No. 39

AROUND THE COUNTY by

ARTHUR BARLEMANN, JR. COUNTY AGENT

All Sterling County landowners in Zone 2 of the North Concho River Soil Conservation District are reminded of the supervisor election Thursday, October 7. Zone 2 is the area in Sterling County north of the river. Neal J. Reed has been the supervisor for this area.

The election will be held in the Community Center at 1:30 Tuesday. Slides of brush control work done in the district will be shown. All landowners in the district are eligible to vote; this includes the wives who are encouraged to participate.

Revised grading standards for wool were released last month by the USDA's Consumer and Marketing Service. The new specifications are based on average fiber diameter in terms of microns (1-25, 4000 of an inch). They provide an objective, scientific means of checking average fiber diameter, using modern laboratory techniques & equipment as well as grading by inspection of wool if laboratory facilities are not available.

The grades still retain their traditional numbers, which originally reflected the length of yarn that could be spun from a pound of clean, combed wool. There have been grades used officially, and a thirteenth one accepted "62s". Official grades were as follows: 80s, 7s, 64s, 58s, 56s, 50s, 48s, 46s, 44s, 40s and 36s. The new standards add these four new grades; finer than 80s, 62s, 54s and coarser than 36s.

During the last weeks, the screwworms have moved west. The worms are centered in two areas now—the Trans-Pecos region and an area southwest of San Antonio. The latest report showed nine cases in Texas; three in Brewster County, two in Presidio County, three in Uvalde County and one in Kinney County. The most serious infestation at the time of the last report was in Arizona where twenty-three cases were identified in eight counties.

The twenty-ninth sample sent in from Sterling County went in last week. It was sent in by Reynolds Foster and was identified as not screwworm. This is the fourteenth non-screwworm case against fifteen screwworm cases.

The average date of the first frost in this area is just about thirty days off. Home lawn owners who are going to fertilize before frost should apply their fertilizer thirty days before frost.

An application of fertilizer now will put the grass in good growing condition with good, healthy roots. The grass will be stronger and will come out better next spring if fertilized thirty days before frost. The average date of the first freeze in this area is around November on weather maps.

The grass should receive two pounds of actual nitrogen per thousand square feet. There are a number of fertilizers that may be used; these include 16-20-0, ammonium nitrate, ammonium sulfate, 16-5-0, and others. Grass needs nitrogen primarily along with some phosphorus. The first number in any fertilizer is the nitrogen, the second the phosphorus, and the third the potash. Potash has not been recommended on any soil samples sent in from this area.

To determine the amount of nitrogen needed, use the first figure in the analysis which is the nitrogen. Point off two decimal places in this figure and divide it by two, the recommended nitrogen rate. The resulting figure will give you the number of pounds of your fertilizer to apply per thousand square feet.

Three To District Cancer Meeting

"We could be saving 41,000 women a year with full utilization of all techniques to fight uterine cancer," Dr. Robert Walker of Dallas told delegates to the American Cancer Society District Annual Meeting. "As it is, this form of cancer, in all of its stages, results in only 56% survival of the 44,000 women who will develop it this year."

Clifton Read was the key speaker at the luncheon meeting. He is vice-president of the American Cancer Society in New York. Mr. Read also reiterated the desperate need for early diagnosis to effect cures, but he emphasized that the enormous amount of research being done in the country today is the one and only hope of conquering cancer.

Delegates from the 20 counties comprising District 4 of the American Cancer Society's Texas Division met to review the progress being made in the three-ounce cancer control program of the American Cancer Society at the meeting on September 23, in San Angelo at the Cactus Hotel.

Mrs. Alvis Johnson of Sonora, Sam G. Boynton of San Saba, and Dr. Euene P. Alexander of San Angelo were re-elected to the State Board of directors of the Texas ACS.

A highlight of the meeting was the presentation of Special Awards to Kimbell, Reagan, McCullough, Sutton, Terrell and Tom Green Counties for "Bettering Their Best" in the 1965 Crusade. Sterling County lacked about \$135 of Bettering Their Best.

Mrs. S. K. Horwood, Mrs. Chesley McDonald and Mrs. Larry Glass were delegates from the Sterling County Unit at the meeting.

Local To Preach at Baptist Church Sunday

Mr. "Andy" Anderson of Sterling City will preach both morning and evening at the First Baptist Church here next Sunday, October 3, said T.H. Humble this week. Mr. Anderson, who moved here from Ruidoso, New Mexico about two years ago, was a preacher in his early days, said Mr. Humble. Everyone is cordially invited to hear Mr. Anderson.

Our WASHINGTON Letter

By Congressman O. C. FISHER

With adjournment at a high pitch, the Congress is now face-to-face with a possible filibuster in the Senate—which could extend the session indefinitely. The obstacle is repeal of Sec. 14-B, which would outlaw the right-to-work law in Texas—and in 18 other states.

Senator Dirksen of Illinois is opposed to compulsory unionism, and is therefore opposed to repeal of 14-B. He has the company of some 25 other Senators, and he has public opinion on his side. That is, according to the Gallup and other polls.

The unions claim they can count on around 60 Senators who will vote at their beck and call on this issue. But it takes at least 67 Senators to break a filibuster. All factors considered, the best guess right now is that the repeal effort will fail this year.

HEMISFAIR 1968 got a boost

in the House last week when Federal participation was approved unanimously. Already San Antonio has, by a margin of 2 1/2-to-1 okeyed a \$30 million bond issue to help finance the project, and the State of Texas has provided \$4 1/2 million, and is expected to put up \$3 million more. HemisFair will undoubtedly be the greatest exposition ever held in the southwest. It will bring thousands of visitors to Texas, and will promote Latin-American friendship and cooperation significantly. Located only two blocks from the Alamo, the exposition site will be readily accessible, and the structures built there will be permanent—or at least most of them.

Federal contribution to the fair will be practically nil, except for any building and exhibit that may be decided upon.

213 Signers Here for Natural Gas

On the first day of this week it was reported that 213 persons had signed up to tie on to natural gas here at their home or business if and when it was put in. The Pioneer Enterprises, Inc. have Mrs. C. Ainsworth working on signing up residents for the gas. She is trying to get 300 signers for the company. If they can get that many signers the company will put in natural gas, it was said. A company official said he was hoping to get the required number of signers before too long. He said that it would probably be 20 to 50 years before a company might again attempt to put gas in Sterling City.

The official pointed out that a signer did not have to be a home owner or business owner but a renter resident may sign up. Their signature is as good as a home owner, if they will use gas. If you want natural gas in Sterling City get in touch with Mrs. Ainsworth or sign up at the bank or any of the business houses that have the sign up forms now.

The minimum bill for 2,000 cubic feet of gas per month will be \$1.65 for the minimum bill.

HOSPITAL NOTES

Patients in the Sterling County Hospital on Thursday morning of this week included—

Mrs. W. B. Atkinson
Mrs. L. M. McCarty
Mrs. Ella Ligon
Mrs. John Reed
Olga High
Mrs. George McEntire
Mrs. Mae Martin
Dorothy Lee Mullins

Dismissals since Thursday morning of last week include: Wanda S. Foley
Marshall Simmons

Highway 87 Work Begun

Work on the rebuilding of U.S. Highway 87 in Sterling County has begun. The work starts about seven miles north west of Sterling City and will go to the Glasscock County line. Completion of the new road bed and structures is set for May, 1966.

LIONS CLUB

Charles Coombes, district manager of the West Texas Utilities company spoke to the Lions Club luncheon Wednesday. He spoke on concern by the people for their country.

Guests present included the speaker, Gene Alley and Mike Kisco. The prize went to Gene Alley.

President Stan Horwood reminded the members that October was the month for new members. He told of a zone meeting to be in Big Spring next Monday, Oct. 4. Members talked briefly of lecturing a new pianist and sweetheart.

Texas Tech to Play A&M Saturday

Lubbock, Sept. 28 — Texas A&M and Texas Tech renew their rivalry for the 24th time at 7:30 p.m. Saturday in Jones Stadium here.

Begun with a 47-6 Aggie win in Lubbock in 1927, the series stands at 15-7-1 in A&M's favor. In Southwest Conference contests the rivalry is knotted at 2-2-1. Tech has won the last two meetings, by 10-0 and 16-12.

Each is .500 for the season. A&M bounced back from a 10-0 loss to Louisiana State with a stunning 14-10 victory over Georgia Tech. The Aggies trailed by 10 points going into the last five minutes.

Texas Tech was beaten 33-7 by University of Texas last week after opening with a 26-7 triumph over University of Kansas A sell-out crowd of 65,300 saw the game at Austin. Despite the score, the Red Raiders amassed the most passing yardage they have ever attained in SWC play--225 yards.

Early arrivals will be able to see professional basketball game between St. Louis and Wilt Chamberlain's Philadelphia team. Set for 3 p.m. Saturday it is promoted by C. R. (Choc) Hutcheson.

The Rev. Bill Wiemers, pastor of the First Methodist Church here, attended a conference of the Town & Country Commission of the Methodist Conference, at San Antonio this week. Wiemers is secretary of the commission.

FORREST SMITH IMPROVING

Forrest Smith, deputy sheriff of Mitchell County, who was shot in the head and back in a gun battle last week, has been in an Abilene hospital receiving treatment. He lost one eye and now has an artificial eye now. His condition is improving, it was said. Wayne Smith, son of the Smiths, has returned to school at Angelo State College.

Leslie Payne has rented his house here to the Earl Seagos. The Seagos moved in the first part of the week.

Klondike Trimmed By Eagles 36-6

S.C.S. Election Here October 7

There will be a supervisors election for Zone 2 of the North Concho River Soil Conservation District on October 2 in the community center. This is the zone formerly being served by Neal J. Reed and the supervisor elected will serve for a five-year term.

The supervisors are planning to show a number of slides showing brush control and range seeding work done in the district this year with the follow up pictures to show the results.

Following the election and the slides they will take the group on a tour to look at some range seeding results.

All landowners in the district are eligible to vote. This includes the wives.

One Car Crash Kills Man Near Here

A Fort Worth man, was killed and three others, including a San Angelo woman, were injured when their car overturned about 14 miles west of Sterling City on State Highway 158 at 5:45 p.m. Tuesday.

The dead man, Owen Nelson Andrews, 51, a salesman, died at the scene of the accident, the Highway Patrol reported.

Injured in the wreck were Marshall M. Simmons, 21, of Menard, Dorothy Lee Mullins, 44, of Abilene, and Wanda Sue Foley, 32, of San Angelo. The three were hospitalized in the Sterling County Hospital with cuts and bruises.

Investigating officers reported the car in which Andrews was riding turned over twice and came to rest about 100 yards past a bridge on the highway 14 miles west of here, after it had apparently glanced off the bridge.

JUNIORS HAVING CAR WASH DAY OCTOBER 9

Members of the junior class of the high school are holding a CAR WASH DAY Oct 9 at the Stewart Texaco Service. The juniors say, "Bring your car down after 1 p.m. that day and get your car washed for only \$1.50".

To Miles Saturday For Game

The Sterling City Eagles trimmed the Klondike Cougars there last Friday night 36 to 6 in a non-conference tilt. It was the 15th straight win for the locals—12 last year and 3 this season.

The first quarter at Klondike was scoreless. The second quarter might as well have been. David Neill of the Cougars pushed over for 6 points and soon thereafter Eagle Wayland Foster sprinted 18 yards for a T.D. tying up the game—and the half ended with the 6-6 score.

The Eagles, as usual, got their second wind and that second half spark so the second half was different. Wayland dashed 10 yards for a counter soon after the half opened. Mike Foster pushed over for the two extra points.

Not much later, Frank Balaban, intercepted a Cougar pass at about the midway stripe—and got the ball down to the one-yard line before being brought down by a Klondike runner. Quarterback Dusty Dillard pushed the pigskin over for a T.D. Wayland scooted around left end for the two extra points.

Dillard passed to Collin Douthit for a T.D. that was called back due to a holding penalty. Then on the next play, Wayland Foster pulled the same pass to Douthit—and the touchdown added up. Then Wayland picked up the two extra points.

Before the game ended, Larry Stewart recovered a fumble of the Cougars—in the end zone for the final counter for the Eagles.

The score ended 36-6.

Coach Dillard's boys will go to Miles Saturday night at 8 to play Miles Bulldogs a six-man game. Last year the Bulldogs played an eight-man game here with Sterling.

The game is a non-conference game, and will be the Miles Homecoming affair.

Coach Dillard said the B team game with Sands this weekend had been called off.

The Junior High team plays Garden City there at 3:30 on Thursday of this week—too late to get printed in his paper.

Social Security

"A tremendous boost for many youngsters" is the way Floyd B. Ellington, District Manager of the San Angelo Social Security District Office, described one of the changes which was made in the Social Security Law last month. He explained that children between the ages of 18 and 22 can continue to receive their monthly social security checks if they attend a public or accredited school as full-time students. Children of deceased, retired, and disabled workers are included.

Under the old law, checks for children stopped at age 18 even if they continued to go to school. Mr. Ellington stated that, "If there are any of these young people under age 22 who are going to school now or in September, they or their parents should get in touch with their social security office right away; and since this provision provides for payments back to January 1965, some benefits may be payable to former child beneficiaries who went on to school and who reached age 22 earlier this year."

"These youngsters are eligible for these payments and we are anxious to get their checks to them as quickly as possible," Mr. Ellington stated. He added that anyone with any question about this change should get in touch with their San Angelo Social Security Office immediately. The office is located at 3000 W. Harris and the phone number is 949-4608, or see your representative when he is in your community.

NEW EXAMINATION ANNOUNCED BY THE CIVIL SERVICE COMMISSION

A new examination for Communications Specialist has just been announced by the Civil Service Commission. These jobs, located in the Department of Defense and other Federal agencies in the Washington area, require experience in one or more fields of communications, such as telephone, teletypewriter, data transmission or other media of communications. Salaries range from \$7,220 to \$10,250 a year. Other specific details are in Announcement No. 362-B. File applications with the Board of U. S. Civil Service Examiners, Department of the Army, The Pentagon, Washington, D. C. 20310.

Also announced today was a new examination for work in Washington as a Photographer in such branches as aerial, laboratory, medical, motion picture, scientific, still, television, and underwater. The jobs pay from \$4,480 to \$7,220 a year and require appropriate experience. The requirements are in Announcement No. 363-B. File applications with the Board of U. S. Civil Service Examiners, Washington Navy Yard, Washington, D. C. 20390.

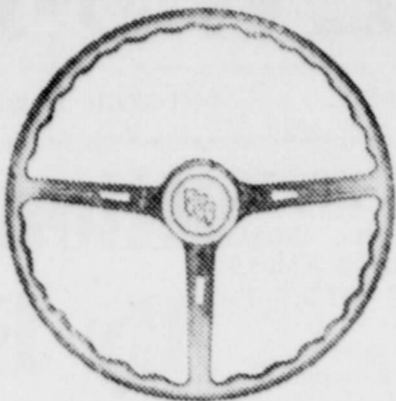

These two new examinations require no written test and applications for them will be accepted until further notice.

"BABY" CONTEST
At the State Fair

Politicians take note: The State Fair of Texas at Dallas will hold a new type of baby contest during its 16-day season opening on Saturday, October 9.

Youngsters visiting the Future Farmer Children's Barnyard will vote for the baby animal they consider the cutest and most cuddlesome of the show.

The winning baby, or family of babies, will be the State Fair's Barnyard Baby of the Year. He'll occupy the Champion's Crib during the State Fair's last day, Sunday, October 24. He'll wear a bow of red ribbon around his neck. He'll eat all the milk or feed he wants, and he'll pose for pictures with any politician who strolls by.

Staffed by officers of the Texas Association of the Future Farmers of America, the Children's Barnyard annually features many common domestic animals with their young. The exhibit is one of State Fair's most popular attractions for all ages of visitors.

This year, voting youngsters may choose the Barnyard Baby of the Year from the young of quail, Bantams, chickens, rabbits, goats, beef and dairy cattle, sheep, horse and pony, donkey, guinea hen ducks, hogs, turkeys and dogs.

Future Farmers staffing the Children's Barnyard will serve as judges, poll watchers, vote counters and barnyard baby sitters during the contest.

"We promise a clean campaign with no mud slinging," said Don T. Jobs, Jr., of Austin, editor of the Texas Future Farmer Magazine and supervisor of the show.

"We'll encourage each youngster to vote—but to vote only one time."

The Children's Barnyard is in a big tent with a red-barn front located between State Fair's livestock area and the Cotton Bowl. The attraction will be open daily free of charge to State Fair visitors.

NOW—Taking orders for all kinds of cards, including personalized Christmas Cards. Cards, notes, stationery. Mrs. Sallie Wallace, ph. 8-2372.

7th and 8th Grade Selling Magazine Subscriptions
 Grade school principal J.R. Dillard said this week that the 7th and 8th grade students were selling subscriptions to magazines, both new and renewal subscriptions. All money made will go to some school project or need not yet decided upon.
 Contact one of the class members if you are interested.

DURHAM-PHY WEDDING SUNDAY

Miss Rebecca Charlene Durham became the bride Sunday of Edwin Gale Phy Jr. of Snyder in the chapel of the First Christian Church in San Angelo.

The bride is the daughter of Mr. and Mrs. Durham K. Durham of San Angelo and the bridegroom is the son of Mr. and Mrs. Edwin Gale Phy of Snyder.

The pastor, the Rev. Dr. Richard Crews, officiated.

Mrs. Phy wore a street length dress of beige lace over taffeta. Yellow accessories complemented her costume.

Honor attendants were Mrs. Charles W. Baring, the bride's sister, and Roger Richard of Colorado City.

The bride, a graduate of San Angelo Central High, has attended San Angelo College. At SACHS she served as head cheer leader and belonged to the National Honor Society and Pheta Tri-Hi-Y. She was also a cheerleader at SAC and was listed on the dean's honor roll.

The bridegroom was graduated from Snyder High School and attended SAC. At SHS he was a member of the varsity football and basketball squad two years. He was a delegate to Boy's State in 1961-62. Presently he is a student at Angelo State College and is attending Texas National Guard Officers Candidate School.

Mrs. Millie Waddington of Fowler, Colorado, left Thursday following a week's visit here with the Bill Wiemers'. She is an aunt of Mrs. Wiemers.

WANTED—Farm hand for small farm, to live on place. Charlie Staggs. Will be at farm in Water Valley Saturdays and Sundays.
 (The Onstott farm)

Behind the 8-Ball

Ernest Longoria, with his broken finger, plays end in games. He has not stopped.

Phil Cole got an injury to his neck vertebra in the game with Flower Grove and wore a neck brace for awhile.

I think I saw Frank Balaban and Mike Foster hit head on at the Klondike game last Friday night. It sounded like two heads got busted good and proper. They got up and just shook their heads a few times. Those helmets are the berries.

Klondike's back Joe Garcia really took some jolts at the game there. He was a real back for the Cougars.

Randy Peel, freshman back on the Eagles, is a southpaw passer.

Guard Larry Stewart really mixes it with the opposition. He fell on a Cougar fumble giving the locals their last touchdown of the game.

Collin Douthit, end and pass receiver for the locals, is easy to see on the field—with his 6' 3" height. He opens up a few holes, too. Jack Clark, center, makes his weight felt in the line.

8-BALL

Playing Miles this Saturday 6-man ball there will really give the fans some open-field action to see. Miles went all the way in their class last year and have a good team. The game with Sterling will be their homecoming game. It ought to be good.

8-BALL

The Eagles look good in the second half of a ball game. They seem to get the spark and a second wind and really do the job in that second half. That was the way they were last year, too. They were known as a second half ball club then, and earning the same title this year.

The program of workouts must keep them in awfully good shape. They just seem to come into their own during that second half. The locals seem to wear out the other teams during the first half—then they play them some ball the last half.

Mrs. Jessie Fuentes won the TV set on the raffle or donation deal by the St. Pascual Catholic Church on September 25. Over \$100 was netted for the church after expenses.

I want to thank everyone who helped us with this project.
ANTONIO MUNOZ

FOR SALE—1959 Ford Station Wagon. Good shape. \$395. See Charles Williamson.

TAX MAN SAM SAYS:

Each year the Internal Revenue furnishes material for our Nation's schools to teach several million high school and college students how to prepare their income tax returns. The order blanks or this material will be going to the Nation's school principals within the next few weeks. If you have had as much trouble with your tax return as most of us claim we have, it might pay to encourage your principal to make sure that Junior learns how to prepare his tax return. There's not any use in the whole family being ignorant about this tax business.

Jack Whitley, who has been here almost a year with the Moorman Feed Co. is being transferred to Fort Stockton this weekend Jack had lived here back in the fifties also. He served as night watchman part of this year.

The C. J. Copelands are building a new home in town on the old Phillips lot just north of the home of Mrs. Rufus Foster.

Natural Gas Is Cheaper!

HEAT COMPARISON OF NATURAL GAS AND BUTANE

1000 cu. ft. of Natural Gas	1,085,000 BTU
10 gals. of Normal Butane	1,038,579 BTU
9 gals. of Normal Butane plus 1 gal. of Propane	1,018,300 BTU

Addition of Propane to Normal Butane will lower the heating value.

By use of these calculations 1000 cu. ft. of Natural Gas is equivalent to 10.45 gallons of Normal Butane.

An average bill of 100 gallons of Normal Butane Gas would be comparable to 10,000 cu. ft. of Natural Gas—cost \$6.49.

Sign up now if you want Natural Gas. See or call Mrs. C. C. Ainsworth at 8-3351. We must know soon.
