## Two More Wildcat Locations Staked

### YARBOROUGH No. 1 RUFUS FOSTER WILDCAT STARTED

L. G. Yarborough and Son and others of Midland, have staked a wildcat test on No. 1 Rufus Foster, NE 10-13-SPRR, two miles west of Anderson-Prichard and Vickers No. 1 Foster. The test is scheduled for 5,000 feet to test the Wichita-Albany section of the Permian.

Rotary material has been moved by Grappe-Denton, Inc., of Levelland, contractor, for the drilling of the Yarborough test.

The operators have a block of 19 sections approximately. They took 14 sections this year since the discovery of the pay at the Marvin Frances Foster test, and already had five sections. Their leases are on land belonging to Rufus W. Foster, Templeton Foster, Marvin Frances Foster, Roy Foster and Foster Conger. They have a five year lease with a 50 c rental, and they paid 20 an acre bonus on the last 14 sections assembled. The sections in their block are No. 2, 3, 4, 5, 6, 8, 10, 16, 17, 18, 19, 20, 21, 11, 15, 22, 23, and 35. All are in block 13, SPRR. The block was assembled and handled by W. W. Durham.

The operators consist of L. G. Yarborough and son, and Jack Goddard of Midland, C. R. Winn of Dallas, J. A. Elkins of Houston and Pan American Production Co. of Houston.

Indications are that there will be other tests made in this block in the near future.

### Texaco Starts Wildcat Western Part Of County

The Texas Company is starting a scheduled 4,200-foot wildcat in western Sterling County to explore the Wichita-Albany section of the Permian.

The operation will be 660 feet west of the southeast corner of section 13-31-4s-T&P, on a lease from Texas Pacific Land Trust with an expiration date. The official designation of the operation is yet unreported.

Texaco has checkerboarded leases around the location, which is 15 miles west of Sterling City. The site is 19 miles northwest of Anderson-Prichard and Vickers No. 1, Miss Marvin Frances Foster, in the Wichita-Albany discovery, and is preparing to test.

### P VICKERS N. 1 M. F. FOSTER BACK TO HIGHER PAY

Anderson-Prichard and Vickers Petroleum No. 1 Miss Marvin Frances Foster, lower Permian lime discovery in southeastern Sterling County was moving out rotary and moving in cable tools this week to drill plugs and perforate casing to test the Wichita-Albany pay section.

Five and one-half inch casing was cemented at 4,406 feet with 200 sacks of cement after salty sulphur water was encountered in the Ellenburger on a drillstem test from 200-300 feet.

The well in mid-February flow-naturally 1,360.4 barrels of 28.5 gravity oil on a 49-hour test from 4,258-97 feet. It is in the SW SW 12-15-H&T, 7 1/2 miles west of Sterling City.

Humble No. 1-B W. L. Ellwood test, slated Ellenburger wildcat in North Central Sterling County, is drilling at 6,172 feet in black shale. It is in the C NE NW 56-18-SPRR.

### MASSONS HAVE BARBECUE

Ray N. Johnson of San Angelo was the guest speaker when local Masons met in regular meeting Tuesday night. There were guests present from Carlsbad, San Angelo, and Forsan. Forty-five members all-told were present. A barbecue supper was served to the present.

## OUR WASHINGTON NEWS LETTER

By Congressman O. C. Fisher

### JOHN L. LEWIS AGAIN

Overshadowing our stepped-up preparedness program which includes the good news of prospects for a greatly enlarged air force, is the current coal strike called on March 12 by old John L. Lewis. On that date he wrote a letter to all the coal mine unions advising them that the coal operators had "dishonored" their contract to set up a pension program for miners. The next day 340,000 miners failed to show up for work. Lewis says the stoppage was a "coincidence", but a fact finding board appointed by the President found that the letter from the Mine Union Dictator amounted to a strike order.

What are the facts? The Taft-Hartley law requires that in case of welfare funds for union members, such funds should be administered by a joint board of trustees comprised of three men—one appointed by the union, one by the employer, and the third to be agreed upon by the other two. That was done, and Lewis was selected to represent the miners, Ezra Van Horn to represent the coal operators, and one Thomas E. Murray was chosen for the third member of the board. But Murray resigned in January and Lewis and Van Horn haven't been able to agree on a successor.

Lewis demanded of Van Horn that he agree upon a pension of \$100 per month for 60-year-old miners with 20 year service records. Van Horn objected, saying that would more than deplete the \$32,000,000 welfare fund and nothing would remain for sickness and accident benefits provided for in the current contract. So, an impasse was created and Lewis called the strike because Van Horn wouldn't let Lewis dictate the terms of the pension program. In an attempt to settle, Van Horn offered to go with Lewis to a Federal Judge and let the latter name a third trustee so they would not be deadlocked. But Lewis was not interested. He preferred to strike.

Now what has happened. Up to the time of this writing the miners out on strike have lost approximately \$100 million in wages. This is about three times the total amount of the accumulated welfare fund which is the pretended basis for the strike. The miners lose \$4 1/2 million in wages every day they don't work.

So it becomes very evident that the alleged reasons for the strike are phoney. Lewis has refused to bargain or negotiate, and as I pointed out on the floor of the House the other day, he is now evidently "engaged in one of his periodic public theatrical exhibitions put on for the purpose of showing the power and control he holds over the 400,000 members of the Mine union."

I have urged additional laws to curb such irresponsible conduct by a union leader. An injunction proceeding is now going on, but that is a treatment of the symptoms rather than the disease. Until conduct such as Lewis engages in is brought under our anti-monopoly laws, just as business monopolies in restraint of trade are controlled, and the industry-wide power Lewis now uses is controlled, the public welfare will continue to be subject to the whims of irresponsible labor bosses. And not only the public suffers but the members of the unions and their families take a terrific beating.

The House last year passed a bill to bring Lewis under the anti-monopoly laws and to curb his industry-wide monopolistic power, but those provisions were stricken in the Senate. That sort of law is badly needed at the present time.

### THE SPIRIT OF JAN MASARYK

The "Give me liberty or give me death" philosophy of the late Jan Masaryk, Czechoslovakia's martyr to the cause of freedom, is the true incarnation of true patriotism. It was he who not long ago advised the United States to "get tough" with Joe Stalin.

"If I were an American," he said, "I'd go all out for a tough policy toward Russia. That's the only way for you to keep her in line; get tough."

Masaryk was a devout Christian. It is believed these words of the Apostle Paul to the Galatians were in the mind of Masaryk in the moments before his death:

"Stand fast therefore in the li-

## STERLING HORSE SHOW HERE APRIL 24

Sterling County's Horse Show will be held here on Saturday of next week, April 24. Foster Conger is chairman of the group sponsoring the show. Foster S. Price and Wayne Ewing are in charge of entries, setting up classes, selecting judges, etc.

The grounds committee is composed of Taylor Garrett, Pete Hansen and Thurman Rich. County Agent Byron W. Frierson is secretary of the show. April 17 is the deadline for entries for the show. Ribbons and rosettes will be awarded, but no prize money. The entry fee is \$3 per head, and no one is barred from entry.

Due to more interest than was expected from palomino owners, the entry committee of the show has established separate classes for palominos. Palomino classes will be as follows:

- Class 18—1847 Fillies
- Class 19—1946 Fillies
- Class 20—Aged Mares
- Class 21—1947 Stud
- Class 22—1946 Stud
- Class 23—Aged Stud

Main sidelight attraction will be a 15 minute exhibition by D. D. Garrett with his pair of trained palomino fillies and a 15 minute exhibition with his trained gelding. Garrett is widely known in this area as a horse trainer and promises a good show with his trained horses.

## LIONS SEE TRAVEL PICTURES

Miss Aileen Trimble of San Angelo showed travel pictures of the Pacific northwest and Alaska to the Lions Club at the Wednesday luncheon. On the trip when the pictures were made were the Roy Fosters of Sterling City.

Lions Tillerson and Bratton gave reports on the softball league opening her this week.

The nominating committee made their report for officers for the new year, which was as follows:

- R. H. Emery, President
- Roland Lowe, 1st Vice-President
- Claude Collins, 2d Vice-President
- Jack Douothit, Secretary
- H. M. Knight, Treasurer
- Doug Farnsworth, Tail Twister
- G. C. Murrell, Lion Tamer
- Directors, S. M. Bailey and O.E. Deal.

San Angelo Evening Standard delivered to you each afternoon for 20c a week. Tommy Cole.

erty wherewith Christ hath made us free, and be not entangled again with the yoke of bondage."

## "Covering the County"

By Byron W. Frierson, Sterling County Agent

Nineteen club members attended the April meeting of the Sterling County 4-H Club. A mesquite eradication experiment was set up during the meeting on the vacant lot between my house and the Claude Collins residence, and results of the different methods tried will be observed by club members. One group of mesquite sprouts and bushes was poisoned with kerosene oil. Another group was poisoned with equal parts of burnt oil and kerosene mixed. A few were poisoned with straight crude oil as an experiment.

A mixture of 1% 2-4D (Butyl Ester) in kerosene was painted across some freshly cut mesquite stumps. It is hoped that this will prevent sprouting. Another chemical in the form of a salts was put on some more freshly cut stumps. Results of this work will be tabulated as soon as enough time has elapsed to show conclusively what each poison will do. The public is invited to have a look at this work at any time.

H. A. Chapple, owner of the experiment lot, contributed the kerosene used in the experiment.

Sixty three dairy cows were tested for Bangs and tuberculosis on April 12. Dr. Koberg will complete this testing on April 15. Time did not permit Dr. Koberg to finish the work on Monday. When dark came about 12 were left untested. Cooperation from ranchers was excellent in having in the cattle penned for the testing.

Clinton Hodges and Don Gann spent April 9 and 10 at a sheep shearing school at Robert Lee. The Australian, or western method of shearing was taught and both boys learned to do a fair job of shearing without tying the sheep. The Australian method gets the wool off with less second cuts, leaves the fleece in one piece and is easier and safer on the sheep.

I will be in Brady with some club boys Friday noon until Saturday night. My office will be left open for entries to the horse show. Entry cards will be found on the desk.

Roy Scott of San Angelo finally arrived for the pecan tree spraying about ten days ago and about 175 trees were sprayed for scale. That was the last chance to work on scale until the next dormant season.

I've decided the horse show is being talked up alright. I overheard some of the club members talking Tuesday about "a cute little filly" they had seen recently.

For typewriter ribbons, adding machine paper, and stationery supplies, see the News-Record.

## Focal Point In Cold War

(Soundphoto) — With the joint proposal of the United States, Great Britain and France that the free territory of Trieste be returned to Italy, this former Italian seaport again becomes the focal point in the cold war between the western democracies and the Soviet Union and her satellites. Trieste, marked with an arrow, is garrisoned by a handful of British and American troops while across the Yugoslav border Marshall Tito is believed to have massed overwhelming military power. The three power proposal was given the Soviet Embassy, the Italian Embassy and the Yugoslav Embassy.

## A Thrifty Threesome

By BETTY BARCLAY

Did you know it can be fun to be economical? Well, it is sometimes, if you decide to try out new and different dishes that food experts have thought up. Being original requires a little more thought and sometimes more time, but the surprised and pleased expressions of your family are well worth the effort. Here are three recipes that add novelty to any meal. Two are for delicious main dishes that are unusual as well as economical. The third is a recipe for Bran Corn Bread — a new twist in corn bread — served with your best Cherry (or other favorite) Preserves. So go to it — try them out one at a time, but be sure you try them!

### Grape-Nuts Stuffed Eggplant

- 1 large eggplant
- 2 tablespoons chopped onion
- 1 teaspoon salt
- 1/2 teaspoon pepper
- 2 tablespoons bacon fat
- 3/4 cup Grape-Nuts
- 3/4 cup drained canned tomatoes
- 3/4 cup chopped cooked bacon
- 1 egg, slightly beaten
- 1/2 cup Grape-Nuts

Cut eggplant in half lengthwise and scoop out center, leaving shells 1/4 inch thick. Parboil shells 5 minutes. Chop removed portion and sauté with onion, salt, and pepper in bacon fat 10 minutes. Add 3/4 cup Grape-Nuts; mix well. Then add tomatoes, bacon, and egg, mixing thoroughly. Refill shells. Sprinkle with remaining Grape-Nuts. Bake in hot oven (400° F.) 25 minutes. Makes 6 servings.

Note: If desired, 1/4 cup grated American cheese may be mixed with Grape-Nuts used for topping.

### Sweet Potato Sausage Casserole

- 1 pound sausage meat, seasoned
- 1 cup raisin bran
- 3/4 cup milk\*
- 2 cups mashed cooked sweet potatoes
- 1/2 teaspoon salt
- 1/2 teaspoon nutmeg
- 1/4 teaspoon ginger
- 1 tart apple, cut in rings
- 1/4 cup brown sugar, firmly packed
- Mix sausage, raisin bran, and 1/2 cup of the milk. Place mixture on bottom of 1-quart casserole.

Combine potatoes, remaining milk, salt, nutmeg, and ginger. Spread over sausage in casserole. Place apple rings on top of potatoes, pressing in slightly. Sprinkle with brown sugar and additional nutmeg. Bake in hot oven (400° F.) 40 minutes, or until done. Makes 6 to 8 servings.

\*For extra richness, use 3/4 cup undiluted evaporated milk.

### Bran Corn Bread with Cherry Preserves

- 3/4 cup sifted flour
- 3 teaspoons baking powder
- 1 teaspoon salt
- 1/2 cup corn meal
- 2 tablespoons chopped cooked bacon
- 1 egg, well beaten
- 1 1/2 cups milk
- 2 tablespoons melted bacon fat or other shortening
- 1 1/2 cups 40% bran flakes

Sift flour once, measure, add baking powder and salt, and sift again. Add corn meal and bacon. Combine egg and milk. Add to flour mixture, add shortening, then mix only enough to dampen flour. Fold in flakes. Bake in greased 9x9x2-inch pan in hot oven (425° F.) 40 minutes, or until done. Serve with cherry preserves.

## NOTICE

Notice is hereby given of a hearing before the County Judge of Sterling County, Texas, on the 26th day of April, A. D. 1948, at the Court House of Sterling County, Texas, in Sterling Cnty, Texas at 10:00 a. m., on the application of Maggie Martin, Guardian of the Estate of Thurman Pinkney Simpson, a person of unsound mind, for permission to execute an oil and gas lease covering the following described land in Sterling County, Texas:

The West one-half of the North-east one-fourth of Section 197, Block 2, H & T C Ry. Co. Survey, Abstract 153, Certificate 37/4099, containing 647 acres of land, and Section 250, C. L. Owens Abstract 907, Block 2, H & T C Ry. Co. Survey, containing 647 acres, located in Sterling County, Texas.

### MAGGIE MARTIN

Maggie Martin, Guardian of the estate of Thurman Pinkney Simpson, a Person of Un-sound Mind.

For the first time in American history a generation is arising which has no God and what is more feels no need of one. The blame lies squarely in the laps of the American parent who owes his child a knowledge of God whose light always shines for those who seek it. Let us never forget a civilization survives or perishes on the basis of its religious belief. Insure the preservation of American ideals by taking—not sending—your child to Sunday School. National Sunday School Week will be observed April 12-18. Sponsored by the Laymen's National Committee, National Headquarters Vanderbilt Hotel, New York 16.

**NOW IT HAD BETTER RAIN**

Bill Durham is risking \$200 on enough rain to bring up a feed crop. He had his place west of town drilled with sweet sudan on Monday of this week. He has his field terraced, and it could handle a nice big rain, we bet.

**TEACHERS WANTED**

3 positions paying up to \$500 per month for summer vacation in educational advisory service which your training and experience equip you to do. 1 local position, 2 in another locality. Qualifications 28 to 50, white, 3 years teaching experience, good record and reputation. Write immediately in confidence, giving age, experience and phone. Personal conference arranged. Box X, News-Record.

**THE STATE OF TEXAS  
TO: J. H. BURROUGHS,  
GREETING:**

You are commanded to appear and answer the plaintiff's petition at or before 10:00 o'clock A. M. of the first Monday after the expiration of 42 days from the issuance of this Citation, the same being Monday the 3rd day of May, A.D., 1948, at or before 10:00 o'clock A. M., before the Honorable District Court of Sterling County, at the Court House in Sterling City, Texas.

Said plaintiff's petition was filed on the 25th day of August, 1947.

The file number of said suit being No. 493.

The names of the parties in said suit are:

Jessie Burroughs as Plaintiff and J. H. Burroughs as defendant.

The nature of said suit being substantially as follows, to-wit: Suit for divorce by Jessie Burroughs from J. H. Burroughs.

Issued this 20th day of March, 1948.

Given under my hand and seal of said Court, at office in Sterling

City, Texas this 20th day of March, (Seal) A. D., 1948  
(Signed) W. W. DURHAM,  
Clerk of District Court, Sterling County, Texas.

*It's Cheaper with a Cleaner!*

IT IS, TOO, when you figure in time and energy and general wear-and-tear! As a matter of fact, with one of the new electric vacuum cleaners now available at your local dealer, one cent's worth of electric service will clean a large rug and five others like it in less time than it takes to drag them into the yard for beating! Let Reddy Kilowatt, your electric servant, lighten the work of your spring housecleaning.

**FOR ONE PENNY,  
YOU CAN**

- Light a 100-watt bulb almost 3 hours, or
- run a radio for a whole evening, or
- have the correct time for about a week, or
- wash 3 full tubs of laundry.

Reddy does dollar duty for penny prices, not only for rug-beating, but for countless other household tasks. It costs much more to make and deliver today, but the average family still gets twice as much electric service for its money as it got 20 years ago.

Yes, the rate for electric service is still low—but not by accident. That's because you're using electricity for more and more tasks. Moreover, the people at your service company have used their skill and experience to make electric service the biggest bargain in your budget.

### Boyce House "GIVES YOU TEXAS"

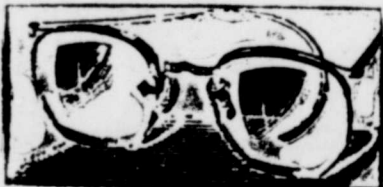

Somebody has said that knowledge is a wonderful thing. Why—, if it wasn't for knowledge, we wouldn't know a thing.

Similarly—folks are great; we couldn't get along without 'em.

Recently your columnist was to speak at the annual dinner of the Chamber of Commerce in Falfurrias and had journeyed by bus as far as San Antonio when I ran into Bill Furey, Hillsboro publisher, in the Gunter lobby and he was on his way to Edinburg and so I caught a ride to Falfurrias.

Coming back, I'd gotten as far as Austin by bus, stopped over for a few hours, ran into Carl Bruner, a friend from Cowtown. He and his son, Paul, veteran and graduate student at the University of Texas, insisted—they didn't have to insist very strong—that I ride back

to Fort Worth with them.

Not only that but I'd stopped in San Antonio (on the return trip) to see Col. Ray Leeman, executive vice president of the South Texas Chamber of Commerce, and tell him what a good job Ray, Jr., is doing as Falfurrias CofC manager but it was noon so I thought I'd have lunch, and then phone the Colonel. So I went into the Manhattan Cafe had my favorite dinner (the seafood platter) and, just as I finished, the man next to me at the counter got up and, one seat over, sat the man I'd stopped in San Antonio to see—Col. Leeman.

And I was so clumsy that he picked up my luncheon check.

Folks are great. I don't see how a fellow could get along without em.

American history has been marked by the passing of the Indian, the passing of the buffalo and the passing of the buck.

Something should be done about people that are late to shows and programs. And Alfred Lunt, the famous actor, does. Several years ago, I was attending a Shakespearean play and the first act had been going on for 10 minutes when a couple entered. Of course, their seats were right in the middle of a row so everybody in that row had to stand to let them by.

Lunt was speaking. He stopped, waited till the late arrivals were seated and then said, "So nice of you to come."

There was a noted Central Texas district judge who greatly enjoyed a friendly game with the boys and a "chaw." One morning, when he called court to order, his eyes were red from having sat up nearly all night, playing poker, and had a big chunk of tobacco in his jaw. It was a divorce case and the wife was on the stand. She testified, "Judge, my husband is no good; he plays poker every night and is always chewing tobacco."

The judge nearly choked on his cud, then said, "Divorce granted."

Phillip Mittanck (Fill-up-my-tank) still has a service station at Pleasanton. I mentioned this half a dozen years ago; a few weeks back, as I went through the town on a bus, I noticed the sign again.

A big jolly chap is Ben Milam of San Antonio, who drives a bus on the route between Stephenville and San Antonio. He makes a neighborly little talk to his passengers at the start of the trip and everybody feels right at home. He used to be a wrestler and, judging from his broad shoulders, he was a good one.

An Easterner was making a speech at a convention in an Amarillo hotel when a loud-mouthed man came in with a six-shooter in his hand. The Easterner was not to be taken in by this bit of "Wild West" horseplay. He said, "Give me that pistol" and took the weapon, then he said, "now sit down there and behave," and resumed his speech.

Afterward, he found out that the man he had disarmed was a ranchman who likes to come into town, get a few shots of hooch and then wave a gun around.

And then the visitor really had a chill.

And when somebody asked Mark Twain how the million people packed into the tenements of Naples made a living, he replied, "Oh, they take in each other's washing."

From where I sit... by Joe Marsh

Now It's Neckties  
Made of Milk!

Fellow in Andy Botkin's Tavern was boasting about a trick necktie he was wearing made out of a by-product of milk. "Took 33 pounds of milk to make this tie," he says.

Bill Webster was unimpressed. "Personally," he says, "I'd rather have the milk to drink. Just as I wouldn't change one glass of good American beer for a necktie made from thirty barrels of it!"

Yes, modern science being what it is—seems like you can make "anything out of anything" these days. But in the case of milk, well

I guess drinking it is still a whole lot better than just wearing it.

Of course there are lots of other ways of abusing goods and beverages—like a fellow who doesn't appreciate good beer enough to drink it slowly and in moderation.

But from where I sit, most people who enjoy a wholesome beverage like beer or ale are moderate—because beer itself is a beverage of moderation.

**SWING OF SOUTHWEST FARM MARKETS**

By United States Department of Agriculture

(USDA)—Most southwest farm products sold steady to higher during the past week, though some spring vegetables drifted lower, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Increasing shipments of South Texas onions brought lower prices as the week progressed. Yellow Bermudas sold weaker Monday in the Lower Rio Grande Valley at mostly \$4 per 50 pound sack of commercial grade with 65 to 85 per cent U. S. No. 1 quality. Yellow Bermudas loaded at around \$4 in the Laredo district too, and Crystal White Wax from \$5.75 to \$6. New potatoes moved higher. Valley shipments of U. S. No. 1 Bliss Triumphs brought \$3.50 per 50 pound sack Monday. Strawberries tended lower. Hammond, Louisiana weekend auctions averaged around \$6 a crate.

Southwest egg markets remained generally firm for the week at mostly 37 to 40 cents a dozen and up to 42½ at New Orleans. Poultry

sold well too, at about unchanged prices. New Orleans paid up to 35 cents a pound for heavy hens, and other markets 27 to 30. Fryers sold wholesale at 38 to 45 cents. Arkansas growers got 39 to 40.

Greater cattle offerings brought mostly higher prices this week, though Houston's levels remained unchanged. Good cows ranged from \$21 to \$23.50, and good and choice slaughter calves from \$25 to \$29 at southwest markets. Common and medium slaughter steers and yearlings cashed at \$18.50 to \$25 at Houston, while medium and good kinds cleared at \$22.50 to \$28 at Ft. Worth. Good and choice steers moved at \$27.75 at Denver and around \$28.25 to \$28.60 at Kansas City.

Hogs netted gains of 50 cents to \$1 or more since a week ago Monday, despite some setbacks at mid-week. Sows shared in the advance, but pigs changed little. Principal southwest markets paid \$21 to \$22 Monday for good and choice butchers.

Increased lamb marketings at principal sheep markets commanded higher prices than a week ago. Aged sheep and feeder lambs changed little. Southwest terminals paid \$22 to \$23 for spring

lamb. Kansas City gave to \$24. Woolskins sold to \$23.50.

Shearing got underway in the southwest, and wool sold at firm prices.

Moderate grain demand absorbed adequate offerings at little change in prices. Wheat, oats and yellow corn closed two cents higher Monday, and milo up to eight cents. No. 1 hard wheat sold around \$2.61 per bushel at Texas common points, with No. 2 yellow corn around \$2.58, oats \$1.43 to \$1.48, and milo \$3.95 to \$4 a hundred.

Demand for milled rice continued slow with prices barely steady. Rice seeding started in many areas. Weaker trends prevailed at southwest feed markets. Alfalfa hay maintained a firm trend, but prairie hay found slow demand. Peanuts held firm.

Cotton advanced \$5 to \$6 a bale in more active markets. Spot middling 15-16 inch closed at 37.25 cents a pound in Dallas Monday.

**If you want real good peanut hay delivered to your ranch, at the best price in West Texas, see T.H. Murrell or Chas. Heacock here in Sterling City.**

**Everything but the squeal?**

**... Not quite**

Utilization of livestock by-products is important to all farmers and ranchers. Of the total dollars received by Swift & Company for lambs, 15% to 25% comes from by-products. Cattle by-products amount to 10% to 20%. With hogs it is 2% to 5%. When bidding on live animals, Swift & Company's buyers estimate the yield and grade of edible meat. In their estimate they figure, too, the value of all by-products, including hides and wool.

Livestock by-products have greatly increased the value of your meat animals. Since earliest times, man has used hides and wool to make clothing. But only in the past half-century has research found the present great variety of uses for by-products. Fats, and lanolin from wool, are the base of many cosmetics, healing creams and beauty aids. Photographic film is coated with a gelatin compound. Other uses of gelatin and glues are almost endless. Animal fats are the main raw material of toilet soaps.

Life has been lengthened for people with diabetes, anemia and other diseases. They are helped by drugs such as insulin, liver extract, pepsin, adrenalin. These are all made from the glands of livestock. But for the painstaking care of meat packers, these glands would go to waste. This happened during the wartime "black market" in meats, and the supply of insulin ran low.

With the growth of meat-packing plants, the war on waste began in earnest. Science found new ways to use by-products of your animals. Bristles make brushes. Bones make knife handles. Hair makes upholstery padding. Bones, blood and scraps go into animal and poultry feeds. Yes, we find use for every valuable part of cattle, hogs, and lambs.

Each new use for by-products adds value to livestock... and directly benefits producers.

**Speaking of By-Products...** Here's a movie about 'em—just the film to complete your community or school program: a 16mm. sound, color cartoon, "BY-PRODUCTS." It runs 10 minutes—and tells the story of livestock by-products and their uses. You may also want to show "MEAT BUYING CUSTOMS," another 10-minute cartoon. For a history of the livestock-meat-packing industry, you'll like "LIVESTOCK AND MEAT"—49 minutes, black and white. "A NATION'S MEAT" is a shorter version—30 minutes—full of information on the American meat supply. Then there is "COWS AND CHICKENS... USA," a story of diversified farming—the dairy and poultry business in a nutshell. Please give us at least a month's advance notice to handle bookings. We can ship by express or parcel post. Only cost to you is payment of express or postage one way. A 16mm. sound projector is required. Order from Agricultural Research Dept., Swift & Company, Chicago 9, Illinois.

**We All Want the Top Dollar**

You, as a producer of livestock, want to get the best price for your animals—"the top dollar." As a salesman for Swift & Company, selling the products which result from these animals, I, too, want to get the top dollar.

The meat packer's buyer has to judge the grade of the animals and estimate how they will yield. He then makes his bids in competition with buyers for many meat packers and other commercial slaughterers. To get the animals, he has to offer going prices. Otherwise he just won't get them; somebody else will. And that "going price" which he must pay depends on the number of animals on the market and the demand for them.

After Swift & Company has made the animals which it has purchased into meat and by-products, we must sell them, again in stiff competition. If we don't offer meat at the going price, retail meat dealers will buy from somebody else who does. This competition in both buying and selling is so keen that we have to operate on a margin of profit which averages but a fraction of a cent per pound of product handled.

In our business, as in yours, it takes hard work and good management to come out with money ahead on a year's operation. Our efficiency in selling meat and by-products results in important economies and savings. Only through such savings can we earn our profit—and help increase the value of your livestock.

*W. J. Jones*  
Vice-President,  
Swift & Company

Mr. Jones, "guest editor" this month, is Vice-President of Swift & Company in charge of sales and advertising.

**Socia Bill Sez:**

... the best way to get out of trouble is to plow right through it.

**Martha Logan's Recipe for FRIED CHICKEN WITH GOLDEN GRAVY**

(Yield: 5-6 servings)  
1 frying chicken (2½-3 lb.) ½ teaspoon pepper  
½ cup yellow corn meal 6 tablespoons bland lard  
¼ cup flour About ¾ cup water  
1½ tablespoons salt 3 cups milk

Clean, wash and cut up chicken into serving pieces. Dry. Combine corn meal, flour, salt and pepper in paper bag. Put chicken pieces into bag, close top and shake bag until pieces are well coated. Reserve excess corn meal-flour mixture for gravy. Brown chicken well in hot bland lard in heavy skillet. Add ¼ cup water. Cover tightly and simmer slowly for 1 hour or until chicken is tender. Add remaining water as needed. Remove chicken and keep it warm while preparing gravy. Combine corn meal-flour mixture with the drippings in skillet. Brown lightly. Stir in the milk and cook until corn meal is cooked and gravy thickened. Serve gravy with chicken.

**A Steer is NOT all Beef**

Let's take a look at this steer. It weighs 1,000 lbs. It's not all steak. In fact, only a little

more than half is salable beef. Hanging in Swift's cooling room, our steer has become two sides of beef. Together they weigh 543 lbs. What happened to the rest?

Modern meat packers save everything of value from the steer—heart, tongue, liver, sweetbreads and other fancy meats. Hides for leather; bones, blood and scraps for animal feeds. Glands for medicines. All told, 161 lbs. of the steer is saved in by-products.

But 296 lbs. is shrinkage and material of no value. Only the meat and by-products can be sold.

What happens to the money the meat packer receives? It is used to buy livestock and other raw materials. It meets the expenses of slaughtering, dressing, refrigerating, transporting and selling. It pays rent, insurance, taxes—all the costs of doing business. The amount remaining after all of these expenses are paid is the meat packer's profit. Over a period of years, Swift & Company's profit has averaged a fraction of a cent a pound on the products we sell.

That's the explanation of the "spread" between livestock prices and wholesale meat prices.

**OUR CITY COUSIN**

Let City Cousin pull and jerk... He'll find "a cinch" is real hard work!

**Phenothiazine Stands Up**

by Dr. I. B. Boughton  
Texas Substation No. 14, Sonora, Texas

Ample proof that sheep roundworms can be controlled in West Texas by free-choice feeding of phenothiazine-salt mixture, with no danger of poisoning, is revealed in a 4-year test at this station.

The test was made to find the answers to two specific questions: 1) Whether phenothiazine-salt mixture, fed to sheep free choice, would control stomach and other roundworm infections. 2) Whether long time use of such a mixture would be poisonous to sheep.

Answering both questions, it was effective and it was not toxic.

Sheep used in the test were fairly heavily infested at the start, showing an average of 1180 worm eggs per gram of manure in ewes and an average of 1700 in lambs. The count decreased steadily to 60 for ewes and 30 for lambs by the fourth year. The worm eggs in the manure did not hatch, an important point since the failure to hatch shows that the infestation of the large was being reduced.

But don't throw away the drench gun. In 8 Minnesota flocks, where sheep were given a phenothiazine drench and had free access to phenothiazine-salt mixture the lambs weighed 93 to 104 pounds. They dressed out 47.4 to 48.9%; and over 90% of the carcasses graded AA.

On the other hand, in flocks where the sheep were given the phenothiazine-salt mixture but were not drenched, the lambs weighed 87-99 pounds; they dressed out 46.6 to 47.4%; and 11% to 40% graded AA.

## AAA DISTRICT MEETING HELD IN BIG SPRING TUESDAY 13TH

A meeting of all County Committeemen and the Administrative Officers from each county in district 7 was held Tuesday, April 13, at the Settles Hotel in Big Spring for the purpose of making recommendations for the 1949 AAA program.

Each county had a committee meeting prior to this time with the other agricultural agencies in the county to discuss any changes or new recommendations they thought the operators would like to see made in the 1949 program. These recommendations were carried to the district meeting and discussed with all counties in District 7 and Lester Young, administrative officer, Agricultural Conservation Program, Mr. Howard T. Kingsberry, Chairman of the State Committee, Mr. Victor L. Cade, Member of the State Committee, and Victor M. Dziewas, District Fieldman.

Several recommendations were made and sent in as recommendations from the district but those of most interest to Sterling County and recommended by Sterling County committeemen were the following:

(1). Increase the maximum earnings for each producer from \$500 to \$2500.

(2). Increase the rate of pay per acre on deferred grazing for a period of 6 months from 12c to 20c per acre and reduce acreage limitations to 320 acres or more instead of only ranches containing 640 acres or more could qualify.

(3). Delete the \$5.00 limit per acre on all eradication practices.

(a) Increase the rate of pay on cedar that has to be bulldozed or grubbed to get a complete kill to 12c per acre for each 1% infestation instead of 8c per acre as it now stands.

(b) Increase the rate of pay mesquite from 12c to 15c per acre for each 1% infestation.

Other changes of particular interest to Sterling County recommended by other counties were:

(1). Deleting the 640 acre limitation on places drilling water wells for livestock and limiting the distance to not less than 1/2 mile from headquarters or any other adequate water supply.

All changes and recommendations were discussed and those to be submitted as district recommendations were selected by the approval of the majority of the counties present.

District representatives were voted on to make our recommendations at state office at a state meeting next Thursday, April 23. At this meeting one county committeeman and one county administrative officer from each of the 16 districts over the state of Texas will be present. Mrs. Flossie F. Whitaker, administrative officer from Tom Green County and Mr. George Skeete, Chairman of the Tom Green County AAA County Committee were elected as the representatives for this district.

Those attending the meeting from Sterling County were Lee R. Reed, Chairman of the County Committee; Julius S. Bade, regular member, and Mrs. Roxy A. Brock, Administrative Officer.

You can have personal calling cards, informal notes, and personal stationery printed at the local News-Record shop.

Paper Cups at the News-Record.

## Boyce House "GIVES YOU TEXAS"

Not all the foot-and-mouth disease is in Mexico and among cattle. All of us know somebody who, every time he opens his mouth, puts his foot into it.

Back in 1916 when your columnist was "cub reporter" on the Memphis Commercial Appeal, Vincent M. Carroll was one of the ace members of the staff.

Years went by—and I was editor of the Ranager Times.

One day, the phone rang and it was the advertising manager of the Southwestern Bell Telephone Co., speaking in his office in Dallas. He said, "Are you the same Boyce House who used to work on the Commercial Appeal in Memphis, Tenn.?" "Yes." "Well, do you remember a man who was a reporter, by the name of Carroll?"

"You mean Vince Carroll? Yes I remember him very well."

It flashed through my mind that Carroll was in Dallas, wanted to get a check cashed and had given me as reference I hoped the check wasn't a very large one. Of course, I didn't say any of this, just thought it.

The phone company official said, "Just a moment; he's here in the office and wants to speak to you." So we had a little chat and then the original caller came back and I asked, "What is Vince doing now?"

"Oh, he's got a job with the phone company; he's our vice-president."

Yes, the years do bring changes. A while back, the news came that life's chapter had closed for Vince Carroll. He was a fine chap.

Chas. Lamb says about the greatest of joys is to do a good deed secretly and then have it found out, by accident, that you did it.

## SOFTBALL SEASONS OPENS

The softball season opened here Thursday night with a game between the Lions-Legion and the local school team.

The next game will be here Monday night between Forsan and the local school team, announced G.W. Tillerson this week.

## 524 LICENSES ISSUED

On March 31 there had been 465 vehicle licenses issued by the local tax collector, with a revenue to the county of \$6,610.59. To date there has been 524 licenses issued, and they are broken down as follows:

Passenger cars	316
Commercial	72
Farm Vehicles	115
Truck tractors	7
Trailers	13
Farm Truck Tractors	1
TOTAL	524
