LIONS CLUB

Wednesday in the community The Lions Club met at noon on center. Charles Nicholson of San Angelo was a guest.

President Bill Watts told the members that the club had made a profit of \$121.55 on the Dr. Kit hypnotist show here on Monday night.

R. V. Hamilton, community services chairman of the Heart Association here, told members of a coronary pulmonary resuscitation program that would be offered here on March 1. Hamilton told the group that Sterling County made the record of giving the highest per capita gifts to the Heart Fund drive of any county in the state last year. He said a cake auction would be held at the benefit basketball game here February 18. Games start at 7 o'clock and all proceeds go to the Heart Fund drive.

Bobby Dodds announced that a junior high basketball tournament would be held here at the school gym, beginning on Thursday of this week. Four schools are entered.

Local Youth in Food Show Competition

IN DISTRICT FOOD SHOW

Seven Sterling County youth will demonstrate skills and knowledge in foods and nutrition against those of youth from 20 counties when they vie for honors in the District 4-H Food Show February 15 in Sweetwater.

Competing in four food entry classes will be Becky Hodges, senior main dishes; Cheryl Drennan, junior main dishes; Vicki Lawson, junior, side dishes; Carl Igo, junior, breads and desserts; Amy Hodges, senior, breads and desserts; Wesley Hodges, junior, snacks; Fred Thompson, senior, snacks.

They earned the right to compete at the district level when they took first place honors in the Sterling County 4-H Food Show held in January.

County and District 4-H Food Shows are sponsored by the Texas Agricultural Extension Service, the Texas A&M University System under the direction of Mrs. Jean Holland, County Extension agent at large.

School Kids to Get 3-Day Holiday

The Sterling School will have a local work day for teachers on Friday, February 21 and on Monday and Tuesday, February 24 and 25 the teachers will go to Bronte for in service days.

So, the school students get a total of three holidays this month of February, said principal Bobby Dodds.

New School Time Set

Daylight saving time starts all over on the last week of February AND the local school will start school classes at 8:30 each morning beginning February 26 and will get out or dismiss at 3:30 each afternoon, according to the principal Bobby Dodds. The change would take place on Monday but the inservice days being held at the Bronte school make the new schedule start on Wednesday.

Free Course in CPR

COURSE IN PULMONARY RESUSCITATION TO BE OFFERED HERE

Sponsored by Heart Association

A course in coronary pulmonary resuscitation will be offered here on Saturday, a March 1 in the community center for those desiring to take such a course, said R.V. Hamilton, community services chairman of the local health group. The course is a three hour course lasting from 1 till 5 that day.

A Mrs. Roach of Winters will be here to conduct or teach the course said Hamilton. Anyone interested is invited to take the course and especially firemen, teachers, nurses or nurses aides.

The course is open to all on a free basis.

Golf Tournament Winners Told

The winners of the Sterling Golf Association tournament last weekend were (1st) R. V. Hamilton, Leslie Cole and Dean Jones, (2) D. K. Hopkins, Mark Sullivan and Speedy Sparks and (3rd) Bobby Dodds, C.J. Copeland and Mickey Dodds.

The association holds a tournament twice a month if the weather permits.

Basketball Game to Benefit Heart Fund

At 7:00 p.m. Tuesday, February 18, there will be two independent basketball games in the Sterling High School gymnasium to benefit the Heart Fund drive here. The games will match Carlsbad and the Miles Independents. There will be both a women and men's games. The men's team from Carlsbad plays in the YMCA Church League in San Angelo and the Miles team has played several benefit games at schools in the area as have the Miles women. Several Sterling City people play for Carlsbad and two Sterling City exes play for the Miles men team.

Local women playing for Carlsbad are Becky Gartman, Virgie Craig, Carolyn Stewart, Janie Harmon, Linda Holler and Ann Millard.

Local men playing for Carlsbad are Chris Gartman, Larry Mitchum, Don Moore, Barney Sisco, Mike Foster, Gary Foster, and Speedy Sparks.

Ken Peel will be playing for Miles and Randy Peel will be playing and coaching for Miles.

The officials of the games will be Milford Wiley and Bobby Dodds.

Everyone is urged to attend. All proceeds go to the Heart Fund.

NOTICE OF INTENT TO ENGAGE IN WEATHER MODIFICATION ACTIVITIES

Notice is hereby given that Colorado River Municipal Water District, 1318 E. 4th, Big Spring, Texas 79720, who holds License Number 75-5 of the State of Texas, intends to engage in an operation to change of attempt to change by artificial methods the natural development of atmospheric cloud forms for and on behalf of the Colorado River Municipal Water District located at P.O. Box 869, Big Spring, Texas 79720, and will conduct the program of weather modification designed to increase precipitation by means of the aerial application of silver iodide or other artificial nuclei as follows:

1. The area over, or within which, equipment may be operated shall include the counties of Lynn, Garza, Kent, Dawson, Borden, Scurry, Fisher, Martin, Howard, Mitchell, Nolan, Glasscock, Sterling, and Coke.

2. The target area, within which the precipitation is intended to be enhanced, can be described as follows:

The boundary may be described by a line beginning at a point or origin at Big Spring, Texas, and running along Hiway 87 in a northwesterly direction to Lamesa, thence north-northeast on Hiway 87 to the north border of Dawson County, thence east along the north border of Dawson, Borden and Scurry Counties to Hiway 84; thence southeast along Hiway 84 to Roscoe, in Nolan County; thence south-southeast to Maryneal; thence southwest to Silver in Coke County; thence south-southwest to Hiway 87 at a point approximately 13 miles northwest of Sterling City; thence northwesterly along Hiway 87 to the point of origin at Big Spring, Texas.

3. The materials, equipment and methods to be used in conducting the operation within this area of approximately 3500 square miles include a 3 cm radar system, cloud seeding aircraft, and the application of silver iodide ice nuclei, hygroscopic nuclei or other nuclei considered appropriate to the artificial nucleation of clouds or weather systems.

4. The person in charge of this program shall be Owen H. Ivie, Colorado River Municipal

Jr. High Basketball Tournament Here

Mrs. George Garner Buried Tuesday

Mrs. George Garner, 58, former Sterling City resident, died Sunday night in Mason Memorial Hospital after a lengthy illness.

Services were held Tuesday at 2 p.m. in the Mason Funeral Home with burial in the Gooch Cemetery.

She was born March 5, 1916 in Rockwall, was married to George Garner March 13, 1933 in Fort Stockton and lived in Sterling City before moving to Mason.

Survivors include her husband, two sisters, Mrs. Katherine McCauley of Fort Stockton and Mrs. Elizabeth Lain of Dallas.

The Rev. George Sullivan, a former Presbyterian minister in Sterling City and now of Hamilton, preached the service.

HOSPITAL NOTES

Patients in the Sterling County Hospital on Thursday morning of this week include:

Mrs. Marsh Gonzales
Charley Bright
Mrs. Mattie Meyer
Mrs. Iver Mercer
Mrs. Tom Cleveland

Dismissals since Thursday morning of last week were;

Coronado Garza
Mrs. Ann Knight
Maxine Hurley

Patients in the Sterling County Nursing Home on Thursday morning of this week were;

Mrs. Lovie Parker
Mrs. Luther Hallmark
Jim Pate
Mrs. Lura McClellan
Mrs. Edith Hudson
B. O. Bailey
Mrs. Ida Brown
Mrs. Jim Duke
Jim Duke
Mrs. Lucy Norman
W. J. Williams

JUNIOR BAKE Sale at the school gym Saturday night at 7.

In case of fire, dial 8-4771.

Water District, Big Spring, Texas.

5. The program will be operational during the period from April 15, 1975 to October 15, 1975.

6. Any persons who feel they may be affected in some adverse way by this program may file a complaint to the Texas Water Development Board, P. O. Box 13087, Capitol Station, Austin, Texas 78711.

(Signed) Owen H. Ivie, Colorado River Municipal Water District.

The annual Sterling Junior High Basketball Tournament is now in progress at the school gym.

It is both a boys and girls affair. The tourney actually began Thursday afternoon with the Robert Lee and Stanton teams starting the play. Then Sterling City and Water Valley played.

Today Water Valley teams engage the Stanton teams, with the girls playing at 3 and the boys at 4:15 p.m.

Saturday Robert Lee plays Water Valley at 3:30 and 4:45 and Sterling City plays Stanton at 6 and 7:15.

Everyone is invited out to the tournament and to see some good junior high basketball.

Mike Watts Named Distinguished Student

College Station—Michael E. Watts has earned 'Distinguished Student' ranking at Texas A&M University, announced Registrar Robert A. Lacy.

The undergraduate honor is awarded students who have excelled academically. Recipients must earn at least a 3.25 grade point ratio (out of a possible 4.0) during the most recent grading period.

Distinguished Student ranking is limited to 10 percent of TAMU's undergraduate enrollment.

Watts, the son of Mr. and Mrs. Billy Gene Watts, is a freshman aerospace engineering major.

FOR SALE— 98 Olds Luxury Sedan, \$1195. Roland Lowe.

Behind the 8-Ball

By the editor.

Although we have not yet got our write up of the San Antonio Livestock Show from Arthur Barlemann, Jr., we know that Melinda Terry showed the champion lamb carcass in that classification of the show.

Some of the other entrants from Sterling made placings and we will have them in our next issue of the paper.

8-BALL

Social Security Tips

Social security checks should be cashed within a reasonable time to prevent loss or theft, even though there's no time limit on cashing them, according to social security officials here.

'If your check is lost or stolen, get in touch with your nearest social security office at once,' a spokesman said. 'The check can be replaced, but it takes time. Handle your check carefully when you get it and you won't have to wait while it's being replaced.'

Social security pays over \$4 billion a month in benefit checks to almost 29 million people—eligible retired and disabled workers and their families and families of deceased workers who worked long enough under social security.

For further information contact the Social Security office at 3000 W. Harris Avenue, San Angelo, Texas 76901 or call 949-4608.

THAT'S A FACT

THE LONG WALK

FARM CENSUS TIME AGAIN—Farmers and ranchers throughout the United States are being asked to report on their agricultural operations during 1974. The 1974 Census of Agriculture is the 20th nationwide farm census since the first one in 1840. Report forms are mailed out in January and the Bureau of the Census would like to have them filled out and mailed back promptly. All information is confidential by law. The results, published only in statistical form, provide the yardstick by which American agricultural advancement is measured every five years. No information can be released which might reveal the operation of an individual farmer or rancher.

DUMP GROUND USERS—New regulations require burning of trash before dumping. Please dump from both sides of the pit. No car bodies or wire or old large appliances allowed.

Ingenious Triumphs Of Chemistry
GOOD NEWS ABOUT SCIENTIFIC ADVANCES

CRACKING GETS THE RUBBING ALCOHOL OUT OF YOUR GAS TANK

What do a washing machine agitator, dog food, aspirin and perfume have in common?

Without propylene, one of the basic chemicals made from oil and natural gas, these and countless other everyday products could not be made.

Propylene holds a unique position as a chemical raw material. It is one of the most important petrochemical building blocks and is also a significant component of gasoline. Catalytic cracking of petroleum to make high octane gasoline produces large amounts of propylene. Last year, only one quarter of this or about 11.5 billion pounds of propylene was separated from the gasoline for chemical use.

Although this is a relatively small volume when compared to other petrochemical building blocks, propylene, an odorless, colorless gas, winds up in countless products vital to the comfort and well being of Americans and to the strength of their economy.

A very significant end-use application of propylene is isopropyl alcohol. Whether it's called 2-propanol, dimethyl carbinol, isopropanol or just plain IPA, this propylene-derived product is, in fact, the rubbing alcohol in your medicine chest.

The Many Uses of IPA

IPA, in addition to its use as a household antiseptic, is also an important ingredient in the manufacture of hydrogen peroxide, solvents, anti-

stalling agents, dyes, aspirin, de-icing agents, surface coatings, insect repellent, printing ink, paint and varnish removers, latex paints and fuel additives.

Another major use of propylene is to make polypropylene, one of the most versatile plastic resins. Because of its superior physical properties—

strength, resistance to work fatigue, chemical and heat resistance, colorability and flex strength—polypropylene is finding its way into applications that dispell the myth that plastics are only good for cheap toys and olive stabbers.

The medical field recently has discovered the many assets of polypropylene. Pacemakers and artificial hearts now have parts made of polypropylene. It is also used as through-the-bone marrow pins, screws, staples, and as sutures to close contaminated wounds. Polypropylene has other medical uses such as dentures, disposable hypodermic needles and syringes, test tubes, soap dishes, graduated basins and thermometer holders.

The appliance and automotive industries are using a great deal of polypropylene these days. For example,

washing machine agitators, dishwasher innerliners and many other parts for major and small appliances are made of it.

When the Going is Tough

One of the most revolutionary uses is in car batteries. Most of the 1974-model U.S. cars now have batteries — and numerous other parts such as steering wheels, bucket seat backs and accelerator pedals — made of tough polypropylene.

Polypropylene fibers are being also used by the furniture and carpet industries because of their resistance to stains. And its toughness is causing polypropylene to become widely used in making cordage. These are just some of the many ways polypropylene is being used to provide better quality products for American consumers.

In addition to IPA and polypropylene and their many end-uses, propylene finds its way into synthetic rubbers, medicines, cosmetics, safety glass, food flavoring agents, adhesives, photographic chemicals, epoxy resins, leather tanning products, perfume, antifreeze, brake fluids, herbicides, dog food and poultry feed additives, nylon, wood preservatives, polishes, explosives and paper coatings.

When the many vital chemical applications of propylene are coupled with the fact that it is one of the components of gasoline that keeps the car engine running efficiently, it's easy to understand why propylene often is termed "lifeblood" for American industry.

SALES HELP WANTED

Texas Refinery Corp. offers opportunity for high income, cash bonuses, fringe benefits to mature individual in Sterling City area. Commission regardless of experience, airmail A. S. Pate, Pres. Texas Refinery Corp. Box 711, Ft. Worth, Tex. 76101.

NEWS of Travel

LET YOUR CHILD TAKE YOU THROUGH DENMARK

One of the questions you hear over and over again when tourists plan their vacation is: "Where do we find a place where all members of the family can have fun and where prices fit our family budgets?"

The answer is easy. For tots and teenagers, for 20-year-olds to senior citizens, Denmark offers a variety of fun that can't be found anywhere else.

Your children will be completely captivated by a visit to a real fairy-tale park with its Renaissance castle Egeskov, erected in a lake, on the island of Funen. In the barn there is a museum filled with vintage aeroplanes, cars and motorcycles.

Denmark is truly a children's wonderland. Of course there are summer camps, riding schools and sailing schools. But what about the real children's traffic school at Legoland? The miniature village in Jutland is virtually a children's paradise.

From June through September, you can ride the Veteran Railway every Sunday from legendary Elsinore (site of Hamlet's castle) to the resort of Gilleleje, and there's a parade every Friday by the Elsinore Girl Guards.

For the adventurous, there is Givskud Lions Park, where you'll see African Lions, enor-

mous elephants and gentle giraffes in natural surroundings. Driving your car among these exotic animals is comparable to enjoying a mini-safari.

At the Circus Building, Bennevis, Scandinavia's biggest circus, presents world artists in the ring every night, from mid-April to September 30. Tivoli, Denmark's world-famous fairy-tale garden in the heart of the city, is filled with amusements for children and adults, restaurants and dancing from May 1 to September 16. It features a fascinating playground, Children's Holiday Shows, the Pantomime Theater, The Open-Air Stage, the Tivoli Boy Guards, parades and fireworks. And every Tuesday throughout the summer, there is a very lively children's circus in the Odense Zoo.

Denmark even has its very special Hans Christian Andersen Festival held in the Funen Village, in his native town Odense, from July 6 to August 5, where children enact Andersen fairytales on an open-air stage, that will delight the whole family.

For more information on events for children in Denmark this year, write to: Danish National Tourist Office, Scandinavia House, 505 Fifth Ave., New York, N.Y. 10017.

NEWS OF SCIENCE

ENGINEERING FOR A BETTER WORLD

Bioenergetics, bioentrainment, bioenergotherapy, generic memory—scientific mumbo jumbo for ecology, right? Wrong! Translated, these words might sound more like dowsing, fire walking, mediums, levitation, faith healing and ESP, terms you might ordinarily associate with "hocus pocus" magic and occult. But not anymore. Engineers and scientists in Russia and more recently in the U.S. are taking these phenomena seriously while trying to explain how and why they occur and if there is practical value to these events. It's all called parapsychology.

At the recent International Convention of the Institute of Electrical and Electronics Engineers (IEEE), a team of American engineers described their investigations of parapsychological phenomena. With numerous referrals to Russian work in the new field, the group explained experiments to measure mental telepathy, to explain acupuncture, and to determine the effects of electric fields on human behavior.

One of the most widely heard-of forms of Extra Sensory Perception (ESP) is mental telepathy, the ability to pass information from one mind to another. ESP has three other subcategories—clairvoyance, direct passing of information from matter to mind; psychokinesis, mind over matter; and precognition, direct obtaining of information about the future.

Investigations both in this country and in Russia, parapsychology speakers told the IEEE audience, have convinced most researchers that one or all the forms of ESP exist. The Russians have conducted experiments with a woman who can move an object without touching it. They found that near the object that she moves there is enough electrical energy to light up a small florescent lamp. American scientists are seeking clues to clairvoyance and precognition.

While ESP is relatively easy to categorize, the phenomena associated with electromagnetic fields around living systems are much

more difficult to assign and analyze. The basic problem is measurement. How do you measure something that you can't prove exists?

One measurement method, discovered by the Russians, put a high voltage electric field around the subject which is then photographed with special film. This tech-

Dr. John Mihalasky, Newark College of Engineering, discussed parapsychology at IEEE INTERCON.

nique, called Kirlian photography, has helped to form some explanations of why acupuncture works. Kirlian photos show radiations around various body zones that coincide with acupuncture points. In fact a device called a tobiscope can actually find acupuncture points by using electronic circuits. To explain this, one American scientist postulates the existence of an unknown circulatory system in the body that seems to be composed of energy and electric fields.

Certainly the practical aspects of telepathy are intriguing and the possibilities in the biomedical areas are encouraging. But, all the benefits or parapsychological research are by no means obvious. As one engineer told the IEEE International Convention, "The potentialities of the individual human being are far greater than we ordinarily imagine them to be and far greater than the in-vogue models of man would lead us to think possible. We are finally beginning to discover some of these potentialities."

Reddy's helpful tips for your Electric Range

BAKING. Plan your oven meals. A complete meal can be cooked in the oven as economically as one food item. Get foods into the oven as soon as it's preheated - or don't preheat at all.

BOILING. When cooking vegetables, use a small amount of water. It takes less time to bring them to a boil. As soon as water reaches the boiling point, you can cut the setting back. When boiling water for coffee or tea, heat only as much as you need. Remember, too, that water comes to a boil quicker in a covered pan.

COOK AND FREEZE. Prepare double recipes for meals like spaghetti sauce, soups, and stews that take a long time to cook. Then freeze half for future use.

Pick up your FREE copy of "ENERGY CONSERVATION" Booklet from

Frigidaire

REWARD NOTICE

A reward of \$500.00 will be paid by the Texas Sheep and Goat Raisers Association to any person (other than law enforcement officers) giving information causing the arrest and first conviction of any person or persons found butchering or stealing any sheep or lambs or goats belonging to any Association member in good standing. When 2 or more persons give information, the above sum will be divided at the discretion of the Board of the Association. When two or more defendants are involved in a single crime, the total reward is limited to \$500.00, but the conviction of one defendant, even though the other defendants are acquitted will entitle the claimant or claimants to said sum of \$500.00. All claims must be submitted within ninety (90) days following conviction. If upon conviction, a defendant confesses other thefts, no additional rewards will be paid. All decisions concerning the payment of such reward and the conditions of payment will be made by the Board of Directors of the Association.
