Fire Department Officers Elected

The Sterling Volunteer Fire Department met Monday night and elected officers as follows: W. R. Brooks, president; Perry Matthews, vice-pres.; Kenneth Peel, Fire Chief; Ross Foster, asst. chief; Troy Templin, 2nd asst.; R. P. Brown, fire marshal; Dan Glass, asst. marshal; Hubert Travis, chaplain; Jim Cantrell, sheriff; H. M. Knight, secretary; D. Kirk Hopkins, treasurer.

The treasurers report was read by Mr. Hopkins. Receipts for the year were \$343.87, disbursements—\$725.06 and a balance of \$230.75.

Members discussed ways of raising money to cover the expenses of the department. The immediate plan decided on was for members of the department to call on all the people of the county that were interested in the fire department being continued and see if they would make contributions to support the department.

Present at the meeting were Seth Bailey, Arthur Barleman, Henry Bauer, R. P. Brown, H. F. Donaldson, T. J. Finnegan, Ross Foster, Dan Glass, G.W. Hamlett, Hugh Harzke, Kirk Hopkins, Hal Knight, Harvey Latham, Perry Matthews, Leslie Payne, Kenneth Peel, Troy Templin and Bob Wray.

Wildcat Set for Sterling County To Test Ellenburger

R. P. Fisher of Abilene will drill the No. 1 F. E. Davis, an 8500-foot Ellenburger wildcat in Sterling County, four miles east of Sterling City.

Location is 1,970 feet from the south and 660 feet from the east line of 112-SPRR. Fortune Drilling Co. of San Angelo, is the drilling contractor.

George Belton Ray Buried Here Monday

George Belton Ray of Levelland was buried here Monday afternoon in the Montvale Cemetery. He had died in a Levelland hospital on November 8. He was 72 years old.

Mr. Ray was born in Midland on January 4, 1892. He had resided in Levelland with a daughter the past three years, moving there from Andrews. Prior to retirement 11 years ago, he had served several years with the Texas Rangers and the Liquor Control Board in Texas. Then he was a guard at the potash mines near Carlsbad, New Mexico. He was chief of police at Clovis in the 1940s and had been a law enforcement officer for 44 years.

Mr. Ray married Pearl Edwards of San Angelo in 1917. She died in 1928. He married Jane Joiner of Oklahoma in 1936.

264 Now Enrolled in School

Superintendent of schools O.T. Jones said this week that the school enrollment had reached 264. There are 193 students in grade school and 71 in high school.

This figure compares with 251 enrolled as school opened early in September.

Attending State PTA Convention

The State PTA Convention is being held in Dallas this week. Delegates left by chartered bus from Big Spring on Tuesday.

HOME COMING SUPPER TONIGHT AT SCHOOL

The senior class is sponsoring an Italian Spaghetti Supper tonight, November 13 at the school lunchroom from 5 to 6:30 p.m. Prices are \$1.25 for adults and 75c for children. Tickets are being sold by all senior class members.

It really sounds like good eating.

Eagles Take Buena Vista 30 to 8

HOME COMING WITH FORSAN HERE TONIGHT

The Eagles play the Forsan Buffaloes here tonight in a homecoming game. The tilt is the second conference game for the locals so far this year.

Forsan has not showed much promise—or threat to the opposition.

Homecoming Parade Today at 2:30

The homecoming parade will start at 2:30 today, beginning at the Baptist Church and ending at the roadside park in the east end of town with a pep rally. Fred Igo of the high school is coordinator of the parade. All grades of the school will parade, and any club, group or organization in the town that wants to join the parade are more than welcome to join. Just gather at the Baptist church before 2:30 and check with the coordinator.

The football hero and the football sweetheart will be crowned at halftime activities.

SCHOOL LUNCH ROOM MENUS

- MONDAY, NOVEMBER 16**

Creamed Green Peas
Vegetable Salad
Rolls
Banana Pudding
- THURSDAY, NOVEMBER 19**
Steak Fingers
Creamed Potatoes
String Beans
Cabbage, Tomato Salad
Rolls
Apricot Cobbler

Play Forsan Here Tonight at 7:30

The Sterling City Eagles trimmed the Imperial (Buena Vista) Longhorns 30 to 8 in the first conference battle of this season—here last Friday night. This was the second time this year that the Eagles had beaten Imperial. They played a pre-conference eleven man game ther in October.

On the third play of the game, halfback Bill Foster scooted 21 yards over the Longhorn's goal for a touchdown and Mike Arp converted for two more points. That was the total scoring of the first quarter.

In the second quarter, Arp, on a handoff, dashed 30 yards for a T.D. Conversion that time failed. Soon thereafter, Wayland Foster ran around right end for a counter and brother Bill Foster converted for two more.

In the third quarter, as the Longhorns punted on a fourth down, Wayland Foster, playing safety, took the pigskin, and ran 45 yards for an Eagle T.D. Speedy Sparks passed to Barry Churchill for the two extra points.

Coach Dillard, in the fourth quarter, began playing his entire squad (in and out) and Jerry Dale of the Longhorns pushed through for a Longhorn counter and Zenon Ledesma converted for two more for Imperial.

During the game the Sterling boys racked up seven first downs and the Imperial boys chalked up 11.

The middle of the line held well on defense and the boys looked good on offense.

Barry Todd Churchill punted one punt for 45 yards. In ball carrying, Wayland Foster carried the ball eight times for an average of seven yards per time; Bill Foster carried the ball eleven times for an average of 8½ yards; and Mike Arp carried the ball six times for an average of 12 yards.

Coach Dillard said his boys were in good shape for the game tonight. John Cooney, freshman player, is out with a broken leg—just above his ankle. He was taken to the San Angelo hospital but is home now.

SCIENCE SKETCHES

FUTURE MINING operations on the moon may have caught the public's fancy but it is the ocean that will yield the greater value, according to a report at the International Mineral Processing Congress in New York City. It is predicted that such minerals as manganese and cobalt will be mined from the sea. Processing plants located 50 to 200 feet under water would suck up ocean bottom mud containing metallic nodules.

IN A YEAR the average American will eat two pounds more margarine than butter, reports Votator, Louisville, and the total amount of margarine eaten in the U.S. each year would circle the earth six times in a belt of one-pound packages. Improved processing is the principal reason for the increased consumption.

A POLISH DUCAT, minted in 1621 and weighing a half-pound, is one of the largest and rarest coins. A private collector recently paid \$9,240 for the 234-inch gold coin.

HOSPITAL NOTES

Patients in the Sterling County Hospital on Thursday morning of this week included—

- John Brock
- John Copeland
- Mrs. Jim Butler
- Dismissals since Thursday of last week include: Richard K. Hill, Ernest Neill, Mrs. Jeff Davis, Mrs. Will Meyer, Mrs. Alvah McCutcheon and infant daughter Kenneth Landers

High School Mothers Club To Meet Next Monday

Mrs. Ross Foster, president of the High School Mothers Club, announced this week that there would be a meeting of the group at the school on next Monday, November 16 at 2:30 p.m. in the music room.

The president said that the plans for the football banquet would be discussed and committees appointed.

V.A. Student Teacher Here

Richard Robinson, senior Agricultural Education Major from Texas Tech is doing his student teaching in the vocational agricultural department at Sterling City High School.

He came to Sterling City November 2, observed the first week and started teaching the first year vocational agriculture classes November 9. He will remain in the Sterling City school system for six weeks, or until the Christmas holidays. Mr. Robinson will receive his B.S. degree in Agricultural Education from Texas Tech in May, 1965. He is a native of Snyder, Texas, where his parents, Mr and Mrs. Raymond Robinson, are farmers.

Mr. Robinson is working with the Junior Chapter conducting team at Sterling City and will accompany the boys to the Concho District leadership contests to be held at Eldorado Wednesday of this week.

of deer on the place.

Each passing day brings the expected frost a day closer. This can mean trouble for livestock producers, especially those with some of the forage crops such as Haygrazer or any type of sorghum being grazed by livestock. These crops are particularly bad about the amount of prussic acid developed following a freeze. Johnson grass is very bad as is sorghum alum.

Prussic acid poisoning kills very quickly, rdnarily there is not time to treat an animal.

Crops such as these mentioned can be made into hay or silage though. They should not be grazed until completely dry. Generally, enough of the prussic acid is lost in the ensiling process to make them safe as silage. They should not be self-fed however.

Buy Bulls at Sal

At the Concho Hereford bull sale Tuesday in San Angelo, Harvey Glass bought the reserve champ bull from Chas. Creighton of Big Spring for \$910.

John Reed, also of Sterling, bought three bulls for a total of \$1,305 and Worth Durham got two for \$912.

Epsilon Zeta Club Met Tuesday

Mrs. Joe Blank was hostess when the members of the Epsilon Zeta Club met Tuesday evening in the community center. She served a dessert plate. Guests present were Mrs. Cary Tomerlin and Mrs. Bill Fletcher.

Dr. Richard Allison of the McKnight State Sanatorium at Carlsbad spoke to the group on tuberculosis.

A problem that has long plagued feedlot operators with either steers or lambs in the feedlot may be solved as the result of tests by nutritionists with the Agricultural Research Service and Texas A&M. Many operators saw their margin cut to nothing or changed to a loss as the result of urinary calculi. Other names for it are kidney stones or, as often called in lambs, water belly.

Tests have shown that the addition of **fammonium chloride—technical grade**, to the ration afforded almost complete protection. The steers and lambs were fed under a variety of conditions and with different rations.

The addition of 1.25 ounces daily for steers and one-fourth ounce daily for lambs to the ration has been found effective in controlling calculi. These amounts may be included in the rations where the calculi has been a problem. These levels may be fed throughout the feeding period without affecting carcass quality or gain. It may be added to the premix, concentrate, or mixed ration; it can be used with mechanical mixing equipment. The estimated maximum cost in the feedlot is 1.5c daily for steers or 50c per lamb for 140 day feeding period.

It can be used where the calculi has been a problem on the range. Steers should receive three-fourths ounce per day, lambs one-eighth ounce daily in the protein supplement. Cost for range animals is about one half that for feedlot animals.

Deer hunting season will open in the next few days. Opening date in Sterling County is November 16. The season will open in Coke and other counties under regulatory authority on November 14. The Sterling County Game Management Association at its last meeting voted to request the state legislature to place Sterling County under regulatory authority, but if it is done, it will not be effective until the 1965 season at the earliest.

Under regulatory authority, landowners have some voice in the dates of the season as the 14th in Coke County. They can also issue permits to kill does if this is desirable and in accord with the number

'Little Gal of the Golden West' Is National March of Dimes Child

A blue-eyed lady of four years, known affectionately in her home town of Denver as the "Little Gal of the Golden West," is the 1965 National March of Dimes Child. Her name is Michaeline ("Mickey") Lea Heinicke.

Mickey symbolizes the quarter-million American infants born every year with severe birth defects on whose behalf contributors to the March of Dimes have financed programs of research, medical care and education.

Mickey's mother, Maxine, tells of the tragedy that today befalls one in ten families in the United States.

"Like tens of thousands of other couples, Paul and I were heartbroken and numb when we learned the truth a few days after Mickey was born. I am a nurse, and I had had some experience with babies born with an open spine, which was the case with Mickey. I was under no rosy illusions that this third child of ours would ever walk.

"But," asks Maxine, "do you remember that song, 'Did You Ever See a Dream Walking?' The refrain comes back to me every time I see Mickey walking on her crutches and braces, or furiously riding her hobby horse in the parlor, or doing an Indian war dance to her phonograph records. I say to myself, 'that's my little dream walking.'

"But my husband and I would never have experienced this real-life dream without March of Dimes help."

Mickey, whose spinal rupture was repaired when she was only three days old, is now midway through a tour that precedes the coast-to-coast March of Dimes campaign in January. Although severely handicapped, this four-year-old thrives on the long days, tedious air-hops between cities, appearances at conventions and the strain of meeting Senators, Congressmen, Generals, stars of stage and screen and other public figures.

Mickey is already a veteran trouper, unimpressed by the mighty in high places. Her

WHOA! Aboard her pony, Mickey Heinicke, 4, Denver, 1965 National March of Dimes Child, reins in for benefit of photographers.

mother says, apprehensively: "In January, when we expect to have the privilege of visiting the White House, I know I will faint dead away when Mickey will undoubtedly bubble over to the President. 'Hiya, Podner,' or something awfully familiar and western to the First Lady."

Birth defects are the greatest medical problem threatening the nation's children. To help provide patient aid in this area, contributors to the March of Dimes now support 50 treatment and study centers at leading medical centers and university-affiliated hospitals.

Basil O'Connor, president of The National Foundation-March of Dimes, says that the need for many more such centers is acute.

"Birth defects," he adds, "are a much more serious problem than polio ever was."

"To attain the same successful end that was achieved in eliminating polio, we need not 50 birth defects centers but 150 centers to help these afflicted infants and children. Funds are also needed desperately to support research inquiries into the many scientific problems involved."

"I sometimes look at the crippled Mickeys around our country, at children born without arms or legs, at other tots doomed unnecessarily to lives of mental retardation—all due to birth defects; and I wonder how many of our warmhearted citizens can fail to demand and to finance a means to end this shocking destruction whatever the cost."

Social Security Tips

Will your social security monthly retirement check be \$100 or \$120? If your wife claims her payments when she's 62, will they increase when she reaches 65? These are some of the questions you might like to have answered before you retire. Floyd B. Ellington, District Manager of the office in San Angelo said it's a good idea to visit their office about three months before that date. There is an advantage of your applying well ahead of time. Most applications go through without any trouble, but every once in a while someone has trouble proving his age or providing some other form of needed evidence. When that happens everything grinds to a stop until a satisfactory age or birth record or other proof is supplied. If you wait until you retire to make your claim, and you don't have the records you need, your first check may be delayed. If you don't need your social security right away, it won't matter, but most folks count on that first check as part of their post-retirement budget.

When you visit the social security office three months before retirement, there are some records you'll need to take. The best way to find out what you should take is to phone ahead. In addition to a record of your age, you may need to take your last withholding tax statement. If your wife is 62 and wants to apply for benefits also, she'll need a record of her age. If you call the social security office before you pay the pre-retirement visit, they can tell you exactly what you'll need. If there's some record you don't have, they can usually help you get it. Helping people with retirement claims is their business. For example, they know the best, and quickest way to get a record of your age.

Some people delay a trip to the social security office because they think a social security claim will be a lot of trouble. It isn't an automatic thing, but highly trained people will do everything to help you. There are three things to remember. First, plan ahead for your retirement. Second, call the social security office. Find out what to take with you, and the best time to go. Third don't wait until after you retire to make your social security claim. The San Angelo office is located at 3000 W. Harris, phone 949-4608.

Floyd B. Ellington, district manager of social security in San Angelo, issued a reminder today to all persons who are receiving social security benefits that they must notify the Social Security Administration whenever something happens that might affect the payment of their benefits. Some of the events which must be reported are:

1. Earnings from all types of work if the beneficiary is under age 72 and expects to earn more than \$1200 during the year.
2. Death of a beneficiary.
3. Change in marital status—unless the beneficiary is receiving payments as a retired worker.
4. Change of custody of a child or other person for whom you are receiving benefits.
5. Change in address.

"Social security beneficiaries received a list of these and other events that must be reported with this check earlier this year," Ellington said. "If they do not have this list, they may pick up another at the social security office."

"In fact, anyone who has a question about social security should get in touch with us to get correct information." The address of the social security office is 204 Continental Building, San Angelo, Texas. Telephone is 653-6861.

*Equal Payment Plan

Budget minded? Aren't we all? Now you can know every month just what your electric service bill will be. West Texas Utilities Co. has a new plan for residential customers... a new Equal Payment Plan. They will estimate the amount of electric service you will use in the next year and divide it into 12 equal even-dollar payments. This estimate is based on your past electric service usage, or in the case of a new customer, on similar accounts.

To keep the payments balanced, your account is reviewed monthly and yearly. If your actual metered electric usage differs materially from the estimate... due to a new major appliance or unusual conditions... you are notified that a change, up or down, in your monthly payments is needed. You may join at any time. The Equal Payment Plan Year ends with your 12th monthly payment. If at the end of the EPP year you have used more, or less, than the estimated amount, your 12th monthly payment will be increased or decreased to balance the account. Call or visit your WTU office... ask for complete details of the Equal Payment Plan now.

SCIENCE SKETCHES

FUTURE CROOKS can be spotted the day they begin school, say two American criminologists who have developed a test to determine criminal potential. The test is said to be 80 to 90 per cent accurate in telling whether a boy who pulls a girl's hair is a future delinquent or just high-spirited.

BRUXISM is the scientific name for grinding the teeth during sleep and, according to a study by the University of Chicago, is usually an indication that the sleeper is dreaming. Bruxism occurs in one out of every 10 people.

CRYOGENIC refrigeration for trucks and other forms of transportation involves use of intense cold (-320 degrees F.) liquid nitrogen. A new system developed by National Cylinder Gas, Chicago, does not inject the nitrogen directly into the cargo compartment but passes it through channels in the wall, floor and ceiling insulation. The compartment is kept nitrogen-free.

REWARD NOTICE

A reward of \$500.00 will be paid by the Texas Sheep and Goat Raisers Association to any person (other than law enforcement officers) giving information causing the arrest and final conviction of any person or persons found butchering or stealing any sheep or lambs or goats belonging to any Association member in good standing. When two or more persons give information, the above sum will be divided at the discretion of the Board of the Association. When two or more defendants are involved in a single crime, the total reward is limited to \$500.00, but the conviction of one defendant, even though the other defendants are acquitted, will entitle the claimant or claimants to said sum of \$500.00. All claims must be submitted within ninety (90) days following conviction. If, upon conviction, a defendant confesses other thefts, no additional reward will be paid. All deviations concerning the payment of such reward and the conditions of payment will be made by the Board of Directors of the Association.

Grapes Are Great

By Betty Barclay

THE term "sour grapes" has no place in a modern jelly maker's vocabulary, for ripe, full-flavored grapes make the best jelly when today's pectin recipes are used. This Grape Jelly recipe requires a short one-minute boil, so none of the great flavor of fresh grapes can evaporate in steam.

Grape Jelly
Yield: about 12 medium (8-oz.) glasses
5 cups juice (about 3 1/2 lbs. ripe grapes); 7 cups sugar; 1 box (1 1/4 oz.) Sure-Jell Fruit Pectin.
First, prepare the juice. Stem about 3 1/2 pounds fully ripe grapes and crush thoroughly. (Concord grapes give best color and flavor.) Add 1 1/2 cups water; bring to a boil, and simmer, covered, 10 minutes. Place in jelly cloth or bag and squeeze out juice. Measure 5 cups juice into a very large saucepan.

Then make the jelly. Measure sugar and set aside. Add pectin to juice in saucepan and mix well. Place over high heat and stir until mixture comes to a hard boil. At once stir in sugar. Bring to a full rolling boil and boil hard 1 minute, stirring constantly. Remove from heat, skim off foam with metal spoon, and pour quickly into glasses. Cover jelly at once with 1/4 inch hot paraffin.

Methodist Youths Gather Money for UNICEF

The young people of the local Methodist Church went to the homes Sunday evening following Halloween gathering donations for UNICEF, the underprivileged children of the world. They got \$73.

Helping with the drive were Crisp Williams, Gary Boyd, Tommy Foster, David Foster, Beverly Brooks, Jaynell Cope, Charlotte Foster, James Ross Rosanne Foster and Wayne Smith.

The local pastor, the Rev. Leo Ross, expressed the thanks of the church to all who contributed to the cause.

WHAT TO Give for Christmas got you worried? Why not give the gift that lasts all year—The Dallas Morning News for 23.60; Fort Worth Star-Telegram for 14.95; or the News-Record for 2.00 locally or \$3.00 out of town, or a good magazine for that favorite person. There are no better Christmas gifts!

**A Newspaper Depends
on Advertising
A Town Depends
on Trade . . .**

A newspaper can no more survive by simply selling papers than a restaurant can make money by serving only free ice water.

It is through advertising that a newspaper is able to make its way.

Many Sterling City firms advertise regularly in The Sterling City News-Record. Study their advertisements each week . . . you can trade at home and save at home.

Our merchants who advertise are serving a two-fold purpose. They are helping to support the community's newspaper, which the community needs, and serving the public by listing their goods and services at competitive prices.

We cannot survive without our advertisers. They cannot survive without you.

Read your hometown newspaper and support the hometown merchants who use its advertising columns.
