Noratadata Club Summer Party

The members of the Noratadata Club had a summer social party at the community center last Friday evening. Hostesses were Mrs. Reynolds Foster, Mrs. Robert Foster, Mrs. Forrest Foster and Mrs. Mildred Emery. A salad plate was served.

Besides club members, two guests were present, being Mrs. T. S. Foster and Mrs. J. I. Cope.

Bridge was played and prizes went to Mrs. Neal J. Reed, Mrs. F. S. Price and Mrs. T. S. Foster.

SEE me for your cedar posts, hay and general hauling. Jake Sparks, Phone 8-3411.

At Baptist Camp This Week

The Rev. Billy Crews, local Baptist pastor, took six young people from the First Baptist Church here, to the Baptist summer camp on Lake Brownwood this week. He took Janice Stewart, Phoebe Owens, Pat Potts, Billy Blair, Tommy Williams and Corwin Collins.

SHOWERS WEDNESDAY

Spotted showers hit Sterling County Wednesday of this week. In parts of town the fall measured .40. Some areas of the county got heavier in spots, and some areas got less than the town fall.

FOR SALE—Electric portable Singer sewing machine \$20; buttonhole attachment \$5. Call 8-4241.

Baptist VBS To Start Monday

A vacation Bible school will begin Monday morning at the First Baptist Church. The school will run through Friday. There will be classes for all ages.

Classes will open at 8:15 a. m. and close at 11:15 a. m. A commencement service will be held next Friday evening at 8:00 p. m.

All the boys and girls of the community are invited to attend said pastor Billy Crews.

Notice of Hearing in the Matter of Forfeiting, Revoking and Cancelling Certified Filings and Permits To Appropriate Public Waters of The State of Texas

Notice is hereby given to whom concerned that under and by virtue of the authority vested by law in the Board of Water Engineers of the State of Texas a hearing will be held by said Board at its office in the State Office Building, 201 East Fourteenth Street, Austin, Texas, beginning at 10:00 o'clock A. M., on Thursday, the 1st day of September, 1960, in the matter of forfeiting, revoking and cancelling the following certified filings and permits, to wit:

1. Permit No. 63 Said permit, issued on March 11, 1915, in the name of George H. McEntire, Sterling City, Texas, is of record in the files of the Board of Water Engineers and in the County Clerk's office in Sterling County, Texas. Said permit authorized the diversion of 4.0 cubic feet per second of water from the North Concho River in Sterling County, Texas, for the irrigation of 41.2 acres of land located in Section 7, Block 14, S. P. Ry. Co. Survey in said county.

2. Certified Filing No. 597 as amended by Permit No. 150. Said certified filing, originally in the name of J. N. Kellis and now in the name of George H. McEntire, Sterling City, Texas, is of record in the files of the Board of Water Engineers and in the County Clerk's office in Sterling County, Texas. Said certified filing declared an intent to divert 5.0 cubic feet per second of water from an existing dam and reservoir with impounding capacity of approximately 64 acre feet of water on the North Concho River in Sterling County, Texas, for the irrigation of 83 acres of land, more or less, located in Section 8, Block 14, S. P. Ry. Co. Survey in said county. Certified Filing No. 597 was amended by Permit No. 150 granted October 26, 1916, and in accordance with said permit the point of diversion was changed to the south side of the North Concho River and within Section 8, Block 14, S. P. Ry. Co. Survey in Sterling County, Texas, and the annual diversion for irrigation was limited to not exceed 70 acre feet of water per annum.

3. Certified Filing No. 66. Said certified filing, originally in the name of W. R. McEntire & Son, Sterling City, Texas, and now in the name of George H. McEntire, Sterling City, Texas, is of record in the files of the Board of Water Engineers and in Volume 12, page 602-3, Deed Records of Sterling County, Texas. Said certified filing declared an intent to divert 6.0 cubic feet per second from an existing reservoir with storage capacity of approximately 60 acre feet of water located on the North Concho River in Sterling County, Texas, for the irrigation of 40 acres of land more or less located in Section 26, Block 23, H. & T. C. Ry. Co. Survey in said county.

Reference is here made to the above certified filings and

HOSPITAL NOTES

Patients in the Sterling County Hospital on Thursday morning of this week were—

D. P. Glass
Fannie Copeland
George H. McEntire
Mrs. J. O. Longshore
Dismissals since Thursday morning of last week—
Ysidro Asebedo
Mrs. W. B. Everitt

David Drennan Hurt In Fall

David Drennan, son of Mr. and Mrs. Charley Drennan, fell from the second story of their ranch home last Friday night and seriously hurt himself. He fell 16 feet.

His family found him unconscious later from the fall and he was taken to the Coke County Memorial Hospital at Robert Lee, where he is still hospitalized.

It was said that David fell from a window of his bedroom while still asleep.

On Wednesday of this week it was said that David had a broken bone in his back and he would be put in a cast. He can be moved to his home Tuesday of next week.

Kappa Delta Pi Initiates Local Student

Darrell Nathan Flynt of Sterling City was recently initiated into Zeta Delta Chapter of Kappa Delta Pi on the Sul Ross State College campus. Kappa Delta Pi is a National Education Honor Society.

Mr. and Mrs. Clyde Brown and daughter, Gail, of Pasadena, Texas, have been here visiting the M. Z. Browns. M. Z. and Clyde are brothers.

Mrs. Jack Wilkinson of Midland is here while her father, George McEntire is in the local hospital. Mrs. Wilkinson is staying at the R.T. Fosters.

FOR SALE—Frying size bantams, 25s each. Call T. L. (Levi) Martin, 8-3141.

permits for a full description of their terms and conditions and for all other purposes.

Said hearings will be held at the time and place aforesaid in the matter of forfeiting, revoking and cancelling said certified filings and permits on the grounds of wilful abandonment for three successive years in accordance with Article 7544, Texas Civil Statutes; failure to begin and to prosecute with reasonable diligence to final completion the work and development contemplated by the declaration of appropriation, in accordance with Article 7474, Texas Civil Statutes; failure to begin the works authorized by the permit and to prosecute the same diligently and continuously to completion within the authorized time, in accordance with Article 7519, Texas Civil Statutes; and failure to apply all or a part of the water to an authorized beneficial use for a period of 10 consecutive years prior to the date of cancellation proceedings herein in accordance with Article 7519a, Texas Civil Statutes. At the above described hearing, at the above described time and place, and all interested parties may appear to be heard and to present evidence on any matter pertinent to the question at issue in said hearing. Such hearing will be continued from time to time and from place to place, if necessary, until a determination has been made relative to said certified filings and permits as the Board of Water Engineers may deem right, equitable and proper.

Given under and by virtue of an order of the Board of Water Engineers of the State of Texas, at its office in Austin, Texas, this 8th day of July, 1960.

Lions Seeking To Sponsor Dam Here

Friersons Visit Here

The Byron W. Friersons of Huntsville visited friends in Sterling Thursday evening and Friday morning of this week. Frierson, former county agent here, now is head of the Texas Prison System farming and agricultural department. Under Frierson, the department now feeds all the prisoners and shows an annual profit. All meat and vegetables for the prisoners are now raised on the prison farms.

From Behind The 8-Ball

Jeff Davis has a collection of Indian arrowheads, spears, grinders, knives, scrapers and other artifacts that would surprise most anybody. Jeff has collected artifacts through the years and has mounted for display a lot of them. He has oodles yet to mount. He has all sizes of arrowheads and knives of the area Indians.

Davis has taken prizes with just parts of his exhibits at shows. He could top all shows should he take all of his collection. Jeff has more than a ton of unmounted artifacts, grinders, (bowls and pestles), and heavier items. They make an impressive showing of the work of the area Indians.

8—BALL
If these little showers keep up the rainfall totals might finally show a decent figure hereabouts. And all the little showers are greening up the ranges. Let's hope it rains all summer—even if in small amounts.

8—BALL
One wit has it now "Half the way with LBJ." I'm not sure whether that means to vote to put him into the vice-presidency or keep him in the Senate as majority leader.

8—BALL
An increasing number of the smaller weekly newspapers are taking off one week in the summer for vacations—for owners and employees. The issue that would be missed is actually incorporated into the next issue or the one before the week's closing for a vacation.

The idea is growing over the area, and it appeals to me more and more each year, or each time I think about it. It wouldn't surprise me if one week right away I didn't just decide to take off a week for a very short vacation.

Nearly everybody needs a short summer vacation these days.
Don't be surprised if you find the News-Record doing just that—maybe next week.

Teen Party Saturday Night

The last teen party of the year will be held in the community center this Saturday night, July 23. The party begins at 7:30 p. m. and all teen agers are invited.

The Teen Party was organized as a club project by the Epsilon Zeta club as a project for the 1959-60 club year and this will be the final one, said Mrs. Vanda Shew this week.

Debra and Sandra McCann of Norfolk, Va., nieces of Mrs. Nan Emery, have been here visiting Mrs. Davis and her two daughters, Edna and Ollena. The two girls and Ollena are going to visit the O. D. Emerys in Weslaco before they return to Virginia.

The Lions Club members discussed the possibility of a dam on the North Concho River here, when they met at the community center Wednesday noon for the regular meeting.

Talk mostly was about the advisability of getting a dam now—or it would be too late in five more years or even in less time. Water rights are rapidly being defined over the state and those that do not already have dams or water rights will be "out in the cold" in the near future—if they don't act now.

A likely spot for a good dam was up the river across from Jeff Davis' place just below where the Concho River and Lacy Creek run together. Two abutting hills just a quarter of a mile apart could be used for the dam with the likelihood of a nice size lake being formed there. Cost of course, would have to be determined and proper action initiated to get started.

Jim Coleman appointed a committee to look into the possibilities of a dam. He named Jack Douthit, Jeff Davis, Alvie Cole and Bill Brooks.

The dam talk followed a discussion of a swimming pool for Sterling, and the dam idea was considered the answer to that problem as well as others by members.

Several members had gone to neighboring cities and communities last week looking into swimming pools and the cost, problems, financing, etc. Some had been financed by taxes, some by stock sales and some were operated free and others charged swimmers.

A "country club" type of a pool here was discussed as a possibility. A little league ball park for both boys and girls girls was discussed.

Lake Would Be Boon To Economy

Members pointed out that a lake here, although small as lakes go, would be a boon to the economy of Sterling. The fishers that pass through here now to get to the lower Texas lakes would stop here in time. The economy of the business community and the land owners would be enhanced.

The water itself would be a source of city water supply, said several, voicing the opinion that the well was too undependable for the long look.

Acting president Jim Coleman said he and two other committee members went to McCamey and Rankin last week. Their swimming pools are owned by the cities and operated by the city parks. The pools are operated free and are unsegregated.

Achievement Award To Don McDonald

HOUSTON—Don McDonald of Sterling City received a Santa Se Railway achievement award Thursday night at the State Future Farmers of America 2nd annual convention here.

L. M. Stephens of Lometa was one of four business and professional men receiving honorary Lone Star Farmer awards for service to the FFA. Robert L. Tant, 18, of Cranfills Gap (Bosque County) received the Star Lone Star Lone Star Farmer award, the highest honor awarded annually by the association.

E. B. Hosea To Go To Goree School

E. B. Hosea, business instructor in the local high school for several years, is resigning and going to Goree next year. Mr. Hosea has bought a home in Goree and plans to settle there for good. His wife's parents live in Goree and his family lives at Munday, just a few miles from Goree.

AROUND THE COUNTY

ARTHUR BARLEMANN, JR. COUNTY AGENT

Reynolds Lee Foster will attend a meeting of the State 4H Council at Kilgore Junior College August 2-6. Lee will be a representative of the 4-H Club boys in Extension District 7 which comprise 22 counties in this area. He was selected on the basis of his past records and achievements in 4-H club work by a committee in San Angelo.

Jim Gray, Extension Service Sheep Specialist, aided Reynolds and Ross Foster and the county agent in asheep selection program Wednesday. The selection program is the result of efforts of the Extension Service and the Texas Sheep and Goat Raisers' Association to bring about an improvement in the sheep and goats on Texas ranches.

The program is a flexible one which can be adjusted to fit the individual rancher's operations. Under the program, both rams and ewes are divided into two or more groups depending on the ranchers preference and available pastures. From the top group of ewes and rams, replacements for the breeding flock are selected. The lower groups can be either bred to blackface bucks for lamb production or sent to market if circumstances permit, or retained until they can be replaced with ewe lambs from the top group.

One result of this program initiated two years ago by Reynolds and Ross was seen in a group of yearling ewes. These yearling ewes were the offspring of some ewes put in the top group in 1958. There was a higher percentage of

blue or top ewes in this group than in other groups. Basis of selection is conformation, wool production and whether or not the ewe produced a lamb during the current year.

Several 4-H Club members, their fathers and I are going to the Weaver club lamb sale at Eden Saturday. The Weavers have made an outstanding record as 4-H feeders at Texas shows for a number of years. This year they have raised a number of lambs for sale to feeders. They will have about 215 lambs for sale Saturday; they include finewool lambs, crossbred lambs and South-downs.

Dates for the annual Beef Cattle Shortcourse for cattle producers is August 8, 9, 10 on the campus of Texas A & M College. This shortcourse is held each year in August for the benefit of Texas cattlemen and is sponsored by the college's Department of Animal Husbandry.

Topics on the program this year include feeding, breeding, carcass evaluation, veterinary problems, and many other topics. Several speakers are devoting time to feeding cattle in feedlot operations in Texas. This topic is becoming more popular in this state since both the feed in the form of grain and good quality cattle are available in many areas.

Registration fee for the shortcourse is \$5 A copy of the entire program is available in the county agent's office for anyone who might be interested.

Widows Get Full Social Security Benefits at Age 62, Says Ellington

"Widows should apply for social security benefits as soon as they are 62", Floyd B. Ellington, Manager of the San Angelo District Office advises. "It would be even better if they applied a month or two before they are 62. Of course no one should delay, but widows in particular should be careful to apply for benefits promptly."

A woman's benefit based on her own account, or on the account of a living husband is reduced if she applies before age 65, but a widow's benefit is different. Widows' benefits are not reduced and the full amount is paid at age 62.

"So, if you are a widow", Ellington explained, "And we once paid you a lump-sum or monthly benefits, you should apply again when you are 62. In fact, you can speed your first check by applying a month or so before."

Additional Work Might Increase Your Social Security

"Social Security benefits can be increased in some cases by additional work after a person first applies for benefits," Floyd B. Ellington, manager of the San Angelo social security office announced today. "But certain requirements must be met before the benefit amount can be refigured."

If a person continues working during the year he first files for social security, he may request that his benefit amount be refigured to include the total earning for that year. There is no definite amount he must earn in the year, but it must increase the average earnings figured at the time of filing.

Another type of recomputation has a definite earnings requirement—earnings must exceed \$1200 in a calendar year after the year the person first filed for benefits. Even though the earnings exceed \$1200, the benefit cannot be increased unless the work since filing would raise his average earnings.

Ellington emphasizes that it is better to check with your social security office and be sure, rather than to guess whether work after retirement will increase your benefit amount. Write your local office and include the amounts of your earnings in each year beginning with the year of filing up to the present, as accurately as possible and the effect on your present check can then be determined.

Social Security Should Be Paid on Household Workers

Many housewives in this area may be depriving their household workers of social security protection according to a joint statement issued by S. Baker Mallett, Administrative Officer of the San Angelo Internal Revenue office and Floyd B. Ellington, Manager of the Social Security district office.

"Workers' earnings are credited to their social security account from reports of their employers, and most of the employers," Mr. Mallett said, "faithfully report these earnings year after year." Some household employers who only recently hired household help may not realize their responsibility, and their employees, in particular, should make sure they are protected. The next quarterly report is due by July 31.

"Postcard forms for checking your own account with social security are available at all social security offices and should be used as least every three years by all workers, added Ellington.

If statements returned by social security show that your earnings are not posted to your record, steps will be taken to correct the omission and make sure that your employers report promptly and properly.

"Most people need many years of social security credit to qualify for benefits," Ellington said, adding, "It's your social security; make sure you are protected."

4-H Boys' Agricultural Awards Winner

Roy Dee Gregg, 17, of Plainview, Texas, receives \$400 scholarship from Frank W. Jenks, International Harvester president, during 38th National 4-H Club Congress in Chicago. Roy was one of the six winners in the National 4-H Boys' Agricultural Awards Program sponsored by Harvester. In the foreground is a miniature replica of Cyrus Hall McCormick's 1831 reaper which revolutionized agriculture.

Roy Dee Gregg, 17, of Route 3, Plainview, Hale County, Tex., was one of six young 4-H Club members singled out for special honors during the 38th National 4-H Club Congress just held in Chicago.

Roy, as did five other national winners, received an all-expense trip to the congress and also was awarded a \$400 International Harvester scholarship as a result of his outstanding record in agricultural projects.

The objectives of the program, known as the National Boys' 4-H Agricultural Awards, are to develop leadership and gain a better knowledge of those agricultural projects and activities which contribute to better farming and a more satisfying rural life.

Arranged and announced by the National Committee on Boys and Girls Club Work, the program is sponsored by International Harvester Company and conducted by extension services of state agricultural colleges and the U.S. Department of Agriculture.

Roy, the son of Mr. and Mrs. Melvin Gregg, is a senior at Plainview High School. He has spent eight years in 4-H club work and is a member of the County Wide Club.

Working on 4-H projects came naturally to Roy since his older brothers were active members and his father an adult leader. This year he carried out six major projects, including steers, lambs, calves, grain, garden and cotton.

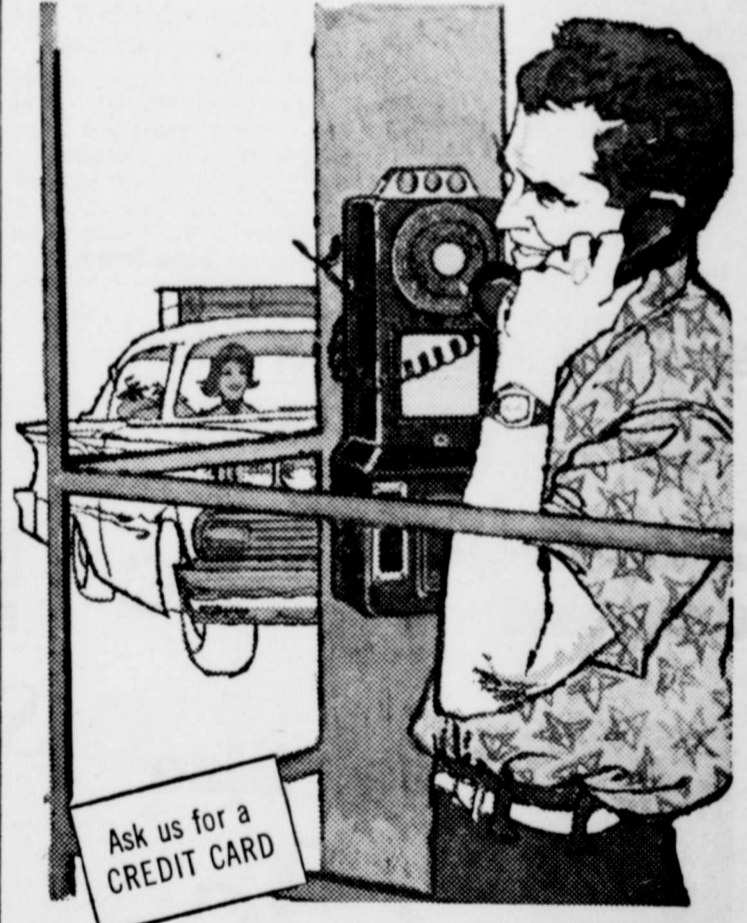

In addition to earning a profit of nearly \$7,000 from his 4-H projects, Roy has won numerous awards and ribbons for a variety of activities. In 1959, he was a judge on the first place team at the El Paso Fat Stock Show and took high individual honors in that event.

Roy likewise has been a member of the first place livestock judging team at the Texas State Fair and has been winning prizes for his cotton since 1953.

A past president of both his local and county clubs, Roy is a member of the American Junior Rodeo Association and is active in church and community work. He lives on his parents' 500-acre farm.
