

## Eagles Top Gail 26-6 Last Friday

### Play Loop Here Tonight

The Sterling City Eagles knocked the Gail Coyotes down to size last Friday night to the tune of 26-6 in a game on the Coyote field. Gail's lone counter came in the second quarter when Max Stevens went around the Eagle line for six points.

In the first quarter Jerry Payne of the Eagles and David Durham romped over for 6 points each and following the second counter, Payne passed to Bill Coleman for the extra two points.

Durham in the third quarter garnered another six for Coach Dillard's boys and in the last few minutes of the game Payne covered the ball in the behind the Coyote goal line for the final six points of the game for the locals.

A large group of the locals are freshmen. Dillard is especially proud of the showing made by his younger boys. Danny Bailey and Bill Dees showed up well among the frosh. Vernon Asbill, a junior, did a good job at center as well as guard.

Leroy Churchill will be able to play by Friday night in the game with Loop, said Dillard.

Last Friday night while the Eagles were beating Gail, the Loop boys beat Garden City 14-6.

### PLAY LOOP HERE TONIGHT AT EIGHT O'CLOCK

Dillard's boys engage the Loop team here tonight in a non-conference tilt.

Eagle guards are Johnny Augustine, Vernon Asbill, Billy Bauer, Billy Joe Tindall, and Bill Dees. Reynolds Lee Foster and Charles Daves are centers, and ends are Leroy Churchill, Bill Coleman, Danny Bailey, Crisp Williams.

Backs on the Eagle team are David Durham, C.L. King, Clayton Stewart, Jerry Payne, Eddy Coleman, Bill Foster and Royce Sparks.

Coach Dillard is being assisted by Fred McDonald as assistant this year. Student managers listed are Billy Blair and James Latham.

Cheerleaders are Temple Ann Foster, Willene Glass, Mitsy Davis and Lois Ethel Price.

### Season Tickets To All Home Games Available Tonight

Superintendent O. T. Jones said season tickets would be ready for sale at the gate tonight. They cover all four of the home games, being the ones with Loop, Dawson, Garden City, and Grandfalls.

Season tickets will be sold at the south gate to adults for \$2.25 (which is a \$3 value), and school age children can get tickets for 75c (which is a \$1.00 value).

Mrs. Fred Allen and Freddie of Las Vegas, New Mexico, are here visiting her mother, Mrs. Rufus Foster this week.

### HOSPITAL NOTES

Patients in the Sterling County Hospital on Thursday morning of this week included—

Mrs. Fred Hodges  
Cecilia McDonald  
Mrs. Jim Butler  
Mrs. Daisy Smith  
Wanda Simmons  
Rudolph Favilla  
Mrs. Charles Allen  
Ira Glasscock

Dismissals since Thursday morning of last week include: Mrs. W. B. Atkinson  
Wayne Elliott  
Mrs. G. R. Blue  
Ira Glasscock, Sr.

THOSE interested in ballroom dancing classes (4th grade and up)—Registration Saturday morning, Sept. 9th at the Legion Hut.

Polly Holland

It's time we resume our nuclear tests. Time may be running against us. Improvement in A-bombs can only come as a result of testing, and we simply cannot afford to allow the Russians to get ahead of us in that field. In fact, it may be that the Soviets have been secretly testing all along by using underground sites. Such tests are difficult to detect.

It has become evident that the Kremlin has been playing for time while engaging in extended nuclear control talks at Geneva. It has been a stalling operation, capped suddenly last week by the announcement of test resumption. The next day they set one off, indicating they had been preparing for the test while pretending to negotiate in good faith.

Khrushchev's threats about the super bomb, coupled with the new test, is believed to be part of Soviet scheme to terrorize the world and in that way attract the panic-stricken neutral or uncommitted nations to the Russian orbit. Actually, our scientists believe we are as far along on development of a supermegaton bomb as are the Communists. In fact, in all likelihood we are further advanced unless they have been testing on the sly. In stockpile we are much ahead of them.

The new Russian technique of Blackmail and intimidation may backfire, observers here believe. The effect may be to further solidify the west in the power drive now going on. And the neutral nations may not be as easily scared as Khrushchev has planned. Nasser, for example, has condemned the Russians for resuming the tests and even Nehru has been critical.

In analyzing the Soviet motives for breaking off control negotiations, followed immediately by a nuclear test, while at the same time boasting of their new bombs, observers are convinced it is a psychological move timed to coincide with the Berlin crisis and the Belgrade meeting of the neutrals, now going on.

In any event, it is imperative, as I see it, that we immediately prepare for resumption of tests. We have no alternative.

Among recent guests have been Mrs. Geo. Walker and Gen. Edwin A. Walker, both of Center Point; Mr. and Mrs. Bryant Jones and daughter Susie, of San Angelo; and P.R. Randy, and Donnie Jones, of Eola.

**To the Foster Cemetery Lot Holders:**

Please do not leave water running over-night for watering. The water is limited; the well is weak and the storage limited. Just use your share.

Cemetery Association

Mr. and Mrs. Bill J. Cole and family, Mr. and Mrs. Alvie Cole and family, Mr. and Mrs. H. M. Gober and Linda Gail, and Mrs. James McEntire, spent last week-end in Ruidoso, New Mexico.

Boots Williams returned home Monday night from a fishing trip in northern New Mexico on the Red River lakes and reported catching some mountain trout.

## GOOD RAINS SOAK COUNTY

Good rains soaked Sterling County and West Texas Sunday night, Monday and early Tuesday of this week. Here in town one and nine-tenth inches was recorded. More rains fell to the east and the north and south of town.

The heaviest rains of the period were recorded in Coke County, and up to nine inches fell in spots of that county.

Rains were needed on the ranches around here. Most of the country had dried out from the spring rains and the grass and weeds were burning. Their dryness posed a serious grass fire threat to all area ranchers. The rains of this week eased that situation for a time.

Guests present at the meeting were Tink Hiebert, Mrs. Leslie Payne, Carolyn Payne Stewart, Leonard Daughtery, and a Mr. Honea.

## York Gruny Dead of Heart Attack

Albert G. (York) Gruny, 43, a resident here for 14 years died at 10:30 p.m. last Friday at his home. He suffered a heart attack and died quickly. It was said.

Gruny, who once owned and operated the City Cafe here, had been ailing from a heart ailment for several years.

Funeral services were held Monday morning at ten o'clock in the Church of Christ, burial was in the city cemetery. Bro. Marior Hays officiated at the services. Lowe Funeral Home was in charge of arrangements.

Survivors include his wife, Mrs. Ruby Gruny, a son, David, of Fort Stockton, and his mother, Mrs. A. G. Gruny of Hawthorne, New Jersey.

## Lions See Film on SW Conference Hi-lights

A film on the highlights of the 1960 Southwest Conference football season was shown to the Lions Club following the luncheon meeting Wednesday. Kern Tips narrated the film. Leslie Payne had been responsible for the program.

W. J. Stewart of the Sunset Motor Lines, was a guest at the luncheon and he said that by the 15th of September or October 1st at the latest, the truck line would have at least four day delivery service here and possibly five or six. He said the company was working on the problem of deliveries here.

The prize went to Frank Jackson.

Guests present at the meeting were Tink Hiebert, Mrs. Leslie Payne, Carolyn Payne Stewart, Leonard Daughtery, and a Mr. Honea.

## PTA Next Thursday Night at School

Lt. Larry Glass to Show Pictures He Made in Europe

Lt. Larry Glass, son of Mr. and Mrs. David Glass, will show slides he made while on duty in Europe with the U. S. Air Forces last year—at the first meeting of the PTA. The meeting is set for next Thursday night at 7:30 in the school.

Everyone is welcome to attend the meeting, said the president, Mrs. Ross Foster.

Marion Hays will give the devotional and Mrs. David Glass will lead the assembly in group singing.

A reassembly reception will follow the program.

## School Underway With 218 Enrolled

MARION HAYS  
HAYS BEGINS 6th YEAR AT CHURCH OF CHRIST

Marion Hays, local Church of Christ minister, begins his 6th year as minister here on next Sunday, September 10.

Hays came here from the church at Dunn, near Snyder. He was at the Dunn Church for one and one-half years—before that he had been at Clyde, Texas.

## SCHOOL LUNCH ROOM MENUS

MONDAY, SEPTEMBER 11

Cherry Pie  
Orange Juice

THURSDAY, SEPTEMBER 14  
Steak and Gravy  
Creamed Potatoes  
Pea Salad  
Rolls  
Pear Halves  
Cake

FRIDAY, SEPTEMBER 15  
Fish Sticks

The 1961-62 school year opened for students here on Tuesday, September 5 with a group meeting in the school auditorium. Superintendent of schools O. T. Jones presided at the opening. He gave the schedule of the year; introduced the new teachers and gave facts about the school insurance, transportation, etc.

Jones said Mrs. Dick Mitchell would again teach private piano lessons at the school.

Classes will open at 8:45 a. m. (with 9 a.m. as the tardy time) and suggested that the best hour for arrival of the students would be between 8:30 and 8:45 a.m.

The Rev. John Gibbs, local Methodist pastor, gave the invocation for the school opening.

A total of 218 students had registered by Thursday of this week, according to Jones.

There are 61 students in high school and 157 enrolled in grade school. The enrollment by classes is as follows:

218 Students Registered

1st (Latin-Am.)	11
1st (Regular)	17
2nd	25
3rd	21
4th	17
5th	14
6th	16
7th	18
8th	18
TOTAL GRADES	157
High School	
9th	27
10th	15
11th	5
12th	14
TOTAL HI SCHOOL	61
GRAND TOTAL	218

Little Sanday Davis, who suffered a concussion at a fall recently, was released from the Shannon Hospital Tuesday afternoon. Daddy Billy Vern Davis brought his wife and child home that day. Mrs. Davis had been staying in Angelo with Sandy.

Cullis King underwent an operation on his burned hand at a veterans' hospital in Houston last week. He had one finger removed in the operation.

Mrs. Gene Alley underwent surgery in the Shannon Hospital Tuesday morning.

Barbequed Beans  
Buttered Potatoes  
Cabbage, Tomato Salad  
Rolls  
Lemon Cake

Ranchers are reminded that they have until September 30 to file claims for the refund of the 4 cents federal tax on gasoline used on the farm or ranch. The claims should include all gasoline purchased for such use between July 1, 1960 and June 30, 1961.

Forms were mailed out for filing the claims from the office of the district director of internal revenue some time ago. If yours has been lost or mislaid, you can get the necessary forms from the county agent's office.

Sterling County ranchers who made the tour of the Barnhart range station last week saw several different grazing systems in operation. The experiment station is using a 4 pasture rotation system, a two pasture system and a six pasture system.

The two pasture system has been in operation only for one year at the same stocking rate as the 4 pasture system. It does look promising according to Don Huss who directs the work.

Each pasture is stocked at the rate of 25 animal units per section using both cattle and sheep. Since one pasture is always being deferred, a pasture is actually carrying 50 animal units per section. There are three deferment periods during the year; one of three months, one of six months and another of three months. The pasture deferred during the first three months, March 1 to June 1, is grazed six months, June 1 to December 1, while the other pasture has been deferred and then deferred again Dec. 1 to March 1. Thus, at the end of two years each pasture has been deferred a full year and at every season of the year.

The deferment periods of March 1 to June 1, June 1 to Dec 1, to March 1 were set up to try to combat the bitterweed. In this way, one pasture was being rested at the peak of the bitterweed season and thus far, it looks favorable according to Huss since it has cut their death loss.

On two other pastures, the effects of grazing cattle alone and sheep alone were shown. Cattle alone were utilizing all the forage fairly uniformly, including the tobosa, but the sheep were not. They were grazing in a patch fashion leaving much good forage.

Ranchers who made the trip were Riley King, Gene Alley, David Glass, Larry Glass, and Reynolds Foster.

There's still about 30 days left for controlling prickly pear with 2,4,5-T and diesel oil. Recommendations for the practice call for it to be done between June 1 and Sept. 30.

One gallon or four pounds of 2,4,5-T should be used in each 50 gallons of diesel oil. The leaves, or pads, of the pear should be wet thoroughly on both sides.

An example of improper application was seen on the Barnhart trip. In one area, the pear was sprayed on one side of the leaf only; very little of it was dead while that next to sprayed thoroughly on both sides was showing a good kill.

We have received notice from Dr. C.L. Leinweber, head of the Range Department at Texas A&M College, that a field day will be held at the Sonora Experiment Station next Wednesday, Sept. 13. The program will start at 10:00 A.M. at the headquarters of the station. There will be discussions of past, present, and future range management. The Sutton County 4-H Club will serve a barbecue lunch at noon. After noon there will be guided tours of the station's range projects. They will discuss the 4 pasture rotation system, combinations of sheep, goats, and cattle and compare them with cattle only, sheep only, and goats only. Every interested rancher is invited to make the field day. Several might want to get together and make up a carful or two to make the trip.

(Free) Jack Douthitt

**Department of Health Column**

State health authorities are asking the public to help eliminate the troublesome and dangerous traffic in "bootleg" oysters by buying only those shellfish products known to be produced under Texas State Department of Health certification.

The bootleg traffic involves perhaps 10 percent of the tens of millions of Texas-grown oysters which enter retail channels each year. The other 90 percent have pedigrees authenticated by departmental inspectors.

Most retail outlets—grocery stores, seafood houses, and restaurants—handle only certified products, the department emphasized.

Bootleg oysters may be grown in water of questionable quality, harvested under insanitary conditions and peddled by spurious dealers from house to house or at roadside stands. Buyers are urged to insist on knowing the source of the oysters offered for sale and to refuse them if their certification by the department cannot be readily established by the vendor or verified by local health officials.

Some 150,000 gallons of oysters are produced each year from Texas waters. That adds up to 1,500,000 consumer sized packages.

Approved canned or packaged oysters can be quickly identified by a certification number issued by the State Health Department. On gallon cans the number is embossed in the metal on the side of the can. On smaller containers, the certification number is printed on the lid.

"Bootleg traffic in oysters isn't increasing or decreasing," a departmental official said. "This is just something we want to break up once and for all."

Reason for concern is that oysters feed by pumping water—as much as 25 gallons a day—through a complex system of gills which filter out suspended marine organisms and bacteria. When oyster growing water has been contaminated the shellfish themselves are subject to infection which can be passed on to a human.

The department's certification program includes sanitation surveys on drainage areas contributing to oyster growing waters to check for potential sources of pollution, extensive bacteriological analyses of the oyster growing water proper, and continuous inspections of oyster shucking establishments.

All water-borne diseases, including hepatitis and typhoid fever, can be transmitted via contaminated oysters. But the risk can be virtually eliminated if consumers refuse to buy uncertified products, the department said. (A weekly service of the Health Education Division, Texas State Department of Health.)

**TWENTY-FIVE HUNDRED ACRES**

Undeveloped sagebrush country within three miles of San Luis, Colorado. Mesa country, not fenced, no running water, no house. But this land will double in value, I really believe in two years. The price on it is surprising \$10:00 an acre. 29 percent down, balance nine yearly payments. There is VERY little \$10:00 an acre land left.

If interested write the little land Lubber,

Sheriff's phone 8-4771.

**Boys Ranch**

The second annual Boys Ranch of West Texas Fall Roundup is being extended through September. Announcement was made by Fred Ball and Jack Drake, co-chairman.

The program originally was to have lasted only through August. Because of good range conditions, many stockmen delayed marketings that normally would have been completed in August. Expecting large livestock runs during September, Ball and Drake advised that the program be extended through that month.

Under the Roundup plan, livestock owners send animals to participating livestock auctions, where they are sold without charge and proceeds forwarded to Boys Ranch. Contributions may range from several good cattle down to one old ewe.

A similar program proved successful last year. During August, Fall Roundup contributions totaled approximately 1,000 Sheep, 1 hog, 70 cattle, and 89 Goats.

"Last year's roundup was what kept Boys Ranch on a sound financial basis through December," said Roy A. Minear, Board President, Midland, Texas. "Without it we would have been in extreme financial difficulty."

"Boys Ranch has placed more dependence on programs of this nature and less on direct-mail solicitation. Reason is that, especially during the last part of the year, West Texans are besieged by an ever-growing number of mail solicitations from various organizations all over the country," said Minear.

Wagon boss for the Sterling City area is Riley J. King. He is the local co-ordinator for the Roundup.

The Boys Ranch is currently serving 60 West Texas boys, 6 more than the Ranch ordinarily serves. The Ranch is in the process of making preparation to return these boys to school. The boys will attend the first through the sixth grade at Tankersley, Texas, and the boys attending junior high and high school will go to the San Angelo schools.

The Ranch continues to receive applications for admission of boys who cannot be received due to the over-crowded conditions at the Ranch.

**doughBelly Price Reports**

Things has shore changed in the last fifty years. There was A time when you went to your sky pilot for spiritual guidance. Now, you go to your banker and bookkeeper. To the banker to see if you can borrow the money to pay the preacher. And to the bookkeeper to see if it can be deducted from income tax. And when you get sick it ain't the sky pilot that prays for your recovery, it is your banker. The sky pilotain't got nothing invested and the banker has. The monetary exchange is what counts.

Yes Sir, there was A time when the Gospel was peddled for A monetary consideration. The dollar sign is between the preachers eye and the bible. The time has long since gone when the people worshipped God in A brush arbor. Now if the church didn't cost up in the thousands it ain't fit to get together in to take up A collection

I know a little bit about what I am talking about. My father was A sky pilot for forty-five years. Vaccinated me for A preacher but it backfired. And I have been nearly everything but the right thing, I reckon. The preachers and semi-religious won't like this column A bit. And I don't blame them, I don't like it myself ANY QUESTIONS?

**REWARD NOTICE**

A reward of \$500.00 will be paid by the Texas Sheep and Goat Raisers Association to any person (other than law enforcement officers) giving information causing the arrest and final conviction of any person or persons found butchering or stealing any sheep or lambs or goats belonging to any Association member in good standing. When two or more persons give information, the above sum will be divided at the discretion of the Board of the Association. When two or more defendants are involved in a single crime, the total reward is limited to \$500.00, but the conviction of one defendant, even though the other defendants are acquitted, will entitle the claimant or claimants to said sum of \$500.00. All claims must be submitted within ninety (90) days following conviction. If, upon conviction, a defendant confesses other thefts, no additional reward will be paid. All decisions concerning the payment of such reward and the conditions of payment will be made by the Board of Directors of the Association.

**BUDGET NOTICE**

On this 14th day of August, A.D. 1961, it appearing to the Commissioners' Court of Sterling County, State of Texas, in regular session, that House Bill 768, Chapter 206, Section 12 of the General Laws of the State of Texas, that the Commissioners Court in each county shall, each year, provide for a public hearing on the County Budget, which hearing shall take place subsequent to August 15th, and prior to the levy of taxes by said Commissioners Court.

Acting by virtue of an order passed by the Commissioners' Court of Sterling County, State of Texas, made on the 14th day of August, A. D. 1961, notice is hereby given that a public hearing will be had on the BUDGET of Sterling County, Texas as provided for the year A.D. 1961, at 10:00 o'clock A.M., on September 11th, 1961, at the Courthouse in Sterling City, Texas (Commissioners Court Room), at which time any taxpayer of Sterling County, Texas shall have the right to be present and participate in said hearing.

Given under my hand and seal of office in Sterling City, Texas this 17th day of August, A.D. 1961.

(Seal) W. W. DURHAM  
County Clerk, Sterling County, Texas

The U.S. Civil Service Commission has announced a new examination for Entomologist (Plant Pests) and Plant Pathologist (Forest and Forest Products) for filling positions paying starting salaries from \$6,435 to \$3,955 a year. Most of the positions to be filled are with the Forest Service of the Department of Agriculture and are located throughout the United States, including Alaska, and Puerto Rico. Positions in other Federal agencies may also be filled.

No written test is required. To qualify, applicants must have completed pertinent college study and have had appropriate professional experience. Graduate study in a field appropriate to the position applied for may be substituted for the required experience for positions paying \$6,435 and \$7,560 a year.

Applications for this examination will be accepted until further notice and must be filed with the Executive Secretary, Board of United States Civil Service Examiners, Department of Agriculture, Washington 25, D.C.

**Survivors May Be Eligible For Social Security Payments**

Social security benefits may now be paid to survivors of workers who died between March 31, 1953, and January 1, 1940, if the worker had at least a year and a half of social security work before he died, says Floyd B. Ellington, manager of the San Angelo Social Security Administration District Office.

Before the Social Security Amendments of 1960, no monthly benefits were payable to the survivors of a worker who died before 1940. Under the new law, if such worker had worked under social security for at least a year and a half, benefits are payable to his widow and dependent mother at age 62, to his dependent father at age 65, and to his disabled children who were disabled before they became age 18. This is true even if the family had collected the "lump sum" at the time he died.

**Tooth Taboos**

In the primitive tribes on the island of Samoa, the loss of a tooth was believed to be a punishment inflicted by a household god because that person had violated a certain taboo. Similarly, in our civilized society the breaking of the taboos or rules of good nutrition can result, conceivably, in the loss of one or more teeth.

Scientists are convinced that a significant amount of dental decay is caused by improper nutrition. Failure to provide proper nutrients in the diet of an infant can seriously impair the development of healthy teeth. These poor nutritional habits, carried through adulthood, can cause permanent damage.

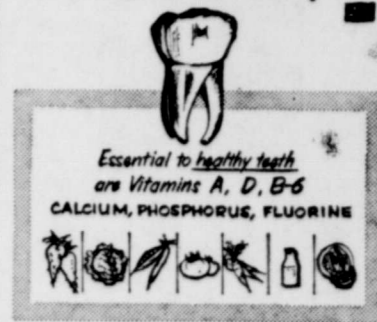

It is believed that a diet balanced in vital nutrients and supplemented by a multiple vitamin preparation such as One-A-Day, can be a major factor in preventing harmful decay—from childhood through adolescence.

Intake of sufficient quantities of certain vitamins and minerals is essential for the proper development of teeth. Most important in the diet are the vitamins A, D, and B-6 (pyridoxine) and the minerals calcium, phosphorus and fluorine.

Vitamin A can profoundly influence the development of teeth, for if a child gets too little vitamin A when his teeth are developing, the enamel-forming cells in the gums become abnormal and cease to function properly. This leads to pitting in the enamel surface of the tooth. These pits later harbor food deposits, which may ferment and form acids that etch the enamel and lead to decay.

Vitamin D not only aids in the development of bones, but also is involved in the body's absorption and utilization of the

Our teeth need vital nutrients to develop and prevent decay...

minerals calcium and phosphorus—which are found in large amounts in the teeth. In fact, the enamel and dentine are composed almost entirely of these two elements.

Another vitamin which is vital to our teeth is B-6. New experimental studies presented by a scientist at the recent meeting of the American Society for Clinical Nutrition, indicated that vitamin B-6 greatly reduced incidence of new cavities in pregnant women. Vitamin B-6, they found, is very effective in preventing tooth decay.

Research continues on the role of vitamins in fighting tooth decay. Scientists would like to know exactly how these nutrients work to prevent decay. Once they obtain this knowledge, they may be able to make dietary recommendations that will go a long way toward eliminating the problem of tooth decay.

School Pictures To Be Taken Next Tuesday

School pictures for the 1961-62 annual will be taken next Tuesday, Sept. 12 at the school, said Mrs. Margaret Crook this week. Parents are asked to have their children dressed as they want them to appear in the annual.

Mrs. Crook, sponsor of the annual, said the Fox Co. of San Antonio, would again make the pictures.
