Programs Set For End of School

BACCALAUREATE MAY 19; COMMENCEMENT MAY 21
End of school exercises for the high school graduating class have been set and the Baccalaureate Service will be at 8 p.m. Sunday, May 19 at the school auditorium. The Commencement Exercises are to be at 8 p.m. Tuesday, May 21.

The Rev. Phil Robberson, pastor of the First Methodist Church will preach the Baccalaureate Sermon. Jaynell Cope will play the processional and recessional. Mrs. Geo. White will lead the congregational singing. The benediction will be given by Bobby Dodds, grade school principal.

Commencement Exercise
James L. (Curly) Hays of the public relations department of the West Texas Utilities Co., Abilene, will be the main speaker that night at the Commencement Exercises.

Jaynell Cope will play the processional and recessional. Phil Cole will give the invocation. Beverly Brooks is to give the salutatory address. Superintendent of schools O. T. Jones will introduce Curly Hays. Debbie Reed will give the valedictory address. High school principal James Thompson will certify the class members for graduation and Chesley McDonald, school board president, will present the diplomas. Mr. Thompson will award the honors and Ronnie Kilpatrick will give the benediction.

Members of the class roll include Rebecca Lynn Alexander, Beverly Frances Brooks, Phillip Eugene Cole, John Marvin Cooney, Sharon Marie Currington, Gary Dean Foster, Kathy (Gaston) Durham, Ronald Lynn Kilpatrick, Ronald Thomas Lawson, Susan Elizabeth Mixon, Beverly June Love and Deborah Ann Reed.

Curly Hays, the speaker for commencement was graduated from San Angelo High School in 1934. He was an all-state football player and a member of the National Honor Society. He got a B.A. degree from the University of Tulsa and a B.S. from Dartmouth University. He was an all-American end at football at Tulsa and three years all-Missouri Valley Conference. He served in the U. S. Navy and was discharged with the rank of Commander. He served in both theaters of operations and help introduce rocket warfare.

Currently he is a member of the Southwest Conference Football Officials Association, and ranches in Red River County. He is an honorary Lone Star Farmer; a board member of Texas Commercial Agriculturists Council and is secretary of the West Texas Hereford Association. He has been employed in the Public Service Department of the West Texas Utilities Co.

HELP NEEDED

The Pee Wee's, Little League and Pony League need financial help. We need to purchase uniforms for 2nd Little League team, caps and T-shirts for the Pee Wee team, several dozen baseballs, a dozen bats and catcher's protective equipment.

These little ball players want to play baseball, so please give!

The above plea is from the baseball program here for the summer. If you can and will, make a donation. The concession stand will not make enough profit this summer to supply all these needs.

Grade School Final Program May 24

The grade school graduation exercises will be held in the school auditorium on Friday, May 24 at 8 p.m. said grade school principal Bobby Dodds, this week. Twenty-one students will move on into high school in graduation exercises that night.

Tommy Bynum will play the processional and recessional. Clark Kilpatrick will give the invocation. Allen Price will give the salutatory address.

Following a musical number by Susan Terry, Kenny Blank will read the class will and DeNeal Reed will read the class prophecy. Another musical number by Susan Terry follows, and then Marilyn Foster will give the valedictory address.

Stan Horwood, member of the school board and local rancher, will give the main address of the evening. After his talk, principal Bobby Dodds will present the diplomas. Debbie Hopkins will give the benediction.

Graduates Listed

The graduates, according to Dodds, are as follows:

- Lupe Amador
- Brandt Badger
- Kenny Blank
- Robert Bliznak
- Bobby Bynum
- David Cooney
- Helen Coronado
- Ray Escobar
- Victor Estrada
- Marilyn Foster
- Mary Sue Gartrell
- David Gaston
- Debbie Hopkins
- Clark Kilpatrick
- Diann Medina
- Linda Munoz
- Allen Price
- DeNeal Reed
- Johnny Rodriguez
- David Turner
- Payton Wilson

Faculty-Trustee Dinner Tuesday

The faculty-trustee dinner was held in the school gym Tuesday of this week. The faculty, who honored the members of the board and their wives, served a smoked lamb dinner, with baked potato, salad, rolls, strawberries and cake, and tea and coffee dinner.

The gym was decorated with props from the awards banquet and set up like a sidewalk cafe.

Bridge and dominoes was played following the meal.

Superintendent O. T. Jones welcomed the guests and Stan Horwood gave the invocation.

Nearly sixty persons were present.

Frank Balaban Her for Summer

Frank Balaban, who just completed his second year of pre-dentistry study at the University of West Virginia, is here for the summer and will work for the State Highway Department engineer group.

Frank was on the dean's honor roll the last semester. He is the son of Mr. and Mrs. John Balaban of Masontown, Pa.

Frank graduated from high school here in 1966 and attended the University of Texas for one year before going back to Pennsylvania.

RAIN AND HAIL HERE

Heavy rain, high winds and hail again hit areas in and around Sterling City on Thursday afternoon of last week. Before the rains quit that night about two inches had fallen here in town and winds and hail damage was negligible. Some damage was reported in close by areas, but was not very extensive.

The rains of that day and night caused flooding in Midland to the west. More than seven inches of rain was reported, along with some hail. Flooding caused above two million dollars damage there, it was said.

The north Concho River got on a 14 foot rise last week and sent some flood water down to the North Conch Lake at San Angelo.

Sterling is well ahead of a yearly average for this time of the year, with about ten inches of rain so far. The grass and weeds over the county are lush and green. Even a little rain stands because the ground is wet through and through. The extreme south portion of the county has received less rainfall than the other areas. But in average years, they usually get more in the south than the other parts of the county.

LIONS CLUB

The Lions Club met in the community center Wednesday noon for the regular weekly luncheon. Mike Kisco and G. C. Murrell of San Angelo were guests. The prize went to Murrell.

It was decided to appoint a committee to arrange for the Lions ladies night and installation of officers. Acting president Tom Asbill appointed Jack Peel, Jack Douthit and Roland Lowe as a committee to make the arrangements.

New steps and porches for the community center were reported completed and the members inspected them. The work was done by the FFA boys under direction of Fred Igo.

Little League Astro manager Jack Peel announced that the Astros won their first game of the season here Tuesday night by beating the Robert Lee Indians 9 to 8.

Legion Barbecue

SATURDAY NIGHT
The annual American Legion barbecue will be held at Jeff Davis' river place this Saturday evening, said J. K. Martin, this week.

The plates of barbecue dinner will cost \$1.50 and eating will start at 8 p.m., said Martin.

Tom Cleveland was hired Monday by the commissioners court to be the maintenance man or janitor at the courthouse, replacing Levi Martin, deceased. Tom, who has been working at the Texaco Service Station, reported for work on Tuesday morning of this week.

Legg Guests

Guests in the Finis C. Legg home over the Mothers Day weekend were Bobby Gene and Annetta Legg of Houston and Connie Marie, Charles, Robert Trey Evans of Breckenridge. Also guests were the parents of Mr. Legg, Mr. and Mrs. A. C. Hennig and Mrs. Legg's father, Amos Garlitz, all of San Angelo.

Bobby Legg works for the Cameron Iron Works of Houston, Charles Evans works for Fintex Manufacturing Co. and Conine works for Davis Montgomery Co. of Breckenridge.

Democratic Run-off June 1st

A runoff election for the governor's race between Don Yarborough and Preston Smith will be held here in Sterling County (as well as over the entire state) on June 1. The two were top contenders in the first primary election on May 1.

A runoff race on the divide and the Humble box for precinct 3 county commissioners will be held at those two boxes. Bill R. Bynum faces William Foster in a runoff. In the first primary Bynum got 17 votes and Jim Bob Clark and Foster got 11 each. The election law code calls for a "casting of lots" to decide the winner of a tie like that, and Foster won the coin flip. The voters will vote again at the D.D. Garrett ranch house for the divide vote and at the T. H. Humble ranch house in the other box. Voters there will of course, also vote on the governor's race.

All other boxes will be combined in one box at the local courthouse. Such is permissible when there are no district or precinct races to be decided.

According to Jack Douthit, Democratic Executive Committee chairman, if a tie vote happens between Bynum and Foster this next time, another flip or "casting of lots" will decide the winner.

The election code calls for the casting of lots for the place on the ballot in case of a tie in the second primary or runoff. If two persons had tied for first place in the first primary, their names would have gone on the ticket for the runoff. A tie for second place in the first primary calls for the casting of lots. A flip of a coin was used here, but in some counties, tied candidates cut for the highest card or roll for a high dice.

No write-in votes are allowed to be counted in primary election, according to the election code now. Write-ins are still counted in the general election which will be held in November—on the second Tuesday.

ABSENTEE VOTING FOR JUNE 1 RUN-OFF MAY 22-28

If you will not be able to vote in the second primary on Saturday, June 1, you may vote absentee in the county clerk's office May 22-28.

HOSPITAL NOTES

Patients in the Sterling County Hospital on Thursday morning of this week included—

- Bill Reed
- Mrs. J. C. Smith
- Lee Hunt
- Mrs. Aaron Clark
- Dismissals since Thursday morning of last week include: Oden Willoughby
- Mrs. W. R. Hudson
- J. P. Russell

JOE STUCKE SELLS BARBER SHOP

Joe Stucke, local barber, sold his barber shop here to Richard Lawdermilk of Junction Tuesday. Mr. Lawdermilk will take over the shop between the first and fifteenth of next month, said Joe.

The Stuckes own a block of property in Eden which includes a barber shop, a cafe, and some apartments. Joe is to go back there and handle his property there. Mrs. Joe says she isn't going.

Nursing Home Vote Passes 169-13

Post Office To Be Remodelled

Postmaster W. R. Brooks this week said that the post office building here was to be remodelled and a temporary post office would be used for the next six to eight weeks.

Concerning the remodeling Brooks said: "Some inconvenience to postal patrons will be experienced during the next few weeks. Plans now are to set up temporarily in the old Brock Grocery building over the weekend in order that the present building occupied by the post office can be renovated. It is hoped that this temporary inconvenience will be understood by all our patrons and we will do our very best to serve all your postal needs quickly and efficiently with no interruptions in postal service".

Pre-School Begins June 3

According to superintendent O. T. Jones the first session for pre-school will begin at 9:00 a.m. on June 3 with registration for all those who will be eligible to begin first grade work in September, 1968.

Any child who will be six years old by September 30, 1968 will be eligible to enter pre-school, under the direction of Mrs. Evelyn King, one of the first grade teachers.

The hours of school will be announced at the first meeting.

High Rank Students Honored at Luncheon

Forty-one students from West Texas High Schools were honored at a luncheon Saturday in San Angelo by the West Texas Chamber of Commerce for their exceptional scholarship achievement, outstanding character and citizenship while participating in school activities.

Participating from Sterling City was Debbie Reed, daughter of Mr. and Mrs. Neal J. Reed.

The education committee of the West Texas Chamber of Commerce coordinated the awards program to give the business community an opportunity to recognize outstanding scholars. Dr. Hugo Meredith, Dean of Angelo State College, was key speaker at the affair which was one of nine held throughout West Texas. The luncheon held at the River Club was sponsored by West Texas Utilities, Lone Star Gas and General Telephone Company of the Southwest and the Outstanding West Texas Scholar Awards (certificates) were presented by W. K. Ramsey, Roy Day and E. H. Danner, all members of the West Texas Chamber.

School Library Receives Memorial Books

In memory of Levi Martin, foster father of John Cooney, a senior, the senior class has placed the collective biography "The Lives of One Hundred Great Men and Women," edited by John Allison.

In memory of Templeton Foster, Mr. and Mrs. Frank Milligan have placed the Elliot Arnold's story of early America, "The White Falcon," winner of the William Allen White award.

182 voters went to the polls last Saturday and voted 169 for and 13 against the extended care facility home here. The voting had to be redone when the attorney general's office turned down the first bond issue. The vote was for a \$200,000 bond issue with which to finance such a home here.

Back in February, a vote had been held on the bond issue and it went 228 for and 10 against.

The way the votes went in the five voting boxes here on May 11 was as follows:

Box	For	Again.
Courthouse	124	3
Divide	5	3
Humble rch.	13	1
Bill Cole rch.	16	4
Bill Blair's	11	2
TOTAL	169	13

The nursing home will be built next to and share some facilities with the Sterling County Hospital. Architect John Allen has drawn up the plans and specifications so as to comply with all federal and state rules and requirements.

The hope is for a Hill-Burton grant to pay for part of the cost of the building. The home will be for elderly type patients, not quite needing complete hospital care. There is planned room for 28 patients and if one wants to put in an application for a room, they may notify Mrs. Mildred Emery, administrator of the hospital here.

John M. Stuckwish, 62, Dies Tuesday

John M. Stuckwish, 62, who was the 12th person in the entire world to receive a heart transplant, died late Tuesday from complications in his body that were present before the heart transplant, according to autopsy findings.

He had undergone surgery for the heart transplant on May 7 and was very grave at that time and for the week that followed.

Autopsy findings showed he had severe arteriosclerosis, especially in the aorta and leg, liver insufficiency, jaundice and pneumonia in both lungs.

Mr. Stuckwish served as administrator of the Sterling County Hospital for five years before going to Alpine to be administrator of the Brewster County Memorial Hospital, its first administrator.

At the time this paper was printed, services were pending, but will be in Alpine, probably today.

Survivors include the wife, the former Jerry Edwards of Cleburne, a daughter, Pamela Jean Stuckwish of the home; four sons, John M. Jr., Don Randall, Kenneth Charles, and Stephen S. Stuckwish, all of the home; four sisters, a brother and his father, Albert Charles Stuckwish of Pittsburgh, Pa.

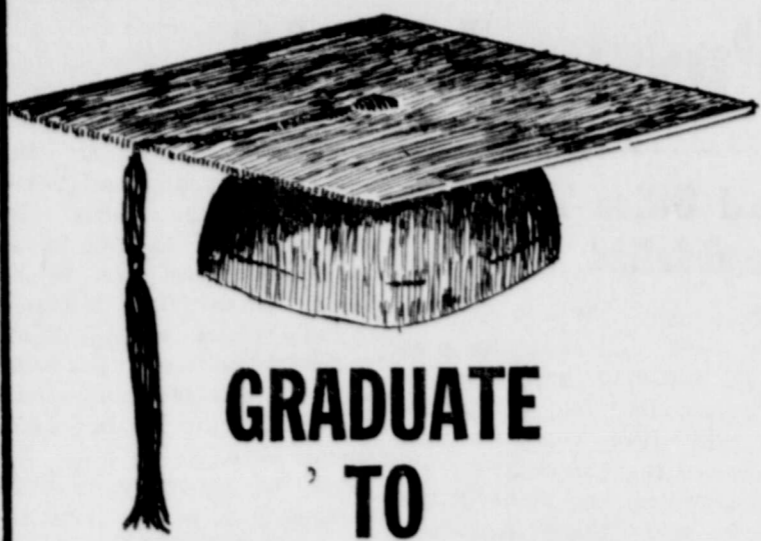

FFA OFFICERS NAMED FOR NEXT YEAR

The officers for the Sterling City chapter FFA for the 1968-1969 school year is as follows:

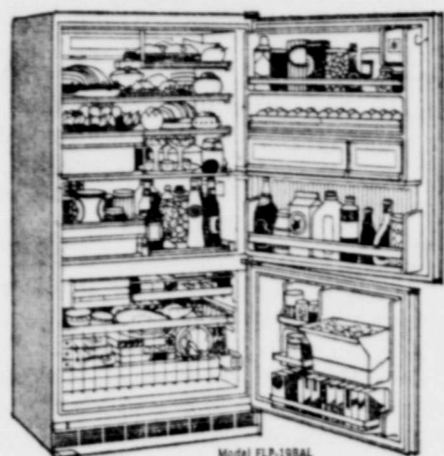

- Frank Price, president
- Bill Blank, vice-president
- Craig Frizzell, secretary
- Fred Igo, advisor
- Mackey McEntire, treasurer
- Billy Barton, reporter
- Pat Foster, sentinel

Mr. and Mrs. H. L. Bailey of Sterling City and Mr. and Mrs. Bill Vern Davis of San Angelo returned home from Las Vegas, Nevada Monday of this week.

FRIGIDAIRE HELPS YOU

**GRADUATE
TO
TOTAL ELECTRIC
LIVING**

No wrap, no unwrap, no rewrap!

The revolutionary Frigidaire Food-life Preserver Refrigerators do much more than just keep foods cold... they preserve food! When you have a Food-life Preserver you'll never have to struggle with wraps, covers or lids—ruin the meringue on a pie, or the icing on a cake. The Moist-Cold Zone "covers" foods for you!

Most foods stored in the Moist-Cold Zone stay fresh and moist for a week or more... without covering! Solid state controls let you regulate the temperature and the amount of moisture in the zone... to give you complete control.

■ MOIST-COLD ZONE keeps foods from drying out without lids or wraps. ■ NO FILL! NO SPILL! Ice Maker fills, freezes, releases ice cubes into door tray. ■ QUICK-CHILL ZONE cools down melons, beverages fast. ■ 18.7 CU. FT. with 208-lb. size bottom freezer. ■ 100% Frost-Proof! You'll never defrost again.

Crude Oil Figures For Texas

Texas crude oil production, recorded for the past 73 years, surpassed the 30-billion-barrel mark in 1967, according to projections based on a study by Texas Mid-Continent Oil & Gas Association.

The state's crude total to January 1, 1967, was 29.46 billion barrels, and the state annual production in recent years has averaged a billion barrels or better.

With 199 of Texas' 254 counties producing crude oil, income averaging about \$3.4 billion a year is distributed widely over the state, making oil production an important part of the commercial scene.

Sterling County, which has had recorded production since 1947, has had a total crude oil output of 14,129,833 barrels up to the beginning of 1967. Sterling County production in 1966 was 2,736,233 barrels at the rate of 7,497 barrels a day.

The state has 36 counties which produced at the rate of 25,000 barrels or more per day. The three largest are: Andrews, 215,000 barrels per day; Ector, 175,304 barrels per day; and Crane, 130,000 barrels per day. Gregg County, which still produces 75,000 barrels per day, is the only county to have produced more than two billion barrels of oil.

Social Security

NEW SOCIAL SECURITY MILITARY FAMILIES

Of special interest to military men and women and their dependents is a provision in the new social security law which promises greater protection for them and their families.

Under the old law only a person's military base pay was counted toward social security benefits. Starting with January 1968, an additional \$100 will be counted for each month in which the person in military service is receiving active duty pay.

Since social security benefits are based on average earnings over a working career, you and your family may be able to receive higher benefits later because of the additional credits.

The Congress recognized that under the old law, the social security protection of a worker might be impaired during a period when he is in military service, because of the relatively low earnings covered under social security. This new provision seeks to take into account the value of payment in kind — such fringe benefits as food, housing, and clothing, medical services, which are in

BUSINESS OPPORTUNITY MAN OR WOMAN

Reliable person from this area to service and collect from automatic dispensers. No experience needed... we establish accounts for you. Car, references and \$550.00 to \$1735.00 cash capital necessary. 4 to 12 hours weekly nets excellent monthly income. Full time more. For local interview, write Eagle Industries, 4725 Excelsior Blvd., St. Louis Park, Minnesota 55416.

effect part of the serviceman's earnings.

These earnings credits will automatically be credited to your social security account, and you don't have to make any kind of application to receive them. They will not mean additional social security contributions from your paycheck, but will be attributed to the general funds of the Treasury.

Higher Earnings Possible Without Benefit Deductions

For older people and other beneficiaries who continue to work the recent changes in social security will enable them to make more money and still draw some or all of their social security benefits.

The amount of money a person can earn in a year and still draw all his social security benefits has been raised. Beginning with 1968, a person who makes as much as \$1,680 can still collect all of his social security benefits. Even if he earns considerably more than that, he may still draw some benefits. The old law had set that limit at \$1,500, through 1967.

Here's how it now works. If you are working regularly and do not earn more than \$1,680 a year in wages, you will receive all of your social security benefits each month. If you are working regularly and make more than \$1,680 a year, \$1 will be withheld from your benefits for each \$2 you make over \$1,680 and up to 2,880. If you make more than 2,880, \$1 will be deducted from your benefits for each \$1 you make above that amount.

However regardless of your total earnings for the year you will receive your social security check for any month in which you do not earn more than \$140 in wages and are not active in self-employment. This means that you could make any amount over \$1,680 a year, and still receive your checks for any month that you do not work, but with deductions against the months you do work. Remember, these new provisions apply to earnings in 1968. The old law applies to earnings and benefits in 1967.

As in the old law, there are no deductions taken from your social security benefits for any month after you reach 72, regardless of how much you earn in the year.

The provisions of the retirement test apply also to dependents of people who are receiving disability benefits, but not to the disabled worker himself. Special rules, including medical considerations, apply to people who are receiving benefits because of disability. About 760,000 people across the country are expected to receive some \$175 million in additional benefits during 1968, as a result of this change.

How You Can Curb Pandering Advertisements

Mail patrons offended by
 pandering advertisements can
 now take steps to curb such
 mail, Postmaster W.R. Brooks
 said today in announcing plans
 for administering a new law
 which gives each family the
 right to decide that an ad is
 "erotically arousing or sexu-
 ally provocative."

When an advertisement sent
 through the mails is offensive
 on these grounds, a postal pa-
 tron can now ask the post of-
 fice to direct the mailer to
 send no mail to him and to re-
 move immediately the pa-
 tron's name from all mailing
 lists he owns, controls or
 rents.

To assist patrons, the Post
 Office Department has pub-
 lished a brief pamphlet **How
 You Can Curb Pandering Ad-
 vertisements**—which is now
 available at the Sterling City
 post office. In addition to ex-
 plaining how the law works,
 the pocket-size leaflet con-
 tains a form letter one can use
 when sending his complaint to
 the post office.

The pamphlet explains that
 when a patron receives an ad-
 vertisement which is, in his
 opinion, pandering, he must
 send the ad, its envelope and
 the form letter, or one which
 includes its language, to his
 post office with the words,
 "request for prohibitory order"
 on the face of the envelope.
 Postmaster Brooks said: "This
 law should give some protec-
 tion to American families of-
 fended by advertisements they
 believe to be morally harmful,
 particularly to children.

"Last year the Post Office
 Department received some
 140,000 complaints from these
 offended by pandering adver-
 tisements. While in most cases,

REWARD NOTICE

A reward of \$500.00 will be
 paid by the Texas Sheep and
 Goat Raisers Association to
 any person (other than law
 enforcement officers) giving
 information causing the ar-
 rest and final conviction of
 any person or persons found
 butchering or stealing any
 sheep or lambs or goats be-
 longing to any Association
 member in good standing.
 When two or more persons
 give information, the above
 sum will be divided at the
 discretion of the Board of
 the Association. When two or
 more defendants are involved
 in a single crime, the total
 reward is limited to \$500.00,
 but the conviction of one de-
 fendant, even though the other
 defendants are acquitted,
 will entitle the claimant or
 claimants to said sum of
 \$500.00. All claims must be
 submitted within ninety (90)
 days following conviction. If,
 upon conviction, a defendant
 confesses other thefts, no ad-
 ditional reward will be paid.
 All deviations concerning the
 payment of such reward and
 the conditions of payment
 will be made by the Board of
 Directors of the Association.

 aminers.

SACRIFICE equity in beauti-
 ful spinet piano in this area,
 to responsible party. Small
 monthly payments may be as-
 sumed. Write Mr. J. Hall, Box
 3192, Lubbock, Texas

the ads were not legally ob-
 scene and were therefore
 mailable, they are often of-
 fensive and are usually not
 the type of material one would
 want his children to read,"
 Postmaster Brooks said.

He added that "because the
 law gives a mail patron the
 sole right to decide what is
 offensive, and does not deny
 others the right to receive the
 same mail the Congress felt
 it does not violate Constitu-
 tional guarantees of freedom
 of speech."

While the patron's complaint
 will only be directed to the
 sender, Postmaster Brooks be-
 lieves that one or two com-
 plaints will provide substantial
 protection because "the great
 bulk of this advertising comes
 from fewer than 20 so-called
 'smut dealers' who are fre-
 quently swapping mailing lists.

If a mailer does not strike
 a complainant's name from
 this mailing list, and the pa-
 tron receives a second mailing
 30 days after the firm has re-
 ceived the prohibitory order,
 he may bring the matter to
 the attention of the postmas-
 ter issuing the initial order by
 writing him and enclosing the
 second pandering ad with its
 envelope. If the mailer still
 fails to respect the order, the
 Postmaster General may ask
 the Attorney General to apply
 for a Federal court order di-
 recting compliance. Failure to
 observe the order may be pun-
 ishable by a fine or imprison-
 ment.

UNITED STATES PAVILION—Work on the exterior of the United States
 exhibit hall, one-half of a \$6.75 million pavilion complex at HemisFair '68, nears
 completion and attention is turned to the interior design. This picture of the
 structure, marked by the United States Seal, was taken atop the Swiss Skyride
 already in operation at the San Antonio World's Fair.

World's Largest Plane to Take Test Flights

CANTON, OHIO — The U. S. Air Force C-5 Galaxy recently unveiled by the
 Lockheed-Georgia Company is scheduled for test flights in June of this year. Gross
 weight of the Galaxy is 728,000 pounds. By using 28 Timken tapered roller bearing-
 equipped landing wheels under safe low tire pressure, this massive plane can utilize
 airfields classified for medium to heavy loads without causing any critical runway
 deterioration. Almost 85 yards long, it has a wing span of 223 feet and towers 65
 feet into the air. Carrying a maximum payload, the C-5 Galaxy can cover 2,500
 nautical miles in less than 6 hours.

AROUND THE COUNTY

ARTHUR BARLEMAN, JR. COUNTY AGENT

The screwworm situation is the most dangerous, case-wise, that it has been in 20 years in the Southwestern United States. Dr. M. Meadows, Jr., veterinarian in charge of field operations for the eradication program, told county agents at a meeting in Llano last week, that the spread of cases northward has been the most rapid in recent years. Fifty-four cases were identified during April for the highest number during that month since 1963; forty-three of the cases were in Texas.

The movement northward began during the winter as expected in Mexico and progressed gradually. This northward movement in Mexico continued as expected until in March when the confirmed cases suddenly jumped over one hundred miles of Northern Mexico into the Rio Grande Valley area of Texas. Since then, the movement has been continuing with the line now reaching from Beville on the east to Medina just west of San Antonio. Laboratory officials fear that it will continue with confirmed cases expected in the Big Bend and San Angelo areas soon. To combat the feared outbreak, sterile fly production has been stepped up from 105 million to 175 million weekly.

The last sample submitted from Sterling County was last week. The sample, from the Jack Durham ranch, sent in by Clifford Carpenter, was non-screwworm.

Livestock producers are urged to cooperate in making every day S-O-S DAY. S-O-S, in this case meaning STAMP OUT SCREWORMS, as well as the international distress signal.

Amy Hodges entered a number of fleeces in the wool show held at Brownwood last weekend by the Texas Purebred Sheep Breeders' Association. She won five first place ribbons and two second place ribbons in the show. Her first place ribbons were won in the registered Rambouillet aged ram class, the aged ewe class, the medium wool ewe class, the commercial aged ram class, and the aged ewe class of this division. The two second place ribbons were won in the aged ewe and aged ram class of the registered Rambouillet show.

Amy was runner-up for the premier exhibitor trophy of the show. This is the second year she has finished as runner-up for the trophy; both years she has lost out by two dollars.

Hailstorms last week added to the damage previously done in Sterling County. Heavy hail in the past weeks has done extensive damage to rangeland, livestock, and homes in various areas. First hit was the area around Twenty mile southwest of Sterling City on the Big Lake road. Then, the area around the Wilkinson Ranch was damaged. Last week, a storm on Friday did damage to the alfalfa on the Nick Reed ranch and rangeland in that area. Another storm the same evening spread damage across the divide area. A good crop of barley on the T. E. Matlock place was wiped out; all that remains are the stems of the plants. Damage to oat crops on the Bill Bynum place and the Copeland Bros. places was also heavy; others in this area also suffered damage.

Pecan casebearers throughout the state are being slowed

Behind the 8-Ball

By the editor.

It was reported that a school teacher in Midland, at the window last week watching the heavy rains and the water rising around the school (as were all the pupils) and he said, Well, kids, we just have 39 more days to build that ark!

8-BALL

USING THE PARK? Why not kinda put in a reservation ahead of time? The city park may be used by any and all groups for picnics, family gatherings, etc. Now and then two large groups might be on hand at the same time. Now and then the sprinklers are on and water covers the tables and ground.

If one would let the park keepers know ahead of time, things would be better. Such as the watering and another large group using the park at the same time.

Just let Larry or Mrs. Miller know ahead of time, and things will turn out better.

8-BALL

Cy Matlock lost a lot of grain, etc in the hail of last week on the divide. Hail did really stack up there in spots.

Chesley McDonald said the hail and heavy rains up that way really cut a swath. The water covered the highway and washed out lots of water gaps and even fences.

8-BALL

BUSINESS OPPORTUNITY MAN OR WOMAN

Reliable person from this area to service and collect from automatic dispensers. No experience needed—we establish accounts for you. Car, references and \$985.00 to \$1785.00 cash capital necessary. 4 to 12 hours weekly nets excellent monthly income. Full time more. For local interview write Eagle Industries, 3954 Wooddale Ave. So., Minneapolis, Minn. 55416.

down by the unseasonal cool weather. According to the reports issued early this week, no area of the state is quite far enough along to justify spraying. Here in Sterling County, the banding program used in the John Brock orchard is being watched to try to time the spraying for the most effective kill. Some bands were removed last Thursday and the pupae placed in holding cages; on Wednesday of this week, no moths had emerged from the pupae. Another series of bands were removed on Tuesday and the pupae placed in cages for a further check. The small nuts will also be checked for the casebearer eggs as a further precaution. Last year the first eggs were found on May 19 but there were a number of one hundred degree temperature days prior to that time.

For those who plan to spray it might be wise to have the materials available. A good spray consists of two pounds T. E. Matlock place was wiped out; all that remains are the stems of the plants. Damage to oat crops on the Bill Bynum place and the Copeland Bros. places was also heavy; others in this area also suffered damage. Malathion gives a quick knock-down of the pests; the Sevin has a longer killing effect, as long as seven days.

THANKS

Thanks to my friends who supported me in the recent election. Perhaps I may be able to repay you in some way in the future.

H. F. DONALSON

THANK YOU

I appreciate your vote and influence in the Democratic Primary May 4 and will appreciate your help in the June 1 run-off.

Sincerely,
WILLIAM FOSTER

CARD OF THANKS

Thanks to everyone for their kindness to me and my family while I was in the hospital. To Dr. Swann and the entire staff. God bless each of them.

EDYTH HUDSON

Selective Service

Editor's note: Below are questions now being asked at draft boards. The answers are by Col. Morris S. Schwartz, State Selective Service Director, 702 Colorado St., Austin, Texas 78701. He will welcome your questions.

Q--For the purpose of college student deferments, is a junior college considered an institution of higher learning?

A--Yes, if its credits are acceptable toward granting of a baccalaureate degree by a college, university, or similar institution.

Q--How long can a person be deferred as an undergraduate college student?

A--He can be deferred in Class II-S until he completes the requirements for his baccalaureate degree (if completed within the normal and specified time), until he fails to pursue satisfactorily a full-time course of instruction, or until he reaches age 24, whichever occurs first.

Q--Will men who become fathers after the new Selective Service law became effective (June 30, 1967) be deferred in Class III-A?

A--Every case will have to be considered on an individual basis.

Q--Does the new law make any change on fathers?

A--Yes. Any man classified in Class II-S (college student) after June 30, 1967, can not under the law, be classified in Class III-A as a father.

Should he pray for things in sight?

or for the light that will, in turn, give him all he needs to learn, to have and to be...

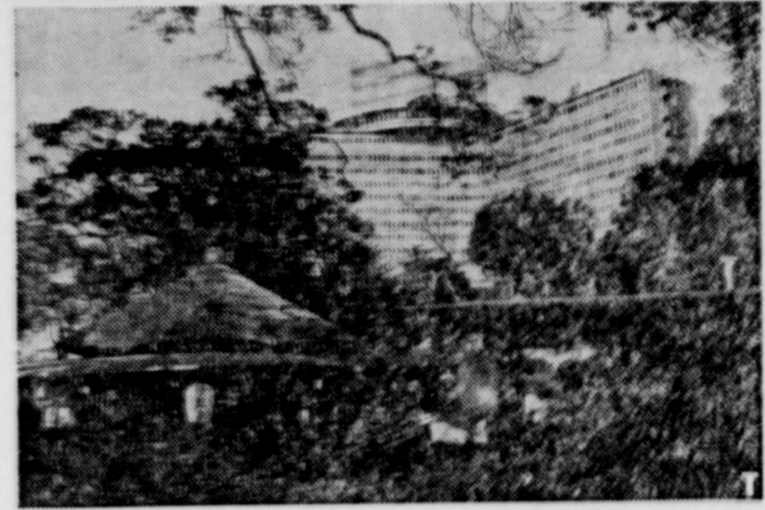

Help your child learn that "the effectual fervent prayer of a righteous man availeth much" (Jas. 5:16).

He is welcome at the Christian Science Sunday School

pupils up to the age of 20

SUNDAYS 9:30 A. M. FIRST CHURCH OF CHRIST SCIENTIST 720 So. Abe San Angelo

AMERICANS IN JAPAN ARE PLEASANTLY SURPRISED

Rising in the midst of a 10-acre Japanese garden is the finest hotel in the Far East, Japan's ultra-modern New Otani.

Many of the 200,000 Americans who visit Japan this year will receive one pleasant surprise after another as the country unfolds before their eyes!

Can you imagine an "Eiffel Tower" taller than the one in Paris? A busy metropolis where most of the streets have no names? Religious pilgrims clapping their hands to catch God's attention before praying? A bronze Buddha over 71 feet tall? A beautiful ten-acre Japanese garden with a modern 17-story hotel soaring up in the midst of it?

These are just a few of the surprising sights awaiting the visitor to Japan.

In the Tokyo Tower, an elevator will transport you 1,092 feet above the earth—108 feet higher than the top of the Eiffel Tower in Paris—for 200 yen (80¢).

It's hard to believe, but you won't lose your way—even though Tokyo, the largest city in the world, has no names for most of its streets! One notable exception is the Ginzadori, or "The Ginza", which is a fast-moving com-

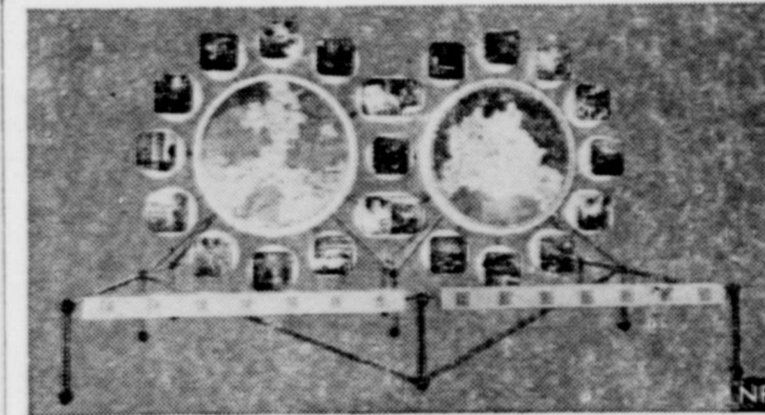

ination of Times Square, Fifth Avenue and Wall Street.

At Meiji Shrine, one of the holiest pilgrimage centers in Japan, you'll be able to touch the large torii—symbolic gates made of Japanese cypress wood—1,700 years old. In this shrine, the worshippers clap their hands to call attention to their prayers. A walk through the Inner Garden, filled with trees and shrubs contributed by people from all over the country, is an exhilarating experience.

A magnificent 71½-foot-tall bronze Buddha, cast in 749 A. D., is housed in Nara's Todaiji Temple, a symbol of reverence and tranquility.

You will be concerned about your "house" when you travel to the east. Travel experts recommend staying in a Western-style hotel when in Tokyo. The lovely Hotel New Otani in Tokyo has attracted world attention by successfully blending oriental charm and mystery with Western convenience and luxury—another surprise for the lucky traveler.

Berlin, Germany at HemisFair, Texas

One way to see West Berlin and the rest of the free part of Germany this summer is to visit the Germany-Berlin-Alemania Pavilion at HemisFair '68 in San Antonio, Texas, Apr. 6-Oct. 6, 1968. Once there, you will be eligible to enter on-the-spot contests that may win you a fine German camera or even a real 7-day expenses-paid trip to Berlin for two.

One of the many eye-catching exhibits in the German Pavilion is the "Informator" shown above. The two large maps of the Federal Republic of Germany and of the access routes to Berlin are encircled by viewers that show historic as well as current aspects of life and activities. The electronically controlled 4-minute program includes a commentary in English and Spanish, heard through loudspeakers in the base.

In line with HemisFair's theme of "The Confluence of Civilizations in the Americas," the two-story pavilion also contains examples of the cultural and technological contribution by Germans to the present knowledge and skills on this continent.

Other ties that link Germany and the Americas include the first use of the name "America" on a map by the German cartographer Martin Waldseemuller in 1507; the arrival in Philadelphia in 1683 of the Concord, the German Mayflower, with 13 families from the Rhineland; and General von Steuben (1730-1794), an organizer of the Continental Army in the American Revolution.

Also portrayed are John Meusebach, who negotiated the peace treaty with the Comanches in 1847, and Carl Schurz, the Senator from Missouri who later became U.S. Secretary of the Interior (1877-1881); and so on, to Dr. Werner von Braun, "father" of the Saturn V., and Prof. Hubertus Strughold, scientific head of the School of Aerospace Medicine in San Antonio since its founding in 1949.
