Lamb-O-Rama Held Here Last Friday

Good Meal and Program

Last Friday the Sterling Lamb-O-Rama was staged at the school and a big turnout made the affair a success. Co-chairmen for the affair were Gene Alley and Mrs. Alvie Cole, president of the TSGRA Auxiliary. Gene is a director of the TSGRA.

Local members of the association and the auxiliary aided in the giving of the affair along with the homemaking teacher, the county agent, the vocational agricultural instructor, West Texas Utilities Co. employees, and a host of other people, too numerous to be named.

The program began at two in the afternoon with the butchering of a lamb by Fred Orts of A&M. Preparing the meat and cooking techniques were discussed by Mmes. Ruth Clappitt and Betty Coker, home economists with the West Texas Utilities Co.

Lamb and wool promotional material was given out to all registrants. The lamb cooked that afternoon and the lamb that was butchered was given away as door prizes.

For supper nearly 400 people were served in an hour. Five different preparations of lamb was served, along with salads, bread, tea, ice cream, etc. The meal was served cafeteria style and the diners overflowed from the school gym.

The Rev. Leo Ross gave the invocation. Worth Durham as MC introduced some noted guests—Charlie Coombes, WTU district manager, Fred Orts, Fred Gray, who carved the lamb. Miss Radora Massey, local homemaking teacher, Mr. and Mrs. E. G. Cauble, O. T. Jones, superintendent of the schools, the Lee Reds (mayor), the Bill Brooks (county judge), Mrs. Cole and Gene Alley, co-chairmen of the affair, Mr. and Mrs. Bert Dobson, Mrs. Bert Dennis of Coleman.

Coombes, speaking for the WTU Co. said the company is always glad to be of help and assistance to the sheep and goat producers.

James Powell, president of the TSGRA, spoke to the assemblage as well as Tom Wallace, executive secretary of the association.

Mrs. Cole was in charge of the modelling program. She introduced Miss Massey who was commentator of the style show.

Nancy Fried of Ozona, Miss Mohair modelled several ensembles. Ann Spence, Miss Wool of Texas, and first alternate for the national Miss Wool, modelled five or six creations.

Local girls of the homemaking class, modelled their dresses that they made in the Make It Yourself with Wool for the contest and as a class project.

Locals homemaking students modelling were Bonnie Gartman, Mitzi Davis, Janie Copeland, who won the award of the best coordinated ensemble at the district contest and Cecilia McDonald with her prize winning dress.

Nancy Friend modelled the coronation gown that Miss Wool was crowned in at the Miss Wool contest.

A Mr. Scott of Sonora was on hand, courtesy of the West Texas Utilities Co. with some of his smoked lamb sausage. Other WTUers were Clyde Carmen of Abilene, Carl Piel, Mike Kisco, J. L. Guthals, Lloyd Cope of San Angelo and Wayne Lory, local manager.

The primary purpose of the gathering was to promote the use of more lamb and wool products. Pelt rugs of lambs were on display, dyed all pastel colors, literature on the superior qualities of wool, etc were handed guests. Menus

HOSPITAL NOTES

Patients in the Sterling County Hospital on Thursday morning of this week included—

Mrs. George Case
Spencer Jackson
Mrs. Clinton Hodges and infant son, Wesley Zane
Mrs. Lola Debolt
Mrs. Jack Muston
Mrs. O. V. Anderson
W. J. Williams
Dismissals since Thursday morning of last week include—
John Wesley Bryce
Mrs. Tom McGill
Leroy Butler
Mrs. Sam Nance
Mrs. Melvin Foster and infant daughter, Sheri Lynn

SON TO THE CLINTON HODGES.

A son, named Wesley Zane, was born to Mr. and Mrs. Clinton Hodges Thursday at 8:15 a.m. The baby weighed nine pounds and three ounces and is the third child of the Hodges. They have two little daughters, Amy and Becky.

Grandparents are Mr. and Mrs. H.D. Gartman of Arlington and Mr. and Mrs. Fred Hodges of Sterling City.

PIANO RECITAL MAY 24

Mrs. Dick Michell, local piano teacher, will present her pupils in a recital at the school Friday, May 24 at 8 p.m.

The public is cordially invited to attend.
Mrs. Mitchell lives in Garden City but come to Sterling City twice each week to teach her pupils at the school.

LIGHT RAINS MONDAY

Light rains or showers hit in Sterling County Monday evening of this week. Here in town .20 of an inch fell and the fall was heavier to the northwest and southwest.

H.L. Hildebrand will attend a director's meeting of the Scott & White Hospital in Temple this weekend. Mrs. Hildebrand is to accompany him and she is planning to have an eye operation there if everything works out.

ROOM MENUS SCHOOL LUNCH

MONDAY, MAY 20
Fried Chicken and Bravy
Buttered Rice
Green Beans
Vegetable Salad
Rolls
Apple Dessert

TUESDAY, MAY 21
Stuffed Weiners
Pinto Beans
Buttered Spinach
Fruit Cup
Spoon Tomato Salad
Cornbread Muffins
Cake

WEDNESDAY, MAY 22
Hamburgers
Cheese Slice
Onions, Tomatoes, Lettuce
and Pickles
Potato Chips
Peach Salad
Chess Pie

THURSDAY, MAY 23
Planation Chicken
Buttered Peas
Buttered Corn
Vegetable Salad
Rolls
Pecan Pie

Final bills will be given on Tuesday, May 21. Meals served through Thursday, May 23. Please add any meals eaten after Monday.

The Benny Greens of Everton, Arkansas are here visiting Mrs. Green's parents, the W.R. Hudsons.

LeRuth Reed and Mary Beth Lambert, ACC students, were Sterling visitors last weekend.

Clauda Collins, student in Texas Tech and Thomas Crossler of Oklahoma, were visitors in the home of Mrs. Claude Collins last weekend.

In case of fire dial 8-4771

LIONS CLUB

The Lions Club members met at Wednesday noon in the community center for the regular weekly luncheon. Bill McRee of Big Spring was a guest. The prize went to LeRoy Butler.

President W. R. Brooks appointed a committee to set a date and make arrangements for a ladies night and installation of officers. He named Arthur Barleman, H.A. Chaple, Roland Lowe and Horace Donalson.

McRee told the club that a local Explorer Scout, Bobby Legg, had won a nice trophy in national competition in rifle marksmanship. He will be awarded the trophy at the club soon, said McRee.

Attend Science Meet

Attending the Southwestern Science Symposium in Dallas last weekend were Earl Seago, high school principal, Troy Murrell, Lee Douthit and Mrs. Jack Douthit.

Discussion groups featured weather studies, thermonuclear energy, projects Apollo and Gemini, cosmic radiation, biology, microbiology, space medicine, cancer research, neutron physics the solar system, gravity, magnetic fields, and earth satellites.

The symposium featured 25 scientists and physicists, all specialists in their fields from universities over the nation.

School Tax Vote on May 25

Be sure to vote in the school special election on Saturday, May 25 at the school.

The school has been running behind each year for several years and the board members feel this is the best way—to vote a light tax raise in school taxes rather than to raise the valuations—which would apply to all valuations, such as county, state and city valuations.

The rate proposed is moderate and the need is real. Increased costs of operating a school cannot be held down indefinitely.

A good turnout of voters is hoped for. Voters can vote absentee if they wish, it has been announced.

Home from Texas A & M last week end was Don McDonald, son of the Chesley McDonalds. He is a veterinarian student at A&M.

JERRY PAYNE
CHOOSES HENDERSON JUNIOR COLLEGE

Jerry Payne, son of Mr. and Mrs. Leslie Payne, has taken a basketball scholarship at Henderson County Junior College at Athens. He had offers of scholarships from 17 colleges in Texas, ranging all the way from junior colleges up to university rank. He chose the Athens college because "I like it there."

Jerry, salutatorian of the graduating class this year has lettered and been outstanding in basketball, football, track for all his high school years. He was a member of the cast of the one act play this year that won the district.

Jerry plans to major in biology and be a teacher and a coach after college.

Baccalaureate Sunday Evening

8th Grade Graduation May 23

The exercises for the eighth grade graduation will be held in the school auditorium next Thursday evening at 8 p. m., said principal J. R. Dillard this week.

Beverly Brooks will play the processional and recessional. Jerry Currington will give the invocation. Elaine Price is to make the salutatory address. Charlotte Foster will play a piano solo, followed by Jimmy Cole.

The class prophecy will be read by Drew Durham.

Collin Douthit will make the valedictory address and James Ross will give the benediction. Grade school principal J.R. Dillard will address the gathering and present the diplomas.

Honor Students Named Collin Douthit Valedictorian; Elaine Price Salutatorian

Principal Dillard said the top honor students were as follows:

Valedictorian—Collin Douthit, average of 95
Salutatorian—Elaine Price, average 94.47
Drew Durham, 93.11
Jimmy Cole 92.21

Graduates Listed

This year's eighth grade graduates are Adolph Balderaz, Jimmy Cole, Corwin Collins, Johnny Copeland, Jerry Currington, Collin Douthit, Drew Durham, Wayland Foster, Andy Gaston, Helen Hays, Lucynda Lowery, Elaine Price, Arthur Rodriguez, James Ross, Alex Sedillo, Bobby Westbrook and Larry Wilson.

High School Awards Banquet Held

The annual spring awards banquet for the high school was held in the community center last Saturday night.

Sid Stevenson, dean of the students at San Angelo College was main speaker. He talked on Freedom, which fitted the theme of the banquet.

Speedy Sparks acted as the master of ceremonies. Cecilia McDonald gave the welcome for the Future Homemakers of America and Billy Blair gave the response. Lois Ethel Price read the prophecy and Edna Davis gave the last will of the graduating class.

Mary Beth Lambert of ACC sang solos, accompanied by LeRuth Reed at the piano.

Fred Igo announced the awards for this year as follows:

Most Beautiful Girl—Lois Ethel Price
Most Handsome Boy—Billy Blair

Miss SHS—Mitzi Davis
Mr. SHS—Jerry Payne
Cheerleaders—Temple Ann Foster, Janie Copeland, Lois Ethel Price, and Mitzi Davis, head leader

Twirlers—Rosanne Foster and Betty Jo Barrett
Library Club Award—Algerene Tomlinson

Best All Around Girl—Cecilia McDonald
Best All Around Boy—Jerry Payne

Ethel Foster Homemaking Award—Cecilia McDonald

The program ended with the FHA girls singing "Make America Proud of You."

Evening Services Early Sunday at Church of Christ

Evening services Sunday at the Church of Christ here will be held at 6:30 rather than the usual 7:00 due to the Baccalaureate service at the school for the graduates. Marion H. Hays, minister, will preach the Baccalaureate sermon at the school. Chesley McDonald is to bring the message at the church, said Hays.

Superintendent of schools O.T. Jones said this week that the end of school exercises had been set and that the Baccalaureate Service would be in the school auditorium on Sunday evening, May 19 at 8 o'clock. Marion Hays, Church of Christ minister would bring the sermon that evening.

Cecilia McDonald will play the processional and recessional. The congregation will sing two songs, led by Stanley Horwood. The Rev. Leo Ross is to give the invocation and the benediction will be given by the Rev. Hubert Travis.

High school graduates are Billy Blair, Edna Davis, Bonnie Gartman, Algerine Tomlinson, O. C. Estes, Vernon Asbill, and Jerry Payne.

Commencement May 21

Commencement exercises of the high school will be held at 8 p. m. Tuesday evening, May 21 in the auditorium with the Rev. James Puckett of Big Spring being the main speaker.

Cecilia McDonald will play the processional and recessional. The Rev. Sherman Conner will give the invocation. Jerry Payne will give the salutatory address—A Point of Honor. Superintendent O. T. Jones will introduce the Rev. James Puckett. His address will be followed by the valedictory address—Declaration of Independence—by Algerene Tomlinson.

High school principal Earl Seago will certify the graduates and school board president David Glass will present the diplomas. Seago will then award the honors, followed by the benediction by Marion Hays.

Class sponsor Ben Brown said there would be a reception following the exercises in the school lunchroom. Everyone is invited to attend.

On Friday morning the seniors will leave on their class trip. They are going to a dude ranch down near the golf coast of Texas.

Rock Show at School Today

The fourth annual Sterling Rock Show will be held at the school here today, May 17, announced Mrs. Bena Davis this week. Seven classes of exhibits will be displayed. The public is invited, said Mrs. Davis.

Classes of rocks and exhibits will be Igneous Rocks, Sedimentary Rocks, Metamorphic Rocks, Minerals, Fossils, Indian Artifacts and Special Display.

There will be ribbons given for the first four places and two honorable mentions said the sponsor.

School Is Winding Up

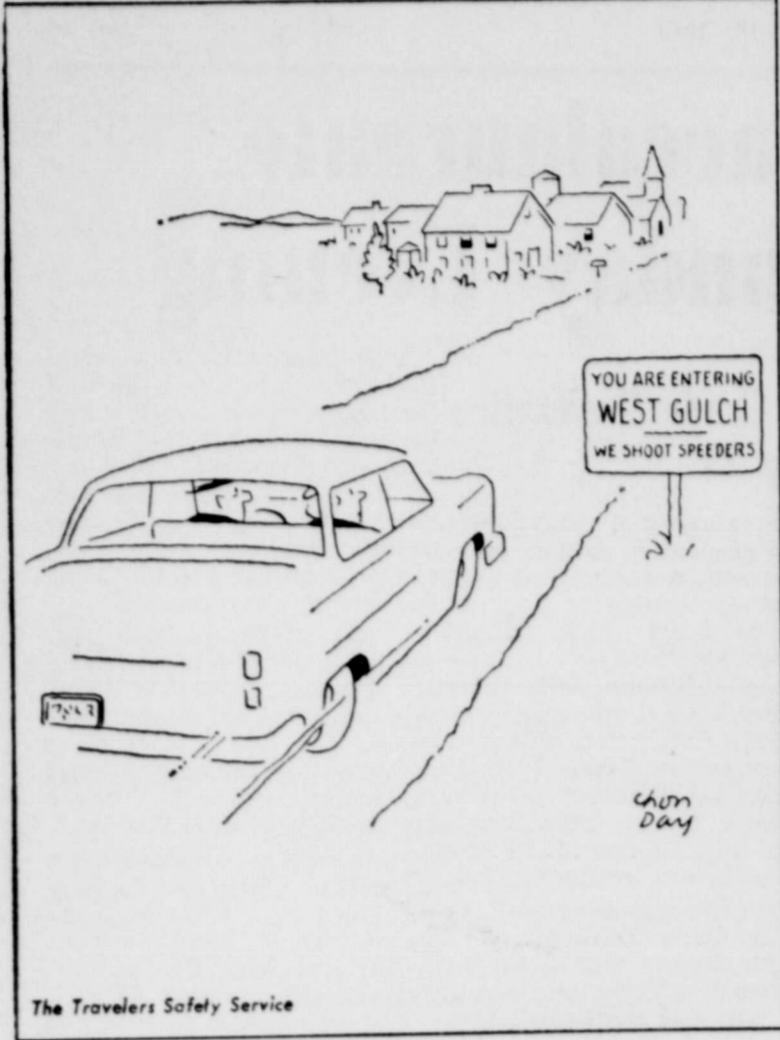

It's about all over except the shouting at the Sterling City school. The class picnics have been held. (Only one casualty, Lynn Alexander got a broken arm at the skating party this week in Angelo).

The achievement tests are all over, said grade school principal J.R. Dillard. Parents are welcome to visit and talk over the results of the tests, said Dillard.

There will be no school on next Friday, May 24, but the students will go Saturday a.m. at 9 and pick up their cards. Baccalaureate services will be held Sunday night at 8:00; Commencement exercises are to be held Tuesday night at 8:00 and the eighth grade graduation exercises will be held on Thursday night at 8.

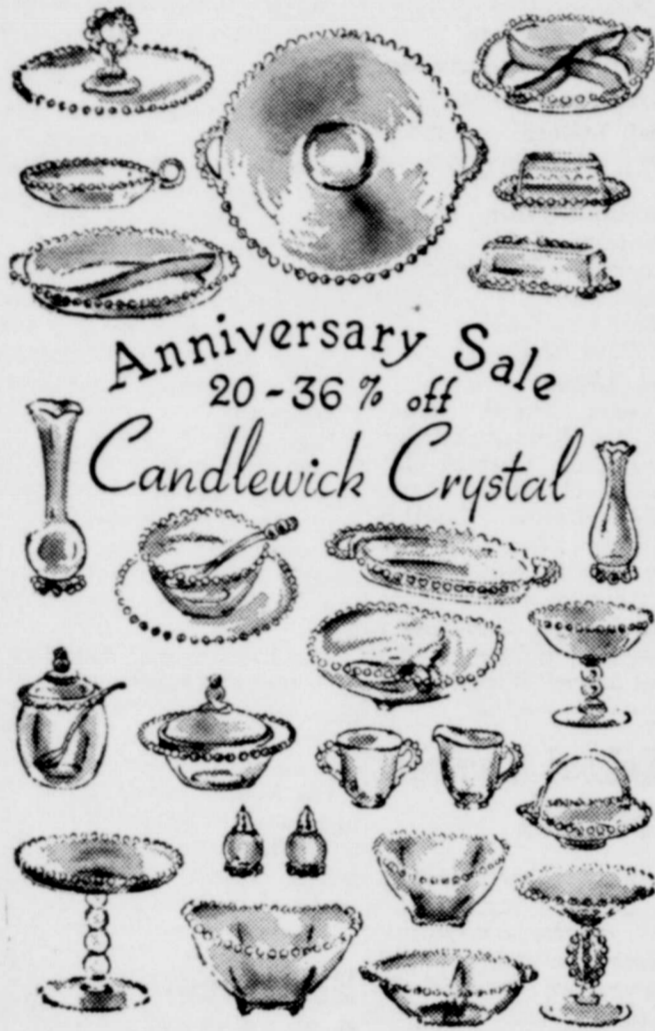

The Reynolds Foster and the C.L. Kings spent last weekend at College Station for Parents Day at A&M. Reynolds Lee Foster and C.L. King, Jr. are freshmen students in A&M.

Archaeologists Use New Way To Dig Old Bones, Discover Man Roamed Nevada 13,000 Years Ago

A huge earthmover replaced the traditional pick and shovels for the Tule Springs (Nev.) archaeological expedition. The unit, loaned by Allis-Chalmers, scooped up 30 cubic yards of earth at a time to speed excavation. After each pass, scientists searched the long trenches for signs of early man.

LAS VEGAS, NEV.—More than 80 centuries before the Egyptian pharaohs thought about building their great pyramids, ancient man was scrounging for his next meal in this part of the world. The date—11,000 years before Christ.

This was revealed in the findings of an archaeological expedition at Tule Springs, Nevada, 10 miles north of here. It combed the windswept desert for four months and dug up evidence placing man here about that time and pushed back the known date of man's existence in the Western Hemisphere some 1,500 years.

Similar expeditions in other parts of the Southwest and Midwest have traced our ancestors back 11,500 years, but no further. Thus, the significance of the Tule Springs finds.

Dr. Richard Shutler, Jr., curator of anthropology at the Nevada State Museum, who headed the 28-man expedition, said finds included several man-made items. Among them was a bead made from hard clay, and two tools from what are believed to be camel bones.

Also found were stone flakes—small chips (photo) made by

ancient man in the process of shaping tools.

Most significant is a three-inch-long stone scraper, according to Dr. Shutler. The scraper is chipped on one side and was probably used to clean animal hides. The tool was uncovered 10 feet below ground level in soil strata indicating it was left there about 13,000 years ago.

The Tule Springs site is desert wasteland—dusty, hot and rolling country. But ages ago there were lush, tree-lined valleys here, laced with cool-running mountain streams and many ponds.

The area teemed with wildlife. Remains of mammoths, camels, horses and bison have been turned up. Some bones and teeth were uncovered at depths indicating the animals roamed the area 45,000 years ago.

Besides turning back the pages of history another 1,500 years, Tule Springs expedition hit on a new method of excavating some 300,000 tons of earth from the site. Traditionally, removing the overburden of clay, silt and gravel at archaeological diggings is done with picks and shovels.

But at Tule Springs much of this slow, back-breaking work was a thing of the past. Scientists used modern construction equipment to gouge back into time more rapidly.

A 32-ton earthmover, loaned by Allis-Chalmers, cut two trenches through the rolling land, taking away as much as 30 tons of earth in one swipe. Each trench was several hundred feet long. They ran across areas cut away by wind and rain, and through

Archaeologist Walter Stein examined a stone flake—a chip made by prehistoric man in the process of shaping tools.

Norma Noble, member of the Tule Springs expedition, picked dirt from the leg bone of a mammoth. The huge elephant-like animal roamed the area 45,000 years ago.

deposits of material built up over centuries.

With each pass down the trenches, the giant unit took off only a few inches of earth so that archaeological evidence of early inhabitants wouldn't be destroyed. Each pass cut the trenches a little deeper until they reached depths of 50 feet in some spots, and only 10 feet in others.

Members of the expedition followed closely behind the earthmover, searching for signs of early man or animals of his time. When evidence was turned up, they used more delicate digging equipment. These included picks and shovels, dental tools, ice picks and paint brushes.

The trenching method with earthmoving equipment not only speeded excavating, said Dr. Shutler, but it provided a better profile of the geological levels they were cutting.

Giant scrapers are commonly used on dam and road building projects. But such equipment is rarely used in archaeology, and never before has it been employed to the extent it was at Tule Springs.

Major work has been completed there. But archaeologists will return to the area from time to time, searching for even earlier evidence that will shed more light on man's activity ages ago.

The Tule Springs expedition was financed by a \$42,000 grant from the National Science Foundation.

Bilingual Drivers License School Set

Sheriff Cecil Turner of Tom Green County, Chief of Police Melvin James of San Angelo and he South Side Lions Club of San Angelo in cooperation with the Texas Department of Public Safety will conduct a bilingual Drivers License School on May 20th through May 23rd at the San Angelo Coliseum. The School will be taught in English and Spanish for those persons who do not have a Texas Drivers License. The Sheriff's Department, the City Police Department and the South Side Lions Club are joining in this effort to aid citizens in the area in obtaining a Texas Drivers License.

This is an opportunity for those persons who do not read or write English or Spanish to secure a license. It is realized that many of our citizens need and want a license, but feel they are not qualified to pass the Drivers License Test. Everyone should feel free to attend this school, as it is an unusual opportunity to secure a Drivers License.

The School will be conducted from 7:00 p.m. until 10:00 p.m. at the San Angelo Coliseum, beginning Monday, May 20th and ending Thursday, May 23rd. Examinations will be conducted in English and Spanish, both written and oral. The School is free and the only expense involved is the cost of the Drivers License.

REWARD NOTICE
A reward of \$500.00 will be paid by the Texas Sheep and Goat Raisers Association to any person (other than law enforcement officers) giving information causing the arrest and final conviction of any person or persons found butchering or stealing any sheep or lambs or goats belonging to any Association member in good standing. When two or more persons give information, the above sum will be divided at the discretion of the Board of the Association. When two or more defendants are involved in a single crime, the total reward is limited to \$500.00, but the conviction of one defendant, even though the other defendants are acquitted will entitle the claimant or claimants to said sum of \$500.00. All claims must be submitted within ninety (90) days following conviction. If, upon conviction, a defendant confesses other thefts, no additional reward will be paid. All devisions concerning the payment of such reward and the conditions of payment will be made by the Board of Directors of the Association.

Wheat Referendum Vote May 21

The marketing quota referendum for the 1964 wheat crop will be held Tuesday, May 21, from 7:00 a.m.-7 p.m. The polling place for Sterling County will be in the local ASCS office. All eligible voters are urged to make their wishes known on this issue, as this is the time for wheat growers to decide whether or not they want marketing quotas to be effective for the 1964 wheat crop. To be effective, it must be approved by a two to one majority of those voting.

The program being voted on provides the following features for the coming year:

1. Farm allotments equal to about 90% of the 1963 allotment on the average - a national allotment of 49.5 million acres.
2. A national marketing quota of 1.2 billion bushels.
3. Payment for diversion from wheat to conservation uses as a result of complying with the 1964 wheat allotment.
4. An opportunity for each wheat grower to voluntarily reduce below his allotment and devote the acreage to conservation. This acreage will also be eligible for diversion payments.

5. A two price arrangement whereby most of each grower's wheat would be eligible for a price support at \$2.00 a bushel and the balance at \$1.30 a bushel on a national average basis.

Social Security

Over fifty million people have worked long enough under social security to qualify for cash disability benefits if they become disabled. This means that they have social security credits for five years (20 quarters) out of the past ten years, Floyd B. Ellington, district manager of the San Angelo Social Security office said. In the case of a severe disability, the worker and his dependents may be eligible for monthly cash social security disability benefits if he meets this work requirement.

It is not necessary to be completely helpless to qualify for social security disability benefits. These benefits are payable to those who suffer from a crippling disease or a severe impairment which makes them unable to do any substantial work.

Disabled adult sons and daughters of retired, deceased, or disabled workers may also receive childhood disability benefits if they become disabled before they reached age 18.

HOW'S YOUR GUEST ROOM?

Have you tried your guest room lately? If not, it might be a good idea to sleep in it one night. If you wake up with that "broken back" feeling, it's time to scan the papers for mattress sales. Were the bed clothes adequate? It's a good idea to have an extra blanket for a sudden change in the temperature during the night. A standing towel

rack doubles nicely as a blanket stand, eliminating the storage problem where space is limited. On the subject of blankets, light fluffy blankets made with Creslan acrylic fiber, are a good purchase as they can be machine washed and will keep their colors fresh and bright. Also, they are mildew and mothproof and can be left out in town or country.

Planning to air condition for summer?
Here's WTU's newest special offer!

FREE WIRING

... for 220 volt refrigerated room air conditioners of one horsepower or larger.

Now, it is easier and less expensive than ever to have cool comfort all summer long with refrigerated room air conditioners.

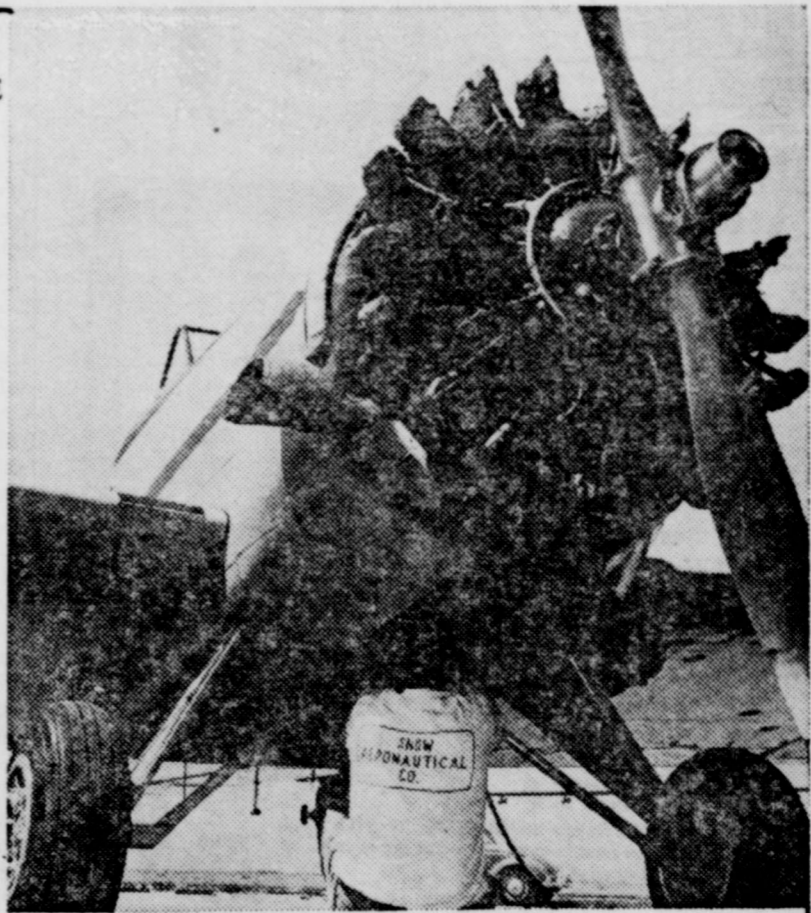

The WTU new wiring program makes it possible... and you can choose your room air conditioner from any local dealer as well as from our company.

Only requirements are that it be a 220 volt room air conditioner of one horsepower or larger and that it be installed for a new user in any existing single unit residence being served by West Texas Utilities. Don't delay! Prepare now for summer's heat! Call your appliance dealer or WTU today!

AROUND THE COUNTY

ARTHUR BARLEMANN, JR. COUNTY AGENT

Eggs of the nut casebearer were found on the pecans in John Brock's grove on Thursday morning of this week. The egg was a very light greenish-white in color which indicated that it had just been deposited in the past day or night. As the eggs grow older on the tip ends of the nuts, the color changes to a reddish brown.

The eggs hatch four to five days after they have been laid by the moth. Then the young casebearer feeds on the tender young pecans near where he hatches out; when this supply of food is exhausted, he moves onto other nuts.

According to information received from the Extension entomologist a few days ago, casebearer eggs are being found about a week earlier than usual this year in central and southern sections of the state. The date of finding the first egg in Sterling County, May 16, is about in line with that. A check of the flies showed that the first eggs last year were found on May 21, five days later than this year.

Recommendations for the control of the casebearer this year have been revised somewhat from what they were in the past. Three new insecticides have been added to the list of control agents. Thiodan, used in combination with DDT is a new one; Sevin and Guthion are the other new ones.

Malathion at the rate of three pounds of 25% wettable powder; Toxaphene at the rate of 5 pounds of 40% wettable powder remains on the list; Nicotine sulfate at the rate of one pint plus two quarts of summer is also recommended. These three at the above rates for 100 gallons of water are probably more easily found on the market. In addition, they are the easiest to use and are not as dangerous to pets and humans.

Spraying should be done as soon as possible now. The biggest problem at the present time of course is the wind. For the last week or two it has been too windy to spray during most of the day. But spraying should be done as soon as possible if you want to make the best nut crop possible. If your trees are for shade alone, then you probably wouldn't want to spray for the casebearer.

Next Tuesday, May 21, is the day that wheat farmers will vote on the new wheat program. There has been much publicity on the proposed program from both sides of the issue. Each wheat producer should vote as he feels on this issue. One of the big attractions of our democracy to people of the dictator-ruled countries is our freedom to vote our own convictions. Yet, each year in all types of elections many forget to vote. Are too busy, or feel that their vote is insignificant. Tuesday is a day when the eligible voters should go to their county ASSC office and vote their beliefs.

According to the release from the screwworm laboratory headquarters at Mission last Friday, Sterling County was one of the three new counties for the previous week to report screwworms being found. The other counties were Brewster, Bell and Stonewall. Since that release however, new cases have been found in Tom Green, Coke and Runnels County.

There were a total of 94 confirmed cases in Texas, 6 from Tew Mexico, and three from Mexico. Non-screwworm cases numbered 355 from Texas, eight from New Mexico, one from Mexico and four from Oklahoma.

During the week of April 28—May 4, a total of 109,279,050 sterile screwworm flies were released. This includes those released in the hot spots and along the release boundary and within that area. Officials of the company that owns the planes dispersing the flies estimate that their planes each month fly a distance equal to 14 trips around the earth.

Explorer Scout News

Bobby Legg, local Explorer Scout, has been notified that he has won a marksmanship trophy for small bore rifle for 1962. Bobby shot the highest score for this council.

Bobby is to be presented this trophy at the next Lions club meeting, as the Lions are one of the principal backers of the Explorer unit.

Last Sunday and Monday members of the troop went fishing at the Currie Lake in Glasscock County. H.L. Bailley, Leslie Payne and Advisor F.W. McDonald accompanied the boys. Scouts going were Billy Blair, Vernon Asbill, Jerry Payne, Billy Bauer, Eddy Coleman, Danny Bailey, Speedy Sparks, and Crisp Williams. The troop had supper at the lake Monday night. 20 good sized bass were caught.

Explorer Troup 12's next meeting will be May 27 at the high school at 7:30. All boys 14 years old and freshman classification are invited to become members of the troop. If a boy wants to join the Explorers, he should attend this meeting.

MY HOME for sale, also good Frigidaire electric range. Come by or call Jake Traylor Monday or Tuesday.

Visiting Mrs. D.C. Durham here last Sunday. (Mothers Day) were Mr. and Mrs. Harold Durham of Eastland and Mr. and Mrs. Clyde Davis of San Angelo. They all had a Mothers Day dinner at the Roy Morgan home.

At the Baptist church Sunday Mrs. Durham got a pot plant for being the oldest person present; she is ninety one and a half. Mrs. Nick Reed got a flower for having the most of her family present.

CARD OF THANKS

We want to thank everyone who took part in the linen shower for the hospital last Sunday; to all those who gave items and those in the receiving line at the hospital.

Epsilon Zeta Club

NOTICE—I will not be responsible for any debts except my own. J.B. MURRAY

CARD OF THANKS

My thanks to all my friends for the gift cards and visits while I was in the hospital and a special thanks to Dr. Swann and the hospital staff for their fine care.

Mrs. Sam Nance

Income should start immediately. Business set up for you. Selling, soliciting, or experience is not necessary. For personal interview in your city-please include your phone number and WRITE U. S. ELECTRONICS CORP. 6267 Natural Bridge Pine Lawn 20, Mo.

estimate that their planes each month fly a distance equal to 14 trips around the earth.

Thus far this session there has been a surprising amount of support from Dixie for New Frontier legislative programs. This has given rise to speculation by observers as to how far this trend will go. Several major bills, calling for expenditures of billions, remain to be acted upon. These include federal aid to education, aid for mass transportation, and a multitude of welfare proposals.

With substantial southern support the Senate has already passed the transportation bill, designed to improve facilities for moving people by mass transportation means - whether railroad commuter, rapid transit or motor buses - in order to relieve mounting traffic congestion in urban areas. This is a \$500 million federal project, and includes both grants and loans to the big cities.

Actually, the transportation problems are essentially local in nature; should be no business of the federal government. San Francisco, for example, only last year approved a \$792 million bond issue to finance an entirely new transit system without outside help. Los Angeles has a plan now to help solve its transit problem by local financing. Many other cities are doing the same. But there is considerable political appeal involved in having Uncle Sam send checks to the big cities that would prefer to spend their local tax money for other purposes.

The House has not yet acted but is expected to pass on this issue in the near future. The biggest pressure for mass transportation aid comes from New York, New Jersey and Connecticut.

The Senate, with substantial help, recently approved a depression-type civilian conservation corps, and is now about to act upon a domestic Peace Corps and two or three other welfare measures, all designed to put more people on the federal payroll.

In the House, the only major New Frontier measure that has been approved thus far was the \$450 million WPA appropriation to finance local spending projects around over the country. A majority of southerners in the House, many of them with projects in their districts, voted for this one.

Washington is now becoming known as the "Nation's City Hall". Problems which in the past were handled by City Commissioners Courts, are showing up in Washington where there seems to be an answer for every ill. Non-defense spending has jumped 27% during the past three years, and this percentage is due to increase at a rapid rate if spending measures are given the green light. "The federal government," says the President, "is the people, and the budget is a reflection of their need."

Among recent visitors to our office have been Dr. Wm. H. McCaw of San Angelo, Arthur Stehling of Fredericksburg, C.C. Woodson of Brownwood; Mayor John Rudder, John Hughes, Jim Feazelle and Billy J. Neal, all of Brady.

High School Library Given Books

Tommy Williams has given the high school library a number of valuable books which he has read and cannot use any more, he said. Most of them are like new and will be enjoyed by the boys. The library can use them with pleasure and the entire school appreciates this gift.

Rv. and Mrs. Homer Mercer of Louisiana are here to take his mother, Mrs. D.O. Mercer home with them for a three months visit. Mrs. Doc Daves and here daughter, Betty Jo, plan to go for a visit there about the first of June.

EVERY ONE WHO WOULD LEARN TO PRAY

needs this book

Every right thinker knows that God is, and wants, so much, to approach Him intelligently through prayer - to commune with Him and to listen for His guidance.

In the first chapter of Science and Health with Key to the Scriptures by Mary Baker Eddy there is an inspiring and practical explanation of prayer.

A great number of people, through the study of this chapter, have found needed health, harmony, supply and well-being.

Science and Health may be read or examined, together with the Bible, at any Christian Science Reading Room. Or it may be purchased at \$3.
