# **NEW YORK CITY IS** "17 CITIES IN ONE"

N.Y.C.'s Rosemary Joyce 1970 Summer Festival Queen

New York City-"the town with a lot of heart," as Astro-naut Neil Armstrong called it-is really many cities in one. To prove the point, the New York Convention and Visitors Bureau has selected "17 Cities in One for Summer '70" as the theme of its 17th annual Sum-

mer Festival season.
A list of the 17 "cities" is included in the Visitors Bureau's free "Vacation Planning Kit," which also contains a new list of "20 Free Things To Do," a Weekend Folder, a full-color Visitor's Guide and Map, a seasonal Calendar of Events, and guides to hotels,

restaurants and shops.

A free copy of New York
City's "Vacation Planning Kit" may be obtained by writing or dropping by the New York Convention and Visitors Bureau, 90 East 42nd Street, New York City 10017, open every day from 9 a.m. to 6 p.m.

Among the 17 New York "cities" are Rockefeller Center, Greenwich Village, Harlem, Chinatown and Little Italy-as well as "The City of Music," "The City of Finance," "The City of Shops," "The City of Sports" and "The City of Sights."

Among the 20 free things to do are attending outdoor performances of the Metropolitan Opera, the New York Philharmonic and the Shakespeare Festival Theatre-in the city parks. The Stock Exchanges offer free tours, and even the Modern Museum is now free on Monday afternoons and evenings. Free tickets to TV shows are available at the Visitors Bureau Information Center on a day-to-day, first-come, firstserved basis.

### Social Security DISABLED WORKER NEWS

In most instances, disability claims take a longer period to process than other social security claims. The extra processing time is due to additional documentation, such as medical reports and different procedures in the claims process.

By applying as early as possible, the complete processing of the claim can be finished before the six months waiting period has expired. If the claim for benefits is approved, you get a check at the earliest possible time.

File Early For Disablity What do you do if you get so sick or injured you can't work? One of the things you should do is see if you are eligible for disabilty payments under the social security law. Although there are no benefits payable during the first 6 months of a disability, J.M. Talbot, socal security manager, urges everyone who believes he may be entitled to monthly benefits to apply for them as soon as possible after becoming disabled.

#### LOST MEDICARE CARD

Have you lost your Medicare

to the hospital that Medicare

Perhaps the most important is that it furnishes your own claim number to the doctor must contain this complete For further information, con-number in order for Medicare

If you do lose your card, call or visit your nearest social sefor you. However, it will take about three weeks to get this duplicate, so make your request as soon as you realize that you have lost your original. The hospital can, if necessary, admit you without your Medicare card; but, you can avoid considerable difficulty if you secure a new card before you become ill and need

For further information, contact the Social Security Office at 3000 West Harris Ave. (P. O. Box 3808) in San Angelo, Texas, or see the representative when he is in your area.

### DRIVERS NEEDED

## You and the Automobile Crisis

longer be regarded as a routine matter. More than 56,000 men, traffic accidents in the U.S. last year. Over 41/2 million suffered injuries. The actual dollar cost expenses and property damage rose to an astonishing \$16 billion; according to the Atlantic Mutual Insurance Company,

Auto insurance costs also continue to rise intolerably, And despite rate increases, the insurance companies pay out more in claims each year than they accumulate in premiums.

If 150 people were to die suddenly and violently each day from some mysterious new plague, we would immediately declare an emergency and apply the nation's entire resources to ending the epidemic. Yet on the highways 150 or more persons are dying daily.

What can you do? You... and only you. . . can apply and maintain the necessary pressures on legislators, law en-

forcement agencies and auto manufacturers. You can provoke action and, the experts at Atlantic assure us, you can get positive, life-saving results.

Results in our 50 state capitals. In the drafting rooms and the board rooms of auto builders. In high school classrooms. In judges' chambers, In Congress. And in your home

community. Atlantic believes that individual and small-group pressures, from youth, housewives and executives can initiate a swelling and effective appeal to state and national lawmakers, drivers, manufacturers and law enforcement agencies.

All must be made aware that there is truly a deep and

JURY FUND

ACTION 1 - Lock your car and pocket the key. Auto women and children died in thefts are skyrocketing-and each stolen car is 200 times more likely to wind up in an accident. Most thefts seem including wages lost, medical invited, because 75 per cent of

stolen cars are left unlocked. often with keys in the ignition.

ACTION 2 - Develop the art of defensive driving. That's the common-sense ability to be certain that your car is at all times in the right place and the right speed in order to handle any potential situation.

ACTION 3 - Don't teach your youngster to drive. Leave that job to the professional instructor. Too many "good citizens" violate traffic regulations, and parents are no ex-

ACTION 4 - Legislate the drunken driver, the speeder and the traffic violator off the road. Many states today make it easy for dangerous drivers to keep driving. Write your legislator today; he'll welcome your support for new, safer standards.

ACTION 5 - Persuade auto manufacturers to build safer cars. It was recently estimated that one improvement, better bumpers, would save hundreds of lives annually-plus more than a billion dollars in repair costs, medical and legal bills.

Here are some other basic things you can do: keep your car in safe condition and don't lend it to anyone; observe traffic and safety laws and insist that others do; report unsafe road or lighting conditions to municipal officials.

Atlantic believes that the deaths and economic waste of universal desire for a reversal in the highway carnage is intolerthe rising trend of auto acci- able, that insurance costs need dents. To start with here are not keep climbing and that five concrete, practical things you-can do something about it.
