The Agricultural Extension Service is sponsoring a sheep and goat, wool and mohair school for ranchers and county agents on March 29 and 30 at the A.&M. College Adjunct at Junction. The school will be under the direction of Jim Gray, Extension Service sheep and goat specialist.

Topics on the schedule include the economic situation in regard to lamb imports and finished fabrics, function of the various industry organizations such as the Sheep and Goat Raisers Association, National Wool Growers Association, and the American Sheep Producers' Council, sheep selection demonstrations after which ranchers in attendance will do actual selection work on Kimble County flocks, range management, internal parasites, wool and mohair grades and some practice sessions in each, and mixed grazing of livestock. Edwin Mayr, Sr. will give some first-hand impressions of the Australian wool situation Tuesday night at a session. He has returned from a trip to that area and should have lots of information.

Any rancher interested in attending should notify the county agent by March 13 so he can make reservations for those attending. The only charge will be for meals and lodging. Lodging will be available at the Adjunct.

JUST HOW liberal must a man be these days to get elected President? This year, more than ever, that question is being bandied around.

In the Democratic camp, there is Kennedy, Symington, Stevenson, Humphrey—all described by observers as ultra-liberals—and Lyndon Johnson a middle-of-the-roader.

As a general rule a liberal is a free spender. And the more he spends, or promises to spend, the more liberal he becomes. These liberals are not to be confused with the authentic liberal who is progressive but keeps his feet on the ground.

THE RADICAL liberals are organized. They make a lot of noise. Scores of their organizations plug for welfare, "human" rights, "civil" rights, socialism and more spending.

There's the conference on Economic Progress, whose spokesman, Leon Keyserling (who headed the Council of Economic Advisors to President Harry Truman when he was in the White House), recently demanded a mirimimum budget of \$89.5 billion—8 billion above the Eisenhower budget.

Then, there's CIO's COPE, a political action arm of the unions, which forever plugs for spending a la Keyserling, more welfare, civil rights, Big Government.

And Americans for Democratic Action (ADA), made up of prominent radical-liberals, agitates for the usual liberal program, only more of it. ADA's counterpart in Texas is Democrats of Texas (DOT), whose new organ is TEXAS OBSERVER.

Now, it is disturbing to see so many of our prominent politicians catering to these extremists, courting their favors. At least it appears they think they must have this type of support in order to be elected.

BUT WHERE does the public—the great unorganized, non-vocal, public come in? By and large, it is believed the general public is more moderate than the politicians give them credit for being. It is believed the general public opposes reckless spending, ruinous inflation, gratuitous hand-outs, and what-have-you.

Be that as it may, most of the candidates for President seem to think they must make their pitch for the favors of the liberals as a primary objective, then try to convince the people they are for 'em and have a remedy for their every need.

Mr. and Mrs. Buddy Cole and children of Houston and Mrs. Shirley Henry and her two children of Odessa visited Mrs. Agnes Cole here last week-end.

Grand Jury Indicts Gunn for Murder

Leroy Smith, 38, believed to be serving a sentence in the Texas penitentiary now, was indicted on a charge of forgery and passing a forged instrument.

Gunn was arrested at Sand Springs, Okla., five miles from Tulsa, almost a month after Grady's body was found on the road 15 miles west of Sterling City.

FRONTIER FORTS IN TEXAS

This is a continuation of the publication of reports on the frontier forts in Texas. These reports were compiled by the members of the seventh grade Texas History Club.

We hope you enjoy them.

FORT PARKER

Our story begins in 1832. Daniel Parker, a member of the Pilgrim Predestation Baptist Church came to Texas to establish his church. Mexico wouldn't permit bringing the church to Texas unless it was already organized. The people were en route to their new home, with 25 wagons, July, 1833. They traveled to Austin's Colony and on to Ft. Houston. Their final decision was to settle near the Navasota River. The men built cabins and worked in the fields.

On May, 19, 1836, the men left for the fields, 2 miles away. It was a beautiful day and the gates were left open. Soon after they left a group of 500 Comanche and Kiowa Indians rode quietly out of the woods, surrounding the fort. They had a white flag, but still the people in the fort were afraid. Finally the women got the gates closed. Ben Parker learned the Indians wanted to know where they could find a water hole—and beeves. They were given food, but they killed Ben Parker with lances. The Indians charged the fort. "A sickening and bloody tragedy was soon enacted—for as the Comanche warriors and their Kiowa allies stormed the gates, they loosed the most bloodcurdling spine-chilling yells, and war cries ever to reach the ear of mortal men." The women and children were killed, for the Indians had no pity.

The Indians took 9 year old Cynthia Ann Parker and her brother, John. Others were captured and marched from the fort. The children left at the fort searched for food and finally ate a skunk and two turtles. A Mr. Plummer looked for the Indians with his only weapon, butcher knife, but could not find them. Finally he staggered into Fort Houston. Elizabeth Kellog was found by the Kichai Indians and was sold to General Houston for \$150. Mrs. Plummer remained in the Indian's hands and six months later gave birth to a second son.

The Texas Rangers hunted for Cynthia Ann Paraker and John Parker. She had married Chief Peta Nacona at 15 or 16 years of age. She had a son named Quanah Parker and another that died, Pecos. She was returned to her own white people with her baby "Prairie Flower", but was not happy. She died in 1864 and was buried (Continued on Back Page)

MAGIC FRUIT CAKE IS READY FOR OVEN IN FIFTEEN MINUTES

By Betty Barclay

Here's a special cake that would bring renown to any hostess. It has all the eye appeal, all the richness and flavor, that characterize the finest fruit cakes. But it takes only fifteen minutes to prepare instead of the hours needed for the old-fashioned kind.
The time-saving secret is the use of sweetened condensed milk and condensed mince meat. They combine to give a rich, fruity foundation, in taste and texture, for this quick triumph.
It's an easy matter to decorate the top of a fruit cake. Almonds, applied like petals around half a maraschino cherry, make an effective trim.

Magic Fruit Cake

(Makes a 9 by 4 by 3 inch loaf)

- 1 9-oz. package condensed mince meat
- 1/2 cup water
- 1 cup walnut meats, coarsely chopped
- 1 cup (8-oz.) mixed candied fruit, coarsely chopped
- 1 1/2 cups (15-oz. can) sweetened condensed milk
- 1 egg, beaten
- 1/4 cup flour
- 1/2 teaspoon baking soda

Break mince meat into small pieces; place in 2-quart saucepan. Add water. Place over medium

heat and stir until all lumps are thoroughly broken. Boil briskly one minute, stirring constantly. Remove from heat and cool. Add nuts, candied fruit, sweetened condensed milk and egg; blend well. Stir in flour and baking soda until just blended. Pour mixture into a 9 by 4 by 3 inch loaf pan which has been greased, waxed paper lined and greased again. Bake in moderate oven (350° F.) 1 hour and 30 minutes or until center springs back when lightly touched with finger, and top is golden brown. If glass type baking dish is used, reduce oven heat to 325° F.

TAX FACTS FOR THE HOMEOWNER NO. 3 The Home As An Income Producer

(This is one of a series of articles on federal income tax filing. The articles are based on information provided by the American Institute of Certified Public Accountants and the Texas Society of Certified Public Accountants, in cooperation with the Internal Revenue Service.)

IF YOU rent all or part of your home, the income you receive is taxable. However, the government is only interested in taxing the amount you gain over and above your expense for maintaining the lodging. You can save valuable tax dollars by being aware of the expenses you can deduct from the rent you receive.

Assume that you own an eight room house. Since you only need six rooms, you decide to rent the other two rooms as a furnished apartment. You will now have two kinds of deductible expenses, those expenses that apply to the house as a unit, and those expenses that apply particularly to the apartment.

As a home owner, you can deduct any property taxes you may have to pay. You can also deduct the interest on a mortgage. This is true whether you rent part of the house or not, but there are some additional deductions you can take from the rent you receive for the two rooms. You can deduct such items as insurance, repairs, collection fees, depreciation, and brokerage commissions. But remember, these deductible expenses must apply directly to the two rooms you are renting. In other words, if you make repairs to the whole house you can only deduct from rent income the cost of repairs applicable to the two rooms being rented.

If you supply any utilities such as gas or electricity to your tenant without making a separate charge, you can deduct a portion of the amount you pay for these utilities from the rent you receive.

Income from renting all or a part of your home should be reported in Schedule G of Form 1040. However, if you perform any substantial services for your tenant, then the rent becomes business income and should be reported on Schedule C. For example, you may be supplying hotel-type services such as breakfast, laundry or cleaning. If such is the case, then you are actually receiving payment for the use of both your property and your services. In effect, you are in the hotel business and must report your income as business income.

Next Article: Deductions for Car and Home.

Home as a Business Office

If you can show that it is necessary for you to work at home as a part of earning your income from a business, profession, or job, you may be able to deduct a portion of your household expenses as business expenses.

It may be that you use a room as an office. You have equipped it with a desk, a couple of chairs or other materials for performing your work. You can deduct a portion of the following expenses as legitimate business expenditures: depreciation of your home heat, light, insurance and so on. You can also deduct any portion of your telephone bill applicable to your business affairs.

If you happen to be renting your home from someone else, you cannot deduct an amount for the depreciation of a portion of the house, but you can claim a share of the rent you pay as a deduction.

Some of the expenses for your home office are fully deductible. These are expenses that relate exclusively to your business, such as supplies, postage, depreciation of your office furniture, and so on.

Whether you are renting your home or using part of it as an office, remember to keep records of as many of your expenses as possible. Although you are entitled to deduct the expenses discussed in this article, the Internal Revenue Service may ask for an explanation of some of the items you deduct. It pays to have whatever information you can gather to support the expenses you claim.

You can get additional information on deductible expenses from the free instruction booklet issued each year by the Internal Revenue Service. A copy will be sent to you together with your income tax forms.

PLENTY OF HOT WATER WITH A QUICK RECOVERY
Electric WATER HEATER

Here's Why Your Water Heater Should Be Electric

NEW LOW RATE
 New low ONE CENT rate for electric water heaters... homes, stores, shops or plants... now you can enjoy controlled electric water heating for only one cent (1¢) per kilowatt hour.

FAST HEATING
 The Quick Recovery electric water heater... a brand new development in electric water heating... equipped with super speed heating elements is so efficient that hot water is replaced in the heater almost as fast as it is used.

A 40 gallon Quick Recovery electric water heater will outperform a standard 82 gallon heater. Electric heating, 100% efficient, puts all of the heat into the water. Much of the heat in flame type heaters is wasted up the flue.

NO FLAME
 With flameless electric heaters there is no danger from escaped fuel, no pilot light to go out, no flame or combustible materials. The electric heater is clean and safe as a light bulb.

FREE WIRING
 Free wiring for customers served by WTU. This free wiring offer also applies to 220 volt ranges and clothes dryers. Ask your electric appliance dealer or WTU.

There's never any work or worry with a Quick Recovery electric water heater. In new homes, in remodeled homes or replacing existing water heaters you will appreciate the space saving compactness of the Quick Recovery electric water heater. With no chimney or flue connections necessary, the electric water heater can be installed anywhere in the house. Saves space, saves money by preventing heat loss due to long pipe runs.
