AROUND THE COUNTY by

ARTHUR BARLEMANN, JR. COUNTY AGENT

Sterling County's eighth confirmed case of screwworms was mailed in by I.W. Terry Saturday. The sample came from the place known as the Keyes place about 25 miles southwest of town. It was found in the brisket of one of the steers I.W. is running up there.

The weekly report from Mission shows that there was a total of 81 cases of screwworms confirmed by the laboratory during the week of June 30 - July 6. During the same period last year, there were 2,045 cases confirmed by the lab. The counties with their first case during the above reporting period were Bosque, Upton, Brown, and Winkler.

Two counties inside the primary fly release area which comprises all or part of seventy counties had screwworms during the week. These counties were Brooks and Real. So, it continues that the majority of the cases are still occurring outside of the release area.

The thirteenth annual Beef Cattle Shortcourse will be held at Texas A&M College in the air conditioned Memorial Student Center July 29, 30, and 31. It is sponsored annually by the Animal Husbandry Department of the college.

Subjects to be covered include trends in the cattle business, developments in nutrition, feeding, breeding, and numerous other items of interest to the cattleman.

A livestock and meat marketing institute follows on August 1 and 2. Topics for the institute include livestock and meat marketing, grading, outlook, and problems.

A complete program for the two courses is available in the county agent's office for anyone who would like to see it.

Monday, July 22, is the first day of the annual roundup for the benefit of West Texas Boys' Ranch at Tankersley according to the local chairman, Riley King. Riley says that if you have any old worn out ewes, cows, goats, or anything else that might bring in a dollar or two and you wish to contribute it, take it to the old Santa Fe Stock pens on Monday and he'll arrange transportation. It will be sold at the auction rings in San Angelo at no charge and the proceeds will go to Boys' Ranch. So, here's your chance to get rid of some old shells that would cost you more to haul them to the ring than you could get out of them—let Riley do it. And you'll get credit for it. Of course they'll take good animals too—or anything else that they can sell in the auction ring.

After Monday, call Riley to make arrangements for transportation.

A number of Sterling County ranchers who have irrigated land have planted Midland Bermudagrass this year. Among those who have made plantings are Bill Cole, Virginia and Jack Wilkerson, Reynolds Foster, William, Bubba, and Lester Foster, and possibly some others.

Midland Bermuda is a hybrid cross between the familiar old Coastal Bermuda and Indiana Common Bermuda which is cold hardy. It has longer, taller leaves, fewer runners, and a darker green color.

Midland Bermuda is best adapted to areas where Coastal would ordinarily winter-kill. It does not produce as much forage as the Coastal but is best for this area because it is better able to withstand the cold winters.

The plantings were all made this spring. Thus far, it looks pretty good. On one or two

## Social Security Tips

Has disability robbed you of your earnings capacity? If so, you should check with your social security office, according to Floyd B. Ellington, district manager in San Angelo. Monthly benefits can be paid at any age to working people who have become unable to work by reason of a severe disability that is expected to last for a long time. Benefits begin with the seventh month of disability, but an application may be made before that time. To be eligible, the disabled worker must have social security for at least 5 years' work in the ten year period before he became disabled.

When you make your application, the social security office will assist you in securing the medical evidence necessary. When this evidence has been obtained, along with other facts, a decision will be made as to whether your condition is severe enough to qualify you as "disabled" under the terms of the law.

If you think you meet the requirements or know of anyone who may be eligible, get in touch with the social security office in San Angelo as soon as possible. Delay may result in a loss of benefits.

## "Order of the Arrow" Car - Truck Crash Kills Coleman Man

BOYS AT BUFFALO TRAIL SCOUT CAMP GET ORDER OF THE ARROW

One hundred and fifty-five Boy Scouts and leaders went through the ordeal of the Order of the Arrow at the Davis Mountains Buffalo Trail Scout Camp last weekend.

The Camp is in the deep Davis Mountains on the Espy Ranch there. The area is full of high mountains and deep valleys. Various forms of cacti and mountain plants and trees abound. The camp is in a beautiful setting.

Over 400 boys and leaders were there on the final weekend of summer camp.

In the tap out, as a candidate's name is called, he is escorted to the big chief and is tapped on the shoulder - or both shoulders - depending on his type of ordeal. The ceremony was carried out with dignity and deliberateness.

A flaming arrow was shot by a Scout on the far mountain side and flaming arrows whistling through the air lighted the ceremonial camp fires.

The O.A. candidates were put on silence. They were led out into the mountains and told to bed down for the night - alone.

A very light breakfast was served in the morning - too light - then the work details began. Some poured concrete slabs and steps, some cleared rocks and worked at the rifle range, some help make new steps and seats at the amphitheater and chapel, some painted and some had mess hall duties.

For lunch - again light - the candidates got a slice of cheese, a piece of bologna, 2 slices of bread and punch. (Those boys could drink gallons of punch.)

After a short rest, the details went back to work till around 5 p.m. (A rain gave them a short respite.) Each candidate had to find a stick and find time to make an arrow that he carried during this time. If he talked, someone would put a notch on his arrow and four would disqualify one for membership at that time. (Silent boys do more work.) They had to use sign language, write in the dirt - or on paper if really necessary.

When on silence was declared over a real yell echoed through the canyons. It had to come out good and loud.

A good supper of ham, mashed potatoes, fruit salad, peas, bread, and punch was served in the mess hall. All candidates got dressed for the ceremonies and were lined up with a rope and right hands on the shoulder of the boy or man in front.

At the ceremonial ground those in charge were dressed like Indians. The organization was explained as one of service to others rather than to oneself. It stemmed from the Del. aware Indians. The chief called for volunteers of braves to put service to the whole tribe over selfishness and they were the favored warriors in tribal offices, etc.

After the long ceremony the candidate received their Order of the Arrow sashes, book, registration card - and could get their claw necklaces from the "Jersey Lillie", the store.

Many men earned the O.A. by doing the work. The camp was in better shape - and improved for the next year's campers.

Mike Payne and Collin Douthitt were the two Scouts from here to complete the ordeal. Scoutmaster Richard Reed plans to complete his next month at Camp Ed Murphy, near Big Spring.

Mr and Mrs G.W. Tillerson and son, Joe Dick, of Celeste were Sterling visitors last weekend. They visited the Riley Kings, the H.A. Chapples and other friends. G.W., former high school coach and principal here, is now superintendent of the Celeste schools. Joe Dick, a runner-up for 2 years in state tennis finals, was making some tennis tournaments in this area.

## Stock Donations Needed

BOYS RANCH ROUNDUP OF STOCK JULY 22

Fourth annual West Texas Ranch Roundup is to be held here on Monday, July 22, said Riley King this week.

This biggest fund-raising campaign of the year for the famous boys' ranch near Tankersley is slanted toward livestock and farm products.

All over West Texas, livestock auction and commission firms are offering to sell without fee any livestock donated by stockmen and turn all proceeds directly to Boys Ranch. During the period, donors may carry livestock to any one of the participating firms and be confident the money will go to the Ranch.

J.R. Canning, Eden ranchman, is chairman of the drive. Harvey Hartgrove, San Angelo and Paint Rock ranchman is co-chairman.

They are currently lining up "wagon bosses" all over West Texas to help see that livestock gets in.

Last year's drive was stretched over most of the summer. Volunteer workers this year thought it would be better to concentrate it into a shorter period.

"We'll take any gift at any time," said Canning. "But this is the time to get the livestock in."

With most of West Texas showing good grass now, Canning predicted that ranchmen will be inclined to give more livestock. Bring in your livestock to the old Santa Fe pens here next Monday, said wagon boss Riley King.

Boy Ranch director Morris Craig said the annual Roundup has been of tremendous importance in financing the operation. Economic pressure is critical as the Ranch tries to answer a constantly growing number of calls to help West Texas "hard luck" boys. He said previous Roundups have been a lifesaver for the Ranch.

## Pet Poisoner Strews Poisoned Weiners

Somebody got weiners, cut them in about thirds, split them and dusted poison in them and tied them back up with string and threw them over town—in the streets, yards, and bar ditches last week. A number of dogs and cats were dead of the poisoner — and some were saved by owners.

Strychnine was the powder used, it seems, and the amounts used were not in good proportion. So some dogs were not killed by it.

Sheriff Cantrell's office is checking out leads on the poisoner. Sheriff Jim Cantrell said he was doing all he could to find the pet poisoner. The office has a reward for information leading to the arrest of the culprit, said Cantrell. He is checking strychnine sales in drug stores at San Angelo, Big Spring and other nearby cities.

A danger of toddlers of below school age finding one of the weiners and eating it makes it imperative that the person be found and stopped.

Our WASHINGTON Letter

A lively tussle has developed, behind the scenes, between the Kennedys and Harlem's notorious Adam Clayton Powell, over the President's Civil Rights message to Congress. A few days after the message was sent to Capitol Hill, Adam made a speech in Long Beach in which he boasted: "I rewrote half of his speech for him the night before it was delivered before Congress."

The White House, with eyes cast longingly on the Negro vote bloc, showed embarrassment over the "leak" by Powell, and tried to play down the Harlem Congressman's role in its preparation.

Ten days before Adam's Long Beach speech he was in Paris where he was quoted as saying that "Negroes now have whites on the run and this is the time to keep them running." In this background, some of the White House strategists showed fear that Powell's boast about authorizing half of the Kennedy proposals might cause some members of Congress to take a second look at what is being advocated.

How much does the Peace Corps cost? Questions about the cost of this facet of foreign aid, which duplicates another facet — Point 4, are being asked after two years of Peace Corps operations. On May 31, 4439 Peace Corpsmen were overseas in 45 nations, while 385 were in training — a total of 4824. There are now 1051 Peace Corps employees administering the program — a ratio of about one employee for every 5 in the field carrying out the mission. It takes a little more than \$10,000 per year to maintain each of the Peace Corpsmen overseas.

Mohair is getting quite a boost in Texas with the opening of the Brady Combing Company, where vast amounts of mohair is to be scoured and precessed. The first of its kind in Texas, this plant was moved from New England because of lower labor costs, lower taxes, and a wider public support. I recently had the privilege of going through the plant. Texas mohair growers can take much pride in the project. Its potential as a stimulant to this great industry is important and reassuring.

### Accent on Health

If you suffer from "mid-morning hunger," better revise your breakfast habits, State Health Department nutritionists advise.

More and more people are falling into the habit of skimpy breakfasting. Surveys have shown that two out of every nine children leave for school without breakfast, and four out of ten workers leave for work without anything to eat.

"Midmorning hunger" is the expression nutritionists use to describe the feeling which comes after an inadequate breakfast. Victims usually feel weak and giddy by midmorning. They may be hungry, yet have no taste for lunch. Or, if they are able to eat a big lunch, they may feel sleepy by early afternoon.

Midmorning hunger therapy, nutritionists say, calls for the "patient" to eat a solid breakfast. The extent of breakfast consumption varies from person to person. Individuals with special problems or modified diets can be guided by their physician.

Many Texas teachers and school nurses place special emphasis on breakfast. One school nurse had a breakfast contest in the elementary grades. Near the end of school year a mother telephoned to report on the improved breakfast habits and general well being of the whole family. Before the contest, the mother said, none of the family ate breakfast. Her child, involved in the school breakfast contest, insisted on having a good breakfast. Eventually it caught on and the whole family began eating breakfast and feeling better.

It is a false idea that skipping breakfast is a good way to reduce. If anything, this highly injurious practice adds pounds. It works like this:

Skip breakfast and by noon you have lost your appetite or else you are afraid to eat for fear of being groggy all afternoon. Then for supper you eat the food your body has been demanding all day. Now you go to bed and your supper is converted into fat rather than energy as would have been the case had you eaten properly during hours of greatest activity.

An adequate breakfast pattern can be adapted to any age, budget or cultural pattern: fruit or fruit juice, protein rich food — such as eggs, cheese, meat or beans — bread or cereal and milk.

If time is a prohibitive factor, some preparations can be made the night before — setting the table, fixing the coffee pot, etc.

Breakfast eating is apart of a pattern of daily life that will pay dividends in a higher level of health and well being.

#### THE PIRACY PRINCIPLE

The colorful pirate of old captured your imagination but not that of the shipowners or the governments that lost their cargoes and treasures.

Pirates were "enemies of mankind." Their acts became crimes against that government as well as against the "law of nations." A government would try to catch and punish them no matter how and where the piracy took place.

From these early days, a rule of international law called "the piracy principle" came into being, as to crime against mankind. Any nation might seize and punish such a person. He did not need to be one of its citizens. The crimes could be committed inside or outside its territory. Jurisdiction is worldwide.

Nations often punish their own people for crime beyond their borders. Nations can punish aliens for crimes within their borders. They can punish aliens for crimes committed against that country when they later come into international law.

What about war crimes done on orders of superiors? The World War II allies have declared that certain Nazi leaders committed punishable crimes against nations.

Now and then some nations may allow a court to try a person "in absentia." Such trials without the accused present were once popular, but little comes from such trials in which a person has a fair chance to defend himself.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Mr. and Mrs. Worth Durham, David, Bitsy, Drew, and Jerry Payne went to Colorado last weekend. Worth and Jerry plan to return to Sterling City after a week there.

#### Leonard King's Orchestra To Play

Leonard King's orchestra is to play for the Alumni dance July 27. The dance follows the banquet at the Town & Country and everybody is welcome to the dance, said president, Mrs. B.R. Bynum.

**PEACE CORPS TEST**

Another Peace Corps placement test will be administered at more than 800 post offices and college campuses beginning at 8:30 a.m. local time on July 20.

The non-competitive test must be taken by anyone interested in becoming a Peace Corps Volunteer. This will be the last testing opportunity for persons who hope to enter training for a Peace Corps assignment in September or October.

Those selected for training will spend 10 to 12 weeks on a college campus or a Peace Corps camp in Puerto Rico, studying the language, history and culture of their host country, and American affairs.

Volunteers agree to serve two years in the Peace Corps, including training time. The minimum age for Volunteer service is 18. There is no upper age limit, and a number of persons in their seventies are among the 5,000 Volunteers now serving in 45 nations.

Married couples may serve if they have no dependents and if both husband and wife qualify for the same project.

Language training is helpful for those interested in becoming Volunteers, but more than a fourth of the Peace Corps' present Volunteers never had studied a language previously.

Liberal arts graduates and others with a "general" education have performed so well in teaching and community development programs that the Peace Corps is seeking more persons with this type of background.

The Peace Corps also has requests for persons with skills in agriculture, public health, forestry, carpentry and other building skills, social work, and education of all types and at all levels. Other nations have asked the Peace Corps to provide Volunteers possessing more than 200 job skills. A college degree is not required.

The Peace Corps pays all of a Volunteer's expenses and furnishes administrative support to him abroad. The Volunteer receives, at the completion of his service, a readjustment allowance of \$75 for each month of satisfactory service.

The placement test which is to be given July 20 consists of a half-hour section on general aptitude. Candidates with a background in French or Spanish must take an additional one-hour proficiency test. The Peace Corps placement test now being administered replaces a longer one which required four to eight hours to complete. One will be given in San Angelo at the Federal Bldg., Room 324.

**SOCIAL SECURITY**

Many people are not aware they don't have to retire completely to receive social security benefits according to Floyd B. Ellington, social security district manager.

Ellington stated that special provisions in the social security law make it possible to receive some social security benefits even though a person may have fairly high earnings. He explained that a person can earn \$1200 during the year and receive all of his benefits. And just \$1 in benefits is withheld for every \$2 earned between \$1200 and \$1700. For earnings over \$1700, \$1 in benefits is withheld for each \$1 earned.

Ellington pointed out that a full month's benefits is payable for any month in which the beneficiary does not earn over \$100 in wages and does not actively engage in self-employment.

Ellington urged all workers to visit the social security office when they near retirement age to learn more about their benefit rights. The office is located at 204 Continental Bldg., San Angelo, Texas.

**Billy Graham Film Here July 20**

Evangelist Billy Graham addresses the generation growing up in the shadow of the atomic cloud in his newest feature motion picture, "Touch Of Brass" which premieres in our city, Saturday, 8 p.m. at the First Baptist Church here.

Graham's producing organization, World Wide Pictures, took its sound-color cameras to the homes and factories and places of amusement of Manchester, England, where the story of a working man's family actually took place. The dramatic cast was drawn from the locale itself, resulting in a ring of authenticity rarely seen on the motion picture screen. The film was directed by Dick Ross and runs the emotional gamut including something for every age group.

Scheduled with the dramatic feature, is a Musical Featurette, "TO GOD THE GLORY" which features the talent and artistry of the Billy Graham platform team: Cliff Barrows, Song Leader and Master of Ceremonies; George Beverly Shea, internationally known base baritone soloist; Tedd Smith and Don Hustad at Piano and organ; and the voices of the Christianaires Choir.

A unique highlight is a "Sing Along" segment in which the audience participates as Cliff Barrows conducts.

The two motion pictures provide a full evening of inspiration and spiritual challenge blended in a most unusual manner.

No charge, and everybody is invited, but a freewill offering will be taken.

**FREEDOM**

In our nation, freedom is a hallowed cause—and rightly so. It is the topic of high-level conferences. Congress enacts legislation to protect and to preserve it. High school students write essays on it. Most Americans can tell you what it is. Few, however, stop to consider the one thing it is not. It is NOT FREE.

Since 1776, thousands of Americans have paid the supreme sacrifice bravely and without question so that freedom might reign in our land. Our country has never failed to meet the price demanded of a nation besieged from within or without by enemies of democracy. For true Americans, the cost of freedom is never too high.

Sacrifices which citizens are called upon to make today are small indeed when compared with those of our forefathers assembled in Philadelphia 187 years ago. Yet, we see "patriotic" backsliders shirk their responsibilities to their country at every opportunity. Through lethargy or indifference or because it is considered "boorish" in some circles, certain segments of our society ignore civic obligations, nimbly skirt jury duty, snub public service and avoid situations which require their participation as witnesses. They "stand" for, or against, many things, but are responsible for none. They are deadheading on democracy at the expense of their fellow man.

Ours is a system of government by law. The Nation's welfare, progress and security depend on effective enforcement of law. Presumably, there should be no question as to where the public's sympathy lies. However, many local law enforcement officers and representatives of Federal investigative agencies daily feel the sting of citizens' refusals to help in matters involving the safety of their own communities or the security of the country. Some so-called intellectuals and misguided theorists, who view the world through a rosy haze, are affronted when approached by representatives of duly authorized governmental organizations carrying out their proper functions. Contemptuous and uncooperative, these persons consider investigative and security inquiries to be ridiculous. Their sense of duty is contaminated.

When the ranks of decency and morality in America grow thin and listless, crime and other sinister forces flourish. During 1962, over 2 million serious crimes were reported to police, a 6 percent increase over 1961. A major cause of this increase is public apathy, a refusal by our society to face reality. The time may be near when the public must actively support adequate and effective law enforcement or be overwhelmed by a criminal jungle. Mere lip service will not suffice.

The path of patriotic and civic duty leads to personal glory for only a few, but it does lead to the survival of the American way of life—liberty, freedom and the pursuit of happiness. The task is a common cause. There can be no exception for special interest groups or laggards.

As we observe Independence Day, Americans who are prone to shirk their responsibilities to our great Nation might think about these things—to oppressed people who cry out for freedom, the responsibility of preserving it would be a privilege, not an inconvenience.

**Quick Roast Chicken Stuffing**

Dinner parties present a true test of a homemaker's table-setting arrangement as well as her culinary skill. The food served must measure up to the table finery, hopefully without chaining the hostess to the kitchen. Modern convenience foods such as instant whipped potatoes and Brandywine canned sliced white button mushrooms help the modern hostess to short-cut dinner preparation. The Borden Kitchen shows how this can be accomplished in this recipe for a roast chicken stuffing:

**Instant Whipped Potato Stuffing**  
(Makes enough stuffing for one bird)

- 1 (4 to 4 1/2-lb.) roasting chicken
- 4 tablespoons butter
- 2 medium-size onions, chopped
- 3 (4-oz.) cans sliced button mushrooms, drained well
- 3/4 cup mushroom liquor
- 1 teaspoon salt
- 3/4 cup milk
- 1 1/2 cups (4 servings) instant whipped potato flakes
- 3/8 teaspoon black pepper
- 3/8 teaspoon poultry seasoning

Clean and truss bird; salt the inside. Melt butter in small skillet; saute onions and mushrooms in butter until onions are tender and slightly transparent. Pour mushroom liquor and salt into small saucepan. Cover and bring to a boil. Remove from heat and add milk immediately. Add potato flakes. Stir with a fork until all moisture is absorbed. Whip briskly. Add sauteed vegetables, pepper and poultry seasoning and mix well. Cool slightly. Lightly stuff bird with dressing and close cavity. Cover bird with clean cheese cloth which has been dipped in melted butter. Roast, breast side down, on rack, in an open roaster in slow oven (325° F.) about 1 1/4 hours or until tender. Remove cloth, turn bird breast side up and continue to roast 15 minutes longer. If desired, garnish with small bunches of green Thompson grapes, spiced red peaches, green minted pears . . . and parsley.

**EVERY ONE WHO WOULD LEARN TO PRAY**

needs this book

Every right thinker knows that God is, and wants, so much, to approach Him intelligently through prayer—to commune with Him and to listen for His guidance.

In the first chapter of Science and Health with Key to the Scriptures by Mary Baker Eddy there is an inspiring and practical explanation of prayer.

A great number of people, through the study of this chapter, have found needed health, harmony, supply and well-being.

Science and Health may be read or examined, together with the Bible, at any Christian Science Reading Room. Or it may be purchased at \$3.
