COUNTY

ARTHUR BARLEMANN, JR. COUNTY AGENT

A one day Range Management Conference is being held on the campus of Texas Tech at Lubbock on September 7 beginning at 9:00 a.m. Sponsoring the conference are the following: Texas Section, American Society of Range Management, Texas A&M College, Texas Tech, and the Lubbock and West Texas Chambers of Commerce.

Purpose of the conference is to give range management information to ranchmen in a specific vegetational area. Outside speakers will include personnel from both colleges, the Agricultural Extension Service, the Soil Conservation Service, the two Chambers of Commerce, and ranchmen.

The speakers will cover range problems in this area of the state, research underway at the Experimental ranch at Throckmorton and Spur, and range improvement by ranchers themselves on the program.

Everyone interested is invited to attend. A complete program is available in the county agent's office for anyone who would like to look over it.

The Secretary of Agriculture has announced that the referendum on the 1963 wheat crop will be held on August 30. That's next Thursday. Voting can be done in the ASCS office on that date between the hours of 8:00 a.m. and 6:00 p.m.

Eligible voters are any persons who will be enraged as owner-operators, cash tenants, or any type tenants, who will produce more than 15 acres of wheat for harvest as grain. Both husband and wife may vote.

If marketing quotas are approved, the material average support price will be \$1.82 per bushel. If quotas are not approved in the referendum, the price will be \$1.21 per bushel.

Thus, if you will produce more than 15 acres of wheat, you are eligible to vote. So, vote your choice whether it be for or against.

During the period of July 1-28, 9,178 samples were identified as screwworms by the Mission laboratory of the screwworm eradication program. During the same period, 145 samples were non-screwworms.

Thirty-one samples were submitted by Sterling County ranchers during that period. All were identified as screwworms.

Sambues of screwworms were received from 226 counties during the period; 28 counties were not infested with screwworms. Nearest counties not infested are Midland, Ector, and Winkler; the others are primarily in the Panhandle area. Uvalde County led with 552 cases.

A total of 105,018,690 sterile flies were released during the period of the report. Production at the Mission plant has reached 30 million per week; it was expected to top the 50 million mark the first week in August.

The continued hot, dry weather causes the danger of range or grass fires to increase daily. Already a number of fires have been started in other areas by lightning. In some areas, two and three fires have been burning at once.

Ranchers can make themselves some quick fire fighting equipment. Nearly every rancher has some type of livestock sprayer which he uses on his livestock. These sprayers make excellent firefighting equipment. Keep them full of water when they are

not being used for spraying. If a fire does start on your country or near you, this sprayer along with those of your neighbors could mean the difference between a few acres being burned or a few thousand going up in flames. These sprayers could very well control many fires before the fire trucks available for this purpose could reach the area.

Dry grass is much better than no grass which would be the case in event of fire. Fill your sprayer and urge your neighbors to do the same.

W.R. Davis, Rancher, Buried Here Tuesday

W.R. Davis, 80, a Sterling County ranchman and horse breeder more than 50 years, died Monday at his home north of San Angelo.

Funeral services were held at 3 p.m. Tuesday at the First Baptist Church here with burial by Lowe Funeral Home. Johnson Funeral Home of San Angelo was in charge of preliminary arrangements. Mr. Davis, a prominent Quarter Horse and Palomino breeder, was born May 23, 1882, in Grayson County. He came to Sterling County as a youth and ranched near Sterling City most of his life before moving to his stockfarm just north of San Angelo about 12 years ago.

Officiating at the services was the pastor of the First Baptist Church, the Rev. Sherman Conner.

He was married to Gelema Ayers Clemmons in 1942.

Mr Davis sold his string of Palominos and Quarter Horses at a dispersal sale in San Angelo in 1953. Two of his top stallions brought more than \$1,000 at the sale.

Survivors include his wife; and by a previous marriage three sons, R.C. Davis of Amarillo, Walter R. Davis and Truman C. Davis, both of Sterling City; four daughters, Mrs Victor Jackson of Belton, Mrs. R.D. Allen of Vancouver, Mrs Earl Hughes of Fairchild Air Force Base, Wash., and Mrs Hardin Kettler of San Angelo; 16 grandchildren and 14 great-grandchildren.

Car Caught Fire

Rex McCleese, local druggist, lost some wiring and had some motor damage when his car caught fire Tuesday night. Rex said the car, a 1961 Chevrolet station wagon, was parked in front of his house. He heard the horn start blowing and when he went to see about it, the horn was blowing and the lights had come on. Sheriff Jim Cantrell went downtown and put the fire out with a fire extinguisher.

Mr and Mrs Foster S. Price spent last weekend at Ruidosa, New Mexico.

Mr and Mrs Bill Barbee and son Hull and little friend, Steve Wallis, spent last week visiting with the Horace Donaldsons. While here they motored over and toured the Sonora Caverns.

Sterling Planning Polio Vaccine Day

A strange paradox has developed out of the 5.3% unemployment in the country and the fact that many jobs are unfilled because they do not suit the people who are out of work.

A recent national survey has revealed a multitude of jobs remain unfilled because no one will take them. For example, at Levelland the State Employment Service has failed for six months to fill 100 job openings for waitresses. In San Francisco some financial firms are finding it difficult to locate clerical help despite a plentiful supply of unemployed looking for office jobs.

The problem is reported to be that the jobless are too "choosy" about what they do and how much they get paid.

In Los Angeles an Employment Service has an order for 50 odd-job workers, but cannot fill them. Temporary jobs on farms are almost impossible to fill.

In Houston, an Employment Service tried to get some unemployed job-seekers to work as dishwashers. "They tell me I'm drawing \$29 a week unemployment now; why should I take a \$30 job?", reports an official.

In Cleveland an order for a bus-boy to work in a private club at \$50 a week and meals goes unfilled.

And the report goes on at length listing job opportunities that can't be filled because the unemployed don't like that kind of work or else they think they are better off drawing unemployment compensation.

Yet, in Chicago, last week the AFL-CIO's 29-man Executive Council, viewing with alarm the unemployment, opened a massive drive to reduce work weeks to 35 hours and require double pay (instead of 1½) for overtime, without any reduction in the income of workers. A task force was set up to draft legislation and turn the heat on Congress to pass legislation next year along this line.

Obviously, this would be highly inflationary and by increasing prices any gain the workers might achieve, viewed from any standpoint, would be eaten away by increased prices. And the entire Nation would suffer.

Actually, there is nothing particularly alarming about the present level of unemployment. There are now, have always been, and will always be a vast number of people who simply don't want to work. Others are unemployed during a change in jobs. Others are looking for easy money, including gamblers, criminals, etc. And there are many young people included in the statistics who have not had time to get themselves established, including many living at home and are in no big hurry about it. Moreover, strike idleness in 1962 is 60% above the 1961 period.

Mr and Mrs W.R. Hudson left Thursday for Colorado Springs, Colo. where they will join the Benny Greens of Arkansas for a visit with the John Greens. Later the Hudsons will visit relatives in Trinidad, Colo.

In connection with the Tom Green—Eight County Medical Society, a Sabin Oral Vaccine Day for Sterling County residents has been planned for Sunday, Sept. 23. Vaccine (the oral type on sugar cubes) will be used, and all persons of all ages should participate. This will be the first of three doses, one to follow on November 11 and the last on December 16.

Donations of 25 cents per dose will be accepted, but no one will be turned away on account of the 25 cents, it was said.

Dr. Wm. J. Swann, local physician and member of the eight-county medical society, would like to know how many people will take the vaccine that day, so he can order the proper amount. Drop him a card and list the number of people who will take the vaccine right away. A post card, please, rather than a phone call or just telling him—so he can keep account of the numbers better.

The vaccine will be dispersed at the Sterling County Hospital. All clubs of the town are being asked to help with the work. Mrs Neal J. Reed is scheduled to act as chairman.

The Sabin Oral Vaccine is described as a preventative for polio, where the Salk vaccine shots were paralysis preventative shots. All people of all ages, those who have taken the Salk shots included, are strongly urged to avail themselves of the new oral vaccine.

Let's have 100% turnout of Sterling citizens for the vaccine.

Boys Ranch Concentrated Roundup

The Boys Ranch of West Texas is making a last concentrated roundup of stock for the ranch's benefit on Sept. 4. Riley King, wagon boss for Sterling County, said that anyone who would donate livestock to the ranch's benefit should have them at the local Santa Fe pens on Sept. 4. The stock will be sold through Angelo auction rings for benefit of the Boys Ranch.

King said anyone wishing to donate stock, money, etc., get in touch with him, Ewing Fowler McEntire, Ralph Davis or William Foster.

Prices Set For Football Games

Supt. O.T. Jones and Coach J.R. Dillard of Sterling City attended a meeting of District 6, Region Two Eight Man Football at Odessa last week. Prices for district games were set by the group for this year.

Game admissions for students will be \$25 and adults \$1.00. Season tickets (last of August and through 1st game Sept. 7) for the five home games will be sold for \$3.75 which will be \$.75 per game effecting a saving of \$1.25 for the season. Increasing cost of officials, game guarantees and cost of transporting and feeding players for the five games away from home was the reason the district committee voted to increase the price of adult admissions only.

Last weekend Mr and Mrs Nick Reed took Hank and Nikki Johnson home to Abilene to their parents, Mr and Mrs Dean Johnson. The two children had been here visiting their grandparents.

Mrs W.H. Sparkman returned Wednesday after spending two weeks in Dallas and Fort Worth visiting her sisters and brother.

Proposed CONSTITUTIONAL AMENDMENT NUMBER FOURTEEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

HOUSE JOINT RESOLUTION NO. 22 proposing an amendment to the Constitution of the State of Texas to authorize the Legislature to provide for trial de novo on all appeals to the courts from actions, rulings or decisions of administrative agencies and executive departments of the State of Texas or any of its political subdivisions.

STUDENT SUMMER INCOME

It isn't necessary for students to stop working this summer after earning a total of \$600. Ellis Campbell, Jr., Dallas district director of Internal Revenue Service, advised parents that it is possible to claim a son or daughter as a dependent on federal income tax returns even if they earn more than \$600.

Campbell suggested that students contact IRS for needed information on how their parents claim them as a dependent.

HEALTH AND SAFETY TIPS FROM THE AMERICAN MEDICAL ASSOCIATION

Hay fever, producer of several million watery eyes, runny noses and sneezes each season, is produced by substances called allergens. One of the most frequently involved allergens in hay fever is ragweed pollen.

From mid-August to first frost is the worst season of the year for hay fever sufferers.

When the hay fever allergen enters the body it speeds up production of antibodies. These chemical policemen rush to battle the allergen and the action releases powerful chemicals. One of these is histamine. The favorite remedy is an antihistamine, to combat the effect of histamine in the body.

A tolerance to pollens can be built up by injecting a dilute solution of them under the skin, says Today's Health, the magazine of the American Medical Association. The common method is to begin three months ahead of the season and inject increasingly large doses at five-day intervals. These shots must be given only by experts. Improperly used they could cause more trouble than the hay fever itself.

Hay fever is a wide open field for the medical quack, and the sufferer will hear of a wide variety of cures. Most of them are useless. The most common preventives for hay fever are:

* Get specific anti-hay fever shots well ahead of the season.

* Keep away from areas where ragweed pollen loads the air.

* Air conditioning, both at home and in the office, combined with good air filters, will often help.

* Antihistamine drugs lessen congestion and relieve itching.

* Keep your home immaculately clean and free of dust.

Proposed CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

HOUSE JOINT RESOLUTION NO. 46 proposing an Amendment to the Constitution of Texas by adding to Article III a new Section to be known as Section 49-d authorizing the Texas Water Development Board to acquire and develop storage facilities in reservoirs and to dispose of such storage facilities and water upon such terms as the Legislature shall prescribe; providing for the use of funds received from the disposition of acquired storage and water; providing that any enabling Acts shall not be invalid because of their anticipatory character; prescribing the form of ballot and providing for the necessary proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of Texas be amended by adding a new Section thereto to be known as Section 49-d, as follows:

"Section 49-d. It is hereby declared to be the policy of the State of Texas to encourage the optimum development of the limited number of feasible sites available for the construction or enlargement of dams and reservoirs for conservation of the public waters of the State, which waters are held in trust for the use and benefit of the public. To this end, and with the approval of the Board of Water Engineers or its successor, the proceeds from the sale of State bonds deposited in the Texas Water Development Fund as provided in Article III, Section 49-c of this Constitution, may be used by the Texas Water Development Board, under such provisions as the Legislature may prescribe by general law, for the additional purposes of acquiring and developing storage facilities, for the conservation and development of water for useful purposes in and from reservoirs constructed or to be constructed or enlarged within the State of Texas or on any stream constituting a boundary of the State of Texas, by any one or more of the following governments or governmental agencies: by the United States of America or any agency, department or instrumentality thereof; by the State of Texas or any agency, department or instrumentality thereof; by political subdivisions or bodies politic and corporate of the State; by interstate compact commissions to which the State of Texas is a party; and by municipal corporations.

"Under such provisions as the Legislature may prescribe by general law, the Texas Water Development Board may also, with the approval of the Board of Water Engineers or its successor, execute long-term contracts with the United States or any of its agencies for the acquisition and development of storage facilities in reservoirs constructed or to be constructed by the Federal Government. Such contracts when executed shall constitute general obligations of the State of Texas in the same manner and with the same effect as State bonds issued under the authority of the preceding Section 49-c of this Constitution, and the provisions in said Section 49-c with respect to the payment of principal and interest on

State bonds issued shall likewise apply with respect to payment of principal and interest required to be paid by such contracts. If storage facilities are acquired for a term of years, such contracts shall contain provisions for renewal that will protect the State's investment.

As a prerequisite to the purchase of such storage or water, the applicant therefor shall have secured a valid permit from the Board of Water Engineers or its successor authorizing the acquisition of such storage facilities or the water impounded therein. The money received from any sale, transfer or lease of storage facilities shall be used to pay principal and interest on State bonds issued or contractual obligations incurred by the Texas Water Development Board, provided that when moneys are sufficient to pay the full amount of indebtedness thereon outstanding and the full amount of interest to accrue thereon, any further sums received from the sale, transfer or lease of such storage facilities may be used for the acquisition of additional storage facilities or for providing financial assistance as authorized by said Section 49-c. Money received from the sale of water, which shall include standby service, may be used for the operation and maintenance of acquired facilities, and for the payment of principal and interest on debt incurred.

"Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment, such Acts shall not be void by reason of their anticipatory character."
