Next week, Mar. 4 through the 9th, is Texas Public School Week. The schools over the state are observing the observance with open house, or other special programs.

Here in Sterling City all the parents and patrons are invited to visit the school during the week, visit classes where their children are, and eat a lunch in the lunchroom, said superintendent O. T. Jones. He said parents were welcome at any time during the year, but especially during the observance of Public School Week.

BALANCE AS HUGE AS THE VAULT OF HEAVEN, WITH ONE SCALE PAN CALLED "DARK", AND THE OTHER "LIGHT", WILL BE USED, ACCORDING TO PERSIAN MYTHOLOGY, TO WEIGH THE GOOD AND EVIL DONE BY EACH PERSON ON JUDGEMENT DAY!

GREAT BALANCING FEAT WAS THE ONE PERFORMED IN 1956, BY THE GERMAN TIGHT-ROPE WALKER RICHARD SCHNEIDER WHO SPENT 174 HOURS ON THE HIGHWIRE TO SET A NEW WORLD'S ENDURANCE RECORD!

AMERICA'S BALANCE OF PAYMENTS--A TOPIC OF MUCH RECENT DISCUSSION--CAN BE MADE MORE FAVORABLE IF AMERICANS SPEND AS MUCH OF THEIR MONEY AS POSSIBLE IN THIS COUNTRY. SHIPPERS WHO INSURE THEIR OCEAN-GOING CARGO WITH MARINE OFFICE OF AMERICA, THE NATION'S LARGEST INSURER OF MARINE RISKS, ARE DOING THEIR PART TO STEM THE FLOW OF GOLD FROM U.S. COFFERS!

SCIENCE SKETCHES

BEAUTIFUL GIRLS dancing on a cloud, marines wading through a steamy swamp and an English detective walking through the London fog are all familiar sights in motion pictures and on television. The cloud, steam and fog effects are made possible by using carbon dioxide, says Cardox, Chicago. Fog, for example, is formed by blowing steam over dry ice.

EMPLOYERS, BEWARE! If you're looking for an honest man, wear a blindfold while you interview your candidates. University of Michigan psychologists say that the visual awareness of the presence of a person being interviewed is a distraction that lessens the chances of the interviewer's making an accurate judgment.

Hold out on the phone company.

After 7 p.m., you can call anywhere in the country for a dollar.

All long distance callers worth their salt know that calling in the daytime is more expensive than calling in the evening hours. (Actually, most people call during the day, when we charge our regular rates.)

But long distance callers aren't interested in explanations.

The only thing they care about is calling for

the cheapest possible price.

So to get more for their money, they devised a scheme you might call The Waiting Game.

The idea is to do just what the name implies: Wait and wait and wait and wait.

Because they know if they can hold out till after 7 p.m. or any time of the day on Saturday

or Sunday, they can call anywhere in the country for a dollar or less.*

Which just goes to prove that anybody can afford to call long distance.

Provided they know how to play The Game.

Change in Driver's License Laws

AUSTIN — Col. Homer Garrison Jr., director of the Texas Department of Public Safety reminded Texans today that a color photograph becomes a standard part of all drivers' license issued after January 1, 1968.

"The change makes it necessary for all drivers to renew licenses in person at one of our Department offices," Garrison said, "and we have been working toward setting up a procedure that will not cause excessive delay when a person comes to us to renew a license."

Garrison explained that the change in license was incorporated into law by the last legislature.

"Renewal notices will be mailed to each driver, just as always," Garrison said. "However, under the new procedure, each driver must take the renewal notice to the nearest DPS office. There he will be given a standard vision test, sign the renewal notice and step in front of our camera. The picture will be snapped and a receipt will be issued to enable the person to drive until he receives his new license in the mail."

Garrison explained that about 250 full-time license offices would be in operation over the state to service license renewals. Issuance of new licenses will also be conducted in many of these new offices as well as at offices already established.

There are currently over 5,800,000 licensed drivers in Texas and about 2,500,000 licenses are renewed annually. To facilitate the process all licenses after January 1 will be renewed to expire on the birthdate of the licensee. If the person holds a license ending in an even number, it will be renewed for a four year term if the license ends in an off number, it will be renewed for two years the first time, then for four years each time thereafter. The cost to the driver remains the same per year.

The new license will be approximately 2 1/2 inches wide by 3 3/8 inches long, or about the same size as a standard credit card.

"We anticipate fairly large crowds at many of our offices," said Garrison, "and we hope to be able to give each person completely satisfactory service. We look forward to making many new friends among the millions of persons we have been serving by mail before now."

Behind the 8-Ball

By the editor.

Last week in county agent Arthur Barlemann's column, I inadvertently had him reporting the wrong stock show for the week before. It was the San Antonio Show and not the San Angelo show. Anyway, it was my mistake—one in proof-reading.

8-BALL

Sometimes I wonder just how many different jobs I have around the shop. I, of course, have the impressive titles of publisher, editor, reporter, etc. But, I also have titles of printer, ad man, cost estimator, proof reader, and janitor. And maybe a few others.

All jobs have to be done—or not done. One has to sell the jobs, keep books, and in the end, collect. It keeps a body hopping (as Mark Twain might have said.)

A paper needs a reporter to go out and gather up the news, and write it up. Now, one of those would cost about what I make here. Too, you need an ad seller, who can really sell ads and make his job pay its way. They make as much as I do here. Then, a printer is needed. Really, to do the printing, etc. They make as much as I do here.

So, work here has many different faces. Whereas, two or three employees would actually make a better paper, it just can't be done, from the financial angle. So, I do all of 'em. Now, it's a law of somekind or the other, that if a paper is not printed, there just won't be a paper. So that takes first rank—or else—there just won't be a paper.

The amount of work involved to the paper, etc, just wouldn't justify a staff or any size, and such a set-up would not appeal to any of the younger generation of printers or newspapermen. They have a different view of just what and how they want to run a paper.

There is more money, more security, more that appeals to the younger generation in working on a big paper, or in the cities.

The investment of a paper and all the responsibility involved just does not appeal to the young printers or paper men of today. I can remember when it was said that the dream of all men working on the daily newspapers was

to get his own smalltown paper or business. And in reverse it was the dream of all printers and young men that had learned on or in small town papers—was to go to the city and work on a big daily.

That all seems to have undergone drastic changes. Now, the paper salesmen tell me of small newspapers that are just closing out or phasing out and the owners going to the city to work, or to retire. In fact, there were two papers that folded up in this area since the first of the year. No one wanted to buy or lease.

The fact that most of the owners come forth with is that they can make as much—or more—working on a big paper, or print shop, and not have any investment.

It takes a lot of doing without, make do, and just good old economy to get by the increased cost of doing business these days.

The pendulum may swing again somewhere in the future and young persons will want to live in the smaller towns again. But that is not the case now.

Or so it seems.

When I was a lot younger, nearly every little town had a newspaper. Some had more than one. In the American Press Magazine, a magazine for newspapers, it is reported that the small town papers are folding up and phasing out at an alarming rate.

I kinda hate to see it.

Editor's note: A man living out on a certain creek in our county who signs himself as "J. A." and says he is referred to as the Lacy Creek Philosopher has written us the following letter and offered to write others. I don't know.

Dear Editor:

I was sitting out here in the sun the other afternoon watching a newspaper being blown along the ground by the wind and I got to wondering if I'd read it, yet didn't want to get up to see as there's no use exerting yourself unnecessarily, saving energy is as important as saving money and is a lot easier, but later on in the afternoon it blew over close to where I was and since I was going to change positions anyway I leaned over and picked it up and was surprised to find it was a recent issue of the Sterling City News-Record as I am frank to say I didn't know Sterling City still had a newspaper as I had been depending exclusively on the San Angelo Morning Times until they stopped my paper in 1961, although I don't seem to be much more confused than some people who're still getting the paper.

But since I have discovered The News-Record is still in existence I figured you might be interested in an occasional letter from me if we can agree on a satisfactory price, which won't necessarily be high as a thinking man can find lots to write about without any trouble if he is confronted with a choice of writing or going around from one pasture to another wearing himself out fighting bitterness—as though the stuff could finally be whipped.

Now, if the congressmen in Washington will just stop all the strikes at machinery plants and not let 'em use all the herbicides in Viet Nam, maybe I can get rid of the stuff on my place.

But my wife says that even if I had all the latest equipment and barrels of the herbicides to kill the stuff, it still wouldn't do me much good.

In fact she says that I just don't take advantage of all the equipment, etc. that I now have, and she told me a lot of other things that I'm too much of a gentlemen to repeat.

Anyway I could write a letter for the paper every once in a while, if you like.

Yours faithfully,
 J. A.

Social Security

According to Ted F. Moel-ler, district manager of the San Angelo Social Security Office, here is another of the more important improvements in the medicare program under the social security amendments.

MORE HOSPITAL DAYS COVERED

Beginning January 1, a person covered under the hospital insurance part of medicare will be eligible for 60 additional days of care partly paid for by medicare. This is a "lifetime reserve" that you can draw upon if you have used up the 90 days in a "spell of illness" During these additional days, your medicare will pay all but \$20 a day of your covered hospital expenses.

As before, a "spell of illness" does not end until a 60 day period has passed during which you were not a patient in any hospital or skilled nursing home. When a spell of illness ends, you again become eligible for up to 90 days of hospital insurance benefits. The 60-day reserve however, is a lifetime reserve, and none of it is replaced after you use it.
