## Cotton Marketing Quotas Up For Vote December 10

The referendum on Cotton Marketing Quotas for the 1964 Upland Crop will be conducted Tuesday, December 10, 1963, between hours of 8:00 A.M. and 6:00 P.M. at the ASCS office located in the Sterling County courthouse.

This will mark the eleventh consecutive year in which growers have voted on marketing quotas for their upland cotton crop.

If at least two-thirds of the growers in the referendum approve quotas for the 1964 crop, price support at a level within the range of 65 to 90 percent of parity will be available to growers who comply with their farm allotments and marketing quota penalties will apply to any "excess" cotton produced on a farm.

If more than one-third of the voters oppose quotas for the 1964 crop, price support will be available to growers who plant within their allotments at 50 percent of parity, as provided by law.

Allotments are not affected by the outcome of the balloting. They will remain in effect—whether or not quotas are approved—as a means of determining eligibility for price support.

All farmers who were engaged in the production of upland cotton in 1963 are eligible to vote in the referendum.

Growers who have any questions about their eligibility to vote or about any particular part of the cotton program are urged to get in touch with the local ASCS office.

## 4-H CLUB GOLD STAR AWARDS

TO ROSANNE FOSTER AND TOMMY FOSTER

The 1963 4-H Club Gold Star Award winners for Sterling County have been selected. Winners of the awards this year are Rosanne Foster and Tommy Foster.

The Gold Star is the highest award a club member can win in the county. One boy and one girl are selected annually to receive the award on the basis of their past club work. To be eligible to receive the award, a club member must have completed at least three years of 4-H Club work, be over 13 years of age, and have participated in more than one activity of the club.

Rosanne has completed five years of 4-H Club work. During that time she has completed demonstrations in lamb feeding, safety, and electricity. Rosanne has received county awards for safety, electricity, achievement, and leadership.

In addition to her demonstrations, Rosanne has been a member of several junior and senior grass identification teams. Teams of which she was a member have competed in the district contests at San Angelo placing, high, particularly in years when she competed as a junior. In 1963, Rosanne and her team mate, Barbara Durham, competed in the team contest division at the District 7 contests. There they placed first in the range conservation demonstration team division competing against teams from six other counties in the district. This first place earned the team the right to compete in the State 4-H Contests at College Station in June. The demonstration, based on the erosion of rangeland, was given in competition with teams from twenty-three other counties in the state in the range, soil, and water conservation division of the contests. The team placed second in very stiff competition scoring 39 points out of a possible hundred; score of the first place team was 90 points.

Rosanne has shown lambs in the county show, where she had the reserve champion fine wool lamb in 1958, as well as at Abilene, Odessa, San Antonio and San Angelo. At the present time, she and her brother and sister have a group of lambs on feed for the 1964 spring shows.

Tommy Foster has completed four years of club work. In that time, he has fed lambs, range ewes, and completed demonstrations in range management. He showed the reserve champion finewool lamb in the 1963 Sterling County Stock Show with a lamb bred by his father. He and his sister have lambs on feed for the 1964 shows.

Tommy's awards have included achievement, range management, and agricultural medals. His range management demonstration record placed second in the District 7 records judging in 1962.

Range judging and grass identification contests have been a part of Tommy's activities as long as he has been a member of the 4-H Club. He was a member of the range judging team that won the District 7 contest in 1961, placed first in the North Concho River Soil Conservation District Range Judging Contest in 1961, and took third place in the State 4-H Club range judging contest in College Station the same year. In the state contest, Tommy was handicapped by having to get around on crutches due to a knee injury but carried his share of the load and scored well.

He was a member of the grass identification team in 1963 that placed second in the district contests. The team participated in the state contests along with teams from twelve other counties but did not place in the top three. Tommy was a member of the range judging team that placed second in the North Concho River Soil Conservation District Con-

## March of Dimes Aid Frees Joan To Devote Self to Helping Others

For 13 years, Joan Keeler has been jousting with a formidable antagonist.

Sometimes this attractive young woman, who lives and follows her profession of occupational therapy in Summit, N. J., makes some headway and seems to be winning. Then in a counteroffensive, her old foe will deliver a succession of cruel blows.

The old foe, the formidable antagonist, is rheumatoid arthritis. Arthritis tortures, cripples and deforms more people in the United States than any other disorder.

Emphasizing that she neither wants nor needs anyone's sympathy, Joan agreed to tell something about her encounters with this excruciating disease since her teens. She spoke during one of her monthly visits to the March of Dimes-financed Arthritis Center at Columbia Presbyterian Medical Center, New York City.

At the age of 17, Joan could look forward to what should be a reasonably happy life. She was attractive, athletic and a good student.

Then without warning, Joan says, "the roof of my little dream house caved in."

First, there were unaccountable pains during the summer just before college, and that meant the end of athletics because pain wracked her body. Next, fever and loss of weight. Diagnosis of rheumatoid arthritis, never simple to make, was even more difficult 13 years ago. Specialists shook their heads in puzzlement over which disease had robbed this young woman of perfect health.

Despite the increasing severity of the pains, Joan was determined to start college. The first, almost insurmountable problem was getting from dormitory to classroom. The next difficulty was concentration. How can a student apply herself closely to lectures and homework when she suffers incessant spasms of pain in her back, arms and hands, legs and even her toes?

"It became a fiasco," she says. "The plain fact was I couldn't keep up. I had to drop out." Then, during the following summer, Joan's old foe seemed to relent. She improved and returned to school.

But the rheumatoid arthritis returned to the attack—more

Joan Keeler (left), after long and painful joust with rheumatoid arthritis, now teaches others who are handicapped. Above, she's instructing in the use of sewing machine.

savagely than it had before.

The second homecoming from college was no less discouraging than the first. But it did result in her applying to the Arthritis Clinic of Columbia Presbyterian Medical Center, which had been studying the problem of rheumatoid arthritis since 1928, and to which The National Foundation-March of Dimes has contributed \$105,106 since 1959.

After exhaustive tests, the upshot was a definite diagnosis of rheumatoid arthritis. Now, at last, the enemy was identified.

The first urgent objective was to reduce Joan's pain so that she could be moved, and move herself, without unendurable suffering. This was accomplished in part through administration of cortisone (which she continues to take but in reduced dosages). A second goal was, by means of surgery, to "unclench" her hands so that she could regain the use of her fingers. A third aim was to minimize the weight-bearing pressure on her feet by designing specialoccasins.

The fourth aim was to begin physical therapy as soon as cortisone had reduced the inflammation of joints and connective tissues to a point where

rehabilitative exercise was possible.

"The simple truth is that the March of Dimes put me on my feet," she explains. This feeling of thankfulness set her to thinking of doing something within her capabilities which would also be helpful to others.

She also had intimate experience, during her own ordeal, with many kinds of therapy. Armed with this familiarity, she began to study occupational therapy which is the teaching of arts and trades as a means of rehabilitation of patients handicapped physically or mentally.

"I was lucky to get a position as an occupational therapist at Fair Oaks Hospital in my home town," Joan relates. "I soon learned that I understood the attitudes of these patients toward life—their fears and hostilities—and that they understood my attitude, because all of us had experienced what it is to be handicapped. And I am better adjusted and happier than I was because I am helping others."

Perhaps the old foe, the formidable antagonist, has not been altogether vanquished. But by helping others, Joan Keeler has found that at least she now keeps her enemy on the defensive, most of the time.

### SOCIAL SECURITY NOTES

Floyd B. Ellington of the San Angelo social security district office said today that applying for your social security benefits two or three months before you retire is a good step to take. Retirement from many years of working involves a great many details to be attended to at the last minute. It's best not to leave social security till then. Mr. Ellington said that his office can help speed your first check if you apply a little ahead of time.

Applying early means you will get your social security benefit check soon after you retire. Your benefit will arrive when you need income most—after the familiar pay check has stopped.

Several months before you retire, you should call the social security office at 653-6861 to see what proofs to bring with you when you go in to apply for your benefits. You may be asked to bring proof of your age, proof of marriage or your last tax return or a W-2 form showing your wages. The social security office can tell you what you will need. Details peculiar to your particular case can be discussed and decided.

Even if you are not retiring Mr. Ellington said that his office would like to send you a pamphlet explaining the highlights of social security. If you are at least 62, it is extremely important to know about reduced benefits payable at that age. There is a good deal to know about social security options that might apply to your own situation. At age 65, benefits can be paid in full if you earn less than \$1200 a year. And even if you earn considerably more than \$1200 a year, some benefits may be payable.

Don't delay. Phone or go into the social security office at 204 Continental Building, San Angelo, Texas before you retire. They'll be able to answer a lot of questions for you. "Am I entitled to benefits? How Much? What about My Wife and Children?" These are only a few of the matters they can clear up for you. They'll make sure you don't lose any benefits to which you are entitled.

state leadership award last year, were named recently by the Cooperative Extension Service for the achievement honors.

The National 4-H Achievement program, sponsored by the Ford Motor Company Fund, aims at developing leadership talents and a broader knowledge of 4-H agricultural and home economics projects.

Meador, son of Mr. and Mrs. A. B. Meador of Lubbock, is a nine-year 4-H veteran of projects in beef and dairy cattle, swine, electricity, grain sorghum, cotton, tractor maintenance, home improvement, poultry and recreation. In 1961 he and his sister Judy won Lubbock County Gold Star awards.

Miss Ewing is a blue ribbon winner in county and district dress revues. In addition she has a long list of achievements in leadership at local through state levels, and participated extensively in various 4-H events.

As state leadership winner last year, "my real dream came true," she said, because she attended the National 4-H Club Congress in Chicago.

The 10-year 4-H member, who plans a career in home demonstration and 4-H leadership, is the daughter of Mr. and Mrs. Morris B. Ewing of 5837 Hampshire in Corpus Christi. She attends Del Mar Junior College.

**FRIGIDAIRE**

**NEW 1964 FLOWING HEAT DRYERS**

Exclusive Flowing Heat — safer than sunshine! Only Frigidaire has it — and the finest fabrics love it. No "hot spots." Wonderfully gentle Flowing Heat dries every last piece in every load breeze-fresh — clear through. Colors stay brighter. No sun fading!

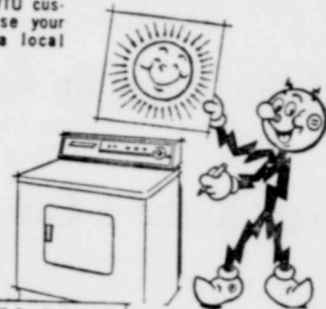

No venting — no plumbing with exclusive Filtrator! Save on installation! Not one cent for plumbing or venting. The Filtrator removes moisture automatically — into a slide-out spill guard pan! Optional automatic disposal, too!

No stooping — no stretching — no lint problem! In some dryers, lint cleaning's a real chore. Not with Frigidaire! Every Frigidaire Dryer has a no-stoop lint screen right up front — on the door. Cleaning's done in less than 1 minute — without stooping or bending!

Automatic Dry control ends drying time guesswork! No over-drying — under-drying! Automatic Dry control measures moisture — shuts off dryer when clothes are just-right dry. Choice of Timed Drying in every model.

Beats all outdoors for getting clothes dry! One dial does all the work. You have a choice of Timed or No Heat settings. And special settings for delicate fabrics and Wash & Wears. Plus — for automatic cool-and-fluff period at end of every cycle — an advanced feature you'll find in every '64 Frigidaire Dryer. **MIDLAND TO HAVE NEW HOSPITAL SOON**

Parkview Hospital, a modern, new 60-bed general hospital is rapidly nearing completion at Midland and will be opened early in the new year. The new facility will be a proprietary hospital, and is an integral part of a complete project of health-care and retirement facilities that will eventually encompass almost sixty acres of land in the northeast section of the city. Parkview Manor, a 100-bed nursing home, was opened early this fall as the first step in this long planned venture which includes apartment housing for the elderly (the first unit of eight apartments is nearly completed) plus single family dwellings designed especially for elderly housing, a neighborhood shopping area, medical offices, and a community building, in addition to a non-denominational church.

The new hospital, like its companion nursing home, is of steel and masonry construction, completely fireproof and fully air-conditioned. It will be equipped with the latest features and furniture to provide only the finest of patient care.

STERLING CITY, TEXAS

**Notice--To My Friends and Customers:**

I have bought Chapple's store and will begin operating it Monday, December 9. I want and need all my customers to "MOVE" with me and continue trading at the new location.

**Open House Monday**

On Monday, December 9, we will have open house. Free coffee and doughnuts will be served all day. We invite everybody in Sterling to come in for coffee and doughnuts.

We can do a better job for you in our new, larger location. We want and appreciate your business.

SINCERELY,

**JOHN BROCK**

**To My Friends and Customers:**

I have sold my store here to John Brock. We will inventory this Sunday afternoon and John will take over and operate the store beginning Monday, December 9.

In my dealings with Mr. Brock everything has always been friendly and pleasant. I will appreciate it if you would favor John with your business as you have me through the years. He will continue to give Green Satmps on cash sales as I've been doing. He will need and deserve your business. Trade at home and have a better store — for yourself, your family and your community.

I will be around the store for the next few days and would appreciate those with accounts on the books coming by and settling up.

My family and I hate to leave the fine Sterling City friends and people, but I have an opportunity that is too good for me to turn down.

SINCERELY,

**H. A. CHAPPLE**
