AROUND
THE
COUNTY
by

ARTHUR BARLEMANN, JR. COUNTY AGENT

The recent rains in this area as well as other areas of the state have increased the possibilities of a fall outbreak of screwworms. Officials of the eradication laboratory at Mission are definitely concerned over the possibility for the coming months.

All livestock owners are urged to keep an increased lookout for possible worm cases during the next few weeks or until frost. All suspected cases should be treated after a sample of the worms has been taken for sending to the laboratory at Mission. Thus far, eight samples have been sent in to the lab by Sterling County producers. All have been identified as non-screw-worm.

Hurricane Beulah posed a threat to the laboratory facilities at Mission. According to the report on Wednesday morning, all the planes had been moved from the Mission plant and sent to Sonora. Along with the planes, all flies possible were moved to Sonora for distribution from that center. If the hurricane does destroy the buildings at Mission, it will be necessary to destroy the sterile flies at the plant. However, this will be done only as a last resort.

Have you ever gone hydroplaning or boating in a car? It can be done and does happen, often with tragic results, according to Henry O'Neal, agricultural engineer with the Extension Service.

It takes only one-fifth of an inch of water on the road to turn you car into a boat. High speeds, worn tires, or underinflated tires increase the possibility. When a vehicle travels on a road with as little as one-fifth of an inch of water, oil, slush or even mud, the front wheels ride the surface of the fluid just like a surfboard or pair of skis on a lake.

When the wheels ride the surface of the fluid, the driver loses the ability to steer the vehicle and loses his front brakes as well.

Worn tires lose their ability to wipe the moisture off the road and underinflated tires decrease the speed at which a car will hydroplane. For example, a car with tires inflated at 24 to 30 pounds of air will hydroplane at 50 to 57 miles per hour. Partial hydroplaning can occur at 30 miles per hour if your tires carry under 24 pounds. At 50 miles per hour, the tires are lifted on a film of water and only the ribs touch ground or pavement. At 55 miles per hour, the front wheels lose all contact, and at 60 miles they can actually stop turning because of losing contact.

When it rains, be particularly careful. Slow down until the roads dry and the film of water, oil, and slush has dried.

LIONS CLUB

The Sterling City Lions Club met Wednesday noon in the community center for the regular weekly luncheon. The door prize went to club pianist Jaynell Cope.

Guests present included Bill McRee and Leon Miller, both of Big Spring, Dub Fincher and Dayton Barrett.

McRee, a long time Boy Scout executive now retiring, talked briefly and introduced his successor, Leon Miller.

Jake Martin Named Legion Commander

J. K. Martin was elected as commander of the local American Legion Post in a meeting Tuesday night.

The Legion plans to have the annual barbecue supper at the Jeff Davis river place on Saturday evening, September 30, it was said. Plates will cost \$1.50 each. Legionnaires and guests are welcome.

Commander Martin has called a special meeting of the Legion for next Tuesday evening at the Hut to firm up final plans for the barbecue. All members are asked to be present.

New Chevrolets Now at Capertons

The new 1968 Chevrolets are being shown at Caperton Chevrolet in Bronte, Texas.

R. T. Matt and Emmett Caperton all invite their old friends and customers from Sterling City and County over to see the new cars and pick-ups this weekend. The open house begins Thursday of this week and they will be showing seven new cars and a bunch of pickups the remainder of the week.

On Thursday they will have refreshments and free gifts for all visitors at the showing.

Zip-A-List Kits Are Mailed Here

Sterling City post office and Star route patrons got delivery of ZIP-A-LIST kits on Monday of this week.

Postmaster W. R. Brooks urged all residents to use the postal cards contained in the kits to obtain the ZIP Codes needed for addresses in their mailing lists.

The project is part of Postmaster General Lawrence F. O'Brien's program to make Zip Codes more accessible to the mailing public and thereby increase the use of the codes in mailing addresses.

In addition to the kit, which is folded like a closed accordion, a separate card is being delivered to remind residents of the local ZIP Code number.

Attends Music Work Shop in Midland

Mrs. Mildred Mitchell, local piano teacher, attended a piano music workshop in Midland Monday, September 18. The workshop was sponsored by the Midland Music Teachers Association and was held in the Westminster Presbyterian Church.

Robert W. Dumm, former professor and former dean of Boston Conservatory and now at Catholic University in Washington, D. C. conducted the workshop. A pianist, composer and teacher and writer, Dumm has toured nationally for the past six years. His current tour includes sessions in 25 cities sponsored by organized teachers groups and universities.

Mr. and Mrs. Bart Ditto Jr. live in San Antonio where he works for an electronics company and Mrs. Ditto (the former Louise Alexander) works for the Cadillac agency.

Cancer Group Met Monday Night

The Sterling County Chapter of the American Cancer Society met Monday evening in the community center. The meeting was a regular meeting of the group.

Mrs. Ross Foster, as a director of the Texas Division, ACS, talked on the program of cancer control and presented the local chapter with its certificate from the state. Riley Sloan, field representative with the ASC, presented a certificate of appreciation for a successful Crusade here this year. He said Sterling County raised \$1.25 per capita against about 18c statewide.

Certificates to Mrs. Chesley McDonald and Mrs. Danny Stewart for leading the 1967 Crusade were presented and they were named on the board of the county unit.

Dr. Robert Bridges of San Angelo was to have talked on the program, but he was detained in Angelo and unable to appear.

The next meeting of the local group will be November 20 at 7:30 p.m.

Present at the meeting were Sloan, Mr. and Mrs. Riley King, Mr. and Mrs. Ross Foster, Mr. and Mrs. Tom Asbill, Mr. and Mrs. W. R. Brooks, Skip Lively, Dr. Wm. Swann, Dan Glass, Mrs. Larry Glass, Mrs. Henry Bauer, Mrs. Worth Allen, Mrs. Danny Stewart, Jack Douthit, Mrs. F.S. Price, Rev. Phil Roberson and Mrs. Stan Horwood.

HOSPITAL NOTES

Patients in the Sterling County Hospital on Thursday morning of this week included—

Temp Foster
Lee Augustine
Mrs. Minnie Hibdon
H. C. Gartrell
Mrs. Elena Guseman and infant daughter
Dismissals since Thursday morning of last week are—
Mrs. Eva Newton

NORATADATA CLUB HAS DINNER MEETING

The Noratadata Club held the first meeting of the club year last week in the community center with Mrs. James Thompson and Mrs. Charles Probandt as hostesses. A dinner was served to 17 members and their husbands.

Mrs. Larry Glass and Mrs. Danny Stewart were welcomed as new members. Mr. and Mrs. Charles Allen were guests at the dinner meeting.

MOVING VAN OVERTURNS HERE THURSDAY

A Mayflower moving van overturned at the intersection of the street by the Baptist church and the truckstop here early Thursday morning. The van hit a parked station wagon as it went into its spin, denting a fender. No one was hurt, but the overturned van posed a problem in turning it back upright.

The wet streets from the shower probably had a part in the truck overturning.

FFA Elects New Officers

The Sterling City FFA chapter met Monday night at the school and elected officers for this year as follows:

Phil Cole, president
Gary Foster, vice-president
Bill Blank, secretary
Pat Foster, sentinel
Frank Price, reporter
Mackey McEntire, treasurer.

The chapter plans to sell birthday calendars soon. They will sell for \$1 each, it was said.

AS IT LOOKS FROM HERE

By Omar Burleson, Member of Congress, 17th District

WASHINGTON, D. C.—A decision by our government, of tremendous importance and far-reaching consequences, appears to be rather imminent.

Shortly, our top policy makers are to decide whether we build an anti-missile defense system or depend as Secretary of Defense McNamara has argued, on a nuclear offensive system as a deterrent against attack.

Top negotiators have been talking to Soviet representatives, trying to effect an agreement that neither will build a defensive system. The Russians have not given a flat no, but according to certain intelligence reports, are building parts of such a system at the present time.

If the United States is to build an ABM system, its extensiveness has not been decided. As a beginning, the figure of \$10 billion is mentioned as the price tag. This however, is intended to be a "thin line" barrier against possible Chinese nuclear warheads after 1970. An all-out system, built against nuclear attack from the Soviet Union, is estimated to cost \$30 billion and, like most governmental estimates, is probably on the low side.

For many months a controversy has existed within the Defense Department as to the advisability of building a defensive barrier. Secretary McNamara has contended that America's nuclear capability is so great that it can never be crippled by a Soviet Union first attack. He argues that our capabilities are four to five times greater than the Russians and that our ability to retaliate could destroy them. The Secretary has felt that the billions for an anti-ballistic system would be money down the drain.

The Joint Chiefs of Staff and other military men have contended that a defensive system is vital to our survival in the event of an attack.

It was surprising to the world that the Chinese Communists were able to explode an advanced nuclear device as early as they did. What remains for Red China to become a real threat, instead of only potentially dangerous, is their ability to develop a delivery vehicle. Before their split with Russia, Soviet technicians had worked on the development of a booster rocket, which, it is assumed, is carried on by Red China, although in a handicapped way. It must be assumed, however, that a delivery capability will eventually be developed. With Red China outside of any international agreement, and showing no concern for responsibility, the possibility of a threat from that direction can not be safely ignored.

There is evidence that the Soviets may be developing a multi-headed missile. It is described as being capable of separating warheads at a given point to strike at five or six targets simultaneously.

Eagles Win Over Rocksprings 50-12

Junior High Eagles Open Season

The Sterling Junior High Eagles football team opened the 1967 season here Thursday night at 7 playing Garden City. Coach Bobby Dodds has a good array of squadmen and all are looking forward to the 1967 season.

The Eagles squad is made up of the following boys:

EIGHTH GRADERS—

David Cooney
Bobby Bynum
Clark Kilpatrick
Ray Escobar
Payton Wilson
Brandt Badger
Allen Price
Johnny Rodriguez
Robert Bliznak
David Gaston
Kenny Blank

SEVENTH GRADERS—

Tommy Bynum
Jim Terry
Skeete Foster
Lee Wayne Igo
Royce Murrell
Andrew Robinson
Bobby Rodriguez
Roy Leal
Bill Bautista

SIXTH GRADERS—

Ken Peel
Mark Sullivan
Randy Hord
Don Alexander
Jesse Estrada
David Pringle
Bill Cole

EPSILON ZETA CLUB MET TUESDAY NIGHT

The Epsilon Zeta Club met Tuesday night in the community center with 17 present, and eight of those present were guests.

Joyce Hodges was hostess. Bridge was played.

Mrs. Wayne Posey is president of the club this year.

Thus far, we have no defense against such an attack, but only a warning system which, in theory, gives time to unleash our own weapons in retaliation.

For months, both publicly and privately, Moscow has been prodded to talk about an agreement not to construct an anti-ballistic missile system.

To complicate the matter further, aside from a provision for inspection by one side or the other, is the thought that the Russians are not interested in such an agreement as long as we continue the pressure on North Viet Nam.

In talks with Russian officials, likely a part of the private conversations at Glassboro, the Soviets indicate that if the war in Viet Nam is de-escalated, they may be willing to hold talks leading to agreements. From certain testimony before Committees of the Congress, it is indicated that this is a factor as to whether or not the Port of Haiphong should be destroyed.

It is entirely possible that by the time these words are read, some indication may be given on plans to construct an ABM system.

For the long range point of view, this may be one of the most important decisions in the last decade. If such a course is decided upon, our \$70 billion budget will, in time be rounded out to \$100 billion or more. Without it, we depend on survival of a first attack, with enough resources to respond afterwards.

It is thought that we can not wait much longer to make a decision.

Play Union Here Tonight

The Sterling City Eagles got the number two win of this season behind them Friday evening of last week by beating the Rocksprings Angoras 50 to 12 in a non-conference tilt.

Coaches White and Moore's boys dominated the game from the beginning. They racked up 14 first downs to four for the Angoras.

Pretty early in the first quarter, halfback Gary Foster pushed his way for one yard to account for the first Eagle touchdown. The point for extra points failed.

Then early in the second quarter, Gary scooted for 11 yards for another T.D. Soon thereafter Frank Price covet the ball behind the Angoras goal line for a two-point safety. A little later David Currington got loose for a 33-yard run that took him across the goal line for six points. Then Gary again pushed the ball 10 yards over across the stripe for another counter. A pass from Phil Cole to Bruce Crowder garnered the two extra points, making the score 28-- for the Eagles. During the second quarter, Tinker Tomlinson for the Angoras got loose on a seventy-five yard run that picked up a T.D. for Rocksprings, their only one of the first half.

In the third quarter Gary Foster got loose for a 30-yard touchdown run, and Esau Vargas picked up the extra 2 points on a run. Soon thereafter Gary again cut loose with a touchdown run for 20 yards. And, for the Angoras, Charlie Witenburg pushed the ball over for counter for the Rocksprings boys.

In the fourth and final quarter David Currington made a sweeping end run of 17 yards for the final Eagle T.D. and Jackie Thornton took the pigskin over for the two extra points.

Play Union Here Tonight
The Sterling boys play Union here tonight in a non-conference game. Union is a school up close to Brownfield. Game time is 7:30.

Social Security

About one of every five applicants for social security disability benefits delays so long before making his application that he risks possible loss of some payments, Ted F. Moellering, district manager of social security in San Angelo, said today.

In an effort to remedy this situation, the Social Security Administration is asking anyone who might possibly qualify for disability benefits to get in touch with a social security office as soon as possible.

"Some people fail to apply because they don't realize that they can benefit from the program," Moellering said. "Younger people often think that social security payments only for people in their sixties, whereas the disability was specifically set up to protect the wage earner who is forced to stop working before he is old enough to collect retirement benefits."

A person under 65 can receive monthly payments if he has a physical or mental impairment that has kept, or will keep, him from working for a year or more. Individual benefits range from \$44 to \$152 a month. If the worker has dependents, total family benefits can amount to as much as \$339 monthly.

"Others don't file because they are under the impression that they have to be permanently disabled. This was generally true before a 1965 change in the law, but now payments can go to a person whose disability has lasted, or is expected to last, for 12 months or longer," Moellering pointed out.

Benefits begin after a person has been disabled for 6 full months. No benefits can be paid for months during this "waiting period." Also, the law limits the back benefits a person can collect to the 12 months before the month in which he applies.

This means that the latest a person can file without losing any back benefits is the month that comes after the 18th month of his disability. (These 18 months cover the waiting period and the 12-month limit of retroactive benefits.)

A recent social security survey shows that at least 19 percent of disability applicants file later than this, thus risking loss of benefits they might otherwise have received. An undetermined number of disabled persons do not file at all and so miss out entirely.

Moellering cautioned, however, that benefits can be paid only if a person's disability is severe enough to prevent him from doing not only his usual job, but also any work in keeping with his age, education, and experience. And, to be eligible, a person must have worked under social security for at least 5 of the 10 years before he became disabled.

Benefits continue for as long as the disability lasts, or until the beneficiary reaches 65. At age 65, disability benefits are converted to retirement benefits, without any change in the amount.

Currently, over a million disabled persons—plus more than a million of their dependents—are receiving benefits under the program.

"If you know of anyone who might qualify," Moellering urged, "tell him to phone, write, or visit the nearest social security office. Your tip may lead to his not losing out in whole or part in this benefit that is meant to help replace earnings lost because of disability incurred before retirement age."

ANGUS-HOLSTEIN Crossbred Thrifty fast growing Holstein bull calves for feeding. The good steer kind. Holstein and Guernsey heifer calves from Wisconsin's better farms. Daringly new!**

'68s Top Secrets are here

1968 Chevrolets

The 1968 Chevrolets are the very essence of modern design. Every line, every curve is in close harmony. It's a smooth, uncluttered look with roof lines compatible with body lines, grilles and bumpers that blend gracefully into long, rounded fenders. Clean, flowing, beautiful in their simplicity, these '68 Chevrolets are rich and advanced in styling beyond any you've ever seen.

A MORE SILENT RIDE

And for 1968, we've gone to every length to give you more peace and quiet inside. The most sophisticated computers have been used to strategically place body mounts and successfully isolate noise and vibration. Shock absorbers have been improved. The wheel stance on many models is wider for greater smoothness. Exhaust systems have been redesigned to make them whisper-quiet. Even the clocks tick more softly. *A sound car is a silent car.* The '68 Chevrolets are the most silent, highest quality cars we've ever built.

BETTER PERFORMANCE

There are new engines, a bigger standard Six and V8. There's a new

250-hp V8 you can order that runs on regular fuel. Many new engine components increase dependability and keep your new Chevrolet running stronger. There's a new rear axle ratio you can add for greater economy. On most engines equipped with automatic transmissions, there's a special heater for the carburetor which gives you more efficient performance in cold weather. And with every engine, you get the new GM exhaust emission control.

UNIQUE ASTRO VENTILATION

There's a whole new idea in ventilation, called Astro Ventilation, for Camaro, Corvette and the elegant Caprice Coupe. It's also available on many other models. By opening two new vent-ports on the instrument panel, you bring in outside air that can be directed where you want it. This way, you can leave your windows rolled up and add still more to your peace and quiet.

PROVED SAFETY FEATURES

You get the proved GM-developed energy absorbing steering column, folding front seat back latches, dual

master cylinder brake system with warning light, plus many more new features. Among them: energy absorbing front seat backs, and safety arm-rests that shield the door handles.

MUCH MORE THAT'S NEW

There are new roof lines, some formal and graceful, others sporty and quick. There are new instrument panels, richly designed and all controls within easy reach. There are new interiors, new vinyls, new fabrics, new colors. There are models with Hide-A-Way windshield wipers and headlights that disappear behind grilles. There are new side marker lamps, new recessed taillights. There's even a new ignition alarm buzzer that reminds you not to walk away and leave your keys in the car.

These are the newest, the most different, the most dramatically changed Chevrolets ever. And they're at your Chevrolet dealer's now. You'll thoroughly enjoy slipping behind the wheel, experiencing the smooth new handling and library-quiet ride and, more than anything, seeing and feeling the even greater quality built into every new Chevrolet for 1968.

Be smart! Be sure! Buy now at your Chevrolet dealer's.

There's more quality and value built into Chevrolets than ever before, making every new 1968 model an **even better buy!**

Texas Prison Rodeo

HUNTSVILLE Some of the nation's topflight entertainment personalities have been booked for personal appearances at the 36th Annual Texas Prison Rodeo each Sunday in October at Huntsville.

H. H. Coffield of Rockdale, prison board chairman and chairman of the rodeo committee, announced that three artists of the Lawrence Welk television show will appear the first two Sundays. Jo Ann Castle, Welk's piano stylist, will give out with her own brand of honky tonk piano playing on October 1, followed by Norma Zimmer and Larry Hooper on October 8. Both Miss Castle and Miss Zimmer were favorites during the 1966 rodeo series. Miss Zimmer's singing has brought her many honors. Hooper doubles as a genial pianist and deep-voiced singer. His rendition of "Oh Happy Day" piled up an impressive sales record of one million discs.

For the October 15 show, the featured attraction will be Judy Lynn and the Judy Lynn Show, said to be the most colorful figures in the country-western stable of music.

Sharing the October 22 limelight will be two well-known country music stars, Buck Owens and Floyd Tillman. Both have reputations as real crowd pleasers. Owens will be supported by his own musical group, The Buckaroos.

Closing the 1967 rodeo series on October 29 will be Roy Acuff, no stranger to prison rodeo fans. He will again bring his own brand of country music—the kind that spelled fame and fortune for this native son of Tennessee.

Also on the bill of fare all five Sundays will be former inmate Candy Barr, who proved to be a popular attraction last year. The famous Zoppe Family will be presented during each performance in the prison stadium beginning at 2 p.m.

REWARD NOTICE

A reward of \$500.00 will be paid by the Texas Sheep and Goat Raisers Association to any person (other than law enforcement officers) giving information causing the arrest and final conviction of any person or persons found butchering or stealing any sheep or lambs or goats belonging to any Association member in good standing. When two or more persons give information, the above sum will be divided at the discretion of the Board of the Association. When two or more defendants are involved in a single crime, the total reward is limited to \$500.00, but the conviction of one defendant, even though the other defendants are acquitted, will entitle the claimant or claimants to said sum of \$500.00. All claims must be submitted within ninety (90) days following conviction. If, upon conviction, a defendant confesses other thefts, no additional reward will be paid. All deviations concerning the payment of such reward and the conditions of payment will be made by the Board of Directors of the Association.

Was It Sudden?

Jerry Marcus

"They're making the cars safer, but not the drivers."

The Travelers Safety Service

Driver error is a leading cause of accidents.

Selective Service

Editor's note: Below are questions now being asked at draft boards. The answers are by Col. Morris S. Schwartz, State Selective Service Director, 702 Colorado St., Austin, Texas 78701. He will welcome your questions.

Q.—For the purpose of college student deferments, is a junior college considered an institution of higher learning?

A.—Yes, if its credits are acceptable toward granting of a baccalaureate degree by a college, university, or similar institution.

Q.—How long can a person be deferred as an undergraduate college student?

A.—He can be deferred in Class II-S until he completes the requirements for his baccalaureate degree (if completed within the normal and specified time), until he fails to pursue satisfactorily a full-time course of instruction, or until he reaches age 24, whichever occurs first.

Q.—Will men who become fathers after the new Selective Service law became effective (June 30, 1967) be deferred in Class III-A?

A.—Every case will have to be considered on an individual basis.

Q.—Does the new law make any change on fathers?

A.—Yes. Any man classified in Class II-S (college student) after June 30, 1967, can not under the law, be classified in Class III-A as a father.

Q.—Can the college student who received a Class II-S deferment after June 30, 1967, receive a Class III-A deferment for dependency in any manner?

A.—Only on the basis of hardship to dependents, and the burden will be on him to prove hardship in the individual case.

FILING AN ESTATE TAX RETURN

If you are worried about your heirs owing an estate tax on your property when you die, here are the rules: An estate tax return must be filed if the fair market value of your property is more than \$60,000 on the date of your death. However, the community property laws usually allow the estate to be worth \$120,000 in community property since each spouse is entitled to a \$60,000 exemption. Remember these rules apply only to Federal estate tax and not to Texas State Inheritance Taxes.

NEW LEGISLATION TO HELP STERLING COUNTY FAMILIES OBTAIN HOUSING

The U. S. Departments of Agriculture's Farmers Home Administration is better equipped to handle the housing credit needs of low and moderate income Sterling County families as a result of legislation recently signed into law, according to Patrick F. Sullivan, Farmers Home Administration county supervisor.

Sullivan said the Demonstration Cities and Metropolitan Development Act, signed last month by President Johnson, makes it possible for a broader range of Sterling County families to qualify for housing loan authorities of the Farmers Home Administration.

The new legislation Sullivan continued, makes more mortgage credit available to low and moderate income families in Sterling County by increasing the level of activity of the Agency's rural housing loan program.

Here are some of the other changes in the rural housing loan program administered by the Farmers Home Administration:

—Many Sterling County who had to go the long route of planning, contracting and building a house can now buy newly constructed buildings. Before the new legislation, these families could only purchase previously occupied buildings.

—Qualified low-income families can now obtain housing credit from Farmers Home Administration on the basis of a cosigner. Previously, only those rural persons 62 years and older qualified for this assistance.

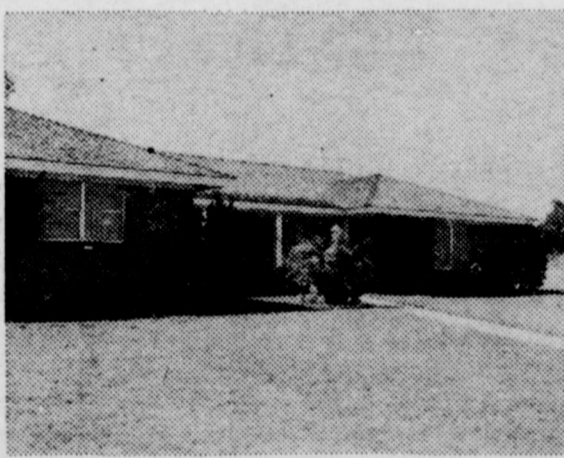

—The new legislation increases from \$1,000 to \$1,500 the maximum amount of assistance the agency can make for emergency repairs or improvements to owner-occupied rural housing or farm service buildings. This credit is not designed to upgrade a building but only to remove hazards to the health and the safety of the family and the community.

—Rural families on the verge of losing their homes through foreclosure may save their homes if a sound basis can be developed by the Farmers Home Administration to refinance their debts.

—Financial assistance can be given to construct rental housing for low and moderate income rural families of all age groups. Previously, rental housing financed by FHA had to be occupied by rural people 62 years and older.

Loans by the Farmers Home Administration are made to Sterling County applicants who are unable to obtain credit they need from private lenders at reasonable rates and terms.

ELECTRIC CONDITIONED LIVING • ELECTRIC CONDITIONED LIVING • ELECTRIC CONDITIONED LIVING

What people are saying about...

A CLEAN BREAK WITH THE PAST

"Sold on the cleanliness!" says Mrs. John Barrows of San Angelo, Texas. The Barrows have lived in total-electric comfort for almost three years, and are pleased with the living! Pleased that it is so clean... less dust. Pleased with the electric cooling and heating because it does such an "excellent job." Pleased that they can set the temperature controls one time in the summer, and one time in the winter and a constant temperature is maintained. The Barrows are pleased that there have been no service problems with the heating or cooling units, no cold spots in winter or hot corners in the summer. Both are especially pleased that the electric

bill is so reasonable. Only \$42.31 per month average. That is the total operating cost for cooling, heating, lighting, laundry, water heating, cooking, cleaning and running all of the work-saving electrical appliances for a family of 5 — and Robert, age 15; Ken, age 11; and Bryan, age 10; are active youngsters who open and close the refrigerator a lot... need lots of clean clothes and open and close doors frequently. Seven room, 2300 square feet — just \$42.31 per month average.

Electric living is great — talk to your electric contractor or visit WTU and find out how easy it is to live better electrically.

MAKE A CLEAN BREAK WITH THE PAST — convenience and comfort are great in Total Electric living.

Miss Linda Meyers

MEYERS-ABRAMSON WEDDING TO BE SEPTEMBER 23

Mrs. Maudine Marlow announces the engagement of her daughter, Linda Jean Meyers, to Lt. James Peter Abramson, son of Mr. and Mrs. Wilbert H. Abramson of Ridgewood, N. J.

Miss Meyers is also the daughter of Edwin Carl Meyers. She is the granddaughter of Mr. and Mrs. Luther Hallmark of Sterling City, Texas.

The bride-to-be was graduated from Sterling City High School and Warren A. Candler School of Nursing. She is employed by the American Red Cross. She is also a flight nurse in the Air National Guard Reserve at Travis Field in Savannah, Georgia.

The groom-to-be was graduated from Ridgewood High School and attended Philadelphia College of Textiles and Sciences. He is serving with the U.S. Army at Ft. Stewart, Georgia.

The wedding is planned for September 23.

EASTER SEAL SOCIETY IN TEXAS

A total of 16,031 disabled Texans were helped by Easter Seals during 1966, according to the Annual Report of the Easter Seal Society for Crippled Children and Adults of Texas. These people were given treatment in one of the 23 Treatment and Service Centers that are operated by the Society in Texas.

D. Kirk Hopkins, vice-president of the First National Bank of Sterling City, is the Easter Seal representative for Sterling County, according to Robert N. Eastus, Jr., Easter Seal representative for West Texas.

Any person in need of the services provided for by the Easter Seal Society should contact Mr. Hopkins. He is prepared to assist in filling out an application that will be sent to the State Treatment and Service Center, where arrangements will be made to

SUNDAY IS PROMOTION DAY FOR BAPTISTS

Next Sunday, September 24, is promotion day in the Sunday school of the local Baptist Church, announced pastor Andy Daniels this week.

The church year ends the last of September.

At the close of Sunday school and at the beginning of the morning worship service promotion certificates will be given to those who will move up in classes the following Sunday, said Daniels.

The following pupils will be promoted—

From Nursery I to Nursery II: Troy Don Templin.

From Nursery II to Beginner: Paul Posey, Steve Griffin and Jeff Stephens.

From Beginner to Primary: Karl Igo, Renea Hord, John Griffin, Bobby Clemmons and Danny Daniels.

From Primary to Junior: Susie Cole.

From Junior to Intermediate: Lee Wayne Igo, Becky iBlar, and Dusky Wells.

From Intermediate to Young People: Billy Blaneck and Bethany Wells.

CARD OF THANKS

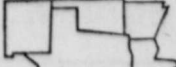

To my friends of Sterling City, county and neighboring towns: I thank you for all gifts, good eats, cards, letters, phone calls, flowers and your many visits while I was hospitalized.

Thanks also to Dr. Swann and hospital staff for many favors granted me.

A light shower fell in Sterling City about 6:30 Thursday morning of this week. It was probably a fringe benefit from hurricane Beulah.

As the paper went to press on Thursday, the weather forecast called for probable showers Thursday and Friday of this week.

STERLING COUNTY HIGHWAY WORK APPROVED

The Texas Highway Commission has approved the expenditure of \$23,750 for highway safety and betterment in Sterling County during 1968.

District Engineer J.A. Snell of San Angelo said that a total of 15.9 miles in Sterling County will be involved in the annual program. Work will be under the supervision of R. N. Jennings, District Maintenance Engineer, and is part of the Highway Commission's combined Farm to Market Road Improvement and State Highway Safety and Betterment program for 1968. State-wide the program calls

for the improvement of 5,182 miles at an estimated construction cost of \$39.8 million and right of way cost of \$137.5 thousand. Work will include 659 projects in 212 of Texas' 254 counties. In all, 399 projects are on State and U. S. numbered highways; in 160 counties and 460 projects are on farm to market roads in 170 counties.

The safety and betterment portion of the program calls for work on 2,408.9 miles of highways at an estimated cost of \$22.2 million. Purchase of 95 miles of right of way will cost an additional \$137, thousand.
