He'll REALLY Louse It Up!

AROUND THE COUNTY

ARTHUR BARLEMANN, JR. COUNTY AGENT

Eggs of the pecan nut casebearer were found on Monday afternoon on Tuesday morning of this week on pecans at John Brock's, T. C. Davis' and H. A. Chapple's. The number of eggs found was not large but for each one of the tiny eggs found, many more are not found. Each tree owner will have to decide whether they want to spray or not.

Eggs were not found on a number of other trees around town that we looked at but it is possible that they are laying the eggs in the tops of the trees, and in the case of the larger trees, it is difficult to inspect the nuts in the tops of the trees.

Since the eggs were found on Monday and Tuesday and no eggs had previously been found on Friday of last week on the same trees, we assume that the eggs were just laid. The eggs hatch in four to five days and migrate to buds below the nuts to feed. After a day or two of feeding here, they move back up to the nuts and enter the nut, usually at the base. With this as a guide, it would be good to spray your trees on Friday, Saturday, or sometime over the weekend to get the majority of the insects. Once the worm has entered the nut, there is no control. Control measures, to be effective, must be taken during the day or two the worm is outside feeding on the buds.

There are several insecticides that may be used. Malathion at the rate of three pounds of 25% wettable powder to 100 gallons of water; toxaphene at the rate of 5 pounds of 45% wettable powder to 100 gallons of water; or DDT at the rate of 3 pounds of 50% wettable powder may all be used effectively. However, if you use DDT to control the casebearer, it is advisable to add 6 pounds of wettable sulfur to the mixture to control the mite or aphid which causes honeydew; the other preparations will also control the mite while controlling the casebearer.

In this area it is also a good practice to add 2 pounds of 36% zinc sulfate per hundred gallons of water for the control of rosette. Rosette is a nutritional disease which is especially bad in soils of the type we have here with large amounts of calcium. Infected trees have small leaves, often showing a yellow mottling in

lightly infected trees to reddish brown in severely infected trees. The internodes or shoots are shortened giving the tree a bunched appearance.

A second generation of the casebearers may occur in July or August, but this late generation will not cause as much loss as the first, or present, generation. Third generations may occur in August or September but by this time the shell of the nut is hard enough that little damage results.

Several new publications are now available in the office. They deal with several different subjects and have just been released.

The first is a revision of the mesquite control leaflet, L-415. Specifications for spraying mesquite have been revised somewhat as a result of experimental work all over the state. Recommendations now call for the use of 1/2 pound of 2,4,5-T and one gallon of diesel oil plus enough water to make 4 gallons per acre on many stemmed trees or sprouts. Formerly, one third pound of herbicide and one-half gallon oil and enough water to make four gallons per acre for aerial spraying was recommended.

Another new bulletin is **Common Internal Parasites of Sheep and Goats**. Written by James A. Gray, Extension Sheep Specialist, and D. C. M. Patterson, Extension veterinarian, it discusses the various internal parasites of these animals and the treatment.

Selecting Angora Goats for Increased Mohair and Kid Production, is another new bulletin. Also written by James A. Gray, it discusses a selection program for the goat man.

Any of these bulletins can be had free of charge by coming by the office or dropping a card or calling and requesting the ones you want.

Our WASHINGTON Letter

That U-2 incident has served to throw fresh light on the world-wide network of Soviet espionage activities. Because domestic communists in all countries owe their first loyalty to the Soviet Union, the Kremlin has a built-in spy system. In addition, Soviet agents by the thousands operate out of Embassies and Red consulates everywhere.

The West, on the other hand, cannot compete with the Muscovites in that field. The police state with its secrecy makes it extremely difficult for western intelligence to get through.

Yet, in this missile age, when perhaps the only defense against the ICBMs is to destroy the launching sites, the necessity for knowledge about the location of such sites is self-evident. Hence, the risks that are taken.

Kruschev showing outrage over the U-2 incident would be about like Frank Costello being outraged over a bingo game!

Speculation over what happened to Mr. K. in Paris continues. One line of thought, shared by many, is that when the Soviet leader went to Paris he thought there would be a summit conference. But after his arrival in France the word was flashed to him from the powerful Politburo in Moscow to keep away from it, turn his venom on the U. S. and Eisenhower.

Others point out that things have not been going too smoothly between the Chinese Communies and the Moscow red, and Peking, which has all along opposed the summit deal, turned the heat on Krushchev and Co. to heed their demands following the U-2 crash. That may have helped the Soviet bosses make up their minds to sabotage the meeting.

All seem to agree that even if there had never been a U-2 incident the summit conference was doomed to failure. The Soviets found themselves right up to the lick-log and were looking for an excuse to ditch the meet without appearing to be at fault.

The big break for the west came when Krushchev blew his top, and made a mad, raving fool out of himself, with the whole world looking on.

Widows Get Full Social Security Benefits at Age 62, Says Ellington

"Widows should apply for social security benefits as soon as they are 62", Floyd B. Ellington, Manager of the San Angelo District Office advises. "It would be even better if they applied a month or two before they are 62. Of course no one should delay, but widows in particular should be careful to apply for benefits promptly."

A woman's benefit based on her own account, or on the account of a living husband is reduced if she applies before age 65, but a widow's benefit is different. Widows' benefits are not reduced and the full amount is paid at age 62.

"So, if you are a widow", Ellington explained, "And we once paid you a lump-sum or monthly benefits, you should apply again when you are 62. In fact, you can speed your first check by applying a month or so before."

Mrs. Foster S. Price and her children left Tuesday for Throckmorton to visit her parents for a few days.

Teacher Retires From Active Work

Mrs. B. J. Crossno, the former Miss Mary Mitchell, has retired from the teaching profession effective at the end of this past school year.

Mrs. Crossno taught in the Sterling school more than two decades, and taught for some years at the Water Valley school.

The well-known and well-liked teacher has been teaching the third grade at the local school for a number of years.

Jake Crossno, her husband, retired last year from the Sterling County maintenance crew here. They have one son, Dr. Joe David Crossno, of Fairfield. He graduated with honors from Abilene Christian College and got his medical degree from Southwestern Medical School, Dallas. After serving as a doctor in the U.S. Air Forces in England two years, he now practices medicine in Fairfield.

On European Tour

Miss Ethel Foster, local club woman, is in Europe on a tour with a group of club women from over the nation.

She was in London when Princess Margaret married Anthony Armstrong-Jones. She is visiting various other countries and calling on the club groups in the interest of the General Federation of Women's Clubs.

Miss Foster is a past president of the Texas Federation of Women's Clubs and is an officer in the G.F.W.C.

Pettys Moving To Robert Lee Socn

Mr. and Mrs. Bernard Petty are moving to Robert Lee Socn. Mrs. Petty will teach in the Robert Lee school next year. Bernard will be closer to their ranch near Silver.

Mrs. Petty, the former Laverne King, has taught in the Sterling school for the past four years.

Roland Lowe Undergoes Operation in San Angelo

Roland Lowe, local hardware man, underwent an operation in the Shannon Hospital in San Angelo Wednesday morning of this week. He had been there all week having some tests preparatory to the operation.

Seasoning For Your Salads

By Betty Barclay

THE Avocado Sea Food Salad here contains wonderful ingredients that are all in good supply right now. And these items take on added interest, thanks to the use of the expertly blended exotic herbs salad dressing. Whether you're a salad expert or a novice, you'll like the way this mix seasons your salads just right, every time!

Avocado Sea Food Salad
 1 envelope Good Seasons Exotic Herbs Salad Dressing Mix;
 2 medium avocados, peeled and cut in halves; ½ cup mayonnaise; 4 teaspoons lemon juice; 1½ pounds fresh shrimp or crayfish, cooked, cleaned, and cut in small pieces*; ½ cup coarsely chopped celery; dash of pepper; salad greens; 16 asparagus tips; 8 pimento strips; 2 hard-cooked eggs, sliced.

Sprinkle 1½ to 2 teaspoons of the dressing mix over avocado halves. Combine remaining dressing mix with mayonnaise and lemon juice. To half of this mixture add sea food, celery, and pepper. Pile into avocado halves. Place on salad greens. Garnish each salad with 4 asparagus tips, 2 pimento strips, and several egg slices. Serve with remaining dressing mixture. Makes 4 servings luncheon or entrée salad.

*Or use 2 cups canned shrimp or crayfish, drained and cut in small pieces, or 2 cups canned lobster, drained and flaked.

Sauce for the Goose

By Betty Barclay

"There's no better way to add variety and a party touch to family meals than by the clever use of sauces,"

says the new General Foods Kitchens Cookbook.

This unique book, compiled by more than 130 women of General Foods Kitchens, is almost square in shape and designed to lie conveniently flat when opened. The de luxe edition of the cookbook comes with a wrought iron holder which can be used to hang the book on the wall and then props it open at just the right angle for easy reading when you place it on your work counter or table.

This Indian Jelly Sauce is suggested as being especially good with ham or pork.

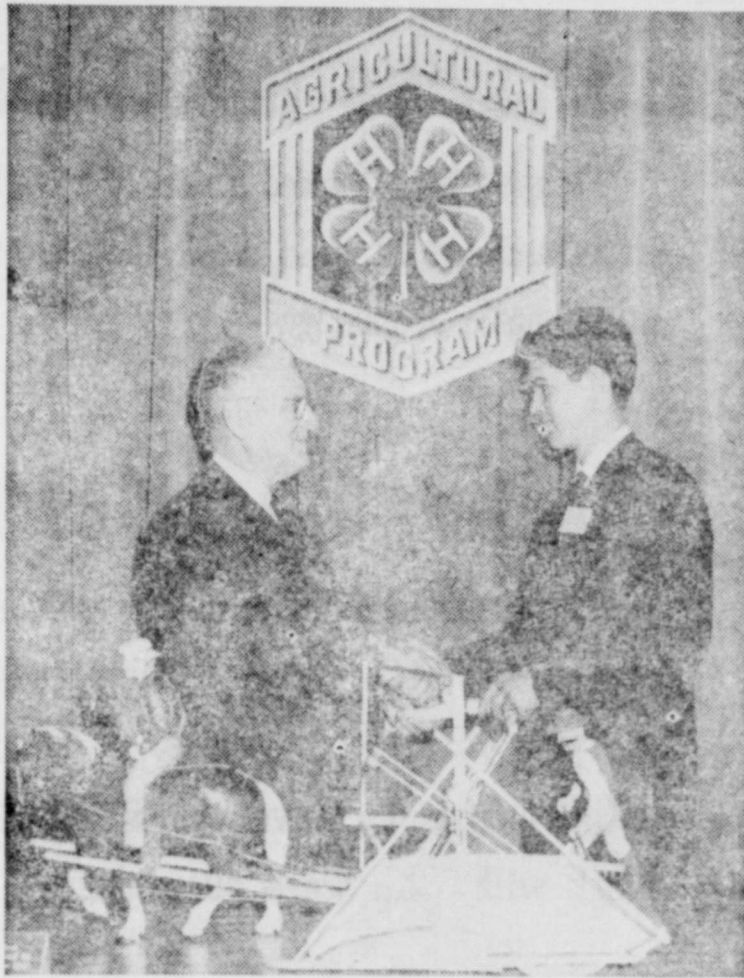

Indian Jelly Sauce

1½ cups apple jelly; ¼ cup chutney; 1½ teaspoons lemon juice.

Melt jelly over low heat. Stir until smooth. Mix in remaining ingredients. Serve warm with ham or pork. Makes 1½ cups sauce, or 10 servings.

4-H Boys' Agricultural Awards Winner

Roy Dee Gregg, 17, of Plainview, Texas, receives \$400 scholarship from Frank W. Jenks, International Harvester president, during 38th National 4-H Club Congress in Chicago. Roy was one of the six winners in the National 4-H Boys' Agricultural Awards Program sponsored by Harvester. In the foreground is a miniature replica of Cyrus Hall McCormick's 1831 reaper which revolutionized agriculture.

Roy Dee Gregg, 17, of Route 3, Plainview, Hale County, Tex., was one of six young 4-H Club members singled out for special honors during the 38th National 4-H Club Congress just held in Chicago.

Roy, as did five other national winners, received an all-expense trip to the congress and also was awarded a \$400 International Harvester scholarship as a result of his outstanding record in agricultural projects.

The objectives of the program, known as the National Boys' 4-H Agricultural Awards, are to develop leadership and gain a better knowledge of those agricultural projects and activities which contribute to better farming and a more satisfying rural life.

Arranged and announced by the National Committee on Boys and Girls Club Work, the program is sponsored by International Harvester Company and conducted by extension services of state agricultural colleges and the U.S. Department of Agriculture.

Roy, the son of Mr. and Mrs. Melvin Gregg, is a senior at Plainview High School. He has

spent eight years in 4-H club work and is a member of the County Wide Club.

Working on 4-H projects came naturally to Roy since his older brothers were active members and his father an adult leader. This year he carried out six major projects, including steers, lambs, calves, grain, garden and cotton.

In addition to earning a profit of nearly \$7,000 from his 4-H projects, Roy has won numerous awards and ribbons for a variety of activities. In 1959, he was a judge on the first place team at the El Paso Fat Stock Show and took high individual honors in that event.

Roy likewise has been a member of the first place livestock judging team at the Texas State Fair and has been winning prizes for his cotton since 1953.

A past president of both his local and county clubs, Roy is a member of the American Junior Rodeo Association and is active in church and community work. He lives on his parents' 600-acre farm.

Most Important Room

Kitchen Best Starting Place When Remodeling Home

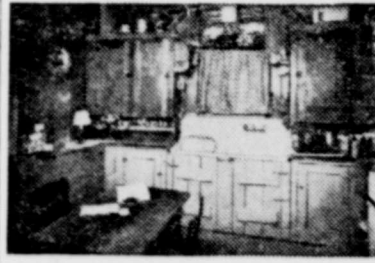

Magic of remodeling changed kitchen in 150-year-old house (below) to elegant, efficient beauty above. New appliances such as the electric dishwasher not only help beautify, but cut kitchen time and labor in half.

Ask any housewife who's lived in an older home which room she'd remodel first and the answer usually will be: the kitchen!

An old-fashioned, dimly-lit kitchen with an ancient sink and few, if any, work-saving appliances drains her energy and occupies too much of her time with disagreeable chores.

A modern kitchen, on the other hand, complete with such labor-saving appliances as an electric dishwasher, new refrigerator-freezer, counter-top electric range, and electric wall oven, inspires a housewife to cook better meals and gives her more free time and energy to spend with her family.

The electric dishwasher alone frees her from hours of drudgery she'd have to spend in the kitchen washing the dishes by hand. Other innovations, such as adequate lighting and an efficient range-hood exhaust fan help make her more efficient and cheerful.

HOW LONG has it been since you attended a real old-time Gospel singing?

Plan now to attend and hear congregational singing, quartets, choral groups and special numbers. CHURCH OF CHRIST, 3:00 p.m. Sunday, May 29th. WELCOME . . .

FOR Seven days a week we offer you friendly, courteous service. Drive in and see. Carter's Drive-In Grocery & Cafe. (Adv.)

Mr. and Mrs. Boots Williams left the first of this week for New York City for a visit with their daughter, Sandra, who works there.

Sterling Alumni To Meet June 18

The Sterling Alumni Association will meet for the annual gathering on June 18. Such announcement was made this week by Mrs. I. W. Terry, president.

The meeting will be held at the Town and Country Club in San Angelo. A steak dinner will start at 7:30 p.m. and the cost is \$2.50 per plate.

A dance follows at 9 o'clock and the cost is \$3.00 per couple.

Reservations may be made with Mrs. Terry, Box 356 in Sterling City.

The alumni dinner is for alumni, but the dance is open to all who care to join in, it was said.

In Sterling City Tuesday on business for the General Telephone Co. were Mrs. Roland McCullough, Roy L. Baker, Mrs. Sam Skipworth and Geo. Dillin, Jr.

"Who owns the Electric Company?"

A lot of our own customers can't answer that one. But there's certainly no secret about it.

The electric company is owned by people. Thousands of people, like you, who invest their money and help the company to grow.

Your electric company is not owned or run by the city. Not by the state either. Not by any kind of government. It is an independent business.

That's an important reason why you get the best possible electric service at such a low price.
