Vol. 78 "Since 1890" PUBLISHED EVERY FRIDAY AT STERLING CITY, TEXAS FEBRUARY 7, 1969 No. 6

AROUND THE COUNTY

ARTHUR BARLEMAN, JR. COUNTY AGENT

Sterling County exhibitors in the Fort Worth Stock show last week did very well. Market lambs showed on Friday of last week and the junior breeding sheep on Sunday. Judge was Bennie Doane of Illinois.

In the finewool lambs class, Janis Igo showed the fourth place lamb while Lee Wayne Igo exhibited the sixth place lamb. Amy Hodges had the twenty-second place lamb in the class.

Lee Wayne had the twelfth place crossbred lamb while Amy Hodges showed the 28th place lamb in the class. In the Hampshire lamb class, Janis had the 27th place lamb. All six lambs sold in the sale on Saturday at varying prices. The show has a policy of adding so much to each placing group of lambs thus increasing the sale price for the exhibitors.

In the Junior Rambouillet show Sunday morning, Amy had the champion ram of the show while Janis and Lee Wayne had the reserve champion. Janis and Lee Wayne had the first and fourth place ram lambs with Amy showing and third and seventh place lambs. In the two-tooth ram class, Amy had the first and third place rams with Janis and Lee Wayne showing the seventh place ram. Champion ram was Amy's first place two-tooth ram with the ram lamb shown by Janis and Lee Wayne as reserve.

Janis and Lee Wayne had the champion ewe of the show. Their ewe lambs placed first and third while Amy took second and fourth places in the class. Amy's two-tooth ewes were second and third with Janis and Lee Wayne having the seventh and ninth place ewes. Their ewe lamb was champion ewe.

Sterling County took the two top places in the exhibitors flock competition with Amy placing first and Janis and Lee Wayne second. This flock consists of five head of sheep as follows: One ram of any of the eligible ages, two two-tooth ewes, and two ewe lambs.

In the Junior Hampshire Show competition, Amy had the second and sixth place ram lambs. Her second place ram lamb was reserve champion ram of the show.

In the ewe lamb class, her entries placed eighth and ninth.

During the last few months, and years, you have read about the new yield grade standards for lamb carcasses and slaughter lambs. On March 1, these standards will be adopted on a voluntary basis by packers. The existing quality grades were not changed in the adoption of the yield grades; thus, the present system of grading will continue to be available in the same form as in the past.

The yield grade standards are based on many years of research beginning in 1951 when the USDA started the studies. Continuing through the 1950's, a report was issued on the results of the studies in 1961. Further research has been done since then by Texas A&M University and other land grant institutions with favorable results.

The yield grades provide a nationally uniform method of identifying cutability differ-

## FFA Boys Show at Fort Worth Show

Sterling City FFA members exhibited 15 lambs at Fort Worth last week. Exhibitors included Bill Blaneck, Kenny Blaneck, Brandt Badger and Bobby Bynum. Bobby Bynum also exhibited two duroc barrows.

Placings there included: Bobby Bynum 21st place finewool crossbred lamb and 2nd place Hampshire lamb; Brandt Badger 41st place crossbred lamb; Kenny Blaneck 17th place finewool crossbred lamb.

Ten of the fifteen Sterling County lambs placed in the premium sale. The sale lambs brought \$30 per hundred wt. on a bid from Swift and Co. and the show added declining premiums to the sale. The cheapest lamb in the premium sale sold for 38c per lb. The fourth place Sterling County finewool lamb sold for 43c per lb.

Eight Sterling FFA members will exhibit 16 lambs in the San Antonio market lamb show February 8. The exhibitors are Pat Foster, Frank Price, Bobby Barton, David Estrada, Abel Estrada, Ishmael Vargas, Brandt Badger and Payton Wilson.

Vickie Barrera, daughter of Mr. and Mrs. Sinforoso Barrera of Sterling, now teaches Spanish in the Dallas schools. She got her BA degree from North Texas State University, Denton, in January.

ences among lamb carcasses. The five yield grades are numbered one through five, identifying carcasses for differences in expected yield of retail cuts. Yield grade one has the highest yield of retail cuts, yield grade five the lowest. The grades apply to all carcasses—lamb, yearling, and mutton—regardless of the USDA quality grade of prime, choice, good, or so forth.

Variations in retail cuts among the carcasses are determined primarily by differences in fatness on the outside of the carcass and around the kidneys and pelvic areas. Increases in the amount of fat decreases the yield of cuts and grade. Another factor is the muscling with emphasis on the leg conformation. The more muscling and the better the conformation, the higher the grade in lambs with the same degree of fat covering.

Yield grades for slaughter lambs and sheep are being adopted at the same time with these corresponding directly to the yield grade of the carcasses. The yield grade of a live animal reflects the expected yield of retail cuts ultimately produced from the carcass.

The adoption of these new standards and the use of the yield grading system will put emphasis on the highly muscular, correctly finished lamb carcasses. Overfat, small dumplings will not grade as high under this system as the bigger, muscular, correctly finished lambs where the system is used. The big finewool and finewool cross lambs of this area stand to gain from the new system. But, remember that at the present time the system is voluntary; buyers and packers are not required to use the system.

**Home Health Benefits from Medicare**

The least understood service under Medicare is home health benefits, according to Ted F. Moellering, social security district manager in San Angelo, Texas. Mr. Moellering explained that these benefits are available to home-confined Medicare beneficiaries in most localities, when ordered by a doctor and when furnished by a participating home health agency. These agencies send skilled people to the home to provide health care, such as part-time nursing; physical, speech and occupational therapy; use of medical appliances; and part-time services of home health aides.

Home health benefits are furnished under both parts of Medicare: Part A, hospital insurance, and Part B, supplemental medical insurance. Part A takes care of all of the costs of up to 100 visits for up to a year after the most recent discharge from a hospital or participating extended care facility, under these conditions:

1. The beneficiary was in a participating, or otherwise qualified, hospital for at least 3 consecutive days;
  2. He is confined to his home;
  3. A doctor determines the need for home health care and sets up a plan for it within 14 days after discharge from the hospital or participating extended care facility; and
  4. The home care is for treatment of the same condition for which he was hospitalized.
- There is no requirement of prior hospitalization for these services under Part B. Up to 100 home health visits each year are covered, if:
1. The patient is confined to his home;
  2. A doctor determines the need for home health care; and
  3. The doctor sets up a home health care plan and reviews it periodically. Part B pays all but the first \$50 and 20 percent of the remainder of the costs of covered medical services in a calendar year.

### District Cancer Meet Attended

"The American Cancer Society is beginning to win... the 1,500,000 Americans alive today, who once had cancer and are cured... these are the measure of how far we have come in the battle against cancer," Dr. Robert Carsner told the delegates at the District Crusade meeting held in San Angelo on January 30. Dr. Carsner of San Angelo is medical chairman of the Tom Green County unit.

Dr. Cecil French, a district director, told the delegates, "The ACS research investment in Texas is over \$1,154,000. This means that the Society is actually spending 13% more money on its programs of research, education and service than we raised in Texas last year." The extra money spent in Texas is due to the large sums allocated by the AC National program of research to Texas institutions.

Mrs. Ross Foster, district director of Sterling City, presided at the morning session. A copy of the Texas Division Annual Report, distributed during this session, summarized the accomplishments of the Society during its 1968 program year:

...Services provided to 7,546 cancer patients in the form of volunteer transportation, dressings, sick room equipment and gift items.

...Public education programs reached more than 1,250,000 people with film showing and physician speakers. Educational exhibits reached an additional 3,970,000. Educational messages and programs carried by the media: 7,319,000 exposures.

...The support of 19 tumor clinics with a total of 94,427 cases reported as of September 1, 1968.

...Clinical fellowships were awarded to 15 physicians and dentists to promote interest and research in the cancer field.

...Professional programs reached an audience of 34,124 in the medical and allied health professions.

Several people from Sterling City participated in group sessions designed to explain how to reach more people during the Society's annual April educational and fund raising Crusade. Mrs. Danny Stewart led the session for Crusade and publicity chairman. The house to house session was chaired by Mrs. N.F. Hams of Mills County and Mrs. W. T. Groves of Coleman led the session for special gifts and business workers.

The meeting concluded after a noon luncheon, during which every county in the district pledged a goal for the April Crusade. Mrs. Danny Stewart, crusade chairman, pledged a goal of \$1,275.00 for Sterling County.

Delegates attending the meeting from Sterling included Mrs. Ross Foster, Mrs. Larry Glass, Mrs. S. K. Horwood and Mrs. Danny Stewart.

### Social Security News HOSPITAL INSURANCE BENEFITS

The hospital insurance benefits of Medicare provide for services of three types, according to Ted F. Moellering, manager of the San Angelo social security district office. Benefits are possible when you are (1) a bed patient in a hospital, (2) a bed patient in an extended care facility (skilled nursing home) assigned there by your physician as a follow-up to hospital care, and (3) a patient at home receiving home health services, Mr. Moellering continued. There has been some thought that because you are covered under Medicare up to a certain maximum number of days, you can automatically count on that number of days regardless of your condition. Mr. Moellering went on to say that this is a misunderstanding and that when your condition improves to the extent you no longer require the level of care provided, then your eligibility ceases.

An example of this misunderstanding is the 100 day eligibility in an Extended Care Facility. We are sometimes asked why a certain person was told Medicare would no longer pay for his stay in an Extended Care Facility when he had only been there 50 days and still had 50 days coming. The condition of the patient rather than the number of days is the controlling factor up to the point that the maximum number of days is reached. Coverage ends when his condition is such that he no longer needs the level of care provided by the Extended Care Facility.

Any question about this or any area of Medicare or Social Security should be resolved by a visit or contact with the Social Security Office located at 3000 West Harris Avenue in San Angelo, Texas, or see the representative when he is in your area.

### Social Security Tips

"Social security relies to a great extent on each beneficiary's ability to report events which will affect his monthly payments," said Ted F. Moellering, Social Security District Manager. Among those events that the beneficiary should report are changes of address, stopping or starting work, changes in estimated earnings during the year, and a beneficiary's death, marriage, divorce, or annulment.

Each beneficiary receives a special card to fill out and send to his local social security office when a report must be made. Reports are relayed to the paying office by electronic means to avoid delays in updating records.

Those needing to report a change should request form SSA-1425 from the Social Security Office at 3000 West Harris in San Angelo, Texas, or see the representative when he is in your area. Any of our representatives will be glad to give you the necessary forms.
