School Board Sees Increased Tax Need

The Sterling City school board met Tuesday evening at 7:30 in a called session. All members of the board were present and president David Glass presided. H.M. Knight, treasurer for the school board, O. T. Jones, superintendent, and W. R. Brooks, County Judge and Ex-Officio County School Superintendent, also attended the session.

The purpose of the called meeting was to discuss the problem of financing the school system without incurring a deficit at the end of each fiscal year. Inflation of the tax dollar along with rising costs of services of professional personnel and the rising costs of other services necessary to the operation of an efficient and satisfactory educational plant has made it imperative that a solution to the financial woes of the district be sought before the beginning of the 1963-64 school term.

The avenues of school financing are extremely limited in a district such as Sterling County. About the only possibilities left for meeting increasing costs are: (1) reduce the number of units offered, thereby reducing the value of education received; (2) set up a separate tax office for assessing and collecting of the school taxes, based on a higher valuation than now used, with the added expense of another employee to staff the tax office; (3) a blanket increase in valuations which would mean an increase in both state and county taxes, also, or (4) call for an election to determine whether or not the taxpayers of the district desire to take advantage of a proposal commonly referred to as Senate Bill No. 116, which has been codified as Article 2784e-1 in Vernon's Annotated Civil Statutes. This statute gives school districts such as Sterling the power to call an election after receiving a petition bearing signatures of 20 bona fide taxpayers of the district having property rendered for taxes in the district. The election when ordered by the board will contain the propositions 'For' and 'Against' allowing Sterling City Independent School District No. 1 to use the full \$1.50, which is the present levy, for maintenance and allow the board to levy an additional amount sufficient to retire the outstanding bonds as per the present retirement schedule. An additional 25c or 26c per \$100.00 of county valuations is the amount deemed necessary to meet the bond payment schedule without encountering a deficit in the operational funds of the district.

After a thorough exploration of all possibilities, it was the unanimous decision of the board and those present that the most logical and acceptable solution to the problem was the proposition which allow a majority of the voters to express their preference. The board also decided to make every effort possible to inform the public of the problem and its possible solutions. School board vice-president Chesley McDonald met with the Lions Club on Wednesday following the school board meeting for the purpose of explaining the proposal to that group.

In the very near future the petitions requesting that an election be called will be presented to the people for the required number of signatures and as soon as the signatures on the petitions have been certified, the election will be called.

Texas A&M students home during Easter were C. L. King, Reynolds Lee Foster, Danny Stewart and Don McDonald.

A&M Muster April 20

Former students of Texas A&M College who live in the San Angelo area will hold their annual muster day celebration Saturday, April 20th. The American Legion Club on Lake Nasworthy near San Angelo has been leased for the occasion. A Bar-b-cue beef dinner will be served Aggies and their guests at 7 p.m., but many are expected to arrive earlier for more time to visit old buddies.

This year marks the 60th anniversary of traditional Mustering together of Texas A&M men to pay respects to former students who have passed on and to those Texans who lost their lives in the Battle of San Jacinto, liberating Texas 127 years ago. This annual Muster Celebration is one of the oldest and greatest traditions to be found among American colleges and universities. The West Texas A&M Club Muster will coincide with over 500 gatherings of A&M men all over the world.

Social Security Tips

Floyd B. Ellington, social security district manager in San Angelo, offered a few tips today on how to get your first social security check when it is due.

If you are nearing retirement, Ellington suggests that you get in touch with your social security office, and take some proof of your age with you. Have a member of his staff examine whatever proof you may have to see if it will be acceptable when you do retire.

Should you need better evidence of your date of birth, you will be given information to help you get that additional evidence.

If you are within three months of retirement age, the social security office can take your application for benefit now. Go to the social security office and take with you proof of your age and your social security office and take with you proof of your age and your social security card, of course.

Ellington said that even though you are working and are 65 years old, you can apply at any time. Many people think that you have to retire completely to get any benefits. This is not true, Ellington said.

FFA Banquet Next Tuesday

The annual Sterling City FFA Parent-Son banquet will be held in the community center at Sterling City April 23, 1963. Billy Blair, chapter President will act as master of ceremonies. An estimated 100 members, parents and guests are expected to attend the annual event, which for the third year will feature roast lamb on the menu.

The banquet is sponsored by the local FFA members in honor of the parents, faculty, and guests of the chapter who have shown special interest in the activities of the chapter during the past year. The program will be conducted entirely by the boys in the chapter, and special awards for the year will be presented at that time.

Locals to Europe Next Month

Mr. and Mrs. Roy Foster and Mr. and Mrs. H.L. Hildebrand of Sterling and Mrs. Marvin Dayvault of Dallas are going on a tour of Europe next month. They will leave on the Cunard liner Caronia from New York on June 1. They will fly from Dallas the last part of May and take the liner for a Mediterranean tour. Then they will tour the continent before sailing for home on the Queen Elizabeth on June 13. They will arrive back in New York on June 18.

The group plans to see the major cities of the continent and Hildebrand said he wanted to go to Berlin and also take a boat trip down the Rhine River.

PTA MONDAY AFTERNOON

The Sterling City Parent-Teacher Association will meet Monday afternoon at 3 at the school auditorium.

Vernon Asbill will give the devotional and Coaches J. R. Dillard and Fred McDonald will present the program. The special feature will be presented by the Latin-American students.

HOSPITAL NOTES

Patients in the Sterling County Hospital on Thursday morning of this week included—

Mrs. H. L. Bailey
Mrs. O. V. Anderson
S. E. Cain
Dismissals since Thursday morning of last week include—
Mrs. Frank Mendez
J.T. Key
Mrs. Claude Ditmore

In case of fire dial 8-4771.

Track Boys to Regional Meet

Sterling City High School track boys who will compete in the regional track meet at Odessa this Saturday include Jerry Payne in hurdles and jump events, Danny Bailey in pole vault and Vernon Asbill in discus throw and the shot put.

Legion Barbecue April 20

The annual American Legion barbecue will be held at the Jeff Davis barn west of town on Saturday night, April 20. Such announcement was made by Legion Commander Louie Alexander recently. All members of the county are invited to come out and have beef barbecue, with all the trimmings. Plates will cost \$1.25 and plates will be sold to go for those who want to buy them to take home.

The supper will begin at 6:45 p.m. and will close at 12 midnight, promptly, it was said.

ALUMNI BANQUET SET FOR JULY 27

The annual Sterling City Alumni association banquet has been set for Saturday, July 27, said president Mrs. Billy Ralph Bynum this week. She said the affair would be held in the Town and Country Club in San Angelo on that night.

The theme for this year is to be Western, said Patsy. Official invitations will be made up soon for mailing to members, she said.

Lee Douthit To Study Physics Summer Scholarship at Oklahoma State University

Awarded a summer physics scholarship at Oklahoma State University this summer, Lee Douthit will enter the University there in June for a six weeks course. Daughter of Mr. and Mrs. Jack Douthit, Lee will be a senior in Sterling High School next fall.

The program is under the sponsorship of the National Science Foundation and a large number of enriching courses are offered in colleges and universities over the nation. Lee took a test for such for physics, math and astronomy. She had been named an alternate for math programs at Texas University and SMU but took the Oklahoma University grant because it was a certainty.

Forty high school students and sixteen high school teachers will be in the class there this summer and the program lasts six weeks.

Lions Hear League Literary Winners Saturday Night

Three girls who will represent Sterling High School in regional league literary events at Odessa this weekend were on the program at the Lions Club luncheon Wednesday. Chesley McDonald, vice-president of the local school board, spoke on the need for an increase in school taxes.

The three girls who are in speaking events at the regional meet are Cecilia McDonald, Lois Ethel Price and Lee Douthit. Cecilia and Lois Ethel compose the debate team of the high school. They talked on Should the United States form a Common Market in the Western Hemisphere? Lee is a contestant in persuasive speaking and she spoke on Should the Kennedy Tax Reform Be Accepted? Lee is also in the number sense contest at regional.

Fred McDonald, high school English teacher, introduced the girls and told about their entries.

Need for Additional School Taxes Told

School board vice-president Chesley McDonald told the club members of the need for additional school taxes. He said the board had decided to have petitions circulated this week to approve a rate of \$1.50 for operation of the local school and a small amount for bonded indebtedness.

McDonald said there were three things the board could do: They could raise the taxes as proposed (by about 7%) or raise valuations and that would make all valuations go up—as on county and city valuations or they could cut all teachers salaries and then

FFA Team Wins at Sul Ross

The Sterling City FFA Livestock judging team was the high point team in livestock judging at Sul Ross State College, Alpine, Texas, April 6, 1963. Team had a 52 point lead over the second place team.

Billy Blair, son of Mr and Mrs John Blair of Sterling City was the high point individual in the contest. Billy is a senior in high school, and fed lambs the last two years in the FFA.

The wool judging team from Sterling City placed fourth in competition at Sul Ross, and the Grass judging team was the fifth place team in the contest. James Latham, Jack Clark David Foster, and Larry Stewart participated in both grass judging and the wool judging contests.

The next scheduled contest for the Sterling FFA teams will be the Area Contests held at Texas Tech, April 27. This contest will be the elimination contests to determine which teams will participate in the State Contests to be held at College Station May 4, 1963. The top ten percent of the teams from each area will be declared eligible to participate in the State contests.

David Durham, freshman in Texas University at Austin, was home last weekend for the Easter holidays.

lose the teachers.

He felt sure that the average tax payer would go along with the raise in school taxes for the good of all concerned.

Guests at the luncheon besides those already named include Kenneth Simmons of Albuquerque and James Ross.

AROUND THE COUNTY

ARTHUR BARLEMANN, JR. COUNTY AGENT

VOLUNTEERS CARRY THE TORCH

The Sterling County 4-H Club will be well represented Saturday at the District 7 4-H Club elimination contests in San Angelo. Purpose of the various contests is to select those teams from the district that will represent it in the State 4-H Club Contests at College Station in June. 23 different contests will be held; they vary from livestock and grass judging contests to Share the Fun and a number of demonstration team contests.

Eleven club members from Sterling will participate in three different contests. The contests and participants are: Junior grass judging, Debbie Reed, Charlotte Foster, Mike Payne; Senior grass judging, Jack Clark, Wayland Foster, Tommy Foster; Senior Range Judging, Larry Stewart, James Morgan, David Foster; Soil Water and Range Conservation Team demonstration, Barbara Durham and Rosanne Foster.

The first and second place winners in each of the senior division contests win the right to represent the district at College Station on June 4-5-6. Juniors are not eligible to participate in the state contests but the training they receive helps them when they reach 14 years of age and are eligible to participate.

The Paint Rock Wool Warehouse is sponsoring the first annual Concho County Wool Show and wool and mohair judging contest in Paint Rock on Saturday, May 25. Classes for registered and commercial sheep have been set up in the wool show. Single fleeces and bags will be shown.

The sample of worms sent in by Worth Allen last week has been identified as other than screwworms. They were taken from a cow on Worth'

place southeast of town.

William Foster sent in a sample on Tuesday of this week. It has not been reported on at this time. It came from a calf that had been born some time ago.

We have been told that a case was positively identified as screwworms in Irion County late last week. The report is that the area was saturated with sterile flies as soon as the positive identification was made.

Remember, if you find a case of worms, call Justice 3-1646 in Mission, collect. From the information you give them, they will decide and tell you whether to send the sample in or whether they will send an inspector out of the place.

The Southwest Animal Health Foundation advises all ranchmen to watch their livestock. Doctor all cases after taking the sample and calling Mission. They also strongly advise all ranchers to spray their stock after shearing or working them. This will help cut down the number of flies and the possibility of screwworm cases.

The Crockett County Range Tour and Judging contest has been set for Thursday, May 2 on the Texas Range Station at Barnhart. Tour will start at 8:30 and be concluded by noon. It will include discussions and visits to the various types of stocking rates of sheep and cattle on the station.

The annual Crockett County Range Judging contest will be held that afternoon starting at 1:30 p.m.

All interested ranchers are invited to the tour. The station is located on country similar to our own and doing some good work on range investigation.

REWARD NOTICE
A reward of \$500.00 will be paid by the Texas Sheep and Goat Raisers Association to any person (other than law enforcement officers) giving information causing the arrest and final conviction of any person or persons found butchering or stealing any sheep or lambs or goats belonging to any Association member in good standing. When two or more persons give information, the above sum will be divided at the discretion of the Board of the Association. When two or more defendants are involved in a single crime, the total reward is limited to \$500.00, but the conviction of one defendant, even though the other defendants are acquitted will entitle the claimant or claimants to said sum of \$500.00. All claims must be submitted within ninety (90) days following conviction. If, upon conviction, a defendant confesses other thefts, no additional reward will be paid. All devisions concerning the payment of such reward and the conditions of payment will be made by the Board of Directors of the Association.

IT HURTS

Every time the Federal Power Commission makes the gas producers reduce the price of gas at the wellhead, it hurts us all. All of us in West Texas and the Permian Basin in particular. It hurts our schools, our cities, our counties, our hospital and water districts, our oil people, our suppliers to the oil people, the banks, the property owners and the laborers. Anybody can be included in this category.

Sure, it helps the economy of the industrial north and all its ramifications, just as it hurts us in turn.

Why can't the FPC see that just as surely as they give to the consumers up north a reduction they are taking the same amount away from the area here. Why hurt one section of our country for the benefit of another? Who is the gainer?

We know who is the loser. Our tax valuations are dropping, our cities and towns are shriveling and our people are suffering—in many ways.

Maybe we could work on appointments to the FPC in the future—with men from this area.

The Permian Basin Association has been trying to help with the problem, but not too much has been gained. In fact, nothing, other than to establish that we are being hurt by such actions.

Civil Service

The United States Civil Service Commission has announced a new examination for Transmitter and Receiver Operator and Maintenance Technician for filling positions in field locations of the U.S. Information Agency's Voice of America program. The positions to be filled pay from \$3.05 to \$4.49 an hour and are located at Greenville, North Carolina and Honolulu, Hawaii. In filling the positions in Honolulu, preference in certification will be given to persons living in Hawaii.

The Voice of America broadcast operations are on a 24-hour, 7-day week basis. Assignments to these positions will be made to an 8-hour, 5-day shift based upon a flexible schedule subject to change. Shift assignments are made in accordance with broadcasting schedules.

To qualify, applicants must have had responsible experience in the operation and maintenance of broadcasting and receiving equipment which demonstrates a thorough knowledge of radio transmitter operations. Full details concerning requirements to be met are given in Announcement No. 283 B.

Applications will be accepted until further notice and must be filed with the Executive Secretary, Board of U.S. Civil Service Examiners, U.S. Information Agency, Room 2738 Tempo R Building, Washington 25, D.C.

Announcements and applications forms may be obtained at many post offices throughout the country or from the United States Civil Service Commission, Washington 25, D.C.

SOCIAL SECURITY

Over fifty million people have worked long enough under social security to qualify for cash disability benefits if they become disabled. This means that they have social security credits for five years (20 quarters) out of the past ten years, Floyd B. Ellington, district manager of the San Angelo Social Security office said. In the case of a severe disability, the worker and his dependents may be eligible for monthly cash social security disability benefits if he meets this work requirement.

It is not necessary to be completely helpless to qualify for social security disability benefits. These benefits are payable to those who suffer from a crippling disease or a severe impairment which makes them unable to do any substantial work.

Disabled adult sons and daughters of retired, deceased, or disabled workers may also receive childhood disability benefits if they become disabled before they reached age 18.

FOR SALE—Eleven practical attractive Angus bulls, twelve to sixteen months old. Records of five years performance work on growth and milking ability will prove their worth. Ask to see the parents.

Comment from the Capital —

STRAIGHT TALK ABOUT AUTOMATION

by Vant Neff

Think of the changes in the way we live since the turn of the century. Wonder drugs save and prolong life. Jets circle the earth in 55 hours — astronauts in a little less than 90 minutes. Electronic teachers help children learn. Almost any civilized point on the globe is just a telephone call away. Climate can be controlled with air conditioners and humidifiers.

Is this bad? A lot of people seem to think so. Pick up an article about new machinery and production methods. Most of them never fail to mention the number of people forced out of jobs by advancing technology. One Gallup poll showed that people feared automation just a little less than Russia. Labor leaders, reaching for another cold beer from a gleaming refrigerator, blame automation for the unemployment rate of 5%. Many union contracts place job security over wage demands. The union leader forgets that automation changed his old icebox into the new mechanical refrigerator. Only automation was called technology in the icebox days.

Automation is the effort to reduce human drudgery by machines and to get the most out of money invested in new plants and new machinery. Individual initiative and investment is what brings us all the boons of modern life. Does it make sense to junk this system in favor of featherbedding, restriction, obsolete

methods and welfare hand-outs? The answer is no!

Automation was new in this country in 1784 when a continuous-process flour mill was invented by Oliver Evans. It was new in 1788 when James Watt made a flyball governor to regulate the steam from his engine. Had there been labor unions when the wheel was invented, I suppose they would have objected. The only thing new about automation today is its name.

Do you know who has been building the largest computer

and how long its been in the building process? The telephone companies. They introduced the dial phone back in 1920. About 96% of their 59 million phones are dial operated today.

In 1920 a cross country call cost \$16.50. Today it's \$2.25. Without automation, many of us would not be able to afford phones today, let alone make calls. If the telephone company had not begun installing automatic switchboards in the early 1920's, it would take

every woman between 18 and 30 in this country to handle the 90 billion calls we make a year.

Most of us are too quick to count the jobs lost when automation arrives. We forget the new jobs created. Automation builds new equipment and maintains it. It creates new markets through lower costs and prices.

Automation is just another word for progress. Economists have proven over and over again that most of our unemployment comes from individuals mismanaging money; not from newer and quicker ways of doing things.

27.5 million Americans were employed in 1900. Today, we can produce that 1900 national income with only 11 million workers. Our population has increased 140%. We have many more people to support.

71 million people are employed today. The per cent of people actually working now has increased from 36% in 1900 to 39% in 1962. Yet, the average work week has decreased from 53 hours to under 40.

Only selfish men with puny minds will think they can halt the march of progress and invention. Such resistance to better ways of doing things may delay and handicap our national progress and our competitive position in the western world; but progress will not be stopped, and we would all be wise to recognize this fact.

Car Crash Near Snyder

Clauda Collins, student in Texas Tech, was returning to Lubbock Monday to resume her studies at Tech. Near Snyder her car and another crashed, killing one person and injuring Claudia and another person, a passenger in the other car. Dead was Mrs. Bruce Land, 21, wife of the coach at Fluvanna. Claudia's injuries were not considered too serious.

Mr. and Mrs. C. L. King visited relatives in Tyler over Easter.

Rev. and Mrs. Hubert Travis visited relatives in Waxahatchie last weekend.

David Sanderson completed his basic training at Camp Polk, La. and is home on a 14 day leave. After his leave he will be stationed at Fort Sill, Oklahoma.

McCleave's Visitors

Visitors at the Rex McCleave's this week include his parents, Mr. and Mrs. J. R. McCleave of Cortland, Miss.; her mother, Mrs. W. L. Barnes of Water Valley, Miss. and an aunt, Mrs. Hubert Moore of Crowder, Mississippi.

The elder Mr. McCleave is the mayor of Courtland.

Wilbur Stone will get his degree in geology at Texas Western, El Paso, in June. He has a scholarship grant at Kansas University beginning next fall or he will go to the University of Arizona to continue his graduate work in geology. Wilbur will work in the geology department of the Standard Oil Company of Texas in Houston this summer.

Kent Jones, graduate student at Texas Tech, was home for the Easter holidays.

Mrs. Hal Knight, Jr. and little son, left Tuesday for Kansas, following a visit here with the Hal Knights and the Lee Hunts.

Mr. and Mrs. Arthur Barlemann visited Mr. and Mrs. Bob Wham in Tyler Easter weekend.

Candy or Cooky—
You Choose!

By Betty Barclay

A new dimension has been added to some of our old-time favorite recipes now that caramel chips and lemon chips have joined chocolate chips or the grocers shelves.

Here, for example, is a caramel chip variation of the ever-popular Alpha-Bit Confection—part candy, part cooky. All you do is melt one cup of caramel chips over hot water. Remove from heat and mix in two cups of alphabet oat cereal and half a cup of chopped nuts. Drop by teaspoonfuls onto waxed paper or shape into balls. Behold! some 24 delicious candies—or cookies. You makes 'em and you takes your choice.
