AROUND THE COUNTY

ARTHUR BARLEMANN, JR. COUNTY AGENT

Congratulations to all the Sterling High School girls who entered the district contest Saturday in San Angelo and placed so well with their woolen garments in the Make It with Wool Contest. Marilyn Foster placed first in her division and will represent the district in the area or regional contest in San Antonio next week. Alternate or runner-up was Janis Igo while Charlotte Foster placed third. According to Mrs. H. E. Barton, four of the six local girls entering placed.

This is a very worthwhile activity for the girls of this area. Where raw wool is so important to the economic future of the area, it is important that the homemakers also know how to utilize the finished product. These girls know where the raw product comes from and they are learning what to do with the finished product.

This week is National Farm-City Week, a week designated to place emphasis on the interdependence of the farm and the city. City dwellers are dependent on the agricultural producer for their food and fiber while the rural residents depend on the city dwellers to produce the many materials needed to produce the food and fiber. These products include the machinery and tools used in the operation of the modern ranch or farm.

During 1968, the average American farmer (any agricultural producer) produced enough food and fiber for 43 persons. In 1949, just twenty years ago, the average farmer produced enough for 15 people.

On the other side of the ledger, 1.4 million jobs manufacturing the supplies and equipment used by farm operators were created in the towns and cities. Another 10.7 million jobs hauling, storing, processing, handling, and selling the products of agriculture were created in the cities.

In 1964, crude oil production amounted to about \$3 billion. During the same year, Texas agricultural producers received \$2.3 billion for their farm products.

When it's all added up, the man—or woman—producing the food and fiber to feed and clothe the nation is pretty important to this nation. Without them, this would not be the best-fed and best-clothed nation in the world. Nor could the people down on the farm exist without the people in the cities who build the machines, pickups, and equipment used on the modern ranch or farm. One is dependent on the other and this week is set aside by the president to recognize this dependence and the contributions of both groups.

## Thanksgiving Is Holiday Here

Sterling City observed the Thanksgiving holiday Thursday. The merchants closed up and offices at the courthouse were closed. The bank and the post office observed the holiday and school was turned out Wednesday afternoon at 2:30 and will resume Monday.

The paper was out a little later due to the holiday—we took off, too, and got out the paper on Friday.

In the district Make It Your Self with Wool contest last Saturday, Marilyn Foster won first place in the junior division. The district contest winners will compete in the state meet in San Antonio early in December. Janis Igo of Sterling City was named first alternate in the junior division. Marilyn is the daughter of Mr. and Mrs. Tommy Foster of Sterling City. Janis is the daughter of Mr. and Mrs. Fred Igo.

## Sterling County Upland Cotton Marketing Quota Referendum to be Conducted by Mail Soon

Basic program choices will be made by cotton producers voting in the December 1-5 mail referendum on upland cotton marketing quotas, announced recently by the Sterling County ASCS office.

A "yes" vote by two-thirds or more of the producers voting in the national referendum means:

Marketing quotas will be in effect for the 1970 crop. Producers who plant within their farm allotment will be eligible for a price-support loan of 20.25 cents a pound (for Middling 1-inch cotton at average location) on cotton they produce. They also will be eligible for a price-support payment of 16.80 cents a pound for the projected yield of cotton planted within the domestic allotment which is 65 percent of the total farm allotment.

Farms with allotments of 10 acres or less or farms with projected production (allotment times projected yield) of 3600 pounds or less may receive a payment of 11.95 cents a pound on the projected yield of 35 percent of the farm allotment. They will also receive the price-support payment on the domestic allotment and will be eligible for price-support loans.

Growers who choose not to participate in the price-support program may apply for a share of the export market acreage reserve and produce for export only, without Government assistance or marketing quota penalties. Applications for export acreage must be made on or before December 31, 1969 at the County ASCS office.

A "no" vote by more than one-third of the producers voting in the national referendum on upland cotton for 1970 means:

No marketing quotas and no penalties will apply to the 1970 upland cotton crop. No price-support payments will be made. Price-support loans at 50 percent of parity will be available to producers who do not exceed their farm acreage allotments. Acreage allotments will remain in effect as a means of determining eligibility for the price-support loan. There will be no export acreage reserve.

All cotton producers will receive their 1970 cotton acreage allotments prior to the referendum period.

Interested applicants can get the announcements from Federal Job Information Centers in many large cities, from many post offices, except in cities where Federal Job Information Centers are located or from the Interagency Board of U.S. Civil Service Examiners, 1900 E St. N.W., Washington, D.C. 20415.

The announcements are:

1. Professional Opportunities for Social Scientists. GS grades 9 through 12. Many of the opportunities are in various Federal agencies in Washington, D. C. and vicinity and in foreign countries. Some are in other parts of the United States. Annual starting salaries currently range from \$8,462 to \$12,174. They are expected to increase by about 9 percent in the middle of this year. There are no written test requirements. Applicants will be rated on the basis of professional experience, education, and training. Work descriptions and the necessary qualifications, along with special credit provisions for graduate study, superior undergraduate academic achievement, subsequent work experience including part-time or unpaid experience, and certain teaching experience, are detailed in Announcement No. WAS-827, Professional Opportunities for Social Scientists.

2. Professional Opportunities for Social Worker and Social Service Representative. Social Worker positions, GS grades 9 through 12, are in the Bureau of Indian Affairs, the U. S. Public Health Service, and the Veterans Administration, throughout the United States and Puerto Rico; and in agencies of the District of Columbia Government and other Federal agencies located in Washington, D. C. and vicinity. Social Service Representative positions, GS grades 8 through 12 are primarily in the D.C. Government and other agencies in the Washington metropolitan area. Annual starting salaries currently range from \$7,699 at GS-8 to \$12,174 at GS-12; they are expected to increase by about 9 percent in the middle of 1969. No written tests are involved. Applicants will be rated on the basis of education, experience, training and personal aptitude for the nature of the work. Most of the professional Social Worker positions call for successful completion of all requirements for a masters degree. Full details of training and experience qualifications for the various grade levels are in Announcement No. W AS-904, Professional Opportunities for Social Worker and Social Service Representative.

3. Professional Careers for Educators and Librarians. This announcement will be used to fill positions of Education Specialist and Education Services Officer, GS grades 9 through 12; Program Specialist and Advisor (Education) GS grades 9 through 12; Public Health Educator GS grades 9 through 12; Librarian, GS grades 7 through 12; Job Corps Teacher, GS grades 5 through 11 and Job Corps Guidance Counselor, GS grades 7 through 11. Annual starting salaries for these po-

sitions range from \$5,732 at GS-5 to \$12,174 at GS-12. They are expected to increase by about 8 or 9 percent in the middle of this year. Examples: Program Specialist and Advisor (Education) U.S. Office of Education Job Corps Teacher and Guidance Counselor, National Park Service and National Forest Service; Public Health Educator, Helath Services and Mental Health Administration. Qualifying education and experience for all of these positions vary considerably. For details, consult Announcement WAS-908, Professional Careers for Educators and Librarians.

All qualified applicants will receive consideration for Federal employment without regard to race, religion, color, national origin, sex, politics, or any other non-merit factor.

When asking for announcements and application forms, applicants are advised to ask at the same time for Civil Service Commission Pamphlet No. 4, "Working for the U.S. A." which provides important general information about the kinds of appointments, the physical abilities required, veteran preference, and other conditions of Federal employment.

Federal agencies, principally in the metropolitan area of Washington, D. C., need Electronics Technicians. The work involves maintenance, testing, and development of various electronic equipment, ranging from radio, radar, and sonar devices to computer systems.

Both general and specialized experience are basic requirements for Electronics Technician positions, except where education may be substituted for such experience. Entry level for eligibles depends on quality and quantity of both. No written test is required.

### Social Security Tips

People who sign up for social security only to gain Medicare coverage are often amazed to learn that they will also be drawing some checks for the year, according to Ted F. Moellering, District Manager of the San Angelo Social Security Office.

For instance, a person entitled to a monthly benefit of \$122.90 who expects to earn \$3000 in 1968 would draw a check of \$17.40 for June, 1968, and full checks for the rest of the year.

"This is possible because of the liberalized retirement test under the present social security law," Mr. Moellering said.

"A social security beneficiary can earn \$1680 per year and draw his checks every month. If his earnings are \$2880 or less, an amount equal to one-half the earnings between \$1680 and \$2880 is subtracted from total benefits payable for the year. If earnings are over \$2880, an additional one dollar for every dollar over \$2880 is subtracted from benefits payable.

"There has been no change in the provision that a person can draw a check for each month that he is age 72, regardless of his total earnings for the year."

For further information, contact the Social Security Administration at 3000 West Harris Avenue in San Angelo, Tex. or see the representative when he is in your area.

The "length of marriage" requirement in social security's definition of "widow," "widower," and stepchild of a deceased worker has been changed, reports Ted F. Moellering, District Manager of the San Angelo Social Security Office. A widow, widower, or stepchild may now qualify for social security benefits based on a marriage that has been in existence for only 9 months just before the death of the worker.

Mr. Moellering added that in some cases a marriage that has lasted for as little as 3 months may qualify the survivor. These are cases involving accidental death or death in the line of duty in the uniformed services.

Benefits under this change in the law were first payable in February, 1968. Any person who has been previously disqualified because a marriage had not been in effect long enough should contact the Social Security Office at 3000 West Harris Avenue in San Angelo, Texas, or see the representative when he is in your area.

The least understood service under Medicare is home health benefits, according to Ted F. Moellering, social security district manager in San Angelo, Texas. Mr. Moellering explained that these benefits are available to home-confined Medicare beneficiaries in most localities, when ordered by a doctor and when furnished by a participating home health agency. These agencies send skilled people to the home to provide health care, such as part-time nursing; physical, speech and occupational therapy; use of medical appliances; and part-time services of home health aides.

Home health benefits are furnished under both parts of Medicare: Part A, hospital insurance, and Part B, supplemental medical insurance. Part A takes care of all of the costs of up to 100 visits for up to a year after the most recent discharge from a hospital or participating extended care facility, under these conditions:

1. The beneficiary was in a participating, or otherwise qualified, hospital for at least 3 consecutive days;
2. He is confined to his home;
3. A doctor determines the

need for home health care and sets up a plan for it within 14 days after discharge from the hospital or participating extended care facility; and

4. The home care is for treatment of the same condition for which he was hospitalized. There is no requirement of prior hospitalization for these services under Part B. Up to 100 home health visits each year are covered, if:

1. The patient is confined to his home;
2. A doctor determines the need for home health care; and
3. The doctor sets up a home health care plan and reviews it periodically. Part B pays all but the first \$50 and 20 percent of the remainder of the costs of covered medical services in a calendar year.

Questions that pop up frequently at the San Angelo Social Security Office are: "Do social security benefits for children stop at age 18?" "Do student benefits continue during the summer vacation?"

Ted F. Moellering, District Manager said until 1965 a child's benefits were stopped at 18 unless the child was severely disabled.

Since 1965 benefits have been available to a child of a retired, disabled, or deceased worker who is a full-time, unmarried student between the ages of 18 and 22. Mr. Moellering added that this not only applies to high school and college students, but also to those attending approved vocational or trade schools. Examples are barber schools and schools of nursing.

Student benefits continue during the summer vacation if the student meets two additional requirements. The period of non-attendance must not be more than four calendar months, and the student must intend to be a full-time student immediately following this period.

When a child who is receiving benefits reaches age 17½ a notice is sent to the adult who receives the benefits for the child. The notice tells the adult to contact the social security office immediately if the child will be a full-time student at age 18.

Failure to contact the office will cause his checks to stop the month before the child is 18.

Student benefits are terminated when a student marries, dies, is no longer a full-time student or becomes 22
