waketh but in vain."  
—Psalm 127:1

**"Covering the County"**  
By Byron W. Frierson, Sterling County Agent

Some weeks ago we published a rather lengthy article concerning the use of mineral supplements for beef cattle. Of particular importance to this area is the need for phosphorous. As was stated before the need for phosphorous is particularly important during periods of drouth and short range. Phosphorous deficiency will be present particularly from now on until the feeding of cake is started.

Last week I noticed a bunch of cows and calves huddled in group near the road. Curiosity prompted me to stop and watch them. They were standing beside an old carcass. Two of the cows had bones in their mouths as large as your arm. Every ranchman has seen this, and most people recognize what causes it. It is phosphorous deficiency and cattle suffering from this trouble will also chew wood, hair, putrid flesh, soil, rocks, leather or feathers in an effort to get additional phosphorous. As this deficiency progresses there may be loss of appetite, emaciation, weak bones, stiff joints, failures to come in heat normally, poor calf crop, and a generally poor appearance.

The feeding of bone meal as a corrective for phosphorous deficiency is recommended by Extension Service Animal Husbandman a mixture of two parts bone meal and one part salt gives good results.

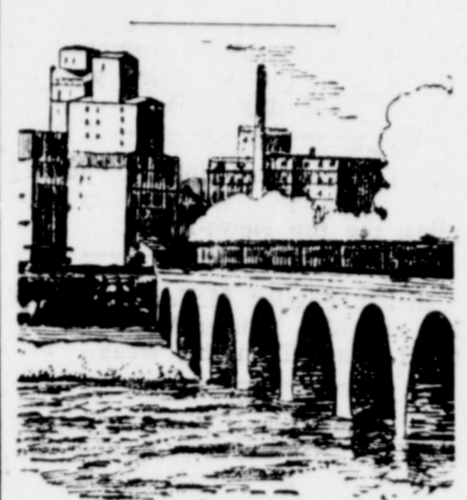

In conversation with Dr. Hardy of the Sonora Experiment Station, some new information was secured concerning the "calf paralysis" that has killed about a score of calves in the county this year. The trouble is "Bovine Encephalomyelitis". The results of experimental work at the station show definitely that the disease can be transmitted from one animal to another. In one instance 30 calves from a herd of 83 had the disease. No vaccine is available as yet to combat the trouble.

According to information received from C. K. Hohn, State Farm Labor Supervisor, there is work available for thousands of harvest hands in the cotton areas. Information is available at my office, concerning those areas where laborers are needed.

The lambs being fed by Sterling County 4-H members will leave here October 1st for the Dallas Fair. The boys have some outstanding crossbred individuals and are entering a pen of the crossbreds. The fine wool lambs will be shown

as individuals. The fine wool lambs are really stepping out on their full feed ration. The lambs are now receiving a ration consisting of 10% whole oats, 30% cracked yellow corn, 25% crimped barley, 25% sweet feed, 7% milk pellets and 3% wheat bran with 1% salt and 1% calcium added.

Any boy in Sterling County, whether in school or not, who is between the ages of 10 and 21 may participate in 4-H Club work. If any boy has been overlooked who would like to participate in the fall club feeding program, he is invited to contact me as soon as possible.

**BARLEY AND BUTTER**

Minnesota leads the country in the production of barley and butter. It is second for oats and rye. It harvests 150 million bushels of corn and 18,619,000 bushels of wheat each fall. For a long while it was known as the "bread basket" of the Nation. All that means constant additions to the Nation's resources guaranteeing your Bonds.

#### MAX WINN NEW PARTS MAN AT HEFLEY MOTOR COMPANY

The parts department of the Hefley Motor Company is now almost complete. New storage bins are practically finished and Hefley has Max Winn of Big Spring in charge of the department. Max was parts man for the Big Spring Motor Co. (Ford) for several years.

The interior of the Sterling Ford agency has been remodelled and it will not be long before the mechanical department will be in operation, said Hefley.

Mr. and Mrs. Jack Turner took a Palomino to the Fort Worth Horse show this week.

Jeff Davis, local commission buyer, shipped out 2100 lambs from Bailey and Counsel ranch last week, 416 from the Jeff Copeland ranch on Tuesday of this week, and part of a 2000 shipment from the George McEntire ranch on Thursday and will ship the remainder of the 2000 next week.

Thomas D. Davis, son of the Jeff Davises, returned to Texas Tech at Lubbock this week for his second year.

Billie Sue Everitt, daughter of the Clyde Everitts, returned to Texas Tech for her third year of college work this week.

For typewriter ribbons, adding machine paper, and stationery supplies, see the News-Record.

Ewing Fowler McEntire, son of Mr. and Mrs. Fowler McEntire, entered Texas Tech this week.

L. Humphreys, district deputy state superintendent, visited the Sterling Schools Wednesday. He was well pleased with the set up here at the local school this year.

You can have personal calling cards, informal notes, and personal stationery printed at the local News-Record shop.

### Brazilian Chocolate

By Frances Lee Barton

HERE'S a lot of coffee in Brazil, and the Brazilians have invented many good ways of using it. Here's a method of combining it with chocolate that will bring forth happy comments from your friends. Try springing it on them without telling them just what it is! During Indian summer days, this iced chocolate is a fine late afternoon drink, but if the air is a bit tangy, it's just as good served hot. Some like coffee, some like chocolate, but just about everyone will enjoy this elegant combination of two favorite flavors.

#### Brazilian Chocolate

2 squares unsweetened chocolate; 1 cup strong vita-fresh or decaffeinated coffee; 4 tablespoons sugar; dash of salt; 3 cups milk.

Add chocolate to coffee in top of double boiler and place over low flame, stirring until chocolate is melted and blended. Add sugar and salt and boil 4 minutes, stirring constantly. Then place over boiling water. Add milk gradually, stirring constantly, and heat. When hot, beat with rotary egg beater until light and frothy. Cool. Pour over cracked ice in tall glasses. Top each serving with 1 tablespoon whipped cream. Or serve hot and top each serving with whipped cream, if desired. Makes 4 servings.

Note: Substitute 1 cup hot water and 5 teaspoons instant coffee for 1 cup vita-fresh or decaffeinated coffee, if desired.

When you need paper drinking cups or dispensers, see and buy them at the News-Record.

Open 7:30 p. m.

## CHAPPLE'S Food Store

We Appreciate Your Business

Hurlburt was walking across a hill when a sudden gust of wind threw his shoulder out of joint.

The Trougnac river, narrow and short, passes through a series of grape arbors. At that point there is a rapids. The grapes are so great in number that the volume crushed on the rocks turns the river to the color of wine. The taste is actually that of grape-juice.

## Hennigan's Food Market

In order to be more prompt and efficient in our service to our customers, we ask your cooperation in our trial of this plan:

Beginning in October coupon books of \$10.00, \$20.00 and \$50.00 denominations will be on sale at our store at a 2 1/2 discount. The use of these books will greatly simplify our bookkeeping system and, in this era of high costs of living, will aid you in keeping an accurate check on food expenditures. We hope this will be a step toward speeding up and modernizing our service to you.

In the meantime we will use this and also continue our old method just as it is, until our customers decide which is the better plan.

THANK YOU,

Harvey Hennigan

By DR. H. W. SCHULTZ, Nutritionist

Since I have been asked by a number of mothers how to safeguard their infants from anemia, I know you will be interested in the findings of Dr. Ruth M. Leverton, University of Nebraska nutritionist.

Dr. Leverton has been working with pediatricians at two Lincoln and Omaha children's institutions in an attempt to find some method of checking anemia common to babies, and she has discovered that the addition of meat to the diets of babies at six weeks of age is an effective safeguard against anemia. Dr. Leverton said results showed that meat not only checked anemia but actually improved the blood condition. At the end of eight weeks, 18 babies whose diets included meat added to the formula in the nursing bottles showed an average gain of 13.3 per cent in hemoglobin content and a gain of 22.2 per cent in red cell value.

Meanwhile, 15 other babies of the same age group and general condition, were kept on their customary meatless formulas. During the test period these babies showed an average drop of 10.3 per cent in hemoglobin and a gain of 6.2 per cent in red cell values.

"Nurses caring for the babies reported that those who had been given meat were generally less fussy and slept better at night," Dr. Leverton said. "The pediatricians felt that the babies were in better physical condition as a result of the meat supplement."

Mothers of today are fortunate to be able to obtain ready prepared meats for babies—eliminating all the hard work of cooking, scraping and straining meats at home. These meats are approved by the American Medical Association and they give baby the extra proteins and iron he needs for proper growth plus safeguarding his health. And every mother's chief concern is in keeping her baby strong and healthy!

**CITATION BY PUBLICATION**

THE STATE OF TEXAS  
TO: J. H. Burroughs, Greeting:  
You are commanded to appear and answer the plaintiff's petition and before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday, the 20th day of October, A. D. 1947, at or before 10 o'clock A. M., before the Honorable District Court of Sterling County, at the Court House in Sterling City, Texas.

Said plaintiff's petition was filed on the 25th day of August, 1947.

The file number of said suit being No. 493.

The names of the parties in said suit are: Jessie Burroughs as plaintiff, and J. H. Burroughs as Defendant.

The nature of said suit being substantially as follows, to-wit: Suit for divorce by Jessie Burroughs from J. H. Burroughs.

Issued this the 25th day of August, 1947.

Given under my hand and seal of said Court, at office in Sterling City, Texas, this the 25th day of August A. D., 1947.

Your home needn't be NEW to be ALL-ELECTRIC

IT IS not necessary to build a new home to enjoy all the comforts and conveniences of living electrically. Your present home—whether it's castle or cottage—can be an ALL ELECTRIC home. With adequate wiring, and the new electrical appliances now coming on the market in ever increasing numbers, any home can be made a modern, all electric home with the resulting time and labor saving advantages—the added beauty, comfort and convenience.

Electric service is today's biggest bargain! The average cost of a kilowatt hour of service to residential customers has decreased 32.6 per cent since 1933.

From where I sit ... by Joe Marsh

Yes, I'm Guilty!

Folks sometimes criticize us small-town editors for the way we often play up "little things" ahead of big . . . human, local news in place of world events.

I can't deny it. Read the *Clarion* and you'll learn about the Martins' golden wedding anniversary . . . about the community sing down by the river . . . the husking bee at Sober Hoskins', where neighbors helped husk the corn, and later drank sparkling beer together.

"Little things?" Maybe. But from where I sit, they add up to the

bigger things we call America: The friendliness of small towns . . . the helping hand . . . the respect for one another's rights. And above all the love of fellowship and freedom—whether it's freedom to speak one's mind or choose between a glass of beer or buttermilk.

I figure that if everybody looks after the "little things," maybe the bigger things will take care of themselves.

Joe Marsh

**Macaroni Fruit Salad**

By Betty Barclay

When the weather is hot, cold salads, cold cuts and cold drinks are in order. But even in hot weather, one dish rich in calories is always in order.

Combine nutrition and the desire for cold foods by serving a macaroni fruit salad. It's easy to prepare, economical and delicious. Try the recipe below and be convinced:

**Macaroni Fruit Salad**

(A party dish—exceptional appeal—easy to create)

- 1/2 lb. elbow macaroni.
- 1 cup orange or grapefruit sections.
- 1 cup pitted sweet cherries or pineapple.
- 1 cup sliced red apple (unpeeled).
- 1/2 cup diced celery.

Mayonnaise or French dressing.

Cook elbow macaroni in boiling, salted water until "chewy". Do not over-cook. Drain and spread thinly on a shallow platter to cool and prevent massing. When cold, combine with the other salad ingredients. Mix with mayonnaise or a sweet French dressing and serve on lettuce or from a salad bowl.

Mrs. Ruth Allen returned home the first part of this week from a visit in Dallas with her daughter and family, the H. D. Spaltis.

**North Concho River Soil Conservation District News**

The reservoir in the North Concho River above Nick Reed's dam filled after the rain last week. The dam has recently been raised two feet for the purpose of storing water to be used in flood irrigation of a 56 acre field to be seeded to tame pasture grasses and legumes.

Clyde Reynolds has practiced leferment of pastures for improvement of range grasses for several years. He has received such good results that next year he plans to establish a deferred rotation grazing system on three pastures. This system will allow rest during the growing season for one pasture for

two consecutive years and rest to the second and third in like manner taking a total of six years to complete the rotation.

Marshall Cook had a meeting of ranchers and farmers at his ranch west of Garden City Wednesday for the purpose of studying his irrigation system and looking over a pasture which he deferred this summer. Cook, with the assistance of the North Concho River Soil Conservation District prepared a conservation plan for his 12 section ranch early this year. The establishment of an irrigated pasture and improvement of range condition are practices included in his plan.

Steve Currie of Garden City started planting his irrigated pasture Tuesday. He will seed 100 acres and water with a sprinkler type irrigation from one well.

T. H. Humble is preparing his land for planting of grasses to determine adapted species for re-seeding old fields. Yellow blue-stem, blue grama, crested wheat, and blue panicum are among those to be tried. Forrest Foster and N. H. Reed have their seed plots ready. The grasses will be planted the last of this week.

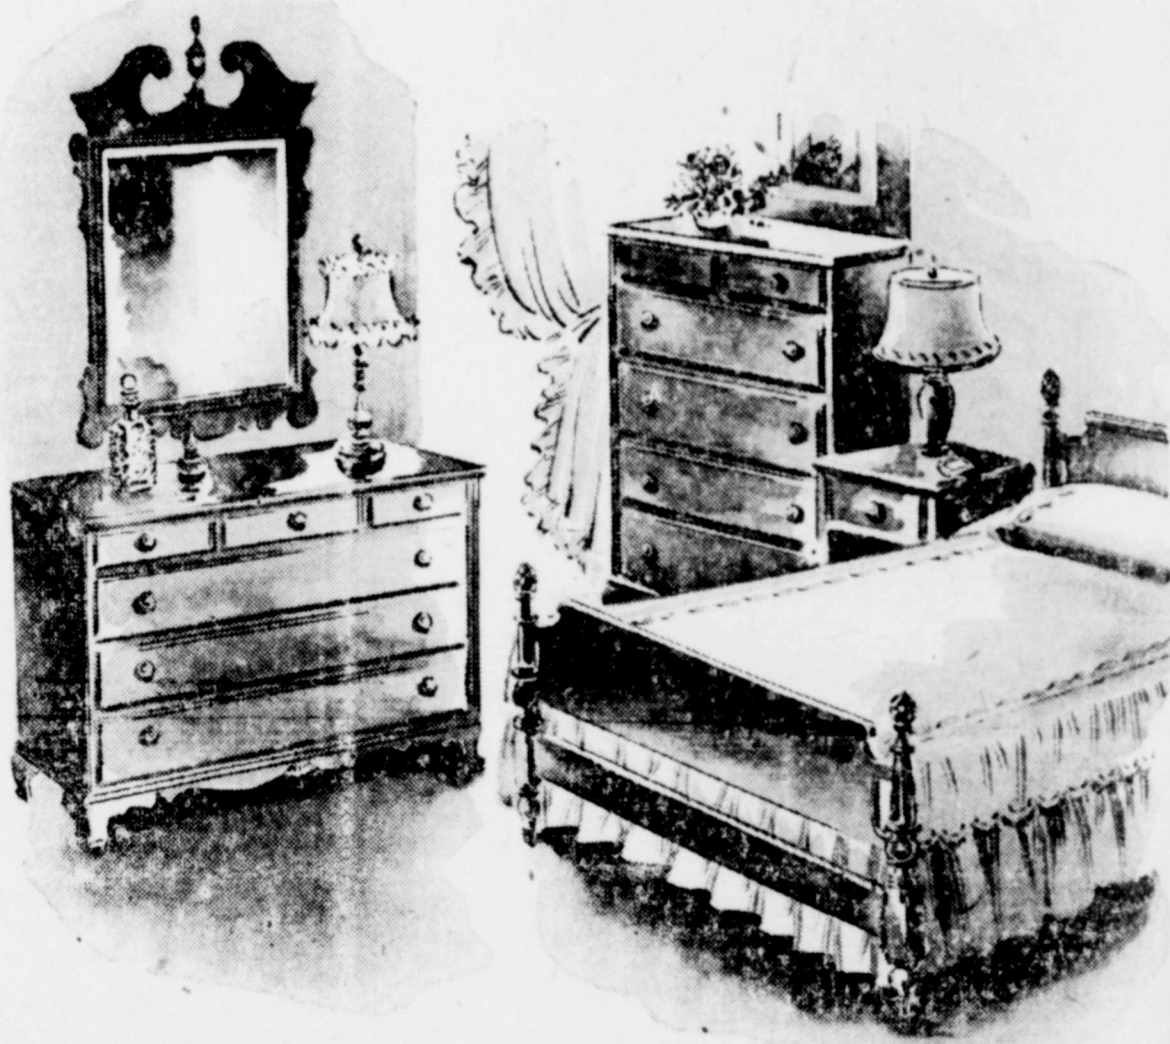

The water spreading terrace constructed by McDonald and Baker in W. N. & L.R. Reed's Home Pasture early this summer distributed the runoff water over range land during the two inch rain last week.

Riley King marketed the last of his crossbred lambs last week. Most of the lambs were shipped out early in the year.

Clyde Reynolds is putting 10 acres of his cultivated field under irrigation. He plans to grow alfalfa to use as a supplemental feed.
