

# STERLING CITY NEWS-RECORD

VOLUME 59 PUBLISHED EVERY FRIDAY AT STERLING CITY, TEXAS. "Since 1890" FRIDAY, JUNE 10, 1949 No. 23

## ANNUAL RODEO PLANS PROGRESSING

The Sterling Annual Rodeo that is scheduled to be held here June 23 and 24 will be an amateur affair this year, it has been announced. Formerly, anyone, professionals and all, could enter. But this year, regular events are for amateurs. Matched roping between professionals is scheduled.

Events include bronc riding, bull riding, billdogging, ladies barrel races, and calf roping. A free barbecue will be held in the City Park in connection with the rodeo. This free feed will be from 5:30 on June 23. Jim Butler and Tom Hinshaw head the barbecue committee.

Two night performances have been scheduled. A new water system promises dust-proof performances.

Additional pens to accommodate expanded rodeo are being constructed under the direction of J. Foster. Bill Reed, John Reed, and Taylor Garrett.

Dances in the school gym will follow both night's events. Temp Foster and Fred Allen are in charge of arrangements.

Other officials for the organization are Taylor Garrett, vice chairman, Riley King, Foster Conoger, Ed Hansen, Bill Reed, William Foster, Temp Foster, Pete Ainsworth, Bill Green, and Bubba Foster, directors. Hal Knight is chairman and Byron Frierson is secretary of the show.

## BOY SCOUTS TO BE ORGANIZED HERE NEXT MONDAY NIGHT, JUNE 13

Claude Raney, Cubmaster here, announced this week that the Cub Scouts would be organized June 13 in a meeting to be held at the Legion Hall at 8:00 p. m. All boys 9 to 12 who want to join and their parents are invited to attend the meeting. Any other interested person is welcome, too, said Raney. Jimmy Hale, Scout executive in Big Spring and a team of helpers will be on hand to assist the organization.

## 4-H DISTRICT CAMP

County Agent Byron W. Frierson will lead a 4-H district camp Wednesday morning for Lake Chanaman with four Sterling 4-H boys to attend the District camp there. The group will return Saturday.

Going with Frierson were Henry Znak, Clinton Hodges, Gene Smith and Joe Davis.

Mrs. Ruth Allen, who was hospitalized last month from a fall in a pickup, will be in the San Angelo hospital for about three or more weeks, it is reported. She suffered a fractured vertebra.

## 1949 RAINFALL TOTALS 16.81 INCHES

Rainfall here this week—Sunday night, Monday night, and Tuesday night, amounted to 1.85 inches here in town at the Davis gauge.

For the first five months of the year rainfall amounted to 14.96 inches. The breakdown by months is follows.

January	2.80
February	2.25
March	.35
April	5.92
May	3.64
TOTAL (5 Months)	14.96
June (so far)	1.85
TOTAL This Year	16.81

## North Concho River Soil Conservation News Column

John H. Cox of Garden City completed a conservation plan on his ranches this week. One of the conservation practices included in his plan is complete deferment of selected pastures during the growing season.

Cecil Wilkerson, district cooperator, reported that two pastures which have been rested during the summer for the past three years, are showing more rapid growth this year than similar pastures not rested.

Steve Currie is grazing 180 cows on his 65 acre irrigated pasture. The principal plants in the mix are perennial ryegrass, orchard grass and alfalfa.

A. T. Bratton in a discussion at the organization meeting of the Sterling County Game Management Association listed the four steps in securing permanent range conservation. The first is a Soil Conservation District with its conservation program and plan of operation. Second is the conservation plan prepared by the rancher with the assistance of Soil Conservation Service conservationists assigned to the district. The application of planned conservation practices on ground such as range improvement is the third step. Fourth is maintenance of the practices established.

Range site surveys are being made on the Glass Estate by range conservationists. The information will be used by Harvey and David Glass in the preparation of a conservation plan on the ranch.

H. A. Chapple, local grocer, left Sunday on a two-weeks vacation trip to the far west. Chapple will swing through Colorado, Yellowstone Park, Salt Lake City, and California before returning.

Mr. and Mrs. Roland Edwards and family have moved to Green Forest, Arkansas. Pascal Brown went with them to spend the summer.

## LIONS CLUB

Rev. C. J. Powell of Sweetwater addressed the Lions Club on "The Brotherhood of Man and the Fatherhood of God." Other guests at the Wednesday luncheon beside Rev. Powell were Rev. C. D. McEntire and "Curley" Albert.

Lion Roland Lowe reported on the cleanup and spraying drive held last week-end. He reported that the Noratadata Club raised \$177.30, S. M. Bailey raised \$88.00, and H. A. Chapple \$186.00. Enough was raised to pay off the \$483.73 insecticide bill incurred.

## NO POLIO WANTED HERE IN STERLING

The clean-up campaign that got underway here last week-end and culminated in the spraying of the town with chlorodane, is only the beginning of a year-long clean up and campaign against fly breeding places and places of filth in general. The threat of polio and diarrhea is always present, reminds Dr. W. J. Swann, local health officer. The campaign must be consistent and year-long, he points out.

Although it takes the epidemic stage of polio for most cities to start such campaigns, Sterling has not waited on such, but has gone ahead each year and cleaned up and sprayed before any cases hit.

Open toilets, bad garbage burners and accumulated trash of the garbage variety, must be declared as the chief villains in this drama, it is pointed out. Flies and other insects pick up the infection from such places and carry it to the dwelling places, stores, food and spots in general where humans finally get infected. Rank weeds are breeders. So are dank stagnant pools and sink holes. If such places were eliminated and regular spraying done, the threat would be almost gone, Swann points out.

Following the general spraying of last Saturday, there was a noticeable absence of flies over town. BUT, such campaigns cost money, and a lot of time on the part of individuals. The insecticides alone cost \$483.00 last week, not counting labor and pick-up and sprayers. It is evident that the community cannot do this sort of thing regularly. It will be up to the individuals.

If everyone does his part by keeping down the sources of infestation and breeding around his place, all will be well. Otherwise, following the good rains, the flies and mosquitos will be back again in full force.

Polio is a dread disease. Help by the National Foundation for Infantile Paralysis will help, as will insurance covering your family, BUT the best insurance is to keep the town clean, AND particularly your OWN place.

Generally speaking, you raise your own flies and mosquitos. Normally flies or mosquitos don't ever get over 100 yards from where they were hatched.

A clean town presents a better appearance, is healthier year in and year out, and we can be sure of no serious outbreak of polio if our town is clean.

LET'S DON'T HAVE ANY CASES OF POLIO LISTED FROM STERLING CITY THIS YEAR—OR EVEN NEXT—OR NEXT!

Infant diarrhea can be serious, even causing death. Filth is responsible for this disease.

Homer Pearce, assistant at the post office, is on a vacation from the office this week.

Visiting the J. H. Fowlers here the first part of the week were Mr. and Mrs. L. Reeves of San Francisco, California. Mr. Fowler and Mrs. Reeves are brother and sister.

Visiting at the W. W. Durhams this week are Mr. and Mrs. Jean Durham and two sons, Bill and Kelly. Jean, son of the Durhams, works for the Robt. H. Ray Geophysical Co. out of Houston.

Mr. and Mrs. W. P. Meyer are vacationing in Green Forest, Ark.

Jeff Davis, Sterling County livestock commission man, shipped out about 5,000 yearling muttons to Kansas City last week. Many sold at 27½ cents a pound.

Mrs. Orrie Deal and son, Bobby, are visiting relatives in Abilene this week.

## SWING OF SOUTHWEST FARM MARKETS

By United States Department of Agriculture

(USDA)—Most southwest farm markets displayed easier to definitely lower tendencies during the past week, the U. S. Department of Agriculture's Production and Marketing Administration reports. Some products sold steady to strong.

Tomato shipments from east Texas added to those from south Texas to bring much lower prices this week. Lower Rio Grande Valley growers received mostly 1½ to 2 cents per pound over the week-end. Increased haulings of onions in North Texas found fairly good demand in mostly steady markets. Fifty pound sacks of U. S. No. 1 yellow Bermudas loaded mainly from \$2.15 to \$2.25. Good greens were scarce at Fort Worth, but watermelons and East Texas potatoes were liberal and lower.

New crop supplies dropped wheat and barley prices around 20 cents a bushel and sorghums 25c a hundred pounds since a week ago Friday. Other grains changed little. No. 1 wheat closed Monday at \$1.89½ to \$1.96½ in bulk carlots at Texas common points. No. 2 barley brought \$1.02 to \$1.07, and milo \$2.40 to \$2.50.

Growing rice made good progress and milled rice held steady last week. Best long grains brought \$13, and short grains \$9 per hundred pounds. Prices of many feedstuffs fell sharply. Unfavorable curing weather caused unsettled hay markets. Markets received mostly wet, undercured or damaged alfalfa hay. Peanuts made slow growth, and less than a fourth of the crop has been planted in North Texas.

Hens sold lower than a week ago but fryers held firm. North Texas markets paid 23 to 26 cents a pound for heavy hens, 20 to 23 for light hens, and 28 to 31 cents for fryers. Denver quoted similar prices and New Orleans some higher. Eggs eased only slightly. Current receipts ranged largely from 37 to 39 cents a dozen.

Sheep and lamb markets drifted irregularly lower during the week. Receipts fell somewhat below the week before. Dressed lamb dropped \$2 to \$3 at New York, and mutton \$2 to \$5. Best spring lambs sold up to \$30 at Denver, \$29.50 at Oklahoma City and \$28.50 at Fort Worth. Goats changed little for the week at San Antonio.

Eight-months wool sold in Texas at 60 to 64 cents per pound in the grease.

Hogs and sows gained 25 to 50 cents and pigs \$1.50 at Ft. Worth, but San Antonio and Denver showed slight declines for the week. Top butchers closed Monday at \$21 at Fort Worth and Oklahoma City, \$21.25 at San Antonio, and \$22.50 at Denver. Receipts fell off from the previous week. Pork sold steady to \$1 higher.

Moderately lighter receipts of cattle and calves at southwest markets sold steady to slightly higher than a week ago. Beef prices advanced 50 cents to \$2.50 at the eastern wholesale markets, but veal sold steady to \$1 lower. Canner and cutter cows ranged from \$12 to \$16.50 in Monday's trade at Texas markets and \$16 to \$17.50 at Denver. Medium and good grades brought \$16.50 to \$19 at Oklahoma City.

Cotton declined around \$1 a bale since a week ago Friday. Spot middling 15/16 inch closed Monday at 32.10 cents a pound at Dallas, 32.20 at Houston, and 32.30 at New Orleans.

## TO MISSISSIPPI FOR SUMMER

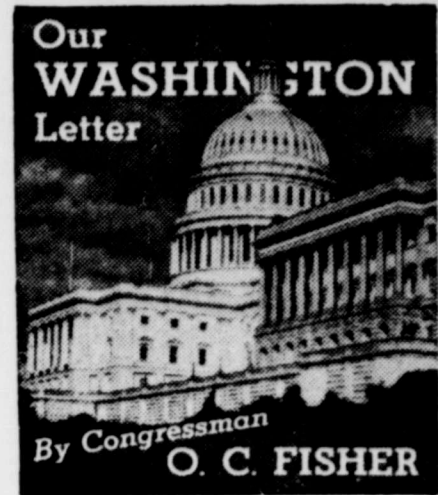

Billy Joe Swann, son of Dr. and Mrs. Wm. J. Swann, left Big Spring by plane Wednesday morning for New Orleans, La. He will be met in New Orleans by his uncle and aunt, Mr. and Mrs. James A. Crossland of Gulfport, Mississippi, where he will go to spend the summer.

Dr. and Mrs. Wm. J. Swann and Mrs. E. B. Butler attended the funeral of W. H. Butler of Pecos Wednesday. Mr. Butler was the father of Mrs. Sam Chumley of Big Lake. Mrs. Chumley and Mrs. Swann are sisters-in-law.

## Graduated Magna Cum Laude

Austin Taylor of Sterling City was one of the two graduates of Austin College, Sherman, that was graduated magna cum laude this spring.

The other high ranking student was Eugene A. Castle of Denison.

## Another DP Bill

A year ago the Congress passed a bill allowing 200,000 immigrants, classified as "displaced persons" to enter this country from Europe. Under that law, they are now coming in at the rate of 10,000 a month.

But some people decided the law was not liberal enough, and last week another bill was pushed through the House authorizing 339,000 to enter with far less regard for the quality of those who are admitted.

I voted and spoke against these measures because I am afraid many subversives and undesirables will enter. And when they once get in it is almost impossible to deport them. Harry Bridges is a good example.

Under this DP bill only those actually in camps can be classified as "displaced persons". And there has been a lot of finagling going on by those who have managed to get themselves admitted to the DP camps in order to get into this country at Uncle Sam's expense, and who would not otherwise be inadmissible.

As an example of how undesirables come under this law, I was in Charleston, West Virginia recently and former Senator Revercomb told me of a case in point. A local citizen a year ago urged him to assist in having a certain person brought in from Europe. The man was admitted and a few months later the Senator the Senator met his friend on the street and the latter said: "Senator, can't you do something to help get this man deported. From talking with him, I'm convinced he is a Communist and undesirable."

This is a good example, too, of how unreliable our screening system is. And now, if the new bill is also passed by the Senate, a bigger influx than ever will be admitted and that means even less regard will be given in the future to proper screening and refusal to admit undesirables.

Rep. Ed Gossett of Wichita Falls led the fight against the new bill. He pointed out that there are now 14 million people in our occupied zones, who were uprooted in Poland, Czechoslovakia, the Baltic States, etc. and after the war dumped into Germany. Much of this was done under the Potsdam agreement. Those people are of German ethnic origin and the vast majority of them were farmers. Yet none of them are admissible under the DP law.

There are now about 500,000 people in the DP camps in Europe. It has been pointed out that Australia and South American countries want desirable immigrants. But the trouble is most of the people in the camps don't want to go any place except the United States.

This new influx of poorly screened immigrants will aggravate our housing problems and contribute to unemployment and while many of them are probably good people, we have good reason to believe many of the others will be of the trouble maker type.

Adding to this problem is our rapidly expanding population. The Census Bureau reported the other day that since the last census in 1940 the total has jumped up 20,000,000! And they are estimating that by the year 2,000 the United States will have 200 million people.

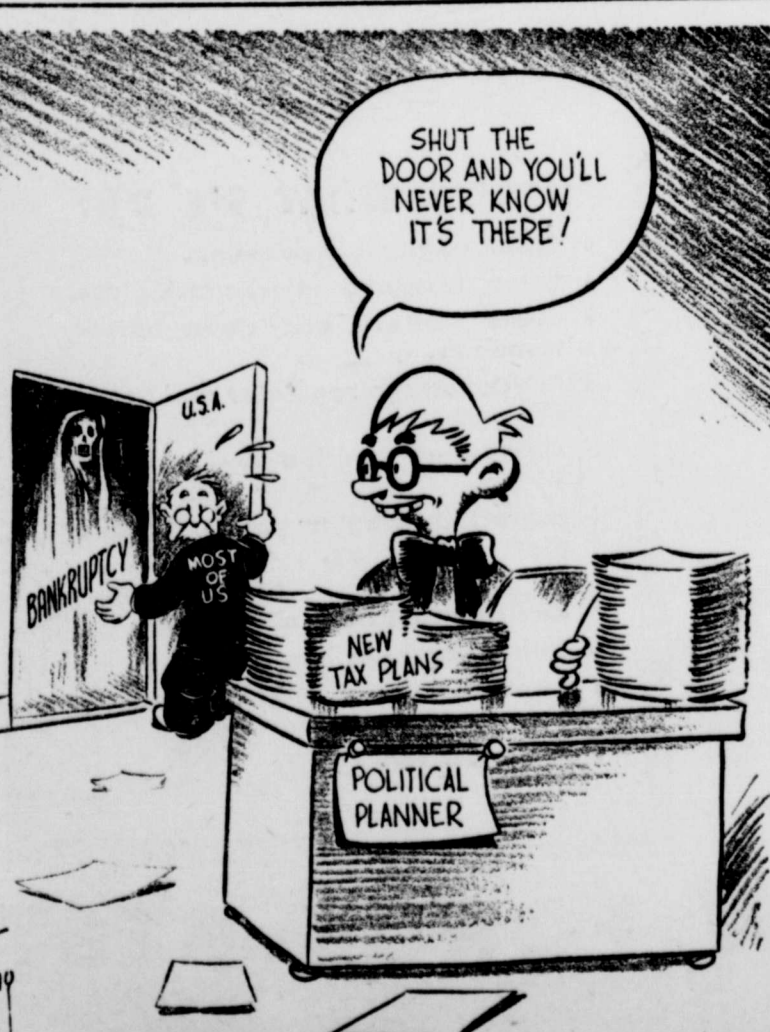

If those who are clamoring for a break-down of our immigration restrictions based upon the quota system, continue to be successful, this number will be correspondingly higher.

It's high time the American people open their eyes to what's going on and insist upon preserving the integrity of our traditional immigration policy based upon the quota system.

FOR SALE—Good Plymouth Rock fryers. Mrs. A. H. Fulcher. Phone 5113.

Hague Machine Ousted

JERSEY CITY, N. J. — Victorious over Frank Hague machine in a startling election upset, John V. Kenny, newly elected Mayor of Jersey City, is hoisted to the shoulders of city commissioners he swept into office with him by a 2-1 margin. Defeated candidate was incumbent Mayor Frank Eggers, nephew of Hague and mouthpiece of the veteran politician, for whom defeat marks end of 32 year tenure in office as Mayor, leader of city and one of the few surviving old style political bosses of the nation.

"ATOMIC WAR STRATEGY HOLDS HOPE FOR PEACE." \* \* \* The atom bomb is the greatest agent for peace in the history of mankind, because if we ever do use it, the warmaking abilities of a nation will be destroyed in 30 days! For the inside story of America's strategic air command, read this timely article in the American Weekly, the great magazine distributed with next Sunday's Los Angeles Examiner.

Hair Aid

Your hair is so short this season you must take care that it remains soft and lovely while you enjoy precious hours in the sun and at the beach.

Equipped with a good hair oil and a box of Co-ets, handy cotton squares, you can emerge from summer's fun with every strand still lustrous and silky.

Select a good hair oil, and before sunning or swimming apply it lightly and evenly with handy cotton squares over the hair.

SAVINGS BOND DRIVE AT HALFWAY MARK HERE

The Opportunity Drive for Series E Bond sales in Sterling County is showing very healthy signs. In fact, Sterling County has been credited with selling \$5,100 up to and including May 29, 1949, which is 48.57% of our quota. The United States Savings Bonds campaign certainly merits our best efforts, and I urge each of you to continue your interest toward the end that our County will exceed its quota at an early date.

County Clerk, Sterling Co. Tex.

**Behind The 8 Ball**

Behind the eight ball! That's where the editor usually is, trying to catch up on his work, put out a paper with few or no mistakes, or trying to make enough to pay all bills and keep everybody happy. Such is the reason for changing the name of the column "Neither Here Nor There."

In glancing over the "Economic Survey Book" of Sterling County, prepared by the Bureau of Business Research of the University of Texas for the Texas and Pacific Railway Company, we note many interesting figures.

For instance, in 1940 it cost \$63.83 per year per student to operate the Sterling School, while in 1945 it cost \$128.66 per student per year.

The scholastic enrollment in 1940 was 262 while in 1945 is was 204, a decrease.

There were 394 residences in the county in 1940, the report says. 350 were wood, 16 brick, 5 stucco, and 23 other types. The largest number of home were built in the

years 1935—1940, according to the figures, which were taken from the census records.

The economic survey was worked up by the bureau for the Texas & Pacific Railway, in all counties that their railway serves. The railway company stood the cost, and an official of the company said the cost was plenty for the 62 Texas counties.

Several of the books will be left at offices here and other places, including the library, school, bank, all county officials, etc.

The Lions Club sponsored the

local part of the economic survey. A committee was appointed and the forms distributed. The boys from the University's research department gathered some of the local data. Lots of the figures were gleaned from census reports, bank-reports, Department of Commerce reports, and other sources available to the research bureau.

The details of the census and allied reports are of course, old. As far back as the 1940 census was about as late figures as were available to the researchers.

A new census will be taken next year, of course, by the bureau of the census.

**For Better Dental Health**

Extension of community health programs to make dental care available to all children is being urged by the American Dental Association.

Dental diseases, particularly tooth decay, are afflicting more than nine of each ten children. Yet, leading dental authorities estimate, only about one-third of the nation's children are receiving proper dental attention.

Dentists are agreed that the only effective method of combating dental diseases is to start with children; to control and prevent dental defects before they become serious problems later in life.

For that reason, the American Dental Association is opposing establishment of a national system of compulsory health insurance in this country. Children would get less attention. Association officials point to the present compulsory health insurance system in Great Britain. There, a sound system for providing dental care for school children is falling to pieces because the government program concentrates major attention on a repair program for adults. The same would be true here, dentists say, pointing out that any system which destroys the emphasis on the prevention and control of dental disease in children is not a good system.

# 49 PONTIAC

A Product of General Motors

### Two of America's Most Popular Motor Cars

Pictured above are typical examples of the two smart and separate lines of cars which bear the current imprint of Pontiac goodness—the Streamliner and the Chieftain De Luxe Sedan Coupes.

Each is in such demand that, on its own, it ranks among America's most popular cars today. That two cars of such decidedly different appearance should each enjoy such wide acceptance is easy to explain. THEY'RE BOTH PONTIACS!

While each has its own individualized smartness, both offer all the great basic Pontiac virtues. Both

are conspicuously beautiful. Both carry the well-known promise of Pontiac quality—long life, dependability, and fine performance. Both afford the smooth, enjoyable performance of Pontiac's two great engines—the power-packed straight eight or its equally famous six-cylinder companion.

Finally, both represent unusual values—a very fine product at a very low price. Either one you choose will make you mighty happy.

Hydra-Matic Drive, white sidewall tires, bumper wing guards and fender shields available at extra cost.

REV. C. J. POWELL  
REV. POWELL PREACHING  
FOR WEEK'S BAPTIST  
REVIVAL; CLOSING SUNDAY

A revival meeting is in progress at the tabernacle under the sponsorship of the Baptist Church. When the weather has been bad this week, service has been held at the church building.

The Rev. C. J. Powell of Sweetwater is doing the preaching and Rev. C. D. McEntire, local pastor, is leading the singing. The meeting began last Sunday morning and will close out Sunday night, June 12.

For typewriter ribbons, adding machine paper, and stationery supplies, see the News-Record.

FOR SALE—Butane gas water heater. See G. C. Murrell.

Your printing dollar goes further right here at the News-Record.
