Our WASHINGTON Letter By Congressman O. C. FISHER

Congress has been a beehive of activity this year. Reminiscent of the depression days when legislation breezed through the House and Senate with the greatest of ease, bill after bill has been given about the same treatment this year.

Out of this has come a series of mammoth welfare and federal aid projects. People will argue for years over the good or bad of this outburst of federal power and control in local affairs. And whether it should be done on borrowed money.

Aid-to-Appalachia, for example, which had no chance of passage last year was rammed through early this year in a blaze of triumph to set the pace for approval of more and more free-spending concoctions.

One observer said depression's WPA-type of activity was a piker compared to the super-duper cure-alls for the ills of this poverty-stricken America of today!

An over-all multi-billion dollar anti-poverty program, superimposed on a dozen others, containing something for just about everybody, has gained momentum, amid claims that there are too many people running it who are being paid up to \$25,000 a year.

The \$14 billion federal aid-to-education bill, hitherto scorned by the House, was carefully tailored to assure federal checks for nearly every kindergarten and other complying school in the land, and passed by a landslide this year.

The same happened to Medicare. Last year it was a dead duck, but this year, with a little doctoring, a subservient House gave the measure a handsome majority, along with the first major tax increase since the Korean war.

These are but a few of the milestones along Welfare Highway. There will be more.

Vice-President Hubert Humphrey told the Editor's Convention in Washington last week that a dozen more "progressive" bills will be enacted before the session ends. This includes a housing measure that will curl your hair.

For the first time in American history the White House is asking for direct rent subsidies to people making from \$3000 to \$6000 a year. It is estimated that five-hundred thousand of these people would get \$40 a month from their Uncle Sam to apply on their rent bills each month!

But this is to be a mere beginning. There are 4 million families in this category. If it's good for one, it's good for all of them.

A constituent recently wrote me: "We already have a Great Society. What we have to do now is to try to find a way to pay for it."

Local Teachers Seve as Coffee Hostesses

The Beta Kappa Chapter of Delta Kappa Gamma Society met in Big Spring on April 10 in the Student Union Parlor of Howard County Junior College.

Mrs. Mary Arnold Hefley presided at the business meeting. The program was on "Nations of the Common Market."

Cancer Crusade Begun This Week

A ten day drive for funds and education of the public—in a Cancer Crusade—was begun here Wednesday. The drive will last ten days and the volunteer workers are to see persons on their lists during the next ten days.

Louis Droll, field representative of the American Society, met with the chairman and the workers here Tuesday evening. Mr. Droll showed a film strip to the workers and explained the use of the money raised in the drive.

Mrs. Henry Bauer, Crusade Chairman, handed out the work kits to the volunteers.

Present at the meeting besides Mr. Droll and Mrs. Bauer were Mrs. Arthur Barlemann, Jr., Mrs. Dally Nichols, Mrs. D. Kirk Hopkins, Mrs. Larry Glass, Mrs. Neal J. Reed, Mrs. Mary Gonzales, Mrs. Ramona Medina, Mrs. Foster S. Price and Jack Douthit.

Noratadata Club Met at River Club

Mrs. D. Kirk Hopkins was hostess to the Noratadata Club Tuesday evening of last week at the River Club in San Angelo.

Mrs. Nan Davis called the meeting to order. The Easter theme was carried out. The program stressed that public opinion is stronger than legislative action, and nearly as strong as the ten commandments.

A dinner plate was served to Mrs. Jack Peel, Mrs. W.R. Brooks, Mrs. Foster S. Price, Mrs. Leroy Butler, Mrs. Martin Reed, Mrs. Chesley McDonald, Mrs. I.W. Terry, Mrs. Finis Westbrook, Mrs. Winn McClure, Mrs. Stanley Horwood, Mrs. Ross Foster Mrs. Forrest Foster, Mrs. Worth B. Durham, Mrs. Nan Davis, Mrs. Bill J. Cole, Mrs. Alvie Cole, Mrs. Billy R. Bynum, Mrs. Dayton Barrett, Mrs. Hubert Williams, members, and Mrs. Roy Foster, Mrs. H.L. Hildebrand, Mrs. Fowler McEntire, Mrs. Wayne Loury and Mrs. Guy Dayvault of Dallas, the guests.

Bridge was played and his score was made by Mrs. McClure and Mrs. McDonald; high guest was Mrs. Roy Foster, Mrs. Ross Foster and Mrs. Loury binged; bidding slams were Mrs. Brooks and Mrs. Horwood.

IT'S A FACT!

You may think we see a lot of "Made in Japan" labels on the products we buy, but only last year, every Japanese spent over twice as much for American exports as each of us spent for theirs. Figuratively speaking, that's a lot of "Made in America" labels, too! The fact is that, with the exception of Canada, Japan is our best customer.

According to the U.S.-Japan Trade Council, Japan buys a host of items from us, like machines, oil, logs, even skins and hides, and together their sales to Japan accounts for almost 200,000 American jobs in all 50 states—on our farms and in our factories and forests. The U.S.-Japan Trade Council expects this figure to rise as Japan continues to buy American in greater quantities.

Of the \$1.7 billion in commodities the U.S. exported to Japan in 1963, cotton is our largest agricultural export item. Today, Japan buys one out of every four bales we export.

For Social Security Maids and Cooks Must Have Social Security Paid

Wages paid a household worker—whether employed as a maid, cook, laundress, cleaning woman, baby sitter or similar job—are covered for social security purposes if the employee is paid \$50 or more in cash in a calendar quarter.

A calendar quarter is a 3-month period beginning with January, April, July or October. Room and board are not counted, but carfare is, if paid in cash.

If you have a domestic employee who meets this requirement, you are required to report these wages to the Internal Revenue Service and pay the social security taxes. A report for the quarter just past is due not later than April 30. Failure to file timely tax returns may result in additional penalty and interest charges.

But most important, you might be depriving your household worker of her social security protection and benefits for herself and possibly her family—benefits to which she is legally entitled.

Additional information concerning this subject can be obtained from your local social security office. Ask for leaflet OASI-21.

Your San Angelo social security office is located at 3000 West Harris. The telephone number is 949-4608.

Will your social security monthly retirement check be \$100 or \$120? If your wife claims her payments when she's 62, will they increase when she reaches 65? These are some of the questions you might like to have answered before you retire. Floyd B. Ellington, District Manager of the office in San Angelo said it's a good idea to visit their office about three months before that date. There is an advantage of your applying well ahead of time. Most applications go through without any trouble, but every once in a while someone has trouble proving his age or providing some other form of needed evidence. When that happens everything grinds to a stop until a satisfactory age or birth record or other proof is supplied. If you wait until you retire to make your claim, and you don't have the records you need, your first check may be delayed. If you don't need your social security right away, it won't matter, but most folks count on that first check as part of their post-retirement budget.

When you visit the social security office three months before retirement, there are some records you'll need to take. The best way to find out what you should take is to phone ahead. In addition to a record of your age, you may need to taken your last withholding tax statement. If your wife is 62 and wants to apply for benefits also, she'll need a record of her age. If you call the social security office before you pay the pre-retirement visit, they can tell you exactly what you'll need. If there's some record you don't have, they can usually help you get it.

PATTERNS FOR PROGRESS IN COMMUNITY DEVELOPMENT

Where can our town see an example of Community Development?

WTU says Childress is a good example . . . many projects are underway.

Water is a problem with many West Texas communities, but Childress is solving it with an ambitious program. In connection with neighboring towns, there is a \$6 million dam and reservoir starting soon . . . under construction a \$4 million pipeline from the water supply to the city . . . and a pipeline system in the city. Add such things as a remodeled City Auditorium with convention facilities . . . vapor lamp street lighting downtown and on highways through town . . . remodeled Chamber of Commerce offices . . . over \$400,000 in Church construction . . . new lounge at the Airport . . . and modernizing of many business buildings. Scheduled for the immediate future are a school bond election . . . expansion of State buildings . . . and a new hospital. The Childress record is a PATTERN FOR PROGRESS in "community development," improving chances for continued economic growth and attraction of new industry plus making it a better place to live, work and play. Growth conscious towns are invited to contact their local WTU manager for assistance from our area development representatives.

Coffee-Glazed Ham Slice
 1 slice (about 1½ inches thick) ready-to-eat ham; 1 teaspoon instant quality coffee; 2 tablespoons orange juice; ¼ cup maple-blended syrup or corn syrup; ¼ cup firmly packed brown sugar; 2 tablespoons butter.

Place ham slice in a shallow baking dish. Cover. Bake at 325° for 30 minutes. Meanwhile, combine instant coffee with orange juice in a small saucepan, stirring until blended. Add remaining ingredients; heat and stir until blended. Then uncover ham, spoon on glaze, and bake another 30 minutes, uncovered, basting occasionally with coffee mixture. Makes 4 servings.

AROUND THE COUNTY

by
ARTHUR BARLEMANN, JR. COUNTY AGENT

Two samples of worms were sent to the screwworm identification lab at Mission last week. Both were identified as non-screwworms.

One of the samples was sent in by A. F. Clark. It was taken from some lambs that had recently been marked. The other sample was sent in by William and J.Q. Foster. It also came from some sheep located on the place between Sterling City and Big Spring on Highway 87.

Thus far this year three samples have been sent to the lab for identification; all have been identified as non-screwworms. There has been on sample of worms identified as screwworms from Sterling County since the fall of 1963.

Statewide, the screwworm free period ended on April 11 when a case of worms was positively identified in Brooks County about ten miles west of Falfurrias in South Texas. There had been seventy-one days with no worms. On Tuesday, April 23, another case was found near Laredo.

Final outcome of the fund raising drive is still not known, according to the announcement from the Southwest Animal Health Research Foundation, but they feel that it will reach the goal of \$300,000. Many counties are still collecting funds in an attempt to reach their potential while others have already surpassed theirs. Last week, H.L. Hildebrand, treasurer of the local fund, mailed a check for \$2,422.58 to the headquarters.

There has been reports of heavy infestations of aphids on trees in Sterling City. The biggest portion of the trees affected are plum trees at this time. Aphids, or plant lice, as they are sometimes called, suck the sap from the leaves; this causes the leaves to curl or pucker.

The aphid is a small insect about the size of a pinhead when small and a little larger when grown. They vary in color from green to whitish or reddish. The body is pear-shaped with several small antenna-like projections. They are usually found on the under side of the leaves but when the infestation become heavy enough, they will be found on all parts of the leaves, and even stems, in almost solid masses. In addition to sapping the plants, the aphids deposit honey dew which is quite a nuisance.

There are several recommended control measures. An old standby is nicotine sulphate spray or dust. Other control measures are sprays or dusts of lindane, malathion, or BHC. Use according to the manufacturer's directions depending on the strength; it may be necessary to treat more than once to get a good control if the infestation is heavy.

Sowbugs, or pillbugs, are also making their appearance again. These insects have spent the winter in cracks under sidewalks, under wood-piles or other debris piles, and are moving out now with the warm weather. They often cause damage to tender plants. They can be controlled by treating with some of prepared baits available on the market or with sprays or dusts.

Recommended dusts include chlordane, DDT, lindane or Sevin. The only spray recommended is Sevin. The dusts or spray should be applied directly to feeding area. Baits should be broadcast in the feeding area late in the evening or early in the morning. Either method of control is effective.

Behind the 8-Ball

The one-act play group is giving the play in regional competition at Big Spring as this paper is being printed. We hope they win and go on to state. Most of the high school students bundled up and went to see the play.

What with mumps, measles, deaths in families, etc, the cast gets shuffled around an awful lot, it seems. The sponsor, Fred McDonald, never is sure just who is going to be on stage at any one time.

8-BALL

It seemed as if all the Sterling City college students were home last weekend for the Easter holiday or something. They not only came home, but a number of them brought guests with them.

Nelwyn King, daughter of the C.L. Kings, is the local Lions Club Queen's Contestant at the pageant tonight at the city auditorium in Sweetwater. The pageant is free and a lot of people could go and watch it if they would. The pageant is produced by Duke Jimmerson of Midland, and he is good at such pageants.

The pageant and the crowning of the Queen will be at 7:30 (beginning time) and it is only 69 miles to Sweetwater.

Let's hope Nelwyn wins!

Social Security

Floyd B. Ellington, district manager of social security in San Angelo, issued a reminder today to all persons who are receiving social security benefits that they must notify the Social Security Administration whenever something happens that might affect the payment of their benefits. Some of the events which must be reported are:

1. Earnings from all types of work if the beneficiary is under age 72 and expects to earn more than \$1200 during the year.
 2. Death of a beneficiary.
 3. Change in marital status—unless the beneficiary is receiving payments as a retired worker.
 4. Change of custody of a child or other person for whom you are receiving benefits.
 5. Change in address.
- "Social security beneficiaries received a list of these and other events that must be reported with this check earlier this year," Ellington said. "If they do not have this list, they may pick up another at the social security office.
- "In fact, anyone who has a question about social security should get in touch with us to get correct information."

What's New At The Fair?

The second year of the New York World's Fair promises to be more exciting than 1964. Some of the leading pavilions have made changes, additions and, in some cases, presented something entirely new for this year's visitors.

New fashions, costumes, songs and dances in the 1965 "Wonderful World of Chemistry," musical revue at the New York World's Fair are celebrating what's new at Du Pont—in the Du Pont Pavilion, 48 times a day.

A new musical show, Holiday With Light, will be presented at the Tower of Light, the investor-owned electric utility companies' exhibit. At night, celebrities will turn on the 12-billion candle-power Tower of Light.

Waiting for GE's popular Progress-Land promises to be easier this year. A bright blue and white canopied waiting area, called "Progress Lane", has been erected to protect visitors from the heat and rain.
