AROUND
THE
COUNTY
by

ARTHUR BARLEMANN, JR. COUNTY AGENT

Moths of the pecan nut case bearer have begun emerging in traps at the John Brock pecan grove. This means that the time to spray for the control of these pests is near at hand.

The first moths emerged on Wednesday in the first cage or trap of insects. Pupae of the casebearer were placed in the trap after being caught in the corrugated pasteboard bands placed on the trees late in April. Cool weather slowed down the growth and development stages of the insects but the moths have finally begun emerging. On Wednesday five percent of the pupae in one of the traps had emerged indicating that the time for spraying is eight to ten days off. At the present time, we are going to recommend beginning spraying on the 29th. This will allow for windy days which we may have.

The moths lay eggs two days after emerging from their pupae stage. It then takes five to seven days for these eggs to hatch, again depending on the weather. Sprays should be applied while the young worms are feeding on the outside of the tiny nuts, hence the recommendations for timing a spray program eight to ten days after moth emergence.

The best spray for this area consists of a combination of two pounds of Sevin, one and one-fourth pints of Malathion emulsion, and two lbs. of 36% wettable zinc sulfate per one hundred gallons of water.

The Malathion will give a quick knockdown of the pests while the Sevin will produce a residual effect killing over a longer period of time, generally up to about seven to ten days. Recommendations call for maintaining the watch on moth emergence in the traps for two weeks following the first emergence. In this way, a second crop of the pests can be controlled if necessary. With the large number of worms found in the tender terminal growth of the trees earlier, it is felt that the casebearer crop this year will be heavy. This is true in all areas of the state as well as locally. Thus, it may be necessary to spray in ten days to get an effective kill of the pests.

A number of Sterling County 4-H club members will compete in the State 4-H Club Range Judging Contest this Saturday in San Angelo. This is the only state contest held away from Texas A&M but it was the feeling that the range judging contest should be held in the range country.

Club members who will probably take part Saturday are three senior team members, Charlotte Foser, Frank Price, and Bobby Bynum. Juniors who are training for the contest include Steven Foster, Skeete Foster, Kenny Blaneck, Tommy Bynum, Jim Terry, and Allen Price.

High School Mothers Club To Meet Saturday at 2

The High School Mothers Club will meet Saturday at 2 p.m. at the school to elect the officers for next year. In announcing the election meeting, Mrs. Ray Nixon, present president, urged all mothers of high school students to be at the Saturday meeting.

Cancer Unit Names Officers for Year

The officers and board members of the Sterling County Chapter of the American Cancer Society were re-elected here Monday night in action by the group. Riley King was reelected president; Mrs. Henry Bauer, vice-president, Mrs. Ross Foster, secretary and Mrs. D. D. Nichols, treasurer make up the list of officers.

OVER \$1,114.0 RAISED IN CRUSADE

Mrs. Danny Stewart, reporting for Crusade Chairman Mrs. Worth Allen, said a total of \$1,114.60 had been raised in Sterling County for the 1968 Cancer Crusade, and the total includes the amount taken in at the style show, the amount given to volunteer workers, memorials made to the society and money given at the school by children.

Last year a total of \$1,249 had been raised here in Sterling County.

The chapter named as delegates to the district convention in San Angelo on June 20—Mr. and Mrs. Riley King, Mrs. Larry Glass, Mrs. Tom Asbill, Mrs. Charles Probandt, and Mrs. Chesley McDonald. Mrs. Riley King was named delegate to the state convention in Dallas in October.

Mr. King gave the president's annual report and the various chairman of committees gave annual reports. Field representative Charles Taylor of San Angelo talked briefly and showed a film on smoking.

Phil Robberson gave the invocation as the meeting opened. Others present besides those mentioned were Mrs. W. R. Brooks, Jack Douthit, Mrs. Arthur Barlemann, Dr. Wm. J. Swann, and Mrs. Lee Reed.

Mrs. Worth Allen, who is Crusade Chairman for this year's drive, expressed her thanks and appreciation to all the volunteer workers who helped. She said if anyone had not been contacted during the drive, they could make donations to her or to Mrs. D. D. Nichols, treasurer, at the bank.

Mrs. Allen is hopeful of getting enough more money in to reach the goal. The goal was the amount raised last year, close to \$1250. Too, any memorials made up to August, will count on the drive, she said.

Memorials May Be Made All Year Long

Memorials may be made to the Cancer Society at any time of the year. Memorial chairman is postmaster W. R. Brooks, and he has or keeps a supply of memorial cards to be used when one wants to make a donation in memory of some one.

Dogs and Cats Must Be Vaccinated

All dogs and cats in Sterling City must be vaccinated soon or the City of Sterling City will have them picked up--if they are found without tags.

The next vaccination for the area will be held here about June 1, so arrange to have your pets vaccinated against rabies.

MORE MONEY NEEDED FOR LITTLE LEAGUE

Jack Peel, manager of the Little League program here, said this week that more donations were needed to carry on the program this summer.

New suits for one team have been purchased and many bats and balls were bought. All the beginning bills of the concession stand and field are building up, and the local organization have pledged some money toward all-star suits for the league.

About one hundred dollars more should be ample, said Peel.

Mr. and Mrs. Lewis Blackman and son of Albuquerque, N.M. are here visiting with his parents, the Vernon Blackmans.

Civil Service

Federal agencies, principally in the metropolitan area of Washington, D. C., need Electronics Technicians. The work involves maintenance, testing, and development of various electronic equipment, ranging from radio, radar, and sonar devices to computer systems.

Both general and specialized experience are basic requirements for Electronics Technician positions, except where education may be substituted for such experience. Entry level for eligibles depends on quality and quantity of both. No written test is required.

Starting annual salaries range from \$5,331 to \$10,927. Ask for Announcement No. WA-7-19.

Additional information on these and other Federal jobs may be obtained from the Civil Service Commission in Washington, D. C., 1900 E Street, NW, 20415, or from any one of 65 Interagency Boards of Civil Service Examiners.

Post Office To Be Remodelled

Postmaster W. R. Brooks this week said that the post office building here was to be remodelled and a temporary post office would be used for the next six to eight weeks.

Concerning the remodelling Brooks said: "Some inconvenience to postal patrons will be experienced during the next few weeks. Plans now are to set up temporarily in the old Brock Grocery building over the weekend in order that the present building occupied by the post office can be renovated. It is hoped that this temporary inconvenience will be understood by all our patrons and we will do our very best to serve all your postal needs quickly and efficiently with no interruptions in postal service".

REWARD NOTICE

A reward of \$500.00 will be paid by the Texas Sheep and Goat Raisers Association to any person (other than law enforcement officers) giving information causing the arrest and final conviction of any person or persons found butchering or stealing any sheep or lambs or goats belonging to any Association member in good standing. When two or more persons give information, the above sum will be divided at the discretion of the Board of the Association. When two or more defendants are involved in a single crime, the total reward is limited to \$500.00, but the conviction of one defendant, even though the other defendants are acquitted, will entitle the claimant or claimants to said sum of \$500.00. All claims must be submitted within ninety (90) days following conviction. If, upon conviction, a defendant confesses other thefts, no additional reward will be paid. All deviations concerning the payment of such reward and the conditions of payment will be made by the Board of Directors of the Association.

Crude Oil Figures For Texas

Texas crude oil production, recorded for the past 73 years, surpassed the 30-billion-barrel mark in 1967, according to projections based on a study by Texas Mid-Continent Oil & Gas Association.

The state's crude total to January 1, 1967, was 29.46 billion barrels, and the state annual production in recent years has averaged a billion barrels or better.

With 199 of Texas' 254 counties producing crude oil, income averaging about \$3.4 billion a year is distributed widely over the state, making oil production an important part of the commercial scene.

Sterling County, which has had recorded production since 1947, has had a total crude oil output of 14,129,833 barrels up to the beginning of 1967. Sterling County production in 1966 was 2,736,233 barrels at the rate of 7,497 barrels a day.

The state has 36 counties which produced at the rate of 25,000 barrels or more per day. The three largest are: Andrews, 215,000 barrels per day; Ector, 175,304 barrels per day; and Crane, 130,000 barrels per day. Gregg County, which still produces 75,000 barrels per day, is the only county to have produced more than two billion barrels of oil.

Wanted by F.B.I.

JAMES EARL RAY, also known as Eric Starvo Galt, Harvey Lowmyer, John Willard, James McBride, James Walton, W. C. Herron and James O'Conner.

James Earl Ray, a Missouri prison escapee, sought under the alias Eric Starvo Galt in connection with the gunshot slaying of civil rights leader Dr. Martin Luther King, Jr., is one of the FBI's "Ten Most Wanted Fugitives." FBI Director J. Edgar Hoover ordered the special addition of Ray to the "Top Ten" list to insure widespread dissemination of Ray's photograph and description to speed his location.

Ray has been intensively sought since the murder of Dr. King on April 4, 1968, as he stood on the balcony of a Memphis, Tennessee, motel. An exhaustive FBI fingerprint search, comparing latent fingerprints uncovered in the Dr. King case against fingerprints of over 53,000 persons on whom wanted notices were posted, determined that Galt and Ray are identical.

A Federal warrant, issued at Birmingham, Alabama, on April 17, 1968, charges Ray, under the alias of Galt, with conspiring to interfere with a Constitutional Right of a citizen. Ray, who escaped on April 23, 1967, from the Missouri State Penitentiary, is also sought for unlawful flight to avoid confinement for robbery. His long criminal record also includes convictions for burglary and forging U.S. Postal Money Orders.

A white American, born in Alton, Illinois, on March 10, 1928, Ray is 5'10" tall, weighs 163 to 174 pounds, has blue eyes and short brown hair. He has a nervous habit of tugging at an ear lobe and his left ear protrudes noticeably. Known as a "loner" and "drifter," Ray has worked as a baker, laborer and color matcher. He has taken dancing lessons and completed a course at a school of bartending.

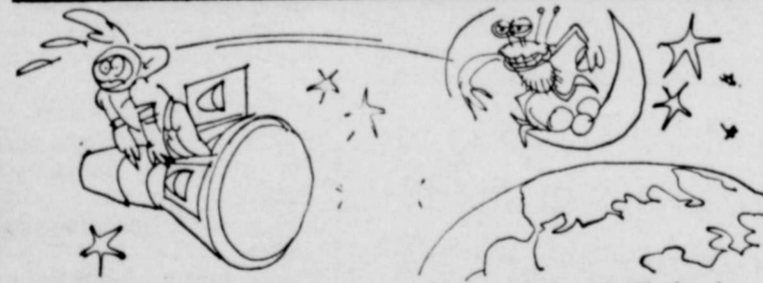

Consider Ray armed and extremely dangerous. Report any information concerning him to the nearest FBI office.

A HANDFUL of aspirin-size catalysts weighing under an ounce would have a total surface area equal to that of an entire football field. Pores so small that a million of them would barely cover the period at the end of a sentence give catalysts the fantastic surface area that helps speed up chemical reactions, says Girdler Catalysts, Louisville.

PRESBYTERIAN CHURCH

Charles J. King, a senior student at Austin Presbyterian Theological Seminary in Austin, will be guest pastor for the First Presbyterian Church on Sunday, May 26.

A veteran of 12 years, King served with the U.S. Air Force in the South Pacific and the Far East.

He was graduated from Trinity University with a bachelor of science degree in sociology. He also attended San Antonio Junior College and Vallejo Junior College in California.

Married to the former Miss Fay Higgins, King and his wife have four children. His family belongs to the Crestholme Presbyterian Church of San Antonio. Serving at a deacon in his hometown church King has also been community program coordinator of the inner city church in San Antonio.

He studied at the seminary under care of John Knox Presbytery.

Democratic Run-off June 1st

A runoff election for the governor's race between Don Yarborough and Preston Smith will be held here in Sterling County (as well as over the entire state) on June 1. The two were top contenders in the first primary election on May 1.

A runoff race on the divide and the Humble box for precinct 3 county commissioners will be held at those two boxes. Bill R. Bynum faces William Foster in a runoff. In the first primary Bynum got 17 votes and Jim Bob Clark and Foster got 11 each. The election law code calls for a "casting of lots" to decide the winner of a tie like that, and Foster won the coin flip. The voters will vote again at the D.D. Garrett ranch house for the divide vote and at the T. H. Humble ranch house in the

WHAT I'D LIKE TO SEE THIS TOWN DO—is to honor Dr. Wm. J. Swann—with a big testimonial dinner type of thing and then perhaps a bronze or metal plaque that could be put on the hospital somewhere. They do this kind of thing for doctors all over—and I strongly feel that we could and should here.

After all, he has been here since the early '30's and has had a big hand in the community in many ways since.

He has served as Lions Club president, chairman of the board of stewards of the Methodist Church, and in so many civic committees and affairs that I cannot begin to enumerate them.

Of course, primarily, I am thinking of his medical career here. He has provided the community with medical service, attention, advice, etc. that many larger communities or cities envy us.

He is one of the finest general practitioners, obstetricians, pediatricians, and actually, specialist in many lines, that I have ever known and in fact, can hold his own with the best.

He could have earned a lot more money in a larger place; he could have had more leisure somewhere else; he could have practiced more surgery in a larger place (and he is a good surgeon); he might have enjoyed life more in another place (but that is debatable); (I, too, like it here); he is highly regarded and respected by his fellow doctors and also the nurses in the hospitals where he works; and he just needs to be recognized and appreciated here by the citizens and friends of Sterling.

Why can't someone get behind a big dinner and get up enough for the plaque deal? It would do credit to our town to do so.

Perhaps we could have a fellow doctor from San Angelo to make a talk at a dinner—a sort of a testimonial affair. I'm ready to back such a deal.

Are you? There'll never be another Doc Swann.

They just dont make 'em anymore.

He has more respect and admiration than he'll ever know—from his friends here.

other box. Voters there will of course, also vote on the governor's race.

All other boxes will be combined in one box at the local courthouse. Such is permissible when there are no district or precinct races to be decided.

According to Jack Douthit, Democratic Executive Committee chairman, if a tie vote happens between Bynum and Foster this next time, another flip or "casting of lots" will decide the winner.

The election code calls for the casting of lots for the place on the ballot in case of a tie in the second primary or runoff. If two persons had tied for first place in the first primary, their names would have gone on the ticket for the runoff. A tie for second place in the first primary calls for the casting of lots. A flip of a coin was used here, but in some counties, tied candidates cut for the highest card or roll for a high dice.

No writen votes are allowed to be counted in primary election, according to the election code now. Writens are still counted in the general election which will be held in November—on the second Tuesday.

For Social Security

About one of every five applicants for social security disability benefits delays so long before making his application that he risks possible loss of some payments, Ted F. Moellering, district manager of social security in San Angelo, said today.

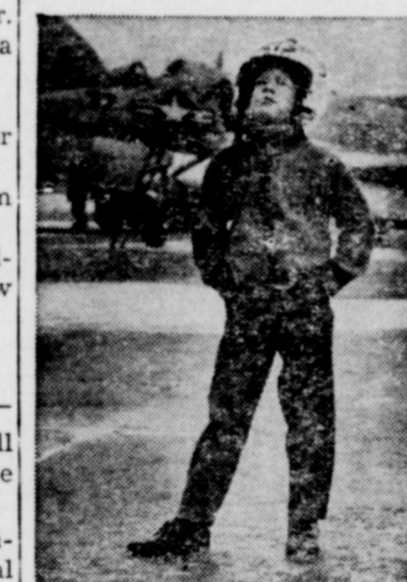

In an effort to remedy this situation, the Social Security Administration is asking anyone who might possibly qualify for disability benefits to get in touch with a social security office as soon as possible.

"Some people fail to apply because they don't realize that they can benefit from the program," Moellering said. "Younger people often think that social security payments only for people in their sixties, whereas the disability was specifically set up to protect the wage earner who is forced to stop working before he is old enough to collect retirement benefits."

A person under 65 can receive monthly payments if he has a physical or mental impairment that has kept, or will keep, him from working for a year or more. Individual benefits range from \$44 to \$152 a month. If the worker has dependents, total family benefits can amount to as much as \$339 monthly.

"Others don't file because they are under the impression that they have to be permanently disabled. This was generally true before a 1965 change in the law, but now payments can go to a person whose disability has lasted, or is expected to last, for 12 months or longer," Moellering pointed out.

Benefits begin after a person has been disabled for 6 full months. No benefits can be paid for months during this "waiting period." Also, the law limits the back benefits a person can collect to the 12 months before the month in which he applies.
